## ARTICLE I

### STATE AID TO PUBLIC SCHOOLS, EARLY CHILDHOOD, AND ADULT EDUCATION

Sec. 2. As used in this article and article IV, the words and phrases defined in sections 3 to 6 have the meanings ascribed to them in those sections.

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either shall serve all constituent districts within an intermediate district or shall serve several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 612 of part B of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, public school academy, university school, or intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day for the immediately preceding school year. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. For the purposes of this section and section 6a, for a school of excellence that is a cyber school, as defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil’s participation in the cyber school’s educational program is considered regular daily attendance. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, public school academy, university school, or intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil shall be counted in membership in the pupil’s educating district or districts. An individual pupil shall not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil’s district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil’s district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil’s district of residence to count the pupil in membership, the pupil shall not be counted in membership in any district.

(c) A special education pupil educated by the intermediate district shall be counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, shall be counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan schools for the deaf and blind shall be counted in membership in the pupil’s intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established pursuant to section 690 of the revised school code, MCL 380.690, shall be counted only in the pupil’s district of residence.

(g) A pupil enrolled in a university school shall be counted in membership in the university school.

(h) A pupil enrolled in a public school academy shall be counted in membership in the public school academy.

(i) For a new district, university school, or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation shall be determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership shall exclude from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) In a district, public school academy, university school, or intermediate district operating an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance on a pupil membership count day, shall be counted.

(l) Pupils to be counted in membership shall be not less than 5 years of age on December 1 and less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year shall be counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating homeless pupils and that is located in a city with a population of more than 500,000.

(B) Had dropped out of school for more than 1 year and has re-entered school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(m) An individual who has obtained a high school diploma shall not be counted in membership. An individual who has obtained a general educational development (G.E.D.) certificate shall not be counted in membership unless the individual is a student with a disability as defined in R 340.1702 of the Michigan administrative code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the Michigan strategic fund or the workforce development agency, or participating in any successor of either of those 2 programs, shall not be counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil shall be counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil shall be counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district shall be included in the full-time equated membership determination under subdivision (q). However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours specified in subdivision (q), the public school academy shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours specified in subdivision (q), the district or intermediate district providing the remainder of the hours of instruction shall receive as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours specified in subdivision (q) for full-time equivalency, and the remainder of the full-time membership for each of those pupils shall be allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program shall not be counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships shall be consistent with section 101(3). In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution, a pupil shall not be considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining

full-time equated memberships for pupils in grades 1 to 12. However, beginning in 2012-2013, full-time equated memberships for pupils in kindergarten shall be determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12.

(s) For a district, university school, or public school academy that has pupils enrolled in a grade level that was not offered by the district, university school, or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year, as determined by the department. Membership shall be calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours specified in subdivision (q) for full-time equivalency. For the purposes of this subdivision, a district shall be considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies, except computers, that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) A pupil enrolled in an alternative or disciplinary education program described in section 25 shall be counted in membership in the district or public school academy that is educating the pupil.

(w) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(x) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(y) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils and the district has 4.5 or fewer pupils per square mile, as determined by the department, and, beginning in 2007-2008, if the district does not receive funding under section 22d(2), the district's membership shall be considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(z) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district in which a former pupil of the public school academy enrolls and is in regular daily attendance for the next school year to ensure

that the district receives the same amount of membership aid for the pupil as if the pupil were counted in the district on the supplemental count day of the preceding school year.

(aa) Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan administrative code shall be determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for preprimary-aged special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 of the Michigan administrative code shall be determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(bb) A pupil of a district that begins its school year after Labor day who is enrolled in an intermediate district program that begins before Labor day shall not be considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor day.

(cc) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil was counted by the operating district on the immediately preceding supplemental count day, the pupil shall be excluded from the district's immediately preceding supplemental count for purposes of determining the district's membership.

(dd) A district that educates a pupil who attends a United States Olympic education center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(ee) A pupil enrolled in a district other than the pupil's district of residence pursuant to section 1148(2) of the revised school code, MCL 380.1148, shall be counted in the educating district.

(5) "Public school academy" means that term as defined in the revised school code.

(6) "Pupil" means a person in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades 1 to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of his or her instruction in a district other than the pupil's district of residence.

(d) A pupil enrolled in a district other than the pupil's district of residence under an intermediate district schools of choice pilot program as described in section 91a or former section 91 if the intermediate district and its constituent districts have been exempted from section 105.

(e) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(f) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. (h) A pupil enrolled in an alternative education program operated by a district other than his or her district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from his or her district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

(a) Except as provided in subdivision (b), the first Wednesday in October each school year or, for a district or building in which school is not in session on that Wednesday due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

A pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day shall not be counted as 1.0 full-time equated membership. In addition, a pupil who was enrolled and in attendance in a district, intermediate district, or public school academy before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day shall only be counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, or public school academy within 45 days after the pupil membership count day or supplemental count day of that particular year. Sec. 11. (1) Subject to subsection (3), for the fiscal year ending September 30, 2011, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$10,757,260,500.00 from the state school aid fund and the sum of \$18,642,400.00 from the general fund. For the fiscal year ending September 30, 2011, there is also appropriated the remaining balance of the federal funding awarded to this state under title XIV of the American recovery and reinvestment act of 2009, Public Law 111-5, estimated at \$184,256,600.00, to be used solely for the purpose of funding the primary funding formula calculated under section 20, in accordance with federal law. Subject to subsection (3), for the fiscal year ending September 30, 2012, there is appropriated for the public schools of this state and certain other state purposes relating to education the sum of \$10,887,098,700.00 from the state school aid fund and the sum of \$118,642,400.00 from the general fund. In addition, all other available federal funds, except those otherwise appropriated under section 11p, are appropriated for the fiscal year ending September 30, 2011 and for the fiscal year ending September 30, 2012.

(2) The appropriations under this section shall be allocated as provided in this article. Money appropriated under this section from the general fund shall be expended to fund the purposes of this article before the expenditure of money appropriated under this section from the state school aid fund.

(3) Any general fund allocations under this article that are not expended by the end of the state fiscal year are transferred to the school aid stabilization fund created under section 11a.

Sec. 11a. (1) The school aid stabilization fund is created as a separate account within the state school aid fund established by section 11 of article IX of the state constitution of 1963.

(2) The state treasurer may receive money or other assets from any source for deposit into the school aid stabilization fund. The state treasurer shall deposit into the school aid stabilization fund all of the following:

(a) Unexpended and unencumbered state school aid fund revenue for a fiscal year that remains in the state school aid fund as of the bookclosing for that fiscal year.

(b) Money statutorily dedicated to the school aid stabilization fund.

(c) Money appropriated to the school aid stabilization fund.

(3) Money available in the school aid stabilization fund may not be expended without a specific appropriation from the school aid stabilization fund. Money in the school aid stabilization fund shall be expended only for purposes for which state school aid fund money may be expended.

(4) The state treasurer shall direct the investment of the school aid stabilization fund. The state treasurer shall credit to the school aid stabilization fund interest and earnings from fund investments.

(5) Money in the school aid stabilization fund at the close of a fiscal year shall remain in the school aid stabilization fund and shall not lapse to the unreserved school aid fund balance or the general fund.

(6) If the maximum amount appropriated under section 11 from the state school aid fund for a fiscal year exceeds the amount available for expenditure from the state school aid fund for that fiscal year, there is appropriated from the school aid stabilization fund to the state school aid fund an amount equal to the projected shortfall as determined by the department of treasury, but not to exceed available money in the school aid stabilization fund. If the money in the school aid stabilization fund is insufficient to fully fund an amount equal to the projected shortfall, the state budget director

shall notify the legislature as required under section 11(3) and state payments in an amount equal to the remainder of the projected shortfall shall be prorated in the manner provided under section 11(4).

(7) For 2011-2012, in addition to the appropriations in section 11, there is appropriated from the school aid stabilization fund to the state school aid fund the amount necessary to fully fund the allocations under this article.

Sec. 11g. (1) From the appropriation in section 11, there is allocated for this section an amount not to exceed \$39,000,000.00 for the fiscal year ending September 30, 2012 and for each succeeding fiscal year through the fiscal year ending September 30, 2015, after which these payments will cease. These allocations are for paying the amounts described in subsection (3) to districts and intermediate districts, other than those receiving a lump-sum payment under section 11f(2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a waiver resolution described in section 11f. The amounts paid under this section represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this section.

(2) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in section 11f. This section and any other provision of this article are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district regarding these claims or potential claims.

(3) The amount paid each fiscal year to each district or intermediate district under this section shall be 1 of the following:

(a) If the district or intermediate district does not borrow money and issue bonds under section 11i, 1/30 of the total amount listed in section 11h for the district or intermediate district through the fiscal year ending September 30, 2013.

(b) If the district or intermediate district borrows money and issues bonds under section 11i, an amount in each fiscal year calculated by the department of treasury that is equal to the debt service amount in that fiscal year on the bonds issued by that district or intermediate district under section 11i and that will result in the total payments made to all districts and intermediate districts in each fiscal year under this section being no more than the amount appropriated under this section in each fiscal year.

(4) The entire amount of each payment under this section each fiscal year shall be paid on May 15 of the applicable fiscal year or on the next business day following that date. If a district or intermediate district borrows money and issues bonds under section 11i, the district or intermediate district shall use funds received under this section to pay debt service on bonds issued under section 11i. If a district or intermediate district does not borrow money and issue bonds under section 11i, the district or intermediate district shall use funds received under this section only for the following purposes, in the following order of priority:

(a) First, to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section.

(b) Second, to pay debt service on other limited tax obligations.

(c) Third, for deposit into a sinking fund established by the district or intermediate district under the revised school code.

(5) To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for debt service.

(6) A district or intermediate district may pledge or assign payments under this section as security for bonds issued under section 11i, but shall not otherwise pledge or assign payments under this section.

Sec. 11j. From the appropriation in section 11, there is allocated an amount not to exceed \$93,575,300.00 for 2011-2012 for payments to the school loan bond redemption fund in the department of treasury on behalf of districts and intermediate districts. Notwithstanding section 11 or any other provision of this act, funds allocated under this section are not subject to proration and shall be paid in full.

Sec. 11k. For 2011-2012, there is appropriated from the general fund to the school loan revolving fund an amount equal to the amount of school bond loans assigned to the Michigan finance authority, not to exceed the total amount of school bond loans held in reserve as long-term assets. As used in this section, "school loan revolving fund" means that fund created in section 16c of the shared credit rating act, 1985 PA 227, MCL 141.1066c.

Sec. 11m. From the appropriations in section 11, there is allocated for 2010-2011 an amount not to exceed \$15,000,000.00 and there is allocated for 2011-2012 an amount not to exceed \$20,000,000.00 for fiscal year cash-flow borrowing costs solely related to the state school aid fund established by section 11 of article IX of the state constitution of 1963.

