

**NATURAL RESOURCES AND ENVIRONMENTAL PROTECTION ACT (EXCERPT)**  
**Act 451 of 1994**

**324.11526a Solid waste generated out of state; acceptance by owner or operator of landfill prohibited; exceptions; disposal capacity.**

Sec. 11526a. (1) Beginning October 1, 2004, in order to protect the public health, safety, and welfare and the environment of this state from the improper disposal of waste that is prohibited from disposal in a landfill, and in recognition that the nature of solid waste collection and transport limits the ability of the state to conduct cost effective inspections to ensure compliance with state law, the owner or operator of a landfill shall not accept for disposal in this state solid waste, including, but not limited to, municipal solid waste incinerator ash, that was generated outside of this state unless 1 or more of the following are met:

(a) The solid waste is composed of a uniform type of item, material, or substance, other than municipal solid waste incinerator ash, that meets the requirements for disposal in a landfill under this part and the rules promulgated under this part.

(b) The solid waste was received through a material recovery facility, a transfer station, or other facility that has documented that it has removed from the solid waste being delivered to the landfill those items that are prohibited from disposal in a landfill.

(c) The country, state, province, or local jurisdiction in which the solid waste was generated is approved by the department for inclusion on the list compiled by the department under section 11526b.

(2) Notwithstanding section 11538 or any other provision of this part, if there is sufficient disposal capacity for a county's disposal needs in or within 150 miles of the county, all of the following apply:

(a) The county is not required to identify a site for a new landfill in its solid waste management plan.

(b) An interim siting mechanism shall not become operative in the county unless the county board of commissioners determines otherwise.

(c) The department is not required to issue a construction permit for a new landfill in the county.
