*The People of the State of Michigan enact:*

### **388.1606 Additional definitions.**

Sec. 6. (1) “Center program” means a program operated by a district or intermediate district for special education pupils from several districts in programs for the autistically impaired, trainable mentally impaired, severely mentally impaired, severely multiply impaired, hearing impaired, physically and otherwise health impaired, and visually impaired. Programs for emotionally impaired pupils housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, title VI of Public Law 91-230, 20 U.S.C. 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District pupil retention rate” means the proportion of pupils who have not dropped out of school in the immediately preceding school year and is equal to 1 minus the quotient of the number of pupils unaccounted for in the immediately preceding school year, as determined pursuant to subsection (3), divided by the pupils of the immediately preceding school year.

(3) “District pupil retention report” means a report of the number of pupils, excluding migrant and adult, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into the district, transferred out of the district, transferred to alternative programs, and have graduated, to determine the number of pupils who are unaccounted for. The number of pupils unaccounted for shall be calculated as determined by the department.

(4) “Membership”, except as otherwise provided in this act, means for a district, public school academy, university school, or intermediate district the sum of the product of .8 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .2 times the final audited count from the supplemental count day for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil’s educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the

approval of the pupil's district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a vocational education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil's district of residence.

(g) A pupil enrolled in a university school shall be counted in membership in the university school.

(h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except a special education pupil who is enrolled and receiving instruction in a special education

program approved by the department and not having a high school diploma who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general education development (G.E.D.) certificate shall not be counted in membership. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the department of career development, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12.

(s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school

academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that expelled the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .8 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .2 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, the district's membership shall be considered

to be the membership figure calculated under this subdivision. However, beginning in 2003-2004, this subdivision applies only to districts located in the Lower Peninsula. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.

(5) "Public school academy" means a public school academy or strict discipline academy operating under the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence shall not be required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy or university school.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence but within the same intermediate district if the educating district enrolls nonresident pupils in accordance with section 105.

(f) A pupil enrolled in a district other than the pupil's district of residence if the pupil has been continuously enrolled in the educating district since a school year in which the pupil enrolled in the educating district under section 105 or 105c and in which the educating district enrolled nonresident pupils in accordance with section 105 or 105c.

(g) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the

assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(i) “At school” means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(ii) “Serious assault” means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90g, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(h) A pupil enrolled in a district located in a contiguous intermediate district, as described in section 105c, if the educating district enrolls those nonresident pupils in accordance with section 105c.

(i) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which he or she was enrolled as a resident on the pupil membership count day of the same school year.

(j) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(ii) The pupil had previously dropped out of school.

(iii) The pupil is pregnant or is a parent.

(iv) The pupil has been referred to the program by a court.

(k) A pupil enrolled in the Michigan virtual high school, for the pupil’s enrollment in the Michigan virtual high school.

However, if a district that is not a first class district educates pupils who reside in a first class district and if the primary instructional site for those pupils is located within the boundaries of the first class district, the educating district must have the approval of the first class district to count those pupils in membership. As used in this subsection, “first class district” means a district organized as a school district of the first class under the revised school code.

(7) “Pupil membership count day” of a district or intermediate district means:

(a) Except as provided in subdivision (b), the fourth Wednesday in September each school year.

(b) For a district or intermediate district maintaining school during the entire school year, the following days:

(i) Fourth Wednesday in July.

(ii) Fourth Wednesday in September.

(iii) Second Wednesday in February.

(iv) Fourth Wednesday in April.

(8) “Pupils in grades K to 12 actually enrolled and in regular daily attendance” means pupils in grades K to 12 in attendance and receiving instruction in all classes for which they are enrolled on the pupil membership count day or the supplemental count day, as applicable. A pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, shall not be counted as 1.0 full-time equated membership. In addition, a pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. Pupils not counted as 1.0 full-time equated membership due to an absence from a class shall be counted as a prorated membership for the classes the pupil attended. For purposes of this subsection, “class” means a period of time in 1 day when pupils and a certificated teacher or legally qualified substitute teacher are together and instruction is taking place.

(9) “Rule” means a rule promulgated pursuant to the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328.

