Sec. 3. The secretary of state shall prepare a map and a legal description of each district constituted under this act. The legal description shall be in terms of political subdivisions, such as counties, cities, and townships; man-made features, such as streets, roads, highways, and railroads; and natural features, such as waterways, which political subdivisions and man-made and natural features form the boundaries of the district. The secretary of state shall convey the map and legal description of each district to the legislature and the governor.

Sec. 4. The secretary of the senate and the clerk of the house of representatives shall transmit a report of the conference committee explaining this act to the secretary of state for filing with the office of the great seal.

Sec. 5. All of the following apply to the redistricting plans in sections 1 and 2:

(a) In adopting the redistricting plans for the house of representatives and the senate, it is the intention of the legislature to comply fully with sections 1 and 1a of 1996 PA 463, MCL 4.261 and 4.261a.

(b) The number of county breaks in the redistricting plans is determined by the following principles:

(i) Breaking a county line means assigning part of the population of a county to 1 or more counties in the formation of a district.

(ii) If population is shifted from a county to a single election district, including a district from 2 geographically-separate whole cities or whole townships, there is 1 break. Except as provided in subparagraph (iii), if population from a county is shifted to 2 or more election districts, there are 2 or more breaks.

(iii) If 1 part of a county is shifted to a district and the rest of the county is shifted to another district, there is 1 break.

(c) The number of municipal breaks in the redistricting plans is determined by the following principles:

(i) Breaking a municipal line means assigning part of the population of a municipality to 1 or more municipalities or counties in the formation of a district.

(ii) If population is shifted from a municipality to a single election district, there is 1 break. Except as provided in subparagraph (iii), if population from a municipality is shifted to 2 or more election districts, there are 2 or more breaks.

(iii) If 1 part of a municipality is shifted to a district and the rest of the municipality is shifted to another district, there is 1 break.

(iv) If the boundary of a city, which is located in more than 1 county, is broken in order to preserve a county boundary, that does not count as a municipal break.

(d) The redistricting plans were designed to comply fully with both section 2 of the voting rights act of 1965, Public Law 89-110, 42 U.S.C. 1973, and the requirements of the equal protection clause of amendment XIV of the constitution of the United States, as set forth in Shaw v Reno, 509 US 630 (1993), and subsequent cases concerning racial gerrymandering. In light of these dual obligations, the plans avoid any practice or district lines that result in the denial of any racial or ethnic group's equal opportunity to elect a representative of its choice and, at the same time, does not subordinate traditional redistricting principles for the purpose of accomplishing a racial gerrymander or creating a majority-minority district. As a consequence, the plans do not result in retrogression or dilution of minority voting strength, particularly in light of the demographic limitations caused by relative population losses and the neutral

criteria set forth in section 1 of 1996 PA 463, MCL 4.261. However, the plans do not sacrifice traditional neutral principles, such as, most importantly, the Michigan constitutional principles of preservation of county and municipal boundaries, for the purpose of engaging in a gerrymander that unnecessarily favors 1 racial group over others.

(e) The plans further the underlying purpose of the state constitution of 1963 by facilitating effective representation in the legislature where elected representatives can advance the shared interests of unified municipalities or counties. They do so without sacrificing voting rights act of 1965 principles, equal electoral opportunities, or racial fairness.

(f) The redistricting plan for the house of representatives consists of 110 single member districts comprised of convenient territories contiguous by land. All of the following apply to the plan:

(i) The districts range in size between 85,861 and 94,823 residents.

(ii) The number of breaks in county boundaries is 17.

(iii) The number of breaks in city and township lines is 18.

(iv) The cities of Detroit and Grand Rapids each contain more than 1 whole district.

(v) The range of population divergence between whole districts within the city of Detroit is 167 and within the city of Grand Rapids is 245.

(vi) The number of whole cities and townships shifted to form a district with residents of another county is 57.

