7 regard to a prescription.

8 (7) A prescription that is contained within a patient's chart
9 in a health facility or agency licensed under article 17 or other
10 medical institution and that is transmitted to a pharmacy under
11 section 17744 is the original prescription. If all other
12 requirements of this part are met, a pharmacist shall dispense a
13 drug or device pursuant to a prescription described in this
14 subsection. A pharmacist may dispense a drug or device pursuant to
15 a prescription described in this subsection even if the
16 prescription does not contain the quantity ordered. If a
17 prescription described in this subsection does not contain the
18 quantity ordered, the pharmacist shall consult with the prescriber
19 to determine an agreed-upon quantity. The pharmacist shall record
20 the quantity dispensed on the prescription and shall maintain that
21 documentation with the prescription as required in section 17752.

22 (8) If, after consulting with a patient, a pharmacist
23 determines in the exercise of his or her professional judgment that
24 dispensing additional quantities of a prescription drug is
25 appropriate for the patient, the pharmacist may dispense, at one
26 time, additional quantities of the prescription drug up to the
27 total number of dosage units authorized by the prescriber on the
28 original prescription for the patient and any refills of the
29 prescription. Except for a controlled substance included in

1 schedule 5 that does not contain an opioid, this subsection does
2 not apply to a prescription for a controlled substance.

3 (9) Notwithstanding any provision of this section, a
4 pharmacist who receives a prescription under subsection (2) from an
5 advanced practice registered nurse prescriber or physician's
6 assistant prescriber in another state or province of Canada may
7 dispense the drug or device without determining whether the
8 advanced practice registered nurse prescriber or physician's
9 assistant prescriber is authorized under the laws of the other
10 state or province of Canada to issue the prescription.

11 Sec. 17757. (1) When a pharmacist engaged in the business of
12 selling drugs receives a prescription, the pharmacist may, or, when
13 the pharmacist receives a request made in person or by telephone,
14 the pharmacist shall provide the current selling price of a drug
15 dispensed by that pharmacy or comparative current selling prices of
16 generic and brand name drugs or biosimilar drug products dispensed
17 by that pharmacy. If information is provided under this subsection,
18 it must be provided before a drug is dispensed. A person that makes
19 a request for or receives price information under this subsection
20 is not obligated to purchase the drug for which the price or
21 comparative prices are requested or received. A pharmacy or a
22 pharmacist described in this subsection shall not enter into a
23 contract that prohibits the disclosure of the information described
24 in this subsection.

25 (2) A pharmacist engaged in the business of selling drugs
26 shall conspicuously display the notice described in subsection (3)
27 at each counter over which prescription drugs are dispensed.

28 (3) The notice required under subsection (2) must be in
29 substantially the following form:

1 NOTICE TO CONSUMERS
2 ABOUT PRESCRIPTION DRUGS

3 Under Michigan law, you have the right to find out the price
4 of a prescription drug before the pharmacist fills the
5 prescription. You are under no obligation to have the prescription
6 filled here and may use this price information to shop around at
7 other pharmacies. You may request price information in person or by
8 telephone.

9 Every pharmacy has the current selling prices of both generic
10 and brand name drugs dispensed by the pharmacy.

11 Ask your pharmacist if a lower-cost generic drug is available
12 to fill your prescription. A generic drug contains the same
13 medicine as a brand name drug and is a suitable substitute in most
14 instances.

15 A generic drug may not be dispensed by your pharmacist if your
16 doctor has written "dispense as written" or the initials "d.a.w."
17 on the prescription.

18 If you have questions about the drugs that have been
19 prescribed for you, ask your doctor or pharmacist for more
20 information.

21 To avoid dangerous drug interactions, let your doctor and
22 pharmacist know about any other medications you are taking. This is
23 especially important if you have more than 1 doctor or have
24 prescriptions filled at more than 1 pharmacy.

25 (4) The notice required under subsection (2) must also contain
26 the address and phone number of the board and the department. The
27 text of the notice must be in at least 32-point bold type and be
28 printed on paper at least 11 inches by 17 inches in size. The
29 notice may be printed on multiple pages.

1 (5) The department shall provide a copy of the notice required
2 under subsection (2) to each licensee. The department shall provide
3 additional copies if needed. A person may duplicate or reproduce
4 the notice if the duplication or reproduction is a true copy of the
5 notice as produced by the department, without any additions or
6 deletions.

7 (6) The pharmacist shall furnish to the purchaser of a
8 prescription drug at the time the drug is delivered to the
9 purchaser a receipt evidencing the transactions that contains all
10 of the following:

11 (a) The brand name of the drug, if applicable.

12 (b) The name of the manufacturer or the supplier of the drug,
13 if the drug does not have a brand name.

14 (c) The strength of the drug, if significant.

15 (d) The quantity dispensed, if applicable.

16 (e) The name and address of the pharmacy.

17 (f) The serial number of the prescription, a reference to the
18 standing order issued under section 17744e, or, if the prescription
19 drug is dispensed pursuant to section **17724a or** 17744f, a reference
20 to **the applicable** section. ~~17744f.~~

21 (g) The date the prescription was originally dispensed, **if**
22 **applicable.**

23 (h) The name of the prescriber or, if prescribed under the
24 prescriber's delegatory authority, the name of the delegatee. If
25 the prescription drug is dispensed pursuant to section 17744f, the
26 name of the original prescriber and the pharmacist dispensing the
27 prescription drug. **If the prescription drug is dispensed pursuant**
28 **to section 17724a, the name of the pharmacist dispensing the**
29 **prescription drug.**

1 (i) Except as otherwise authorized under section 5110, 17744a,
2 17744b, or 17744e, the name of the patient for whom the drug was
3 prescribed or dispensed.

4 (j) The price for which the drug was sold to the purchaser.

5 (7) The items required under subsection (6) (a), (b), and (c)
6 may be omitted from a receipt by a pharmacist only if the omission
7 is expressly required by the prescriber. The pharmacist shall
8 retain a copy of each receipt furnished under subsection (6) for 90
9 days. The inclusion of the items required under subsection (6) on
10 the prescription container label is a valid receipt to the
11 purchaser. Including the items required under subsection (6) on the
12 written prescription form and retaining the form constitutes
13 retention of a copy of the receipt.

14 (8) The department, in consultation with the board, may
15 promulgate rules to implement this section.
