

STATE OF MICHIGAN
99TH LEGISLATURE
REGULAR SESSION OF 2018

Introduced by Rep. Kelly

ENROLLED HOUSE BILL No. 5579

AN ACT to amend 1979 PA 94, entitled “An act to make appropriations to aid in the support of the public schools, the intermediate school districts, community colleges, and public universities of the state; to make appropriations for certain other purposes relating to education; to provide for the disbursement of the appropriations; to authorize the issuance of certain bonds and provide for the security of those bonds; to prescribe the powers and duties of certain state departments, the state board of education, and certain other boards and officials; to create certain funds and provide for their expenditure; to prescribe penalties; and to repeal acts and parts of acts,” by amending sections 6, 11, 11a, 11j, 11k, 11m, 11s, 15, 18, 19, 20, 20d, 20f, 21f, 21h, 22a, 22b, 22d, 22g, 22m, 22n, 24, 24a, 24c, 25e, 25f, 25g, 26a, 26b, 26c, 31a, 31b, 31d, 31f, 31j, 32d, 32p, 32q, 35a, 39, 39a, 41, 51a, 51c, 51d, 53a, 54, 54b, 55, 56, 61a, 61b, 61c, 62, 64b, 64d, 65, 67, 74, 81, 94, 94a, 95b, 98, 99h, 99s, 99t, 99u, 102d, 104, 104b, 104c, 104d, 104e, 107, 147, 147a, 147b, 147c, 147e, 152a, 152b, 163, 164h, 166b, 169a, 201, 201a, 206, 207a, 207b, 207c, 209, 210b, 217, 225, 226, 229, 229a, 230, 236, 236a, 236b, 236c, 241, 245, 251, 252, 256, 263, 264, 265, 265a, 267, 268, 269, 270, 274, 274c, 274d, 275b, 276, 277, 278, 279, 280, 281, 282, and 289 (MCL 388.1606, 388.1611, 388.1611a, 388.1611j, 388.1611k, 388.1611m, 388.1611s, 388.1615, 388.1618, 388.1619, 388.1620, 388.1620d, 388.1620f, 388.1621f, 388.1621h, 388.1622a, 388.1622b, 388.1622d, 388.1622g, 388.1622m, 388.1622n, 388.1624, 388.1624a, 388.1624c, 388.1625e, 388.1625f, 388.1625g, 388.1626a, 388.1626b, 388.1626c, 388.1631a, 388.1631b, 388.1631d, 388.1631f, 388.1631j, 388.1632d, 388.1632p, 388.1632q, 388.1635a, 388.1639, 388.1639a, 388.1641, 388.1651a, 388.1651c, 388.1651d, 388.1653a, 388.1654, 388.1654b, 388.1655, 388.1656, 388.1661a, 388.1661b, 388.1661c, 388.1662, 388.1664b, 388.1664d, 388.1665, 388.1667, 388.1674, 388.1681, 388.1694, 388.1694a, 388.1695b, 388.1698, 388.1699h, 388.1699s, 388.1699t, 388.1699u, 388.1702d, 388.1704, 388.1704b, 388.1704c, 388.1704d, 388.1704e, 388.1707, 388.1747, 388.1747a, 388.1747b, 388.1747c, 388.1747e, 388.1752a, 388.1752b, 388.1763, 388.1764h, 388.1766b, 388.1769a, 388.1801, 388.1801a, 388.1806, 388.1807a, 388.1807b, 388.1807c, 388.1809, 388.1810b, 388.1817, 388.1825, 388.1826, 388.1829, 388.1829a, 388.1830, 388.1836, 388.1836a, 388.1836b, 388.1836c, 388.1841, 388.1845, 388.1851, 388.1852, 388.1856, 388.1863, 388.1864, 388.1865, 388.1865a, 388.1867, 388.1868, 388.1869, 388.1870, 388.1874, 388.1874c, 388.1874d, 388.1875b, 388.1876, 388.1877, 388.1878, 388.1879, 388.1880, 388.1881, 388.1882, and 388.1889), sections 6, 11a, 11j, 11k, 11m, 11s, 15, 18, 20, 20d, 20f, 22a, 22b, 22d, 22g, 24, 24a, 24c, 25f, 25g, 26a, 26b, 26c, 31b, 31d, 31f, 32p, 32q, 39, 39a, 41, 51a, 51c, 51d, 53a, 54, 54b, 55, 56, 61a, 61b, 62, 64b, 65, 67, 74, 81, 94, 94a, 98, 99s, 104, 104d, 147, 147b, 147c, 152a, 152b, 201, 201a, 206, 207a, 207b, 207c, 209, 210b, 217, 225, 226, 229, 229a, 230, 236, 236a, 236b, 236c, 241, 245, 251, 252, 256, 263, 264, 265, 265a, 267, 268, 269, 270, 274, 274c, 276, 277, 278, 279, 280, 281, and 282 as amended and sections 21h, 22m, 22n, 147e, 164h, and 274d as added by 2017 PA 108, sections 11, 21f, 25e, 31a, 31j, 32d, 35a, 61c, 64d, 95b, 99h, 99t, 102d, 104c, 107, 147a, and 166b as amended and sections 99u and 104e as added by 2017 PA 143, section 19 as amended by 2016 PA 533, section 104b as amended by 2016 PA 249, section 163 as amended by 2015 PA 85, section 169a as amended by 1997 PA 93, section 275b as added by 2015 PA 44, and section 289 as amended by 2013 PA 60, and by adding sections 17c, 22p, 25h, 31m, 35b, 54d, 61d, 61e, 99v, 167b, 209a, 210f, 215, 236f, 245a, 265b, 265c, 265d, and 265e; and to repeal acts and parts of acts.

The People of the State of Michigan enact:

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe

cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult education participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, a public school academy, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day for the immediately preceding school year. A district’s, public school academy’s, or intermediate district’s membership shall be adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. However, for a district that is a community district, “membership” means the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the community district on the pupil membership count day for the current school year, plus the product of .10 times the sum of the final audited count from the supplemental count day of pupils in grades K to 12 actually enrolled and in regular daily attendance in the community district for the immediately preceding school year plus the final audited count from the supplemental count day of pupils in grades K to 12 actually enrolled and in regular daily attendance in the education achievement system for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil’s educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind shall be counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil’s district of residence.

(g) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber school’s educational program is considered regular daily attendance, and for a district or public school academy, a pupil’s participation in a virtual course as defined in section 21f is considered regular daily attendance. For the purposes of this subdivision, for a pupil enrolled in a cyber school and utilizing sequential learning, participation

means that term as defined in the pupil accounting manual, section 5-o-d: requirements for counting pupils in membership-subsection 10.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, shall be counted in membership.

(l) To be counted in membership, a pupil shall meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, or shall be enrolled under subsection (3) of that section, and shall be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma shall not be counted in membership. An individual who has achieved a high school equivalency certificate shall not be counted in membership unless the individual is a student with a disability as defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of talent and economic development, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated

share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code shall be determined by dividing the number of hours of service scheduled and provided per year per-pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil shall be counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b shall not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 shall instead be paid under section 25g. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(ee) A pupil participating in a virtual course under section 21f shall be counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil

Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 9 years for the adjustment and may advance payments to the district otherwise authorized under this article if the district would otherwise experience a significant hardship in satisfying its financial obligations.

(3) If, based on an audit by the department or the department's designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district's or intermediate district's allocation in the next apportionment after the adjustment is finalized. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the incorrect amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable shall be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

However, not more than 20% of the total amount received by a district under sections 22a and 22b or received by an intermediate district under section 81 may be transferred by the board to either the capital projects fund or to the debt retirement fund for debt service. The money shall not be applied or taken for a purpose other than as provided in this section. The department shall determine the reasonableness of expenditures and may withhold from a recipient of funds under this article the apportionment otherwise due upon a violation by the recipient.

(2) A district or intermediate district shall adopt an annual budget in a manner that complies with the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a. - (i) Costs incurred for each instance of out-of-state travel by the school administrator of the district that is fully or partially paid for by the district and the details of each of those instances of out-of-state travel, including at least identification of each individual on the trip, destination, and purpose.
- (3) For the information required under subsection (2)(a), (2)(b)(i), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).
- (4) For the purposes of determining the reasonableness of expenditures, whether a district or intermediate district has received the proper amount of funds under this article, and whether a violation of this article has occurred, all of the following apply:
- (a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually, and at such other times as determined by the department, at the expense of the district or intermediate district, as applicable. The audits must be performed by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city. A district or intermediate district shall retain these records for the current fiscal year and from at least the 3 immediately preceding fiscal years.
- (b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. The auditor must document compliance with the audit cycle in the pupil auditing manual. As used in this subdivision, "stable membership" means that the district's membership for the current fiscal year varies from the district's membership for the immediately preceding fiscal year by less than 5%.
- (c) A district's or intermediate district's annual financial audit shall include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

- (ii) The intermediate district shall file the annual financial audit reports for the intermediate district with the department.
- (iii) The intermediate district shall enter the pupil membership audit reports for its constituent districts and for the intermediate district, for the pupil membership count day and supplemental count day, in the Michigan student data system.
- (f) The annual financial audit reports and pupil accounting procedures reports shall be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.
- (g) Not later than January 31 of each year, the department shall notify the state budget director and the legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that

have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By November 1 each fiscal year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with the district's or intermediate district's audited financial statements and consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the report shall also contain the website address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions shall include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and shall include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. Districts shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report.

(6) By September 30 of each year, each district and intermediate district shall file with the center the special education actual cost report, known as "SE-4096", on a form and in the manner prescribed by the center. An intermediate district shall perform the audit of a district's report.

(7) By October 7 of each year, each district and intermediate district shall file with the center the audited transportation expenditure report, known as "SE-4094", on a form and in the manner prescribed by the center. An intermediate district shall perform the audit of a district's report.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), (7), and (12), or if the department determines that the financial data required under subsection (5) are not consistent with audited financial statements, the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), (7), and (12). If the district or intermediate district does not comply with subsections (4), (5), (6), (7), and (12) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

(11) If a district or intermediate district does not comply with subsection (2), the department may withhold up to 10% of the total state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsection (2). If the district or intermediate district does not comply with subsection (2) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

(12) By November 1 of each year, if a district or intermediate district offers virtual learning under section 21f, or for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, the district or intermediate district shall submit to the department a report that details the per-pupil costs of operating the virtual learning by vendor type and virtual learning model. The report shall include information concerning the operation of virtual learning for the immediately preceding school fiscal year, including information concerning summer programming. Information must be collected in a form and manner determined by the department and must be collected in the most efficient manner possible to reduce the administrative burden on reporting entities.

(13) By March 31 of each year, the department shall submit to the house and senate appropriations subcommittees on state school aid, the state budget director, and the house and senate fiscal agencies a report summarizing the per-pupil costs by vendor type of virtual courses available under section 21f and virtual courses provided by a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551.

(14) As used in subsections (12) and (13), "vendor type" means the following:

(a) Virtual courses provided by the Michigan Virtual University.

(b) Virtual courses provided by a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551.

(c) Virtual courses provided by third party vendors not affiliated with a Michigan public school.

(d) Virtual courses created and offered by a district or intermediate district.

(15) An allocation to a district or another entity under this article is contingent upon the district's or entity's compliance with this section.

(16) Beginning October 1, 2018, and annually thereafter, the department shall submit to the senate and house subcommittees on school aid and to the senate and house standing committees on education an itemized list of allocations under this article to any association or consortium consisting of associations in the immediately preceding fiscal year. The report shall detail the recipient or recipients, the amount allocated, and the purpose for which the funds were distributed.

Sec. 19. (1) A district or intermediate district shall comply with all applicable reporting requirements specified in state and federal law. Data provided to the center, in a form and manner prescribed by the center, shall be aggregated and disaggregated as required by state and federal law. In addition, a district or intermediate district shall cooperate with all measures taken by the center to establish and maintain a statewide P-20 longitudinal data system.

(2) Each district shall furnish to the center not later than 5 weeks after the pupil membership count day and by the last business day in June of the school fiscal year ending in the fiscal year, in a manner prescribed by the center, the information necessary for the preparation of the district and high school graduation report and for the preparation of the state and federal accountability reports. This information shall meet requirements established in the pupil auditing manual approved and published by the department. The center shall calculate an annual graduation and pupil dropout rate for each high school, each district, and this state, in compliance with nationally recognized standards for these calculations. The center shall report all graduation and dropout rates to the senate and house education committees and appropriations committees, the state budget director, and the department not later than 30 days after the publication of the list described in subsection (5). Before reporting these graduation and dropout rates, the department shall allow a school or district to appeal the calculations. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not report these graduation and dropout rates until after all appeals have been considered and decided.

