The People of the State of Michigan enact:

Sec. 3. (1) “Average daily attendance”, for the purposes of complying with federal law, means 92% of the pupils counted in membership on the pupil membership count day, as defined in section 6(7).

(2) “Board” means the governing body of a district or public school academy.

(3) “Center” means the center for educational performance and information created in section 94a.

(4) “Cooperative education program” means a written voluntary agreement between and among districts to provide certain educational programs for pupils in certain groups of districts. The written agreement shall be approved by all affected districts at least annually and shall specify the educational programs to be provided and the estimated number of pupils from each district who will participate in the educational programs.

(5) “Department”, except in section 107, means the department of education.

(6) “District” means a local school district established under the revised school code or, except in sections 6(4), 6(6), 13, 20, 22a, 23, 29, 31a, 51a(15), 105, 105c, and 166b, a public school academy. Except in sections 6(4), 6(6), 13, 20, 22a, 29, 51a(15), 105, 105c, and 166b, district also includes a university school.

(7) “District of residence”, except as otherwise provided in this subsection, means the district in which a pupil’s custodial parent or parents or legal guardian resides. For a pupil described in section 24b, the pupil’s district of residence is the district in which the pupil enrolls under that section. For a pupil described in section 6(4)(d), the pupil’s district of residence shall be considered to be the district or intermediate district in which the pupil is counted in membership under that section. For a pupil under court jurisdiction who is placed outside the district in which the pupil’s custodial parent or parents or legal guardian resides, the pupil’s district of residence shall be considered to be the educating district or educating intermediate district.

(8) “District superintendent” means the superintendent of a district, the chief administrator of a public school academy, or the chief administrator of a university school.

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this act, means for a district, public school academy, university school, or intermediate district the sum of the product of .75 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .25 times the final audited count from the supplemental count day for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber school’s educational program is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil’s educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a university school shall be counted in membership in the university school.

(h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 750,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the department of energy, labor, and economic growth, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q)

for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Except as otherwise provided in this subdivision, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12.

(s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .75 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .25 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for

each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are receiving nonclassroom services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program described in section 64, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or university school.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(ii) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90g, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(g) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(ii) The pupil had previously dropped out of school.

(iii) The pupil is pregnant or is a parent.

(iv) The pupil has been referred to the program by a court.

(v) The pupil is enrolled in an alternative or disciplinary education program described in section 25.

(j) A pupil who is the child of a person who works at the district or who is the child of a person who worked at the district as of the time the pupil first enrolled in the district but who no longer works at the district due to a workforce reduction. As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(k) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(m) A pupil enrolled in a district other than the pupil's district of residence who attends a United States Olympic education center.

(n) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148.

(o) A pupil who enrolls in a district other than the pupil's district of residence as a result of the pupil's school not making adequate yearly progress under the no child left behind act of 2001, Public Law 107-110.

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b), the fourth Wednesday after Labor day each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

(8) "Pupils in grades K to 12 actually enrolled and in regular daily attendance" means pupils in grades K to 12 in attendance and receiving instruction in all classes for which they are enrolled on the pupil membership count day or the supplemental count day, as applicable. Except as otherwise provided in this subsection, a pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, shall not be counted as 1.0 full-time equated membership. A pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. In addition, a pupil who was enrolled and in attendance in a district, intermediate district, or public school academy before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day shall only be counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, or public school academy within 45 days after the pupil membership count day or supplemental count day of that particular year. Pupils not counted as 1.0 full-time equated membership due to an absence from a class shall be counted as a prorated membership for the classes the pupil

attended. For purposes of this subsection, "class" means a period of time in 1 day when pupils and a certificated teacher or legally qualified substitute teacher are together and instruction is taking place.

(9) "Rule" means a rule promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

Sec. 11. (1) For the fiscal year ending September 30, 2010, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$10,614,891,500.00 from the state school aid fund and the sum of \$30,206,200.00 from the general fund. For the fiscal year ending September 30, 2010, there is also appropriated the sum of \$450,000,000.00 from the federal funding awarded to this state under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, to be used solely for the purpose of funding the primary funding formula calculated under section 20, in accordance with federal law. Subject to subsection (5), for the fiscal year ending September 30, 2011, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$10,949,559,200.00 from the state school aid fund and the sum of \$30,206,200.00 from the general fund. For the fiscal year ending September 30, 2011, there is also appropriated the sum of \$184,256,600.00 from the federal funding awarded to this state under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, to be used solely for the purpose of funding the primary funding formula calculated under section 20, in accordance with federal law. In addition, all other available federal funds are appropriated each fiscal year for the fiscal year ending September 30, 2010 and for the fiscal year ending September 30, 2011.

(2) The appropriations under this section shall be allocated as provided in this act. Money appropriated under this section from the general fund shall be expended to fund the purposes of this act before the expenditure of money appropriated under this section from the state school aid fund. If the maximum amount appropriated under this section from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(3) If the maximum amount appropriated under this section from the state school aid fund and the school aid stabilization fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 56 shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (4). If proration is necessary, state payments under each of the other sections of this act from

all state funding sources shall be prorated in the manner prescribed in subsection (4) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30 calendar day or 6 legislative session day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30 calendar day or 6 legislative session day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(4) If proration is necessary under subsection (3), the department shall calculate the proration in district and intermediate district payments that is required under subsection (3) as follows:

(a) The department shall calculate the percentage of total state school aid allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities other than districts or intermediate districts.

(b) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, and 53a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, and 56, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (3) that is equal to the percentage calculated under subdivision (a)(iii) for entities other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(5) If the department reports to the chairpersons of the house and senate appropriations subcommittees responsible for this act, to the house and senate fiscal agencies, and to the state budget director that the department has been notified that this state has not been awarded a competitive grant from the federal incentive grant program created under sections 14005 and 14006 of title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, known as the "race to the top" grant program, then in addition to the appropriation in subsection (1) there is also appropriated from the state school aid fund for 2010-2011 an additional amount not to exceed \$26,167,500.00 and the general fund appropriation in subsection (1) for 2010-2011 is reduced by \$2,363,800.00.

(6) Except for the allocation under section 26a, any general fund allocations under this act that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11a. (1) The school aid stabilization fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963.

(2) The state treasurer may receive money or other assets from any source for deposit into the school aid stabilization fund. The state treasurer shall deposit into the school aid stabilization fund all of the following:

(a) Unexpended and unencumbered state school aid fund revenue for a fiscal year that remains in the state school aid fund as of the bookclosing for that fiscal year.

(b) Money statutorily dedicated to the school aid stabilization fund.

(c) Money appropriated to the school aid stabilization fund.

(3) Money available in the school aid stabilization fund may not be expended without a specific appropriation from the school aid stabilization fund. Money in the school aid stabilization fund shall be expended only for purposes for which state school aid fund money may be expended.

(4) The state treasurer shall direct the investment of the school aid stabilization fund. The state treasurer shall credit to the school aid stabilization fund interest and earnings from fund investments.

(5) Money in the school aid stabilization fund at the close of a fiscal year shall remain in the school aid stabilization fund and shall not lapse to the unreserved school aid fund balance or the general fund.

(6) If the maximum amount appropriated under section 11 from the state school aid fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, there is appropriated from the school aid stabilization fund to the state school aid fund an amount equal to the projected shortfall as determined by the department of treasury, but not to exceed available money in the school aid stabilization fund. If the money in the school aid stabilization fund is insufficient to fully fund an amount equal to the projected shortfall, the state budget director shall notify the legislature as required under section 11(3) and state payments in an amount equal to the remainder of the projected shortfall shall be prorated in the manner provided under section 11(4).

(7) For 2010-2011, there is appropriated from the school aid stabilization fund to the state school aid fund the amount necessary to fully fund the allocations under this act.

