4 or indirectly, into any of the waters of the state shall be
5 considered prima facie evidence of a violation of this part by the
6 municipality in which the discharge originated unless the discharge
7 is permitted by an order or rule of the department. If the
8 discharge is not the subject of a valid permit issued by the
9 department, a municipality responsible for the discharge may be
10 subject to the remedies provided in section 3115. If the discharge
11 is the subject of a valid permit issued by the department pursuant
12 to section 3112, and is in violation of that permit, a municipality
13 responsible for the discharge is subject to the penalties
14 prescribed in section 3115.

16 responsible or subject to the remedies provided in section 3115 for
17 an unauthorized discharge from a sewerage system as defined in
18 section 4101 that is permitted under this part and owned by a party

9 (6) A violation of this section is prima facie evidence of the
10 existence of a public nuisance and in addition to the remedies
11 provided for in this part may be abated according to law in an
12 action brought by the attorney general in a court of competent
13 jurisdiction.

14 Sec. 3112. (1) A person shall not discharge any waste or waste

3 permit upon the permittee's meeting the effluent requirements that
4 the department considers necessary to prevent unlawful pollution by
5 the dates that the department considers to be reasonable and
6 necessary and to assure compliance with applicable federal law and
7 regulations. If the department finds that the terms of a permit
8 have been, are being, or may be violated, it may modify, suspend,
9 or revoke the permit or grant the permittee a reasonable period of
10 time in which to comply with the permit. The department may reissue
11 a revoked permit upon a showing satisfactory to the department that
12 the permittee has corrected the violation. A person who has had a
13 permit revoked may apply for a new permit.

14 (4) If the department determines that a person is causing or
15 is about to cause unlawful pollution of the waters of this state,

6 oceangoing vessel will not discharge aquatic nuisance species or,
7 if the oceangoing vessel discharges ballast water or other waste or
8 waste effluent, that the operator of the vessel will utilize
9 environmentally sound technology and methods, as determined by the
10 department, that can be used to prevent the discharge of aquatic
11 nuisance species. The department shall cooperate to the fullest
12 extent practical with other Great Lakes basin states, the Canadian
13 Great Lakes provinces, the Great Lakes panel on aquatic nuisance
14 species, the Great Lakes fishery commission, the international
