HB-4418, As Passed House, March 23, 2016HB-4418, As Passed Senate, March 23, 2016

# HOUSE BILL No. 4418

## April 14, 2015, Introduced by Reps. Chatfield, Pettalia, Cole, Johnson, Rendon, Barrett, Theis, Aaron Miller, Inman, Hooker, Franz, Bumstead and LaFontaine and referred to the Committee on Transportation and Infrastructure.

A bill to amend 1949 PA 300, entitled

"Michigan vehicle code,"

by amending section 722 (MCL 257.722), as amended by 2012 PA 522.

### THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

Sec. 722. (1) Except as otherwise provided in this section,
 the maximum axle load shall not exceed the number of pounds

3 designated in the following provisions that prescribe the

4 distance between axles:

5 (a) If the axle spacing is 9 feet or more between axles, the
6 maximum axle load shall not exceed 18,000 pounds for vehicles
7 equipped with high pressure pneumatic or balloon tires.

8 (b) If the axle spacing is less than 9 feet between 2 axles
9 but more than 3-1/2 feet, the maximum axle load shall not exceed
10 13,000 pounds for high pressure pneumatic or balloon tires.

(c) If the axles are spaced less than 3-1/2 feet apart, the

11

KED

HOUSE BILL No. 4418

1 maximum axle load shall not exceed 9,000 pounds per axle.

2 (d) Subdivisions (a), (b), and (c) shall be known as the3 normal loading maximum.

4 (2) When normal loading is in effect, the state 5 transportation department, or a local authority with respect to highways under its jurisdiction, may designate certain highways, 6 or sections of those highways, where bridges and road surfaces 7 are adequate for heavier loading, and revise a designation as 8 needed, on which the maximum tandem axle assembly loading shall 9 10 not exceed 16,000 pounds for any axle of the assembly, if there is no other axle within 9 feet of any axle of the assembly. 11

12 (3) On a legal combination of vehicles, only 1 tandem axle assembly is permitted on the designated highways at the gross 13 permissible weight of 16,000 pounds per axle, if there is no 14 other axle within 9 feet of any axle of the assembly, and if no 15 other tandem axle assembly in the combination of vehicles exceeds 16 a gross weight of 13,000 pounds per axle. On a combination of 17 truck tractor and semitrailer having not more than 5 axles, 2 18 19 consecutive tandem axle assemblies are permitted on the 20 designated highways at a gross permissible weight of 16,000 pounds per axle, if there is no other axle within 9 feet of any 21 axle of the assembly. 22

(4) Notwithstanding subsection (3), on a combination of
truck tractor and semitrailer having not more than 5 axles, 2
consecutive sets of tandem axles may carry a gross permissible
weight of not to exceed 17,000 pounds on any axle of the tandem
axles if there is no other axle within 9 feet of any axle of the

#### 02111'15

KED

tandem axles and if the first and last axles of the consecutive 1 sets of tandem axles are not less than 36 feet apart and the 2 gross vehicle weight does not exceed 80,000 pounds to pick up and 3 deliver agricultural commodities between the national truck 4 5 network or special designated highways and any other highway. This subsection is not subject to the maximum axle loads of 6 subsections (1), (2), and (3). For purposes of this subsection, a 7 "tandem axle" means 2 axles spaced more than 40 inches but not 8 more than 96 inches apart or 2 axles spaced more than 3-1/2 feet 9 but less than 9 feet apart. This subsection does not apply during 10 that period when reduced maximum loads are in effect under 11 12 subsection (8).

(5) The seasonal reductions described under subsection (8) 13 to the loading maximums and gross vehicle weight requirement of 14 subsection (12) do not apply to a person hauling agricultural 15 commodities if the person who picks up or delivers the 16 agricultural commodity either from a farm or to a farm notifies 17 the county road commission for roads under its authority not less 18 19 than 48 hours before the pickup or delivery of the time and 20 location of the pickup or delivery. The county road commission shall issue a permit to the person and charge a fee that does not 21 exceed the administrative costs incurred. The permit shall 22 contain all of the following: 23

(a) The designated route or routes of travel for the load.
(b) The date and time period requested by the person who
picks up or delivers the agricultural commodities during which
the load may be delivered or picked up.

