(Sec. 51a(15))

Conference Agreement on Items of Difference

4. **Definitions - Community District.** Senate and Conference added a definition for a "community district", and included a community district in the definition for purposes of State aid. (Sec. 3)
5. **Pupil Membership Blend.** Governor changed the pupil membership blend from a 90% weight on the current September count plus 10% on the prior February count to 50/50. 7. **Statewide Standard Reporting.** Governor and House deleted legislative intent to implement statewide standard reporting requirements for education data approved by the Department along with the Center for Educational Performance and Information (CEPI). Conference retained the section applicable only for pupils enrolled in strict discipline academies. (Sec. 25e)
13. **Great Start Readiness Program.** Conference included a change from "children" to "slots" to ensure that each ISD receives at least as many slots as in the prior year unless fewer children are actually in need. Senate further changed the cap and structure for administrative spending (to be 4.0% for ISDs, with sub-recipient spending for administration counted in program costs); House admin cap was 5.0%. Conference included 4.0% admin cap. Senate and Conference removed children served only in Head Start programs from counting toward meeting 30.0% threshold. (Sec. 32d)

15. **MiSTEM Programs.** Governor included language allocating funds for the purpose of funding Michigan science, technology, engineering, and math (MiSTEM) based on recommendations of the MiSTEM advisory council, and if the council is unable to make specific funding recommendations by March 1, 2016, the Department is directed to distribute the funds on a competitive grant basis. Conference restructured by earmarking some of the funds for specific purposes, and extending the deadline to June 1, 2016 for the Council to make specific grant recommendations. (Sec. 99s)
16. **District Scorecard.** Senate and Conference added language requiring the Department to work with CEPI use the number of kids enrolled at the time of the State assessment to determine participation on the scorecard. (Sec. 104)
17. **Kindergarten Entry Assessment (KEA).** Governor removed the required field testing of the KEA, and replaced the entry assessment with assessments in the fall and spring for English language arts and math. Conference amended the language to require the State to provide the KEA to districts who are interested in using it, and required the Department to field test a Kindergarten Readiness Assessment. (Sections 104)
18. **Adult Education.** Conference changed eligibility definitions in this section, such that the individual can be enrolled in an adult basic education program, an adult secondary education program, an adult English as a second language program, a high school equivalency test preparation program, or a high school completion program, and the individual must either be at least age 20 or be defined as an "out-of-school youth". The payment cap of \$2,850 per full-time equivalent participant also was removed. Conference changed the funding formula, striking the 80% enrollment/20% completion formula and replacing with a formula that uses statewide allocation criteria, three-year averaging of actual enrollments, census data, local needs, participant completion of adult basic education objectives, participant completion of core indicators, and allowable expenditures. Conference implemented a one-year freeze on the planned phase-in of a new funding formula. (Sec. 107)
19. **Nonpublic Pupils.** Conference added a requirement for the Department to set up a workgroup to examine a uniform definition for a part-time nonpublic or home school pupil and for non-core elective courses. (Sec. 166b)