(3) By the first business day in December and by the last business day in June of each year, a district shall furnish to the center, in a manner prescribed by the center, information related to educational personnel as necessary for reporting required by state and federal law. For the purposes of this subsection, the center shall only require districts and intermediate districts to report information that is not already available from the office of retirement services in the department of technology, management, and budget.

(4) If a district or intermediate district fails to meet the requirements of this section, the department shall withhold 5% of the total funds for which the district or intermediate district qualifies under this article until the district or intermediate district complies with all of those subsections. If the district or intermediate district does not comply with all of those subsections by the end of the fiscal year, the department shall place the amount withheld in an escrow account until the district or intermediate district complies with all of those subsections.

(5) Before publishing a list of school or district accountability designations as required by the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95, and utilizing data that were certified as accurate and complete after districts and intermediate districts adhered to deadlines, data quality reviews, and correction processes leading to local certification of final student data in subsection (2), the department shall allow a school or district to appeal any calculation errors used in the preparation of accountability metrics. The department shall consider and act upon the appeal within 30 days after it is submitted and shall not publish the list until after all appeals have been considered and decided.

(6) Beginning in 2016-2017, the department shall implement statewide standard reporting requirements for education data approved by the department in conjunction with the center. The department shall work with the center, intermediate districts, districts, and other interested stakeholders to implement this policy change. A district or intermediate district shall implement the statewide standard reporting requirements not later than 2017-2018 or when a district or intermediate district updates its education data reporting system, whichever is later.

Sec. 20. (1) For 2018-2019, both of the following apply:

(a) The basic foundation allowance is \$8,409.00.

(b) The minimum foundation allowance is \$7,871.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) Except as otherwise provided in this subdivision, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the minimum foundation allowance for the immediately preceding state fiscal year, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the

difference between the basic foundation allowance for the current state fiscal year and basic foundation allowance for the immediately preceding state fiscal year minus \$40.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year) divided by the difference between the basic foundation allowance for the current state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year.] However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2018-2019 in an amount equal to the basic foundation allowance for 2018-2019.

(c) For a district that had a foundation allowance for the immediately preceding state fiscal year that was greater than the basic foundation allowance for the immediately preceding state fiscal year, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(d) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(e) For a district that received a foundation allowance supplemental payment calculated under section 20m and paid under section 22b for 2017-2018, the district's 2017-2018 foundation allowance is considered to have been an amount equal to the sum of the district's actual 2017-2018 foundation allowance as otherwise calculated under this section plus the lesser of the per pupil amount of the district's supplemental payment for 2017-2018 as calculated under section 20m or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(4) Except as otherwise provided in this subsection, beginning in 2014-2015, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the local portion of the district's foundation allowance. For a district described in subsection (3)(c), beginning in 2014-2015, the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection shall take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy that is a cyber school and is authorized by a school district, the allocation calculated under this section is an amount per

membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district that authorized the public school academy or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection shall take into account a district's per-pupil allocation under section 20m.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts and public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

(h) “Local school operating revenue” means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, local school operating revenue does not include school operating taxes levied within the geographic area of the dissolved district.

(i) “Local school operating revenue per membership pupil” means a district’s local school operating revenue divided by the district’s membership excluding special education pupils.

(j) “Maximum public school academy allocation”, except as otherwise provided in this subdivision, means the maximum per-pupil allocation as calculated by adding the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year plus the difference between twice the amount of the difference between the basic foundation allowance for the current state fiscal year and the basic foundation allowance for the immediately preceding state fiscal year and [(the amount of the difference between the basic foundation allowance for the current state fiscal year and the basic foundation allowance for the immediately preceding state fiscal year minus \$40.00) times (the difference between the highest per-pupil allocation among all public school academies for the immediately preceding state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year) divided by the difference between the basic foundation allowance for the current state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year.] For the purposes of this subdivision, for 2018-2019, the maximum public school academy allocation is \$7,871.00.

(k) “Membership” means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(l) “Nonexempt property” means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, or property occupied by a public school academy.

(m) “Principal residence”, “qualified agricultural property”, “qualified forest property”, “supportive housing property”, “industrial personal property”, and “commercial personal property” mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(n) “Receiving district” means a district to which all or part of the territory of a dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(o) “School operating purposes” means the purposes included in the operation costs of the district as prescribed in sections 7 and 18 and purposes authorized under section 1211 of the revised school code, MCL 380.1211.

(r) "Taxable value per membership pupil" means taxable value, as certified by the county treasurer and reported to the department, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2018-2019, the department and the department of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in the 1994-95 state fiscal year of \$6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district pursuant to this act in 1993-94 shall exclude payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district's combined state and local revenue per membership pupil in the 1994-95 state fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

Sec. 20f. (1) From the funds appropriated in section 11, there is allocated an amount not to exceed \$18,000,000.00 for 2018-2019 for payments to eligible districts under this section.

(2) The funding under this subsection is from the allocation under subsection (1). (b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(5) The amount allocated to each eligible district under subsection (4) is an amount per membership pupil equal to \$25.00 minus the sum of the following:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(6) If the allocation under subsection (1) is insufficient to fully fund payments under subsections (3) and (5) as otherwise calculated under this section, the department shall prorate payments under this section on an equal per-pupil basis.

Sec. 21f. (1) A primary district shall enroll an eligible pupil in virtual courses in accordance with the provisions of this section. A primary district shall not offer a virtual course to an eligible pupil unless the virtual course is published in the primary district's catalog of board-approved courses or in the statewide catalog of virtual courses maintained by the Michigan Virtual University pursuant to section 98. The primary district shall also provide on its publicly accessible website a link to the statewide catalog of virtual courses maintained by the Michigan Virtual University. Unless the pupil is at least age 18 or is an emancipated minor, a pupil shall not be enrolled in a virtual course without the consent of the pupil's parent or legal guardian.

(2) Subject to subsection (3), a primary district shall enroll an eligible pupil in up to 2 virtual courses as requested by the pupil during an academic term, semester, or trimester.

(3) A pupil may be enrolled in more than 2 virtual courses in a specific academic term, semester, or trimester if all of the following conditions are met:

(a) The primary district has determined that it is in the best interest of the pupil.

(b) The pupil agrees with the recommendation of the primary district.

(c) The primary district, in collaboration with the pupil, has developed an education development plan, in a form and manner specified by the department, that is kept on file by the district. Beginning October 1, 2016, this subdivision does not apply to a pupil enrolled as a part-time pupil under section 166b.

(4) If the number of applicants eligible for acceptance in a virtual course does not exceed the capacity of the provider to provide the virtual course, the provider shall accept for enrollment all of the applicants eligible for acceptance. If the number of applicants exceeds the provider's capacity to provide the virtual course, the provider shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders. A primary district that is also a provider shall determine whether or not it has the capacity to accept applications for enrollment from nonresident applicants in virtual courses and may use that limit as the reason for refusal to enroll a nonresident applicant.

(5) A primary district may not establish additional requirements beyond those specified in this subsection that would prohibit a pupil from taking a virtual course. A pupil's primary district may deny the pupil enrollment in an online course if any of the following apply, as determined by the district:

(a) The pupil is enrolled in any of grades K to 5.

(b) The pupil has previously gained the credits that would be provided from the completion of the virtual course.

(c) The virtual course is not capable of generating academic credit.

(d) The virtual course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(e) The pupil has not completed the prerequisite coursework for the requested virtual course or has not demonstrated proficiency in the prerequisite course content.

(f) The pupil has failed a previous virtual course in the same subject during the 2 most recent academic years.

(g) The virtual course is of insufficient quality or rigor. A primary district that denies a pupil enrollment request for this reason shall enroll the pupil in a virtual course in the same or a similar subject that the primary district determines is of acceptable rigor and quality.

(h) The cost of the virtual course exceeds the amount identified in subsection (10), unless the pupil or the pupil's parent or legal guardian agrees to pay the cost that exceeds this amount.

(i) The request for a virtual course enrollment did not occur within the same timelines established by the primary district for enrollment and schedule changes for regular courses.

(j) The request for a virtual course enrollment was not made in the academic term, semester, trimester, or summer preceding the enrollment. This subdivision does not apply to a request made by a pupil who is newly enrolled in the primary district.

(6) If a pupil is denied enrollment in a virtual course by the pupil's primary district, the primary district shall provide written notification to the pupil of the denial, the reason or reasons for the denial pursuant to subsection (5), and a description of the appeal process. The pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's primary district is located. The letter of appeal shall include the reason

provided by the primary district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the primary district shall enroll the pupil in the virtual course.

(7) To provide a virtual course to an eligible pupil under this section, a provider shall do all of the following:

(a) Ensure that the virtual course has been published in the pupil's primary district's catalog of board-approved courses or published in the statewide catalog of virtual courses maintained by the Michigan Virtual University.

(b) Assign to each pupil a teacher of record and provide the primary district with the personnel identification code assigned by the center for the teacher of record. If the provider is a community college, the virtual course must be taught by an instructor employed by or contracted through the providing community college.

(c) Offer the virtual course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(d) If the virtual course is offered to eligible pupils in more than 1 district, the following additional requirements must also be met:

(i) Provide the Michigan Virtual University with a course syllabus that meets the definition under subsection (14)(g) in a form and manner prescribed by the Michigan Virtual University for inclusion in a statewide catalog of virtual courses.

(ii) Not later than October 1 of each fiscal year, provide the Michigan Virtual University with an aggregated count of enrollments for each virtual course the provider delivered to pupils pursuant to this section during the immediately preceding school year, and the number of enrollments in which the pupil earned 60% or more of the total course points for each virtual course.

(8) To provide an online course under this section, a community college shall ensure that each online course it provides under this section generates postsecondary credit.

(9) For any virtual course a pupil enrolls in under this section, the pupil's primary district must assign to the pupil a mentor and shall supply the provider with the mentor's contact information.

(10) For a pupil enrolled in 1 or more virtual courses, the primary district shall use foundation allowance or per-pupil funds calculated under section 20 to pay for the expenses associated with the virtual course or courses. A primary district is not required to pay toward the cost of a virtual course an amount that exceeds 6.67% of the minimum foundation allowance for the current fiscal year as calculated under section 20.

(11) A virtual learning pupil shall have the same rights and access to technology in his or her primary district's school facilities as all other pupils enrolled in the pupil's primary district. The department shall establish standards for hardware, software, and internet access for pupils who are enrolled in more than 2 virtual courses in an academic term, semester, or trimester taken at a location other than a school facility.

(12) If a pupil successfully completes a virtual course, as determined by the pupil's primary district, the pupil's primary district shall grant appropriate academic credit for completion of the course and shall count that credit toward completion of graduation and subject area requirements. A pupil's school record and transcript shall identify the virtual course title as it appears in the virtual course syllabus.

(13) The enrollment of a pupil in 1 or more virtual courses shall not result in a pupil being counted as more than 1.0 full-time equivalent pupils under this article. The minimum requirements to count the pupil in membership are those established by the pupil accounting manual as it was in effect for the 2015-2016 school year or as subsequently amended by the department if the department notifies the legislature about the proposed amendment at least 60 days before the amendment becomes effective.

(14) As used in this section:

(a) "Instructor" means an individual who is employed by or contracted through a community college.

(b) "Mentor" means a professional employee of the primary district who monitors the pupil's progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also serve as the teacher of record if the primary district is the provider for the virtual course and the mentor meets the requirements under subdivision (e).

(c) "Primary district" means the district that enrolls the pupil and reports the pupil for pupil membership purposes.

(d) "Provider" means the district, intermediate district, or community college that the primary district pays to provide the virtual course or the Michigan Virtual University if it is providing the virtual course.

(f) "Virtual course" means a course of study that is capable of generating a credit or a grade and that is provided in an interactive learning environment where the majority of the curriculum is delivered using the internet and in which pupils may be separated from their instructor or teacher of record by time or location, or both.

(g) "Virtual course syllabus" means a document that includes all of the following:

(i) An alignment document detailing how the course meets applicable state standards or, if the state does not have state standards, nationally recognized standards.

