Within 72 hours after making an oral report by telephone to centralized intake, the reporting person shall file a written report as required in this act. If the immediate report has been made using the online reporting system and that report includes the information required in a written report under subsection (2), that report is considered a written report for the purposes of this section and no additional written report is required. If the reporting person is a member of the staff of a hospital, agency, or school, the reporting person shall notify the person in charge of the hospital, agency, or school of his or her finding and that the report has been made, and shall make a copy of the written or electronic report available to the person in charge. A notification to the person in charge of a hospital, agency, or school does not relieve the member of the staff of the hospital, agency, or school of the obligation of reporting to the department as required by this section. One report from a hospital, agency, or school is adequate to meet the reporting requirement. A member of the staff of a hospital, agency, or school shall not be dismissed or otherwise penalized for making a report required by this act or for cooperating in an investigation.

(b) A department employee who is 1 of the following and has reasonable cause to suspect child abuse or child neglect shall make a report of suspected child abuse or child neglect to the department in the same manner as required under subdivision (a):

(c) Any employee of an organization or entity that, as a result of federal funding statutes, regulations, or contracts, would be prohibited from reporting in the absence of a state mandate or court order. A person required to report under this subdivision shall report in the same manner as required under subdivision (a).

(2) The written report or a report made using the online reporting system must contain the name of the child and a description of the child abuse or child neglect. If possible, the report shall contain the names and addresses of the child's parents, the child's guardian, the persons with whom the child resides, and the child's age. The report shall contain other information available to the reporting person that might establish the cause of the child abuse or child neglect, and the manner in which the child abuse or child neglect occurred.

(3) The department shall inform the reporting person of the required contents of the written report at the time the oral report is made by the reporting person.

(4) The written report required in this section must be mailed or otherwise transmitted to centralized intake.

(5) Upon receipt of a written report of suspected child abuse or child neglect, the department may provide copies to the prosecuting attorney and the probate court of the counties in which the child suspected of being abused or neglected resides and is found.

(6) If an allegation, written report, or subsequent investigation of suspected child abuse or child neglect indicates a violation of section 136b, 145c, 462a to 462h, or 520b to 520g of the Michigan penal code, 1931 PA 328, MCL 750.136b, 750.145c, 750.462a to 750.462h, and 750.520b to 750.520g, or a violation of section 7401c of the public health code, 1978 PA 368, MCL 333.7401c, involving methamphetamine has occurred, or if the allegation, written report, or subsequent investigation indicates that the suspected child abuse or child neglect was committed by an individual who is not a person responsible for the child's health or welfare, including, but not limited to, a member of the clergy, a teacher, a teacher's aide, or an individual 18 years of age or older who is involved in a youth program, the department must transmit a copy of the allegation or written report and the results of any investigation to a law enforcement agency in the county in which the incident occurred. If an allegation, written report, or subsequent investigation indicates that the individual who committed the suspected child abuse or child neglect is a child care provider and the department believes that the report has basis in fact, the department shall, within 24 hours after completion of the allegation, written report, or subsequent investigation, transmit a copy of the written report or the results of the investigation to the child care regulatory agency with authority over the child care provider's child care organization or adult foster care location authorized to care for a child.

(7) If a local law enforcement agency receives an allegation or written report of suspected child abuse or child neglect or discovers evidence of or receives a report of an individual allowing a child to be exposed to or to have contact with methamphetamine production, and the allegation, written report, or subsequent investigation indicates that the child abuse or child neglect or allowing a child to be exposed to or to have contact with methamphetamine production, was committed by a person responsible for the child's health or welfare, the local law enforcement agency shall refer the allegation or provide a copy of the written report and the results of any investigation to the county department of the county in which the abused or neglected child is found, as required by subsection (1)(a). If an allegation, written report, or subsequent investigation indicates that the individual who committed the suspected child abuse or child neglect or allowed a child to be exposed to or to have contact with methamphetamine production, is a child care provider and the local law enforcement agency believes that the report has basis in fact, the local law enforcement agency shall transmit a copy of the written report or the results of the investigation to the child care regulatory agency with authority over the child care provider's child care organization or adult foster care location authorized to care for a child. Neither this subsection nor subsection (1) relieves the department of its responsibilities to investigate reports of suspected child abuse or child neglect under this act.