(10) “The revised school code” means 1976 PA 451, MCL 380.1 to 380.1852.

(11) “School fiscal year” means a fiscal year that commences July 1 and continues through June 30.

(12) “State board” means the state board of education.

(13) “Superintendent”, unless the context clearly refers to a district or intermediate district superintendent, means the superintendent of public instruction described in section 3 of article VIII of the state constitution of 1963.

(14) “Supplemental count day” means the day on which the supplemental pupil count is conducted under section 6a.

(15) “Tuition pupil” means a pupil of school age attending school in a district other than the pupil’s district of residence for whom tuition may be charged. Tuition pupil does not include a pupil who is a special education pupil or a pupil described in subsection (6)(d) to (k). A pupil’s district of residence shall not require a high school tuition pupil, as provided under section 111, to attend another school district after the pupil has been assigned to a school district.

(16) “State school aid fund” means the state school aid fund established in section 11 of article IX of the state constitution of 1963.

(17) “Taxable value” means the taxable value of property as determined under section 27a of the general property tax act, 1893 PA 206, MCL 211.27a.

(18) “Total state aid” or “total state school aid” means the total combined amount of all funds due to a district, intermediate district, or other entity under all of the provisions of this act.

(19) “University school” means an instructional program operated by a public university under section 23 that meets the requirements of section 23.

### **388.1611 Appropriations.**

Sec. 11. (1) For the fiscal year ending September 30, 2002, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum

of \$10,990,148,200.00 from the state school aid fund established by section 11 of article IX of the state constitution of 1963 and the sum of \$198,413,500.00 from the general fund. For the fiscal year ending September 30, 2003, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$11,259,441,400.00 from the state school aid fund established by section 11 of article IX of the state constitution of 1963, the sum of \$198,413,500.00 from the general fund, and the sum of \$700,000.00 from local revenues. However, if legislation authorizing the transfer of \$79,500,000.00 from the Michigan employment security act contingent fund, penalties and interest subaccount, is not enacted and in effect on or before October 1, 2002, there is instead appropriated from the general fund for 2002-2003 the sum of \$122,656,500.00. For the fiscal year ending September 30, 2004, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$11,246,667,400.00 from the state school aid fund established by section 11 of article IX of the state constitution of 1963 and the sum of \$198,413,500.00 from the general fund. In addition, available federal funds are appropriated for each of those fiscal years.

(2) The appropriations under this section shall be allocated as provided in this act. Money appropriated under this section from the general fund and from available federal funds shall be expended to fund the purposes of this act before the expenditure of money appropriated under this section from the state school aid fund. If the maximum amount appropriated under this section from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall remain in the state school aid fund.

(3) If the maximum amount appropriated under this section and section 11f from the state school aid fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 22a, 31d, 51a(2), and 51c shall be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection. State payments under each of the other sections of this act from all state funding sources shall be prorated on an equal percentage basis as necessary to reflect the amount available for expenditure from the state school aid fund for that fiscal year. However, if the department of treasury determines that proration will be required under this subsection, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30 calendar day or 6 legislative session day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30 calendar day or 6 legislative session day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(4) Except for the allocation under section 26a, any general fund allocations under this act that are not expended by the end of the state fiscal year are transferred to the state school aid fund.

**388.1611f Payments to non-plaintiff districts pursuant to Durant v State of Michigan; payments for fiscal years ending September 30, 2002 through September 30, 2008; submission of waiver resolution; creation of obligation or liability; offer of settlement and compromise; payment date; use of payments; appropriation under § 18.1353e; form and substance of resolution.**

Sec. 11f. (1) In addition to any other money appropriated under this act, there is appropriated from the state school aid fund an amount not to exceed \$32,000,000.00 each fiscal year for the fiscal year ending September 30, 2002, for the fiscal year ending September 30, 2003, for the fiscal year ending September 30, 2004, and for each succeeding fiscal year through the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These appropriations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (8). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district

or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.

(7) The appropriations under this section are from the money appropriated and transferred to the state school aid fund from the countercyclical budget and economic stabilization fund under section 353e(2) and (3) of the management and budget act, 1984 PA 431, MCL 18.1353e.