(ii) The virtual course content outline.

(iii) The virtual course required assessments.

Sec. 21h. (1) From the appropriation in section 11, there is allocated \$7,000,000.00 for 2018-2019 for assisting districts assigned by the superintendent to participate in a partnership to improve student achievement. The purpose of the partnership is to identify district needs, develop intervention plans, and partner with public, private, and nonprofit organizations to coordinate resources and improve student achievement. Assignment of a district to a partnership is at the sole discretion of the superintendent.

(2) A district assigned to a partnership by the superintendent is eligible for funding under this section if the district includes at least 1 school that has been rated with a grade of "F", or comparable performance rating, in the most recent state accountability system rating, that is not under the supervision of the state school reform/redesign office, and that does all of the following:

(a) Completes a comprehensive needs evaluation in collaboration with an intermediate school district, community members, education organizations, and postsecondary institutions, as applicable and approved by the superintendent, within 90 days of assignment to the partnership described in this section. The comprehensive needs evaluation shall include at least all of the following:

(i) A review of the district's implementation and utilization of a multi-tiered system of supports to ensure that it is used to appropriately inform instruction.

(ii) A review of the district and school building leadership and educator capacity to substantially improve student outcomes.

(iii) A review of classroom, instructional, and operational practices and curriculum to ensure alignment with research-based instructional practices and state curriculum standards.

(i) Specific actions that will be taken by the district and each of its partners to improve student achievement.

(ii) Specific measurable benchmarks that will be met within 18 months to improve student achievement and identification of expected student achievement outcomes to be attained within 3 years after assignment to the partnership.

(c) Crafts academic goals that put pupils on track to meet or exceed grade level proficiency.

(3) Upon approval of the intervention plan developed under subsection (2), the department shall assign a team of individuals with expertise in comprehensive school and district reform to partner with the district, the intermediate district, community organizations, education organizations, and postsecondary institutions identified in the intervention plan to review the district's use of existing financial resources to ensure that those resources are being used as efficiently and effectively as possible to improve student academic achievement. The superintendent of public instruction may waive burdensome administrative rules for a partnership district for the duration of the partnership agreement.

(4) Funds allocated under this section may be used to pay for district expenditures approved by the superintendent to improve student achievement. Funds may be used for professional development for teachers or district or school leadership, increased instructional time, teacher mentors, or other expenditures that directly impact student achievement and cannot be paid from existing district financial resources. An eligible district shall not receive funds under this section for more than 3 years. Notwithstanding section 17b, payments to eligible districts under this section shall be paid on a schedule determined by the department.

(5) The department shall annually report in person to the legislature on the activities funded under this section and how those activities impacted student achievement in eligible districts that received funds under this section. To the extent possible, participating districts receiving funding under this section shall participate in the report.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,176,000,000.00 for 2017-2018 and there is allocated an amount not to exceed \$5,107,000,000.00 for 2018-2019 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the allocation as otherwise calculated under this section shall be reduced by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction shall be offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the

dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

Sec. 22b. (1) For discretionary nonmandated payments to districts under this section, there is allocated for 2017-2018 an amount not to exceed \$3,957,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11, and there is allocated for 2018-2019 an amount not to exceed \$4,252,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11. Except for money allocated from the community district trust fund, money allocated under this section that is not expended in the state fiscal year for which it was allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 20m, 51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under sections 22a and 51c. For a community district, the allocation as otherwise calculated under this section shall be increased by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and this increase shall be paid from the community district education trust fund allocation in subsection (1) in order to offset the absence of local school operating revenue in a community district in the funding of the state portion of the foundation allowance under section 20(4).

(3) In order to receive an allocation under subsection (1), each district shall do all of the following:

(a) Comply with section 1280b of the revised school code, MCL 380.1280b.

allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX Medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX Medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. The intermediate superintendents shall review the financial situation of each eligible district, determine the minimum essential financial needs of each eligible district, and develop and agree on a spending plan that distributes the available funding under subsection (2) to the eligible districts based on those financial needs. The intermediate superintendents shall submit the spending plan to the superintendent of public instruction for approval. Upon approval by the superintendent of public instruction, the amounts specified for each eligible district under the spending plan are allocated under subsection (2) and shall be paid to the eligible districts in the same manner as payments under section 22b.

(4) The center, in collaboration with the Michigan data hub network, shall determine the amount of funds distributed under this section to each participating regional data hub within the network, based upon a competitive grant process. Entities receiving funding under this section shall represent geographically diverse areas in this state.

(5) Notwithstanding section 17b, payments under this section shall be made on a schedule determined by the center.

(6) To receive funding under this section, a regional data hub must have a governance model that ensures local control of data, data security, and student privacy issues. The integration of data within each of the regional data hubs shall provide for the actionable use of data by districts and intermediate districts through common reports and dashboards and for efficiently providing information to meet state and federal reporting purposes.

If the allocation under subsection (1) is insufficient to fully fund payments under this subsection, the department shall prorate payments under this section on an equal per-pupil basis.

Sec. 22p. In order to receive funding under section 22b, a district or public school academy that has a signed partnership agreement with the department must meet both of the following:

(a) Amends the partnership agreement to include measurable academic outcomes that will be achieved after 18 months and after 36 months from the date the agreement was originally signed. Measurable academic outcomes under this subdivision must include outcomes that put pupils on track to meet or exceed grade level proficiency.

(b) Amends the partnership agreement to include accountability measures to be imposed if the district or public school academy does not achieve the measurable academic outcomes under subdivision (a) for a school subject to a partnership agreement. Accountability measures under this subdivision may include either the closure of the school at the end of the current school year or the reconstitution of the school in a final attempt to improve student educational performance or to avoid interruption of the educational process. For a public school academy that amends a partnership agreement under this subdivision, the amended agreement must include a requirement that if reconstitution is imposed on a school that is operated by the public school academy and that is subject to the partnership agreement, the school shall be reconstituted as described in section 507 of the revised school code, MCL 380.507. For a district that amends a partnership agreement under this subdivision, the amended agreement must include a requirement that if reconstitution is imposed on a school that is operated by the district and that is subject to the partnership agreement, all of the following apply:

(i) The district shall make significant changes to the instructional and noninstructional programming of the school based on the needs identified through a comprehensive review of data.

(ii) The district shall replace at least 25% of the faculty and staff of the school.

If the goals are not achieved within 5 years, the superintendent of public instruction shall either impose a second reconstitution plan on the school or close the school.

Sec. 24. (1) From the appropriation in section 11, there is allocated each fiscal year for 2017-2018 and for 2018-2019 an amount not to exceed \$7,150,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of health and human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of health and human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per-pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of health and human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of health and human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per-pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Sec. 24a. From the appropriation in section 11, there is allocated an amount not to exceed \$1,355,700.00 for 2018-2019 for payments to intermediate districts for pupils who are placed in juvenile justice service facilities operated by the department of health and human services. Each intermediate district shall receive an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities

described in this section that are located within the intermediate district's boundaries. The intermediate districts receiving payments under this section shall cooperate with the department of health and human services to ensure that all funding allocated under this section is utilized by the intermediate district and department of health and human services for educational programs for pupils described in this section. Pupils described in this section are not eligible to be funded under section 24. However, a program responsibility or other fiscal responsibility associated with these pupils shall not be transferred from the department of health and human services to a district or intermediate district unless the district or intermediate district consents to the transfer.

Sec. 24c. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$1,528,400.00 for 2018-2019 for payments to districts for pupils who are enrolled in a nationally administered community-based education and youth mentoring program, known as the youth challenge program, that is administered by the department of military and veterans affairs. Both of the following apply to a district receiving payments under this section:

(a) The district shall contract with the department of military and veterans affairs to ensure that all funding allocated under this section is utilized by the district and the department of military and veterans affairs for the youth challenge program.

(b) The district may retain for its administrative expenses an amount not to exceed 3% of the amount of the payment the district receives under this section.

(2) In addition to the funds allocated under subsection (1), from the appropriation in section 11, there is allocated an amount not to exceed \$80,000.00 for 2018-2019 to a district for pupils who enrolled in the youth challenge program but dropped out before the pupil membership count day. The district shall use these funds to support the youth challenge program.

Sec. 25e. (1) The pupil membership transfer application and pupil transfer process administered by the center under this section shall be used for processing pupil transfers.

(2) If a pupil counted in membership for the pupil membership count day transfers from a district or intermediate district to enroll in another district or intermediate district after the pupil membership count day and before the supplemental count day and, due to the pupil's enrollment and attendance status as of the pupil membership count day, the pupil was not counted in membership in the educating district or intermediate district, the educating district or intermediate district may report the enrollment and attendance information to the center through the pupil transfer process within 30 days after the transfer or within 30 days after the pupil membership count certification date, whichever is later. Pupil transfers may be submitted no earlier than the first day after the certification deadline for the pupil membership count day and before the supplemental count day. Upon receipt of the transfer information under this subsection indicating that a pupil has enrolled and is in attendance in an educating district or intermediate district as described in this subsection, the pupil transfer process shall do the following:

(a) Notify the district in which the pupil was previously enrolled.

(b) Notify both the pupil auditing staff of the intermediate district in which the educating district is located and the pupil auditing staff of the intermediate district in which the district that previously enrolled the pupil is located. The pupil auditing staff shall investigate a representative sample based on required audit sample sizes in the pupil auditing manual and may deny the pupil membership transfer.

(c) Aggregate the districtwide changes and notify the department for use in adjusting the state aid payment system.

(3) The department shall do all of the following:

(a) Adjust the membership calculation for each district or intermediate district in which the pupil was previously counted in membership or that previously received an adjustment in its membership calculation under this section due to a change in the pupil's enrollment and attendance so that the district's or intermediate district's membership is prorated to allow the district or intermediate district to receive for each school day, as determined by the financial calendar furnished by the center, in which the pupil was enrolled and in attendance in the district or intermediate district an amount equal to 1/105 of a full-time equated membership claimed in the fall pupil membership count. The district or intermediate district shall receive a prorated foundation allowance in an amount equal to the product of the adjustment under this subdivision for the district or intermediate district multiplied by the foundation allowance or per-pupil payment as calculated under section 20 for the district or intermediate district. The foundation allowance or per-pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Adjust the membership calculation for the educating district or intermediate district in which the pupil is enrolled and is in attendance so that the district's or intermediate district's membership is increased to allow the district or intermediate district to receive an amount equal to the difference between the full-time equated membership claimed in the fall pupil membership count and the sum of the adjustments calculated under subdivision (a) for each district or intermediate district in which the pupil was previously enrolled and in attendance. The educating district or intermediate district shall receive a prorated foundation allowance in an amount equal to the product of the adjustment under this subdivision for the educating district or intermediate district multiplied by the per-pupil payment as calculated under

section 20 for the educating district or intermediate district. The foundation allowance or per-pupil payment shall be adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(4) The changes in calculation of state school aid required under subsection (3) shall take effect as of the date that the pupil becomes enrolled and in attendance in the educating district or intermediate district, and the department shall base all subsequent payments under this article for the fiscal year to the affected districts or intermediate districts on this recalculation of state school aid.

(5) If a pupil enrolls in an educating district or intermediate district as described in subsection (2), the district or intermediate district in which the pupil is counted in membership or another educating district or intermediate district that received an adjustment in its membership calculation under subsection (3), if any, and the educating district or intermediate district shall provide to the center and the department all information they require to comply with this section.

(6) The portion of the full-time equated pupil membership for which a pupil is enrolled in 1 or more online courses under section 21f that is representative of the amount that the primary district paid in course costs to the course provider shall not be counted or transferred under the pupil transfer process under this section.

(7) It is the intent of the legislature that the center determine the number of pupils who did not reside in this state as of the 2018-2019 pupil membership count day but who newly enrolled in a district or intermediate district after that pupil membership count day and before the 2018-2019 supplemental count day. It is the intent of the legislature that the center further determine the number of pupils who were counted in membership for the 2018-2019 pupil membership count day but who left this state before the 2018-2019 supplemental count day. In 2019-2020, the center shall provide a report to the senate and house appropriations subcommittees on state school aid, and to the senate and house fiscal agencies, detailing the number of pupils transferring in from outside the public school system of this state and the number of pupils transferring out of the public school system in this state between the pupil membership count day and supplemental count day as described in this subsection.

