

## **DTMB - State Facility Preservation Project Phase I and III, Group L Maxey Special Maintenance Projects**

### **House Concurrent Resolution 23 - As Introduced**

**Sponsor: Representative Kowall**

**Analysis Completed: May 10, 2011**

#### ***BRIEF SUMMARY:***

House Concurrent Resolution 23 would approve a lease between the state and the State Building Authority relative to the Department of Technology, Management, and Budget State Facility Preservation Project, Phase I and III, Group L Maxey Special Maintenance Projects. The project was approved for planning and construction by the Legislature at a total cost of \$7,543,000. Approval of the resolution would enable the SBA to issue bonds to finance the costs. The resolution would create a contractual obligation between the state and the SBA, requiring the state to make annual rent payments to the SBA. The SBA uses the rent payments to pay off the bonds sold to finance the construction. Once the debt obligations are satisfied, the SBA will transfer title back to the state.

This project involves installation of sprinklers and replacement of fire alarm systems and steam heat pipes at the Maxey complex.

#### ***FISCAL IMPACT:***

The total cost of the project is \$7,543,000. Annual rent payments to the SBA are estimated at \$597,000 to \$756,000 until the bonds are retired (approximately 15 to 17 years). The actual true market rent amount, within or below the respective range, will be determined when the project is completed and has been independently appraised. Annual rent payments to the SBA are appropriated in the General Government appropriations bill and total \$241.9 million for FY 2011.