#### 02111'15

KED

1

(c) A maximum speed limit of travel, if necessary.

2 (d) Any other specific conditions agreed to between the3 parties.

4 (6) The seasonal reductions described under subsection (8)
5 to the loading maximums and gross vehicle weight requirements of
6 subsection (12) do not apply to public utility vehicles under the
7 following circumstances:

8 (a) For emergency public utility work on restricted roads,9 as follows:

(i) If required by the county road commission, the public 10 utility or its subcontractor shall notify the county road 11 12 commission, as soon as practical, of the location of the emergency public utility work and provide a statement that the 13 vehicles that were used to perform the emergency utility work may 14 have exceeded the loading maximums and gross vehicle weight 15 requirements of subsection (12) as reduced under subsection (8). 16 The notification may be made via facsimile or electronically. 17

18 (*ii*) The public utility vehicle travels to and from the site
19 of the emergency public utility work while on a restricted road
20 at a speed not greater than 35 miles per hour.

(b) For nonemergency public utility work on restrictedroads, as follows:

(i) If the county road commission requires, the public
utility or its subcontractor shall apply to the county road
commission annually for a seasonal truck permit for roads under
its authority before seasonal weight restrictions are effective.
The county road commission shall issue a seasonal truck permit

KED

1 for each public utility vehicle or vehicle configuration the 2 public utility or subcontractor anticipates will be utilized for 3 nonemergency public utility work. The county road commission may 4 charge a fee for a seasonal truck permit that does not exceed the 5 administrative costs incurred for the permit. The seasonal truck 6 permit shall contain all of the following:

5

7 (A) The seasonal period requested by the public utility or8 subcontractor during which the permit is valid.

9 (B) A unique identification number for the vehicle and any
10 vehicle configuration to be covered on the seasonal truck permit
11 requested by the public utility or subcontractor.

(C) A requirement that travel on restricted roads during weight restrictions will be minimized and only utilized when necessary to perform public utility work using the public utility vehicle or vehicle configuration and that nonrestricted roads shall be used for travel when available and for routine travel.

17 (D) A requirement that in the case of a subcontractor the
18 permit is only valid while the subcontractor vehicle is being
19 operated in the performance of public utility work.

(E) A requirement that a subcontractor vehicle or vehicle
configuration shall display signage on the outside of the vehicle
to identify the vehicle as operating on behalf of the public
utility.

(ii) If the county road commission requires notification, the county road commission shall provide a notification application for the public utility or its subcontractor to use when requesting access to operate on restricted roads and the public

KED

utility or its subcontractor shall provide notification to the 1 county road commission, via facsimile or electronically, not 2 later than 24 hours before the time of the intended travel. A 3 4 subcontractor using a vehicle on a restricted road shall have a 5 copy of any notification provided to a county road commission in the subcontractor's possession while performing the relevant 6 nonemergency work. Notwithstanding this subsection or an 7 agreement under this subsection, if the county road commission 8 determines that the condition of a particular road under its 9 jurisdiction makes it unusable, the county road commission may 10 deny access to all or any part of that road. The denial shall be 11 12 made and communicated via facsimile or electronically to the public utility or its subcontractor within 24 hours after 13 receiving notification that the public utility or subcontractors 14 intends to perform nonemergency work that requires use of that 15 road. Any notification that is not disapproved within 24 hours 16 after the notice is received by the county road commission is 17 considered approved. The notification application required under 18 19 this subparagraph may include all of the following information: 20 (A) The address or location of the nonemergency work.

21

(B) The date or dates of the nonemergency work.

(C) The route to be taken to the nonemergency work site.
(D) The restricted road or roads intended to be traveled
upon to the nonemergency work site or sites.