Sec. 11d. (1) For 2009-2010 only, the department shall deduct an amount equal to \$154.00 per membership pupil from the total state school aid otherwise allocated under this act to each district, except for money allocated under sections 11g, 22a, 31d, 51a(12), 51c, and 53a. For 2010-2011, the department shall deduct an amount equal to \$154.00 per membership pupil from the total state school aid otherwise allocated under this act to each district, except for money allocated under sections 11g, 22a, 31d, 32d, 51a(12), 51c, and 53a. If a district complies with subsection (2), a district may choose to apply this reduction to funding the district receives under any provision of this act, other than sections 11g, 22a, 31d, 51a(12), 51c, and 53a, and, beginning in 2010-2011, section 32d, even if the reduction chosen by the district results in a program being reduced or discontinued. If a district does not comply with subsection (2), the district shall apply this reduction to available funding under section 22b first, up to the total amount of the reduction, before reducing other funding the district receives under this act, other than sections 11g, 22a, 31d, 51a(12), 51c, and 53a.

(2) Not later than February 1, 2010, a district shall enter into an agreement with the department to develop a service consolidation plan to reduce school operating costs that is in compliance with department guidelines. The department guidelines may identify, but are not limited to, allowable cost-sharing arrangements for the provision of business services and instructional services and the creation of joint operating agreements between and among districts and intermediate districts. The department shall establish guidelines for service consolidation plans under this subsection not later than 60 days after the effective date of this section.

(3) Not later than February 1, 2011, a district shall submit to the department, in the form and manner prescribed by the department, a report on the status of the district's implementation of the service consolidation plan the district submitted under subsection (2).

(4) In addition to developing a service consolidation plan under subsection (2), a district or intermediate district that purchases diesel fuel shall explore possibilities for coordinating regional purchasing of diesel fuel.

Sec. 11g. (1) From the appropriation in section 11, there is allocated for this section an amount not to exceed \$39,000,000.00 for the fiscal year ending September 30, 2011 and for each succeeding fiscal year through the fiscal year ending September 30, 2015, after which these payments will cease. These allocations are for paying the amounts described in subsection (3) to districts and intermediate districts, other than those receiving a lump-sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section and any other provision of this act are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.

(3) The amount paid each fiscal year to each district or intermediate district under this section shall be 1 of the following:

(a) If the district or intermediate district does not borrow money and issue bonds under section 11i, 1/30 of the total amount listed in section 11h for the district or intermediate district through the fiscal year ending September 30, 2013.

(b) If the district or intermediate district borrows money and issues bonds under section 11i, an amount in each fiscal year calculated by the department of treasury that is equal to the debt service amount in that fiscal year on the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.

(4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds received under this section to pay

debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:

(a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.

(b) Second, to pay debt service on other limited tax obligations.

(c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

(5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

Sec. 11j. From the appropriation in section 11, there is allocated an amount not to exceed \$45,134,000.00 for 2010-2011 for payments to the school loan bond redemption fund in the department of treasury on behalf of districts and intermediate districts. Notwithstanding section 11 or any other provision of this act, funds allocated under this section are not subject to proration and shall be paid in full.

Sec. 11k. For 2010-2011, there is appropriated from the general fund to the school loan revolving fund an amount equal to the amount of school bond loans assigned to the Michigan finance authority, not to exceed the total amount of school bond loans held in reserve as long-term assets. As used in this section, "school loan revolving fund" means that fund created in section 16c of the shared credit rating act, 1985 PA 227, MCL 141.1066c.

Sec. 11m. From the appropriations in section 11, there is allocated for 2009-2010 an amount not to exceed \$20,000,000.00 and for 2010-2011 there is allocated an amount not to exceed \$45,000,000.00 for fiscal year cash-flow borrowing costs solely related to the state school aid fund established by section 11 of article IX of the state constitution of 1963.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this act, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this act other than a special education or special education transportation payment. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, affected payments shall be adjusted in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment if the district would otherwise experience a significant hardship.

(3) If, because of the receipt of new or updated data, the department determines during a fiscal year that the amount paid to a district or intermediate district under this act for a prior fiscal year was incorrect under the law in effect for that year, the department may make the appropriate deduction or payment in the district's or intermediate district's allocation for the fiscal year in which the determination is made. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the improper amount was paid.

(4) Expenditures made by the department under this act that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(5) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2010-2011 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

Sec. 18. (1) Except as provided in another section of this act, each district or other entity shall apply the money received by the district or entity under this act to salaries and other compensation of teachers and other employees, tuition, transportation, lighting, heating, ventilation, water service, the purchase of textbooks which are designated by the board to be used in the schools under the board's charge, other supplies, and any other school operating expenditures

defined in section 7. However, not more than 20% of the total amount received by a district under article 2 or intermediate district under article 8 may be transferred by the board to either the capital projects fund or to the debt retirement fund for debt service. The money shall not be applied or taken for a purpose other than as provided in this section. The department shall determine the reasonableness of expenditures and may withhold from a recipient of funds under this act the apportionment otherwise due upon a violation by the recipient.

(2) Within 30 days after a board adopts its annual operating budget for the following school fiscal year, or after a board adopts a subsequent revision to that budget, the district shall make all of the following available through a link on its website home page, or may make the information available through a link on its intermediate district's website home page, in a form and manner prescribed by the department:

(a) The annual operating budget and subsequent budget revisions.

(b) Using data that have already been collected and submitted to the department, a summary of district expenditures for the most recent fiscal year for which they are available, expressed in the following 2 pie charts:

(i) A chart of personnel expenditures, broken into the following subcategories:

(A) Salaries and wages.

(ii) Each health care benefits plan, including, but not limited to, medical, dental, vision, disability, long-term care, or any other type of benefits that would constitute health care services, offered to any bargaining unit or employee in the district.

(iii) The audit report of the audit conducted under subsection (4) for the most recent fiscal year for which it is available.

(d) The total salary and a description and cost of each fringe benefit included in the compensation package for the superintendent of the district and for each employee of the district whose salary exceeds \$100,000.00.

(e) The annual amount spent on dues paid to associations.

(f) The annual amount spent on lobbying or lobbying services. As used in this subdivision, "lobbying" means that term as defined in section 5 of 1978 PA 472, MCL 4.415.

(3) For the information required under subsection (2)(a), (2)(b)(i), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).

(4) For the purpose of determining the reasonableness of expenditures and whether a violation of this act has occurred, all of the following apply:

(a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually at the expense of the district or intermediate district, as applicable, by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. The auditor must document compliance with the audit cycle in the pupil auditing manual. As used in this subdivision, "stable membership" means that the district's membership for the current fiscal year varies from the district's membership for the immediately preceding fiscal year by less than 5%.

(c) An intermediate district's annual financial audit shall be accompanied by the intermediate district's pupil accounting procedures report.

(d) A district's or intermediate district's annual financial audit shall include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

(e) The pupil accounting records and reports, audits, and management letters are subject to requirements established in the auditing and accounting manuals approved and published by the department.

(f) Except as otherwise provided in this subsection, a district shall file the annual financial audit reports with the intermediate district not later than 120 days after the end of each school fiscal year and the intermediate district shall forward the annual financial audit reports for its constituent districts and for the intermediate district, and the pupil accounting procedures report for the pupil membership count day and supplemental count day, to the department not later than November 15 of each year.

(g) The annual financial audit reports and pupil accounting procedures reports shall be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(h) Not later than December 31 of each year, the department shall notify the state budget director and the legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By November 15 of each year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the report shall also contain the website address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions shall include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and shall include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. Districts shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report. The department shall make this information available online to districts and intermediate districts, and shall include per-pupil amounts spent on instruction and instructional support service functions, and indicate how much of those costs were attributable to salaries. Districts and intermediate districts shall include a link on their websites to the website where the department posts this information.

(6) By September 30 of each year, each district and intermediate district shall file with the department the special education actual cost report, known as "SE-4096", on a form and in the manner prescribed by the department.

(7) By October 7 of each year, each district and intermediate district shall file with the center the transportation expenditure report, known as "SE-4094", on a form and in the manner prescribed by the center.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this act.

(9) If a district that is a public school academy purchases property using money received under this act, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), and (7), the department shall withhold all state school aid due to the district or intermediate district under this act, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), and (7). If the district or intermediate district does not comply with subsections (4), (5), (6), and (7) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, shall be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to comply with the provisions of the American recovery and reinvestment act of 2009, Public Law 111-5, requiring the establishment of a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report. This information shall meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (6).

