(3) This section does not prohibit the department from bringing any civil, criminal, or administrative action for the enforcement of section 601.

(b) A copy of an operator's license or state personal identification card, to be used by the department only for proof of identity of the applicant.

(2) The department shall require an applicant for a license to pass an examination establishing that the applicant has a fair knowledge of the obligations of a residential builder or residential maintenance and alteration contractor to the public and the applicant's principal, and the statutes relating to the applicant's licensure.

(3) The department, upon application, may issue a residential maintenance and alteration contractor's license to an applicant who, upon examination, qualifies for a license, which shall authorize the licensee according to the applicant's qualifications, crafts, and trades to engage in the activities of a residential maintenance and alteration contractor. A license shall include the following crafts and trades: carpentry; concrete; swimming pool installation; waterproofing a basement; excavation; insulation work; masonry work; painting and decorating; roofing; siding and gutters; screen or storm sash installation; tile and marble work; and house wrecking. The license shall specify the particular craft or trade for which the licensee has qualified. This subsection shall not prohibit a specialty contractor from taking and executing a contract involving the use of 2 or more crafts or trades if the performance of the work in the craft or trade, other than in which the person is licensed, is incidental and supplemental to the performance of work in the craft for which the specialty contractor is licensed.

(4) A residential builder or residential maintenance and alteration contractor shall maintain a place of business in this state. If a residential builder or residential maintenance and alteration contractor maintains more than 1 place of business within this state, a branch office license shall be issued to the builder or contractor for each place of business so maintained.

(5) Beginning the license cycle after the effective date of the amendatory act that added this subsection, the department shall issue the license of a residential builder and residential maintenance and alteration contractor for a period of 3 years in duration. Beginning the effective date of the amendatory act that added this subsection, an applicant for renewal of a residential builder or maintenance and alteration contractor license shall state that he or she has a current copy of the Michigan residential code and has fulfilled the appropriate requirements regarding continuing competency.

(6) Beginning the effective date of the amendatory act that added this subsection, a licensee shall maintain documentation, for at least 5 years, of activities meeting the continuing competency requirements as prescribed under this article.

Sec. 2404b. (1) Beginning the effective date of the amendatory act that added this section, applicants for initial licensure either as a residential builder or as a residential maintenance and alteration contractor shall successfully complete a precensure course of study as prescribed by this subsection. Licensees holding a residential builder or a residential maintenance and alteration contractor license on the effective date of the amendatory act that added this section that are renewing a license in the capacity of an individual or qualifying officer, or both, are exempt from the requirement of successfully completing precensure courses described in this subsection. The department shall require an applicant not exempted under this subsection to successfully complete 60 hours of approved precensure courses consisting of at least 6 hours of courses in each of the following areas of competency:

(a) Business management, estimating, and job costing.

(b) Design and building science.

(c) Contracts, liability, and risk management.

(d) Marketing and sales.

(e) Project management and scheduling.

(f) The current Michigan residential code.

(g) Construction safety standards promulgated under the Michigan occupational safety and health act, 1974 PA 154, MCL 408.1001 to 408.1094.

(2) Beginning the calendar year after the effective date of the amendatory act that added this section, a person obtaining initial licensure under this article as a residential builder or a residential maintenance and alteration

contractor shall successfully complete not less than 3 hours of activities demonstrating continuing competency per calendar year, during the first 6 calendar years of licensure, and 21 hours per 3-year time period since the issuance of his or her license. At least 3 hours shall be devoted to those activities designed to develop a licensee's understanding and ability to apply state building codes and laws relating to the licensed occupation, safety, and changes in construction and business management laws. A licensee who has held a license for more than 6 years or who has not been determined by the department in a final order to have violated this act or a rule adopted under this act shall successfully complete at least 3 hours of activities demonstrating continuing competency per license cycle to include 1 hour of codes, 1 hour of safety, and 1 hour of legal issues as described in this subsection.

(3) In the case of a licensee who has been determined by the department in a final order to have violated this act or a rule adopted under this act, he or she shall successfully complete, during the next complete license cycle, up to 21 hours of activities that demonstrate the development of continuing competency during that next license cycle as determined appropriate by order of the department, at least 3 hours of that continuing competency to include 1 hour of codes, 1 hour of safety, and 1 hour of legal issues as described in subsection (2).