(8) For purposes of this act, the pregnancy of a child less than 12 years of age or the presence of a sexually transmitted infection in a child who is over 1 month of age but less than 12 years of age is reasonable cause to suspect child abuse or child neglect has occurred.

(9) In conducting an investigation of child abuse or child neglect, if the department suspects that a child has been exposed to or has had contact with methamphetamine production, the department shall immediately contact the law enforcement agency in the county in which the incident occurred.

The court shall uphold a decision to release or to deny release of specified information unless the court finds that the director's decision was an abuse of the director's discretion based upon the criteria for releasing or not releasing specified information prescribed by sections 7c to 7i.

(2) Proceedings on an appeal filed under this section are confidential, and any record of these proceedings shall not be released unless the court upholds a decision to release specified information or reverses the denial of a request for release. The court shall conduct its review so that a person whose request for specified information was denied does not have access to that specified information during the appeal proceedings.

History: Add. 1998, Act 428, Eff. Apr. 1, 1999.

722.627j Statewide electronic case management system; classification of confirmed cases; placement on central registry; motion for removal; notification; requirements; request for amendment of report; hearing; expungement; death of perpetrator; receipt of central registry placement confirmation; automated systems; search of children's protective services records.

Sec. 7j. (1) The department must maintain a statewide, electronic case management system to carry out the intent of this act. The department may enter into vendor contracts that it considers necessary and proper for implementation, review, and update of the electronic case management system. The department must solicit proposals from entities to provide the services necessary to implement, review, and update the electronic case management system.

(2) The department must classify a confirmed case of methamphetamine production, confirmed serious abuse or neglect, confirmed sexual abuse, or confirmed sexual exploitation, as a central registry case.

(3) In addition to a case classified under subsection (2), a court in this state entering an order of conviction for a violation of section 136b of the Michigan penal code, 1931 PA 328, MCL 750.136b, a conviction for a violation of chapter LXXVI of the Michigan penal code, 1931 PA 328, MCL 750.520a to 750.520o, involving a minor victim, a conviction for a violation of section 145c of the Michigan penal code, 1931 PA 328, MCL 750.145c, and any conviction involving the death of a child must request that the conviction be classified as a central registry case by the department. The department, with cooperation from the state court administrative office, must promulgate rules to regulate this referral process.

(4) At any time, an individual who has been placed on the central registry under subsection (3) may request, and the court shall request, an individual's name be removed from the central registry upon the individual prevailing in a motion to the convicting court for the following reasons:

(a) The individual was not convicted of an offense listed under this section.

(b) Demonstrating that the individual's conviction of the offense that caused the individual to be placed on the central registry has been expunged.

(5) Not more than once every 10 years after an individual has been placed on the central registry under subsection (3), the individual may make a motion to the convicting court to request removal from the central registry. In a hearing on this motion, the individual is presumed to be a risk to children, and the burden is on

the individual requesting to be removed from the central registry. If the individual demonstrates that the presumption is unreasonable, the court shall request that the department remove the individual from the central registry.

(6) Within 30 days after the classification of a central registry case, the department must notify in writing each person who is named in the record as a perpetrator of the confirmed serious abuse or neglect, confirmed sexual abuse, confirmed sexual exploitation, or confirmed case of methamphetamine production. The notice requirements include all of the following:

(a) The notice must be sent by registered or certified mail, return receipt requested, and delivery restricted to the addressee.

(b) The notice must set forth the person's right to request expunction of the record and the right to a hearing if the department refuses the request.

(c) The notice must state that the record may be released under section 7d.

(d) The notice must not identify the person reporting the suspected child abuse or child neglect.

(7) An individual who is the subject of a report or record made under this section may request the department amend an inaccurate report or record from the central registry and local office file. This subsection does not apply to an individual for which the court has entered an order of conviction described in subsection (3).

