

Senate Bill 263 (Substitute S-1 as reported)

Sponsor: Senator Tory Rocca

Committee: Regulatory Reform

### **CONTENT**

The bill would amend Part 179 (Athletic Training) of the Public Health Code to provide that Part 179 would not apply to a person who was temporarily present in Michigan for an event that used the services of athletic trainers and who was a board of certification-certified athletic trainer or was licensed as an athletic trainer in another state.

The Code prohibits an individual from engaging in the practice of athletic training unless he or she is licensed under Part 179. The licensing requirement does not prohibit an individual licensed under any other part of the Code or any other act from performing activities that are considered the practice of athletic training, as long as those activities are within the individual's scope of practice and he or she does not use an athletic training title.

(Part 179 defines "practice of athletic training" as the treatment of an individual for risk management and injury prevention, the clinical evaluation and assessment of an individual for an injury or illness, or both, the immediate care and treatment of an individual for an injury or illness, or both, and the rehabilitation and reconditioning of an individual's injury or illness, or both, as long as those activities are within the rules promulgated under Part 179 and performed under the direction and supervision of a licensed physician.)