(4) As activities that demonstrate the development of continuing competency, the education courses described in section 3, pages 3-6 through 3-58 of the January 2005 edition of the publication "NAHB University of Housing, Blueprint for Success", published by the national association of home builders, and taught by instructors meeting the requirements of section 4, pages 4-5 through 4-9 of the January 2005 edition of "NAHB University of Housing, Blueprint for Success", are considered approved, are considered appropriate for fulfilling the prelicensure and continuing competency requirements of subsections (1), (2), and (3), and are incorporated by reference. A licensee may take any courses equivalent to those courses incorporated by reference by this subsection. Updates to the courses described in this subsection or equivalent courses are acceptable unless the department determines that the courses do not provide a means of developing and maintaining continuing competency for those applicants or licensees who successfully fulfill the course requirements. Any construction code update courses approved by the bureau of construction codes as well as fire safety or workplace safety courses approved or sponsored by the department are also considered appropriate for fulfilling the continuing competency requirements of this subsection. The department may, by rule, amend, supplement, update, substitute, or determine equivalency regarding any courses or alternate activities for developing continuing competency described in this subsection.

(5) The department may waive the requirement of membership in a local, state, or national trade association contained in the instructor standards of section 4, pages 4-5 through 4-9 of the January 2005 edition of the publication "NAHB University of Housing, Blueprint for Success", published by the national association of home builders, and incorporated by reference. By rule, the department may amend, supplement, update, substitute, or determine equivalency regarding the standards in this subsection and shall establish instructor qualifications for courses not incorporated by reference in subsection (4).

(6) The subject matter of the prelicensure and continuing competency activities may be offered by a high school, intermediate school district, community college, university, bureau of construction codes, Michigan occupational safety and health administration, trade association, or a proprietary school licensed by the department as meeting the subject matter qualifications described in subsection (4) and the instructional qualifications described in subsection (5).

(7) The department shall promulgate rules to provide for the following:

(a) Requirements other than those listed in subsection (4) for determining that a course meets the minimum criteria for developing and maintaining continuing competency.

(b) Requirements for acceptable courses offered at seminars and conventions by trade associations, research institutes, risk management entities, manufacturers, suppliers, governmental agencies other than those named in subsection (4), consulting agencies, or other entities.

(c) Acceptable distance learning.

(d) Alternate forms of continuing competency, including comprehensive testing, participation in mentoring programs, research, participation in code hearings conducted by the international code council, and publication of articles in a trade journal or regional magazine as an expert in the field. The alternate forms shall be designed to maintain and improve the licensee's ability to perform the occupation with competence and shall prescribe proofs that are necessary to demonstrate that the licensee has fulfilled the requirements of continuing competency.

(8) Each licensee may select approved courses in his or her subject matter area or specialty. Service as a lecturer or discussion leader in an approved course shall be counted toward the continuing competency requirements of this section. Alternate forms of continuing competency may be earned and documented as promulgated in rules by the department.

(9) The department may audit a predetermined percentage of licensees who renew in a year for compliance with the requirements of this section. Failure to comply with the audit or the requirements shall result in the investigation of a complaint initiated by the department, and the licensee is subject to the penalties prescribed in this act.

(10) A licensee as a residential builder or residential alteration and maintenance contractor may apply for inactive status by completing an application, made available by the department, in which he or she declares that he or she is no

longer actively engaged in the practice authorized by his or her license and temporarily intends to suspend activity authorized by his or her license. Upon submission of a completed application, the department shall designate the licensee as inactive and note that status on records available to the public. A licensee designated as inactive must have a current copy of the Michigan residential code and is exempt from the continuing competency requirements imposed under this section, but must still pay the per-year license fee. An inactive licensee may activate his or her license by submitting an application to the department requesting activation of the license. Upon activation of a license, the licensee must complete at least 1 credit hour of continuing competency for that calendar year.

Sec. 2405. (1) If a license is applied for by a corporation, partnership, association, limited liability company, or other entity, the applicant shall designate 1 of its officers, partners, members, or managing agent as a qualifying officer who, upon taking and passing the examination, and upon meeting all other requirements of this article, is entitled to a license to act for the corporation, partnership, association, limited liability company, or other entity. The qualifying officer shall also obtain and maintain a license under this article as an individual. The qualifying officer shall be responsible for exercising the supervision or control of the building or construction operations necessary to secure full compliance with this article and the rules promulgated under this article. A license shall not be issued to a corporation, partnership, association, limited liability company, or other entity unless each partner, trustee, director, officer, member, and a person exercising control is at least 18 years of age, and meets the requirements for a license under this article other than those relating to knowledge and experience. If an individual licensee is also a qualifying officer, the individual's name and license number shall be listed on any license issued to the individual as a qualifying officer. In the case of a license issued under this subsection, each officer, partner, member, or managing agent, whether or not he or she is the qualifying officer, shall provide a copy of his or her operator's license or state personal identification card to the department for use by the department only for identification purposes. A licensee granted inactive status under section 2404b is not eligible to serve as a qualifying officer.