(8) As used in this section:

(a) "Educating district or intermediate district" means the district or intermediate district in which a pupil enrolls after the pupil membership count day or after an adjustment was made in another district's or intermediate district's membership calculation under this section due to the pupil's enrollment and attendance.

(b) "Pupil" means that term as defined under section 6 and also children receiving early childhood special education programs and services.

(2) In order to receive funding under this section, a strict discipline academy shall first comply with section 25e and use the pupil transfer process under that section for changes in enrollment as prescribed under that section.

(3) The total amount allocated to a strict discipline academy under this section shall first be distributed as the lesser of the strict discipline academy's added cost or the department's approved per-pupil allocation for the strict discipline academy. Any funds remaining after the first distribution shall be distributed by prorating on an equal per-pupil membership basis, not to exceed a strict discipline academy's added cost. However, the sum of the amounts received by a strict discipline academy under this section and under section 24 shall not exceed the product of the strict discipline academy's per-pupil allocation calculated under section 20 multiplied by the strict discipline academy's full-time equated membership. The department shall allocate funds to strict discipline academies under this section on a monthly basis. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils enrolled and in regular daily attendance at a strict discipline academy. Added cost shall be computed by deducting all other revenue received under this article for pupils described in this subsection from total costs, as approved by the department, in whole or in part, for educating those pupils in a strict discipline academy. The department shall include all costs including, but not limited to, educational costs, insurance, management fees, technology costs, legal fees, auditing fees, interest, pupil accounting costs, and any other administrative costs necessary to operate the program or to comply with statutory requirements. Costs reimbursed by federal funds are not included.

(b) "Department's approved per-pupil allocation" for a strict discipline academy shall be determined by dividing the total amount allocated under this subsection for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this subsection for that fiscal year for the strict discipline academy.

(4) Special education pupils funded under section 53a shall not be funded under this section.

(5) If the funds allocated under this section are insufficient to fully fund the adjustments under subsection (3), payments under this section shall be prorated on an equal per-pupil basis.

If the operation of the special membership counting provisions under section 6(4)(dd) and the other membership counting provisions under section 6(4) result in a pupil being counted as more than 1.0 FTE in a fiscal year, then the payment made for the pupil under sections 22a and 22b shall not be based on more than 1.0 FTE for that pupil, and that portion of the FTE that exceeds 1.0 shall be paid under this section in an amount equal to that portion multiplied by the educating district's foundation allowance or per-pupil payment calculated under section 20.

(2) Special education pupils funded under section 53a shall not be funded under this section.

(3) If the funds allocated under this section are insufficient to fully fund the adjustments under subsection (1), payments under this section shall be prorated on an equal per-pupil basis.

Not later than March 1, 2019, each prosperity region office, either on its own or in conjunction with another prosperity region, shall submit a report to the department on expected outcomes and related measurements for economic development and children's nutrition and readiness to learn based on progress so far. The report shall include at least all of the following:

(a) The extent to which farmers and related businesses, including distributors and processors, see an increase in market opportunities and income generation through sales of Michigan or local products to districts. All of the following apply for purposes of this subdivision:

(i) The data used to determine the amount of this increase shall be the total dollar amount of Michigan or local fruits, vegetables, and legumes purchased by schools, along with the number of different types of products purchased; school food purchasing trends identified along with products that are of new and growing interest among food service directors; the number of businesses impacted; and the percentage of total food budget spent on Michigan-grown fruits, vegetables, and legumes.

(b) The ability to which pupils can access a variety of healthy Michigan-grown foods through schools and increase their consumption of those foods. All of the following apply for purposes of this subdivision:

(i) The data used to determine whether this subparagraph is met shall be the number of pupils exposed to Michigan-grown fruits, vegetables, and legumes at schools; the variety of products served; new items taste-tested or placed on menus; and the increase in pupil willingness to try new local, healthy foods.

(ii) The prosperity region office shall use purchasing data collected for the project, meal count and enrollment numbers, school menu calendars, and surveys of school food service directors as the source for the data described in subparagraph (i).

(12) The department shall compile the reports provided by prosperity region offices under subsection (11) into 1 legislative report. The department shall provide this report not later than April 1, 2019 to the house and senate subcommittees responsible for school aid, the house and senate fiscal agencies, and the state budget director.

Sec. 31m. (1) The school mental health and support services fund is created as a separate account within the state school aid fund.

(2) The state treasurer may receive money or other assets from any source for deposit into the school mental health and support services fund. (3) Money available in the school mental health and support services fund shall not be expended without a specific appropriation.

(4) Money in the school mental health and support services fund at the close of the fiscal year shall remain in the school mental health and support services fund and shall not lapse to the state school aid fund or to the general fund. (1) From the funds appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed \$243,600,000.00 for 2018-2019. Funds allocated under this section for great start readiness programs shall be used to provide part-day, school-day, or GSRP/Head Start blended comprehensive free compensatory classroom programs designed to improve the readiness and subsequent achievement of educationally disadvantaged children who meet the participant eligibility and prioritization guidelines as defined by the department. For a child to be eligible to participate in a program under this section, the child shall be at least 4, but less than 5, years of age as of September 1 of the school year in which the program is offered and shall meet those eligibility and prioritization guidelines. A child who is not 4 years of age as of September 1, but who will be 4 years of age not later than December 1, is eligible to participate if the child's parent or legal guardian seeks a waiver from the September 1 eligibility date by submitting a request for enrollment in a program to the responsible intermediate district, if the program has capacity on or after September 1 of the school year, and if the child meets eligibility and prioritization guidelines.

(2) From the funds allocated under subsection (1), an amount not to exceed \$242,600,000.00 is allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. In order to be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, or a public or private for-profit or nonprofit legal entity or agency shall comply with this section and section 39.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed \$300,000.00 for 2018-2019 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program shall prepare children for success in school through comprehensive part-day, school-day, or GSRP/Head Start blended programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board, including, at least, the Connect4Learning curriculum.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

(d) Physical and dental health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, including mental health services, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review and make recommendations regarding the program components listed in this subsection. The advisory committee also shall make recommendations to the great start collaborative regarding other community services designed to improve all children's school readiness.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(j) Participation in this state's great start to quality process with a rating of at least 3 stars.

(5) An application for funding under this section shall provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Except as otherwise provided in this subdivision, ensure that at least 90% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than 250% of the federal poverty level. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 250% of the federal poverty level, the intermediate district may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty level. The enrollment process shall consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education plans recommending placement in an inclusive preschool setting shall be considered to live with families with household

income equal to or less than 250% of the federal poverty level regardless of actual family income and shall be prioritized for enrollment within the lowest quintile.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. A lead teacher must have a valid teaching certificate with an early childhood (ZA or ZS) endorsement or a bachelor's or higher degree in child development or early childhood education with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood education, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as described in section 39 for purposes of determining the amount of the grant award.

(7) For a grant recipient that enrolls pupils in a GSRP/Head Start blended program, the grant recipient shall ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (5).

(9) An intermediate district or consortium of intermediate districts may retain for administrative services provided by the intermediate district or consortium of intermediate districts an amount not to exceed 4% of the grant amount. Expenses incurred by subrecipients engaged by the intermediate district or consortium of intermediate districts for directly running portions of the program shall be considered program costs or a contracted program fee for service.

(10) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program.

(11) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below 250% of the federal poverty level by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below 250% of the federal poverty level, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 250% of the federal poverty level, the grant recipient may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty level. The enrollment process shall consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education plans recommending placement in an inclusive preschool setting shall be considered to live with families with household income equal to or less than 250% of the federal poverty level regardless of actual family income and shall be prioritized for enrollment within the lowest quintile.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program

operated by or contracted with another intermediate district or consortium of intermediate districts and shall enter into a written agreement regarding payment, in a manner prescribed by the department.

(13) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a blended Head Start and great start readiness school-day program. Children served in a program funded only through Head Start shall not be counted toward this 30% allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each nonparticipating licensed child care center located in the service area of the intermediate district or consortium regarding the center's eligibility to participate, in a manner prescribed by the department.

(b) The intermediate district or consortium provided to each nonparticipating licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least 3 stars.

(14) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total allocation, as required under subsection (13), the department shall reduce the allocation to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total allocation awarded to community-based providers and 30% of its total allocation.

(15) In order to assist intermediate districts and consortia in complying with the requirement to contract with community-based providers for at least 30% of their total allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, Head Start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system shall ensure that regulators process all prospective providers at the same pace on a first-come, first-served basis and shall not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) Not later than December 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (13) and report to the legislature a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(16) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the number of children participating in the program who meet the income eligibility criteria under subsection (5)(b) and the total number of children participating in the program.

(17) As used in this section:

(a) "GSRP/Head Start blended program" means a part-day program funded under this section and a Head Start program, which are combined for a school-day program.

(b) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(c) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish and charge tuition according to a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than 250% of the federal poverty level to be used by all of its providers, as approved by the department.

(19) From the amount appropriated in subsection (1), there is allocated an amount not to exceed \$10,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive reimbursement under this subsection, not later than November 1, 2018, a program funded under this section that provides transportation shall submit to the intermediate district that is the fiscal agent for the program a projected transportation budget. The amount of the reimbursement for transportation under this subsection shall be no more than the projected transportation budget or \$300.00 multiplied by the number of children funded for the program under this section. If the amount allocated under this subsection is insufficient to fully reimburse the transportation costs for all programs that provide transportation and submit the required information, the reimbursement shall be prorated in an equal amount per child funded. Payments shall be made to the intermediate district that is the fiscal agent for each program, and the intermediate district shall then reimburse the program provider for transportation costs as prescribed under this subsection.

(20) Subject to, and from the funds allocated under, subsection (19), the department shall reimburse a program for transportation costs related to parent- or guardian-accompanied transportation provided by transportation service companies, buses, or other public transportation services. To be eligible for reimbursement under this subsection, a program must be a community-based provider and must submit to the department all of the following:

(a) The names of families provided with transportation support along with a documented reason for the need for transportation support and the type of transportation provided.

(b) Financial documentation of actual transportation costs incurred by the program, including, but not limited to, receipts and mileage reports, as determined by the department.

(c) Any other documentation or information determined necessary by the department.

(21) The department shall implement a process to review and approve age-appropriate comprehensive classroom level quality assessments for GSRP grantees that support the early childhood standards of quality for prekindergarten children adopted by the state board. The department shall make available to intermediate districts at least 2 classroom level quality assessments that were approved in 2018.

(22) An intermediate district that is a GSRP grantee may approve the use of a supplemental curriculum that aligns with and enhances the age-appropriate educational curriculum in the classroom. If the department objects to the use of a supplemental curriculum approved by an intermediate district, the superintendent of public instruction shall establish a review committee independent of the department. The review committee shall meet within 60 days of the department registering its objection in writing and provide a final determination on the validity of the objection within 60 days of the review committee's first meeting.

(23) The department shall implement a process to evaluate and approve age-appropriate educational curricula that are in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(24) From the funds allocated under subsection (1), there is allocated an amount not to exceed \$1,000,000.00 for payments to intermediate districts or consortia of intermediate districts for professional development for educators in programs implementing new curricula in 2019-2020.

(25) A great start readiness program or a GSRP/Head Start blended program funded under this section shall be permitted to utilize AmeriCorps Pre-K Reading Corps members in classrooms implementing research-based early literacy intervention strategies.

Sec. 32p. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$13,400,000.00 to intermediate districts for 2018-2019 for the purpose of providing early childhood funding to intermediate school districts to support the activities under subsection (2) and subsection (4), and to provide early childhood programs for children from birth through age 8. The funding provided to each intermediate district under this section shall be determined by the distribution formula established by the department's office of great start to provide equitable funding statewide. In order to receive funding under this section, each intermediate district shall provide an application to the office of great start not later than September 15 of the immediately preceding fiscal year indicating the activities planned to be provided.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a parent coalition. The goal of each great start collaborative and parent coalition shall be to ensure the coordination and expansion of local early childhood infrastructure and programs that allow every child in the community to achieve the following outcomes:

- (a) Children born healthy.
- (b) Children healthy, thriving, and developmentally on track from birth to third grade.
- (c) Children developmentally ready to succeed in school at the time of school entry.
- (d) Children prepared to succeed in fourth grade and beyond by reading proficiently by the end of third grade.

