12 that a decision of the director is made under section 1315(6). If a  
13 permit applicant submits a petition under section 1315(1), the

12 applications for the same type of permit, based on the date on

22 States ~~army corps of engineers~~ **ARMY CORPS OF ENGINEERS** supplements,  
23 in identifying wetland boundaries under this part, including, but  
24 not limited to, section 30307.

25 Sec. 30304. Except as otherwise provided in this part or by a  
26 permit issued by the department under ~~sections 30306 to 30314~~ **THIS**  
27 **PART** and pursuant to part 13, a person shall not do any of the

1 following:

2 (a) Deposit or permit the placing of fill material in a  
3 wetland.

5 from a wetland.

6 (c) Construct, operate, or maintain any use or development in  
7 a wetland.

8 (d) Drain surface water from a wetland.

9 Sec. 30305. (1) Activities that require a permit under part  
10 325 or part 301 or a discharge that is authorized by a discharge  
11 permit under section 3112 or 3113 do not require a permit under  
12 this part.

13 (2) The following uses are allowed in a wetland without a  
14 permit subject to other laws of this state and the owner's  
15 regulation:

18 (c) Hiking.

19 (d) Grazing of animals, including fencing and post placement  
20 if the fence is designed to control livestock, does not exceed 11  
21 feet in height, and utilizes an amount of material that does not  
22 exceed that of a woven wire fence utilizing 6-inch vertical spacing  
23 and posts.

24 (e) Farming, horticulture, silviculture, lumbering, and  
25 ranching activities, including plowing, irrigation, irrigation  
26 ditching, seeding, cultivating, minor drainage, harvesting for the  
27 production of food, fiber, and forest products, or upland soil and

1 water conservation practices. All of the following apply for the  
2 purposes of this subdivision:

3 (i) Beginning October 1, 2013, to be allowed in a wetland  
4 without a permit, these activities shall be part of an established  
5 ongoing farming, ranching, horticultural, or silvicultural  
6 operation. Farming and silvicultural activities on areas lying  
7 fallow as part of a conventional rotational cycle are part of an  
8 established ongoing operation, unless modifications to the  
9 hydrological regime or mechanized land clearing are necessary to  
10 resume operation. Activities that bring into farming, ranching,  
11 horticultural, or silvicultural use an area not in any of these  
12 uses, or that convert an area from a forested or silvicultural use  
13 to a farming, ranching, or horticultural use, are not part of an  
14 established ongoing operation.

15 (ii) Minor drainage does not include drainage associated with  
16 the immediate or gradual conversion of a wetland to a nonwetland,  
17 or conversion from 1 wetland use to another. Minor drainage does  
18 not include the construction of a canal, ditch, dike, or other  
19 waterway or structure that drains or otherwise significantly  
20 modifies a stream, lake, or wetland.

26 or former 1979 PA 203.

27 (g) Construction or maintenance of farm or stock ponds.

1 (h) Maintenance of an agricultural drain, regardless of  
2 outlet, if all of the following requirements are met:

3 (i) The maintenance includes only activities that maintain the  
4 location, depth, and bottom width of the drain as constructed or  
5 modified at any time before July 1, 2014.

6 (ii) The maintenance is performed by the landowner or pursuant  
7 to the drain code of 1956, 1956 PA 40, MCL 280.1 to 280.630.

8 (iii) The maintenance does not include any modification that  
9 results in additional wetland drainage or conversion of a wetland  
10 to a use to which it was not previously subject.

11 (i) Maintenance of a drain that was legally established and  
12 constructed pursuant to the drain code of 1956, 1956 PA 40, MCL  
13 280.1 to 280.630, if the drain was constructed before January 1,  
14 1973 or under a permit issued pursuant to this part. As used in  
15 this subdivision, "maintenance of a drain" means the physical  
16 preservation of the location, depth, and bottom width of a drain  
17 and appurtenant structures to restore the function and approximate  
18 capacity of the drain as constructed or modified at any time before  
19 July 1, 2014, including the placement of spoils removed from the  
20 drain in locations along that drain where spoils have been  
21 previously placed. Maintenance of a drain under this subdivision  
22 does not include any modification that results in additional  
23 wetland drainage or conversion of a wetland to a use to which it  
24 was not previously subject.

25 (j) Construction or maintenance of farm roads, forest roads,  
26 or temporary roads for moving mining or forestry equipment, if the  
27 roads are constructed and maintained in a manner to ensure that any

1 adverse effect on the wetland will be minimized. **BORROW MATERIAL**  
2 **FOR ROAD CONSTRUCTION OR MAINTENANCE SHALL BE TAKEN FROM UPLAND**  
3 **SOURCES IF FEASIBLE. IN DETERMINING WHETHER AN ALTERNATIVE WILL**  
4 **MINIMIZE ANY ADVERSE EFFECT ON THE WETLAND, THE DEPARTMENT SHALL**  
5 **CONSIDER COST, EXISTING TECHNOLOGY, AND LOGISTICS IN LIGHT OF**  
6 **OVERALL PROJECT PURPOSES.**

7 (k) Maintenance of public streets, highways, or roads that  
8 meets all of the following requirements:

9 (i) Does not include any modification that changes the  
10 original location or footprint.