Sec. 12. It is the intent of the legislature to appropriate and allocate for the fiscal year ending September 30, 2013 the same amounts of money from the same sources for the same purposes as are appropriated and allocated under this article for the fiscal year ending September 30, 2012, as adjusted for changes in pupil membership, taxable values, special education costs, and available revenue. These adjustments will be determined after the January 2012 consensus revenue estimating conference.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, affected payments shall be adjusted in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, shall be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment if the district would otherwise experience a significant hardship.

(3) If, because of the receipt of new or updated data, the department determines during a fiscal year that the amount paid to a district or intermediate district under this act for a prior fiscal year was incorrect under the law in effect for that year, the department may make the appropriate deduction or payment in the district's or intermediate district's allocation for the fiscal year in which the determination is made. The deduction or payment shall be calculated according to the law in effect in the fiscal year in which the improper amount was paid.

(4) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(5) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2011-2012 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

Sec. 18. (1) Except as provided in another section of this article, each district or other entity shall apply the money received by the district or entity under this article to salaries and other compensation of teachers and other employees, tuition, transportation, lighting, heating, ventilation, water service, the purchase of textbooks which are designated by the board to be used in the schools under the board's charge, other supplies, and any other school operating expenditures defined in section 7. However, not more than 20% of the total amount received by a district or intermediate district under this article may be transferred by the board to either the capital projects fund or to the debt retirement fund for debt service. The money shall not be applied or taken for a purpose other than as provided in this section. The department shall determine the reasonableness of expenditures and may withhold from a recipient of funds under this article the apportionment otherwise due upon a violation by the recipient.

(2) Within 30 days after a board adopts its annual operating budget for the following school fiscal year, or after a board adopts a subsequent revision to that budget, the district shall make all of the following available through a link on its website home page, or may make the information available through a link on its intermediate district's website home page, in a form and manner prescribed by the department:

(a) The annual operating budget and subsequent budget revisions.

(b) Using data that have already been collected and submitted to the department, a summary of district expenditures for the most recent fiscal year for which they are available, expressed in the following 2 pie charts:

(i) A chart of personnel expenditures, broken into the following subcategories:

(A) Salaries and wages.

(B) Employee benefit costs, including, but not limited to, medical, dental, vision, life, disability, and long-term care benefits.

(C) Retirement benefit costs.

(D) All other personnel costs.

(ii) A chart of all district expenditures, broken into the following subcategories:

(A) Instruction.

(B) Support services.

(C) Business and administration.

(D) Operations and maintenance.

(c) Links to all of the following:

(i) The current collective bargaining agreement for each bargaining unit.

(ii) Each health care benefits plan, including, but not limited to, medical, dental, vision, disability, long-term care, or any other type of benefits that would constitute health care services, offered to any bargaining unit or employee in the district.

(iii) The audit report of the audit conducted under subsection (4) for the most recent fiscal year for which it is available.

(iv) The bids required under section 5 of the public employee health benefits act, 2007 PA 106, MCL 124.75.

(d) The total salary and a description and cost of each fringe benefit included in the compensation package for the superintendent of the district and for each employee of the district whose salary exceeds \$100,000.00.

(e) The annual amount spent on dues paid to associations.

(f) The annual amount spent on lobbying or lobbying services. As used in this subdivision, "lobbying" means that term as defined in section 5 of 1978 PA 472, MCL 4.415.

(3) For the information required under subsection (2)(a), (2)(b)(i), and (2)(c), an intermediate district shall provide the same information in the same manner as required for a district under subsection (2).

(4) For the purpose of determining the reasonableness of expenditures and whether a violation of this article has occurred, all of the following apply:

(a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually at the expense of the district or intermediate district, as applicable, by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. The auditor must document compliance with the audit cycle in the pupil auditing manual. As used in this subdivision, "stable membership" means that the district's membership for the current fiscal year varies from the district's membership for the immediately preceding fiscal year by less than 5%.

(c) A district's or intermediate district's annual financial audit shall include an analysis of the financial and pupil accounting data used as the basis for distribution of state school aid.

(d) The pupil and financial accounting records and reports, audits, and management letters are subject to requirements established in the auditing and accounting manuals approved and published by the department.

(e) All of the following shall be done not later than November 15 each year:

(i) A district shall file the annual financial audit reports with the intermediate district and the department.

(ii) The intermediate district shall file the annual financial audit reports for the intermediate district with the department.

(iii) The intermediate district shall enter the pupil membership audit reports for its constituent districts and for the intermediate district, for the pupil membership count day and supplemental count day, in the Michigan student data system.

(f) The annual financial audit reports and pupil accounting procedures reports shall be available to the public in compliance with the freedom of information act, 1976 PA 442, MCL 15.231 to 15.246.

(g) Not later than January 31 of each year, the department shall notify the state budget director and the legislative appropriations subcommittees responsible for review of the school aid budget of districts and intermediate districts that have not filed an annual financial audit and pupil accounting procedures report required under this section for the school year ending in the immediately preceding fiscal year.

(5) By November 15 of each year, each district and intermediate district shall submit to the center, in a manner prescribed by the center, annual comprehensive financial data consistent with accounting manuals and charts of accounts approved and published by the department. For an intermediate district, the report shall also contain the website

address where the department can access the report required under section 620 of the revised school code, MCL 380.620. The department shall ensure that the prescribed Michigan public school accounting manual chart of accounts includes standard conventions to distinguish expenditures by allowable fund function and object. The functions shall include at minimum categories for instruction, pupil support, instructional staff support, general administration, school administration, business administration, transportation, facilities operation and maintenance, facilities acquisition, and debt service; and shall include object classifications of salary, benefits, including categories for active employee health expenditures, purchased services, supplies, capital outlay, and other. Districts shall report the required level of detail consistent with the manual as part of the comprehensive annual financial report.

(6) By September 30 of each year, each district and intermediate district shall file with the department the special education actual cost report, known as "SE-4096", on a form and in the manner prescribed by the department.

(7) By October 7 of each year, each district and intermediate district shall file with the center the transportation expenditure report, known as "SE-4094", on a form and in the manner prescribed by the center.

(8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), and (7), the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), and (7). If the district or intermediate district does not comply with subsections (4), (5), (6), and (7) by the end of the fiscal year, the district or intermediate district forfeits the amount withheld.

Sec. 20. (1) For 2011-2012, the basic foundation allowance is \$8,019.00.

(2) The amount of each district's foundation allowance shall be calculated as provided in this section, using a basic foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the amount of a district's foundation allowance shall be calculated as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the difference between twice the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance and [(the dollar amount of the adjustment from the immediately preceding state fiscal year to the current state fiscal year made in the basic foundation allowance minus \$20.00) times (the difference between the district's foundation allowance for the immediately preceding state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts) divided by the difference between the basic foundation allowance for the current state fiscal year and the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts]. For 2011-2012, for a district that had a foundation allowance for the immediately preceding state fiscal year that was at least equal to the sum of \$7,108.00 plus the total dollar amount of all adjustments made from 2006-2007 to the immediately preceding state fiscal year in the lowest foundation allowance among all districts, but less than the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00. However, the foundation allowance for a district that had less than the basic foundation allowance for the immediately preceding state fiscal year shall not exceed the basic foundation allowance for the current state fiscal year.

(b) Except as otherwise provided in this subsection, for a district that in the immediately preceding state fiscal year had a foundation allowance in an amount at least equal to the amount of the basic foundation allowance for the immediately preceding state fiscal year, the district shall receive a foundation allowance for 2011-2012 in an amount equal to the district's foundation allowance for 2010-2011, minus \$470.00.

(c) Except as otherwise provided in subdivision (d), for a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the sum of the district's foundation allowance for the immediately preceding state fiscal year plus the lesser of the increase in the basic foundation allowance for the current state fiscal year, as compared to the immediately preceding state fiscal year, or the product of the district's foundation allowance for the immediately preceding state fiscal year times the percentage increase in the United States consumer price index in the calendar year ending in the immediately preceding fiscal year as reported

by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. Except as otherwise provided in subdivision (d), for 2011-2012, for a district that in the 1994-1995 state fiscal year had a foundation allowance greater than \$6,500.00, the district's foundation allowance is an amount equal to the district's foundation allowance for the 2010-2011 fiscal year minus \$470.00.

(d) For a district that in the 1994-95 state fiscal year had a foundation allowance greater than \$6,500.00 and that had a foundation allowance for the 2009-2010 state fiscal year, as otherwise calculated under this section, that was less than the basic foundation allowance, the district's foundation allowance for 2011-2012 and each succeeding fiscal year shall be considered to be an amount equal to the basic foundation allowance.

(e) For a district that has a foundation allowance that is not a whole dollar amount, the district's foundation allowance shall be rounded up to the nearest whole dollar.

(f) For a district that received a payment under section 22c as that section was in effect for 2001-2002, the district's 2001-2002 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2001-2002 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2001-2002 under section 22c as that section was in effect for 2001-2002.

(g) For a district that received a payment under section 22c as that section was in effect for 2006-2007, the district's 2006-2007 foundation allowance shall be considered to have been an amount equal to the sum of the district's actual 2006-2007 foundation allowance as otherwise calculated under this section plus the per pupil amount of the district's equity payment for 2006-2007 under section 22c as that section was in effect for 2006-2007.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the basic foundation allowance for the current state fiscal year, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district described in subsection (3)(c), the state portion of the district's foundation allowance is an amount equal to \$6,962.00 plus the difference between the district's foundation allowance for the current state fiscal year and the district's foundation allowance for 1998-99, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(5) The allocation calculated under this section for a pupil shall be based on the foundation allowance of the pupil's district of residence. However, for a pupil enrolled in a district other than the pupil's district of residence, if the foundation allowance of the pupil's district of residence has been adjusted pursuant to subsection (15), the allocation calculated under this section shall not include the adjustment described in subsection (15). For a pupil enrolled pursuant to section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section shall be based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section shall be based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence.

(6) Subject to subsection (7) and except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy or a university school, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy or university school equal to the foundation allowance of the district in which the public school academy or university school is located or the state maximum public school academy allocation, whichever is less. However, a public school academy or university school that had an allocation under this subsection before 2009-2010 that was equal to the sum of the local school operating revenue per membership pupil other than special education pupils for the district in which the public school academy or university school is located and the state portion of that district's foundation allowance shall not have that allocation reduced as a result of the 2010 amendment to this subsection. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection shall be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation shall not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) If more than 25% of the pupils residing within a district are in membership in 1 or more public school academies located in the district, then the amount per membership pupil calculated under this section for a public school academy located in the district shall be reduced by an amount equal to the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership excluding special education pupils, in the school fiscal year ending in the current state fiscal year, calculated as if the resident pupils in membership in 1 or more public school academies located in the district were in membership in the district. In order to receive state school aid under this article, a district described in this subsection shall pay to the authorizing body that is the fiscal agent for a public school academy located in the district for forwarding to the public school academy an amount equal to that local school operating revenue per membership pupil for each resident pupil in membership other than special education pupils in the public school academy, as determined by the department.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts.

(9) Each fraction used in making calculations under this section shall be rounded to the fourth decimal place and the dollar amount of an increase in the basic foundation allowance shall be rounded to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a.

