#### 14 CHAPTER VII

##### 15 Emergency Rule Codification

16 Sec. 701. For a grower registered under the industrial hemp  
17 research and development act, 2014 PA 547, MCL 286.841 to 286.859,  
18 beginning August 15, 2020 and until October 31, 2020, all of the  
19 following apply to the sampling, testing, and disposal of  
20 industrial hemp:

21 (a) A grower that intends to harvest or destroy an industrial  
22 hemp crop shall contact the department to schedule a total delta-9-  
23 THC test of a representative sample of each variety of industrial  
24 hemp by a testing facility. A grower that schedules a total delta-  
25 9-THC test under this subdivision shall submit a representative  
26 sample of each variety of industrial hemp to the department. A  
27 representative sample of each variety of industrial hemp must  
28 contain leaves and pistillate inflorescence. The department shall  
29 prescribe a sampling procedure and publish the sampling procedure

1 on the department's website. All representative samples submitted  
2 to the department under this subdivision are the property of the  
3 department.

4 (b) A testing facility shall perform total delta-9-THC testing  
5 on a representative sample of a variety of industrial hemp  
6 submitted to the department under subdivision (a) not less than 15  
7 days before the grower intends to harvest or destroy the industrial  
8 hemp crop.

9 (c) A testing facility that performs total delta-9-THC testing  
10 under subdivision (b) shall do all of the following:

11 (i) Test representative samples of industrial hemp in  
12 accordance with ASTM International or other nationally or  
13 internally recognized test methods, or any other test method  
14 approved by the department.

15 (ii) Perform the test postdecarboxylation.

16 (iii) Make a quantitative laboratory determination of the total  
17 delta-9-THC on a dry weight basis.

18 (d) The department or a grower may conduct additional testing  
19 on a representative sample of industrial hemp. The additional  
20 testing may include any of the following:

21 (i) Cannabidiol and cannabidiol acid levels.

22 (ii) Foreign matter inspections.

23 (iii) Microbial and mycotoxin screening.

24 (iv) Pesticides.

25 (v) Chemical residue.

26 (vi) Fungicides.

27 (vii) Insecticides.

28 (viii) Metals screenings.

1 (ix) Residual solvents levels.

2 (x) Terpene analysis.

3 (xi) Water activity content.

4 (e) The testing facility that conducts total delta-9-THC  
5 testing under subdivision (b) shall provide to the department and  
6 grower a certified report that states the results of the total  
7 delta-9-THC. The certified report must include the following  
8 information:

9 (i) The grower's registration number.

10 (ii) The grower's name.

11 (iii) The grower's address.

12 (iv) The industrial hemp growing location.

13 (v) The total delta-9-THC on a dry weight basis.

14 (f) Within 15 days after receipt of a certified report of  
15 compliant industrial hemp under subdivision (e), the grower shall  
16 harvest the compliant industrial hemp. If the grower is unable to  
17 complete harvesting of the compliant industrial hemp within 15  
18 days, the grower shall contact the department to schedule an  
19 additional total delta-9-THC test of a representative sample of  
20 each variety of industrial hemp by a testing facility. A grower  
21 that schedules an additional total delta-9-THC test under this  
22 subdivision shall submit a representative sample of each variety of  
23 industrial hemp that has not been harvested to the department.  
24 Within 15 days after receipt of an additional certified report of  
25 compliant industrial hemp under this subdivision, the grower shall  
26 harvest the remaining compliant industrial hemp.

27 (g) If the certified report of the total delta-9-THC test  
28 under subdivision (e) indicates a total delta-9-THC concentration  
29 that is more than 0.3% on a dry weight basis, the grower may

1 destroy the industrial hemp crop or repeat the total delta-9-THC  
 2 testing under subdivision (e) up to 2 additional times. If a third  
 3 total delta-9-THC test is conducted under this subdivision and the  
 4 certified report of the total delta-9-THC test indicates a total  
 5 delta-9-THC concentration that is more than 0.3% on a dry weight  
 6 basis, the testing facility shall provide to the department and  
 7 grower a certified report that states the results, and the  
 8 department shall issue to the grower a destruction order that  
 9 contains the following information:

10 (i) The industrial hemp crop to be destroyed.

11 (ii) The date by which the destruction of the industrial hemp  
 12 crop must occur.

13 (iii) If applicable, the method of destruction.

14 (iv) Whether department oversight of the destruction is  
 15 required.

16 (h) All growers are subject to inspection and sampling of  
 17 industrial hemp by the department at reasonable times to ensure  
 18 compliance with this section. If a grower fails to comply with a  
 19 department inspection, the department may initiate enforcement  
 20 proceedings. The grower or an authorized agent of the grower shall  
 21 be present during a department inspection or sampling and shall  
 22 provide the department with unrestricted access to all industrial  
 23 hemp, including all buildings and structures used for the  
 24 cultivation or storage of industrial hemp, and documents regarding  
 25 the growing of industrial hemp.

26 (i) As used in this section:

27 (i) "Compliant industrial hemp" means industrial hemp with a  
 28 total delta-9-THC concentration of not more than 0.3% on a dry  
 29 weight basis.

1           (ii) "Grower" means that term as defined in section 2 of the  
2 industrial hemp research and development act, 2014 PA 547, MCL  
3 286.842.