(2) The license of a corporation, partnership, association, limited liability company, or other entity shall be suspended when a license or license application of a qualifying officer, partner, trustee, director, officer, member, or a person exercising control of the corporation, partnership, association, limited liability company, or other entity is suspended, revoked, or denied. The suspension shall remain in force until the board determines that the disability created by the suspension, revocation, or denial has been removed.

(3) A suspension, revocation, or denial of a license of an individual shall suspend, revoke, or deny any other license held or applied for by that individual issued under this article. A suspension, revocation, or denial of a license by the department shall suspend, revoke, or deny any other license held or applied for under this article by the qualifying officer of a corporation, partnership, association, limited liability company, or other entity whose license is suspended, revoked, or denied.

(4) If the qualifying officer of a licensee ceases to be its qualifying officer, the license is suspended. However, upon request, the department may permit the license to remain in force for a reasonable time to permit the qualification of a new qualifying officer.

Sec. 2411. (1) A complaint filed under this section or article 5, or both, shall be made within 18 months after the latest of the following regarding a residential structure or a combination of residential and commercial structure as follows:

(a) In the case of a maintenance and alteration contract:

(a) Abandonment without legal excuse of a contract, construction project, or operation engaged in or undertaken by the licensee.

(b) Diversion of funds or property received for prosecution or completion of a specific construction project or operation, or for a specified purpose in the prosecution or completion of a construction project or operation, and the funds or property application or use for any other construction project or operation, obligation, or purposes.

(c) Failure to account for or remit money coming into the person's possession which belongs to others.

(d) A willful departure from or disregard of plans or specifications in a material respect and prejudicial to another, without consent of the owner or an authorized representative and without the consent of the person entitled to have the particular construction project or operation completed in accordance with the plans and specifications.

(e) A willful violation of the building laws of the state or of a political subdivision of the state.

(f) In a residential maintenance and alteration contract, failure to furnish to a lender the purchaser's signed completion certificate executed upon completion of the work to be performed under the contract.

(g) If a licensed residential builder or licensed residential maintenance and alteration contractor, failure to notify the department within 10 days of a change in the control or direction of the business of the licensee resulting from a change in the licensee's partners, directors, officers, or trustees, or a change in the control or direction of the business of the licensee resulting from any other occurrence or event.

(h) Failure to deliver to the purchaser the entire agreement of the parties including finance and any other charge arising out of or incidental to the agreement when the agreement involves repair, alteration, or addition to, subtraction from, improvement of, wrecking of, or demolition of a residential structure or combination of residential and commercial structure, or building of a garage, or laying of concrete on residential property, or manufacture, assembly, construction, sale, or distribution of a residential or combination residential and commercial structure which is prefabricated, preassembled, precut, packaged, or shell housing.

(i) If a salesperson, failure to pay over immediately upon receipt money received by the salesperson, in connection with a transaction governed by this article to the residential builder or residential maintenance and alteration contractor under whom the salesperson is licensed.

(j) Aiding or abetting an unlicensed person to evade this article, or knowingly combining or conspiring with, or acting as agent, partner, or associate for an unlicensed person, or allowing one's license to be used by an unlicensed person, or acting as or being an ostensible licensed residential builder or licensed residential maintenance and alteration contractor for an undisclosed person who does or shall control or direct, or who may have the right to control or direct, directly or indirectly, the operations of a licensee.

(k) Acceptance of a commission, bonus, or other valuable consideration by a salesperson for the sale of goods or the performance of service specified in the article from a person other than the residential builder or residential maintenance and alteration contractor under whom the person is licensed.

(l) Becoming insolvent, filing a bankruptcy action, becoming subject to a receivership, assigning for the benefit of creditors, failing to satisfy judgments or liens, or failing to pay an obligation as it becomes due in the ordinary course of business.