(vii) The number of residents shifted in the cities and townships described in subparagraph (vi) is 364,727.

(g) The redistricting plan for the senate consists of 38 single member districts comprised of convenient territories contiguous by land. All of the following apply to the senate plan:

(i) The districts range in size between 248,635 and 274,578 residents.

(ii) The number of breaks in county boundaries is 6.

(iii) There are 3 city or township line breaks.

(iv) The city of Detroit contains more than 1 whole district.

(v) The range of population divergence between whole districts within the city of Detroit is 619.

(vi) The number of whole cities and townships shifted to form a district with residents of another county is 26.

(vii) The number of residents shifted in the cities and townships described in subparagraph (vi) is 274,180.

Sec. 6. As used in this act:

(a) "Block" means block as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.

(b) "Tract" means tract as that term is used by the United States department of commerce, bureau of the census in conducting the 2000 decennial census.

Reps. Minore, Rich Brown, Phillips, Clark, Jamnick, Callahan, and Gielegem, having reserved the right to explain their nay vote, made the following statement:

“Mr. Speaker and members of the House:

I voted no on HB 4965 (CR-2) for the same sorts of reasons that I voted against HB 4965 (CR-1).

Once again, the redistricting plan for the House of Representatives in this conference report was developed by the majority party of this Legislature without public input or review, and it was not shared with Democrats until the conference committee meeting this morning. Neither Democrats nor members of the public have had an opportunity to actually read this 460-page bill, let alone perform significant analysis of the redistricting plan contained within it.

Nevertheless, even if we were to take at face value the Republicans’ own cursory description of their House plan that they included at the end of this bill, the House plan in HB 4965 (CR-2) is still clearly legally deficient. The House plan that Democrats offered in an amendment rejected by Republicans at the first conference committee meeting still clearly surpasses the Republican plan in HB 4965 (CR-2) in its overall compliance with MCL 4.261 and other applicable state and federal laws, even when one makes use of the Republicans’ own subjective, specific interpretations of the state statutory criteria. Moreover, as Republicans rushed this body to consideration of this final redistricting plan in the form of a conference report today, Democrats were blocked from offering on the House floor today a House plan that is better yet by the Republicans’ own stated interpretations of statutory criteria. This newest Democratic plan is described in more detail in my Democratic colleagues’ no-vote explanations offered in response to this vote.

Once again, Democrats have demonstrated with this newest plan that compliance with the law can and should result in a fair plan that will provide voters with a legitimate opportunity to elect representatives of their choice in the coming ten years.”

Reps. Hale, Dennis, Thomas, Clarke, Waters, McConico, Woodward, Lipsey, Spade, O’Neil, Jacobs, Kolb, Whitmer, Williams, Zelenko, Murphy, Neumann, Hansen, Basham, Adamini, Plakas, Anderson and Bogardus, having reserved the right to explain their nay vote, made the following statement:

“Mr. Speaker and members of the House:

I voted no on HB 4965 (CR-2) for the following reasons:

As Republicans rushed this body to consideration of this final House redistricting plan in the form of a conference report today, Democrats were blocked from offering on the House floor today a House plan that again surpasses the House plan in HB 4965 (CR-2) - making use of the Republicans’ own stated interpretations of statutory criteria - in the following ways:

The number of residents shifted in the cities and townships by the newest Democratic plan would be 315,683. Republicans say their CR-2 House plan shifts 364,727.

The range of population divergence between whole districts within the city of Detroit is 1 and within the city of Grand Rapids is 0 in the newest Democratic plan. Republicans say their CR-2 House plan has ranges of 167 and 245, respectively.

The number of whole cities and townships shifted in the newest Democratic plan to form a district with residents of another county is 57. Republicans say their CR-2 House plan shifts 57.

The number of breaks in county boundaries in the newest Democratic plan (as the Republicans have chosen to define this concept in HB 4965) is 17. Republicans say their CR-2 House plan has 17.

