Dr. Mark T. Barclay, Pastor of Living Word Church in Midland, offered the following invocation:

“Heavenly Father,

Thank You for each of these great servants here today who are willing and obedient to the call on their life, whom, in Your providence, You have chosen to help govern our great state, and to help serve and protect the great citizens and residents of Michigan.

I pray today for a special anointing to be upon each of them. I pray for the wisdom of God to be evident in their lives and in their sessions. I pray for safety and divine protection over them and their families, and I thank You for their sacrifice. I pray for health and strength in their bodies. I pray for peace in their hearts and that they will always be sharp and clear-minded. I pray that You will always guide their steps into proper decisions, and that they will be able to stand strong by their convictions and beliefs and ultimately be able to support the Constitution of the state of Michigan and the United States Constitution.

I pray that today will be a powerful day for them and that they will accomplish much as they do their work under Your eye and under the shadow of Your wing.”

Rep. Greig moved that Rep. Garrett be excused from today’s session.
The motion prevailed.

The Speaker Pro Tempore assumed the Chair.

Motions and Resolutions

Reps. Afendoulis, Cochran, Ellison, Faris, Gay-Dagnogo, Greig, Kelly, Leutheuser and Maturen offered the following resolution:

House Resolution No. 45.

A resolution to declare March 25, 2017, as Greek Independence Day in the state of Michigan.

Whereas, The concept of democracy, in which the supreme power to govern was vested in the people, was developed by the ancient Greeks; and

Whereas, The Founding Fathers of the United States were heavily influenced by the political and philosophical principles of ancient Greece; and

Whereas, Our Greek American community enriches our economic and cultural development through its many contributions to science, technology, medicine, government, economics, architecture, and the arts; and

Whereas, Michigan is home to nearly 50,000 residents of Greek descent; and

Whereas, Greece and the United States have been allies through two World Wars, the Korean conflict, Vietnam, Desert Storm, and the Cold War; and

Whereas, Winston Churchill once said, “If there had not been the virtue and courage of the Greeks, we do not know which the outcome of World War II would have been” and “no longer will we say that Greeks fight like heroes, but that heroes fight like Greeks”; and

Whereas, March 25, 2017, marks the 196th anniversary of the uprising that led to the War of Greek Independence from the Ottoman Empire; now, therefore, be it

Resolved by the House of Representatives, That the members of this legislative body declare March 25, 2017, as Greek Independence Day in the state of Michigan. We thank those of Greek heritage for the important contributions they have made to our state and our country.

The question being on the adoption of the resolution,

The resolution was adopted.

Reps. Faris, Cochran, Ellison, Gay-Dagnogo, Greig, Maturen and Sowerby offered the following resolution:

House Resolution No. 46.

A resolution to declare March 24, 2017, as Youth Parenting Awareness Day in the state of Michigan.

Whereas, In 2015, there were 6,412 births to teen mothers in Michigan, accounting for 5.7 percent of all births in the state; and

Whereas, In 2014, 16.8 percent of births to teens mothers ages 15-19 were not the mother's first birth; and
Whereas, Young parents require additional support, services, and resources to ensure the health and well-being of their children; and

Whereas, Young parents often face additional hardships in education, employment opportunities, financial stability, access to housing, child care services, and maternal and infant health. Young parents who receive additional support are more likely to finish high school or get their GED, pursue higher level education, achieve and maintain employment, and maintain stable housing. Supporting young parents leads to better health and social outcomes for the children of young parents; and

Whereas, Young parents are important, contributing members within their communities; now, therefore, be it Resolved by the House of Representatives, That the members of this legislative body declare March 24, 2017, as Youth Parenting Awareness Day in the state of Michigan.

The question being on the adoption of the resolution,

The resolution was adopted.

Reps. Yanez, Love, Hertel, Moss, Hammoud, Lucido, Rabhi, Gay-Dagnogo, Sabo, Cochran, Ellison, Greig, Maturen and Sowerby offered the following resolution:

House Resolution No. 47.

