The People of the State of Michigan enact:

Sec. 3. (1) “Average daily attendance”, for the purposes of complying with federal law, means 92% of the pupils counted in membership on the pupil membership count day, as defined in section 6(7).

(2) “Board” means the governing body of a district or public school academy.

(3) “Center” means the center for educational performance and information created in section 94a.

(4) “Community district” means a school district organized under part 5b of the revised school code, MCL 380.381 to 380.396.

(5) “Cooperative education program” means a written voluntary agreement between and among districts to provide certain educational programs for pupils in certain groups of districts. The written agreement must be approved by all affected districts at least annually and must specify the educational programs to be provided and the estimated number of pupils from each district who will participate in the educational programs.

(6) “Department”, except as otherwise provided in this article, means the department of education.

(7) “District” means, except as otherwise specifically provided in this act, a local school district established under the revised school code or, except in sections 6(4), 6(6), 11x, 11y, 13, 20, 22a, 22p, 31a, 51a(14), 105, 105c, and 166b, a public school academy. Except in section 20, district also includes a community district.

(8) “District of residence”, except as otherwise provided in this subsection, means the district in which a pupil’s custodial parent or parents or legal guardian resides. For a pupil described in section 24b, the pupil’s district of residence is the district in which the pupil enrolls under that section. For a pupil described in section 6(4)(d), the pupil’s district of residence is considered to be the district or intermediate district in which the pupil is counted in membership under that section. For a pupil under court jurisdiction who is placed outside the district in which the pupil’s custodial parent or parents or legal guardian resides, the pupil’s district of residence is considered to be the educating district or educating intermediate district.

(9) “District superintendent” means the superintendent of a district or the chief administrator of a public school academy.

Sec. 6. (1) “Center program” means a program operated by a district or by an intermediate district for special education pupils from several districts in programs for pupils with autism spectrum disorder, pupils with severe cognitive impairment, pupils with moderate cognitive impairment, pupils with severe multiple impairments, pupils with hearing impairment, pupils with visual impairment, and pupils with physical impairment or other health impairment. Programs for pupils with emotional impairment housed in buildings that do not serve regular education pupils also qualify. Unless otherwise approved by the department, a center program either serves all constituent districts within an intermediate district or serves several districts with less than 50% of the pupils residing in the operating district. In addition, special education center program pupils placed part-time in noncenter programs to comply with the least restrictive environment provisions of section 1412 of the individuals with disabilities education act, 20 USC 1412, may be considered center program pupils for pupil accounting purposes for the time scheduled in either a center program or a noncenter program.

(2) “District and high school graduation rate” means the annual completion and pupil dropout rate that is calculated by the center pursuant to nationally recognized standards.

(3) “District and high school graduation report” means a report of the number of pupils, excluding adult education participants, in the district for the immediately preceding school year, adjusted for those pupils who have transferred into or out of the district or high school, who leave high school with a diploma or other credential of equal status.

(4) “Membership”, except as otherwise provided in this article, means for a district, a public school academy, or an intermediate district the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district

on the pupil membership count day for the current school year, plus the product of .10 times the final audited count from the supplemental count day of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance in the district, public school academy, or intermediate district for the immediately preceding school year. A district's, public school academy's, or intermediate district's membership is adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. All pupil counts used in this subsection are as determined by the department and calculated by adding the number of pupils registered for attendance plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(a) Except as otherwise provided in this subsection, and pursuant to subsection (6), a pupil is counted in membership in the pupil's educating district or districts. An individual pupil must not be counted for more than a total of 1.0 full-time equated membership.

(b) If a pupil is educated in a district other than the pupil's district of residence, if the pupil is not being educated as part of a cooperative education program, if the pupil's district of residence does not give the educating district its approval to count the pupil in membership in the educating district, and if the pupil is not covered by an exception specified in subsection (6) to the requirement that the educating district must have the approval of the pupil's district of residence to count the pupil in membership, the pupil is not counted in membership in any district.

(c) A special education pupil educated by the intermediate district is counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, is counted in membership in the district or intermediate district approved by the department to operate the program.

(e) A pupil enrolled in the Michigan Schools for the Deaf and Blind is counted in membership in the pupil's intermediate district of residence.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established under section 690 of the revised school code, MCL 380.690, is counted in membership only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance, and for a district or public school academy, a pupil's participation in a virtual course as that term is defined in section 21f is considered regular daily attendance. Beginning July 1, 2021, this subdivision is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021. For the purposes of this subdivision, for a pupil enrolled in a cyber school, all of the following apply with regard to the participation requirement as described in this subdivision:

(i) Except as otherwise provided in this subdivision, the pupil shall participate in each scheduled course on pupil membership count day or supplemental count day, as applicable. If the pupil is absent on pupil membership count day or supplemental count day, as applicable, the pupil must attend and participate in class during the next 10 consecutive school days if the absence was unexcused, or during the next 30 calendar days if the absence was excused.

(ii) For a pupil who is not learning sequentially, 1 or more of the following must be met on pupil membership count day or supplemental count day, as applicable, for each scheduled course to satisfy the participation requirement under this subdivision:

(A) The pupil attended a live lesson from the teacher.

(B) The pupil logged into a lesson or lesson activity and the login can be documented.

(C) The pupil and teacher engaged in a subject-oriented telephone conversation.

(D) There is documentation of an email dialogue between the pupil and teacher.

