324.21527 Assessment; bonds or notes; issuance; indebtedness, liability, or obligations of state not created; payment; expenses.

Sec. 21527. (1) The authority shall assess the potential demand for payment of claims under this part and shall provide the results of the assessment to the finance authority. Upon review of the results of the assessment, if the finance authority determines that it is prudent to do so, the finance authority may issue bonds or notes.

(2) The finance authority may authorize and issue its bonds or notes payable solely from the revenues or funds available to the fund under section 21508. Bonds or notes of the finance authority are not a debt or liability of the state, do not create or constitute any indebtedness, liability, or obligation of the state, and do not constitute a pledge of the faith and credit of the state. All finance authority bonds and notes are payable solely from revenues or funds pledged or available for their payment as authorized in this part. Each bond and note shall contain on its face a statement to the effect that the authority is obligated to pay the principal of and the interest on the bond or note only from revenues or from funds of the finance authority pledged for such payment and that the state is not obligated to pay that principal or interest and that neither the faith and credit nor the taxing power of the state is pledged to the payment of the principal of or the interest on the bond or note.

(3) All expenses incurred in implementing this part are payable solely from revenues or funds provided or to be provided under this part. This part does not authorize the finance authority to incur any indebtedness or liability on behalf of or payable by the state.
