388.1620 Foundation allowance; calculations; allocations; pupil membership factor, revenue adjustment factor, and index; reduced foundation allowance or per-pupil payment calculation; definitions.

Sec. 20. (1) For 2018-2019, both of the following apply:
(a) The basic foundation allowance is $8,409.00.
(b) The minimum foundation allowance is $7,871.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:
(a) Except as otherwise provided in this subdivision, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the minimum foundation allowance for the immediately preceding state fiscal year, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the difference between the basic foundation allowance for the current state fiscal year and basic foundation allowance for the immediately preceding state fiscal year minus $40.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year) divided by the difference between the basic foundation allowance for the current state fiscal year and the minimum foundation allowance for the immediately preceding state fiscal year.] However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.
(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2018-2019 in an amount equal to the basic foundation allowance for 2018-2019.
(c) For a district that had a foundation allowance for the immediately preceding state fiscal year that was greater than the basic foundation allowance for the immediately preceding state fiscal year, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.
(d) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.
(e) For a district that received a foundation allowance supplemental payment calculated under section 20m and paid under section 22b for 2017-2018, the district's 2017-2018 foundation allowance is considered to have been an amount equal to the sum of the district's actual 2017-2018 foundation allowance as otherwise calculated under this section plus the lesser of the per pupil amount of the district's supplemental payment for 2017-2018 as calculated under section 20m or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(4) Except as otherwise provided in this subsection, beginning in 2014-2015, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the local portion of the district's foundation allowance. For a district described in subsection (3)(c), beginning in 2014-2015, the state portion of the district's foundation allowance is an amount equal to $6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99,
minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection shall take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district in which the public school academy is located or the state maximum public school academy allocation, whichever is less. Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy that is a cyber school and is authorized by a school district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the foundation allowance of the district that authorized the public school academy or the state maximum public school academy allocation, whichever is less. However, a public school academy that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus $100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection shall take into account a district's per-pupil allocation under section 20m.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not
calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts and public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.