(3) Each local great start collaborative and parent coalition shall convene workgroups to make recommendations about community services designed to achieve the outcomes described in subsection (2) and to ensure that its local great start system includes the following supports for children from birth through age 8:

- (a) Physical health.
- (b) Social-emotional health.
- (c) Family supports and basic needs.
- (d) Parent education.
- (e) Early education, including the child's development of skills linked to success in foundational literacy, and care.

(4) From the funds allocated in subsection (1), at least \$2,500,000.00 shall be used for the purpose of providing home visits to at-risk children and their families. The home visits shall be conducted as part of a locally coordinated, family-centered, evidence-based, data-driven home visit strategic plan that is approved by the department. The goals of the home visits funded under this subsection shall be to improve school readiness using evidence-based methods, including a focus on developmentally appropriate outcomes for early literacy, to reduce the number of pupils retained in grade level, to reduce the number of pupils requiring special education services, to improve positive parenting practices, and to improve family economic self-sufficiency while reducing the impact of high-risk factors through community resources and referrals. The department shall coordinate the goals of the home visit strategic plans approved under this subsection with other state agency home visit programs in a way that strengthens Michigan's home visiting infrastructure and maximizes federal funds available for the purposes of at-risk family home visits. The coordination among departments and agencies is intended to avoid duplication of state services and spending, and should emphasize efficient service delivery of home visiting programs.

(5) Not later than December 1 of each year, each intermediate district shall provide a report to the department detailing the activities actually provided during the immediately preceding school year and the families and children actually served. At a minimum, the report shall include an evaluation of the services provided with additional funding under subsection (4) for home visits, using the goals identified in subsection (4) as the basis for the evaluation, including the degree to which school readiness was improved, any change in the number of pupils retained at grade level, and any change in the number of pupils receiving special education services. The department shall compile and summarize these reports and submit its summary to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies not later than February 15 of each year.

(6) An intermediate district or consortium of intermediate districts that receives funding under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds through June 30 of the next fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

Sec. 32q. From the state school aid fund allocation under section 11, there is allocated to an eligible intermediate district an amount equal to \$175,000.00 for 2018-2019 for the purpose of this section. An intermediate district receiving a grant under this section shall partner with an early childhood collaborative to conduct a pilot program as provided under this section. It is the intent of the legislature that this is the third of 3 years of funding, and that funding for the pilot program shall not continue in 2019-2020. Funding allocated to an intermediate district shall be used in partnership with a collaborative to conduct a pilot program to evaluate the relative impact on vulnerable children of 1 versus 2 years of preschool education. All of the following apply to the pilot program funded under this section:

(a) An eligible intermediate district is an intermediate district that is located in a county with a population as of the most recent federal decennial census that was greater than 500,000 but fewer than 800,000 and that has an early learning collaborative located within its boundaries.

(b) The funds shall be used for research, family coaching support, administration, information systems, and evaluation.

(c) In order to be eligible to receive the allocated funds, the early learning collaborative, in partnership with the intermediate district, shall provide the funding for all eligible children included in the pilot program.

(d) The early learning collaborative, in partnership with the intermediate district, shall develop a 3-year pilot program under the supervision of the office of great start in the department.

(e) For a child to be eligible for participation in the pilot program under this section, the child shall be 3 years of age as of the date specified for determining a child's eligibility to attend school under section 1147 of the revised school code, MCL 380.1147.

(f) A child participating in the pilot program shall meet the participant eligibility and prioritization guidelines as defined by the department.

(g) Notwithstanding section 17b, the department shall distribute funds under this section not later than November 15 of the fiscal year.

(h) The early learning collaborative, in partnership with the intermediate district, shall provide annual progress evaluations to the office of great start.

(i) By December 1, 2019, the early learning collaborative, in partnership with the intermediate district, shall provide a pilot program report and evaluation to the office of great start. The office of great start shall review the pilot program report and evaluation and, by February 15, 2020, provide a report to the senate and house appropriations subcommittees on state school aid and to the senate and house fiscal agencies of its evaluation of the pilot program.

Sec. 35a. (1) From the appropriations in section 11, there is allocated for 2018-2019 for the purposes of this section an amount not to exceed \$26,900,000.00 from the state school aid fund and an amount not to exceed \$3,000,000.00 from the general fund. The superintendent shall designate staff or contracted employees funded under this section as critical shortage. Programs funded under this section are intended to ensure that this state will be in the top 10 most improved states in grade 4 reading proficiency by the 2019 National Assessment of Educational Progress (NAEP) and will be in the top 10 states overall in grade 4 reading proficiency by 2025.

(2) A district that receives funds under subsection (5) may spend up to 5% of those funds for professional development for educators in a department-approved research-based training program related to current state literacy standards for pupils in grades K to 3. The professional development shall also include training in the use of screening and diagnostic tools, progress monitoring, and intervention methods used to address barriers to learning and delays in learning that are diagnosed through the use of these tools.

(3) A district that receives funds under subsection (5) may use up to 5% of those funds to administer department-approved screening and diagnostic tools to monitor the development of early literacy and early reading skills of pupils in grades K to 3 and to support research-based professional development for educators in administering screening and diagnostic tools and in data interpretation of the results obtained through the use of those tools for the purpose of implementing a multi-tiered system of support to improve reading proficiency among pupils in grades K to 3. A department-approved screening and diagnostic tool administered by a district using funding under this section must include all of the following components: phonemic awareness, phonics, fluency, and comprehension. Further, all of the following sub-skills must be assessed within each of these components:

- (a) Phonemic awareness - segmentation, blending, and sound manipulation (deletion and substitution).
- (b) Phonics - decoding (reading) and encoding (spelling).
- (c) Fluency - reading rate, accuracy, and expression.
- (d) Comprehension - making meaning of text.

(4) From the allocations under subsection (1), there is allocated an amount not to exceed \$7,000,000.00 for 2018-2019 for the purpose of providing early literacy coaches at intermediate districts to assist teachers in developing and implementing instructional strategies for pupils in grades K to 3 so that pupils are reading at grade level by the end of grade 3. All of the following apply to funding under this subsection:

(a) The department shall develop an application process consistent with the provisions of this subsection. An application shall provide assurances that literacy coaches funded under this subsection are knowledgeable about at least the following:

- (i) Current state literacy standards for pupils in grades K to 3.

- (iii) The use of data from diagnostic tools to determine the necessary additional supports and interventions needed by individual pupils in grades K to 3 in order to be reading at grade level.

(b) From the allocation under this subsection, the department shall award grants to intermediate districts for the support of early literacy coaches. An intermediate district must provide matching funds for at least 50% of the grant amount awarded to support the cost of the literacy coach. The department shall provide this funding in the following manner:

- (i) Each intermediate district shall be awarded grant funding to support the cost of 1 early literacy coach in an equal amount per early literacy coach, not to exceed \$75,000.00.

(ii) After distribution of the grant funding under subparagraph (i), the department shall distribute the remainder of grant funding for additional early literacy coaches in an amount not to exceed \$75,000.00 per early literacy coach. The number of funded early literacy coaches for each intermediate district shall be based on the percentage of the total statewide number of pupils in grades K to 3 who meet the income eligibility standards for the federal free and reduced-price lunch programs who are enrolled in districts in the intermediate district. For each additional early literacy coach funded under this subparagraph, the department shall not make an award to an intermediate district under this subparagraph in an amount that is less than the amount necessary to pay 1/2 of the total cost of that additional early literacy coach.

(5) From the allocations under subsection (1), there is allocated an amount not to exceed \$19,900,000.00 for 2018-2019 to districts that provide additional instructional time to those pupils in grades K to 3 who have been identified by using department-approved screening and diagnostic tools as needing additional supports and interventions in order to be reading at grade level by the end of grade 3. Additional instructional time may be provided before, during, and after regular school hours or as part of a year-round balanced school calendar. All of the following apply to funding under this subsection:

(a) In order to be eligible to receive funding, a district shall demonstrate to the satisfaction of the department that the district has done all of the following:

(v) Complied with the requirements under section 1280f of the revised school code, MCL 380.1280f.

(b) Funding allocated under this subsection shall be distributed to eligible districts on an equal per-first-grade-pupil basis.

(c) If the funds allocated under this subsection are insufficient to fully fund the payments under this subsection, payments under this subsection shall be prorated on an equal per-pupil basis based on grade 1 pupils.

(6) Not later than September 1, 2019, a district that receives funding under this section, in conjunction with the Michigan data hub network, if possible, shall provide to the department a report that includes at least both of the following, in a form and manner prescribed by the department:

The department shall award the entire \$2,500,000.00 allocated under this subsection to the Michigan Education Corps and shall not condition the awarding of this funding on the implementation of an independent evaluation.

(8) From the general fund money allocated under subsection (1), there is allocated an amount not to exceed \$500,000.00 for 2018-2019 for a grant to an eligible program that has a goal to slow or prevent the K to 4 summer reading slide among all pupils enrolled in grades K to 4, particularly those from economically disadvantaged households. Funds allocated under this subsection are grant funds and must be distributed by the department. A program is eligible if it meets at least all of the following:

The application shall not require an eligible applicant to amend the applicant's current accounting cycle or adopt this state's fiscal year accounting cycle in accounting for financial transactions under this section. The application shall include all of the following:

(a) For 2018-2019 calculations, the estimated total number of children in the community who meet the criteria of section 32d, as provided to the applicant by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. Beginning in 2018-2019, the department shall ensure that it provides updated American Community Survey population data at least once every 3 years.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served exclusively by Head Start programs operating in the community.

(c) The number of children whom the applicant has the capacity to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(b) The sum of the number of children the applicant has the capacity to serve in 2018-2019 in a school-day program multiplied by \$7,250.00 and the number of children served in a GSRP/Head Start blended program or a part-day program the applicant has the capacity to serve in 2018-2019 multiplied by \$3,625.00.

(4) If funds remain after the allocations under subsection (3), the department shall distribute the remaining funds to each intermediate district or consortium of intermediate districts that serves less than the state percentage benchmark determined under subsection (5). These remaining funds shall be distributed to each eligible applicant based upon each applicant's proportionate share of the remaining unserved children necessary to meet the statewide percentage benchmark in intermediate districts or consortia of intermediate districts serving less than the statewide percentage benchmark. When all applicants have been given the opportunity to reach the statewide percentage benchmark, the statewide percentage benchmark may be reset, as determined by the department, until greater equity of opportunity to serve eligible children across all intermediate school districts has been achieved.

(5) For the purposes of subsection (4), for the 2018-2019 program year, the department shall calculate a percentage of children served by each intermediate district or consortium of intermediate districts by dividing the number of children served in the immediately preceding year by that intermediate district or consortium by the total number of children within the intermediate district or consortium of intermediate districts who meet the criteria of section 32d as determined by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. The department shall compare the resulting percentage of eligible children served to a statewide percentage benchmark to determine if the intermediate district or consortium is eligible for additional funds under subsection (4). For 2018-2019, the statewide percentage benchmark is 60%.

(6) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but shall not receive additional funding under section 32d for those children.

(7) The department shall review the program components under section 32d and under this section at least biennially. The department also shall convene a committee of internal and external stakeholders at least once every 5 years to ensure that the funding structure under this section reflects current system needs under section 32d.

(8) As used in this section, “school-day program”, “GSRP/Head Start blended program”, and “part-day program” mean those terms as defined in section 32d.

Sec. 41. (1) For a district or public school academy to be eligible to receive funding under this section, the district or public school academy must administer to English language learners the English language proficiency assessment known as the "WIDA ACCESS for English language learners" or the "WIDA Alternate ACCESS". From the appropriation in section 11, there is allocated an amount not to exceed \$6,000,000.00 for 2018-2019 for payments to eligible districts and eligible public school academies for services for English language learners who have been administered the WIDA ACCESS for English language learners.

(2) Funding allocated under this section shall be distributed to eligible districts and eligible public school academies based on the number of full-time equivalent English language learners as follows:

(a) \$620.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 1.0 and 1.9, or less, as applicable to each assessment.

(b) \$410.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 2.0 and 2.9, or less, as applicable to each assessment.

(3) If funds allocated under this section are insufficient to fully fund the payments as prescribed under subsection (2), payments shall be prorated on an equal percentage basis, with the same percentage proration applied to both funding categories.

(4) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under this section, in a form and manner determined by the department, which shall include a brief description of each program conducted or services performed by the district or public school academy using funds under this section and the amount of funds under this section allocated to each of those programs or services. If a district or public school academy does not comply with this section, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this section by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(5) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse this state for all disallowances found in the audit.

