Sec. 3. The secretary of state shall prepare a map and a legal description of each district constituted under this act. The legal description shall be in terms of political subdivisions, such as counties, cities, and townships; man-made features, such as streets, roads, highways, and railroads; and natural features, such as waterways, which political subdivisions and man-made and natural features form the boundaries of the district. The secretary of state shall convey the map and legal description of each district to the legislature and the governor.

Sec. 4. All of the following apply to the redistricting plan in section 1:

(a) In adopting the redistricting plan for congressional districts, it is the intention of the legislature to comply fully with section 3 of the congressional redistricting act, 1999 PA 221, MCL 3.63.

(b) The number of county breaks in the redistricting plan is determined by the following principles:

(i) Breaking a county line means assigning part of the population of a county to 1 or more counties in the formation of a district.

(ii) If population is shifted from a county to a single election district, including a district from 2 geographically-separate areas, there is 1 break. Except as provided in subparagraph (iii), if population from a county is shifted to 2 or more election districts, there are 2 or more breaks.

(iii) If 1 part of a county is shifted to a district and the rest of the county is shifted to another district, there is 1 break.

(c) The redistricting plan was designed to comply fully with both section 2 of the voting rights act of 1965, Public Law 89-110, 42 U.S.C. 1973, and the requirements of the equal protection clause of amendment XIV of the constitution of the United States, as set forth in *Shaw v Reno*, 509 US 630 (1993), and subsequent cases concerning racial gerrymandering. In light of these dual obligations, the plan avoids any practice or district lines that result in the denial of any racial or ethnic group's equal opportunity to elect a representative of its choice and, at the same time, does not subordinate traditional redistricting principles for the purpose of accomplishing a racial gerrymander or creating a majority-minority district. As a consequence, the plan does not result in retrogression or dilution of minority voting strength, particularly in light of the demographic limitations caused by relative population losses and the neutral criteria set forth in section 3 of the congressional redistricting act, 1999 PA 221, MCL 3.63. However, the plan does not sacrifice traditional neutral principles, such as, most importantly, preservation of county and municipal boundaries, for the purpose of engaging in a gerrymander that unnecessarily favors 1 racial group over others.

(d) The plan furthers the underlying purpose of the state constitution of 1963 by facilitating effective representation in the legislature where elected representatives can advance the shared interests of unified municipalities or counties. It does so without sacrificing voting rights act of 1965 principles, equal electoral opportunities, or racial fairness.

(e) The redistricting plan for congressional districts consists of 15 single member districts comprised of convenient territories contiguous by land. All of the following apply to the plan:

(i) The population in each of districts 1-9 and 11-15 is 662,563. The population of district 10 is 662,562.

(ii) The number of breaks in county boundaries is 11.

(iii) The number of breaks in city and township lines is 14.

(iv) No congressional district is wholly contained within a city.

Sec. 5. As used in this act:

(a) "Block" means block as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.

(b) "Tract" means tract as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.
