

Reps. Howrylak, Allor, Canfield, Chang, Clemente, Cochran, Cox, Crawford, Elder, Ellison, Faris, Garrett, Gay-Dagnogo, Geiss, Greig, Hertel, Jones, Kahle, Lasinski, Lauwers, Liberati, Love, Maturen, Sabo, Singh, Sneller, Theis, Webber, Whiteford, Wittenberg, Yaroch and Zemke offered the following resolution:

House Resolution No. 299.

A resolution to declare April 2018 as Michigan Student Athlete Cardiac Awareness Month in the state of Michigan.

Whereas, The state of Michigan has lost at least 68 students to sudden cardiac arrest and related causes since December 1999. Those students lost include: 15-year-old Kimberly Anne Gillary, a student of Troy Athens High School who suffered a sudden cardiac arrest in a high school water polo game at Birmingham Groves High School on April 1, 2000; Kayla Stanford, a student at Ypsilanti East Middle School, who suffered a cardiac arrest after completing track practice on March 29, 2006; Thomas Noah Smith, a student of Flushing High School, who suffered a sudden cardiac arrest on January 29, 2011; and Wes Leonard, a student at Fennville High school who suffered a sudden cardiac arrest after scoring the winning basket in a basketball game on March 3, 2011; and

Whereas, The families of Kimberly Anne Gillary, Kayla Stanford, Thomas Noah Smith, and Wes Leonard have established Foundations (the “Foundations”) in the memory of their lost sons and daughters to try to prevent other families from losing their sons and daughters to sudden cardiac arrest at school; and

Whereas, The Foundations have donated more than 935 Automated External Defibrillators (AEDs) to high schools and intermediate schools in the state of Michigan and have provided training to teachers and staff on the use of an AED and in CPR; and

Whereas, Approximately 75% of all Michigan high schools now have at least one AED on site due to the efforts of the Foundations founded by the families; and

Whereas, There have been at least 14 lives saved at Michigan high schools as a result of AEDs donated by the Foundations and other concerned organizations including 12 students; and

Whereas, As a result of the efforts of the Foundations, the Michigan Department of Health and Human Services (MDHHS), and the Michigan High School Athletic Association (MHSAA), there is an increased awareness of the importance of more effective pre-participation screening of our high school student athletes and of having readily available AEDs in our high schools; and

Whereas, The Foundations have worked with the Michigan Department of Health and Human Services to develop the Michigan HeartSafe School Program and to encourage Michigan high schools to receive certification as a Michigan HeartSafe School. To date there are at least 265 K-12 schools in Michigan that have received the MI HeartSafe School designation; and

Whereas, The Michigan Legislature has passed legislation to amend MCL 29.19 to require the governing body of any school in Michigan for grades kindergarten to 12 to adopt and implement a Cardiac Emergency Response Plan for the school; and

Whereas, Governor Snyder signed legislation to amend MCL 29.19 on February 25, 2014, thereby establishing that it is the public policy of Michigan that schools be adequately prepared to respond to a cardiac emergency on school property; and

Whereas, Lt. Governor Brian Calley signed Senate Bill No. 647 into law on December 28, 2016. It is now Public Act 388 of 2016 and requires all students in grades 7-12 to receive instruction in cardiopulmonary resuscitation (CPR) before graduation; now, therefore, be it

Resolved by the House of Representatives, That the members of this legislative body declare April 2018 as Michigan Student Athlete Cardiac Awareness Month in the state of Michigan; and be it further

Resolved, That the people of the state of Michigan are encouraged to become more aware of the importance of improved pre-participation screening of our student athletes and the preparedness of our citizenry and public employees to respond to the sudden cardiac arrest of our sons and daughters while entrusted to our public schools in the course of their education; and be it further

Resolved, That the State Board of Education be urged to include provisions in policies and regulations for AED training in student health education courses and for regular AED drills, so that students and staff will be better prepared to use AEDs to save lives in schools and other public places; and be it further

Resolved, That copies of this resolution be transmitted to The Kimberly Anne Gillary Foundation, The KAYLA Foundation, The Thomas Smith Memorial Foundation, The Wes Leonard Heart Team, the Michigan High School Athletic Association, the Michigan Department of Health and Human Services, and the State Board of Education as a symbol of our support.