(6) Beginning July 1, 2020, and every 3 years thereafter, the department shall review the per-pupil distribution under subsection (2), to ensure that funding levels are appropriate and make recommendations for adjustments to the members of the senate and house subcommittees on K-12 school aid appropriations.

Sec. 51a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$960,446,100.00 for 2017-2018 and there is allocated an amount not to exceed \$983,196,100.00 for 2018-2019 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$370,000,000.00 each fiscal year for 2017-2018 and for 2018-2019, plus any carryover federal funds from previous year appropriations. In addition, from the general fund appropriation in section 11, there is allocated to the department an amount not to exceed \$500,000.00 for each fiscal year for 2017-2018 and for 2018-2019 for the purpose of subsection (16). The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and

services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, and estimated at \$266,900,000.00 for 2017-2018 and estimated at \$273,100,000.00 for 2018-2019, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per-pupil allocation under section 20m, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (11), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per-pupil allocation under section 20m.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2017-2018 an amount not to exceed \$1,300,000.00 and there is allocated an amount not to exceed \$1,300,000.00 for 2018-2019 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal year for 2017-2018 and for 2018-2019 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 each fiscal year for 2017-2018 and for 2018-2019 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The

total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis. Beginning in 2015-2016, the amount of reimbursement under this subdivision for a fiscal year shall not exceed \$2,000,000.00 for any district or intermediate district.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan Administrative Code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$3,200,000.00 for 2017-2018, and estimated at \$3,400,000.00 for 2018-2019, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per-pupil allocation under section 20m,

not to exceed the basic foundation allowance under section 20 for the current fiscal year; or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6) or, for a pupil described in this subsection who is counted in membership in the education achievement system, times an amount equal to the amount per membership pupil under section 20(7). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per-pupil allocation under section 20m. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

(a) 100% of the reimbursement required under section 53a.

(b) 100% of the reimbursement required under subsection (6).

(c) 100% of the payment required under section 54.

(d) 100% of the payment required under subsection (3).

(e) 100% of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement shall include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil's resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district's plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, a public school academy that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, shall directly receive the federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, from the intermediate district in which the cyber school is located, as the subrecipient. If the intermediate district does not distribute the funds described in this subsection to the cyber school by the part B application due date of July 1, the department may distribute the funds described in this subsection directly to the cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816.

(16) For a public school academy that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate district in which the cyber school is located shall ensure that the cyber school complies with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL 380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable rules; and the individuals with disabilities education act, Public Law 108-446. From the general fund appropriation under subsection (1), the department shall provide appropriate administrative funding to the intermediate district in which that cyber school is located for the purpose of ensuring that compliance.

(17) For the purposes of this section, the department or the center shall only require a district or intermediate district to report information that is not already available from the financial information database maintained by the center.

Sec. 51c. As required by the court in the consolidated cases known as *Durant v State of Michigan*, 456 Mich 175 (1997), from the allocation under section 51a(1), there is allocated each fiscal year for 2017-2018 and for 2018-2019 the amount necessary, estimated at \$636,900,000.00 for 2017-2018 and \$651,000,000.00 for 2018-2019, for payments to reimburse districts for 28.6138% of total approved costs of special education excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 22b in order to fully fund those calculated allocations for the same fiscal year.

Sec. 51d. (1) From the federal funds appropriated in section 11, there is allocated for 2018-2019 all available federal funding, estimated at \$61,000,000.00, for special education programs and services that are funded by federal grants. All federal funds allocated under this section shall be distributed in accordance with federal law. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the federal funds allocated under subsection (1), the following amounts are allocated for 2018-2019:

(b) An amount estimated at \$12,000,000.00 for preschool grants (Public Law 94-142), funded from DED-OSERS, handicapped preschool incentive funds.

(c) An amount estimated at \$35,000,000.00 for special education programs funded by DED-OSERS, handicapped program, individuals with disabilities act funds.

(3) As used in this section, "DED-OSERS" means the United States Department of Education Office of Special Education and Rehabilitative Services.

Sec. 53a. (1) For districts, reimbursement for pupils described in subsection (2) shall be 100% of the total approved costs of operating special education programs and services approved by the department and included in the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1761, minus the district's foundation allowance calculated under section 20 and minus the district's per-pupil allocation under section 20m. For intermediate districts, reimbursement for pupils described in subsection (2) shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, and that district's per-pupil allocation under section 20m.

(2) Reimbursement under subsection (1) is for the following special education pupils:

(a) Pupils assigned to a district or intermediate district through the community placement program of the courts or a state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.

(b) Pupils who are residents of institutions operated by the department of health and human services.

(c) Pupils who are former residents of department of community health institutions for the developmentally disabled who are placed in community settings other than the pupil's home.

(d) Pupils enrolled in a department-approved on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child care institution, if the child care institution offered in 1991-92 an on-grounds educational program longer than 180 days but not longer than 233 days.

(d) Any other component that is necessary to obtain the approval of the United States Department of Education to use the Michigan merit examination for the purposes of the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil’s parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil’s parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the Software Engineering Institute of Carnegie Mellon University for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of technology, management, and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

(d) The superintendent shall ensure that the Michigan merit examination meets all of the following:

(i) Is designed to test pupils on this state’s content standards in all subjects tested.

(ii) Complies with requirements of the no child left behind act of 2001, Public Law 107-110 or the every student succeeds act, Public Law 114-95.

(iii) Is consistent with the code of fair testing practices in education prepared by the Joint Committee on Testing Practices of the American Psychological Association.

(iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.

(4) A district shall include on each pupil’s high school transcript all of the following:

(a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil’s scaled score on each subject area component of the Michigan merit examination.

(b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.

(5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination. To the extent that the department determines that additional test items beyond those included in the college entrance component of the Michigan merit examination are required in a particular subject area, the department shall ensure that all test items in that subject area are scaled and merged for the purposes of producing a Michigan merit examination subject area score. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic

schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.

(6) The Michigan merit examination shall be administered in each district during the last 12 weeks of the district's school year. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

(7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:

(a) The pupil has taken the complete Michigan merit examination.

(b) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.

(c) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.

(d) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee waiver by the provider.

(8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.

(9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on this state's content standards, as appropriate. Annually, after each administration of the Michigan merit examination, the department shall provide a report of the points per standard so that teachers will know what content will be covered within the Michigan merit examination. The department may augment the college entrance and work skills components of the Michigan merit examination to develop the assessment, depending on the alignment of those components to this state's content standards. If these components do not align to these standards, the department shall produce additional components as required by law, while minimizing the amount of time needed for assessments.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of technology, management, and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum

framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) For a pupil enrolled in a middle college program, other than a middle college operated as a shared educational entity or a specialized shared educational entity, if the pupil receives at least 50% of his or her instruction at the high school while in grade 11, the Michigan merit examination shall be administered to the pupil at the high school at which the pupil receives high school instruction, and the department shall include the pupil's scores on the Michigan merit examination in the scores for that high school for all purposes for which a school's or district's results are reported. The department shall allow the middle college program to use a 5-year graduation rate for determining adequate yearly progress. As used in this subsection, "middle college" means a program consisting of a series of courses and other requirements and conditions, including an early college or other program created under a memorandum of understanding, that allows a pupil to graduate from high school with both a high school diploma and a certificate or degree from a community college or state public university.

(15) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

(16) For each report made by the department that includes the statewide assessment results for a school building, the department shall include the scores for the statewide assessment and the graduation rate for consortium pupils with the scores for the school building in the participating district in which the consortium pupil is enrolled or would otherwise attend. The statewide assessment for a consortium pupil may be administered either at the consortium location or at the school building in the participating district in which the consortium pupil is enrolled or would otherwise attend. For the purposes of this subsection, a consortium pupil is a pupil who is enrolled or participating in a participating district in a school or program operated as a consortium or under a cooperative arrangement formed by 2 or more districts or intermediate districts, including, but not limited to, a consortium or cooperative arrangement operated as a program, a shared educational entity, a specialized educational entity, or a special education center program.

Sec. 104c. (1) In order to receive state aid under this article, a district shall administer the state assessments described in this section.

(2) For the purposes of this section, the department shall develop and administer the Michigan student test of educational progress (M-STEP) assessments in English language arts and mathematics. These assessments shall be aligned to state standards.

(3) For the purposes of this section, the department shall implement a summative assessment system that is proven to be valid and reliable for administration to pupils as provided under this subsection. The summative assessment system shall meet all of the following requirements:

(a) The summative assessment system shall measure student proficiency on the current state standards, shall measure student growth for consecutive grade levels in which students are assessed in the same subject area in both grade levels, and shall be capable of measuring individual student performance.

(b) The summative assessments for English language arts and mathematics shall be administered to all public school pupils in grades 3 to 11, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(c) The summative assessments for science shall be administered to all public school pupils in at least grades 5 and 8, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(d) The summative assessments for social studies shall be administered to all public school pupils in at least grades 5 and 8, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(e) The content of the summative assessments shall be aligned to state standards.

(f) The pool of questions for the summative assessments shall be subject to a transparent review process for quality, bias, and sensitive issues involving educator review and comment. The department shall post samples from tests or retired tests featuring questions from this pool for review by the public.

(g) The summative assessment system shall ensure that students, parents, and teachers are provided with reports that convey individual student proficiency and growth on the assessment and that convey individual student domain-level performance in each subject area, including representative questions, and individual student performance in meeting state standards.

(h) The summative assessment system shall be capable of providing, and the department shall ensure that students, parents, teachers, administrators, and community members are provided with, reports that convey aggregate student proficiency and growth data by teacher, grade, school, and district.

(i) The summative assessment system shall ensure the capability of reporting the available data to support educator evaluations.

(j) The summative assessment system shall ensure that the reports provided to districts containing individual student data are available within 60 days after completion of the assessments.

(k) The summative assessment system shall ensure that access to individually identifiable student data meets all of the following:

(i) Is in compliance with 20 USC 1232g, commonly referred to as the family educational rights and privacy act of 1974.

(ii) Except as may be provided for in an agreement with a vendor to provide assessment services, as necessary to support educator evaluations pursuant to subdivision (i), or for research or program evaluation purposes, is available only to the student; to the student's parent or legal guardian; and to a school administrator or teacher, to the extent that he or she has a legitimate educational interest.

(l) The summative assessment system shall ensure that the assessments are pilot tested before statewide implementation.

(m) The summative assessment system shall ensure that assessments are designed so that the maximum total combined length of time that schools are required to set aside for a pupil to answer all test questions on all assessments that are part of the system for the pupil's grade level does not exceed that maximum total combined length of time for the previous statewide assessment system or 9 hours, whichever is less. This subdivision does not limit the amount of time a district may allow a pupil to complete a test.

(n) The total cost of executing the summative assessment system statewide each year, including, but not limited to, the cost of contracts for administration, scoring, and reporting, shall not exceed an amount equal to 2 times the cost of executing the previous statewide assessment after adjustment for inflation.

(o) Beginning with the 2017-2018 school year, the summative assessment system shall not require more than 3 hours in duration, on average, for an individual pupil to complete the combined administration of the math and English language arts portions of the assessment for any 1 grade level.

(p) The summative assessments for English language arts and mathematics for pupils in grades 8 to 10 must be aligned to the college entrance test portion of the Michigan merit examination required under section 104b.

(4) The department shall offer benchmark assessments in the fall and spring of each school year to measure English language arts and mathematics in each of grades K to 2. Full implementation shall occur not later than the 2018-2019 school year. These assessments are necessary to determine a pupil's proficiency level before grade 3.

(5) This section does not prohibit districts from adopting interim assessments.

(6) As used in this section, "English language arts" means that term as defined in section 104b.

Sec. 104d. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2018-2019 an amount not to exceed \$9,200,000.00 for providing reimbursement to districts that purchase a computer-adaptive test, or that purchase 1 or more diagnostic tools or screening tools for pupils in grades K to 3 that are intended to increase reading proficiency by grade 4, or that purchase benchmark assessments for pupils in grades K to 8.

(2) In order to receive reimbursement under this section for the purchase of a computer-adaptive test, the computer-adaptive test must provide for at least all of the following:

(a) Internet-delivered, standards-based assessment using a computer-adaptive model to target the instructional level of each pupil.

(b) Unlimited testing opportunities throughout the 2018-2019 school year.

(c) Valid and reliable diagnostic assessment data.