(8) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

“Whereas, the board of \_\_\_\_\_ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of \_\_\_\_\_ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of \_\_\_\_\_ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of \_\_\_\_\_ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of \_\_\_\_\_ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979.”.

**388.1611g Payments to non-plaintiff districts pursuant to Durant v State of Michigan; payments for fiscal years ending September 30, 2002 through September 30, 2013; waiver resolution; offers of settlement and compromise; creation of obligation or liability; calculation of amount; payment date; use of funds.**

Sec. 11g. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed \$40,000,000.00 for the fiscal year ending September 30, 2002, for the fiscal year ending September 30, 2003, for the fiscal year ending September 30, 2004, and for each succeeding fiscal year through the fiscal year ending September 30, 2013. Payments under this section will cease after September 30, 2013. These appropriations are for paying the amounts described in subsection (3) to districts and intermediate districts, other than those receiving a lump sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.

(3) The amount paid each fiscal year to each district or intermediate district under this section shall be the sum of the following:

(a) 1/30 of the total amount listed in section 11h for the district or intermediate district.

(b) If the district or intermediate district borrows money and issues bonds under section 11i, an additional amount in each fiscal year calculated by the department of treasury that, when added to the amount described in subdivision (a), will cause the net present value as of November 15, 1998 of the total of the 15 annual payments made to the district or intermediate district under this section, discounted at a rate as determined by the state treasurer, to equal the amount of the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.

(4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds received under this section to pay debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:

(a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.

(b) Second, to pay debt service on other limited tax obligations.

(c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

(5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

### **388.1620 Foundation allowance per membership pupil; payments to districts, public school academies, and university schools; definitions.**

Sec. 20. (1) For 2001-2002, the basic foundation allowance is \$6,300.00 per membership pupil. For 2002-2003 and for 2003-2004, the basic foundation allowance is \$6,700.00 per membership pupil.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum

of the district's foundation allowance for the immediately preceding state fiscal year plus the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year in the basic foundation allowance. However, for 2002-2003, the foundation allowance for a district under this subdivision is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus \$200.00.

(b) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. For 2002-2003, for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of \$200.00 or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b.

(c) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(d) Beginning in 2002-2003, for a district that receives a payment under section 22c for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or \$6,500.00, whichever is less, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a homestead or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils. For a district described in subsection (3)(b), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a homestead or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980

PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur. The \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. However, for a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection shall take into account a district's per pupil allocation under section 20j(2).

(6) Subject to subsection (7) and section 22b(3) and except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy or a university school, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy or university school equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy or university school is located and the state portion of that district's foundation allowance, or the sum of the basic foundation allowance under subsection (1) plus \$500.00, whichever is less. However, beginning in 2002-2003, this \$500.00 amount shall instead be \$300.00. Notwithstanding section 101(2), for a public school academy that begins operations in 2001-2002, 2002-2003, or 2003-2004, as applicable, after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) If more than 25% of the pupils residing within a district are in membership in 1 or more public school academies located in the district, then the amount per membership pupil calculated under this section for a public school academy located in the district shall be reduced by an amount equal to the difference between the product of the taxable value per membership pupil of all property in the district that is not a homestead or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield

redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership excluding special education pupils, in the school fiscal year ending in the current state fiscal year, calculated as if the resident pupils in membership in 1 or more public school academies located in the district were in membership in the district. In order to receive state school aid under this act, a district described in this subsection shall pay to the authorizing body that is the fiscal agent for a public school academy located in the district for forwarding to the public school academy an amount equal to that local school operating revenue per membership pupil for each resident pupil in membership other than special education pupils in the public school academy, as determined by the department.

(8) If a district does not receive an amount calculated under subsection (9); if the number of mills the district may levy on a homestead and qualified agricultural property under section 1211(1) of the revised school code, MCL 380.1211, is 0.5 mills or less; and if the district elects not to levy those mills, the district instead shall receive a separate supplemental amount calculated under this subsection in an amount equal to the amount the district would have received had it levied those mills, as determined by the department of treasury. A district shall not receive a separate supplemental amount calculated under this subsection for a fiscal year unless in the calendar year ending in the fiscal year the district levies 18 mills or the number of mills of school operating taxes levied by the district in 1993, whichever is less, on property that is not a homestead or qualified agricultural property.

