It also appropriates funds to the Center for Educational Performance and Information, the Workforce Development Agency, and other entities to implement certain grants and other programs related to K-12 education.

##### **Sec. 6(4)(jj). Pupil Membership - Counting Dual Enrollment Across State Border– REVISED**

## **Major Boilerplate Changes From FY 2016-17**

### **Sec. 31a. At-Risk – REVISED**

Executive does the following:

- (1) Expands the goals of the program from A) English Language Arts (ELA) proficiency in grade 3 and B) college and career ready high school graduates to include C) math proficiency in grade 8 and D) pupils attending school regularly.
- (2) Deletes the prohibition of funding to hold harmless or out-of-formula districts.
- (3) Expands the requirement that the district uses a multi-tiered systems of supports (MTSS) from K-3 to K-8.
- (4) Revises to base the district allocation formula on economically disadvantaged pupils rather than free lunch eligible pupils. Economically disadvantaged pupils are currently collected and reported by CEPI to the US Department of Education and include pupils who are eligible for both free and reduced-price lunch, Temporary Assistance to Needy Families (TANF), Supplemental Nutrition Assistance Program (SNAP), or are homeless, migrant, or in foster care. The expanded definition is estimated to increase the number of pupils for whom districts receive funding by 131,000.
- (5) Revises to base the district allocation formula on 11.5% times a statewide weighted average foundation allowance rather than each district's foundation allowance to eliminate the variation in per pupil funding among districts.
- (6) Requires a district to use at-risk funds for 4 goals or metrics that will be used to measure a district's success beginning in FY 2020-21 including chronic absenteeism rates, ELA proficiency in grade 3, Math proficiency in grade 8 and that at least 65% of high school pupils enroll in CTE, advanced placement, international baccalaureate, or dual-enrollment programs and that at least 80% of those pupils have successfully completed the courses.
- (7) Allows a district to use up to 5% of its funds for professional development related to MTSS and improving the goal metrics.
- (8) Revises the definition of at-risk pupil for the provision of services to pupils who are economically disadvantaged or English language learners and who failed or is at risk of failing to be proficient in grade 3 ELA or grade 8 math or is chronically absent.
- (9) Requires that MDE identify districts that do not meet the goal metrics by FY 2020-21 and partner with the district to review and revise district programs and practices.

House concurs with Executive except does not allow a district to use up to 5% of its funds for professional development; requires MDE to identify districts that do not meet the goal metrics by FY 2018-19 rather than FY 2020-21; and requires that the form and manner prescribed by MDE for the district report on use of at-risk funds be prescribed in a way that does not limit a district's ability to use funds on any activity permissible under this section.

Senate concurs with the Executive except for the following: expands allowable professional development expenditures to include implementing K to 3 early literacy as required in Sec. 1280f of the Revised School Code; adds that in accounting for economically disadvantaged pupils in a community district in FY 2017-18 those pupils that were enrolled in the education achievement system in FY 2016-17 would be counted as pupils in the community district for FY 2016-17.

### **Secs. 31a and 39a(1)(f). Transportation Reimbursement/Voucher – NEW**

Executive does not include this section.

House adds intent language for FY 2018-19 that a portion funds appropriated in Sections 31a (At-Risk) and 39a(1)(f) (federal Title I) shall be used to reimburse districts that provide transportation or transportation vouchers or passes to students attending a district that is not their resident district or a public school academy.

Senate does not include this section.

### **Sec 32d. Great Start Readiness Program (GSRP) – RETAINED**

Executive revises to require that 100% rather than 90% of GSRP participants meet the income eligibility of family income less than 250% of the federal poverty level. Deletes provision that allows a program to serve children in families with income up to 300% of the federal poverty level if all of the eligible children under 250% are served.

House concurs with Executive, but makes the following revisions: bars an entity that has an approved GSRP curriculum from being eligible for a grant to conduct a longitudinal evaluation of children who have participated in GSRP programs; adds Connect4Learning as an age-appropriate educational curriculum for GSRP.

Senate maintains current law.

### **Sec. 39. Great Start Readiness Program (GSRP) Formula Allocation – REVISED**

Executive eliminates the process whereby ISDs individually estimate the number of children eligible for the program and replaces it with an estimate provided by the MDE based on American Community Survey Census data.

Revises the formula allocation from being based on a half-day slot to number of children served in a school day program. The allocation for a child in a school day program would remain \$7,250 per day, or \$3,625 if in blended GSRP/Head Start program. An ISD would be allocated under the initial round of funding an amount equal to the amount they received in the prior year or an amount necessary to fund their available capacity if it is less than the prior year.

Creates a statewide benchmark of the percent of eligible children that were served by the program in previous year, currently at 60%. If funds remain after the initial allocations, remaining funding would be distributed to ISDs based on their proportional share of children unserved if they are below the state benchmark.

House and Senate concur with Executive.

**Major Boilerplate Changes From FY 2016-17**

**Sec. 51a (14)(15)(16). Special Education in Public School Academies – REVISED**

Executive and House maintains current law. Subsection (14) provides that in the absence of an agreement special education for a student enrolled in a charter school is the responsibility of the resident district and ISD. Subsection (15) provides for a 10% state aid penalty if a district, PSA, or ISD fails to comply with state and federal rules regarding the provision of special education. Senate revises to do the following: Revises (14) such that a PSA must enter into a written agreement with a resident district or ISD regarding the provision and payment of special education services, and in the absence of that agreement the PSA may not charge and is not eligible for any payment from the resident district or ISD. Eliminates the penalty under (15) and requires the MDE to allocate any federal IDEA funds directly to a PSA rather than to the ISD in which it is located. Adds (16) which requires that the ISD in which a PSA is located must ensure that the PSA complies with state and federal special education rules and law. Allocates up to \$500,000 in funds to reimburse the ISDs for the added costs of ensuring this compliance.

**Sec. 104c. State Student Assessments – REVISED**

Executive requires that MDE begin to develop and implement pilot programs or field testing of test content for the statewide use of benchmark assessments for grades 3 to 8 up to 3 times per year beginning in the 2018-2019 school year. Additionally, these benchmark assessments shall be fully aligned to the state content standards for English language arts and mathematics and may be computer-adaptive in nature.

House requires that MDE implement a request for information for a common formative assessment that is aligned with the state's content standards, but allows MDE to use information compiled from a request for proposal in 2016-2017 to satisfy this request.

Senate concurs with Executive.

**Sec. 107. Adult Education – REVISED**

Executive and House maintain current law.

Senate revises to push back the 2<sup>nd</sup> phase of the implementation of the new (began in FY 2014-15) funding formula by one year.

**Sec. 160. Labor Day Waiver Hearing – NEW**

Executive and House do not include this section.

Senate includes a new requirement that if a district requests a waiver to begin school before Labor Day, the district must hold a joint hearing with the MDE to be held in the district before said waiver can be granted

**Sec. 164g. Legal Action Against the State – NEW**

Executive does not include this section.

House establishes a penalty in an amount equal to the amount spent if a district or ISD uses funds appropriated under this act to pay for an expense relating to any legal action initiated by the district or ISD against the state.

Senate does not include this section.

**Sec. 164h. Collective Bargaining Agreement Penalty – NEW**

Executive does not include this section.

House establishes a penalty equal to 5% of total state aid if a district or ISD enters into a collective bargaining agreement that does any of the following: establishes racial and religious preferences for employees; automatically deducts union dues from employee compensation; is in conflict with any state or federal laws regarding district transparency; includes a method of compensation that does not comply with the requirements of section 1250 of the Revised School Code, MCL 380.1250.

Senate does not include this section.