(d) Adjustment of testing difficulty based on previous answers to test questions.

(e) Immediate feedback to pupils and teachers.

(3) In order to receive reimbursement under this section for the purchase of 1 or more diagnostic tools or screening tools for pupils in grades K to 3, each of the tools must meet all of the following:

(a) Be reliable.

(b) Be valid.

(c) Be useful. As used in this subdivision, "useful" means that a tool is easy to administer and requires a short time to complete and that results are linked to intervention.

(4) In order to receive funding under this section for the purchase of benchmark assessments for pupils in grades K to 8, the benchmark assessments must meet all of the following:

(a) Be aligned to the state standards of this state.

(b) Complement this state's summative assessment system.

(c) Be administered at least once a year before the administration of any summative assessment to monitor pupil progress.

(d) Provide information on pupil achievement with regard to learning the content required in a given year or grade span.

(5) Reimbursement under this section shall be made to eligible districts that purchase a computer-adaptive test or 1 or more diagnostic tools, screening tools, or benchmark assessments described in this section by October 15, 2018 and shall be made on an equal per-pupil basis according to the available funding, based on the number of pupils for whom assessments were purchased.

(6) In order to receive reimbursement under this section, a district shall demonstrate to the satisfaction of the department that each qualifying computer-adaptive test, diagnostic tool, screening tool, or benchmark assessment was purchased by the district by December 1, 2018 and shall report to the department which tests, tools, and assessments the district purchased.

(7) Not later than February 1, 2019, the department shall compile the data provided by districts under subsection (6) and report to the house and senate appropriations subcommittees on school aid and the house and senate fiscal agencies the number of districts that purchased each test, tool, and assessment.

(8) Districts seeking reimbursement under this section for a benchmark assessment shall commit to using the same benchmark assessment for no less than 3 years without switching to another benchmark assessment.

Sec. 104e. (1) From the general fund appropriation in section 11, there is allocated an amount not to exceed \$250,000.00 for the implementation of an assessment digital literacy preparation pilot project for pupils enrolled in grades K to 8 for 2017-2018. The department shall ensure that a pilot project funded under this subsection satisfies all of the following:

(a) Is available to districts in the 2017-2018 school year.

(b) Focuses on ensuring pupils have the necessary skills required for state online assessments by assessing pupil digital literacy skill levels and providing teachers with a digital curriculum targeted at areas of determined weakness.

(c) Allows pupils to engage with the digital curriculum in an independent or teacher-facilitated modality.

(d) Includes training and professional development for teachers.

(e) Is implemented in at least 50 districts that operate grades K to 8 and that represent a diverse geography and socio-economic demographic.

(2) Funding under subsection (1) shall be allocated to a district that operates at least grades K to 8 and has a partnership with a third party that is experienced in the assessment of digital literacy and the preparation of digital literacy skills and has demonstrable experience serving districts in this state and local education agencies in other states. The district, along with its third-party partner, shall provide a report to the house and senate appropriations subcommittees on school aid and the house and senate fiscal agencies on the efficacy and usefulness of the assessment digital literacy preparation pilot project no later than April 1, 2019.

(3) Notwithstanding section 17b, payments under subsection (1) shall be made in a manner determined by the department.

Sec. 107. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$30,000,000.00 for 2018-2019 for adult education programs authorized under this section. Except as otherwise provided under subsections (14) and (15), funds allocated under this section are restricted for adult education programs as authorized under this section only. A recipient of funds under this section shall not use those funds for any other purpose.

(3) To be eligible to be a participant funded under this section, an individual shall be enrolled in an adult basic education program, an adult secondary education program, an adult English as a second language program, a high school equivalency test preparation program, or a high school completion program, that meets the requirements of this section, and for which instruction is provided, and the individual shall be at least 18 years of age and the individual's graduating class shall have graduated.

(4) By April 1 of each fiscal year, the intermediate districts within a prosperity region or subregion shall determine which intermediate district will serve as the prosperity region's or subregion's fiscal agent for the next fiscal year and shall notify the department in a form and manner determined by the department. The department shall approve or

disapprove of the prosperity region's or subregion's selected fiscal agent. From the funds allocated under subsection (1), an amount as determined under this subsection shall be allocated to each intermediate district serving as a fiscal agent for adult education programs in each of the prosperity regions or subregions identified by the department. An intermediate district shall not use more than 5% of the funds allocated under this subsection for administration costs for serving as the fiscal agent. Beginning in 2014-2015, 67% of the allocation provided to each intermediate district serving as a fiscal agent shall be based on the proportion of total funding formerly received by the adult education providers in that prosperity region or subregion in 2013-2014, and 33% shall be allocated based on the factors in subdivisions (a), (b), and (c). For 2018-2019, 33% of the allocation provided to each intermediate district serving as a fiscal agent shall be based upon the proportion of total funding formerly received by the adult education providers in that prosperity region in 2013-2014 and 67% of the allocation shall be based upon the factors in subdivisions (a), (b), and (c). However, if the allocation to an intermediate district as calculated under the preceding sentence is less than the amount received by the intermediate district under this subsection for 2017-2018, the intermediate district shall instead receive in 2018-2019 an amount equal to what the intermediate district received in 2017-2018. Beginning in 2019-2020, the allocation provided to each intermediate district serving as a fiscal agent shall be equal to what the intermediate district received in 2018-2019. The funding factors for this section are as follows:

(a) Sixty percent of this portion of the funding shall be distributed based upon the proportion of the state population of individuals between the ages of 18 and 24 that are not high school graduates that resides in each of the prosperity regions or subregions, as reported by the most recent 5-year estimates from the American Community Survey (ACS) from the United States Census Bureau.

(b) Thirty-five percent of this portion of the funding shall be distributed based upon the proportion of the state population of individuals age 25 or older who are not high school graduates that resides in each of the prosperity regions or subregions, as reported by the most recent 5-year estimates from the American Community Survey (ACS) from the United States Census Bureau.

(c) Five percent of this portion of the funding shall be distributed based upon the proportion of the state population of individuals age 18 or older who lack basic English language proficiency that resides in each of the prosperity regions or subregions, as reported by the most recent 5-year estimates from the American Community Survey (ACS) from the United States Census Bureau.

(5) To be an eligible fiscal agent, an intermediate district must agree to do the following in a form and manner determined by the department:

(a) Distribute funds to adult education programs in a prosperity region or subregion as described in this section.

(b) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to develop a regional strategy that aligns adult education programs and services into an efficient and effective delivery system for adult education learners, with special consideration for providing contextualized learning and career pathways and addressing barriers to education and employment.

(c) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to create a local process and criteria that will identify eligible adult education providers to receive funds allocated under this section based on location, demand for services, past performance, quality indicators as identified by the department, and cost to provide instructional services. The fiscal agent shall determine all local processes, criteria, and provider determinations. However, the local processes, criteria, and provider services must be approved by the department before funds may be distributed to the fiscal agent.

(d) Provide oversight to its adult education providers throughout the program year to ensure compliance with the requirements of this section.

(e) Report adult education program and participant data and information as prescribed by the department.

(6) An adult basic education program, an adult secondary education program, or an adult English as a second language program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who are determined by a department-approved assessment, in a form and manner prescribed by the department, to be below twelfth grade level in reading or mathematics, or both, or to lack basic English proficiency.

(b) The program tests individuals for eligibility under subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A participant in an adult basic education program is eligible for reimbursement until 1 of the following occurs:

(7) A high school equivalency test preparation program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma or a high school equivalency certificate.

(b) The program shall administer a pre-test approved by the department before enrolling an individual to determine the individual's literacy levels, shall administer a high school equivalency practice test to determine the individual's potential for success on the high school equivalency test, and shall administer a post-test upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient shall receive funding according to subsection (9) for a participant, and a participant may be enrolled in the program until 1 of the following occurs:

(i) The participant achieves a high school equivalency certificate.

(ii) The participant fails to show progress on 2 successive department-approved assessments used to determine readiness to take a high school equivalency test after having completed at least 450 hours of instruction.

(c) Participant completion of core indicators as identified in the innovation and opportunity act.

(d) Allowable expenditures.

(10) A person who is not eligible to be a participant funded under this section may receive adult education services upon the payment of tuition. In addition, a person who is not eligible to be served in a program under this section due to the program limitations specified in subsection (6), (7), or (8) may continue to receive adult education services in that program upon the payment of tuition. The tuition level shall be determined by the local or intermediate district conducting the program.

(11) An individual who is an inmate in a state correctional facility shall not be counted as a participant under this section.

(12) A funding recipient shall not commingle money received under this section or from another source for adult education purposes with any other funds and shall establish a separate ledger account for funds received under this section. This subsection does not prohibit a district from using general funds of the district to support an adult education or community education program.

(13) A funding recipient receiving funds under this section may establish a sliding scale of tuition rates based upon a participant's family income. A funding recipient may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant shall not exceed the actual operating cost per participant minus any funds received under this section per participant. A funding recipient may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States Department of Health and Human Services.

(14) In order to receive funds under this section, a funding recipient shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department. In addition, a funding recipient shall agree to pay to a career and technical education program under section 61a the amount of funding received under this section in the proportion of career and technical education coursework used to satisfy adult basic education programming, as billed to the funding recipient by programs operating under section 61a. In addition to the funding allocated under subsection (1), there is allocated an amount not to exceed \$500,000.00 to reimburse funding recipients for administrative and instructional expenses associated with commingling programming under this section and section 61a. Payments made to each funding recipient shall be in the same proportion as funding calculated and allocated under subsection (4).

(15) From the amount appropriated in subsection (1), an amount not to exceed \$4,000,000.00 shall be allocated for 2018-2019 for grants to adult education or career technical center programs that connect adult education participants with employers as provided under this subsection. The grant to each program shall be up to \$350,000.00. To be eligible for funding under this subsection, a program must provide a collaboration linking adult education programs within the county, the area career technical center, and local employers. To receive funding under this subsection, an eligible program shall satisfy all of the following:

(a) Shall connect adult education participants directly with employers by linking adult education, career and technical skills, and workforce development.

(b) Shall require adult education staff to work with Michigan Works! agency to identify a cohort of participants who are most prepared to successfully enter the workforce. Participants identified under this subsection shall be dually enrolled in adult education programming and at least 1 technical course at the area career and technical center.

(c) Shall have an individual staffed as an adult education navigator who will serve as a caseworker for each participant identified under subdivision (b). The navigator shall work with adult education staff and potential employers to design an educational program best suited to the personal and employment needs of the participant and shall work with human service agencies or other entities to address any barrier in the way of participant access.

(16) A program that was a pilot program in 2017-2018 and that was funded under this section in 2017-2018 shall be funded in 2018-2019 unless the program ceases operation. The intermediate district in which that pilot program was funded shall be the fiscal agent for that program and shall apply for that program's funding under subsection (15).

However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for a curricular offering that is restricted to nonessential elective courses and is available to full-time pupils in the minor's grade level or age group. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. College level courses taken by high school students for college credit are nonessential courses. Remedial courses for any grade in the above-listed essential courses are considered essential. Kindergarten is considered nonessential.

(4) Subject to section 6(4)(ii), a minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(5) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. (i) Complete at least 56 transferable semester or 84 transferable term credits.

(ii) Obtain an associate degree or certificate at a participating institution.

(c) To be eligible for phase I or phase II, an individual must not be incarcerated and must be financially eligible as determined by the department. An individual is financially eligible for the tuition incentive program if he or she was eligible for Medicaid from this state for 24 months within the 36 consecutive months before application. The department shall accept certification of Medicaid eligibility only from the department of health and human services for the purposes of verifying if a person is Medicaid eligible for 24 months within the 36 consecutive months before application. Certification of eligibility may begin in the sixth grade. As used in this subdivision, "incarcerated" does not include detention of a juvenile in a state-operated or privately operated juvenile detention facility.

(4) For phase I, the department shall provide payment on behalf of a person eligible under subsection (3). The department shall only accept standard per-credit hour tuition billings and shall reject billings that are excessive or outside the guidelines for the type of educational institution.

(5) For phase I, all of the following apply:

(a) Payments for associate degree or certificate programs shall not be made for more than 80 semester or 120 term credits for any individual student at any participating institution.

(b) For persons enrolled at a Michigan community college, the department shall pay the current in-district tuition and mandatory fees. For persons residing in an area that is not included in any community college district, the out-of-district tuition rate may be authorized.