(9) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00 and that had fewer than 350 pupils in membership, if the district elects not to reduce the number of mills from which a homestead and qualified agricultural property are exempt and not to levy school operating taxes on a homestead and qualified agricultural property as provided in section 1211(1) of the revised school code, MCL 380.1211, and not to levy school operating taxes on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, there is calculated under this subsection for 1994-95 and each succeeding fiscal year a separate supplemental amount in an amount equal to the amount the district would have received per membership pupil had it levied school operating taxes on a homestead and qualified agricultural property at the rate authorized for the district under section 1211(1) of the revised school code, MCL 380.1211, and levied school operating taxes on all property at the rate authorized for the district under section 1211(2) of the revised school code, MCL 380.1211, as determined by the department of treasury. If in the calendar year ending in the fiscal year a district does not levy 18 mills or the number of mills of school operating taxes levied by the district in 1993, whichever is less, on property that is not a homestead or qualified agricultural property, the amount calculated under this subsection will be reduced by the same percentage as the millage actually levied compares to the 18 mills or the number of mills levied in 1993, whichever is less.

(10) For a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the lesser of an amount equal to the sum of the highest foundation allowance, as calculated under this section, among the original or affected districts plus \$50.00 or an amount equal to \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under this section for the current state fiscal year and \$5,000.00. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(11) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(12) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(13) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(14) If the principals at the revenue estimating conference reach a consensus on the index described in subsection (13)(c), the basic foundation allowance for the subsequent state fiscal year shall be at least the amount of that consensus index multiplied by the basic foundation allowance specified in subsection (1).

(15) If at the January revenue estimating conference it is estimated that pupil membership, excluding intermediate district membership, for the subsequent state fiscal year will be greater than 101% of the pupil membership, excluding intermediate district membership, for the current state fiscal year, then it is the intent of the legislature that the executive budget proposal for the school aid budget for the subsequent state fiscal year include a general fund/general purpose allocation sufficient to support the membership in excess of 101% of the current year pupil membership.

(16) For a district that had combined state and local revenue per membership pupil in the 1993-94 state fiscal year of more than \$6,500.00, that had fewer than 7 pupils in membership in the 1993-94 state fiscal year, that has at least 1 child educated in the district in the current state fiscal year, and that levies the number of mills of school operating taxes authorized for the district under section 1211 of the revised school code, MCL 380.1211, a minimum amount of combined state and local revenue shall be calculated for the district as provided under this subsection. The minimum amount of combined state and local revenue for 1999-2000 shall be \$67,000.00 plus the district's additional expenses to educate pupils in grades 9 to 12 educated in other districts as determined and allowed by the department. The minimum amount of combined state and local revenue under this subsection, before adding the additional expenses, shall increase each fiscal year by the same percentage increase as the percentage increase in the basic foundation allowance from the immediately preceding fiscal year to the current fiscal year. The state portion of the minimum amount of combined state and local revenue under this subsection shall be calculated by subtracting from the minimum amount of combined state and local revenue under this subsection the sum of the district's local school operating revenue and an amount equal to the product of the sum of the state portion of the district's foundation allowance plus the amount calculated under section 20j times the district's membership. As used in this subsection, "additional expenses" means the district's expenses for tuition or fees, not to exceed \$6,500.00 as adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, plus a room and board stipend not to exceed \$10.00 per school day for each pupil in grades 9 to 12 educated in another district, as approved by the department. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(17) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection.

(18) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00.

(19) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the district's membership for 2001-2002. A district qualifying for a foundation allowance adjustment under this section shall use the funds resulting from this adjustment for purposes allowable under former section 32e as in effect for 2001-2002.

(20) For a district that is a qualifying school district with a school reform board in place under part 5a of the revised school code, MCL 380.371 to 380.376, the district's foundation allowance for 2002-2003 shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of \$15,000,000.00 divided by the district's membership for 2002-2003. If a district ceases to meet the requirements of this subsection, the department shall adjust the district's foundation allowance in effect at that time based on a 2002-2003 foundation allowance for the district that does not include the 2002-2003 adjustment under this subsection.