(11) To assist the legislature in determining the basic foundation allowance for the subsequent state fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, shall calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor shall be computed by dividing the estimated membership in the school year ending in the current state fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent state fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor shall be computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent state fiscal year plus the estimated total state school aid fund revenue for the current state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current state fiscal year plus the estimated total state school aid fund revenue for the immediately preceding state fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index shall be calculated by multiplying the pupil membership factor by the revenue adjustment factor. However, for 2011-2012, the index shall be 0.93575. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) If the principals at the revenue estimating conference reach a consensus on the index described in subsection (11)(c), the lowest foundation allowance among all districts for the subsequent state fiscal year shall be at least the amount of that consensus index multiplied by the lowest foundation allowance among all districts for the immediately preceding state fiscal year.

(13) For a district in which 7.75 mills levied in 1992 for school operating purposes in the 1992-93 school year were not renewed in 1993 for school operating purposes in the 1993-94 school year, the district's combined state and local revenue per membership pupil shall be recalculated as if that millage reduction did not occur and the district's foundation allowance shall be calculated as if its 1994-95 foundation allowance had been calculated using that recalculated 1993-94 combined state and local revenue per membership pupil as a base. A district is not entitled to any retroactive payments for fiscal years before 2000-2001 due to this subsection. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(14) For a district in which an industrial facilities exemption certificate that abated taxes on property with a state equalized valuation greater than the total state equalized valuation of the district at the time the certificate was issued or \$700,000,000.00, whichever is greater, was issued under 1974 PA 198, MCL 207.551 to 207.572, before the calculation of the district's 1994-95 foundation allowance, the district's foundation allowance for 2002-2003 is an amount equal to the sum of the district's foundation allowance for 2002-2003, as otherwise calculated under this section, plus \$250.00. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(15) For a district that received a grant under former section 32e for 2001-2002, the district's foundation allowance for 2002-2003 and each succeeding fiscal year shall be adjusted to be an amount equal to the sum of the district's foundation allowance, as otherwise calculated under this section, plus the quotient of 100% of the amount of the grant award to the district for 2001-2002 under former section 32e divided by the number of pupils in the district's membership for 2001-2002 who were residents of and enrolled in the district. Except as otherwise provided in this subsection, a district qualifying for a foundation allowance adjustment under this subsection shall use the funds resulting from this adjustment for at least 1 of grades K to 3 for purposes allowable under former section 32e as in effect for 2001-2002, and may also use these funds for an early intervening program described in subsection (20). For an individual school or schools operated by a district qualifying for a foundation allowance under this subsection that have been determined by the department to meet the adequate yearly progress standards of the federal no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district may submit to the department an application for flexibility in using the funds resulting from this adjustment that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to reduce class size, but that may be different from the purposes otherwise allowable under this subsection. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to reduce class size. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 68.5% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(16) For a district that levied 1.9 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$800,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(17) For a district that levied 2.23 mills in 1993 to finance an operating deficit, the district's foundation allowance shall be calculated as if those mills were included as operating mills in the calculation of the district's 1994-1995 foundation allowance. A district is not entitled to any retroactive payments for fiscal years before 2006-2007 due to this subsection. A district receiving an adjustment under this subsection shall not receive more than \$500,000.00 for a fiscal year as a result of this adjustment. A district receiving an adjustment under this subsection shall not receive as a result of this adjustment an amount that exceeds 50% of the amount the district received as a result of this adjustment for 2010-2011. This adjustment shall not be made after 2011-2012.

(18) Payments to districts, university schools, or public school academies shall not be made under this section. Rather, the calculations under this section shall be used to determine the amount of state payments under section 22b.

(19) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per pupil payment calculation under this section may be reduced.

Sec. 22a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$5,737,000,000.00 for 2010-2011 and an amount not to exceed \$5,691,000,000.00 for 2011-2012 for payments to districts, qualifying university schools, and qualifying public school academies to guarantee each district, qualifying university school, and qualifying public school academy an amount equal to its 1994-95 total state and local per pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c in order to fully fund those calculated allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the state portion of the district's foundation allowance shall be calculated as if that reduction did not occur.

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection shall be the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision shall be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount shall be an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there shall not be a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership.

(3) Beginning in 2003-2004, for pupils in membership in a qualifying public school academy or qualifying university school, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy, or to the board of the public university operating the qualifying university school, an amount equal to the 1994-95 per pupil payment to the qualifying public school academy or qualifying university school under section 20.

(4) A district, qualifying university school, or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district, qualifying university school, or qualifying public school academy otherwise would be eligible.

(5) For a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation shall be the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the state fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance shall be considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance.

(6) As used in this section:

(m) "Taxable value per membership pupil" means each of the following divided by the district's membership:

These funds shall be distributed in a form and manner determined by the department based on an equal dollar amount per the number of membership pupils used to calculate the final state aid payment of the immediately preceding fiscal year and shall be expended in a manner prescribed by federal law.

(3) Subject to subsection (4) and section 11, the allocation to a district under this section shall be an amount equal to the sum of the amounts calculated under sections 20, 51a(2), 51a(3), and 51a(12), minus the sum of the allocations to the district under sections 22a and 51c.

(4) In order to receive an allocation under subsection (1), each district shall do all of the following:

If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection shall be made in full before any proration of remaining payments under this section.

(8) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (3). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The spending plan shall be developed cooperatively by the intermediate superintendents of each intermediate district in which an eligible district is located. The intermediate superintendents shall review the financial situation of each eligible district, determine the minimum essential financial needs of each eligible district, and develop and agree on a spending plan that distributes the available funding under subsection (2) to the eligible districts based on those financial needs.

The intermediate superintendents shall submit the spending plan to the superintendent of public instruction for approval. Upon approval by the superintendent of public instruction, the amounts specified for each eligible district under the spending plan are allocated under subsection (2) and shall be paid to the eligible districts in the same manner as payments under section 22b.

- (d) The district has 500 or fewer pupils in membership.

(3) Subject to subsection (4), the amount of the additional funding to each eligible district under subsection (1) is the sum of the following and shall be paid to the eligible districts in the same manner as payments under section 22b:

(a) The product of the taxable value of the district's industrial personal property for the calendar year ending in the fiscal year multiplied by the total number of mills the district levies on nonexempt property under section 1211 of the revised school code, MCL 380.1211, for that calendar year.

(b) The product of the taxable value of the district's commercial personal property for the calendar year ending in the fiscal year multiplied by the lesser of 12 mills or the total number of mills the district levies on nonexempt property under section 1211 of the revised school code, MCL 380.1211, for that calendar year.

(4) The amount of the additional funding to an eligible district under subsection (1) for a fiscal year shall not exceed 15% of the total amount allocated under subsection (1) for that fiscal year.

(5) If the total amount of the payments calculated under subsection (3) for a fiscal year exceeds the allocation under subsection (1) for that fiscal year, the payment to each district under subsection (1) shall be prorated on an equal percentage basis.

Sec. 22f. (1) From the appropriation in section 11, there is allocated for 2011-2012 only an amount not to exceed \$154,000,000.00 to provide incentive payments to districts that meet financial best practices under this section. The money allocated in this section represents a portion of the year-end state school aid fund balance for 2010-2011. The amount of the incentive payment is an amount equal to \$100.00 per pupil. A district shall receive an incentive payment under this section if the district satisfies at least 4 of the following requirements not later than June 1, 2012:

(a) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district does not pay on behalf of any employee a total amount that is greater than the state maximum allowable employer contribution for health care services benefits, as described in subsection (3), depending on the coverage option.

(b) If a district provides medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit, to employees and their dependents, the district is the policyholder

for each of its insurance policies that covers 1 or more of these benefits. A district that does not directly employ its staff is considered to have satisfied this requirement.

(c) If a district did not enter into an agreement with the department to develop a service consolidation plan to reduce school operating costs under former section 11d as it was in effect for 2010-2011, the district enters into an agreement with the department to develop a service consolidation plan that is in compliance with department guidelines described in subsection (2). If a district entered into an agreement with the department to develop a service consolidation plan under former section 11d, the district continues to implement that plan and report to the department not later than February 1 of each fiscal year the district's progress in implementing that plan.

(d) The district has obtained competitive bids on the provision of pupil transportation, food service, custodial, or 1 or more other noninstructional services with a value of at least \$50,000.00.

(e) The district provides to parents and community members a dashboard or report card demonstrating the district's efforts to manage its finances responsibly. The dashboard or report card shall include at least all of the following for the 3 most recent school years for which the data are available:

(i) Graduation and dropout rates.

(ii) Average class size in grades kindergarten to 3.

(iii) College readiness as measured by Michigan merit examination test scores.

(iv) Elementary and middle school MEAP scores.

(v) Teacher, principal, and superintendent salary information including at least minimum, average, and maximum pay levels.

(vi) General fund balance.

(vii) The total number of days of instruction provided.

(2) The department shall maintain the guidelines for the service consolidation plans that were developed for former section 11d as it was in effect for 2010-2011. The guidelines may identify, but are not limited to, allowable cost-sharing arrangements for the provision of noninstructional and instructional services and the creation of joint operating agreements between and among districts, intermediate districts, and other units of local government. The department shall create benchmarks to measure success in implementing service consolidation plans, including, but not limited to, demonstrated cost reductions and efficiency. In determining eligibility for incentive payments, the department shall recognize service consolidation and cooperation and cost reductions already in effect as well as continued progress.

(3) For the purposes of this section, the state maximum allowable employer contribution on behalf of any employee is an amount equal to 90% of the combined total costs for the employee for the school fiscal year for medical, pharmacy, dental, vision, disability, long-term care, or any other type of benefit that would constitute a health care services benefit for each of the following coverage options:

(a) Employee only coverage.

(b) Employee and spouse coverage.

(c) Employee and children coverage.

(d) Full family coverage.

(4) A district that accepts funds allocated under this section acknowledges that the incentive payment under this section is for 2011-2012 only and that funds will not be appropriated for the purposes of this section for subsequent fiscal years.

(5) If the department determines that a district has intentionally submitted false information in order to qualify for an incentive payment under this section, the district forfeits an amount equal to the amount it received under this section from its total state school aid for 2012-2013.

Sec. 24. (1) From the appropriation in section 11, there is allocated for 2011-2012 an amount not to exceed \$8,000,000.00 for payments to the educating district or intermediate district for educating pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services and approved by the department to provide an on-grounds education program. The amount of the payment under this section to a district or intermediate district shall be calculated as prescribed under subsection (2).

(2) The total amount allocated under this section shall be allocated by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per pupil allocation for the district or intermediate district. For the purposes of this subsection:

(a) "Added cost" means 100% of the added cost each fiscal year for educating all pupils assigned by a court or the department of human services to reside in or to attend a juvenile detention facility or child caring institution licensed by the department of human services or the department of licensing and regulatory affairs and approved by the department to provide an on-grounds education program. Added cost shall be computed by deducting all other revenue

received under this act for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per pupil allocation" for a district or intermediate district shall be determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds educational program for those pupils that is longer than 181 days, but not longer than 233 days, if the child caring institution was licensed as a child caring institution and offered in 1991-92 an on-grounds educational program that was longer than 181 days but not longer than 233 days and that was operated by a district or intermediate district.