25 (E) In the case of a subcontractor, the utility on whose26 behalf the subcontractor is performing services.

27

(7) The normal size of tires shall be the rated size as

02111'15

KED

published by the manufacturers, and the maximum wheel load
 permissible for any wheel shall not exceed 700 pounds per inch of
 width of tire.

4 (8) Except as provided in this subsection and subsection 5 (9), during the months of March, April, and May in each year, the maximum axle load allowable on concrete pavements or pavements 6 with a concrete base is reduced by 25% from the maximum axle load 7 as specified in this chapter, and the maximum axle loads 8 allowable on all other types of roads during these months are 9 reduced by 35% from the maximum axle loads as specified. The 10 maximum wheel load shall not exceed 525 pounds per inch of tire 11 12 width on concrete and concrete base or 450 pounds per inch of tire width on all other roads during the period the seasonal road 13 restrictions are in effect. Subject to subsection (5), this 14 subsection does not apply to vehicles transporting agricultural 15 commodities or, subject to subsection (6), public utility 16 vehicles on a highway, road, or street under the jurisdiction of 17 a local road agency. In addition, this subsection does not apply 18 19 to a vehicle delivering propane fuel to a residence if the 20 vehicle's propane tank is filled to not more than 50% of its capacity and the vehicle is traveling at not more than 35 miles 21 22 per hour. The state transportation department and each local authority with highways and streets under its jurisdiction to 23 which the seasonal restrictions prescribed under this subsection 24 apply shall post all of the following information on the homepage 25 of its website or, if a local authority does not have a website, 26 27 then on the website of a statewide road association of which it

KED

1 is a member:

2 (a) The dates when the seasonal restrictions are in effect. 3 (b) The names of the highways and streets and portions of highways and streets to which the seasonal restrictions apply. 4 5 (9) The state transportation department for roads under its 6 jurisdiction and a county road commission for roads under its jurisdiction may grant exemptions from seasonal weight 7 restrictions for milk on specified routes when requested in 8 writing. Approval or denial of a request for an exemption shall 9 be given by written notice to the applicant within 30 days after 10 the date of submission of the application. If a request is 11 12 denied, the written notice shall state the reason for denial and alternate routes for which the permit may be issued. The 13 applicant may appeal to the state transportation commission or 14 15 the county road commission. These exemptions do not apply on county roads in counties that have negotiated agreements with 16 milk haulers or haulers of other commodities during periods of 17 seasonal load limits before April 14, 1993. This subsection does 18 19 not limit the ability of these counties to continue to negotiate 20 such agreements.

(10) The state transportation department, or a local authority with respect to highways under its jurisdiction, may suspend the restrictions imposed by this section when and where conditions of the highways or the public health, safety, and welfare warrant suspension, and impose the restricted loading requirements of this section on designated highways at any other time that the conditions of the highway require.

KED

1 (11) For the purpose of enforcing this act, the gross vehicle weight of a single vehicle and load or a combination of 2 vehicles and loads shall be determined by weighing individual 3 axles or groups of axles, and the total weight on all the axles 4 shall be the gross vehicle weight. In addition, the gross axle 5 weight shall be determined by weighing individual axles or by 6 weighing a group of axles and dividing the gross weight of the 7 group of axles by the number of axles in the group. For purposes 8 of subsection (12), the overall gross weight on a group of 2 or 9 more axles shall be determined by weighing individual axles or 10 several axles, and the total weight of all the axles in the group 11 12 shall be the overall gross weight of the group.

13 (12) The loading maximum in this subsection applies to 14 interstate highways, and the state transportation department, or 15 a local authority with respect to highways under its 16 jurisdiction, may designate a highway, or a section of a highway, 17 for the operation of vehicles having a gross vehicle weight of 18 not more than 80,000 pounds that are subject to the following 19 load maximums:

20 (a) Twenty thousand pounds on any 1 axle, including all21 enforcement tolerances.