A resolution to declare March 22, 2017, as United Nations Water Day in the state of Michigan.

Whereas, The Universal Declaration of Human Rights was adopted on December 10, 1948, to prevent tragedies like those of World War II and strive for the security of humanity. Article 25 of the Declaration states that "Everyone has the right to a standard of living adequate for the health and well-being of himself and of his family." It is important that we, as citizens of a United Nations Member State, recognize this important day to reaffirm our commitment to helping others and working together for a more tranquil and healthy world; and

Whereas, United Nations Water Day recognizes the importance of clean water as a human right; clean water is integral to the global economy and international security, and nearly 1.5 billion laborers around the world work in water-related sectors; and

Whereas, Water stores over two million terawatt hours per year; the world's annual energy consumption is 150,000 terawatt hours per year; and

Whereas, Lake Superior contains enough water to submerge North and South America under one foot of fresh water; and

Whereas, 525,886 jobs in Michigan are directly connected to the Great Lakes; and

Whereas, The Great Lakes make up one-fifth of the world's fresh water supply and are a source of drinking water for about 40 million people; and

Whereas, March 22 has been celebrated as United Nations Water Day since 1993. The United Nations serves people of all backgrounds and is committed to upholding the values of human rights; now, therefore, be it

Resolved by the House of Representatives, That the members of this legislative body declare March 22, 2017, as United Nations Water Day in the state of Michigan. It is with great honor and appreciation that we take this time to join other states and nations in expressing our commitment to the availability of water; On this day, we will celebrate and honor the noble goal of pure water in our state, our country, and our world.

The question being on the adoption of the resolution,

The resolution was adopted.

Reps. Sabo, Chang, Lucido, Hertel, Ellison, Wittenberg, Moss, Camilleri, Gay-Dagnogo, Hughes, Sneller, Rabhi, Yanez, Pagan, Lasinski, Hammoud, Geiss, Love, Zemke, Chirkun, Guerra, Cochran, Brinks, Howell, VanSingel, Brann, Griffin, VanderWall, Maturen, Bellino, Faris, Greig and Sowerby offered the following resolution:

House Resolution No. 48.

A resolution to memorialize the Congress of the United States to continue full funding of the Great Lakes Restoration Initiative.

Whereas, The Great Lakes are a critical resource for our nation, supporting the economy and a way of life in Michigan and the other seven states within the Great Lakes region. The Great Lakes hold 20 percent of the world's surface freshwater and 90 percent of the United States' surface freshwater. This globally significant freshwater resource provides drinking water for more than 30 million people and directly supports 1.5 million jobs, generating \$62 billion in wages; and

Whereas, The Great Lakes Restoration Initiative (GLRI) provides essential funding to restore and protect the Great Lakes. This funding has supported long overdue efforts to clean up toxic pollution, reduce runoff from cities and farms, combat invasive species like the Asian carp, and restore fish and wildlife habitat. Since 2010, the federal government has partnered with public and private entities and invested more than \$2 billion in over 2,900 projects throughout the region. Over its first six years, the GLRI has provided more than \$425 million for more than 500 projects in Michigan alone; and

Whereas, GLRI projects are making a significant difference. They have restored more than 150,000 acres of fish and wildlife habitat; opened up fish access to more than 3,400 miles of rivers; helped implement conservation programs on more than 1 million acres of farmland; and accelerated the cleanup of toxic hotspots. In Michigan, GLRI funding has been instrumental in removing contaminated sediments from Muskegon Lake, the River Raisin, and the St. Marys River; in restoring habitat along the St. Clair River, Cass River, Boardman River, and the Keweenaw Peninsula; and in the delisting of White Lake in Muskegon County and Deer Lake in the Upper Peninsula as areas of concern. The Brookings Institution estimates that every dollar invested in the Great Lakes produces two dollars in long-term economic benefits; and