(3) By the first business day in December and by June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to educational personnel as necessary for reporting required by state and federal law.

(4) By June 30 of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to safety practices and criminal incidents as necessary for reporting required by state and federal law.

(5) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this act until the district or intermediate district complies with all of those subsections. If the district or intermediate district does not comply with all of those subsections by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with all of those subsections.

(6) Before publishing a list of schools or districts determined to have failed to make adequate yearly progress as required by the no child left behind act of 2001, Public Law 107-110, the department shall allow a school or district to appeal that determination. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

Sec. 20. (1) For 2009-2010 and for 2010-2011, the basic foundation allowance is \$8,489.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus \$20.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2009-2010 and for 2010-2011, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for the immediately preceding state fiscal year. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year in the basic foundation allowance.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(d) If House Bill No. 6212 of the 95th Legislature is enacted into law, then beginning in 2011-2012, for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation

allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For the purposes of state law, federal funding awarded to this state under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, that is appropriated under section 11 and allocated under section 22b, is considered to be part of the state portion of a district's foundation allowance and is considered to be part of the total state school aid paid to a public school academy.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. However, for a pupil enrolled in a district other than the pupil's district of residence, if the foundation allowance of the pupil's district of residence has been adjusted pursuant to subsection (19), the allocation calculated under this section shall not include the adjustment described in subsection (19). For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection shall take into account a district's per pupil allocation under section 20j(2).

(6) Subject to subsection (7) and except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy or a university school, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy or university school equal to the foundation allowance of the district in which the public school academy or university school is located or the state maximum public school academy allocation, whichever is less. However, a public school academy or university school that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy or university school is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) If more than 25% of the pupils residing within a district are in membership in 1 or more public school academies located in the district, then the amount per membership pupil calculated under this section for a public school academy

located in the district shall be reduced by an amount equal to the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils, in the school fiscal year ending in the current state fiscal year, calculated as if the resident pupils in membership in 1 or more public school academies located in the district were in membership in the district. In order to receive state school aid under this act, a district described in this subsection shall pay to the authorizing body that is the fiscal agent for a public school academy located in the district for forwarding to the public school academy an amount equal to that local school operating revenue per membership pupil for each resident pupil in membership other than special education pupils in the public school academy, as determined by the department.

(8) If a district does not receive an amount calculated under subsection (9); if the number of mills the district may levy on a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property under section 1211 of the revised school code, MCL 380.1211, is 0.5 mills or less; and if the district elects not to levy those mills, the district instead shall receive a separate supplemental amount calculated under this subsection in an amount equal to the amount the district would have received had it levied those mills, as determined by the department of treasury. A district shall not receive a separate supplemental amount calculated under this subsection for a fiscal year unless in the calendar year ending in the fiscal year the district levies the district's certified mills on property that is nonexempt property.

(9) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00 and that had fewer than 350 pupils in membership, if the district elects not to reduce the number of mills from which a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property are exempt and not to levy school operating taxes on a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property as provided in section 1211 of the revised school code, MCL 380.1211, and not to levy school operating taxes on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, there is calculated under this subsection for 1994-95 and each succeeding fiscal year a separate supplemental amount in an amount equal to the amount the district would have received per membership pupil had it levied school operating taxes on a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, and commercial personal property at the rate authorized for the district under section 1211 of the revised school code, MCL 380.1211, and levied school operating taxes on all property at the rate authorized for the district under section 1211(2) of the revised school code, MCL 380.1211, as determined by the department of treasury. If in the calendar year ending in the fiscal year a district does not levy the district's certified mills on property that is nonexempt property, the amount calculated under this subsection will be reduced by the same percentage as the millage actually levied compares to the district's certified mills.

(10) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts. The calculation under this subsection shall take into account a district's per pupil allocation under section 20j(2).

(11) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(12) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(13) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the

management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2009-2010 and for 2010-2011, the index shall be 1.00. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(14) If the principals at the revenue estimating conference reach a consensus on the index described in subsection (13)(c), the lowest foundation allowance among all districts for the subsequent state fiscal year shall be at least the amount of that consensus index multiplied by the lowest foundation allowance among all districts for the immediately preceding state fiscal year.

(15) If at the January revenue estimating conference it is estimated that pupil membership, excluding intermediate district membership, for the subsequent state fiscal year will be greater than 101% of the pupil membership, excluding intermediate district membership, for the current state fiscal year, then it is the intent of the legislature that the executive budget proposal for the school aid budget for the subsequent state fiscal year include a general fund/general purpose allocation sufficient to support the membership in excess of 101% of the current year pupil membership.

(16) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00, that had fewer than 7 pupils in membership in the 1993-94 state fiscal year, that has at least 1 child educated in the district in the current state fiscal year, and that levies the number of mills of school operating taxes authorized for the district under section 1211 of the revised school code, MCL 380.1211, a minimum amount of combined state and local revenue shall be calculated for the district as provided under this subsection. The minimum amount of combined state and local revenue for 1999-2000 shall be \$67,000.00 plus the district's additional expenses to educate pupils in grades 9 to 12 educated in other districts as determined and allowed by the department. The minimum amount of combined state and local revenue under this subsection, before adding the additional expenses, shall increase each fiscal year by the same percentage increase as the percentage increase in the basic foundation allowance from the immediately preceding fiscal year to the current fiscal year. The state portion of the minimum amount of combined state and local revenue under this subsection shall be calculated by subtracting from the minimum amount of combined state and local revenue under this subsection the sum of the district's local school operating revenue and an amount equal to the product of the sum of the state portion of the district's foundation allowance plus the amount calculated under section 20j times the district's membership. As used in this subsection, "additional expenses" means the district's expenses for tuition or fees, not to exceed the basic foundation allowance for the current state fiscal year, plus a room and board stipend not to exceed \$10.00 per school day for each pupil in grades 9 to 12 educated in another district, as approved by the department.

(17) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection.

(18) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00.

(19) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002, and may also use these funds for an early intervening program described in subsection (20). For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups,

the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

(20) An early intervening program that uses funds resulting from the adjustment under subsection (19) shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using schoolwide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A schoolwide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(21) For a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$800,000.00 for a fiscal year as a result of this adjustment.

(22) For a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$500,000.00 for a fiscal year as a result of this adjustment.

(23) Payments to districts, university schools, or public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(24) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

(25) If Senate Bill No. 884 of the 95th Legislature is enacted into law not later than September 30, 2010, then the basic foundation allowance under subsection (1) for 2010-2011 is increased by \$10.00 and the \$20.00 amount in subsection (3)(a) and subsection (26)(h) shall be considered to be \$3.00 for that fiscal year, and each district's foundation allowance or public school academy's per pupil allocation calculated under this section for that fiscal year shall be adjusted accordingly. However, if that bill is enacted by that date but the revenue resulting from that enactment for 2010-2011, as determined by the department of treasury, is not sufficient to fully fund the adjustments under this subsection and the payments calculated under section 20j for that fiscal year, then those adjustments and payments for that fiscal year shall be prorated on an equal per pupil basis according to the amount of the revenue that results from that enactment for that fiscal year.

(o) "Taxable value per membership pupil" means taxable value, as certified by the department of treasury, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2010-2011, the department and the department of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in the 1994-95 state fiscal year of \$6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district pursuant to this act in 1993-94 shall exclude payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district's combined state and local revenue per membership pupil in the 1994-95 state fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

(b) If a district had an adjustment made to its 1993-94 total state school aid that excluded payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services for intermediate district center programs operated by the district under article 5, if nonresident pupils attending the center programs were included in the district's membership for purposes of calculating the combined state and local revenue per membership pupil for 1993-94, and if there is a signed agreement by all constituent districts of the intermediate district that an adjustment under this subdivision shall be made, the foundation allowances for 1995-96 and 1996-97 of all districts that had pupils attending the intermediate district center program operated by the district that had the adjustment shall be calculated as if their combined state and local revenue per membership pupil for 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

Sec. 20j. (1) Subject to subsection (5), if Senate Bill No. 884 of the 95th Legislature is enacted into law not later than September 30, 2010, then foundation allowance supplemental payments to districts that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 shall be calculated under this section for 2010-2011.