11 (ii) Is done in a manner that minimizes any adverse effect on  
12 the wetland.

13 (l) Maintenance or repair of utility lines and associated  
14 support structures that meets all of the following requirements:

15 (i) Is done in a manner that minimizes any adverse effect on  
16 the wetland.

17 (ii) Does not include any modification to the character,  
18 scope, or size of the originally constructed design.

19 (iii) Does not convert a wetland area to a use to which it was  
20 not previously subject.

21 For the purposes of this subdivision and subdivision (m),  
22 "utility line" means any pipe or pipeline used for the  
23 transportation of any gaseous, liquid, liquescent, or slurry  
24 substance, for any purpose, and any cable, line, or wire for the  
25 transmission for any purpose of electrical energy, telephone or  
26 telegraph messages, or radio or television communication.

27 (m) Installation of utility lines having a diameter of 6

1 inches or less using directional drilling or boring, or knifing-in,  
2 and the placement of poles with minimal (less than 1 cubic yard)  
3 structure support, if the utility lines and poles are installed in  
4 a manner that minimizes any adverse effect on the wetland.

5 Directional drilling or boring under this subdivision shall meet  
6 all of the following requirements:

7 (i) The top of the utility line is at least 4 feet below the  
8 soil surface of the wetland. However, if the presence of rock  
9 prevents the placement of the utility line at the depth otherwise  
10 required by this subparagraph, the bottom of the utility line is  
11 not placed higher than the top of the rock.

12 (ii) The entry and exit holes are located a sufficient  
13 distance from the wetland to ensure that disturbance of the wetland  
14 does not occur.

15 (iii) The operation does not result in the eruption or release  
16 of any drilling fluids up through the ground and into the wetland  
17 and there is an adequate plan to respond to any release of drilling  
18 mud or other fill material.

19 (n) Operation or maintenance, including reconstruction of  
20 recently damaged parts, of serviceable dikes and levees in  
21 existence on October 1, 1980 or constructed pursuant to this part  
22 or former 1979 PA 203.

23 (o) Placement of biological residuals from activities,  
24 including the cutting of woody vegetation or the in-place grinding  
25 of tree stumps, performed under this section within a wetland, if  
26 all the biological residuals originate within that wetland.

27 (3) An activity in a wetland that was effectively drained for

1 farming before October 1, 1980 and that on and after October 1,  
2 1980 has continued to be effectively drained as part of an ongoing  
3 farming operation is not subject to regulation under this part.

4 (4) A wetland that is incidentally created as a result of 1 or  
5 more of the following activities is not subject to regulation under  
6 this part:

7 (a) Excavation as part of commercial sand, gravel, or mineral  
8 mining, if the area was not a wetland before excavation. This  
9 exemption from regulation applies until the property on which the  
10 wetland is located meets both of the following requirements:

11 (i) Is no longer used for excavation as part of commercial  
12 sand, gravel, or mineral mining.

13 (ii) Is being used for another purpose unrelated to excavation  
14 as part of commercial sand, gravel, or mineral mining.

15 (b) Construction and operation of a water treatment pond,  
16 lagoon, or storm water facility in compliance with the requirements  
17 of state or federal water pollution control laws.

18 (c) A diked area associated with a landfill if the landfill  
19 complies with the terms of the landfill construction permit and if  
20 the diked area was not a wetland before diking.

21 (d) Construction of drains in upland for the sole purpose of  
22 removing excess soil moisture from upland areas that are primarily  
23 in agricultural use.

24 (e) Construction of roadside ditches in upland for the sole  
25 purpose of removing excess soil moisture from upland.

26 (f) An agricultural soil and water conservation practice  
27 designed, constructed, and maintained for the purpose of enhancing

1 water quality.

2 (5) An area that becomes contiguous to a water body created as  
3 a result of commercial excavation for sand, gravel, or mineral  
4 mining is not subject to regulation under this part solely because  
5 it is contiguous to the created water body. This exemption from  
6 regulation applies until the property on which the wetland is  
7 located meets both of the following requirements:

8 (a) Is no longer used for excavation as part of commercial  
9 sand, gravel, or mineral mining.

10 (b) Is being used for another purpose unrelated to excavation  
11 as part of commercial sand, gravel, or mineral mining.

12 (6) Except as provided in subsection (7), the following  
13 activities are not subject to regulation under this part:

14 (a) Leveling of sand, removal of vegetation, grooming of soil,  
15 or removal of debris, in an area of unconsolidated material  
16 predominantly composed of sand, rock, or pebbles, located between  
17 the ordinary high-water mark and the water's edge.

