125.2090 Community revitalization; findings and declarations.

Sec. 90. The legislature finds and declares that any activity under this chapter to promote community revitalization will accelerate private investment in areas of historical disinvestment, contribute to Michigan's reinvention as a vital, job-generating state, foster redevelopment of functionally obsolete properties, reduce blight, support the rehabilitation of historic resources, and protect the natural resources of this state and is a public purpose and of paramount concern in the interest of the health, safety, and general welfare of the citizens of this state. It is the intent of the legislature that the economic benefits resulting from this chapter occur substantially within this state.

(r) Whether the project will compete with or affect existing Michigan businesses within the same industry.

(s) Any other additional criteria approved by the board that are specific to each individual project and are consistent with the findings and intent of this chapter.

(5) An application shall be approved or denied not more than 90 days after receipt of the application that is considered administratively complete by the board or its designee. If the application is neither approved nor denied within 90 days after being considered administratively complete, it must be considered by the fund board, or its president if delegated, for action at, or by, the next regularly scheduled board meeting. If an application is approved, the fund shall determine the amount of community revitalization incentives for the project based on the fund’s review of the application and the criteria specified in subsection (4).

(6) Except as otherwise provided in this subsection, the amount of community revitalization incentives that the board may approve for a single project shall not exceed 25% of a project's eligible investment up to $10,000,000.00. However, in a city, village, or township with a population of 15,000 or less based on the most recent federal decennial census, the amount of community revitalization incentives that the board may approve for a single project shall not exceed 50% of a project's eligible investment up to $10,000,000.00. A community revitalization loan shall not exceed $10,000,000.00, and a community revitalization grant shall not exceed $1,500,000.00. However, a combination of loans, grants, and other economic assistance under this chapter shall not exceed $10,000,000.00 per project. The board may not approve more than one community revitalization incentive for a single project per fiscal year. The board shall approve the amount of community revitalization incentives for the project based on the fund’s review of the application in the criteria specified in subsection (4).

(7) When the board approves an application and determines the amount of community revitalization incentives, the board shall enter into a written agreement with the applicant. The written agreement must provide in a clear and concise manner all of the conditions imposed, including specific time frames, on the applicant to receive the community revitalization incentive under this chapter. The written agreement must provide for the secured status of any loan, repayment, and penalties if the applicant fails to comply with the provisions of the written agreement as determined by the board. The applicant shall agree to provide the data described in the written agreement that is necessary for the fund to report to the legislature under this chapter.

(8) Not more than 4% of the annual appropriation as provided by law from the 21st century jobs trust fund established in the Michigan trust fund act, 2000 PA 489, MCL 12.251 to 12.262, may be used for the purposes of administering the programs and activities authorized under this chapter. However, the fund and the board shall not use more than 3% of the annual appropriation for administering the programs and activities authorized under this chapter unless the fund board by a 2/3 vote authorizes the additional 1% for administration. The MEDC may charge actual and reasonable fees for costs associated with the community revitalization incentive authorized under this chapter. These fees are in addition to an amount of the appropriation used for administering the programs and activities authorized under this chapter.

(9) The application process for community revitalization incentives for neighborhood and commercial corridor food initiatives must provide that applications for neighborhood and commercial corridor food...
initiatives must be received on or before June 1 for that fiscal year. If there are insufficient approved applications in a fiscal year for community revitalization incentives for neighborhood and commercial corridor food initiatives, then the remaining allocated funds may be used for community revitalization incentives that are not for neighborhood and commercial corridor food initiatives as determined by the board. In addition, a new neighborhood and commercial corridor food initiative, as determined by the board, is not eligible for a community revitalization incentive if it is located within 1 mile of an existing retail supermarket, grocery store, or produce market, as determined by the board, that offers unprocessed USDA-inspected meat and poultry products or meat products that carry the USDA organic seal, fresh fruits and vegetables, and dairy products for sale to the public.

(10) The legislature finds and declares that funding authorized under this section is intended to encourage diversification of the economy, to encourage capital investment in this state, to promote the creation of qualified new jobs in this state, and to promote the investment in brownfield and historic preservation projects that reclaim previously used property that is less likely to be revitalized without the investment.