(m) Workmanship not meeting the standards of the Michigan residential code as promulgated under the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531.

(3) The department shall suspend or revoke the license of a person licensed under this article whose failure to pay a lien claimant results in a payment being made from the homeowner construction lien recovery fund pursuant to the construction lien act, 1980 PA 497, MCL 570.1101 to 570.1305, regardless of whether the person was performing services as a licensee under this article; under the electrical administrative act, 1956 PA 217, MCL 338.881 to 338.892; or under the state plumbing act, 2002 PA 733, MCL 338.3511 to 338.3569. The department shall not renew a license or issue a new license until the licensee has repaid in full to the fund the amount paid out plus the costs of litigation and interest at the rate set by section 6013 of the revised judicature act of 1961, 1961 PA 236, MCL 600.6013.

(4) The department shall conduct a review upon notice that the licensee has violated the asbestos abatement contractors licensing act, 1986 PA 135, MCL 338.3101 to 338.3319. The department may suspend or revoke that person's license for a knowing violation of the asbestos abatement contractors licensing act, 1986 PA 135, MCL 338.3101 to 338.3319.

(5) Notwithstanding article 5, the following apply to administrative proceedings regarding workmanship under subsection (2)(m):

(a) A complaint submitted by an owner shall describe in writing to the department the factual basis for the allegation. The homeowner shall send a copy of the initial complaint to the licensee concurrent with the submission of the complaint to the department.

(b) The department shall presume the innocence of the licensee throughout the proceeding until the administrative law hearing examiner finds otherwise in a determination of findings of fact and conclusions of law under article 5. The licensee has the burden of refuting evidence submitted by a person during the administrative hearing. The licensee also has the burden of proof regarding the reason deficiencies were not corrected.

(c) Upon receipt of a building inspection report issued to the department by a state or local building enforcement official authorized to do so under the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531, which report verifies or confirms the substance of the complaint, the department shall send by certified mail a copy of the verified complaint to the licensee. Failure of the department to send a copy of the verified complaint within 30 days of receipt of the building inspection report prevents the department from assessing a fine against the licensee under article 6 but does not prevent the department from pursuing restitution, license suspension, or other remedies provided under this act.

(d) A licensee may contractually provide for an alternative dispute resolution procedure to resolve complaints filed with the department. The procedure shall be conducted by a neutral third party for determining the rights and responsibilities of the parties and shall be initiated by the licensee, who shall provide notice of the initiation of the

procedure to the complainant by certified mail not less than 30 days before the commencement of that procedure. The procedure shall be conducted at a location mutually agreed to by the parties.

(e) The department shall not initiate a proceeding against a licensee under this subsection in the case of a licensee who contractually provides for an alternative dispute resolution procedure that has not been utilized and completed unless it is determined that the licensee has not complied with a decision or order issued as a result of that alternative dispute resolution procedure, that alternative dispute resolution procedure was not fully completed within 90 days after the filing of the complaint with the department, or an alternative dispute resolution procedure meeting the requirements of subdivision (d) is not available to the complainant.

(f) The complainant shall demonstrate that notice has been provided to the licensee describing reasonable times and dates that the residential structure was accessible for any needed repairs and proof acceptable to the department that the repairs were not made within 60 days after the sending of the notice. This subdivision does not apply where the department determines a necessity to safeguard the structure or to protect the occupant's health and safety and, in such case, the department may utilize any remedy available under section 504(3)(a) through (d).

(g) In the case where the owner and licensee have agreed contractually on mutually acceptable performance guidelines relating to workmanship, the department shall consider those guidelines in its evaluation of a complaint. The guidelines shall be consistent with the Stille-DeRossett-Hale single state construction code act, 1972 PA 230, MCL 125.1501 to 125.1531.

(6) In any case where the licensee or respondent fails to appear, participate, or defend any action, the board shall issue an order granting by default the relief requested, based upon proofs submitted to and findings made, by the hearing examiner after a contested case.

(7) As used in this section, "verified complaint" means a complaint in which all or a portion of the allegations have been confirmed by an affidavit of the state or local building official.

Sec. 2411a. (1) The department shall post on its website any final order of the board and the date it was issued. The posting shall occur within 30 days after the final order is issued.

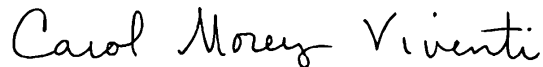

(2) The department shall annually post on its website the number of final orders of the board.
