12           Sec. 5. All of the following apply to the redistricting plans  
13 in sections ~~1-1A~~ and ~~2-2A~~:

14           (a) In adopting the redistricting plans for the house of  
15 representatives and the senate, it is the intention of the  
16 legislature to comply fully with sections 1 and 1a of 1996 PA 463,  
17 MCL 4.261 and 4.261a.

18           (b) The number of county breaks in the redistricting plans is  
19 determined by the following principles:

20           (i) Breaking a county line means assigning part of the  
21 population of a county to 1 or more counties in the formation of a  
22 district.

23           (ii) If population is shifted from a county to a single  
24 election district, including a district from 2 geographically-  
25 separate whole cities or whole townships, there is 1 break. Except  
26 as provided in subparagraph (iii), if population from a county is  
27 shifted to 2 or more election districts, there are 2 or more

1 breaks.

2 (iii) If 1 part of a county is shifted to a district and the  
3 rest of the county is shifted to another district, there is 1  
4 break.

5 (c) The number of municipal breaks in the redistricting plans  
6 is determined by the following principles:

7 (i) Breaking a municipal line means assigning part of the  
8 population of a municipality to 1 or more municipalities or  
9 counties in the formation of a district.

10 (ii) If population is shifted from a municipality to a single  
11 election district, there is 1 break. Except as provided in  
12 subparagraph (iii), if population from a municipality is shifted to 2  
13 or more election districts, there are 2 or more breaks.

14 (iii) If 1 part of a municipality is shifted to a district and  
15 the rest of the municipality is shifted to another district, there  
16 is 1 break.

17 (iv) If the boundary of a city, which is located in more than 1  
18 county, is broken in order to preserve a county boundary, that does  
19 not count as a municipal break.

20 (d) The redistricting plans were designed to comply fully with  
21 both section 2 of the voting rights act of 1965, ~~Public Law 89-110,~~  
22 ~~42 U.S.C.—USC~~ 1973, and the requirements of the equal protection  
23 clause of amendment XIV of the constitution of the United States,  
24 as set forth in Shaw v Reno, 509 US 630 (1993), and subsequent  
25 cases concerning racial gerrymandering. In light of these dual  
26 obligations, the plans avoid any practice or district lines that  
27 result in the denial of any racial or ethnic group's equal

1 opportunity to elect a representative of its choice and, at the  
2 same time, does not subordinate traditional redistricting  
3 principles for the purpose of accomplishing a racial gerrymander or  
4 creating a majority-minority district. As a consequence, the plans  
5 do not result in retrogression or dilution of minority voting  
6 strength, particularly in light of the demographic limitations  
7 caused by relative population losses and the neutral criteria set  
8 forth in section 1 of 1996 PA 463, MCL 4.261. However, the plans do  
9 not sacrifice traditional neutral principles, such as, most  
10 importantly, the Michigan constitutional principles of preservation  
11 of county and municipal boundaries, for the purpose of engaging in  
12 a gerrymander that unnecessarily favors 1 racial group over others.

13 (e) The plans further the underlying purpose of the state  
14 constitution of 1963 by facilitating effective representation in  
15 the legislature where elected representatives can advance the  
16 shared interests of unified municipalities or counties. They do so  
17 without sacrificing voting rights act of 1965 principles, equal  
18 electoral opportunities, or racial fairness.

19 (f) The redistricting plan for the house of representatives  
20 consists of 110 single member districts comprised of convenient  
21 territories contiguous by land. ~~All of the following apply to the~~  
22 ~~plan:~~

23 ~~—— (i) The districts range in size between 85,861 and 94,823~~  
24 ~~residents.~~
