House Bill 4543 as introduced
Sponsor: Rep. Mike Mueller
Committee: Families, Children and Seniors
Complete to 6-14-21

Analysis available at
<http://www.legislature.mi.gov>

SUMMARY:

House Bill 4543 would add a new section to 1973 PA 115, the child care licensing act, to require a child care organization that provides care to infants who are 9 months old or younger to have available on site and utilize a SIDS (sudden infant death syndrome) prevention monitor or home apnea monitor that monitors and tracks the breathing and heart rate of sleeping infants for each infant in its care who is 9 months old or younger.

The bill would take effect 90 days after its enactment.

Proposed MCL 722.113i

FISCAL IMPACT:

House Bill 4543 would have no fiscal impact on the Department of Licensing and Regulatory Affairs and no significant fiscal impact on the Department of Health and Human Services. Any increased costs would be dependent upon additional administrative expenses that might be incurred, such as costs for inspecting the new monitors that are required by the bill's provisions.
