House Committee: Health Policy
Senate Committee: Health Policy

CONTENT

House Bill 6016 would amend the Public Health Code to revise the definition of "HIV infection" or "HIV infected".

House Bill 6017 would amend the Public Health Code to eliminate a requirement that the Department of Health and Human Services (DHHS) submit a biennial report to the Senate and the House of Representatives pertaining to HIV cases reported in the State.

House Bill 6018 (H-1) would amend the Public Health Code to revise the procedure for acquiring general informed consent to order an HIV test.

House Bill 6019 would amend the Public Health Code to revise the circumstances under which confidential information pertaining to an individual who was HIV infected could be disclosed.

House Bill 6022 (H-3) would amend the Public Health Code to require a physician to take or cause to be taken during the third trimester of a woman's pregnancy test specimens of the woman for the purpose of performing tests for HIV, hepatitis B, and syphilis.

House Bill 6023 would amend the Public Health Code to revise the time frame under which HIV test results would have to be reported, and to delete a provision prohibiting a local health department from maintaining a roster of names obtained through the report.

FISCAL IMPACT

House Bills 6016, 6019, 6022 (H-3) and 6023 would have no fiscal impact on State or local government.

House Bill 6017 would result in minor cost savings for the Department of Health and Human Services and local public health departments due to a reduction in document retention requirements, and duplicative reporting requirements.

House Bill 6018 (H-1) would result in a minor positive fiscal impact for the Department of Health and Human Services, and no fiscal impact on local units of government. The Department indicates savings of approximately \$25,000 due to a reduction in required pretest information materials.
