Rep. John J. Walsh, from the 19th District, offered the following invocation:

“Heavenly Father, we come to You today expressing thanks for the many blessings You have bestowed upon those of us who are fortunate enough to live in this great state of Michigan. May we always be mindful of what a special treasure we have with our Great Lakes and unique peninsulas. Lord, we pray, that with Your guidance and Your will that this chamber will always be fraught with wisdom and compassion and free of selfish interest. Amen.”

The Speaker Pro Tempore called Associate Speaker Pro Tempore Opsommer to the Chair.

Motions and Resolutions

Reps. Stapleton, Meadows, Slavens, Townsend, Haugh, Smiley, Brown, Hovey-Wright, Darany, Lindberg, Segal, Talabi, Rutledge, Hobbs, Hammel, Irwin, Liss, Barnett, McCann, Lipton, Bauer, Melton, Byrum and LeBlanc offered the following resolution:

House Resolution No. 106.

A resolution to memorialize Congress to adopt legislation expressing the sense that national health care reform should ensure that the health care needs of women in the United States are met.

Whereas, Women without health insurance bear significant threats to their health and the health of their children. Uninsured women with breast cancer are more likely to die from the disease than insured women with breast cancer. Uninsured women do not receive adequate cancer screening exams, putting them at greater risk of a diagnosis for late-stage cervical cancer. Thirteen percent of all pregnant women are uninsured, making them less likely to seek prenatal care and more likely to experience an adverse health outcome after giving birth. The lack of, or inadequate receipt of, prenatal care is associated with pregnancy-related mortality 2 to 3 times higher, and infant mortality 6 times higher, than that of women receiving early prenatal care, and also is associated with an increased risk of low birth weight and preterm birth; and

Whereas, Women rely on women’s health care providers throughout their lives, for comprehensive primary and preventive care, surgical care, and treatment and management of both acute and long-term health problems. A “medical home” should ensure each woman direct access to women’s health care providers and care coordination throughout her lifetime. Heart disease is the leading cause of death for both women and men, but women are less likely than men to receive lifestyle counseling, diagnostic and therapeutic procedures, and cardiac rehabilitation and are more likely to die or have a second heart attack, demonstrating inequalities between women and men in access to health care; and

Whereas, High-costs of health care hit women particularly hard. Women pay sixty-eight percent more than men for out-of-pocket medical costs, due in large part to reproductive health care needs. In 2004, one in six women with individual health care coverage postponed, or went without, needed health care because they could not afford it. High-deductible health insurance plans are marketed as inexpensive options to young women, yet such plans often fail to cover pregnancy-related care, the most expensive health care event most young families face and the leading cause of hospital stays for young women; and

Whereas, Affordable health care is needed by women throughout life’s transitions, including starting a family, changing jobs, working part-time or full-time, divorce, caring for an elderly or sick family member, having a major disease, and retirement. Women are less likely than men to receive health insurance through their employers and more likely than men to be insured as a dependent, making them more vulnerable than men to insurance loss in the event of divorce or death of a spouse. The lack of affordable health care coverage creates barriers for women who want to change jobs or create their own small businesses; now, therefore, be it

Resolved by the House of Representatives, That we memorialize Congress to adopt legislation expressing the sense that national health care reform should ensure that the health care needs of women in the United States are met; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

The resolution was referred to the Committee on Health Policy.

Reps. Howze, Meadows, Ananich, Townsend, Lindberg, Haugh, Smiley, Brown, Hovey-Wright, Slavens, Darany, Segal, Talabi, Rutledge, Hobbs, Hammel, Irwin, Liss, Barnett, McCann, Dillon, Lipton, Bauer, Stapleton, Melton and Byrum offered the following resolution:

House Resolution No. 107.

A resolution to express the sense of this legislative body that the state of Michigan should intensify its efforts to reduce the high rates of teen pregnancies.

Whereas, Almost 800,000 teenagers become pregnant each year in the United States; and

Whereas, In 2008, there were 12,277 births to mothers between the ages of 15 and 19 in our state. In certain communities of Michigan, the rates of pregnancy far exceed the national and state averages. Detroit is a leader among American cities with the highest rates of births to teens. The recession has increased the difficulties stemming from teen pregnancies; and

Whereas, Despite progress over the last decade, nearly one-third of teenager girls in the United States become pregnant. This is the highest teen pregnancy rate among industrialized countries, and more than twice the rate of Canada; and

Whereas, Latina and African American teen girls are more likely than not to become pregnant at least once before the age of 20, and Native American teens have a birth rate more than double that of non-Hispanic white teens; and

Whereas, Teen pregnancy is closely linked to a number of critical social issues, such as poverty, educational attainment, involvement in the criminal justice and child welfare systems, and more. Teen childbearing is estimated to cost taxpayers in this country \$9.1 billion each year, most of which is due to costs associated with negative social and health outcomes for the children of teen parents; and

Whereas, A child is 9 times more likely to grow up in poverty if he or she is born to unmarried teen parents who have not yet completed high school. Less than half of mothers who have a child before they turn 18 ever graduate from high school, and less than two percent of mothers who have children before 18 have a college degree by age 30. Children of teen mothers are more likely to be born prematurely and at a low birth weight. Children of teen parents are twice as likely to suffer abuse and neglect than would occur if their mothers had delayed childbearing; and

Whereas, Fully 73 percent of adults and a plurality of teens wish that teens were getting more information about both abstinence and contraception; now, therefore be it

Resolved by the House of Representatives, That the members of this body believe that the state of Michigan should intensify its efforts to reduce the high rates of teen pregnancies and births by raising awareness about the importance of this critical issue, promoting parent-child communication, and investing in programs that have been proven to reduce teen pregnancy; and be it further

Resolved, That copies of this resolution be transmitted to the Department of Community Health.

