The People of the State of Michigan enact:

Sec. 3a. (1) The use or consumption of the following is taxed under this act in the same manner as tangible personal property is taxed under this act:

(a) Except as provided in section 3b, intrastate telephone, telegraph, leased wire, and other similar communications, including local telephone exchange and long distance telephone service that both originates and terminates in Michigan, and telegraph, private line, and teletypewriter service between places in Michigan, but excluding telephone service by coin-operated installations, switchboards, concentrator-identifiers, interoffice circuitry and their accessories for telephone answering service, and directory advertising proceeds.

(b) Rooms or lodging furnished by hotelkeepers, motel operators, and other persons furnishing accommodations that are available to the public on the basis of a commercial and business enterprise, irrespective of whether or not membership is required for use of the accommodations, except rooms and lodging rented for a continuous period of more than 1 month. As used in this act, "hotel" or "motel" means a building or group of buildings in which the public may obtain accommodations for a consideration, including, without limitation, such establishments as inns, motels, tourist homes, tourist houses or courts, lodging houses, rooming houses, nudist camps, apartment hotels, resort lodges and cabins, camps operated by other than nonprofit organizations but not including those licensed under 1973 PA 116, MCL 722.111 to 722.128, and any other building or group of buildings in which accommodations are available to the public, except accommodations rented for a continuous period of more than 1 month and accommodations furnished by hospitals or nursing homes.

(c) Except as provided in section 3b, interstate telephone communications that either originate or terminate in this state and for which the charge for the service is billed to a Michigan service address or phone number by the provider either within or outside this state, including calls between this state and any place within or without the United States of America outside of this state. This subdivision does not apply to an 800 prefix service or similar type service. For customer bills rendered before January 1, 2006, this subdivision does not apply to a wide area telecommunication service or a similar type service, an interstate private network and related usage charges, or an international call either inbound or outbound. If section 35f of the single business tax act, 1975 PA 228, MCL 208.35f, is in effect, for customer bills rendered on or after January 1, 2006, a wide area telecommunication service or a similar type service, an interstate private network and related usage charges, or an international call either inbound or outbound is taxed under this act in the same manner as interstate telephone communications.

(2) If charges for intrastate telecommunications services or telecommunications services between this state and another state and other billed services not subject to the tax under this act are aggregated with and not separately stated from charges for telecommunications services that are subject to the tax under this act, the nontaxable telecommunications services and other nontaxable billed services are subject to the tax under this act unless the service provider can reasonably identify charges for telecommunications services not subject to the tax under this act from its books and records that are kept in the regular course of business.

(3) If charges for intrastate telecommunications services or telecommunications services between this state and another state and other billed services not subject to the tax under this act are aggregated with and not separately stated from telecommunications services that are subject to the tax under this act, a customer may not rely upon the nontaxability of those telecommunications services and other billed services unless the customer's service provider separately states the charges for nontaxable telecommunications services and other nontaxable billed services from taxable telecommunications services or the service provider elects, after receiving a written request from the customer in the form required by the provider, to provide verifiable data based upon the service provider's books and records that are kept in the regular course of business that reasonably identify the nontaxable services.
