THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

Sec. 1. This act shall be known and may be cited as the "lawful internet gaming act".
Sec. 2. (1) The legislature finds that the internet has become an integral part of everyday life for a significant number of residents of this state, not only in regard to their professional lives, but also in regard to personal business and communication. Internet wagering on games of chance and games of skill is a core form of entertainment for millions of individuals worldwide. In multiple jurisdictions across the world, internet gaming is legal, regulated, and taxed, generating billions of dollars in revenue for governments.

(2) In an opinion dated September 20, 2011, the United States Department of Justice reversed its previous interpretation of 18 USC 1084, commonly referred to as the federal wire act, allowing states, subject to certain restrictions, to legalize and regulate internet gaming and capture the revenue for the benefit of state governments.

(3) In order to protect residents of this state who wager on games of chance or skill through the internet and to capture revenues and create jobs generated from internet gaming, it is in the best interest of this state and its citizens to regulate this activity by authorizing and establishing a secure, responsible, fair, and legal system of internet gaming that complies with the United States Department of Justice's September 2011 opinion concerning 18 USC 1084.

(4) The legislature additionally finds that this act is consistent and complies with the unlawful internet gambling enforcement act of 2006, 31 USC 5361 to 5367, and specifically authorizes use of the internet to place, receive, or otherwise
knowingly transmit a bet or wager if that use complies with this act and rules promulgated under this act.