(21) Payments to districts, university schools, or public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(22) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

(23) As used in this section:

**388.1622a Allocations for 2001-2002, 2002-2003, and 2003-2004; payments to districts, university schools, and public school academies; definitions.**

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$7,022,000,000.00 for 2001-2002 and an amount not to exceed \$6,953,000,000.00 each fiscal year for 2002-2003 and for 2003-2004 for payments to districts, qualifying university schools, and qualifying public school academies to guarantee each district, qualifying university school, and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the product of the taxable value per membership pupil of all property in the district that is not a homestead or qualified agricultural property times the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94 and the quotient of the ad valorem property tax revenue of the district captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under 1975 PA 197, MCL 125.1651 to 125.1681, the tax increment finance authority act, 1980 PA 450, MCL 125.1801 to 125.1830, the local development financing act, 1986 PA 281, MCL 125.2151 to 125.2174, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2672, divided by the district's membership.

(3) For pupils in membership in a qualifying public school academy or qualifying university school, there is allocated under this section each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy, or to the board of the public university operating the qualifying university school, an amount equal to the 1994-95 per pupil payment to the qualifying public school academy or qualifying university school under section 20.

(4) A district, qualifying university school, or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district, qualifying university school, or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

(b) "Current state fiscal year" means the state fiscal year for which a particular calculation is made.

(d) "Hold harmless millage" means, for a district with a 1994-95 foundation allowance greater than \$6,500.00, the number of mills by which the exemption from the levy of school operating taxes on a homestead and qualified agricultural property could be reduced as provided in section 1211(1) of the revised school code, MCL 380.1211, and the number of mills of school operating taxes that could be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, as certified by the department of treasury for the 1994 tax year.

(e) "Homestead" means that term as defined in section 1211 of the revised school code, MCL 380.1211.

(f) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(g) "Qualified agricultural property" means that term as defined in section 1211 of the revised school code, MCL 380.1211.

(h) "Qualifying public school academy" means a public school academy that was in operation in the 1994-95 school year and is in operation in the current state fiscal year.

(i) "Qualifying university school" means a university school that was in operation in the 1994-95 school year and is in operation in the current fiscal year.

(j) “School operating taxes” means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(k) “Taxable value per membership pupil” means each of the following divided by the district’s membership:

(i) For the number of mills by which the exemption from the levy of school operating taxes on a homestead and qualified agricultural property may be reduced as provided in section 1211(1) of the revised school code, MCL 380.1211, the taxable value of homestead and qualified agricultural property for the calendar year ending in the current state fiscal year.

(ii) For the number of mills of school operating taxes that may be levied on all property as provided in section 1211(2) of the revised school code, MCL 380.1211, the taxable value of all property for the calendar year ending in the current state fiscal year.

**388.1622b Allocations for 2001-2002, 2002-2003, and 2003-2004; discretionary nonmandated payments; administration of standardized assessment; payments for court costs; allegation of unfunded constitutional requirement; escrowed funds as work project; use; determination; review of claim by local claims review board; removal to court of appeals; payment provisions.**

Sec. 22b. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$2,368,000,000.00 for 2001-2002, an amount not to exceed \$2,883,500,000.00 for 2002-2003, and an amount not to exceed \$2,880,000,000.00 for 2003-2004 for discretionary nonmandated payments to districts under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) Subject to subsection (3), subsections (5) to (9), and section 11, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 20j, 51a(2), 51a(3), and 51a(12), minus the sum of the allocations to the district under sections 22a and 51c.

(3) In order to receive an allocation under this section, each district shall administer in each grade level that it operates in grades 1 to 5 a standardized assessment approved by the department of grade-appropriate basic educational skills. A district may use the Michigan literacy progress profile to satisfy this requirement for grades 1 to 3. Also, if the revised school code is amended to require annual assessments at additional grade levels, in order to receive an allocation under this section each district shall comply with that requirement.

