First Analysis (4-17-02)**

THE APPARENT PROBLEM:

The Revised Municipal Finance Act took effect March 1, 2002. It was created by Public Act 34 of 2001 (Senate Bill 29). Most of the old Municipal Finance Act was repealed on the same date. The new act will govern nearly all municipal borrowing and it puts in place, among other things, a new bond approval process whereby municipalities may qualify annually with the Department of Treasury and then may issue debt without prior departmental approval. The adoption of the new act, however, requires that a great many other statutes be amended as well. Generally speaking, borrowing by governmental units takes place under a general act, such as the Revised Municipal Finance Act, and a specific act authorizing a particular kind of entity to issue debt for particular purposes. There are perhaps as many as 170 bills needed to make all the various statutes on borrowing conform to the Revised Municipal Finance Act!