(4) Special education pupils funded under section 53a shall not be funded under this section.

Sec. 24a. From the appropriation in section 11, there is allocated an amount not to exceed \$1,197,500.00 for 2011-2012 for payments to intermediate districts for pupils who are placed in juvenile justice service facilities operated by the department of human services. Each intermediate district shall receive an amount equal to the state share of those costs that are clearly and directly attributable to the educational programs for pupils placed in facilities described in this section that are located within the intermediate district's boundaries. The intermediate districts receiving payments under this section shall cooperate with the department of human services to ensure that all funding allocated under this section is utilized by the intermediate district and department of human services for educational programs for pupils described in this section. Pupils described in this section are not eligible to be funded under section 24. However, a program responsibility or other fiscal responsibility associated with these pupils shall not be transferred from the department of human services to a district or intermediate district unless the district or intermediate district consents to the transfer.

Sec. 24c. From the appropriation in section 11, there is allocated an amount not to exceed \$742,300.00 for 2011-2012 for payments to districts for pupils who are enrolled in a nationally administered community-based education and youth mentoring program, known as the youth challenge program, that is located within the district and is administered by the department of military and veterans affairs. Both of the following apply to a district receiving payments under this section:

(a) The district shall contract with the department of military and veterans affairs to ensure that all funding allocated under this section is utilized by the district and the department of military and veterans affairs for the youth challenge program.

(b) The district may retain for its administrative expenses an amount not to exceed 3% of the amount of the payment the district receives under this section.

Sec. 26a. From the state school aid fund appropriation in section 11, there is allocated an amount not to exceed \$26,300,000.00 for 2011-2012 to reimburse districts and intermediate districts pursuant to section 12 of the Michigan renaissance zone act, 1996 PA 376, MCL 125.2692, for taxes levied in 2011. The allocations shall be made not later than 60 days after the department of treasury certifies to the department and to the state budget director that the department of treasury has received all necessary information to properly determine the amounts due to each eligible recipient.

Sec. 26b. (1) From the appropriation in section 11, there is allocated for 2011-2012 an amount not to exceed \$2,890,000.00 for payments to districts, intermediate districts, and community college districts for the portion of the payment in lieu of taxes obligation that is attributable to districts, intermediate districts, and community college districts pursuant to section 2154 of the natural resources and environmental protection act, 1994 PA 451, MCL 324.2154.

(2) If the amount appropriated under this section is not sufficient to fully pay obligations under this section, payments shall be prorated on an equal basis among all eligible districts, intermediate districts, and community college districts.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2011-2012 an amount not to exceed \$317,695,500.00 for payments to eligible districts and eligible public school academies under this section. Subject to subsection (14), the amount of the additional allowance under this section, other than funding under subsection (6) or (7), shall be based on the number of actual pupils in membership in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, and reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year in the form and manner prescribed by the center. However, for a public school

academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year, the basis for the additional allowance under this section shall be the number of actual pupils in membership in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk in the current state fiscal year, as determined under the Richard B. Russell national school lunch act.

(2) To be eligible to receive funding under this section, other than funding under subsection (6) or (7), a district or public school academy that has not been previously determined to be eligible shall apply to the department, in a form and manner prescribed by the department, and a district or public school academy must meet all of the following:

(a) The sum of the district's or public school academy's combined state and local revenue per membership pupil in the current state fiscal year, as calculated under section 20, is less than or equal to the basic foundation allowance under section 20 for the current state fiscal year.

(b) The district or public school academy agrees to use the funding only for purposes allowed under this section and to comply with the program and accountability requirements under this section.

(3) Except as otherwise provided in this subsection, an eligible district or eligible public school academy shall receive under this section for each membership pupil in the district or public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the immediately preceding fiscal year and adjusted not later than December 31 of the immediately preceding fiscal year, an amount per pupil equal to 11.5% of the sum of the district's foundation allowance or public school academy's per pupil amount calculated under section 20, not to exceed the basic foundation allowance under section 20 for the current state fiscal year, or of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year. A public school academy that began operations as a public school academy after the pupil membership count day of the immediately preceding school year shall receive under this section for each membership pupil in the public school academy who met the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act and as reported to the department by October 31 of the current fiscal year and adjusted not later than December 31 of the current fiscal year, an amount per pupil equal to 11.5% of the public school academy's per membership pupil amount calculated under section 20 for the current state fiscal year.

(4) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (5), (6), or (7). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding state fiscal year, as determined and reported as described in subsection (1), may use not more than 20% of the funds it receives under this section for school security. A district or public school academy shall not use any of that money for administrative costs or to supplant another program or other funds, except for funds allocated to the district or public school academy under this section in the immediately preceding year and already being used by the district or public school academy for at-risk pupils. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year and may include, but are not limited to, tutorial services, early childhood programs to serve children age 0 to 5, and reading programs as described in former section 32f as in effect for 2001-2002. A tutorial method may be conducted with paraprofessionals working under the supervision of a certificated teacher. The ratio of pupils to paraprofessionals shall be between 10:1 and 15:1. Only 1 certificated teacher is required to supervise instruction using a tutorial method. As used in this subsection, "to supplant another program" means to take the place of a previously existing instructional program or direct noninstructional services funded from a funding source other than funding under this section.

(5) Except as otherwise provided in subsection (12), a district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(6) From the funds allocated under subsection (1), there is allocated for 2011-2012 an amount not to exceed \$3,557,300.00 to support child and adolescent health centers. These grants shall be awarded for 5 consecutive years beginning with 2003-2004 in a form and manner approved jointly by the department and the department of community health. Each grant recipient shall remain in compliance with the terms of the grant award or shall forfeit the grant award for the duration of the 5-year period after the noncompliance. To continue to receive funding for a child and adolescent health center under this section a grant recipient shall ensure that the child and adolescent health center has an advisory committee and that at least one-third of the members of the advisory committee are parents or legal guardians of school-aged children. A child and adolescent health center program shall recognize the role of a child's parents or legal guardian in the physical and emotional well-being of the child. Funding under this subsection shall be used to support child and adolescent health center services provided to children up to age 21. If any funds allocated

under this subsection are not used for the purposes of this subsection for the fiscal year in which they are allocated, those unused funds shall be used that fiscal year to avoid or minimize any proration that would otherwise be required under subsection (14) for that fiscal year.

(7) From the funds allocated under subsection (1), there is allocated for 2011-2012 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in section 9301 of the public health code, 1978 PA 368, MCL 333.9301. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the screenings shall be as required under R 325.13091 to R 325.13096 and R 325.3271 to R 325.3276 of the Michigan administrative code. Funds shall be awarded in a form and manner approved jointly by the department and the department of community health. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule determined by the department.

(8) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district or public school academy of funds under this section, which report shall include at least a brief description of each program conducted by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs, the number of at-risk pupils eligible for free or reduced price school lunch who were served by each of those programs, and the total number of at-risk pupils served by each of those programs. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the state fiscal year, the withheld funds shall be forfeited to the school aid fund.

(9) In order to receive funds under this section, a district or public school academy shall allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(10) Subject to subsections (5), (6), (7), (12), and (13), any district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) exceeds the district's aggregate percentage of those pupils. Subject to subsections (5), (6), (7), (12), and (13), if a district obtains a waiver from the department, the district may use up to 100% of the funds it receives under this section to reduce the ratio of pupils to teachers in grades K-6, or any combination of those grades, in school buildings in which the percentage of pupils described in subsection (1) is at least 60% of the district's aggregate percentage of those pupils and at least 30% of the total number of pupils enrolled in the school building. To obtain a waiver, a district must apply to the department and demonstrate to the satisfaction of the department that the class size reductions would be in the best interests of the district's at-risk pupils.

(11) A district or public school academy may use funds received under this section for adult high school completion, general educational development (G.E.D.) test preparation, adult English as a second language, or adult basic education programs described in section 107.

(12) For an individual school or schools operated by a district or public school academy receiving funds under this section that have been determined by the department to meet the adequate yearly progress standards of the no child left behind act of 2001, Public Law 107-110, in both mathematics and English language arts at all applicable grade levels for all applicable subgroups, the district or public school academy may submit to the department an application for flexibility in using the funds received under this section that are attributable to the pupils in the school or schools. The application shall identify the affected school or schools and the affected funds and shall contain a plan for using the funds for specific purposes identified by the district that are designed to benefit at-risk pupils in the school, but that may be different from the purposes otherwise allowable under this section. The department shall approve the application if the department determines that the purposes identified in the plan are reasonably designed to benefit at-risk pupils in the school. If the department does not act to approve or disapprove an application within 30 days after it is submitted to the department, the application is considered to be approved. If an application for flexibility in using the funds is approved, the district may use the funds identified in the application for any purpose identified in the plan.

(13) A district or public school academy that receives funds under this section may use funds it receives under this section to implement and operate an early intervening program for pupils in grades K to 3 that meets either or both of the following:

(a) Monitors individual pupil learning and provides specific support or learning strategies to pupils as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Provides early intervening strategies using school-wide systems of academic and behavioral supports and is scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based

upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

(14) If necessary, and before any proration required under section 11, the department shall prorate payments under this section by reducing the amount of the per pupil payment under this section by a dollar amount calculated by determining the amount by which the amount necessary to fully fund the requirements of this section exceeds the maximum amount allocated under this section and then dividing that amount by the total statewide number of pupils who met the income eligibility criteria for free breakfast, lunch, or milk in the immediately preceding fiscal year, as described in subsection (1).

(15) If a district is formed by consolidation after June 1, 1995, and if 1 or more of the original districts was not eligible before the consolidation for an additional allowance under this section, the amount of the additional allowance under this section for the consolidated district shall be based on the number of pupils described in subsection (1) enrolled in the consolidated district who reside in the territory of an original district that was eligible before the consolidation for an additional allowance under this section.

(16) As used in this section, "at-risk pupil" means a pupil for whom the district has documentation that the pupil meets at least 2 of the following criteria: is a victim of child abuse or neglect; is below grade level in English language and communication skills or mathematics; is a pregnant teenager or teenage parent; is eligible for a federal free or reduced-price lunch subsidy; has atypical behavior or attendance patterns; or has a family history of school failure, incarceration, or substance abuse. For pupils for whom the results of at least the applicable Michigan education assessment program (MEAP) test have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve at least a score of level 2 on the most recent MEAP English language arts, mathematics, or science test for which results for the pupil have been received. For pupils for whom the results of the Michigan merit examination have been received, at-risk pupil also includes a pupil who does not meet the other criteria under this subsection but who did not achieve proficiency on the reading component of the most recent Michigan merit examination for which results for the pupil have been received, did not achieve proficiency on the mathematics component of the most recent Michigan merit examination for which results for the pupil have been received, or did not achieve basic competency on the science component of the most recent Michigan merit examination for which results for the pupil have been received. For pupils in grades K-3, at-risk pupil also includes a pupil who is at risk of not meeting the district's core academic curricular objectives in English language arts or mathematics.

