House Bill 4591 (Substitute S-2 as reported)
Sponsor: Representative Frank D. Foster
House Committee: Judiciary
Senate Committee: Judiciary

CONTENT

The bill would amend the handgun licensure law to do both of the following:

- Allow a retired Federal law enforcement officer to carry a concealed pistol in a no-carry zone.
- Excuse from the educational requirement for obtaining a concealed pistol license a peace officer, active-duty U.S. military personnel, or a person who was honorably discharged from the U.S. military.

An individual who is licensed to carry a concealed pistol, or who is exempt from licensure, may not carry a concealed pistol on the premises of certain facilities (commonly referred to as no-carry zones). That restriction, however, does not apply to certain people. The bill also would exclude from restriction an individual who was licensed under the law and who was a retired Federal law enforcement officer who carried a firearm during the course of his or her employment as a Federal officer. The concealed weapon license board could require a letter from the law enforcement agency that had employed the officer immediately before his or her retirement, stating that the officer retired in good standing.

The law requires a concealed weapon licensing board to issue a license to carry a concealed pistol to an applicant who properly submits an application, after the board determines that certain requirements have been met. One of the requirements is that the applicant has knowledge and has had training in the safe use and handling of a pistol by the successful completion of a pistol safety training course. The educational requirement is waived for an applicant who is a retired police officer or retired law enforcement officer. The bill also would waive the educational requirement for a peace officer, a person on active duty status with the U.S. Armed Forces, or a person who received an honorable discharge from the U.S. Armed Forces at the time of his or her separation from the military.

MCL 28.425k et al.