Whereas, While a significant investment, past GLRI funding represents only a small portion of the amount needed to restore and protect the Great Lakes. Toxic algal blooms, beach closings, fish consumption advisories, and the presence of contaminated sediments continue to limit the recreational and commercial use of the Great Lakes. The 2014 shutdown of the city of Toledo's drinking water system due to a toxic algal bloom, forcing more than a half million people to find another source for drinking water, is just one example of how much still needs to be done; and

Whereas, President Donald Trump's 2018 federal budget proposes to eliminate funding for the GLRI. This proposed \$300 million cut would end the federal partnership with the Great Lakes states, ignoring the national significance of our country's largest reserve of drinkable, surface freshwater and jeopardizing the momentum from more than a decade of unprecedented regional cooperation. It is a short-sighted, short-term cost-saving measure with long-term implications. Restoration efforts will only become more expensive and more difficult if they are not addressed in the coming years; now, therefore, be it

Resolved by the House of Representatives, That we memorialize the Congress of the United States to continue full funding of the Great Lakes Restoration Initiative; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

The resolution was referred to the Committee on Natural Resources.

Reps. Camilleri, Moss, Schor, Hammoud, Zemke, Geiss, Greig, Pagel, Rabhi, Elder, Pagan, Sowerby, Clemente, Neeley, Ellison, Lucido, Wittenberg, Gay-Dagnogo, Byrd, Scott, Brinks, Durhal, Sneller, Liberati, Lasinski, Robinson, Guerra, Chang, Phelps, Green, Yanez, Hertel, Singh, Jones, Love, Cochran, Santana, Chirkun, Peterson, Dianda, Greimel, Faris, LaGrand, Brann, Kesto, Bellino, Hoadley and Maturen offered the following resolution:

House Resolution No. 49.

A resolution to memorialize the Congress of the United States to maintain funding for federal programs that support the restoration, protection, and economic vitality of the Great Lakes.

Whereas, The Great Lakes are a critical resource for our nation, supporting the economy and a way of life in Michigan and the other seven states within the Great Lakes region. The Great Lakes hold 20 percent of the world's surface freshwater and 90 percent of the United States' surface freshwater. This globally significant freshwater resource provides drinking water for more than 30 million people and directly supports 1.5 million jobs, generating \$62 billion in wages; and

Whereas, The President's FY 2018 federal budget proposes to eliminate federal programs that support tourism and other water-dependent businesses of the Great Lakes. The proposed budget would end funding for the Great Lakes Restoration Initiative and the Sea Grant Program; and

Whereas, The Great Lakes Restoration Initiative has provided crucial funding to support long overdue work to protect and restore the Great Lakes. In partnership with the states, local governments, and other organizations, the federal government has invested more than \$2 billion in over 2,900 projects over the last seven years. These projects have cleaned up toxic pollution, reduced runoff from cities and farms, combatted invasive species, and restored fish and wildlife habitat. They have made a significant difference and represent a sound investment in both the environment and the economies of the Great Lakes region; and

Whereas, The National Sea Grant Program has for over 50 years created a link between universities and our nation's coastal economies. The Sea Grant Program has supported practical research at top universities, and more importantly, helped apply this research to real-life problems through outreach and education. With programs in Michigan and 29 other states, the Sea Grant network has worked to grow the Great Lakes' and coastal economies. It has helped commercial and recreational fishers, boaters, coastal communities, and many others learn how to sustainably balance and maximize the use of our coastal resources; and

Whereas, Far more work needs to be done. Whether toxic algal blooms impacting a major city's water supply, invasive species threatening billion dollar fisheries, or contaminated sediments restricting recreational opportunities, limitations on and threats to the use of the Great Lakes remain. These problems are too large for any one entity to solve. The federal government needs to remain an active partner with the Great Lakes region; now, therefore, be it

Resolved by the House of Representatives, That we memorialize the Congress of the United States to maintain funding for federal programs that support the restoration, protection, and economic vitality of the Great Lakes; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

The resolution was referred to the Committee on Natural Resources.