(17) A district or public school academy that receives funds under this section may use funds received under this section to provide an anti-bullying or crisis intervention program.

(3) The payments made under this section include all state payments made to districts so that each district receives at least 6.0127% of the necessary costs of operating the state mandated portion of the school lunch program in a fiscal year.

The statewide average cost shall be determined by the department using costs as reported in a manner approved by the department for the preceding school year.

(4) Notwithstanding section 17b, payments under this section may be made pursuant to an agreement with the department.

(5) In purchasing food for a school breakfast program funded under this section, preference shall be given to food that is grown or produced by Michigan businesses if it is competitively priced and of comparable quality.

A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

(6) Beginning with 2012-2013, it is the intent of the legislature to transfer funding for great start collaboratives under this section into an early childhood block grant program, along with funding for great start readiness programs under section 32d and funding for great parents, great start programs under section 32j. The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements for 2012-2013. Funds allocated under this section shall be used to provide part-day or full-day comprehensive free compensatory programs designed to do 1 or both of the following:

(a) Improve the readiness and subsequent achievement of educationally disadvantaged children as defined by the department who will be at least 4, but less than 5 years of age, as of December 1 of the school year in which the programs are offered, and who meet the participant eligibility and prioritization guidelines as defined by the state board.

Beginning in 2007-2008, funds spent by a district for programs described in this subdivision shall not exceed the lesser of the amount spent by the district under this subdivision for 2006-2007 or the amount spent under this subdivision in any subsequent fiscal year.

(2) Funds allocated under this section shall be allocated to intermediate districts or consortia of intermediate districts. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. For 2011-2012, the fiduciary intermediate districts and consortia of intermediate districts shall allocate the funding under this section as follows:

(a) Participation in a collaborative recruitment and enrollment process. At a minimum, the process shall include all other funded preschool programs that may serve children in the same geographic area, to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(c) Nutritional services for all program participants.

(c) Ensure that the applicant only employs qualified personnel for this program, as follows:

(i) Teachers possessing proper training. For programs managed directly by an intermediate district, a valid teaching certificate and an early childhood (ZA or ZS) endorsement are required. This provision does not apply to an intermediate district or competitive program that subcontracts with an eligible child development program. In that situation, a teacher must have a valid Michigan teaching certificate with an early childhood (ZA or ZS) endorsement, a valid Michigan elementary teaching certificate with a child development associate credential, or a bachelor's degree in child development with specialization in preschool teaching. However, if an intermediate district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers who have significant but incomplete training in early childhood education or child development may be employed by the intermediate district if the intermediate district provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood development, including an associate's degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an intermediate district demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the intermediate district may employ paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the intermediate district provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 2 years of the date of employment. Progress toward completion of the compliance plan shall consist of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. The program budget shall indicate the extent to which these funds will supplement other federal, state, local, or private funds. Funds received under this section shall not be used to supplant any federal funds by the applicant to serve children eligible for a federally funded existing preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program shall be counted as 2 children served by the program for purposes of determining the number of children to be served and for determining the amount of the grant award. A grant award shall not be increased solely on the basis of providing a school-day program.

(7) An intermediate district or consortium of intermediate districts receiving a grant under this section may contract with for-profit or nonprofit preschool center providers that meet all requirements of subsection (4) and retain for administrative services an amount equal to not more than 5% of the grant amount. An intermediate district, consortium of intermediate districts, or competitive grant program may expend not more than 10% of the total grant amount for administration of the program.

(8) Any public or private for-profit or nonprofit legal entity or agency may apply for a competitive grant under this section. However, a district or intermediate district may not apply for a competitive grant under this section unless the district, intermediate district, or consortium of districts or intermediate districts is acting as a local grantee for the federal head start program operating under the head start act, 42 USC 9831 to 9852.

(9) A recipient of funds under this section shall report to the department in a form and manner prescribed by the department the number of children participating in the program who meet the income or other eligibility criteria prescribed by the department and the total number of children participating in the program. For children participating in the program who meet the income or other eligibility criteria specified under subsection (5)(b), a recipient shall also

report whether or not a parent is available to provide care based on employment status. For the purposes of this subsection, "employment status" shall be defined by the department of human services in a manner consistent with maximizing the amount of spending that may be claimed for temporary assistance for needy families maintenance of effort purposes.

(10) As used in this section:

(a) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(b) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(11) A grant recipient receiving funds under this section is encouraged to establish a sliding scale of tuition rates based upon a child's family income for the purpose of expanding eligible programs under this section. A grant recipient may charge tuition for programs provided under this section according to that sliding scale of tuition rates on a uniform basis for any child who does not meet the program eligibility requirements under this section.

(12) Beginning with 2012-2013, it is the intent of the legislature to transfer funding for great start readiness programs under this section into an early childhood block grant program, along with funding for great start collaboratives under section 32b and funding for great parents, great start programs under section 32j. The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements for 2012-2013. Not later than January 1, 2012, the department shall report to the legislature its recommendations for the revisions required under this subsection.

Sec. 32j. (1) From the appropriations in section 11, there is allocated an amount not to exceed \$5,000,000.00 for 2011-2012 for great parents, great start grants to intermediate districts to provide programs for parents with young children. The purpose of these programs is to encourage early mathematics and reading literacy, improve school readiness, reduce the need for special education services, and foster the maintenance of stable families by encouraging positive parenting skills.

(2) To qualify for funding under this section, a program shall provide services to all families with children age 5 or younger residing within the intermediate district who choose to participate, including at least all of the following services:

(a) Providing parents with information on child development from birth to age 5.

(c) Providing parents with examples of learning opportunities to promote intellectual, physical, and social growth of young children, including the acquisition of age-appropriate language, mathematics, and early reading skills.

(d) Promoting access to needed community services through a community-school-home partnership.

(3) To receive a grant under this section, an intermediate district shall submit a plan to the department not later than October 15, 2011 in the form and manner prescribed by the department. The plan shall do all of the following in a manner prescribed by the department:

(a) Provide a plan for the delivery of the program components described in subsection (2) that targets resources based on family need and provides for educators trained in child development to help parents understand their role in their child's developmental process, thereby promoting school readiness and mitigating the need for special education services.

(b) Demonstrate an adequate collaboration of local entities involved in providing programs and services for preschool children and their parents and, where there is a great start collaborative, demonstrate that the planned services are part of the community's great start strategic plan.

(c) Provide a projected budget for the program to be funded. The intermediate district shall provide at least a 20% local match from local public or private resources for the funds received under this section. Not more than 1/2 of this matching requirement, up to a total of 10% of the total project budget, may be satisfied through in-kind services provided by participating providers of programs or services. In addition, not more than 10% of the grant may be used for program administration.

(4) Each intermediate district receiving a grant under this section shall agree to include a data collection system approved by the department. The data collection system shall provide a report by October 15 of each year on the number of children in families with income below 200% of the federal poverty level that received services under this program and the total number of children who received services under this program.

(5) The department or superintendent, as applicable, shall do all of the following:

(a) The superintendent shall approve or disapprove the plans and notify the intermediate district of that decision not later than November 15, 2011. The amount allocated to each intermediate district shall be at least an amount equal to 100% of the intermediate district's 2010-2011 payment under this section.

(b) The department shall ensure that all programs funded under this section utilize the most current validated research-based methods and curriculum for providing the program components described in subsection (2).

(6) An intermediate district receiving funds under this section shall use the funds only for the program funded under this section. An intermediate district receiving funds under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds in the next fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

(7) Beginning with 2012-2013, it is the intent of the legislature to transfer funding for great parents, great start programs under this section into an early childhood block grant program, along with funding for great start collaboratives under section 32b and funding for great start readiness programs under section 32d. The early childhood block grant program will allocate funds to intermediate districts and consortia of intermediate districts to act as fiduciaries and provide administration of regional early childhood programs in conjunction with their regional great start collaborative to improve program quality, evaluation, and efficiency for early childhood programs. The department shall work with intermediate districts, districts, great start collaboratives, and the early childhood investment corporation to establish a revised funding formula, application process, program criteria, and data reporting requirements for 2012-2013. Not later than January 1, 2012, the department shall report to the legislature its recommendations for the revisions required under this subsection.

Sec. 39. (1) A district receiving funds from an intermediate district or consortium of intermediate districts under section 32d shall submit a preapplication, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding state fiscal year. The preapplication shall include a comprehensive needs assessment and community collaboration plan, which is endorsed by the local great start collaborative and is part of the community's great start strategic plan that includes, but is not limited to, great start readiness program and head start providers, and shall identify all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and how that calculation was made.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served by other early childhood development programs operating in the community, and how that calculation was made.

(c) The number of children the district will be able to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(d) The estimated number of children who meet the criteria of section 32d who will remain unserved after the district and community early childhood programs have met their funded enrollments. The school district shall maintain a waiting list of identified unserved eligible children who would be served when openings are available.

(2) A district receiving funds from an intermediate district or consortium of intermediate districts under section 32d shall also submit a final application for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the district complies with the program components established by the department pursuant to section 32d.

(3) The number of prekindergarten children construed to be in need of special readiness assistance under section 32d shall be calculated for each district in the following manner: 1/2 of the percentage of the district's pupils in grades 1 to 5 who are eligible for free lunch, as determined using the district's pupil membership count as of the pupil membership count day in the school year prior to the fiscal year for which the calculation is made, under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i, shall be multiplied by the average kindergarten enrollment of the district on the pupil membership count day of the 2 immediately preceding fiscal years.

(4) The initial allocation for each fiscal year to each eligible district under section 32d shall be determined by multiplying the number of children determined by the formula under subsection (3) or the number of children the district indicates it will be able to serve under subsection (1)(c), whichever is less, by \$3,400.00 and shall be distributed among districts in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children a district indicates it will be able to serve under subsection (1)(c) includes children able to be served in a school-day program, then the number able to be served in a school-day program shall be doubled for the purposes of making this calculation of the lesser of the number of children determined by the formula under subsection (3)

and the number of children the district indicates it will be able to serve under subsection (1)(c) and determining the amount of the initial allocation to the district under section 32d. A district may contract with a head start agency to serve children enrolled in head start with a school-day program by blending head start funds with a part-day great start readiness program allocation. All head start and great start readiness program policies and regulations apply to the blended program.

(5) If funds allocated for eligible districts in section 32d remain after the initial allocation under subsection (4), the allocation under this subsection shall be distributed to each eligible district under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). The allocation shall be determined by multiplying the number of children each eligible district served in the immediately preceding fiscal year or the number of children the district indicates it will be able to serve under subsection (1)(c), whichever is less, minus the number of children for which the district received funding in subsection (4) by \$3,400.00.

(6) If funds allocated for eligible districts in section 32d remain after the allocations under subsections (4) and (5), remaining funds shall be distributed to each eligible district under section 32d in decreasing order of concentration of eligible children as determined by the formula under subsection (3). If the number of children the district indicates it will be able to serve under subsection (1)(c) exceeds the number of children for which funds have been received under subsections (4) and (5), the allocation under this subsection shall be determined by multiplying the number of children the district indicates it will be able to serve under subsection (1)(c) less the number of children for which funds have been received under subsections (4) and (5) by \$3,400.00 until the funds allocated for eligible districts in section 32d are distributed.