(b) A tandem axle weight of 34,000 pounds, including allenforcement tolerances.

24 (c) An overall gross weight on a group of 2 or more25 consecutive axles equaling:

26

W=500[(LN)/(N-1)+12N+36]

#### 02111'15

KED

1 where W = overall gross weight on a group of 2 or more consecutive axles to the nearest 500 pounds, L = distance in feet 2 between the extreme of a group of 2 or more consecutive axles, 3 4 and N = number of axles in the group under consideration; except that 2 consecutive sets of tandem axles may carry a gross load of 5 34,000 pounds each if the first and last axles of the consecutive 6 sets of tandem axles are not less than 36 feet apart. The gross 7 vehicle weight shall not exceed 80,000 pounds including all 8 enforcement tolerances. Except for 5 axle truck tractor, 9 semitrailer combinations having 2 consecutive sets of tandem 10 11 axles, vehicles having a gross weight in excess of 80,000 pounds 12 or in excess of the vehicle gross weight determined by application of the formula in this subsection are subject to the 13 maximum axle loads of subsections (1), (2), and (3). As used in 14 15 this subsection, "tandem axle weight" means the total weight transmitted to the road by 2 or more consecutive axles, the 16 17 centers of which may be included between parallel transverse vertical planes spaced more than 40 inches but not more than 96 18 19 inches apart, extending across the full width of the vehicle. 20 Except as otherwise provided in this section, vehicles 21 transporting agricultural commodities shall have weight load 22 maximums as set forth in this subsection.

(13) The axle loading maximums under subsections (1), (2),
(3), and (4) are increased by 10% for vehicles transporting
agricultural commodities or raw timber, excluding farm equipment
and fuel, from the place of harvest or farm storage to the first

#### 02111'15

KED

point of delivery on a road in this state. However, the axle
 loading maximums as increased under this subsection do not alter
 the gross vehicle weight restrictions set forth in this act. This
 subsection does not apply to either of the following:

5

(a) A vehicle utilizing an interstate highway.

6 (b) A vehicle utilizing a road that is subject to seasonal
7 weight restrictions under subsection (8) during the time that the
8 seasonal weight restrictions are in effect.

9

(14) As used in this section:

10 (a) "Agricultural commodities" means those plants and animals useful to human beings produced by agriculture and 11 12 includes, but is not limited to, forages and sod crops, grains and feed crops, field crops, dairy and dairy products, poultry 13 and poultry products, cervidae, livestock, including breeding and 14 15 grazing, equine, fish, and other aquacultural products, bees and bee products, berries, herbs, fruits, vegetables, flowers, seeds, 16 grasses, nursery stock, mushrooms, fertilizer, livestock bedding, 17 18 farming equipment, and fuel for agricultural use, AND MAPLE SAP. The term does AGRICULTURAL COMMODITIES DO not include trees or 19 20 lumber.

(b) "Emergency public utility work" means work performed to restore public utility service or to eliminate a danger to the public due to a natural disaster, an act of God, or an emergency situation, whether or not a public official has declared an emergency.

26

(c) "Farm storage" means any of the following:

27 (i) An edifice, silo, tank, bin, crib, interstice, or

#### 02111'15

KED

protected enclosed structure, or more than 1 edifice, silo, tank,
 bin, crib, interstice, or protected enclosed structure located
 contiguous to each other.

4 (*ii*) An open environment used for the purpose of temporarily5 storing a crop.

6 (d) "Public utility" means a public utility under the
7 jurisdiction of the public service commission or a transmission
8 company.

9 (e) "Public utility vehicle" means a vehicle owned or
10 operated by a public utility or operated by a subcontractor on
11 behalf of a public utility.

(f) "Transmission company" means either an affiliated transmission company or an independent transmission company as those terms are defined in section 2 of the electric transmission line certification act, 1995 PA 30, MCL 460.562.

16 Enacting section 1. This amendatory act takes effect 90 days17 after the date it is enacted into law.