(c) For persons enrolled at a Michigan public university, the department shall pay lower division resident tuition and mandatory fees for the current year.

(d) For persons enrolled at a Michigan independent, nonprofit degree-granting college or university, or a Michigan federal tribally controlled community college, or Focus: HOPE, the department shall pay mandatory fees for the current year and a per-credit payment that does not exceed the average community college in-district per-credit tuition rate as reported on August 1, for the immediately preceding academic year.

(6) A person participating in phase II may be eligible for additional funds not to exceed \$500.00 per semester or \$400.00 per term up to a maximum of \$2,000.00 subject to the following conditions:

(a) Credits are earned in a 4-year program at a Michigan degree-granting 4-year college or university.

(b) The tuition reimbursement is for coursework completed within 30 months of completion of the phase I requirements.

(7) The department shall work closely with participating institutions to develop an application and eligibility determination process that will provide the highest level of participation and ensure that all requirements of the program are met.

(8) Applications for the tuition incentive program may be approved at any time after the student begins the sixth grade. If a determination of financial eligibility is made, that determination is valid as long as the student meets all other program requirements and conditions.

(9) Each institution shall ensure that all known available restricted grants for tuition and fees are used prior to billing the tuition incentive program for any portion of a student's tuition and fees.

(10) The department shall ensure that the tuition incentive program is well publicized and that eligible Medicaid clients are provided information on the program. The department shall provide the necessary funding and staff to fully operate the program.

(11) Any unexpended and unencumbered funds remaining on September 30, 2019 from the amounts appropriated in section 236 for the tuition incentive program for fiscal year 2018-2019 do not lapse on September 30, 2019, but continue to be available for expenditure for tuition incentive program funds provided in the 2019-2020 fiscal year under a work project account. The use of these unexpended fiscal year 2018-2019 funds terminates at the end of the 2019-2020 fiscal year.

(12) The department of treasury shall collaborate with the center to use the P-20 longitudinal data system to report the following information for each qualified postsecondary institution:

(a) The number of phase I students in the most recently completed academic year who in any academic year received a tuition incentive program award and who successfully completed a degree or certificate program. Cohort graduation rates for phase I students shall be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary institutions.

(b) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and who successfully completed a degree or certificate program. Cohort graduation rates for students who received Pell grants shall be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary institutions.

(13) If a qualified postsecondary institution does not report the data necessary to comply with subsection (12) to the P-20 longitudinal data system, the institution shall report, in a form and manner satisfactory to the department of treasury and the center, all of the information needed to comply with subsection (12) by December 1, 2019.

(14) Beginning in fiscal year 2019-2020, if a qualified postsecondary institution does not report the data necessary to complete the reporting in subsection (12) to the P-20 longitudinal data system by October 15 for the prior academic year, the department of treasury shall not award phase I tuition incentive program funding to otherwise eligible students enrolled in that institution until the data are submitted.

Sec. 263. (1) Included in the appropriation in section 236 for fiscal year 2018-2019 for MSU AgBioResearch is \$2,982,900.00 and included in the appropriation in section 236 for MSU Extension is \$2,645,200.00 for Project GREEN. Project GREEN is intended to address critical regulatory, food safety, economic, and environmental problems faced by this state's plant-based agriculture, forestry, and processing industries. "GREEN" is an acronym for Generating Research and Extension to Meet Environmental and Economic Needs.

(2) The department of agriculture and rural development and Michigan State University, in consultation with agricultural commodity groups and other interested parties, shall develop Project GREEN and its program priorities.

Sec. 264. Included in the appropriation in section 236 for fiscal year 2018-2019 for Michigan State University is \$80,000.00 for the Michigan Future Farmers of America Association. This \$80,000.00 allocation shall not supplant any existing support that Michigan State University provides to the Michigan Future Farmers of America Association.

Sec. 265. (1) Payments under section 265a for performance funding for fiscal years 2018-2019, 2019-2020, and 2020-2021 shall only be made to a public university that certifies to the state budget director by August 31, 2018 that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2017 for the 2017-2018 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2018-2019 academic year that is greater than 3.8% or \$490.00, whichever is greater. As used in this subsection:

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university, as described in the higher education institutional data inventory (HEIDI) user manual. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2018-2019 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates paid by a majority of students in each undergraduate class, based on an unweighted average of the rates authorized by the university board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year, as described in the higher education institutional data inventory (HEIDI) user manual.

(c) For purposes of subdivision (a), for a public university that compels resident undergraduate students to be covered by health insurance as a condition to enroll at the university, "fee" includes the annual amount a student is charged for coverage by the university-affiliated group health insurance policy if he or she does not provide proof that he or she is otherwise covered by health insurance. This subdivision does not apply to limited subsets of resident undergraduate students to be covered by health insurance for specific reasons other than general enrollment at the university.

(2) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 265a for performance funding has satisfied the tuition restraint requirements of this section. The state budget director shall have the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection shall also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(3) Universities that exceed the tuition and fee rate cap described in subsection (1) shall not receive a planning or construction authorization for a state-funded capital outlay project in fiscal year 2019-2020, fiscal year 2020-2021, or fiscal year 2021-2022.

(4) Notwithstanding any other provision of this act, the legislature may at any time adjust appropriations for a university that adopts an increase in tuition and fee rates for resident undergraduate students that exceeds the rate cap established in subsection (1).

Sec. 265a. (1) Appropriations to public universities in section 236 for fiscal years 2018-2019, 2019-2020, and 2020-2021 for performance funding shall be paid only to a public university that complies with section 265 and certifies to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies by August 31, 2018 that it complies with all of the following requirements:

(a) The university participates in reverse transfer agreements described in section 286 with at least 3 Michigan community colleges.

(b) The university does not and will not consider whether dual enrollment credits earned by an incoming student were utilized towards his or her high school graduation requirements when making a determination as to whether those credits may be used by the student toward completion of a university degree or certificate program.

(c) The university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

(2) Any performance funding amounts under section 236 that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) are unappropriated and reappropriated for performance funding to those public universities that meet the requirements under subsection (1), distributed in proportion to their performance funding appropriation amounts under section 236.

(3) The state budget director shall report to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies by September 30, 2018, regarding any performance funding amounts that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) and any reappropriation of funds under subsection (2).

(4) Performance funding amounts described in section 236 are distributed based on the following formula:

(a) Proportional to each university's share of total operations funding appropriated in fiscal year 2010-2011, 50%.

(b) Based on weighted undergraduate completions in critical skills areas, 11.1%.

(c) Based on research and development expenditures, for universities classified in Carnegie classifications as doctoral universities: moderate research activity, doctoral universities: higher research activity, or doctoral universities: highest research activity only, 5.6%.

(d) Based on 6-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures, and the percentage of students receiving Pell grants, scored against national Carnegie classification peers and weighted by total undergraduate fiscal year equated students, 33.3%.

(5) For purposes of determining the score of a university under subsection (4)(d), each university is assigned 1 of the following scores:

(a) A university classified as in the top 20%, a score of 3.

(b) A university classified as above national median, a score of 2.

(c) A university classified as improving, a score of 2. It is the intent of the legislature that, beginning in the 2019-2020 state fiscal year, a university classified as improving is assigned a score of 1.

(d) A university that is not included in subdivision (a), (b), or (c), a score of 0.

(6) As used in this section, "Carnegie classification" means the basic classification of the university according to the most recent version of the Carnegie classification of institutions of higher education, published by the Carnegie Foundation for the Advancement of Teaching.

(7) It is the intent of the legislature to allocate more funding based on performance metrics in future years.

Sec. 265b. (1) Appropriations to public universities in section 236 for the fiscal year ending September 30, 2019 for operations funding shall be reduced by 10% pursuant to the procedures described in subdivision (a) for a public university that fails to submit certification to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies by August 31, 2018 that the university complies with sections 274c and 274d and that it complies with all of the requirements described in subdivisions (b) to (i), as follows:

(a) If a university fails to submit certification, the state budget director shall withhold 10% of that university's annual operations funding until the university submits certification. If a university fails to submit certification by the end of the fiscal year, the 10% of its annual operations funding that is withheld shall lapse to the general fund.

(b) For title IX investigations of alleged sexual misconduct, the university prohibits the use of medical experts that have an actual or apparent conflict of interest.

(c) For title IX investigations of alleged sexual misconduct, the university prohibits the issuance of divergent reports to complainants, respondents, and administration and instead requires that identical reports be issued to them.

(d) Consistent with the university's obligations under 20 USC 1092(f), the university notifies each individual who reports having experienced sexual assault by a student, faculty member, or staff member of the university that the individual has the option to report the matter to law enforcement, to the university, to both, or to neither, as the individual may choose.

(e) The university provides both of the following:

(i) For all freshmen and incoming transfer students enrolled, an in-person sexual misconduct prevention presentation or course, which must include contact information for the title IX office of the university.

(ii) For all students not considered freshmen or incoming transfer students, an online or electronic sexual misconduct prevention presentation or course.

(f) The university prohibits seeking compensation from the recipient of any medical procedure, treatment, or care provided by a medical professional who has been convicted of a felony arising out of the medical procedure, treatment, or care.

(g) The university has or plans to have a third party review its title IX compliance office and related policies and procedures by the end of the 2018-2019 academic year. A copy of the third-party review shall be transmitted to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies. After the third-party review has been conducted for the 2018-2019 academic year, the university shall have a third-party review once every three years and a copy of the third-party review shall be transmitted to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies.

(h) The university requires that the governing board and the president or chancellor of the university receive not less than quarterly reports from their title IX coordinator or title IX office. The report shall contain aggregated data of the number of sexual misconduct reports that the office received for the academic year, the types of reports received, including reports received against employees, and a summary of the general outcomes of the reports and investigations. A member of the governing board may request to review a title IX investigation report involving a complaint against an employee, and the university shall provide the report in a manner it considers appropriate. The university shall protect the complainant's anonymity, and the report shall not contain specific identifying information.

(i) If allegations against an employee are made in more than 1 title IX complaint that resulted in the university finding that no misconduct occurred, the university requires that the title IX officer promptly notify the president or chancellor and a member of the university's governing board in writing and take all appropriate steps to ensure that the matter is being investigated thoroughly, including hiring an outside investigator for future cases involving that employee. A third-party title IX investigation under this subdivision does not prohibit the university from simultaneously conducting its own title IX investigation through its own title IX coordinator.

(2) Each public university that receives an appropriation in section 236 shall also certify that its president or chancellor and a member of its governing board has reviewed all title IX reports involving the alleged sexual misconduct of an employee of the university, and shall send the certification to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director by August 31, 2018.

Sec. 265e. It is the intent of the legislature that public universities use a portion of funds received in section 236 for campus safety programs, sexual assault prevention programs, and student mental health programs.

Sec. 267. All public universities shall submit the amount of tuition and fees actually charged to a full-time resident undergraduate student for academic year 2018-2019 as part of their higher education institutional data inventory (HEIDI) data by August 31 of each year. A public university shall report any revisions for any semester of the reported academic year 2018-2019 tuition and fee charges to HEIDI within 15 days of being adopted.

Sec. 268. (1) For the fiscal year ending September 30, 2019, it is the intent of the legislature that funds be allocated for unfunded North American Indian tuition waiver costs incurred by public universities under 1976 PA 174, MCL 390.1251 to 390.1253, from the general fund.

Allocations shall be adjusted for amounts included in university operations appropriations. If funds are insufficient to support the entire cost of waivers, amounts shall be prorated proportionate to each institution's shortfall as a percentage of its fiscal year 2018-2019 state appropriation for operations.

(3) By February 15 of each year, the department of civil rights shall annually submit to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies a report on North American Indian tuition waivers for the preceding academic year that includes, but is not limited to, all of the following information:

(4) A public university that receives funds under section 236 shall provide to the department of civil rights any information necessary for preparing the report detailed in subsection (3), using guidelines and procedures developed by the department of civil rights.

(5) The department of civil rights may consolidate the report required under this section with the report required under section 223, but a consolidated report must separately identify data for universities and data for community colleges.

Sec. 269. For fiscal year 2018-2019, from the amount appropriated in section 236 to Central Michigan University for operations, \$29,700.00 shall be paid to Saginaw Chippewa Tribal College for the costs of waiving tuition for North American Indians under 1976 PA 174, MCL 390.1251 to 390.1253.