(7) If a district is participating in a program under section 32d for the first year, the maximum allocation under this section is 32 multiplied by \$3,400.00.

(8) A district that offers supplementary child care funded by funds other than those received under this section and therefore offers full-day programs as part of its early childhood development program shall receive priority in the allocation of funds under section 32d over other eligible districts. As used in this subsection, "full-day program" means a program that provides supplementary child care that totals at least 10 hours of programming per day.

(9) For any district with 315 or more eligible pupils, the number of eligible pupils shall be 65% of the number calculated using the formula under subsection (3). However, none of these districts may have less than 315 pupils for purposes of calculating the tentative allocation for eligible districts under section 32d.

(10) If, taking into account the total amount to be allocated to the district as calculated under this section, a district determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the district may include additional eligible children but shall not receive additional funding under section 32d for those children.

(11) A consortium of 2 or more districts shall be eligible for an allocation under section 32d if the districts designate a district or intermediate district to serve as the fiscal agent for the consortium's allocation. A consortium shall submit a single application for the total number of children to be served. The consortium may decide, with approval of all consortium members, to serve numbers of children based on the allocation to each district or based on the allocation to the entire consortium, allowing children residing in any district in the consortium to be served by the consortium at any location.

For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages shall be an amount per special education membership pupil, excluding pupils described in subsection (12), and shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(b) After the allocations under subdivision (a), districts and intermediate districts for which the payments calculated under subdivision (a) do not fulfill the specified percentages shall be paid the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2010-2011 only the amount necessary, estimated at \$1,400,000.00 for 2010-2011, to make payments to districts and intermediate districts under this subsection. From the funds allocated under subsection (1), there is allocated for 2011-2012 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount allocated to a district or intermediate district for a fiscal year under subsection (2)(b) is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. Adjustments for reductions in special education program operations or services shall be made in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in subsection (2), then the shortfall shall be paid to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this act for the fiscal year beginning on the October 1 following the determination and payments under subsection (3) shall be adjusted as necessary. However, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there shall be no deduction under this subsection.

(5) State funds shall be allocated on a total approved cost basis. Federal funds shall be allocated under applicable federal requirements, except that an amount not to exceed \$3,500,000.00 may be allocated by the department each fiscal

year for 2010-2011 and for 2011-2012 to districts, intermediate districts, or other eligible entities on a competitive grant basis for programs, equipment, and services that the department determines to be designed to benefit or improve special education on a statewide scale.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2010-2011 and for 2011-2012 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. Net increase in necessary costs shall be determined in a manner specified by the department.

(7) For purposes of sections 51a to 58, all of the following apply:

(a) "Total approved costs of special education" shall be determined in a manner specified by the department and may include indirect costs, but shall not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for social security and medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services shall be reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Beginning with the 2004-2005 fiscal year, a district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and reimbursement for that district or intermediate district shall be calculated in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), (8), and (12) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the calculations and resulting reimbursement under this subdivision shall be prorated on an equal percentage basis.

(d) Reimbursement for ancillary and other related services, as defined by R 340.1701c of the Michigan administrative code, shall not be provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, shall not be borne by the parent. In addition, the filing of claims shall not delay the education of a pupil. A district or intermediate district shall be responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) Beginning with calculations for 2004-2005, if an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) From the allocation in subsection (1), there is allocated for 2010-2011 only an amount not to exceed \$15,313,900.00 to intermediate districts. The payment under this subsection to each intermediate district shall be equal to the amount of the 1996-97 allocation to the intermediate district under subsection (6) of this section as in effect for 1996-97.

(9) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan schools for the deaf and blind shall not be included in the membership count of a district, but shall be counted in membership in the intermediate district of residence.

(10) Special education personnel transferred from 1 district to another to implement the revised school code shall be entitled to the rights, benefits, and tenure to which the person would otherwise be entitled had that person been employed by the receiving district originally.

(11) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. Money that is refunded shall be deposited in the state treasury to the credit of the state school aid fund.

(12) From the funds allocated in subsection (1), there is allocated each fiscal year the amount necessary, estimated at \$5,000,000.00 for 2010-2011, and estimated at \$6,800,000.00 for 2011-2012, to pay the foundation allowances for pupils described in this subsection. The allocation to a district under this subsection shall be calculated by multiplying the number of pupils described in this subsection who are counted in membership in the district times the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy or university school, times an amount equal to the amount per membership pupil under section 20(6). The allocation to an intermediate district under this subsection shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of community health.

(13) If it is determined that funds allocated under subsection (2) or (12) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (12) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (12) and section 51c, the remaining expenditures from the allocation in subsection (1) shall be made in the following order:

(a) 100% of the reimbursement required under section 53a.

(b) 100% of the reimbursement required under subsection (6).

(c) 100% of the payment required under section 54.

(d) 100% of the payment required under subsection (3).

(e) 100% of the payment required under subsection (8).

(f) 100% of the payments under section 56.

(14) The allocations under subsections (2), (3), and (12) shall be allocations to intermediate districts only and shall not be allocations to districts, but instead shall be calculations used only to determine the state payments under section 22b.

(15) If a public school academy enrolls pursuant to this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the provision of special education programs and services and the payment of the added costs of special education programs and services for the pupil are the responsibility of the district and intermediate district in which the pupil resides unless the enrolling district or intermediate district has a written agreement with the district or intermediate district in which the pupil resides or the public school academy for the purpose of providing the pupil with a free appropriate public education and the written agreement includes at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil.

Sec. 51c. As required by the court in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492, from the allocation under section 51a(1), there is allocated each fiscal year for 2010-2011 and for 2011-2012 the amount necessary, estimated at \$635,400,000.00 for 2010-2011 and estimated at \$669,900,000.00 for 2011-2012, for payments to reimburse districts for 28.6138% of total approved costs of special education excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Funds allocated under this section that are not expended in the state fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 22b in order to fully fund those calculated allocations for the same fiscal year.

Sec. 51d. (1) From the federal funds appropriated in section 11, there is allocated for 2011-2012 all available federal funding, estimated at \$74,000,000.00, for special education programs that are funded by federal grants. All federal funds allocated under this section shall be distributed in accordance with federal law. Notwithstanding section 17b, payments of federal funds to districts, intermediate districts, and other eligible entities under this section shall be paid on a schedule determined by the department.

(2) From the federal funds allocated under subsection (1), the following amounts are allocated for 2011-2012:

(a) An amount estimated at \$15,000,000.00 for handicapped infants and toddlers, funded from DED-OSERS, handicapped infants and toddlers funds.

(b) An amount estimated at \$14,000,000.00 for preschool grants (Public Law 94-142), funded from DED-OSERS, handicapped preschool incentive funds.

(c) An amount estimated at \$45,000,000.00 for special education programs funded by DED-OSERS, handicapped program, individuals with disabilities act funds.

(3) As used in this section, "DED-OSERS" means the United States department of education office of special education and rehabilitative services.

Sec. 53a. (1) For districts, reimbursement for pupils described in subsection (2) shall be 100% of the total approved costs of operating special education programs and services approved by the department and included in the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766, minus the district's foundation allowance calculated under section 20. For intermediate districts, reimbursement for pupils described in subsection (2) shall be calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the basic foundation allowance under section 20 for the current fiscal year.

(2) Reimbursement under subsection (1) is for the following special education pupils:

(a) Pupils assigned to a district or intermediate district through the community placement program of the courts or a state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.

(b) Pupils who are residents of institutions operated by the department of community health.

(c) Pupils who are former residents of department of community health institutions for the developmentally disabled who are placed in community settings other than the pupil's home.

(d) Pupils enrolled in a department-approved on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child care institution, if the child care institution offered in 1991-92 an on-grounds educational program longer than 180 days but not longer than 233 days.

(e) Pupils placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed.

(3) Only those costs that are clearly and directly attributable to educational programs for pupils described in subsection (2), and that would not have been incurred if the pupils were not being educated in a district or intermediate district, are reimbursable under this section.

(4) The costs of transportation shall be funded under this section and shall not be reimbursed under section 58.

(5) Not more than \$13,500,000.00 of the allocation for 2011-2012 in section 51a(1) shall be allocated under this section.

Sec. 54. Each intermediate district shall receive an amount per pupil for each pupil in attendance at the Michigan schools for the deaf and blind. The amount shall be proportionate to the total instructional cost at each school. Not more than \$1,688,000.00 of the allocation for 2011-2012 in section 51a(1) shall be allocated under this section.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district.

(b) "Millage levied" means the millage levied for special education pursuant to part 30 of the revised school code, MCL 380.1711 to 380.1743, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1743, membership and taxable value of the district shall not be included in the membership and taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed \$36,881,100.00 for 2011-2012 to reimburse intermediate districts levying millages for special education pursuant to part 30 of the revised school code,

MCL 380.1711 to 380.1743. The purpose, use, and expenditure of the reimbursement shall be limited as if the funds were generated by these millages and governed by the intermediate district plan adopted pursuant to article 3 of the revised school code, MCL 380.1701 to 380.1766. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts shall submit for departmental approval and implement a distribution plan.

(3) Reimbursement for those millages levied in 2010-2011 shall be made in 2011-2012 at an amount per 2010-2011 membership pupil computed by subtracting from \$174,700.00 the 2010-2011 taxable value behind each membership pupil and multiplying the resulting difference by the 2010-2011 millage levied.

Sec. 61a. (1) From the appropriation in section 11, there is allocated an amount not to exceed \$26,611,300.00 for 2011-2012 to reimburse on an added cost basis districts, except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, and secondary area vocational-technical education centers for secondary-level career and technical education programs according to rules approved by the superintendent. Applications for participation in the programs shall be submitted in the form prescribed by the department. The department shall determine the added cost for each career and technical education program area. The allocation of added cost funds shall be based on the type of career and technical education programs provided, the number of pupils enrolled, and the length of the training period provided, and shall not exceed 75% of the added cost of any program. With the approval of the department, the board of a district maintaining a secondary career and technical education program may offer the program for the period from the close of the school year until September 1. The program shall use existing facilities and shall be operated as prescribed by rules promulgated by the superintendent.

(2) Except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, districts and intermediate districts shall be reimbursed for local career and technical education administration, shared time career and technical education administration, and career education planning district career and technical education administration. The definition of what constitutes administration and reimbursement shall be pursuant to guidelines adopted by the superintendent. Not more than \$800,000.00 of the allocation in subsection (1) shall be distributed under this subsection.

Sec. 62. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership for the immediately preceding fiscal year of the intermediate district and the districts constituent to the intermediate district or the total membership for the immediately preceding fiscal year of the area vocational-technical program.