(8) If the department denies the request to amend a report, an individual who is the subject of a report or record made under this section may, within 180 days from the date of service of notice of the right to a hearing, request the department hold a hearing to review the request for amendment. This subsection does not apply to an individual for which the court has entered an order of conviction described in subsection (3).

(9) The department must hold a hearing to determine by a preponderance of the evidence whether the report or record in whole or in part meets the statutory requirement of confirmed serious abuse or neglect, confirmed sexual abuse, confirmed sexual exploitation, or confirmed case of methamphetamine production and should be amended or expunged from the central registry. The hearing must be held before an administrative law judge and must be conducted as prescribed by the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. The department may, for good cause, hold a hearing under this subsection if the department determines that the person who is the subject of the report or record submitted the request for a hearing within 60 days after the 180-day notice period expired. This subsection does not apply to an individual for which the court has entered an order of conviction described in subsection (3).

(10) If the investigation of a report conducted under this section does not show serious child abuse or child neglect, sexual abuse, sexual exploitation, or methamphetamine production by a preponderance of the evidence, or if a court dismisses a petition based on the merits of the petition filed under section 2(b) of chapter XIA of the probate code of 1939, 1939 PA 288, MCL 712A.2, because the petitioner has failed to establish, or a court has failed to find, that the child comes within the jurisdiction of the court following an adjudication hearing, the information identifying the subject of the report must be expunged from the central registry after a party has exhausted all appellate remedies and an appellate review does not find that the child is within the jurisdiction of the court. If a preponderance of evidence of child abuse or child neglect exists, or if a court takes jurisdiction of the child under section 2(b) of chapter XIA of the probate code of 1939, 1939 PA 288, MCL 712A.2, the department must maintain the information and must maintain the perpetrator's information in the central registry if the case is determined to be a confirmed case of methamphetamine production, confirmed serious abuse or neglect, confirmed sexual abuse, or confirmed sexual exploitation. This subsection does not apply to an individual for which the court has entered an order of conviction described in subsection (3).

(11) Except as otherwise provided in this section, the department must maintain the information in the central registry until the department receives reliable information that the perpetrator is dead. Not more than once every 10 years after an individual has been listed on the central registry, the individual may request a hearing regarding removal from the central registry. Except for confirmed sexual abuse or confirmed sexual exploitation, the department must hold a hearing to determine whether the information should be maintained on the central registry. The hearing must be held before an administrative law judge and must be conducted as prescribed by the administrative procedures act of 1969, 1969 PA 306, MCL 24.201 to 24.328. In this hearing, the individual is presumed to be a risk to children and the burden of proof is on the individual requesting to be removed from the central registry. If the individual demonstrates by a preponderance of the evidence that the presumption is unreasonable, then the information must be expunged from the central registry. The facts and circumstances as determined by the department or an administrative law judge on review of the department's decision that resulted in the individual originally being placed on the central registry are not subject to review. The administrative law judge shall take into account the facts and circumstances in the years since the individual was listed on the central registry that bear on the assessment of

the individual's risk to children in the future. For the purpose of this subsection, "reliable information" includes, but is not limited to, information obtained using the United States Social Security death index database. This subsection does not apply to an individual for which the court has entered an order of conviction described in subsection (3).

(12) Upon written request, the department may provide confirmation of central registry placement to an individual, office, or agency authorized to receive it.

(13) A person or the department may share the document provided in subsection (12) with whoever is appropriate for the purpose of seeking employment or serving as a volunteer if that employment or volunteer work will include contact with children.

(14) An individual or organization for whom a person is applying for employment, licensing for a child care organization, or to act as a volunteer, may, with appropriate authorization and identification, request and receive confirmation of central registry placement, if that employment or volunteer work includes contact with children.

(15) A parent or other person responsible for a child, who has reason to believe another caregiver may place that child at risk, may, with appropriate authorization and identification, receive confirmation of central registry placement of that parent, person responsible, or caregiver. This request must be made through the office of the friend of the court created in section 3 of the friend of the court act, 1982 PA 294, MCL 552.503.

(16) The department may develop an automated system that will allow a person applying for child-related employment or seeking to volunteer in a capacity that would allow unsupervised access to a child for whom the person is not a person responsible for that child's health or welfare to be listed in that system if a screening of the person finds that he or she has not been named in a central registry case as the perpetrator of a confirmed case of methamphetamine production, confirmed serious abuse or neglect, confirmed sexual abuse, or confirmed sexual exploitation. The automated system developed under this section must provide for public access to the list of persons who have been screened for the purposes of complying with this section. An automated system developed under this section must have appropriate safeguards and procedures to ensure that information that is confidential under this act, state law, or federal law is not accessible or disclosed through that system.

(17) An action taken to exclude an individual from licensure to provide foster care, child care, or camp services by the department of licensing and regulatory affairs or the division of child welfare licensing in the department, or a predecessor agency, in effect before the effective date of the amendatory act that added this subsection, must remain in effect according to its terms, except if an individual is successful in an administrative review or appeal of the exclusionary status in accord with section 9 of 1973 PA 116, MCL 722.119.

(18) In addition to the central registry clearance, the department must search children's protective services records to determine if an applicant or licensee, relative, adult member of the household, licensee designee, chief administrator, staff member, or unsupervised volunteer has a children's protective services history before making a licensing or placement determination, or provide clearance for staff employment or a volunteer in a child caring organization.

722.627k Death of child under court jurisdiction; notification to legislator and child advocate.

Sec. 7k. (1) If a child dies who is under the court's jurisdiction under section 2(b) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2, the department shall provide notification in writing or electronically not later than 1 business day to the court that had jurisdiction over the child under section 2(b) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2, at the time of the child's death, the state senator and state representative who represent the district in which that court is located, and the child advocate.

(2) The department shall notify the child advocate within 1 business day when a child dies and any of the following apply:

(a) The child died during an active child protective services investigation or an open child protective services case.

(b) The department received a prior child protective services complaint concerning the child's caretaker.

(c) The child's death may have resulted from child abuse or child neglect.

722.627l Statewide electronic case management system; administrative review for expungement.

Sec. 7l. (1) An individual who is listed on the central registry before the effective date of the amendatory act that added this section may submit a request to the department for an administrative review for the expungement of the individual's name from the statewide electronic case management system created under section 7j. Within 180 days of receipt of the request for an administrative review under this subsection, the department shall complete the review and notify the individual in writing of the final decision to expunge the individual from the central registry under the statewide electronic case management system created under section 7j or to classify the individual's case as a confirmed case of methamphetamine production, confirmed serious abuse or serious neglect, confirmed sexual abuse, or confirmed sexual exploitation and keep the individual on the central registry in the statewide electronic case management system.

(2) If the department's final decision after the administrative review under subsection (1) is to expunge the individual from the central registry under the statewide electronic case management system created under section 7j, then the department shall notify the director of the department responsible for the licensure of that individual or the director's designee within 45 days of the final decision.

History: Add. 2022, Act 72, Eff. Nov. 1, 2022.

722.628 Referring report or commencing investigation; informing parent or legal guardian of investigation; duties of department; assistance of and cooperation with law enforcement officials; procedures; procedures by prosecuting attorney; cooperation of school or other institution; information as to disposition of report; request to amend report; exception to reporting requirement; surrender of newborn; training of employees in rights of children and families; determination of open friend of the court case.

Sec. 8. (1) Within 24 hours after receiving a report made under this act, the department must refer the report to the prosecuting attorney and the local law enforcement agency if the report meets the requirements of subsection (3)(a), (b), or (c) or section 3(6) or (9) or must commence an investigation of the child suspected of being abused or neglected. Within 24 hours after receiving a report whether from the reporting person or from the department under subsection (3)(a), (b), or (c) or section 3(6) or (9), the local law enforcement agency must refer the report to the department if the report meets the requirements of section 3(7) or must commence an investigation of the child suspected of being abused or neglected or exposed to or who has had contact with methamphetamine production. If the child suspected of being abused or exposed to or who has had contact with methamphetamine production is not in the physical custody of the parent or legal guardian and informing the parent or legal guardian would not endanger the child's health or welfare, the local law enforcement agency or the department must inform the child's parent or legal guardian of the investigation as soon as the local law enforcement agency or the department discovers the identity of the child's parent or legal guardian.

(2) In the course of its investigation, the department must determine if the child is abused or neglected. The department must cooperate with law enforcement officials, courts of competent jurisdiction, and appropriate state agencies providing human services in relation to preventing, identifying, and treating child abuse and child neglect; must provide, enlist, and coordinate the necessary services, directly or through purchasing services from other agencies and professions; and must take necessary action to prevent further abuses, to safeguard and enhance the child's welfare, and to preserve family life where possible. In the course of an investigation, at the time that a department investigator contacts an individual about whom a report has been made under this act or contacts an individual responsible for the health or welfare of a child about whom a report has been made under this act, the department investigator must advise that individual of the department investigator's name, whom the department investigator represents, and the specific complaints or allegations made against the individual. The department must ensure that its policies, procedures, and administrative rules ensure compliance with this act.

(3) In conducting its investigation, the department must seek the assistance of and cooperate with law enforcement officials within 24 hours after becoming aware that 1 or more of the following conditions exist:

- (a) Child abuse or child neglect is the suspected cause of a child's death.
- (b) The child is the victim of suspected sexual abuse or sexual exploitation.
- (c) Child abuse or child neglect resulting in serious physical harm to the child.
- (d) Law enforcement intervention is necessary for the protection of the child, a department employee, or another person involved in the investigation.
- (e) The alleged perpetrator of the child's injury is not a person responsible for the child's health or welfare.
- (f) The child has been exposed to or had contact with methamphetamine production.

(4) Law enforcement officials must cooperate with the department in conducting investigations under subsections (1) and (3) and must comply with sections 5 and 7. The department and law enforcement officials

must conduct investigations in compliance with the protocols adopted and implemented as required by subsection (6).

(5) Involvement of law enforcement officials under this section does not relieve or prevent the department from proceeding with its investigation or treatment if there is reasonable cause to suspect that the child abuse or child neglect was committed by a person responsible for the child's health or welfare.

(6) In each county, the prosecuting attorney and the department must develop and establish procedures for involving law enforcement officials and children's advocacy centers, as appropriate, as provided in this section. In each county, the prosecuting attorney and the department must adopt and implement standard child abuse and child neglect investigation and interview protocols using as a model the protocols developed by the governor's task force on children's justice as published in FIA Publication 794 (revised 8-98) and FIA Publication 779 (8-98), or an updated version of those publications.

(7) If there is reasonable cause to suspect that a child in the care of or under the control of a public or private agency, institution, or facility is an abused or neglected child, the agency, institution, or facility must be investigated by an agency administratively independent of the agency, institution, or facility being investigated. If the investigation produces evidence of a violation of section 145c or sections 520b to 520g of the Michigan penal code, 1931 PA 328, MCL 750.145c and 750.520b to 750.520g, the investigating agency must transmit a copy of the results of the investigation to the prosecuting attorney of the county in which the agency, institution, or facility is located.

(8) A school or other institution must cooperate with the department during an investigation of a report of child abuse or child neglect. Cooperation includes allowing access to the child without parental consent if access is determined by the department to be necessary to complete the investigation or to prevent child abuse or child neglect of the child. The department must notify the person responsible for the child's health or welfare about the department's contact with the child at the time or as soon afterward as the person can be reached. The department may delay the notice if the notice would compromise the safety of the child or child's siblings or the integrity of the investigation, but only for the time 1 of those conditions exists.

(9) If the department has contact with a child in a school, all of the following apply:

(a) Before contact with the child, the department investigator must review with the designated school staff person the department's responsibilities under this act and the investigation procedure.

(b) After contact with the child, the department investigator must meet with the designated school staff person and the child about the response the department will take as a result of contact with the child. The department may also meet with the designated school staff person without the child present and share additional information the investigator determines may be shared subject to the confidentiality provisions of this act.

(c) Lack of cooperation by the school does not relieve or prevent the department from proceeding with its responsibilities under this act.

(10) A child must not be subjected to a search at a school that requires the child to remove his or her clothing to expose his buttocks or genitalia or her breasts, buttocks, or genitalia unless the department has obtained an order from a court of competent jurisdiction permitting that search. If the access occurs within a hospital, the investigation must be conducted so as not to interfere with the medical treatment of the child or other patients.

(11) The department must enter each report made under this act that is the subject of a field investigation into the electronic case management system. The department must maintain a report entered on the electronic case management system as required by this subsection until the child about whom the investigation is made is 18 years old or until 10 years after the investigation is commenced, whichever is later, or, if the case is classified as a central registry case, until the department receives reliable information that the perpetrator of the child abuse or child neglect is dead. Unless made public as specified information released under section 7d, a report that is maintained on the electronic case management system is confidential and is not subject to the disclosure requirements of the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(12) After completing a field investigation and based on its results, the department must determine in which single category, prescribed by section 8d, to classify the allegation of child abuse or child neglect and determine whether the child abuse or child neglect must be classified as a central registry case.

(13) A person who is the subject of a report or record made under this section in which the violation does not result in being placed on the central registry, but is categorized as a category I, II, or III case under section 8d, may request the department amend an inaccurate report or record from the local office file. Within 30 days after the classification of a confirmed case that does not result in being placed on the central registry, the department must notify in writing each person who is named in the report or record as a perpetrator of confirmed serious abuse or neglect. This notice requirement includes all the following:

(a) Must be sent by first-class mail to the identified perpetrator.

(b) Must set forth the person's right to request amendment of the record and the right to an administrative review conducted by the department.

(c) Must state that the record may be released under section 7d, and may impact future employment or licensing opportunities.

(d) Must not identify the person reporting the suspected child abuse or child neglect.

(14) The request described in subsection (13) must be made within 180 days after the date of service of notice of a confirmed serious abuse or neglect. The department may, for good cause, extend the time frame for the request after the 180-day notice if the department determines that the person who is the subject of the report or record submitted the request for an administrative review within 60 days after the 180-day notice period expired. The department must create an administrative process to determine whether the report or record should be amended.

(15) Except as provided in subsection (16), upon completion of the investigation by the local law enforcement agency or the department, the law enforcement agency or department may inform the person who made the report as to the disposition of the report.

(16) If the person who made the report is mandated to report under section 3, upon completion of the investigation by the department, the department must inform the person in writing as to the disposition of the case and must include in the information at least all of the following:

(a) What determination the department made under subsection (12) and the rationale for that decision.

(b) Whether legal action was commenced and, if so, the nature of that action.

(c) Notification that the information being conveyed is confidential.

(17) Information sent under subsection (16) must not include personally identifying information for a person named in a report or record made under this act.

(18) Unless section 5 of chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.5, requires a physician to report to the department, the surrender of a newborn in compliance with chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, is not reasonable cause to suspect child abuse or child neglect and is not subject to the section 3 reporting requirement. This subsection does not apply to circumstances that arise on or after the date that chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.1 to 712.20, is repealed. This subsection applies to a newborn whose birth is described in the born alive infant protection act, 2002 PA 687, MCL 333.1071 to 333.1073, and who is considered to be a newborn surrendered under the safe delivery of newborns law as provided in section 3 of chapter XII of the probate code of 1939, 1939 PA 288, MCL 712.3.

(19) All department employees involved in investigating child abuse or child neglect cases must be trained in the legal duties to protect the state and federal constitutional and statutory rights of children and families from the initial contact of an investigation through the time services are provided.

(20) The department must determine whether there is an open friend of the court case regarding a child who is suspected of being abused or neglected if a child protective services investigation of child abuse and child neglect allegations result in any of the following dispositions:

(a) A finding that a preponderance of evidence indicates that there has been child abuse or child neglect.

(b) Emergency removal of the child for child abuse or child neglect before the investigation is completed.

(c) The family court takes jurisdiction on a petition and a child is maintained in his or her own home under the supervision of the department.

(d) If 1 or more children residing in the home are removed and 1 or more children remain in the home.

(e) Any other circumstances that the department determines are applicable and related to child safety.

(21) If the department determines that there is an open friend of the court case and the provisions of subsection (20) apply, the department must notify the office of the friend of the court in the county in which the friend of the court case is open that there is an investigation being conducted under this act regarding that child and must also report to the local friend of the court office when there is a change in that child's placement.

(22) Child protective services may report to the local friend of the court office any situation in which a parent, more than 3 times within 1 year or on 5 cumulative reports over several years, made unfounded reports to child protective services regarding alleged child abuse or child neglect of his or her child.

(23) If the department determines that there is an open friend of the court case, the department must provide a noncustodial parent of a child who is suspected of being abused or neglected with the form developed by the department that has information on how to change a custody or parenting time court order.

722.628d Categories and departmental response.

Sec. 8d. (1) For the department's determination required by section 8, the categories, and the departmental response required for each category, are the following:

(a) Category V - services not needed. Following a field investigation, the department determines that there

is no evidence of child abuse or child neglect.

(b) Category IV - community services recommended. Following a field investigation, the department determines that there is not a preponderance of evidence of child abuse or child neglect, but the structured decision-making tool indicates that there is future risk of harm to the child. The department must assist the child's family in voluntarily participating in community-based services commensurate with the risk to the child.

(c) Category III - community services needed. The department determines that there is a preponderance of evidence of child abuse or child neglect, and the structured decision-making tool indicates a low or moderate risk of future harm to the child. The department must assist the child's family in receiving community-based services commensurate with the risk to the child. If the family does not voluntarily participate in services, or the family voluntarily participates in services, but does not progress toward alleviating the child's risk level, the department must consider reclassifying the case as category II.

(d) Category II - child protective services required. The department determines that there is evidence of child abuse or child neglect, and the structured decision-making tool indicates a high or intensive risk of future harm to the child. The department must open a protective services case and provide the services necessary under this act.

(e) Category I - court petition required. The department determines that there is evidence of child abuse or child neglect and 1 or more of the following are true:

(i) A court petition is required under another provision of this act.

(ii) The child is not safe and a petition for removal is needed.

(iii) The department previously classified the case as category II and the child's family does not voluntarily participate in services.

(iv) There is a violation, involving the child, of a crime listed or described in section 8a(1)(b), (c), (d), or (f) or of child abuse in the first or second degree as prescribed by section 136b of the Michigan penal code, 1931 PA 328, MCL 750.136b.

(2) In response to a category I classification, the department must do both of the following:

(a) If a court petition is not required under another provision of this act, submit a petition for authorization by the court under section 2(b) of chapter XIIA of the probate code of 1939, 1939 PA 288, MCL 712A.2.

(b) Open a protective services case and provide the services necessary under this act.

722.628e Investigation checklist.

Sec. 8e. (1) The department shall implement an investigation checklist to be used in each investigation of suspected abuse and neglect handled by the department.

(2) Subject to subsections (3) and (4), an investigation shall not be closed until the checklist described in subsection (1) is completed.

(3) A supervisor must review the completed checklist. If the supervisor determines that the investigation complies with the investigation checklist and with the following state laws and department policy, the investigation may be closed:

(a) Face-to-face contact was made with all alleged child victims.

(b) A petition was filed as required by sections 8d(1)(e), 17, and 18.

(c) A petition was filed when court intervention was needed to ensure child safety.

(d) Any other items that impact child safety and well-being that are specifically outlined in department policy to require the approvals outlined in subsection (4).

(4) If the supervisor determines that the investigation does not comply with the investigation checklist and the state laws and department policy outlined in subsection (3), the supervisor shall determine the reason the investigation checklist and state law or department policy outlined in subsection (3) were not followed. An investigation that falls under this subsection shall not be closed until after the local office director has reviewed the investigation.

(i) Total reports of abuse and neglect investigated under this act and the number that were confirmed and not confirmed.
