Reverend Alfred Overstreet, founder of Al Overstreet Evangelistic Ministry, offered the following invocation:

“Precious God, our Father, we come before You this afternoon, first of all, to say thank You. Thank You, our Master, for waking us up this morning, clothed in our right minds, and a reasonable portion of our health and our strength. Again, honorable Father, You look beyond our faults and You see our needs, and You allow our golden moments to roll just a little while longer. We come now to say thank You. We come today, Lord, on behalf of these legislators. We ask, Lord, that Thou would go with them and stand by them. I pray, Father, that You would guide them and they would let You guide them in all of their activities today. Not only today, but in all, always. Strengthen them, Lord, where they are weak and build them up where they are torn down. Help them to carry out the business of the people of Michigan. Help them to represent these people, help them to do what is right and pleasing, first of all, in Your sight. Help them, Father, and give them the foresight to make the right laws that will govern this Michigan and that we can live peaceably and in pleasure with all mankind. Father, we realize that we need You and we cannot do anything without You. With You, and Your guidance, we can do all things, but without You we cannot do anything. Again, my Father, we ask that You would crown each one of their heads with wisdom and knowledge that they may do that which is right and pleasing in Your sight. In Jesus’ name we pray and ask the blessings. Amen.”

Pursuant to Joint Rule 20, the full title of the act shall read as follows:

“An act to protect the welfare of the people of this state; to provide general assistance, hospitalization, infirmary and medical care to poor or unfortunate persons; to provide for compliance by this state with the social security act; to provide protection, welfare and services to aged persons, dependent children, the blind, and the permanently and totally disabled; to administer programs and services for the prevention and treatment of delinquency, dependency and neglect of children; to create a state department of social services; to prescribe the powers and duties of the department; to provide for the interstate and intercounty transfer of dependents; to create county and district departments of social services; to create within certain county departments, bureaus of social aid and certain divisions and offices thereunder; to prescribe the powers and duties of the departments, bureaus and officers; to provide for appeals in certain cases; to prescribe the powers and duties of the state department with respect to county and district departments; to prescribe certain duties of certain other state departments, officers, and agencies; to make an appropriation; to prescribe penalties for the violation of the provisions of this act; and to repeal certain parts of this act on specific dates.”

The House agreed to the full title.

Rep. Rackowski moved that the bill be given immediate effect.

The motion prevailed, 2/3 of the members serving voting therefor.

Rep. Reeves, having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I oppose the physical and psychological marking of human beings which categorizes populations without their discretionary input.

Mandatory thumb printing is an open door to government authorized labeling.”

Rep. Gosselin, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I oppose this legislation because it deals with a matter of personal privacy which is not related to behavior.

A few weeks ago I voted ‘yes’ on legislation which would require welfare recipients to pass a drug test. That legislation dealt with illegal behavior, and it was proper for the state to require individuals partaking of public generosity to adhere to a standard of behavior demanded by taxpayers.

But this legislation deals with identity, and giving the state of potentially permanent record of an un-erasable identifying characteristic of anyone who chooses to accept the taxpayer’s generosity, even for a brief period. I believe this is excessive government control, and to me it has the connotation of ‘Big Brother’.”

Rep. Vaughn, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

Well folks here we go again! One more step towards, more big brother, big government and totalitarianism.

Oh yes this very expensive bill will probably be passed because the victims are poor, minority, women and probably don’t vote much or at all.

We’ve gone from school takeovers, drug testing for poor folks, the death penalty for poor folks and now you want to fingerprint them under the politically correct term, ‘finger imaging’.

I had a call today from Washington, D.C. The question to me was ‘Is the state of Michigan moving towards a Nazi state?’

My answer was ‘Yes unless good people stand firm and fight.’

I know some here will say, Oh, we’re nowhere near totalitarianism in the state of Michigan. I think we are in the danger zone.

I’m sure some corporate welfare recipient will profit from this bill. Finger image them! I’m sure you won’t—these are the fat cat welfare recipients. These welfare guys are all over the place—behind every bush in Michigan and throughout America.