The number of breaks in city and township lines in the newest Democratic plan is 16. (Republicans say their CR-2 House plan breaks 18.)

The districts range in size between 85,867 and 94,842 in the newest Democratic plan.

(Republicans say their CR-2 House plan has a range of 85,861 to 94,823.)

Furthermore, Michigan statute – not to mention federal law - also sets forth a number of additional criteria that the Republicans neglect to mention in describing their plan. But again, the House plan set forth in our newest Democratic plan is superior to the Republican plan in HB 4965 (CR-2) in all these other regards. For example:

MCL 4.261 (h) requires that when breaking city or township lines, then “the number of people necessary to achieve population equality shall be shifted between the 2 districts affected by the shift, except that in lieu of absolute equality the lines may be drawn along the closest street or comparable boundary.” Our population variances for districts which break city or township lines range from 0 to 2 in the newest Democratic plan.

MCL 4.261 (g) requires that when counties have more than one district, lines are to be drawn ‘with the least cost to the principle of equality of population between election districts consistent with the maximum preservation of city and township lines.’ In almost every county with multiple districts, our amendment has a lower deviation between districts.”

Rep. Schauer, having reserved the right to explain his nay vote, made the following statement:

“Mr. Speaker and members of the House:

I voted no on HB 4965 (CR-2) for the following reasons:

As Republicans rushed this body to consideration of this final House redistricting plan in the form of a conference report today, Democrats were blocked from offering on the House floor today a House plan that again surpasses the House plan in HB 4965 (CR-2) - making use of the Republicans’ own stated interpretations of statutory criteria - in the following ways:

In almost every county with multiple districts, our amendment has a lower deviation between districts.

I also continue to be alarmed at the fact that the city of Battle Creek and its people will be unnecessarily split between two House districts. Furthermore, the Battle Creek metropolitan region has also been split."

Not more than 1/2 of this matching requirement, up to a total of 10% of the total project budget, may be satisfied through in-kind services provided by participating providers of programs or services. In addition, not more than 10% of the grant may be used for program administration.

(15) The superintendent shall approve or disapprove applications and notify the applicant of that decision. Priority in awarding grants shall be given to programs that focus on accelerating student achievement on a cost-effective basis, reducing the number of pupils requiring special education programs and services, and improving pupil scores on standardized tests and assessments.

(16) A grant recipient receiving funds under this section shall report to the department, in the form and manner prescribed by the department, on the results achieved by the program. At a minimum, the grant recipient shall report to the department by October 15 regarding the program’s impact on reducing the number of pupils requiring special education programs and services and on improving pupil scores on standardized tests and assessments, and information on the costs and benefits per unit of pupil improvement. In addition, the report shall state the number of pupils eligible for free or reduced price school lunch who received services under the program and the total number of pupils who received services under the program. Not later than November 15 of each fiscal year, the department shall submit a report to the legislature, the state budget director, and the senate and house fiscal agencies detailing the results of the programs. It is the intent of the legislature that further funding for the programs under this section will reflect the results achieved in these programs.

(17) Notwithstanding section 17b, payments under this section shall be paid on a schedule determined by the department.

(18) For a district or public school academy awarded a grant under former section 32, the determination of whether the district or public school academy is eligible for a grant under this section may be made according to the eligibility standards in effect under former section 32. Further, the district or public school academy may continue to use the grant proceeds for any use permissible under this section or former section 32 as in effect at the time the district or public school academy was awarded the grant.

(19) If the maximum amount appropriated under this section exceeds the amount necessary to fully fund allocations under this section, that excess amount shall not be expended in that state fiscal year but shall instead be carried forward to the succeeding fiscal year and added to any funds appropriated for that fiscal year for expenditure in that fiscal year.

(20) A district that received funding for 1999-2000 under former section 32 shall receive funding under this section for 2000-2001, 2001-2002, and 2002-2003.”.
