Heavenly Father, we thank You for this day. We thank You for the many blessings of life that You've bestowed upon us. Lord, it's an honor to be here today. We pray for this Senate. We pray, Lord, that You give them wisdom and knowledge to make the right decisions. We know, Lord, that the decisions they make will affect our future.

Lord, we read and the word of Paul says that we can do nothing without You, but with You we can do all things. Heavenly Father, we thank You for Your Son, who came and died that we may have life and have it more abundantly.

Lord, I pray Your blessings again upon this Senate. Give each one who serves their district wisdom as they make these decisions. Let us lay aside our differences, O Lord. Let us look to You for wisdom. Let us look to You for guidance.

Heavenly Father, as You have been so good to us, let us also remember that You are good to us. Father, we love You and praise You and thank You for all that You do. In Jesus' name we pray. Amen.

### Recess

### Resolutions

Senator Meekhof moved that consideration of the following resolutions be postponed for today:

**Senate Resolution No. 34**

**Senate Resolution No. 123**

The motion prevailed.

### House Concurrent Resolution No. 31.

A concurrent resolution to call on the U.S. Environmental Protection Agency and the U.S. Army Corps of Engineers to withdraw their proposed rule expanding the definition of “waters of the United States” under the Clean Water Act.

Whereas, The definition of “waters of the United States” under the Clean Water Act establishes the fundamental scope of federal authority to regulate activities in U.S. waters and wetlands. The U.S. Supreme Court has found on multiple occasions that the U.S. Environmental Protection Agency (EPA) and the U.S. Army Corps of Engineers (Army Corps) have exceeded their authority in defining these waters beyond the intended scope of federal regulation; and

Whereas, In response to the Supreme Court decisions, the EPA and Army Corps have recently proposed an amended definition to clarify federal jurisdiction. Unfortunately, the EPA and Army Corps have once again missed the mark and continue to ignore the limits on their authority, usurping powers reserved to the states under the Tenth Amendment to the U.S. Constitution; and

Whereas, The proposed rule would create greater uncertainty for businesses and homeowners rather than providing clarity. The proposed rule will add new definitions for key technical terms that introduce ambiguities and vagaries into federal regulation. Confusion will inevitably lead to further litigation, tying up our courts, delaying economic development, and wasting taxpayer money; and

Whereas, High-quality scientific input must be the basis for environmental regulations, and the end result of scientific review should never be presumed. The EPA and Army Corps have failed to allow scientific review to be completed before moving forward with the proposed rule. In the rush to promulgate rules, the primary scientific report remains in draft form and has only recently been submitted to the EPA’s Science Advisory Board for peer review; and

Whereas, The proposed rule would actually expand federal jurisdiction to more waters and wetlands, rather than limiting or simply clarifying jurisdiction as outlined by the U.S. Supreme Court. The EPA’s economic analysis estimates that the proposed rule would increase jurisdiction by 3 percent, potentially leading to 1,400 more permits required and nearly \$220 million in additional costs to farmers, businesses, and homeowners. Furthermore, the economic analysis’ assumptions and methodology significantly underestimate the potential jurisdictional expansion; and

Whereas, Any increases in federal jurisdiction will infringe upon state authority to regulate state waters. The state waters and wetlands affected by the proposed rule have minimal, if any, connection to federally navigable waters. Expanded federal jurisdiction limits the flexibility of Michigan and other states to create a regulatory environment that meets the needs and addresses the priorities of state residents. Michigan has been a national leader in creating proactive, voluntary programs like the Michigan Agriculture Environmental Assurance Program (MAEAP) that provide equal, if not greater, protection of the environment in a collaborative, non-adversarial manner. Michigan must have the freedom to protect state waters and to pursue innovative approaches without being handcuffed by rigid federal requirements; and

Whereas, This flawed proposal demonstrates again that core decisions, such as the scope of federal authority, must be left to our elected representatives and senators in the U.S. Congress, not to relatively unaccountable federal agencies; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we call on the U.S. Environmental Protection Agency and the U.S. Army Corps of Engineers to withdraw their proposed rule expanding the definition of “waters of the United States” under the Clean Water Act; and be it further

Resolved, That copies of this resolution be transmitted to the Administrator of the U.S. Environmental Protection Agency, the Commanding General of the U.S. Army Corps of Engineers, and the members of the Michigan congressional delegation.

The House of Representatives has adopted the concurrent resolution.

Pending the order that, under rule 3.204, the concurrent resolution be referred to the Committee on Government Operations, Senator Meekhof moved that the rule be suspended.

The motion prevailed, a majority of the members serving voting therefor.

The question being on the adoption of the concurrent resolution,

Senator Meekhof moved that further consideration of the concurrent resolution be postponed for today.

