The bill also included intent language that GME funding in FY 2012-13 potentially be based on the report. (Sec. 1846)
9. **Intent Language on FY 2012-13 Appropriations.** The Conference included standard leadership boilerplate stating legislative intent that FY 2012-13 appropriations are anticipated to be the same as FY 2011-12 appropriations adjusted for caseloads, expenditure changes, Federal match rates, and available revenues.
