Sec. 73. (1) A provider's energy optimization plan shall be filed, reviewed, and approved or rejected by the commission and enforced subject to the same procedures that apply to a renewable energy plan.

(b) The cost and benefit analysis and other justification for specific programs and measures included in a proposed EO plan.

(c) Whether the proposed EO plan is consistent with any long-range resource plan filed by the provider with the commission.

(d) Whether the proposed EO plan will result in any unreasonable prejudice or disadvantage to any class of customers.

(e) The extent to which the EO plan provides programs that are available, affordable, and useful to all customers.
