

## **HOUSE BILL No. 4378**

February 25, 1993, Introduced by Reps. Gilmer, Johnson and Middleton and referred to the Committee on Appropriations.

A bill to amend section 38 of Act No. 240 of the Public Acts of 1943, entitled as amended

"State employees' retirement act,"

as amended by Act No. 62 of the Public Acts of 1991, being section 38.38 of the Michigan Compiled Laws.

## THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

- Section 1. Section 38 of Act No. 240 of the Public Acts of 2 1943, as amended by Act No. 62 of the Public Acts of 1991, being
- 3 section 38.38 of the Michigan Compiled Laws, is amended to read
- 4 as follows:
- 5 Sec. 38. (1) The annual level percent of payroll contribu-
- 6 tion rate to finance the benefits provided under this act shall
- 7 be determined by actuarial valuation pursuant to subsections (2)
- 8 + (4), and (3), upon the basis of the risk assumptions adopted
- 9 by the retirement board with approval of the department of

03144'93 KKR

- 1 management and budget, and in consultation with the investment 2 counsel and the actuary. An annual actuarial valuation shall be 3 made of the retirement system in order to determine the actuarial 4 condition of the retirement system and the required contribution 5 to the retirement system. The actuarial value of assets used in 6 the actuary's computation of the required contribution to the 7 retirement system shall be based upon the market value of the 8 assets as of September 30, 1986, with subsequent changes in asset 9 values spread over a period of 5 years. The actuary shall report 10 to the legislature by April 15 of each year on the actuarial con-11 dition of the retirement system as of the end of the previous 12 fiscal year - and ON THE projections of state contributions for 13 the next fiscal year. -, and THE ACTUARY shall certify IN THE 14 REPORT that the techniques and methodologies used are generally 15 accepted within the actuarial profession and that the assumptions 16 and cost estimates used fall within the range of reasonable and 17 prudent assumptions and cost estimates. An annual actuarial 18 gain-loss experience study of the retirement system shall be made 19 in order to determine the financial effect of variations of 20 actual retirement system experience from projected experience. (2) The contribution rate for monthly benefits payable in 22 the event of the death of a member before retirement or the dis-23 ability of a member shall be computed using a terminal funding 24 method of actuarial valuation.
- 25 (3) The contribution rate for benefits other than those pro-26 vided for in subsection (2), including dental and vision benefits 27 under section 20d, shall be computed using an individual

- 1 projected benefit entry age normal cost method of valuation. The
- 2 contribution rate for service that may be rendered in the current
- 3 year, the normal cost contribution rate, shall be equal to the
- 4 aggregate amount of individual entry age normal costs divided by
- 5 1% of the aggregate amount of active members' valuation
- 6 compensation. The unfunded actuarial accrued liability shall be
- 7 equal to the actuarial present value of benefits reduced by the
- 8 actuarial present value of future normal cost contributions and
- g the actuarial value of assets on the valuation date. The
- 10 BEGINNING WITH THE 1992-93 STATE FISCAL YEAR, THE unfunded actu-
- 11 arial accrued liability shall be amortized over the following
- 12 respective amortization periods: A PERIOD OF 50 YEARS.

13		-Amortization
14	Portion of unfunded actuarial accrued liability	<u>Period</u>
15	Portion existing on September 30, 1985	<del>50 years</del>
16	Net actuarial gains or losses after September 30,	
17	<del>- 1985</del>	15 years
18	Actuarial present value of benefits attributable	
19	-to-sections 19(3), 19b, 19c, and 19d	10 years
20	Portion attributable to benefit changes after	
21	September 30, 1985 other than sections 19(3),	
22	-19b, 19c, and 19d	50 years
23	(4) The director of the department of management and budget	
24 and the state treasurer may amortize net actuarial gains over a		
25 period of less than 15 years when the actuarial value of the		

- 1 assets of the retirement system exceeds the present value of
- 2 credited projected benefits according to 1 of the following:
- 3 (a) If the actuarial value of the assets exceeds not less
- 4 than 105% but not more than 110% of the present value of credited
- 5 projected benefits, net actuarial gains may be amortized over a
- 6 period from 10 to 15 years.
- 7 (b) If the actuarial value of the assets exceeds 110% or
- 8 more of the present value of credited projected benefits, net
- 9 actuarial gains may be amortized over a period from 6 to 15
- 10 years.
- 11 (5) The director of the department of management and budget
- 12 or the state treasurer shall give the retirement board 30 days!
- 13 notice of any action to amortize net actuarial gains over a
- 14 period of 15 years or less under subsection (4). The actuary
- 15 shall make a written report to the retirement board and the leg-
- 16 islature by January 1, 1990 discussing the appropriateness to
- 17 date of the revised amortization periods.
- 18 (4) -(6) The legislature annually shall appropriate to the
- 19 retirement system the amount determined pursuant to subsections
- 20 (2) to (4) AND (3). The state treasurer shall transfer monthly
- 21 to the retirement system an amount equal to the product of the
- 22 contribution rates determined in subsections (2) to (4) AND (3)
- 23 times the aggregate amount of active member compensation paid
- 24 during that month. Not later than 60 days after the termination
- 25 of each state fiscal year, the bureau of retirement systems shall
- 26 certify to the director of the department of management and
- 27 budget the actual aggregate compensations paid to active members

1 during the preceding state fiscal year. Upon receipt of that
2 certification, the director of the department of management and
3 budget shall compute the difference, if any, between actual state
4 contributions received during the preceding state fiscal year and
5 the product of the contribution rates determined in subsections
6 (2) to (4) AND (3) times the aggregate compensations paid to
7 active members during the preceding state fiscal year. The dif8 ference, if any, shall be submitted in the executive budget to
9 the legislature for appropriation in the next succeeding state
10 fiscal year.