(4) From the allocation in subsection (1), the department shall expend funds to pay for necessary costs associated with resolving matters pending in federal court impacting payments to districts, including, but not limited to, expert witness fees. Beginning in 2001-2002, from the allocation in subsection (1), the department shall also pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(5) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, and 51c. If a claim is made by an entity

receiving funds under this act that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project shall be completed upon resolution of the litigation.

(6) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (5) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(7) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals shall have and shall exercise jurisdiction over the claim.

(8) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(9) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX medicaid funds is filed against this state during 2001-2002, 2002-2003, or 2003-2004, 50% of the amount allocated in subsection (1) not previously paid out for 2002-2003 and each succeeding fiscal year is a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project shall be completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, chapter 531, 49 Stat. 620, 42 U.S.C. 1396 to 1396r-6 and 1396r-8 to 1396v.

### **388.1624 Allocations for 2001-2002, 2002-2003, and 2003-2004; payments for educating students assigned by court or family independence agency.**

Sec. 24. (1) Subject to subsection (2), from the appropriation in section 11, there is allocated each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 to the educating district or intermediate district an amount equal to 100% of the added cost each fiscal year for educating all pupils assigned by a court or the family independence agency to reside in or to attend a juvenile detention facility or child caring institution licensed by the family independence agency or the department of consumer and industry services and approved by the department to provide an on-grounds education program. The total amount to be paid under this section for added cost shall not exceed \$8,400,000.00 for 2001-2002 and \$8,900,000.00 each fiscal year for 2002-2003 and for 2003-2004. For the purposes of this

section, “added cost” shall be computed by deducting all other revenue received under this act for pupils described in this section from total costs, as approved by the department, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(2) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(3) Special education pupils funded under section 53a shall not be funded under this section.

### **388.1626a Reimbursements to districts, intermediate districts, and school aid fund pursuant to § 125.2692; adjustments.**

Sec. 26a. From the general fund appropriation in section 11, there is allocated an amount not to exceed \$8,800,000.00 for 2001-2002 and an amount not to exceed \$10,174,000.00 each fiscal year for 2002-2003 and for 2003-2004 to reimburse districts, intermediate districts, and the state school aid fund pursuant to section 12 of the Michigan renaissance zone act, 1996 PA 376, MCL 125.2692, for taxes levied in 2001, 2002, and 2003, respectively. This reimbursement shall be made by adjusting payments under section 22a to eligible districts, adjusting payments under section 56, 62, or 81 to eligible intermediate districts, and adjusting the state school aid fund. The adjustments shall be made not later than 60 days after the department of treasury certifies to the department and to the state budget director that the department of treasury has received all necessary information to properly determine the amounts due to each eligible recipient.

### **388.1631a Funding to eligible districts and public school academies; additional allowance; number of pupils meeting criteria for free breakfast, lunch, or milk; “at-risk pupil” defined.**

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2001-2002 an amount not to exceed \$314,200,000.00 and there is allocated each fiscal year for 2002-2003 and for 2003-2004 an amount not to exceed \$314,200,000.00 for payments to eligible districts and eligible public school academies under this section. Subject to subsection (11), the amount of the additional allowance under this section shall be based on the number of actual pupils in membership in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, chapter 281, 60 Stat. 230, 42 U.S.C. 1751 to 1753, 1755 to 1761, 1762a, 1765 to 1766a, 1769, 1769b to 1769c, and 1769f to 1769h, and reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year. However, for a public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act.

(2) To be eligible to receive funding under this section, other than funding under subsection (6), a district or public school academy that has not been previously determined to be eligible shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy must meet all of the following:

(a) The sum of the district's or public school academy's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), is less than or equal to \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current state fiscal year and \$5,000.00. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subdivision shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(b) The district or public school academy agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy shall receive under this section for each membership pupil in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or public school academy's per pupil amount calculated under section 20, plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current state fiscal year and \$5,000.00, or of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00. A public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5) or (6), and shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy under this section in the immediately preceding year and already being used by the district or public school academy for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may be conducted using a tutorial method, with paraprofessionals working under the supervision

of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, “to supplant another program” means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this section.