Reps. Wittenberg, Sowerby, Love, Lucido, Hertel, Ellison, Sabo, Moss, Camilleri, Gay-Dagnogo, Hughes, Sneller, Rabhi, Yanez, Chang, Pagan, Lasinski, Hammoud, Geiss, Zemke, Chirkun, Guerra, Cochran, Brinks, Howell, VanSingel, Brann, Griffin, Maturen, VanderWall, Bellino, Faris and Greig offered the following concurrent resolution:

House Concurrent Resolution No. 5.

A concurrent resolution to memorialize the Congress of the United States to continue full funding of the Great Lakes Restoration Initiative.

Senate Concurrent Resolution No. 7.

A concurrent resolution to support the recommendations of the Chicago Area Waterway System Advisory Committee to prevent Asian carp from entering the Great Lakes.

Whereas, The Chicago area waterway system serves as a pathway for aquatic invasive species to move between the Great Lakes and Mississippi River basins. Zebra mussels and other species spread from the Great Lakes to the Mississippi River and its tributaries through this man-made connection. Now, Asian carp are on the brink of using this same route to invade the Great Lakes from the Mississippi River basin; and

Whereas, Juvenile Asian carp continue to migrate upstream and are now within a day's swim of Lake Michigan. In the last few years, juvenile Asian carp have moved 90 miles closer to Lake Michigan, leaving them only 47 miles from the Great Lakes. While electrical barriers currently stand in their way, research indicates that those barriers may not be effective at stopping small fish; and

Whereas, The impacts of Asian carp to the ecosystems and economies of the Great Lakes states and local communities will be catastrophic. Invasive species established in the Great Lakes already cost the region more than \$100 million per year. Asian carp could add dramatically to this cost if they move through the Chicago area into the Great Lakes. These carp are voracious filter feeders and could out-compete the native fish of the Great Lakes, threatening a \$7 billion sport and commercial fishery. History has demonstrated that, once established, aquatic invasive species like Asian carp are nearly impossible to eradicate; and

Whereas, The Chicago Area Waterway System Advisory Committee was formed in May 2014 with the goal of reaching consensus on a set of recommendations for elected and appointed local, state, and federal officials and the public on short- and long-term measures to prevent Asian carp and other aquatic invasive species from moving between the Great Lakes and Mississippi River basins through the Chicago area waterway system; and

Whereas, The diverse, 32-member advisory committee reached consensus in a letter to the President of the United States on a specific system of control points to prevent the two-way interbasin transfer of aquatic invasive species. It also reached consensus on supporting immediate actions at the Brandon Road Lock and Dam in Joliet, Illinois, to prevent the risk of Asian carp from migrating upstream while the system of control points is evaluated as a long-term solution for all aquatic invasive species; and

Whereas, The best long-term solution will prevent Asian carp from entering the Great Lakes while preserving as much as possible the current uses of the Chicago area waterways. Options that would change shipping on these waterways should only be pursued after all other options have been exhausted; and

Whereas, The costs of preventing Asian carp from entering the Great Lakes are substantially lower than the costs to the ecosystems and economies of the Great Lakes states if Asian carp were to become established; now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That we support the Chicago Area Waterway System Advisory Committee recommendations to implement immediate control technologies at Brandon Road Lock and Dam in Joliet, Illinois, and to further investigate the specific system of control points for long-term movement of aquatic invasive species into and out of the Great Lakes; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States, the President of the United States Senate, the Speaker of the United States House of Representatives, the members of the Michigan congressional delegation, and the Commanding General and Chief of Engineers of the United States Army Corps of Engineers.

The Senate has adopted the concurrent resolution.

Reps. Cochran, Ellison, Faris, Gay-Dagnogo, Greig, Kelly, Leutheuser and Maturen were named co-sponsors of the concurrent resolution.