However, the membership and taxable value of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, shall be included in the membership and taxable value of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the appropriation in section 11, there is allocated an amount not to exceed \$9,000,000.00 each fiscal year for 2011-2012 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education pursuant to sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. (2) From the allocation in subsection (1), there is allocated for each fiscal year the amount necessary for payments to state supported colleges or universities and intermediate districts providing school bus driver safety instruction

pursuant to section 51 of the pupil transportation act, 1990 PA 187, MCL 257.1851. The payments shall be in an amount determined by the department not to exceed 75% of the actual cost of instruction and driver compensation for each public or nonpublic school bus driver attending a course of instruction. For the purpose of computing compensation, the hourly rate allowed each school bus driver shall not exceed the hourly rate received for driving a school bus. Reimbursement compensating the driver during the course of instruction shall be made by the department to the college or university or intermediate district providing the course of instruction.

(3) From the allocation in subsection (1), there is allocated each fiscal year the amount necessary to pay the reasonable costs of nonspecial education auxiliary services transportation provided pursuant to section 1323 of the revised school code, MCL 380.1323. The department of state police shall prepare a statement of costs attributable to each district for which bus inspections are provided and submit it to the department and to each affected district in a time and manner determined jointly by the department and the department of state police. The department shall reimburse each district and intermediate district for costs detailed on the statement within 30 days after receipt of the statement. Districts for which services are provided shall make payment in the amount specified on the statement to the department of state police within 45 days after receipt of the statement. The total reimbursement of costs under this subsection shall not exceed the amount allocated under this subsection. Notwithstanding section 17b, payments to eligible entities under this subsection shall be paid on a schedule prescribed by the department.

Sec. 81. (1) Except as otherwise provided in this section, from the appropriation in section 11, there is allocated for 2011-2012 to the intermediate districts the sum necessary, but not to exceed \$62,108,000.00, to provide state aid to intermediate districts under this section. Except as otherwise provided in this section, there shall be allocated to each intermediate district for 2011-2012 an amount equal to 95% of the amount allocated under this subsection for 2010-2011. Funding provided under this section shall be used to comply with requirements of this article and the revised school code that are applicable to intermediate districts, and for which funding is not provided elsewhere in this article, and to provide technical assistance to districts as authorized by the intermediate school board.

(2) Intermediate districts receiving funds under this section shall collaborate with the department to develop expanded professional development opportunities for teachers to update and expand their knowledge and skills needed to support the Michigan merit curriculum.

(3) From the allocation in subsection (1), there is allocated to an intermediate district, formed by the consolidation or annexation of 2 or more intermediate districts or the attachment of a total intermediate district to another intermediate school district or the annexation of all of the constituent K-12 districts of a previously existing intermediate school district which has disorganized, an additional allotment of \$3,500.00 each fiscal year for each intermediate district included in the new intermediate district for 3 years following consolidation, annexation, or attachment.

(4) During a fiscal year, the department shall not increase an intermediate district's allocation under subsection (1) because of an adjustment made by the department during the fiscal year in the intermediate district's taxable value for a prior year. Instead, the department shall report the adjustment and the estimated amount of the increase to the house and senate fiscal agencies and the state budget director not later than June 1 of the fiscal year, and the legislature shall appropriate money for the adjustment in the next succeeding fiscal year.

(5) In order to receive funding under this section, an intermediate district shall do all of the following:

(a) Demonstrate to the satisfaction of the department that the intermediate district employs at least 1 person who is trained in pupil counting procedures, rules, and regulations.

(2) Each state department, officer, or agency that collects information from districts, intermediate districts, or postsecondary institutions as required under state or federal law shall make arrangements with the center to ensure that the state department, officer, or agency is in compliance with subsection (1). This subsection does not apply to information collected by the department of treasury under the uniform budgeting and accounting act, 1968 PA 2, MCL 141.421 to 141.440a; the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821; the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1921 to 388.1939; or section 1351a of the revised school code, MCL 380.1351a.

The state treasurer may receive money or other assets from any source for deposit into the MPSERS retirement obligation reform reserve fund. The state treasurer shall direct the investment of the MPSERS retirement obligation reform reserve fund. The state treasurer shall credit to the MPSERS retirement obligation reform reserve fund interest and earnings from the MPSERS retirement obligation reform reserve fund. Money in the MPSERS retirement obligation reform reserve fund at the close of the fiscal year shall remain in the MPSERS retirement obligation reform reserve fund and shall not lapse to the state school aid fund or to the general fund. The department of treasury shall be the administrator of the MPSERS retirement obligation reform reserve fund for auditing purposes.

(3) It is the intent of the legislature that the speaker of the house of representatives or the senate majority leader, or both, shall convene a workgroup to examine retirement obligations and potential reforms to the Michigan public school employees' retirement system established under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408. The chair of the senate appropriations committee and chair of the house appropriations committee, or his or her designee, each shall be a member of the workgroup, and the workgroup shall report to the speaker of the house of representatives or the senate majority leader, as applicable, by February 1, 2012, on reforms identified, timelines for implementing reforms, and estimated costs and savings of the identified reforms.

Sec. 152a. (1) As required by the court in the consolidated cases known as *Adair v State of Michigan*, Michigan supreme court docket nos. 137424 and 137453, from the state school aid fund money appropriated in section 11 there is allocated for 2011-2012 an amount not to exceed \$34,064,500.00 to be used solely for the purpose of paying necessary costs related to the state-mandated collection, maintenance, and reporting of data to this state.

(2) From the allocation in subsection (1), the department shall make payments to districts and intermediate districts in an equal amount per pupil based on the total number of pupils in membership in each district and intermediate district. The department shall not make any adjustment to these payments after the final installment payment under section 17b is made.

The fiscal year 2012-2013 appropriations are anticipated to be the same as those for fiscal year 2011-2012, except that the amounts will be adjusted for changes in caseload and related costs, federal fund match rates, economic factors, and available revenue. These adjustments will be determined after the January 2012 consensus revenue estimating conference.

Sec. 202. The appropriations authorized under this article are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

Sec. 203. Unless otherwise specified, a community college receiving appropriations in section 201 and the workforce development agency shall use the Internet to fulfill the reporting requirements of this article. This requirement may include transmission of reports via electronic mail to the recipients identified for each reporting requirement or it may include placement of reports on an Internet or Intranet site.

Sec. 204. Funds appropriated in section 201 shall not be used for the purchase of foreign goods or services, or both, if competitively priced and of comparable quality American goods or services, or both, are available. Preference should be given to goods or services, or both, manufactured or provided by Michigan businesses, if they are competitively priced and of comparable quality. In addition, preference should be given to goods or services, or both, that are manufactured or provided by Michigan businesses owned and operated by veterans, if they are competitively priced and of comparable quality.

Each principal executive officer shall strongly encourage firms with which the community college contracts to subcontract with certified businesses in depressed and deprived communities for services or supplies, or both.

Sec. 206. The funds appropriated in section 201 are appropriated for community colleges with fiscal years ending June 30, 2012 and shall be paid out of the state treasury and distributed by the state treasurer to the respective community colleges in 11 monthly installments on the sixteenth of each month, or the next succeeding business day, beginning with October 16, 2011. Each community college shall accrue its July and August 2012 payments to its institutional fiscal year ending June 30, 2012. However, if a community college fails to submit all verified Michigan community colleges activities classification structure data for school year 2010-2011 to the workforce development agency by November 1, 2011, the monthly installments shall be withheld from that community college until those data are submitted.

Sec. 207. (1) A community college shall pay the employer's contributions to the Michigan public school employees' retirement system created by the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1408, as a condition of receiving funds appropriated under this article.

The appropriation in section 201 for a community college that fails to comply with JCOS requirements shall be reduced by 1% for each violation.

Sec. 209. (1) From the funds appropriated in section 201, each community college shall develop, post, and maintain, on a user-friendly and publicly accessible Internet site, a comprehensive report categorizing all institutional general fund expenditures made by the community college within a fiscal year. The report shall include institutional general fund expenditure amounts categorized both by each academic unit, administrative unit, or external initiative within the community college and by major expenditure category, including faculty and staff salaries and fringe benefits, facility-related costs, supplies and equipment, contracts, and transfers to and from other community college funds. The report shall also include a list of all employee positions funded partially or wholly through institutional general fund revenue that includes the position title, name, and annual salary or wage amount for each position. (3) Community colleges are encouraged to collaborate with each other on innovations to identify and meet local employment needs.

Sec. 210a. (1) A committee shall be created to develop a process to improve the transferability of core college courses between community colleges and public universities on a statewide basis. Building off of the Michigan association of college registrars and academic officers agreement and existing articulation agreements in place between individual institutions, the committee shall work to develop equivalency standards of core college courses and identify equivalent courses offered by the institutions.

(2) The committee shall be composed of the following:

- (a) Ten representatives from community colleges selected by the Michigan community college association.

(b) Review, analyze, and eradicate activities that may tend to discriminate.

Sec. 212. It is the intent of the legislature to encourage community college districts to evaluate and pursue efficiency and cost-containment measures that maximize state funding. Community colleges shall identify practices that increase efficiencies, including, but not limited to, establishing joint ventures, consolidating services, utilizing program collaborations, maximizing educational benefits through optimal class sizes and frequency of course offerings, increasing web-based instruction, eliminating low-enrollment and high-cost instructional programs, using self-insurance, practicing energy conservation, and utilizing group purchasing. Efficiency efforts shall also include reviewing proposed capital outlay projects to increase coordination and utilization of new facilities, renovation projects, and technology improvements.

Sec. 213. It is the intent of the legislature that community colleges work with public universities in the state to implement statewide reverse transfer agreements to increase the number of students that are awarded credentials of value upon completion of the necessary credits. In doing so, the institutions should work collaboratively and cooperatively to remove administrative barriers that result in understating the academic attainment of Michigan's citizens. It is the intent of the legislature that by August 1, 2012, statewide agreements be in place between community colleges and public universities that enable students who have earned a significant number of credits at a community college and transfer to a baccalaureate-granting institution before completing a degree to transfer the credits earned at the baccalaureate institution back to the community college in order to be awarded a credential of value.

Sec. 214. (1) A committee shall be created to develop a common set of scores using the ACT assessment to determine placement in developmental courses at community colleges for students who recently completed high school. The committee shall be composed of the following:

(a) Two members of the Michigan house of representatives. One member shall be designated by the speaker of the house, and 1 member shall be designated by the house minority leader.

(d) Four individuals representing K-12 education, with the speaker of the house, house minority leader, senate majority leader, and senate minority leader each designating 1 member.

(2) By March 1, 2012, the committee created under subsection (1) shall submit a report to the senate and house appropriations subcommittees on community colleges, the senate and house fiscal agencies, and the state budget office outlining the progress toward implementing a common set of ACT cutoff scores for placement into developmental education and credit-bearing courses.

Sec. 216. (1) It is the intent of the legislature that the senate and house appropriations subcommittees on community colleges, together with the Michigan community college association and other interested stakeholders, review any statutory mandates imposed on community colleges, including those identified by the legislative commission on statutory mandates established under former chapter 7B of the legislative council act, 1986 PA 268, and determine whether those mandates are necessary for the health and safety of students; are essential to the academic integrity of the community colleges; exceed any applicable federal requirements; are superfluous to the core academic programs of the community colleges; and materially impact local control and governance of the colleges.

(2) The senate and house appropriations subcommittees on community colleges shall review the estimated costs and benefits of each statutory mandate reviewed under subsection (1) and shall report their findings to the state budget director.