(5) A district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy receives funds under this section, necessary to operate the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2001-2002 an amount not to exceed \$2,400,000.00 to support teen health centers. These 2001-2002 funds shall be distributed to existing teen health centers in a manner determined by the department in collaboration with the department of community health. From the funds allocated under subsection (1), there is allocated each fiscal year for 2002-2003 and for 2003-2004 an amount not to exceed \$3,743,000.00 for competitive grants to support teen health centers. These grants for 2002-2003 and 2003-2004 shall be awarded in a form and manner approved jointly by the department and the department of community health. If any funds allocated under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (11) for that fiscal year.

(7) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(8) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department’s designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(9) Subject to subsections (5) and (6), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district’s aggregate percentage of those pupils. Subject to subsections (5) and (6), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district’s aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department

and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(10) A district or public school academy may use funds received under this section for adult high school completion, general education development (G.E.D.) test preparation, or adult basic education programs described in section 107.

(11) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(12) Funds allocated under this section that are unexpended and unencumbered at the end of the fiscal year for which they were allocated shall be carried forward and used in subsequent fiscal years to avoid or minimize any proration that would otherwise be required under subsection (11).

(13) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(14) A district or public school academy that does not meet the eligibility requirement under subsection (2)(a) is eligible for funding under this section if at least 1/4 of the pupils in membership in the district or public school academy met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), and at least 4,500 of the pupils in membership in the district or public school academy met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1). A district or public school academy that is eligible for funding under this section because the district meets the requirements of this subsection shall receive under this section for each membership pupil in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as determined and reported as described in subsection (1), an amount per pupil equal to 5.75% for 2001-2002 and 11.5% for 2002-2003 and subsequent fiscal years of the sum of the district's foundation allowance or public school academy's per pupil allocation under section 20, plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current state fiscal year and \$5,000.00. However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(15) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the

results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of moderate on the most recent MEAP reading test for which results for the pupil have been received, did not achieve at least a score of moderate on the most recent MEAP mathematics test for which results for the pupil have been received, or did not achieve at least a score of novice on the most recent MEAP science test for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language, communication skills, or mathematics.

Sec. 51a. (1) From the appropriation in section 11, there is allocated for 2001-2002 an amount not to exceed \$796,401,900.00 from state sources and all available federal funding under sections 611 to 619 of part B of the individuals with disabilities education act, title VI of Public Law 91-230, 20 U.S.C. 1411 to 1419, estimated at \$203,000,000.00, plus any carryover federal funds from previous year appropriations; and there is allocated each fiscal year for 2002-2003 and for 2003-2004 an amount not to exceed \$852,721,900.00 from state sources and all available federal funding, estimated at \$235,000,000.00 each fiscal year, plus any carryover federal funds from previous year appropriations. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1766; net tuition payments made by intermediate districts to the Michigan schools for the deaf and blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. All federal funds allocated under this section in excess of those allocated under this section for 2001-2002 may be distributed in accordance with 34 C.F.R. 300.234 and section 613(a)(2)(D) of part B of title VI of the individuals with disabilities education act, Public Law 91-230, 20 U.S.C. 1413. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 the amount necessary, estimated at \$139,200,000.00 for 2001-2002 and \$149,500,000.00 each fiscal year for 2002-2003 and for 2003-2004, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection shall be made as follows:

(a) The initial amount allocated to a district under this subsection toward fulfilling the specified percentages shall be calculated by multiplying the district's special education pupil membership, excluding pupils described in subsection (12), times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted

by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00, or, for a special education pupil in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (12), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00, and that district's per pupil allocation under section 20j(2). However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subdivision shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 the amount necessary, estimated at \$2,000,000.00 each fiscal year, to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations shall be made in a manner determined by the department and shall include adjustments for program shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 each fiscal year may be allocated by the department for 2001-2002, for 2002-2003, and for 2003-2004 to districts or intermediate districts on a competitive grant basis

for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, “net increase in necessary costs” means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of this article, all of the following apply:

(a) “Total approved costs of special education” shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Reimbursement for ancillary and other related services, as defined by R 340.1701 of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(8) From the allocation in subsection (1), there is allocated each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 an amount not to exceed \$15,313,900.00 each fiscal year to intermediate districts. The payment under this subsection to each intermediate district shall be equal to the amount of the 1996-97 allocation to the intermediate district under subsection (6) of this section as in effect for 1996-97.

(9) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(10) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(11) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(12) From the funds allocated in subsection (1), there is allocated each fiscal year for 2001-2002, for 2002-2003, and for 2003-2004 the amount necessary, estimated at \$7,200,000.00 each fiscal year, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence plus the amount of the district's per pupil allocation under section 20j(2), not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed \$6,500.00 adjusted by the dollar amount of the difference between the basic foundation allowance under section 20 for the current fiscal year and \$5,000.00, and that district's per pupil allocation under section 20j(2). However, beginning in 2002-2003, the \$6,500.00 amount prescribed in this subsection shall be adjusted each year by an amount equal to the dollar amount of the difference between the basic foundation allowance for the current state fiscal year and \$5,000.00, minus \$200.00. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Emotionally impaired pupils counted in membership by an intermediate district and provided educational services by the department of community health.

(13) After payments under subsections (2) and (12) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

(a) 100% of the reimbursement required under section 53a.

(b) 100% of the reimbursement required under subsection (6).

(c) 100% of the payment required under section 54.

(d) 100% of the payment required under subsection (3).

(e) 100% of the payment required under subsection (8).

(f) 100% of the payments under section 56.

(14) The allocations under subsection (2), subsection (3), and subsection (12) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

All of the following shall be represented on each education advisory group: workforce development board members, other employers, labor, districts, intermediate districts, postsecondary institutions, career/technical educators, parents of public school pupils, and academic educators. The submission to the department shall also include statements signed by the chair of the education advisory group and the chair of the workforce development board certifying that the plan has been reviewed by each entity. Upon department approval, all eligible education agencies designated in the regional career preparation plan as part of the career preparation delivery system are eligible for funding under this section.

(3) Funding under this section shall be distributed to eligible education agencies for allowable costs defined in this subsection and identified as necessary costs for implementing a regional career preparation plan, as follows:

(a) The department shall rank all career clusters, including career exploration, guidance, and counseling. Rank determination will be based on median salary data in career clusters and employment opportunity data provided by the council for career preparation standards. In addition, rank determination shall be based on placement data available for prior year graduates of the programs in the career clusters either in related careers or postsecondary education. The procedure for ranking of career clusters shall be determined by the department.

(b) Allowable costs to be funded under this section shall be determined by the department. Budgets submitted by eligible education agencies to the department in order to receive funding shall identify funds and in-kind contributions from the regional career education plan, excluding funds or in-kind contributions available as a result of funding received under section 61a, equal to at least 100% of anticipated funding under this section. (c) The department shall calculate career preparation costs per FTE for each career cluster, including career exploration, guidance, and counseling, by dividing the allowable costs for each career cluster by the prior year FTE enrollment for each career cluster. Distribution to eligible education agencies shall be the product of 50% of career preparation costs per FTE times the current year FTE enrollment of each career cluster. This allocation shall be distributed to eligible education agencies in decreasing order of the career cluster ranking described in subdivision (a) until the money allocated for grant recipients in this section is distributed. Beginning in 2001-2002, funds shall be distributed to eligible education agencies according to workforce development board geographic area

consistent with subsection (2)(a) based upon the proportion of each workforce development board area's K-12 public school membership to the total state K-12 public school membership.

(4) The department shall establish a review procedure for assessing the career preparation system in each region.

(5) An education advisory group is responsible for assuring the quality of the career preparation system. An education advisory group shall review the career preparation system in accordance with evaluation criteria established by the department.

The amount allocated to an intermediate district under this subsection for a fiscal year shall be deducted from the total allocation for that fiscal year under this section to the intermediate district that was the 1993-94 fiscal agent for the consortium.

(4) During a fiscal year, the department shall not increase an intermediate district's allocation under subsection (1) because of an adjustment made by the department during the fiscal year in the intermediate district's taxable value for a prior year. Instead, the department shall report the adjustment and the estimated amount of the increase to the house and senate fiscal agencies and the state budget director not later than June 1 of the fiscal year, and the legislature shall appropriate money for the adjustment in the next succeeding fiscal year.
