Overview

The State Board of Education is an eight-member elected board constitutionally mandated to provide leadership and supervision for public education in Michigan. The Michigan Department of Education (MDE) is the administrative arm of the Board charged with implementing state and federal educational mandates and administering programs. Major responsibilities of the MDE include developing and overseeing the K-12 school system, certifying teachers, disbursing funds to educational organizations, and providing technical assistance to school districts.

Major Budget Changes From FY 2007-08 YTD Appropriations

1. Educational Assessment and Accountability

Executive and Senate increase funding by \$1.4 million and 13 FTEs as the Department assumes responsibility for certain educational assessment functions which are currently done under contract (test creation, psychometric analysis, and the operation of a testing item bank system), in order to avoid contract cost increases. Also provides \$117,200 and 1.0 FTE for additional English Language Proficiency Assessment staff and \$300,000 to support a best practices study for assessing students with disabilities. These costs are more than offset by eliminating \$4.0 million in funding for the data articulation system, eliminating \$455,000 for the longitudinal data system, and reducing administrative funding by \$292,100.