Sec. 217. Unless otherwise stated, all data items used in determining state aid in this article are as defined in the “2001 Manual for Uniform Financial Reporting, Michigan Public Community Colleges”, which shall be the basis for reporting data, and the “Activities Classification Structure Manual for Michigan Community Colleges”, as amended, which shall be used to document financial needs of the community colleges.

Sec. 218. A community college shall not include in the enrollment data reported for determining state aid under this article any student credit hours or student contact hours for a student incarcerated in a Michigan penal institution. Exclusion of these students is intended to avoid the payment of state aid under this article for the same individuals for whom reimbursement is provided by the state correctional system.

Sec. 219. A community college receiving funds in section 201 shall cooperate with the state’s efforts to establish a statewide P-20 education longitudinal data system to comply with the state fiscal stabilization fund provisions of the American recovery and reinvestment act of 2009, Public Law 111-5.

Sec. 220. (1) The auditor general or a certified public accountant appointed by the auditor general may conduct performance audits of community colleges as the auditor general considers necessary.

(2) Not more than 60 days after an audit report is released by the office of the auditor general, the principal executive officer of the community college that was audited shall submit to the house and senate appropriations committees, the house and senate fiscal agencies, the workforce development agency, the auditor general, and the state budget director a plan to comply with audit recommendations. The plan shall contain projected dates and resources required, if any, to achieve compliance with the audit recommendations, or a documented explanation of the college’s noncompliance with the audit recommendations concerning the matters on which the audited community college and office of the auditor general disagree.

Sec. 221. (1) A community college shall retain certified class summaries, class lists, registration documents, and student transcripts that are consistent with the taxonomy of courses. For each enrollment period during the fiscal year, these certified documents shall identify clearly by course the number of in-district and out-of-district student credit and contact hours. The class summaries and class lists shall be consistent with each other and shall include the course prefix and numbers, course title, course credit and contact hours, credit and contact hours generated by each student, and activity classifications consistent with the taxonomy. An auditable process shall be used by the community college to determine the unduplicated head count for in-district students, out-of-district students, and prisoners for each enrollment period during the fiscal year.

(2) Contracts between the community college and agencies that reimburse the community college for the costs of instruction shall be retained for audit purposes.

Sec. 222. Each community college shall have an annual audit of all income and expenditures performed by an independent auditor and shall furnish the independent auditor’s management letter and an annual audited accounting of all general and current funds income and expenditures including audits of college foundations to the members of the senate and house appropriations subcommittees on community colleges, the senate and house fiscal agencies, the auditor general, the workforce development agency, and the state budget director before November 15, 2011. If a community college fails to furnish the audit materials, the monthly state aid installments shall be withheld from that college until the information is submitted. All reporting shall conform to the requirements set forth in the “2001 Manual for Uniform Financial Reporting, Michigan Public Community Colleges”. It is the intent of the legislature that a community college shall make the information the community college is required to provide under this section available to the public on its Internet website.

Sec. 223. Each community college shall report the following to the workforce development agency no later than November 1, 2011:

(a) The number of North American Indian students enrolled each term for the previous fiscal year, using guidelines and procedures developed by the workforce development agency and the Michigan commission on Indian affairs.

(b) The number of North American Indian tuition waivers granted each term, and the monetary value of the waivers for the previous fiscal year.

Sec. 224. Upon request, a community college shall inform interested Michigan high schools of the aggregate academic status of its students for the prior academic year, in a manner prescribed by the Michigan community college association and in cooperation with the Michigan association of secondary school principals.

Sec. 225. Each community college shall report to the house and senate fiscal agencies, the state budget director, and the workforce development agency by August 31, 2011, the tuition and mandatory fees paid by a full-time in-district

student and a full-time out-of-district student as established by the college governing board for the 2010-2011 academic year. This report should also include the annual cost of attendance based on a full-time course load of 30 credits. Each community college shall also report any revisions to the reported 2010-2011 academic year tuition and mandatory fees adopted by the college governing board to the house and senate fiscal agencies, the state budget director, and the workforce development agency within 15 days of being adopted.

Sec. 226. Each community college shall report to the workforce development agency the numbers and type of associate degrees and other certificates awarded during the previous fiscal year. The report shall be made not later than November 15, 2011.

Sec. 227. Funds appropriated in section 201 shall not be used to enter into a lease for, or to purchase, a vehicle assembled or manufactured outside of the United States if competitively priced and comparable quality vehicles made in the state of Michigan or elsewhere in the United States of America are available.

Sec. 228. A community college shall not take disciplinary action against an employee for communicating with a member of the legislature or his or her staff.

Sec. 229. It is the intent of the legislature that each community college receiving an appropriation in section 201 include in its admission application process a specific question as to whether an applicant for admission is a veteran, an active member of the military, a member of the national guard or military reserves, or the spouse or dependent of a veteran, active member of the military, or member of the national guard or military reserves, in order to more quickly identify potential educational assistance available to that applicant. As used in this section, "veteran" means an honorably discharged veteran entitled to educational assistance under the provisions of section 5003 of the post-911 veterans educational assistance act of 2008, title V of Public Law 110-252, 38 USC 3301 to 3324.

Sec. 230. It is the intent of the legislature that the recommendations and performance measures developed by the performance indicators task force formed pursuant to section 242 of 2005 PA 154 be reviewed and more fully implemented for distribution of state funding to community colleges in future years. Specifically, it is the intent of the legislature that the performance indicators task force review and implement 1 or more measurable data items for the local strategic value indicator and review and implement 1 or more measurable data items for an administrative cost formula component.

Sec. 236a. It is the intent of the legislature to provide appropriations for the fiscal year ending on September 30, 2013 for the items listed in section 236. The fiscal year 2012-2013 appropriations are anticipated to be the same as those for fiscal year 2011-2012, except that the amounts will be adjusted for changes in caseload and related costs, federal fund match rates, economic factors, and available revenue. These adjustments will be determined after the January 2012 consensus revenue estimating conference.

Sec. 237. The appropriations authorized under this article are subject to the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594.

Sec. 237a. As used in this article, "research university" means a public university classified as a "doctoral/research university", a "research university (high research activity)", or a "research university (very high research activity)" under the classification of institutions of higher education conducted by the Carnegie foundation.

Sec. 238. Unless otherwise specified, public universities receiving appropriations in section 236 shall use the Internet to fulfill the reporting requirements of this article. This requirement may include transmission of reports via electronic mail to the recipients identified for each reporting requirement, or it may include placement of reports on an Internet or Intranet site.

Sec. 239. Funds appropriated in section 236 shall not be used for the purchase of foreign goods or services, or both, if competitively priced and of comparable quality American goods and services, or both, are available. Preference shall be given to goods or services, or both, manufactured or provided by Michigan businesses if they are competitively priced and of comparable value. In addition, preference shall be given to goods or services, or both, that are manufactured

or provided by Michigan businesses owned and operated by veterans if they are competitively priced and of comparable quality.

Sec. 239a. It is the intent of the legislature that the funds appropriated in section 236 to state institutions of higher education shall not be used to enter into a lease or to purchase a vehicle assembled or manufactured outside of the United States, and that preference be given to vehicles assembled or manufactured in Michigan.

Sec. 240. Sec. 241. (1) The funds appropriated in section 236 to public universities shall be paid out of the state treasury and distributed by the state treasurer to the respective institutions in 11 equal monthly installments on the sixteenth of each month, or the next succeeding business day, beginning with October 16, 2011. (2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an actual maximum state competitive scholarship award per student, which shall be no less than \$600.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish a maximum award amount equal to at least \$600.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$600.00 maximum award amount.

(3) The department of treasury shall implement a proportional competitive scholarship maximum award level for recipients enrolled less than full-time in a given semester or term.

(4) If a student who receives an award under this section has his or her tuition and fees paid under the Michigan educational trust program, pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442, and still has financial need, the funds awarded under this section may be used for educational expenses other than tuition and fees.

(5) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards.

(6) Veterans administration benefits shall not be considered in determining eligibility for the award of scholarships under 1964 PA 208, MCL 390.971 to 390.981.

Sec. 252. (1) The amounts appropriated in section 236 for the state tuition grant program shall be distributed pursuant to 1966 PA 313, MCL 390.991 to 390.997a.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsection (7), the department of treasury shall determine an actual maximum tuition grant award per student, which shall be no less than \$1,512.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish a maximum award amount equal to at least \$1,512.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$1,512.00 maximum award amount. By December 15, 2011, and again by February 1, 2012, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions shall be reported to the state budget director and the house and senate fiscal agencies no later than February 15, 2012. If award adjustments are necessary, the students shall be notified of the adjustment by the third Monday in February.

(4) Any unexpended and unencumbered funds remaining on September 30, 2012 from the amounts appropriated in section 236 for the tuition grant program shall not lapse on September 30, 2012, but shall continue to be available for expenditure for tuition grants provided in the 2012-2013 fiscal year under a work project account. The use of these unexpended fiscal year 2011-2012 funds shall terminate at the end of the 2012-2013 fiscal year.

(5) The department of treasury shall continue a proportional tuition grant maximum award level for recipients enrolled less than full-time in a given semester or term.

(6) If the department of treasury increases the maximum award per eligible student from that provided in the previous fiscal year, it shall not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the maximum grant shall be proportional for all eligible students receiving awards for fiscal year 2011-2012.

(7) The department of treasury shall not award more than \$3,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the maximum grant shall be proportional for all eligible students enrolled in that college or university, as determined by the department.

Sec. 253. The auditor general may audit selected enrollments, degrees, and awards at selected independent colleges and universities receiving awards administered by the department of treasury. The audits shall be based upon definitions and requirements established by the department of treasury, the state budget director, and the senate and house fiscal agencies. The auditor general shall accept the Free Application for Federal Student Aid (FAFSA) form as the standard of residency documentation.

Sec. 254. The sums appropriated in section 236 for the state competitive scholarship, tuition incentive, tuition grant, and Robert C. (9) Each institution shall ensure that all known available restricted grants for tuition and fees are used prior to billing the tuition incentive program for any portion of a student's tuition and fees.

(10) The department shall ensure that the tuition incentive program is well publicized and that eligible Medicaid clients are provided information on the program. The department shall provide the necessary funding and staff to fully operate the program.

## ARTICLE IV GENERAL PROVISIONS

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount shall not be expended in that state fiscal year and shall not lapse to the general fund, but instead shall be deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, 56, and 152a shall be made

in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b shall be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts shall be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, shall be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

This reduction shall be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11f, 11g, 11j, 22a, 26a, 26b, 31d, 31f, 51a(2), 51a(12), 51c, 53a, and 152a, by that amount.

(c) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction shall be made by reducing the payments to each intermediate district, other than payments under sections 11f, 11g, 26a, 26b, 51a(2), 51a(12), 53a, 56, and 152a, on an equal percentage basis.

(d) The department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction shall be made by reducing the payments to each of these entities, other than payments under sections 11j, 26a, and 26b, on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities that is from the state school aid fund on an equal percentage basis.
