

# SENATE BILL No. 878

February 22, 1996, Introduced by Senator MC MANUS and referred to the Committee on Appropriations.

A bill to amend section 41 of Act No. 300 of the Public Acts of 1980, entitled "The public school employees retirement act of 1979," as amended by Act No. 272 of the Public Acts of 1994, being section 38.1341 of the Michigan Compiled Laws.

## THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Section 1. Section 41 of Act No. 300 of the Public Acts of  
2 1980, as amended by Act No. 272 of the Public Acts of 1994, being  
3 section 38.1341 of the Michigan Compiled Laws, is amended to read  
4 as follows:

5 Sec. 41. (1) The annual level percentage of payroll contri-  
6 bution rate to finance benefits being provided and to be provided  
7 by the retirement system shall be determined by actuarial  
8 valuation pursuant to subsection (2) upon the basis of the risk  
9 assumptions that the retirement board and the department adopt

1 after consultation with the state treasurer and an actuary. An  
2 annual actuarial valuation shall be made of the retirement system  
3 in order to determine the actuarial condition of the retirement  
4 system and the required contribution to the retirement system.  
5 An annual actuarial gain-loss experience study of the retirement  
6 system shall be made in order to determine the financial effect  
7 of variations of actual retirement system experience from  
8 projected experience.

9 (2) The contribution rate for benefits payable in the event  
10 of the death of a member before retirement or the disability of a  
11 member shall be computed using a terminal funding method of  
12 valuation. Except as otherwise provided in this subsection, the  
13 contribution rate for other benefits ~~, including health~~  
14 ~~benefits,~~ shall be computed using an individual projected bene-  
15 fit entry age normal cost method of valuation. ~~For the 1994-95~~  
16 ~~state fiscal year, the~~ THE contribution rate for health benefits  
17 PROVIDED UNDER SECTION 91 shall be computed using a cash dis-  
18 bursement method. The contribution rate for service likely to be  
19 rendered in the current year, the normal cost contribution rate,  
20 shall be equal to the aggregate amount of individual projected  
21 benefit entry age normal costs divided by 1% of the aggregate  
22 amount of active members' valuation compensation. The contribu-  
23 tion rate for unfunded service rendered before the valuation  
24 date, the unfunded actuarial accrued liability contribution rate,  
25 shall be the aggregate amount of unfunded actuarial accrued  
26 liabilities divided by 1% of the actuarial present value over a  
27 period not to exceed 50 years of projected valuation

1 compensation, where unfunded actuarial accrued liabilities are  
2 equal to the actuarial present value of benefits, reduced by the  
3 actuarial present value of future normal cost contributions and  
4 the actuarial value of assets on the valuation date.

5 (3) Before November 1 of each year, the executive secretary  
6 of the retirement board shall certify to the director of the  
7 department the aggregate compensation estimated to be paid public  
8 school employees for the current state fiscal year.

9 (4) On the basis of the estimate under subsection (3), the  
10 annual actuarial valuation, and any adjustment required under  
11 subsection (6), the director of the department shall compute the  
12 sum due and payable to the retirement system and shall certify  
13 this amount to the reporting units.

14 (5) The reporting units shall make payment of the amount  
15 certified under subsection (4) to the director of the department  
16 in 12 equal monthly installments.

17 (6) Not later than 90 days after termination of each state  
18 fiscal year, the executive secretary of the retirement board  
19 shall certify to the director of the department and each report-  
20 ing unit the actual aggregate compensation paid to public school  
21 employees during the preceding state fiscal year. Upon receipt  
22 of that certification, the director of the department shall com-  
23 pute any adjustment required to the amount due to a difference  
24 between the estimated and the actual aggregate compensation and  
25 the estimated and the actual actuarial employer contribution  
26 rate. The difference, if any, shall be paid as provided in  
27 subsection (9).

1 (7) The director of the department may require evidence of  
2 correctness and may conduct an audit of the aggregate compensa-  
3 tion that the director of the department considers necessary to  
4 establish its correctness.

5 (8) A reporting unit shall forward employee and employer  
6 social security contributions and reports as required by the fed-  
7 eral old-age, survivors, disability, and hospital insurance pro-  
8 visions of title II of the social security act, chapter 531, 49  
9 Stat. 620, 42 U.S.C. 401 to 405, 406 to 418, 420 to 423, 424a to  
10 426-1, and 427 to 433.

11 (9) For an employer of an employee of a local public school  
12 district or an intermediate school district, for differences  
13 occurring in fiscal years beginning on or after October 1, ~~1994~~  
14 1993, a minimum of 20% of the difference between the estimated  
15 and the actual aggregate compensation and the estimated and the  
16 actual actuarial employer contribution rate described in  
17 subsection (6), if any, shall be paid by that employer in the  
18 next succeeding state fiscal year and a minimum of 25% of the  
19 remaining difference shall be paid by that employer in each of  
20 the following 4 state fiscal years, or until 100% of the remain-  
21 ing difference is submitted, whichever first occurs. For an  
22 employer of other public school employees, for differences occur-  
23 ring in fiscal years beginning on or after October 1, 1991, a  
24 minimum of 20% of the difference between the estimated and the  
25 actual aggregate compensation and the estimated and the actual  
26 actuarial employer contribution rate described in subsection (6),  
27 if any, shall be paid by that employer in the next succeeding

1 state fiscal year and a minimum of 25% of the remaining  
2 difference shall be paid by that employer in each of the follow-  
3 ing 4 state fiscal years, or until 100% of the remaining differ-  
4 ence is submitted, whichever first occurs. In addition, interest  
5 shall be included for each year that a portion of the remaining  
6 difference is carried forward. The interest rate shall equal the  
7 actuarially assumed rate of investment return for the state  
8 fiscal year in which payment is made. ~~This subsection does not~~  
9 ~~apply to differences occurring in fiscal years beginning after~~  
10 ~~September 30, 1996.~~