The resolution was referred to the Committee on Health Policy.

Reps. Rutledge, Meadows, Slavens, Ananich, Townsend, Lindberg, Haugh, Smiley, Darany, Talabi, Hovey-Wright, Brown, Segal, Irwin, Liss, Barnett, McCann, Lipton, Bauer, Stapleton, Melton, Byrum, Kandrevas and LeBlanc offered the following concurrent resolution:

House Concurrent Resolution No. 32.

A concurrent resolution to urge the Department of Community Health to promote programs to identify and address inequities in the prevention, treatment, and research of diseases threatening the health of women.

Whereas, There is substantial research indicating that women do not receive the same level of health care as men. Women are less often referred for diagnostic tests, are less represented in health studies, and are less often treated for diseases compared to men with the same condition. There is considerable evidence that women receive less aggressive treatment for certain illnesses, including cardiovascular problems, than men with similar symptoms; and

Whereas, Physiological differences between men and women contribute to significant distinctions in how certain diseases are diagnosed and treated and the levels of attention from the medical research community. Women smokers are far more likely to develop lung cancer, far more vulnerable to HIV in contacts with men, and far more likely to live in a long-term facility. Women also face difficulties with insurance beyond those faced by men; and

Whereas, In spite of efforts by women's groups to achieve parity in treatment and research, there are many aspects of health care that need to be examined before true equity is realized; and

Whereas, Government agencies and policies play an important role in promoting public health. Public funding for programs, initiatives to increase public awareness of health problems, and encouragement of research can make an enormous difference in how a specific problem is addressed; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we urge the Department of Community Health to promote programs to identify and address inequities in the prevention, treatment, and research of diseases threatening the health of women; and be it further

Resolved, That copies of this concurrent resolution be transmitted to the Department of Community Health.

The concurrent resolution was referred to the Committee on Health Policy.

Rep. Stamas moved that the bill be given immediate effect.

The motion prevailed, 2/3 of the members serving voting therefor.

Reps. Rutledge and Melton moved that their names be removed as co-sponsors of the bill.

The motion prevailed.

Rep. Cotter, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

For multiple reasons, I voted against House Bill 4496, which would allow for four year degree programs to be offered by Community Colleges in Michigan. I believe this is a potentially costly mistake for Michigan taxpayers and could prove to be a detriment to the relationships that have been fostered between many of our 28 community colleges and 15 public universities.

Implementing the necessary technology, faculty and infrastructure to offer the programs necessary for certain four year degrees would be expensive, and with recent funding reductions to both community colleges and public universities, the only way for community colleges to raise these funds is through increased tuition to their students or an increased millage to local taxpayers.

In addition, Michigan’s community colleges and universities have done an outstanding job of building partnerships to provide top notch educational opportunities to our citizens. I believe that the changes that would result from House Bill 4496 could create competition between these institutions and ultimately have a negative impact on the existing relationships.

In closing, as a member of both the Appropriations Subcommittee on Higher Education and the Appropriations Subcommittee on Community Colleges, I have had the opportunity to see the great things that are happening on the campuses of community colleges and four year universities and Michigan should be proud of the excellent educational opportunities that we offer to our citizens. However, I cannot support additional spending that could result in higher taxes and higher tuition. I believe now is the time to encourage partnerships, not impede them.”

By unanimous consent the House returned to the order of

The question being on agreeing to the title of the bill,

Rep. Stamas moved to amend the title to read as follows:

A bill to amend 1957 PA 261, entitled "Michigan legislative retirement system act," by amending section 75 (MCL 38.1075), as amended by 1998 PA 501.

The motion prevailed.

The House agreed to the title as amended.

Rep. Stamas moved that the bill be given immediate effect.

The motion prevailed, 2/3 of the members serving voting therefor.

Reps. Agema, Ananich, Bauer, Bledsoe, Brown, Brunner, Byrum, Callton, Cavanagh, Constan, Cotter, Daley, Damrow, Denby, Dillon, Farrington, Forlini, Foster, Genetski, Glardon, Goike, Haines, Haugh, Hooker, Horn, Hovey-Wright, Huuki, Jenkins, Kandrevas, Knollenberg, Kowall, LaFontaine, Lane, Lipton, Liss, Lori, Lund, Lyons, MacGregor, McBroom, McCann, McMillin, Moss, Muxlow, Nathan, Nesbitt, O'Brien, Oakes, Olson, Opsommer, Outman, Pettalia, Poleski, Potvin, Price, Pscholka, Santana, Roy Schmidt, Scott, Segal, Shirkey, Slavens, Smiley, Somerville, Stamas, Switalski, Tyler, Walsh and Zorn were named co-sponsors of the bill.

Rep. Womack, having reserved the right to explain his protest against the passage of the bill, made the following statement:

"Mr. Speaker and members of the House:

I believe this legislation falls short of its intended objective. All members currently serving are not affected by this legislation. I believe this is a disingenuous attempt to placate the citizens of Michigan by suggesting we are eliminating free life time health care benefits. The current benefits available for legislators who have served their time is neither free or life time. If all serving were eliminated from receiving the benefits available I would be in support. However, an amendment to do just that was not supported."

House Bill No. 4061, entitled

A bill to amend 1998 PA 58, entitled "Michigan liquor control code of 1998," by amending section 1027 (MCL 436.2027), as amended by 2010 PA 213.

Was read a third time and passed, a majority of the members serving voting therefor, by yeas and nays, as follows:
