

Act No. 278
Public Acts of 1996
Approved by the Governor
June 15, 1996
Filed with the Secretary of State
June 17, 1996

**STATE OF MICHIGAN
88TH LEGISLATURE
REGULAR SESSION OF 1996**

Introduced by Senator McManus

ENROLLED SENATE BILL No. 878

AN ACT to amend section 41 of Act No. 300 of the Public Acts of 1980, entitled "An act to provide a retirement system for the public school employees of this state; to create certain funds for this retirement system; to provide for the creation of a retirement board within the department of management and budget; to prescribe the powers and duties of the retirement board; to prescribe the powers and duties of the department of management and budget; to prescribe penalties; and to repeal certain acts and parts of acts," as amended by Act No. 272 of the Public Acts of 1994, being section 38.1341 of the Michigan Compiled Laws.

The People of the State of Michigan enact:

Section 1. Section 41 of Act No. 300 of the Public Acts of 1980, as amended by Act No. 272 of the Public Acts of 1994, being section 38.1341 of the Michigan Compiled Laws, is amended to read as follows:

Sec. 41. (1) The annual level percentage of payroll contribution rate to finance benefits being provided and to be provided by the retirement system shall be determined by actuarial valuation pursuant to subsection (2) upon the basis of the risk assumptions that the retirement board and the department adopt after consultation with the state treasurer and an actuary. An annual actuarial valuation shall be made of the retirement system in order to determine the actuarial condition of the retirement system and the required contribution to the retirement system. An annual actuarial gain-loss experience study of the retirement system shall be made in order to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) The contribution rate for benefits payable in the event of the death of a member before retirement or the disability of a member shall be computed using a terminal funding method of valuation. Except as otherwise provided in this subsection, the contribution rate for other benefits shall be computed using an individual projected benefit entry age normal cost method of valuation. For the 1995-96 state fiscal year and for each subsequent fiscal year, the contribution rate for health benefits provided under section 91 shall be computed using a cash disbursement method. The contribution rate for service likely to be rendered in the current year, the normal cost contribution rate, shall be equal to the aggregate amount of individual projected benefit entry age normal costs divided by 1% of the aggregate amount of active members' valuation compensation. The contribution rate for unfunded service rendered before the valuation date, the unfunded actuarial accrued liability contribution rate, shall be the aggregate amount of unfunded actuarial accrued liabilities divided by 1% of the actuarial present value over a period not to exceed 50 years of projected valuation compensation, where unfunded actuarial accrued liabilities are equal to the actuarial present value of benefits, reduced by the actuarial present value of future normal cost contributions and the actuarial value of assets on the valuation date.

(3) Before November 1 of each year, the executive secretary of the retirement board shall certify to the director of the department the aggregate compensation estimated to be paid public school employees for the current state fiscal year.

(4) On the basis of the estimate under subsection (3), the annual actuarial valuation, and any adjustment required under subsection (6), the director of the department shall compute the sum due and payable to the retirement system and shall certify this amount to the reporting units.

(5) The reporting units shall make payment of the amount certified under subsection (4) to the director of the department in 12 equal monthly installments.

(6) Not later than 90 days after termination of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department and each reporting unit the actual aggregate compensation paid to public school employees during the preceding state fiscal year. Upon receipt of that certification, the director of the department shall compute any adjustment required to the amount due to a difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate. The difference, if any, shall be paid as provided in subsection (9).

(7) The director of the department may require evidence of correctness and may conduct an audit of the aggregate compensation that the director of the department considers necessary to establish its correctness.

(8) A reporting unit shall forward employee and employer social security contributions and reports as required by the federal old-age, survivors, disability, and hospital insurance provisions of title II of the social security act, chapter 531, 49 Stat. 620, 42 U.S.C. 401 to 405, 406 to 418, 420 to 423, 424a to 426-1, and 427 to 433.

(9) For an employer of an employee of a local public school district or an intermediate school district, for differences occurring in fiscal years beginning on or after October 1, 1993, a minimum of 20% of the difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in subsection (6), if any, shall be paid by that employer in the next succeeding state fiscal year and a minimum of 25% of the remaining difference shall be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. For an employer of other public school employees, for differences occurring in fiscal years beginning on or after October 1, 1991, a minimum of 20% of the difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in subsection (6), if any, shall be paid by that employer in the next succeeding state fiscal year and a minimum of 25% of the remaining difference shall be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. In addition, interest shall be included for each year that a portion of the remaining difference is carried forward. The interest rate shall equal the actuarially assumed rate of investment return for the state fiscal year in which payment is made.

This act is ordered to take immediate effect.

Secretary of the Senate.

Clerk of the House of Representatives.

Approved _____

Governor.