(2) Subject to subsection (5), the per pupil allocation to each district under this section for 2010-2011 shall be an amount equal to the product of the difference between the basic foundation allowance for the 1998-99 state fiscal year and \$7,204.00 less \$271.00 minus the dollar amount of the adjustment from the 1998-99 state fiscal year to 2007-2008 in the district's foundation allowance, times 50%.

(3) If a district's local revenue per pupil does not exceed the sum of its foundation allowance under section 20 plus the per pupil allocation under subsection (2), the total payment to the district calculated under this section for 2010-2011 shall be the product of the per pupil allocation under subsection (2) multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the foundation allowance under section 20 but does not exceed the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2), the total payment to the district calculated under this section shall be the product of the difference between the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2) minus the local revenue per pupil multiplied by the district's membership excluding special education pupils. If a district's local revenue per pupil exceeds the sum of the foundation allowance under section 20 plus the per pupil allocation under subsection (2), there is no payment calculated under this section for the district.

(4) Payments to districts shall not be made under this section. Rather, the calculations under this section shall be made and used to determine the amount of state payments under section 22b.

(5) If Senate Bill No. 884 of the 95th Legislature is enacted into law not later than September 30, 2010 but the revenue resulting from that enactment for 2010-2011, as determined by the department of treasury, is not sufficient to fully fund the payments calculated under this section and the adjustments calculated under section 20(25) for that fiscal year, then those payments and adjustments for that fiscal year shall be prorated on an equal per pupil basis according to the amount of the revenue that results from that enactment for that fiscal year.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,785,000,000.00 for 2009-2010 and an amount not to exceed \$5,764,000,000.00 for 2010-2011 for payments to districts, qualifying university schools, and qualifying public school academies to guarantee each district, qualifying university school, and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy or qualifying university school, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy, or to the board of the public university operating

the qualifying university school, an amount equal to the 1994-95 per pupil payment to the qualifying public school academy or qualifying university school under section 20.

(4) A district, qualifying university school, or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district, qualifying university school, or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

(m) "Taxable value per membership pupil" means each of the following divided by the district's membership:

Sec. 22b. (1) From the state funds appropriated in section 11, there is allocated for 2009-2010 an amount not to exceed \$3,289,000,000.00 and there is allocated for 2010-2011 an amount not to exceed \$3,573,500,000.00 for discretionary nonmandated payments to districts under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) In addition to the funds allocated in subsection (1), there is allocated an amount estimated at \$450,000,000.00 for 2009-2010 and there is allocated an amount estimated at \$184,256,600.00 for 2010-2011 from the federal funds awarded to this state under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5. These funds shall be distributed in a form and manner determined by the department based on an equal dollar amount per the number of membership pupils used to calculate the final state aid payment of the immediately preceding fiscal year and shall be expended in a manner prescribed by federal law.

(3) Subject to subsection (4) and section 11, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 20j, 51a(2), 51a(3), and 51a(12), minus the sum of the allocations to the district under sections 22a and 51c.

(4) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. A district may use the Michigan literacy progress profile to satisfy this requirement for grades 1 to 3. Also, if the revised school code is amended to require annual assessments at additional grade levels, in order to receive an allocation under this section each district shall comply with that requirement.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.

(5) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(7) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(8) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, and 51c. If a claim is made by an entity receiving funds under this act that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (3). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.

(9) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (8) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (3).

(10) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(11) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(12) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396v.

Sec. 22d. (1) From the appropriation in section 11, an amount not to exceed \$2,025,000.00 is allocated for 2010-2011 for additional payments to small, geographically isolated districts under this section.

(2) From the allocation under subsection (1), there is allocated for 2010-2011 an amount not to exceed \$750,000.00 for payments under this subsection to districts that meet all of the following:

- (a) Operates grades K to 12.
- (b) Has fewer than 250 pupils in membership.
- (c) Each school building operated by the district meets at least 1 of the following:
 - (i) Is located in the Upper Peninsula at least 30 miles from any other public school building.
 - (ii) Is located on an island that is not accessible by bridge.

(3) The amount of the additional funding to each eligible district under subsection (2) shall be determined under a spending plan developed as provided in this subsection and approved by the superintendent of public instruction. The spending plan shall be developed cooperatively by the intermediate superintendents of each intermediate district in which an eligible district is located. The intermediate superintendents shall review the financial situation of each eligible district, determine the minimum essential financial needs of each eligible district, and develop and agree on a spending plan that distributes the available funding under subsection (2) to the eligible districts based on those financial needs. The intermediate superintendents shall submit the spending plan to the superintendent of public instruction for approval. Upon approval by the superintendent of public instruction, the amounts specified for each eligible district under the spending plan are allocated under subsection (2) and shall be paid to the eligible districts in the same manner as payments under section 22b.

(4) Subject to subsection (6), from the allocation in subsection (1), there is allocated for 2010-2011 an amount not to exceed \$1,275,000.00 for payments under this subsection to districts that meet all of the following:

- (b) The district has a total square mileage greater than 200.0 or is 1 of 2 districts that have consolidated transportation services and have a combined total square mileage greater than 200.0.
- (5) The funds allocated under subsection (4) shall be allocated on an equal per pupil basis.
- (6) A district receiving funds allocated under subsection (2) is not eligible for funding allocated under subsection (4).

Sec. 22e. (1) Beginning in 2008-2009, an amount will be allocated each fiscal year from the appropriation in section 11 for additional payments under this subsection to districts that meet the eligibility requirements under subsection (2). For 2010-2011, there is allocated for this purpose from the appropriation in section 11 an amount not to exceed \$1,300,000.00.

(2) To be eligible for a payment under subsection (1), a district must be determined by the department and the department of treasury to meet all of the following:

 - (ii) The amount of operating millage it is authorized to levy after a voluntary reduction of its operating millage rate adopted by the board of the district.
 - (iii) The amount of operating millage it is authorized to levy after a millage reduction required under the limitation of section 31 of article IX of the state constitution of 1963, if a ballot question asking for approval to levy millage in excess of the limitation has been rejected in the district.

(b) The district receives a reduced amount of local school operating revenue under section 1211 of the revised school code, MCL 380.1211, as a result of the exemptions of industrial personal property and commercial personal property that were enacted in 2007 PA 37.

(c) The district does not receive any state portion of its foundation allowance, as calculated under section 20(4).

(3) Subject to subsection (4), the amount of the additional funding to each eligible district under subsection (1) is the sum of the following and shall be paid to the eligible districts in the same manner as payments under section 22b:

(a) The product of the taxable value of the district's industrial personal property for the calendar year ending in the fiscal year multiplied by the total number of mills the district levies on nonexempt property under section 1211 of the revised school code, MCL 380.1211, for that calendar year.

(b) The product of the taxable value of the district's commercial personal property for the calendar year ending in the fiscal year multiplied by the lesser of 12 mills or the total number of mills the district levies on nonexempt property under section 1211 of the revised school code, MCL 380.1211, for that calendar year.

(4) The amount of the additional funding to an eligible district under subsection (1) for a fiscal year shall not exceed 15% of the total amount allocated under subsection (1) for that fiscal year.

(5) If the total amount of the payments calculated under subsection (3) for a fiscal year exceeds the allocation under subsection (1) for that fiscal year, the payment to each district under subsection (1) shall be prorated on an equal percentage basis.

(6) In addition to the amount allocated under subsection (1), for 2010-2011 only there is also allocated from the appropriation in section 11 the amount of \$500,000.00 to a district that is eligible for a payment under subsection (1) and that levied 1.8 mills in 1993 to finance an operating deficit.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2010-2011 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of energy, labor, and economic growth and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Sec. 24a. From the appropriation in section 11, there is allocated an amount not to exceed \$1,751,300.00 for 2009-2010 and there is allocated an amount not to exceed \$1,440,000.00 for 2010-2011 for payments to intermediate districts for pupils who are placed in juvenile justice service facilities operated by the department of human services. Each intermediate district shall receive an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities described in this section that are located within the intermediate district's boundaries. The intermediate districts receiving payments under this section shall cooperate with the department of human services to ensure that all funding allocated under this section is utilized by the intermediate district and department of human services for educational programs for pupils described in this section. Pupils described in this section are not eligible to be funded under section 24. However, a program responsibility or other fiscal responsibility associated with these pupils shall not be transferred from the department of human services to a district or intermediate district unless the district or intermediate district consents to the transfer.

Sec. 24c. From the appropriation in section 11, there is allocated an amount not to exceed \$642,300.00 for 2010-2011 for payments to districts for pupils who are enrolled in a nationally administered community-based education and youth mentoring program, known as the youth challenge program, that is located within the district and is administered by the department of military and veterans affairs. Both of the following apply to a district receiving payments under this section:

(a) The district shall contract with the department of military and veterans affairs to ensure that all funding allocated under this section is utilized by the district and the department of military and veterans affairs for the youth challenge program.

(b) The district may retain for its administrative expenses an amount not to exceed 3% of the amount of the payment the district receives under this section.

Sec. 26a. From the state school aid fund appropriation in section 11, there is allocated an amount not to exceed \$26,300,000.00 for 2010-2011, and from the general fund appropriation in section 11, there is allocated an amount not to exceed \$9,200,000.00 for 2010-2011 to reimburse districts, intermediate districts, and the state school aid fund pursuant to section 12 of the Michigan renaissance zone act, 1996 PA 376, MCL 125.2692, for taxes levied in 2010. The allocations shall be made not later than 60 days after the department of treasury certifies to the department and to the state budget director that the department of treasury has received all necessary information to properly determine the amounts due to each eligible recipient.

Sec. 26b. (1) From the appropriation in section 11, there is allocated for 2010-2011 an amount not to exceed \$3,400,000.00 for payments to districts, intermediate districts, and community college districts for the portion of the payment in lieu of taxes obligation that is attributable to districts, intermediate districts, and community college districts pursuant to section 2154 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.2154.

(2) If the amount appropriated under this section is not sufficient to fully pay obligations under this section, payments shall be prorated on an equal basis among all eligible districts, intermediate districts, and community college districts.

Sec. 29. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$20,000,000.00 for 2010-2011 for additional payments to eligible districts for declining enrollment assistance.

(2) A district is eligible for a payment under this section if all of the following apply:

(a) The district's pupil membership for the current fiscal year is less than the district's pupil membership for the immediately preceding fiscal year and the district's pupil membership for the immediately preceding fiscal year is less than the district's pupil membership for the previously preceding fiscal year as calculated under section 6 for that fiscal year.

(b) The district's average pupil membership is greater than the district's pupil membership for the current fiscal year as calculated under section 6.

(c) The district is not eligible to receive funding under section 6(4)(y) or 22d(2).

(3) Payments to each eligible district shall be equal to the difference between the district's average pupil membership and the district's pupil membership as calculated under section 6 for the current fiscal year multiplied by the district's foundation allowance as calculated under section 20. If the total amount of the payments calculated under this subsection exceeds the allocation for this section, the payment to each district shall be prorated on an equal percentage basis.

(4) For the purposes of this section, "average pupil membership" means the average of the district's membership for the 3-fiscal-year period ending with the current fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under section 6, and dividing the sum of those 3 membership figures by 3.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2010-2011 an amount not to exceed \$317,695,500.00 for payments to eligible districts and eligible public school academies under this section. Subject to subsection (14), the amount of the additional allowance under this section, other than funding under subsection (6) or (7), shall be based on the number of actual pupils in membership in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year. However, for a public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy must meet all of the following:

(a) The sum of the district's or public school academy's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), is less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(b) The district or public school academy agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy shall receive under this section for each membership pupil in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or public school academy's per pupil amount calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), may use not more than 20% of the funds it receives under this section for school security. A district or public school academy shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy under this section in the immediately preceding year and already being used by the district or public school academy for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this section.

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2010-2011 an amount not to exceed \$3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2010-2011 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(11) A district or public school academy may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds under this section that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy may submit to the department an application for flexibility in using the funds received under this section that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to benefit at-risk pupils in the school. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

(13) A district or public school academy that receives funds under this section may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate

personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) Except as otherwise provided in subsection (18), a district or public school academy that does not meet the eligibility requirement under subsection (2)(a) is eligible for funding under this section if at least 1/4 of the pupils in membership in the district or public school academy met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), and at least 4,500 of the pupils in membership in the district or public school academy met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1). A district or public school academy that is eligible for funding under this section because the district meets the requirements of this subsection shall receive under this section for each membership pupil in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as determined and reported as described in subsection (1), an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or public school academy's per pupil allocation under section 20, plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the current state fiscal year.

(17) A district that does not meet the eligibility requirement under subsection (2)(a) is eligible for funding under this section if at least 75% of the pupils in membership in the district met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), the district receives an adjustment under section 20(19), and the district does not receive any state portion of its foundation allowance as calculated under section 20. A district that is eligible for funding under this section because the district meets the requirements of this subsection shall receive under this section for each membership pupil in the district who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as determined and reported as described in subsection (1), an amount per pupil equal to 11.5% of the sum of the district's foundation allowance under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year.

(18) For a district described in subsection (16), the total allocation to the district otherwise due under this section, after any reduction under subsection (14), shall be further reduced by 25%.

(19) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, or science test for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading component of the most recent Michigan merit examination for which results for the pupil have been received, did not achieve proficiency on the mathematics component of the most recent Michigan merit examination for which results for the pupil have been received, or did not achieve basic competency on the science component of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

Sec. 31d. (1) From the appropriations in section 11, there is allocated an amount not to exceed \$22,495,100.00 for 2010-2011 for the purpose of making payments to districts and other eligible entities under this section.

(2) The amounts allocated from state sources under this section shall be used to pay the amount necessary to reimburse districts for 6.0127% of the necessary costs of the state mandated portion of the school lunch programs provided by those districts. The amount due to each district under this section shall be computed by the department

using the methods of calculation adopted by the Michigan supreme court in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

(3) The payments made under this section include all state payments made to districts so that each district receives at least 6.0127% of the necessary costs of operating the state mandated portion of the school lunch program in a fiscal year.

(4) The payments made under this section to districts and other eligible entities that are not required under section 1272a of the revised school code, MCL 380.1272a, to provide a school lunch program shall be in an amount not to exceed \$10.00 per eligible pupil plus 5 cents for each free lunch and 2 cents for each reduced price lunch provided, as determined by the department.

(5) From the federal funds appropriated in section 11, there is allocated for 2010-2011 all available federal funding, estimated at \$400,000,000.00, for the national school lunch program and all available federal funding, estimated at \$2,506,000.00, for the emergency food assistance program.

(6) Notwithstanding section 17b, payments to eligible entities other than districts under this section shall be paid on a schedule determined by the department.

(7) In purchasing food for a school lunch program funded under this section, preference shall be given to food that is grown or produced by Michigan businesses if it is competitively priced and of comparable quality.

Sec. 31f. (1) From the appropriations in section 11, there is allocated an amount not to exceed \$9,625,000.00 for 2010-2011 for the purpose of making payments to districts to reimburse for the cost of providing breakfast.

(2) The funds allocated under this section for school breakfast programs shall be made available to all eligible applicant districts that meet all of the following criteria:

(a) The district participates in the federal school breakfast program and meets all standards as prescribed by 7 CFR parts 220 and 245.

(b) Each breakfast eligible for payment meets the federal standards described in subdivision (a).

(3) The payment for a district under this section is at a per meal rate equal to the lesser of the district's actual cost or 100% of the statewide average cost of a breakfast served, as determined and approved by the department, less federal reimbursement, participant payments, and other state reimbursement. The statewide average cost shall be determined by the department using costs as reported in a manner approved by the department for the preceding school year.

(4) Notwithstanding section 17b, payments under this section may be made pursuant to an agreement with the department.

(5) In purchasing food for a school breakfast program funded under this section, preference shall be given to food that is grown or produced by Michigan businesses if it is competitively priced and of comparable quality.

Sec. 32b. (1) From the funds appropriated under section 11, there is allocated an amount not to exceed \$6,000,000.00 for 2010-2011 for competitive grants to intermediate districts for the creation and continuance of great start communities or other community purposes as identified by the early childhood investment corporation. These dollars may not be expended until both of the following conditions have been met:

(a) The early childhood investment corporation has identified matching dollars of at least an amount equal to the amount of the matching dollars for 2006-2007.

(b) The executive committee of the corporation includes, in addition to the members of the executive committee provided for by the interlocal agreement creating the corporation under the urban cooperation act of 1967, 1967 (Ex Sess) PA 7, MCL 124.510 to 124.512, 4 members appointed by the governor as provided in this subdivision. Not later than 30 days after the convening of a regular legislative session in an odd-numbered year, the speaker of the house of representatives, the house minority leader, the senate majority leader, and the senate minority leader shall each submit to the governor a list of 3 or more individuals as nominees for appointment as members of the executive committee of the corporation. The corporation shall notify each of the legislative leaders of this requirement to submit a list of nominees not later than 30 days before the date that the list is due. Within 60 days of the submission to the governor of nominees by each of the 4 legislative leaders, the governor shall appoint 1 member of the executive committee from each list of nominees submitted by each of the 4 legislative leaders. A member appointed under this subdivision shall serve a term as a member of the executive committee through the next regular legislative session unless he or she resigns or is otherwise unable to serve. When a vacancy occurs other than by expiration of a term, the corporation shall notify the legislative leader who originally nominated the member of the vacancy and that legislative leader shall submit to the governor a list of 3 or more individuals as nominees for appointment to fill the vacancy within 30 days after being notified by the corporation of the vacancy. The governor shall make an appointment to fill that vacancy in the same manner as the original appointment not later than 60 days after the date the vacancy occurs.

(2) The early childhood investment corporation shall award grants to eligible intermediate districts in an amount to be determined by the corporation.

(3) In order to receive funding, each intermediate district applicant shall agree to convene a local great start collaborative to address the availability of the 6 components of a great start system in its communities: physical health, social-emotional health, family supports, basic needs, economic stability and safety, and parenting education and early education and care, to ensure that every child in the community is ready for kindergarten. Specifically, each grant will fund the following:

(a) The completion of a community needs assessment and strategic plan for the creation of a comprehensive system of early childhood services and supports, accessible to all children from birth to kindergarten and their families.

(b) Identification of local resources and services for children with disabilities, developmental delays, or special needs and their families.

(c) Coordination and expansion of infrastructure to support high-quality early childhood and childcare programs.

(5) An intermediate district receiving funds under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds in the next fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

(6) Notwithstanding section 17b, payments under this section may be made pursuant to an agreement with the department.

Sec. 32c. (1) If the double deduction allowed for state income tax purposes for indirect costs incurred in oil and gas production is eliminated, then in addition to the general fund appropriation in section 11, there is appropriated an amount not to exceed \$1,500,000.00 for 2010-2011 to the department for grants for community-based collaborative prevention services designed to foster positive parenting skills; improve parent/child interaction, especially for children 0-3 years of age; promote access to needed community services; increase local capacity to serve families at risk; improve school readiness; and support healthy family environments that discourage alcohol, tobacco, and other drug use. The allocation under this section is to fund secondary prevention programs as defined by the children's trust fund for the prevention of child abuse and neglect.

(2) The funds allocated under subsection (1) shall be distributed through a joint request for proposals process established by the department in conjunction with the children's trust fund and the interagency director's workgroup. Projects funded with grants awarded under this section shall meet all of the following:

(a) Be secondary prevention initiatives and voluntary to consumers. This appropriation is not intended to serve the needs of children for whom and families in which neglect or abuse has been substantiated.

(b) Demonstrate that the planned services are part of a community's integrated comprehensive family support strategy endorsed by the community collaborative and, where there is a great start collaborative, demonstrate that the planned services are part of the community's great start strategic plan.

(c) Provide a 25% local match, of which not more than 10% may be in-kind services, unless this requirement is waived by the interagency director's workgroup.

(3) Notwithstanding section 17b, payments under this section may be made pursuant to an agreement with the department.

(4) Not later than January 30 of the next fiscal year, the department shall prepare and submit to the governor and the legislature an annual report of outcomes achieved by the providers of the community-based collaborative prevention services funded under this section for a fiscal year.

Sec. 32d. (1) For 2010-2011, there is allocated to eligible districts for great start readiness programs an amount not to exceed \$89,400,000.00 from the state school aid fund money appropriated in section 11. In addition, from the general fund appropriation in section 11, there is allocated an amount not to exceed \$8,875,000.00 for competitive great start readiness program grants. Funds allocated under this section shall be used to provide part-day or full-day comprehensive free compensatory programs designed to do 1 or both of the following:

(a) Improve the readiness and subsequent achievement of educationally disadvantaged children as defined by the department who will be at least 4, but less than 5 years of age, as of December 1 of the school year in which the programs are offered, and who show evidence of 2 or more risk factors as defined by the state board.

(b) Provide preschool and parenting education programs similar to those under former section 32b as in effect for 2001-2002. Beginning in 2007-2008, funds spent by a district for programs described in this subdivision shall not exceed the lesser of the amount spent by the district under this subdivision for 2006-2007 or the amount spent under this subdivision in any subsequent fiscal year.

(2) To be eligible to receive payments under this section, a district shall comply with this section and section 39. To receive competitive grant payments under this section, an eligible grant recipient shall comply with this section and section 32l.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed \$300,000.00 for 2010-2011 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program shall prepare children for success in school through comprehensive part-day or full-day programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process. At a minimum, the process shall include all other funded preschool programs that may serve children in the same geographic area, to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(c) Nutritional services for all program participants.

(d) Health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a multidistrict, multiagency, school readiness advisory committee that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee shall review the program components listed in this subsection and make recommendations for changes to the great start readiness program for which it is an advisory committee.

(i) For great start readiness programs operated by a district or consortium of districts, provide for the ongoing articulation of the early childhood, kindergarten, and first grade programs offered by the district or districts.

(5) An application for funding under this section shall provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Ensure that more than 75% of the children participating in an eligible great start readiness program are children who live with families with a household income that is equal to or less than 300% of the federal poverty level.

(c) Ensure that the applicant only employs qualified personnel for this program, as follows:

(i) Teachers possessing proper training. For programs the district manages itself, a valid teaching certificate and an early childhood (ZA) endorsement are required. This provision does not apply to a district that subcontracts with an eligible child development program. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA) endorsement, a valid Michigan teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, both of the following apply to this subparagraph:

(A) If a district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be employed by the district if the district provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 4 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(B) For a subcontracted program, the department shall consider a teacher with 90 credit hours and at least 4 years' teaching experience in a qualified preschool program to meet the requirements under this subparagraph.

(ii) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential, or the equivalent as approved by the state board. However, if a district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the district may employ paraprofessionals

who have completed at least 1 course in early childhood education or child development if the district provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds by the applicant to serve children eligible for a federally funded existing preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a full-day program funded under this section, each child enrolled in the full-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a full-day program. As used in this subsection, "full-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a full-day program must enroll all children for the full day to be considered a full-day program.

(7) A district or consortium of districts receiving a grant under this section may contract with for-profit or nonprofit preschool center providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 5% of the grant amount. A district or consortium of districts may expend not more than 10% of the total grant amount for administration of the program.

(8) Any public or private for-profit or nonprofit legal entity or agency may apply for a competitive grant under this section. However, a district or intermediate district may not apply for a competitive grant under this section unless the district, intermediate district, or consortium of districts or intermediate districts is acting as a local grantee for the federal head start program operating under the head start act, 42 USC 9831 to 9852.

(9) A recipient of funds under this section shall report to the department on the midyear report the number of children participating in the program who meet the income or other eligibility criteria prescribed by the department and the total number of children participating in the program. For children participating in the program who meet the income or other eligibility criteria specified under subsection (5)(b), a recipient shall also report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(10) As used in this section, "part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a full-day program as defined in subsection (6).

(11) A district or intermediate district receiving funds under this section is encouraged to establish a sliding scale of tuition rates based upon a child's family income for the purpose of expanding eligible programs under this section. A district or intermediate district may charge tuition for programs provided under this section according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the program eligibility requirements under this section.

Sec. 32j. (1) From the appropriations in section 11, there is allocated an amount not to exceed \$5,000,000.00 for 2010-2011 for great parents, great start grants to intermediate districts to provide programs for parents with young children. The purpose of these programs is to encourage early mathematics and reading literacy, improve school readiness, reduce the need for special education services, and foster the maintenance of stable families by encouraging positive parenting skills.

(2) To qualify for funding under this section, a program shall provide services to all families with children age 5 or younger residing within the intermediate district who choose to participate, including at least all of the following services:

(a) Providing parents with information on child development from birth to age 5.

(b) Providing parents with methods to enhance parent-child interaction that promote social and emotional development and age-appropriate language, mathematics, and early reading skills for young children; including, but not limited to, encouraging parents to read to their preschool children at least 1/2 hour per day.

(c) Providing parents with examples of learning opportunities to promote intellectual, physical, and social growth of young children, including the acquisition of age-appropriate language, mathematics, and early reading skills.

(d) Promoting access to needed community services through a community-school-home partnership.

(3) To receive a grant under this section, an intermediate district shall submit a plan to the department not later than October 15, 2010 in the form and manner prescribed by the department. The plan shall do all of the following in a manner prescribed by the department:

(a) Provide a plan for the delivery of the program components described in subsection (2) that targets resources based on family need and provides for educators trained in child development to help parents understand their role in their child's developmental process, thereby promoting school readiness and mitigating the need for special education services.

(b) Demonstrate an adequate collaboration of local entities involved in providing programs and services for preschool children and their parents and, where there is a great start collaborative, demonstrate that the planned services are part of the community's great start strategic plan.

(c) Provide a projected budget for the program to be funded. The intermediate district shall provide at least a 20% local match from local public or private resources for the funds received under this section. Not more than 1/2 of this matching requirement, up to a total of 10% of the total project budget, may be satisfied through in-kind services provided by participating providers of programs or services. In addition, not more than 10% of the grant may be used for program administration.

(4) Each intermediate district receiving a grant under this section shall agree to include a data collection system approved by the department. The data collection system shall provide a report by October 15 of each year on the number of children in families with income below 200% of the federal poverty level that received services under this program and the total number of children who received services under this program.

(5) The department or superintendent, as applicable, shall do all of the following:

(a) The superintendent shall approve or disapprove the plans and notify the intermediate district of that decision not later than November 15, 2010. The amount allocated to each intermediate district shall be at least an amount equal to 100% of the intermediate district's 2009-2010 payment under this section.

(b) The department shall ensure that all programs funded under this section utilize the most current validated research-based methods and curriculum for providing the program components described in subsection (2).

(c) The department shall submit a report to the state budget director and the senate and house fiscal agencies summarizing the data collection reports described in subsection (4) by December 1 of each year.

(6) An intermediate district receiving funds under this section shall use the funds only for the program funded under this section. An intermediate district receiving funds under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds in the next fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

Sec. 32l. (1) The department shall establish a diverse interagency committee to review the applications for competitive grants under section 32d. The committee shall be composed of representatives of the department, appropriate community, volunteer, and social service agencies and organizations, and parents.

(2) The superintendent shall award the competitive grants under section 32d to applicants that are in compliance with that section and shall give priority for awarding the competitive grants to programs that offer or contract with another nonprofit or for-profit early childhood program to provide supplementary day care and thereby offers full-day programs as part of its early childhood development program.

(3) The superintendent may award competitive grants under section 32d at whatever level the superintendent determines appropriate. However, the amount of a competitive grant under that section, when combined with other sources of state revenue for this program, shall not exceed \$3,400.00 per participating child or the cost of the program, whichever is less.

(4) All grant awards under this section are contingent on the availability of funds and documented evidence of grantee compliance with early childhood standards of quality for prekindergarten, as approved by the state board, and with all operational, fiscal, administrative, and other program requirements.

(5) Except as otherwise provided in this subsection, an applicant that received a grant under this section for the immediately preceding fiscal year shall receive priority for funding under this section. However, after 3 fiscal years of continuous funding, an applicant is required to compete openly with new programs and other programs completing their third year.

(6) Notwithstanding section 17b, competitive grant payments to eligible entities under section 32d shall be paid on a schedule and in a manner determined by the department.

Sec. 39. (1) A district receiving funds under section 32d shall submit a preapplication, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment and community collaboration plan, which is endorsed by

the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the district will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the district and community early childhood programs have met their funded enrollments. The school district shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) A district receiving funds under section 32d shall also submit a final application for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the district complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each district in the following manner: 1/2 of the percentage of the district's pupils in grades 1 to 5 who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the district on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) Beginning in 2008-2009, the initial allocation for each fiscal year to each eligible district under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the district indicates it will be able to serve under subsection (1)(c), whichever is less, by \$3,400.00 and shall be distributed among districts in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children a district indicates it will be able to serve under subsection (1)(c) includes children able to be served in a full-day program, then the number able to be served in a full-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3) and the number of children the district indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the district under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a full-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds appropriated for eligible districts in section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible district under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each eligible district served in the immediately preceding fiscal year, including the number of children the district would have served if it had not satisfied all or part of the reduction under section 11d from funding under this section, or the number of children the district indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the district received funding in subsection (4) by \$3,400.00.

(6) If funds appropriated for eligible districts in section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible district under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the district indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the district indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by \$3,400.00 until the funds allocated for eligible districts in section 32d are distributed.

(7) If a district is participating in a program under section 32d for the first year, the maximum allocation under this section is 32 multiplied by \$3,400.00.

(8) A district that offers supplementary day care funded by funds other than those received under this section and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible districts.

(9) For any district with 315 or more eligible pupils, the number of eligible pupils shall be 65% of the number calculated using the formula under subsection (3). However, none of these districts may have less than 315 pupils for purposes of calculating the tentative allocation for eligible districts under section 32d.

(10) If, taking into account the total amount to be allocated to the district as calculated under this section, a district determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the district may include additional eligible children but shall not receive additional funding under section 32d for those children.

(11) A consortium of 2 or more districts shall be eligible for an allocation under section 32d if the districts designate a district or intermediate district to serve as the fiscal agent for the consortium's allocation. A consortium shall submit a single application for the total number of children to be served. The consortium may decide, with approval of all consortium members, to serve numbers of children based on the allocation to each district or based on the allocation to the entire consortium, allowing children residing in any district in the consortium to be served by the consortium at any location.

From the appropriation in section 11, there is allocated an amount not to exceed \$2,800,000.00 for 2010-2011 to applicant districts and intermediate districts offering programs of instruction for pupils of limited English-speaking ability under section 1153 of the revised school code, MCL 380.1153. Reimbursement shall be on a per pupil basis and shall be based on the number of pupils of limited English-speaking ability in membership on the pupil membership count day. Funds allocated under this section shall be used solely for instruction in speaking, reading, writing, or comprehension of English. A pupil shall not be counted under this section or instructed in a program under this section for more than 3 years.

Sec. 51a. (1) From the appropriation in section 11, there is allocated for 2009-2010 an amount not to exceed \$1,019,583,000.00 and there is allocated for 2010-2011 an amount not to exceed \$1,057,883,000.00 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$350,700,000.00 for 2009-2010 and estimated at \$385,700,000.00 for 2010-2011, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2002-2003 may be distributed in accordance with the flexible funding provisions of the individuals with disabilities education act, Public Law 108-446, including, but not limited to, 34 CFR 300.206 and 300.208. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated each fiscal year the amount necessary, estimated at \$238,500,000.00 for 2009-2010 and estimated at \$248,200,000.00 for 2010-2011, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (12), times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the

current fiscal year, or, for a special education pupil in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (12), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per pupil allocation under section 20j(2).

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2009-2010 and for 2010-2011 the amount necessary, estimated at \$1,200,000.00 for 2009-2010 and estimated at \$1,400,000.00 for 2010-2011, to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2009-2010 and for 2010-2011 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated each fiscal year an amount not to exceed \$2,200,000.00 for 2009-2010 and for 2010-2011 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of this article, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district

shall report the cost of those support services for special education reimbursement purposes under this act. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) From the allocation in subsection (1), there is allocated each fiscal year for 2009-2010 and for 2010-2011 an amount not to exceed \$15,313,900.00 to intermediate districts. The payment under this subsection to each intermediate district shall be equal to the amount of the 1996-97 allocation to the intermediate district under subsection (6) of this section as in effect for 1996-97.

(9) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(10) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(11) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(12) From the funds allocated in subsection (1), there is allocated each fiscal year the amount necessary, estimated at \$7,800,000.00 for 2009-2010 and estimated at \$6,600,000.00 for 2010-2011, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). For 2010-2011 and for 2011-2012, the required minimum number of days of pupil instruction is 165. Beginning in 2012-2013, the required minimum number of days of pupil instruction is 170. However, beginning in 2010-2011, a district shall not provide fewer days of pupil instruction than the district provided for 2009-2010. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this act, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection shall forfeit from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than August 1, the board of each district shall certify to the department the number of hours and, beginning in 2010-2011, days of pupil instruction in the previous school year. (e) Except as otherwise provided in subdivision (f), a district not having at least 75% of the district's membership in attendance on any day of pupil instruction shall receive state aid in that proportion of 1/180 that the actual percent of attendance bears to the specified percentage.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent may grant a waiver from the requirements of subdivision (e) in order to conduct a pilot study. The waiver shall indicate that an eligible district is subject to the proration provisions of subdivision (e) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements during the pilot study:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, shall be counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 6 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district after April 1 of the applicable school year due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days shall not be counted as hours or days of pupil instruction.

(5) A district shall not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) Not later than April 15 of each fiscal year, the board of each district shall certify to the department the planned number of hours and days of pupil instruction in the district for the school year ending in the fiscal year. In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following has occurred in a district, the district shall forfeit in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this act that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, shall be considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours

of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a junior reserve officer training corps (JROTC) program shall be considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States department of defense and the applicable branch of the armed services for serving as an instructor in the junior reserve officer training corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsection (11), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent may waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, for the fiscal year covered by the waiver the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture shall be calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). Pupils enrolled in a department-approved alternative education program under this subsection shall be reported to the center in a form and manner determined by the center.

(10) A district may count up to 38 hours of qualifying professional development for teachers as hours of pupil instruction. Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers, which shall include the Michigan virtual university. However, if a collective bargaining agreement that provides more than 38 but not more than 51 hours of professional development for teachers is in effect for employees of a district as of October 1, 2006, then until the fiscal year that begins after the expiration of that collective bargaining agreement a district may count up to 51 hours of qualifying professional development for teachers as hours of pupil instruction. A district that elects to use this exception shall notify the department of its election. As used in this subsection, "qualifying professional development" means professional development that is focused on 1 or more of the following:

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a.

(12) The department shall study the actual costs of providing distance learning or other alternative instructional delivery that is being used in this state and shall report on its findings to the house and senate fiscal agencies and the office of the state budget not later than September 10, 2012. Upon request by the department, a school of excellence described in subsection (11), the Michigan virtual university, or a school that receives a seat time waiver from the department under this section shall submit to the department any data requested by the department for the purposes of this study.

The annual level percentage of payroll contribution rate is estimated at 19.41% for the 2010-2011 state fiscal year. The portion of the contribution rate assigned to districts and intermediate districts for each fiscal year is all of the total percentage points. This contribution rate reflects an amortization period of 27 years for 2010-2011. However, the contribution rate for 2010-2011 may be reduced by an amount approved by the public school employees' retirement system board if reforms in the public school employees' retirement system are enacted and in effect by December 31, 2010. The public school employees' retirement system board shall notify each district and intermediate district by February 28 of each fiscal year of the estimated contribution rate for the next fiscal year.

Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district or intermediate district in any curricular offering that is provided by the district or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for curricular offerings that are offered to full-time pupils in the minor's grade level or age group during regularly scheduled school hours.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades 1 to 12 in a nonpublic school located within the district or who resides within the district and is being home-schooled from also enrolling the minor in the district in a curricular offering being provided by the district at the nonpublic school site. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(i) The nonpublic school site is located, or the nonpublic students are educated, within the geographic boundaries of the district.

(ii) If the nonpublic school has submitted a written request for a specific fiscal year to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or, if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the portion of the instruction that the district has not agreed to provide is instead provided by a district that is contiguous to the district in which the nonpublic school is located. This subparagraph applies only to instruction, or a portion of instruction, that is specifically included in the written request that was made to the district in which the nonpublic school is located and that was denied by that district. A public school academy that is located in the district in which the nonpublic school is located or in a district that is contiguous to the district in which the nonpublic school is located also may provide instruction under this subparagraph in the same manner as a district that is contiguous to the district in which the nonpublic school is located.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is scheduled to occur during the regular school day.

(d) The instruction is provided directly by an employee of the district or public school academy or of an intermediate district.

(e) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy during the regular school day at a public school site.

(f) The curricular offering is restricted to nonessential elective courses for pupils in grades 1 to 12.

(3) A minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(4) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

Sec. 166c. (1) The board of a district or intermediate district shall develop and implement a policy addressing adequate access to basic instructional supplies. For the purposes of this section, the department shall develop and publish on its website a model policy.

(2) If a teacher or principal determines that he or she does not have adequate access to basic instructional supplies, he or she may file a claim with the principal of the school or superintendent of the district or intermediate district, as applicable, asserting the failure of the district or intermediate district to provide adequate access to basic instructional supplies, along with an explanation of the basis for making this assertion. The principal or superintendent, as applicable, shall attempt to resolve the problem at that level within a reasonable amount of time. If the teacher files a claim with a principal and determines that the principal has failed to resolve the problem, he or she may file a claim with the district or intermediate district superintendent. The principal or superintendent, as applicable, shall attempt to resolve the problem at that level within a reasonable amount of time. If the principal or teacher files a claim with a superintendent and determines that the superintendent has failed to resolve the problem, he or she may file a claim with the board of the district or intermediate district. The board of the district or intermediate district shall attempt to resolve the problem at that level within a reasonable amount of time. If the teacher or principal determines that the problem has not been resolved by the board, he or she may file a claim with the department asserting the failure of the district or intermediate district to provide adequate access to basic instructional supplies along with an explanation of the basis for making this assertion. However, if a teacher works in a school that has been placed under the supervision of the state school reform/redesign officer under section 1280c of the revised school code, MCL 380.1280c, then, instead of following the procedures under this subsection, the teacher may file a claim directly with the state school reform/redesign officer.

(3) Subject to subsection (4), if the department receives a claim under this section, the department shall contact the district or intermediate district in which the teacher or principal is employed to provide notification of the claim. Within 3 business days after receiving this notification, the district or intermediate district shall contact the department in order to resolve the problem. If the department is not satisfied with the response of the district or intermediate district, the department shall further investigate and may elect to take action.

(4) If the department does not have sufficient resources to address all claims under this section, the department may prioritize claims based on need.

(5) The board of a district or intermediate district shall ensure that a teacher or principal who files a claim with the department under this section is not subject to any adverse treatment for filing the claim.

(6) Failure of a district or intermediate district to meet the requirements of this section does not create a cause of action or constitute a breach of any legal duty in a civil action.

Sec. 166d. (1) A school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, or an educational management organization with which the cyber school has a contract, shall not require an employee, a former employee, or an individual doing work for the cyber school as an independent contractor or as an employee of the educational management organization or another third party to sign an agreement that he or she will not disclose salary or other compensation information.

(2) A school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, that violates subsection (1) or that is party to a contract with an educational management organization that violates subsection (1) shall forfeit from its state aid under this act an amount equal to 2% of its total state aid.