Here’s a good example of corporate welfare recipients who were bailed out by American—including Michigan—taxpayers. Long term Credit Management Co. based in the Cayman Islands is a hedge fund. They funded themselves with 2½ billion dollars—then borrowed 125 billion dollars, hedged that 600 times and went belly up with the fall of the Russian economy. Guess what—Alan Greenspan bailed them out! And with your tax dollars. Finger image them!

I fully agree with the League of Women Voters of Michigan:

‘To subject these [welfare] applicants to fingerprinting for no obvious reason except the claim that many people are illegitimately receiving more than one check, when a Social Security number already provides a control in this regard, is the ultimate in self-defeating and punitive social welfare policy.’

There is no conclusive evidence in any state—New York included—that fingerprinting welfare recipients will make any measurable dent in welfare fraud.

Asking my colleagues to reject this anti-freedom measure is much like asking a bulldog to hug a hound!

But, who knows—hope springs eternal! Reject this bill—it’s anti American and anti all the talk about freedom, justice and equality! It’s just plain wrong!

Vote No!!

Thank you Mr. Speaker.”

Rep. Scott moved that Rep. Daniels be excused from the balance of today’s session.
The motion prevailed.

House Bill No. 4405, entitled

A bill to amend 1949 PA 300, entitled “Michigan vehicle code,” by amending sections 306, 308, 310e, and 320a (MCL 257.306, 257.308, 257.310e, and 257.320a), sections 306 and 308 as amended and section 310e as added by 1996 PA 387 and section 320a as amended by 1998 PA 350.

The bill was read a third time.

The question being on the passage of the bill,

Rep. Bovin moved to amend the bill as follows:

1. Amend page 12, following line 11, by inserting:

Rep. Cherry, having reserved the right to explain her protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

I am voting no on HB 4405 because removing the sunset date from this law says that my constituents will be forced to pay for driver's education without a review of the impact of the implementation. Previous to passage of the driver's education law, our taxes paid for this program. We have experienced a major cut in service to our constituents and we will no longer have the opportunity to evaluate this cut in service.”

Rep. Switalski, having reserved the right to explain his protest against the passage of the bill, made the following statement:

“Mr. Speaker and members of the House:

The legislature adopted a graduated, 3 tier drivers license/permit system which took effect in mid-1977. In order to monitor and evaluate the effects of this change, the legislature set a sunset provision on the legislation of April 2002. At the same time, the University of Michigan Transportation Research Institute began a 3-year study to evaluate this change.

After little more than 1 year of experience, and no data, this house is now rushing to eliminate the sunset provision. This body is saying, 'Don't confuse us with the facts.' The house is abrogating its oversight of the new Drivers License permit system.

There are legitimate questions regarding this change. Did the elimination of the public school mandate to provide drivers education amount to a tax increase? Has the new system reduced accidents? Should 14 year olds be permitted to drive? The house majority today showed a lack of interest in these issues."

House Resolution No. 77.

A resolution to urge state government agencies to use bio-based products as a source of oil and diesel fuel whenever possible.

Whereas, For many years, scientists and researchers in many fields have searched for clean, reliable, and renewable sources of energy. In spite of the recent abundance of traditional fossil fuels, finding and developing effective alternative fuels is vital to our nation's long-term best interests; and

Whereas, Bio-based oils and fuels are derived from oils and fats of plants and offer many advantages over fossil fuels we have used for vehicles, electric production, and small engine operation. Fuels derived from agricultural products are clean and renewable. These fuels burn without contributing carbon dioxide or sulfur to the atmosphere. Few modifications of any kind are needed to existing engines to use bio-based materials; and

Whereas, The costs of bio-based oils and fuels will likely drop dramatically when use increases. Currently, there are a variety of pilot or demonstration projects underway in certain communities across the country. The possible economic benefits of using this kind of fuel are enormous, particularly in replacing the purchase of foreign oil with greater utilization of the bounty of American farms; and

Whereas, Michigan has the opportunity to take a leadership role in embracing a change that may prove as significant as any technology in recent memory. Encouraging state departments to use bio-based oils and fuels is a good place to start; now, therefore, be it

Resolved by the House of Representatives, That we urge state government agencies to use bio-based products as a source of oil and diesel fuel whenever possible; and be it further

Resolved, That copies of this resolution be transmitted to the executive departments of state government.