The motion prevailed.

### **House Concurrent Resolution No. 32.**

A concurrent resolution to urge the Congress of the United States to approve President Obama’s budget proposal to provide \$35 million to help communities process evidence from untested sexual assault kits.

Whereas, Sexual violence continues to plague our nation and destroy lives. Women and girls are the vast majority of victims, and nearly one in five women, or about 22 million, have been raped during their lifetimes. Men and boys are also at risk and one in 71 men, or about 1.6 million, have been raped during their lifetimes. Nearly one-half of all female rape survivors were raped before 18 years of age, and over one-quarter of male rape survivors were raped before 10 years of age; and

Whereas, Effective collection of forensic evidence is of paramount importance to successfully prosecuting sex offenders, as is performing sexual assault forensic exams in a sensitive, dignified, and victim-centered manner. Sexual assault forensic examinations are intrusive, lengthy, and complex medical examinations that take an average of three to four hours. A victim who agrees to a sexual assault forensic exam reasonably expects evidence collected from that exam, also referred to as a rape kit, to be analyzed; and

Whereas, The federal government has estimated that hundreds of thousands of rape kits sit untested in police and crime storage facilities across the country in what is known as the rape kit backlog. Crime labs have struggled over the past decade to meet the demand for DNA testing for all types of crimes. With demand continuing to outpace capacity—the Joyful Heart Foundation estimates that every two minutes someone is sexually assaulted in the U.S.—the backlog in testing evidence collected from sexual assault forensic exams will likely continue to grow; and

Whereas, Untested sexual assault kits mean lost opportunities to develop DNA profiles, search for matches, link cold cases, and bring justice and resolution to the victim. DNA can help identify unknown offenders and when the offender is known, it can result in “cold hits” connecting the known suspect to other crimes. Failure to test evidence collected from a sexual assault kit in a timely manner can be tragic, from expired statutes of limitation that preclude prosecution even if a suspect is later identified, to additional rape and murder victims of serial rapists; and

Whereas, Local jurisdictions that have attempted to alleviate the rape kit backlog have impressive results to show for their efforts. With federal funding, the Wayne County Prosecuting Attorney’s Office along with the Detroit Police Department, has begun to address a backlog of more than 10,000 rape kits. Among those first 1,600 kits tested, there were 455 matches in the DNA database, including matches linking to crimes committed in 22 other states and the District of Columbia. The Prosecutor’s Office identified 127 potential serial rapists and obtained 14 convictions of potential serial rapists who are tied to rapes reported in 12 other states and the District of Columbia; and

Whereas, Testing sexual assault kits provides essential evidence. But, equally essential is the investigation and prosecution of identified perpetrators, without which survivors are denied justice, rapists remain free to assault with impunity, and our communities continue to suffer emotionally and economically; and

Whereas, Reducing the rape kit backlog is a national concern requiring a national response. Federal funding is crucial to help communities in Michigan and other states to test and follow up on untested sexual assault kits; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we urge the Congress of the United States to approve President Obama’s budget proposal to provide \$35 million to help communities process evidence from untested sexual assault kits; and be it further

Resolved, That copies of this resolution be transmitted to the President of the United States Senate, the Speaker of the United States House of Representatives, and the members of the Michigan congressional delegation.

The House of Representatives has adopted the concurrent resolution.

Pending the order that, under rule 3.204, the concurrent resolution be referred to the Committee on Government Operations, Senator Meekhof moved that the rule be suspended.

The motion prevailed, a majority of the members serving voting therefor.

The question being on the adoption of the concurrent resolution,

The Senate agreed to the title of the bill.

Senator Young asked and was granted unanimous consent to make a statement and moved that the statement be printed in the Journal.

The motion prevailed.

Senator Young's statement is as follows:

We heard good reasons in committee why the provisions of Public Act No. 54 that ban seniority-based automatic pay raises or benefit increases during contracting negotiations are unfair to employees. I am happy that we have before us a bill which carves out an exemption from this limit for police and fire employees. I believe it isn't fair for these union members not to get their step increases while their contracts are being negotiated. From testimony, it seems that it could serve as a disincentive to municipalities to reach new agreements in a timely manner.

We don't want that, and we don't want that for any government employee. If we are going to get rid of this limit for police and fire employees, we should get rid of the limit for all government employees that Public Act No. 54 impacts.

Therefore, my amendment would simply say that this whole cap on pay and benefits no longer applies after January 1, 2015, to any of our hardworking government employees, not just our police and fire employees. That is the fair thing to do, and that is the right thing to do.

Mr. President, as our Founding Fathers would say, "Justice is the end of government," and I think this amendment is just and should be passed.