18 (b) Mowing of vegetation between the ordinary high-water mark  
19 and the water's edge.

20 (7) Subsection (6) does not apply to lands included in the  
21 survey of the delta of the St. Clair River, otherwise referred to  
22 as the St. Clair flats, located within Clay township, St. Clair  
23 county, as provided for in 1899 PA 175.

24 (8) As used in this part, "agricultural drain" means a human-  
25 made conveyance of water that meets all of the following  
26 requirements:

27 (a) Does not have continuous flow.

1 (b) Flows primarily as a result of precipitation-induced  
2 surface runoff or groundwater drained through subsurface drainage  
3 systems.

4 (c) Serves agricultural production.

5 (d) Was constructed before January 1, 1973, or was constructed  
6 in compliance with this part or former 1979 PA 203.

7 Sec. 30306. (1) Except as provided in section 30307(6), to  
8 obtain a permit for a use or development listed in section 30304, a  
9 person shall file an application with the department on a form  
10 provided by the department. The application shall include all of  
11 the following:

18 (f) An environmental assessment of the proposed use or  
19 development if requested by the department. The assessment shall  
20 include the effects upon wetland benefits and the effects upon the  
21 water quality, flow, and levels, and the wildlife, fish, and  
22 vegetation within a ~~ANY~~ contiguous **INLAND** lake, ~~river,~~ or stream.

23 (2) For the purposes of subsection (1), a proposed use or  
24 development of a wetland shall be covered by a single permit  
25 application under this part if the scope, extent, and purpose of a  
26 use or development are made known at the time of the application  
27 for the permit.

1 (3) Except as provided in subsections (4) and (5), an  
2 application for a permit submitted under subsection (1) shall be  
3 accompanied by the following application fee, as applicable:

4 (a) For a project in a category of activities for which a  
5 general permit is issued under section ~~30312~~, **30312 (2)**, a fee of

1 under this part, ~~and restoration is not ordered by the department,~~  
2 the department **SHALL CONSIDER ACCEPTING AND** may accept an  
3 application for a permit if the application is accompanied by a fee  
4 equal to twice the application fee otherwise required under this  
5 section.

6 (6) If the department determines that a permit is not required  
7 under this part or denies an application for a permit under this  
8 part, the department shall promptly refund the application fee paid  
9 under this section.

10 (7) The department may issue a conditional permit before the  
11 expiration of the 20-day period referred to in section 30307 if  
12 emergency conditions warrant a project to protect property or the  
13 public health, safety, or welfare.

14 Sec. 30307. (1) Within 60 days after receipt of the completed  
15 application and fee, the department may hold a hearing. If a

21 permit application without a public hearing unless a person  
22 requests a hearing in writing within 20 days after the mailing of  
23 notification of the permit application as required by subsection  
24 (3) or unless the department determines that the permit application  
25 is of significant impact so as to warrant a public hearing.

26 (2) The action taken by the department on a permit application  
27 under this part ~~and~~**OR** part 13 may be appealed pursuant to the

Senate Bill No. 1211 as amended December 21, 2018

 25 government pursuant to this subsection shall comply with all of the  
 26 following:

1 wetland than is provided in this part, except that a wetland  
2 ordinance may regulate wetland of less than 5 acres in size.

3 (b) If the ordinance regulates wetland that is smaller than 2  
4 acres in size, the ordinance shall comply with section 30309.

5 (c) The ordinance shall comply with sections 30308 and 30310.

25 considered approved, and the local unit of government shall be  
26 considered to have made the determinations as listed in section  
27 30311. The denial of a permit shall be accompanied by a written

2 information with a permit application may be reason for denial of a  
3 permit. If requested, the department shall inform a person whether  
4 or not a local unit of government has an ordinance regulating  
5 wetlands. If the department receives an application with respect to  
6 a wetland located in a local unit of government that has an

15 the permit application to the local unit of government where the  
16 wetland is located. The local unit of government may review the  
17 application; may hold a hearing on the application; may recommend  
18 approval, modification, or denial of the application to the  
19 department or may notify the department that the local unit of  
20 government declines to make a recommendation. The recommendation of  
21 the local unit of government, if any, shall be made and returned to  
22 the department ~~at any time~~ within 45 days after the local unit of  
23 government's receipt of the permit application.

24 (8) In addition to the requirements of subsection (7), the  
25 department shall notify the local unit of government that the  
26 department has issued a permit under this part **PERTAINING TO**  
27 **WETLAND LOCATED** within the jurisdiction of that local unit of

1 government within 15 days of issuance of the permit. The department  
2 shall enclose a copy of the permit with the notice.

3 Sec. 30314. (1) The department shall require the holder of a

17 who violates this part to restore as nearly as possible the wetland  
18 that was affected by the violation to its original condition  
19 immediately before the violation. The restoration may include the  
20 removal of fill material deposited in the wetland or the