(E) There is documentation of activity or work between the learning coach and pupil.

(F) An alternate form of attendance as determined and agreed upon by the cyber school and the pupil membership auditor was met.

(iii) For a pupil using sequential learning, the participation requirement under this subdivision is satisfied if either of the following occurs:

(A) Except as otherwise provided in this sub-subparagraph, the pupil and the teacher of record or mentor complete a 2-way interaction for 1 course during the week on which pupil membership count day or supplemental count day, as applicable, occurs, and the 3 consecutive weeks following that week. However, if a school break is scheduled during any of the weeks described in this sub-subparagraph that is 4 or more days in length or instruction has been canceled districtwide during any of the weeks described in this sub-subparagraph for 3 or more school days, the district is not required to ensure that the pupil and the teacher of record or mentor completed a 2-way interaction for that week. As used in this sub-subparagraph:

(I) “2-way interaction” means the communication that occurs between the teacher of record or mentor and pupil, where 1 party initiates communication and a response from the other party follows that communication. Responses as described in this sub-sub-subparagraph must be to the communication initiated by the teacher of record or mentor, and not some other action taken. This interaction may occur through, but is not limited to, means such as email, telephone, instant messaging, or face-to-face conversation. A parent- or legal-guardian-facilitated 2-way interaction is considered a 2-way interaction if the pupil is in any of grades K to 5 and does not yet possess the skills necessary to participate in 2-way interactions unassisted. The interactions described in this sub-sub-subparagraph must relate to a virtual course on the pupil’s schedule and pertain to course content or progress.

(II) “Mentor” means a professional employee of the district who monitors the pupil’s progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also be the teacher of record if the mentor meets the definition of a teacher of record under this sub-subparagraph and the district is the provider for the course.

(III) “Teacher of record” means a teacher to whom all of the following apply:

(1) He or she is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies. The teacher of record may coordinate the distribution and assignment of the responsibilities described in this sub-sub-sub-subparagraph with other teachers participating in the instructional process for a course.

(2) He or she is certified for the grade level or is working under a valid substitute permit, authorization, or approval issued by the department.

(3) He or she has a personnel identification code provided by the center.

(IV) “Week” means a period that starts on Wednesday and ends the following Tuesday.

(B) The pupil completes a combination of 1 or more of the following activities for each scheduled course on pupil membership count day or supplemental count day, as applicable:

(I) Documented attendance in a virtual course where synchronous, live instruction occurred with the teacher.

(II) Documented completion of a course assignment.

(III) Documented completion of a course lesson or lesson activity.

(IV) Documented pupil access to an ongoing lesson, which does not include a login.

(V) Documented physical attendance on pupil membership count day or supplemental count day, as applicable, in each scheduled course, if the pupil will attend at least 50% of the instructional time for each scheduled course on-site, face-to-face with the teacher of record. As used in this sub-sub-subparagraph, “teacher of record” means that term as defined in subparagraph (iii)(A).

(iv) For purposes of subparagraph (iii), each scheduled course currently being attempted by the pupil, rather than every course on the pupil’s schedule for the entire term, is considered a part of each scheduled course for the pupil.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation is determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership excludes from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, is counted in membership.

(l) To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, and must be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as that term is defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that he or she intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as that term is defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil is counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of his or her postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district is considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils, the district has 4.5 or fewer pupils per square mile, as determined by the department, and the district does not receive funding under section 22d(2), the district's membership is considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the

affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. If a district has established a community engagement advisory committee in partnership with the department of treasury, is required to submit a deficit elimination plan or an enhanced deficit elimination plan under section 1220 of the revised school code, MCL 380.1220, and is located in a city with a population between 9,000 and 11,000, as determined by the department, that is in a county with a population between 150,000 and 160,000, as determined by the department, the district's membership is considered to be the membership figure calculated under this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code are determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day is not considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil is excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b must not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead paid under section 25g. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district's membership is adjusted to count the pupil in membership as if he or she had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b must not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.

(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil's tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate's degree in fewer than 5 years.

(ll) If a district's or public school academy's membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district's or public school academy's membership for pupils counted under section 166b equals or exceeds 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district's or public school academy's membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district's or public school academy's membership for pupils counted under section 166b is less than 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district's or public school academy's membership for pupils counted under section 166b must not exceed the greater of the following:

(A) Five percent of the district's or public school academy's membership for pupils not counted in membership under section 166b.

(B) Ten percent more than the district's or public school academy's membership for pupils counted under section 166b in the immediately preceding fiscal year.

(iii) If 1 or more districts consolidate or are parties to an annexation, then the calculations under subparagraphs (i) and (ii) must be applied to the combined total membership for pupils counted in those districts for the fiscal year immediately preceding the consolidation or annexation.

A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this article if the district would otherwise experience a significant hardship in satisfying its financial obligations. However, a district that presented satisfactory evidence of hardship and was undergoing an extended adjustment during 2018-2019 may continue to use the period of extended adjustment as originally granted by the department.

(3) If, based on an audit by the department or the department's designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district's or intermediate district's allocation in the next apportionment after the adjustment is finalized. The department shall calculate the deduction or payment according to the law in effect in the fiscal year in which the incorrect amount was paid. If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable must be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

The audits must be performed by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city. A district or intermediate district shall retain these records for the current fiscal year and from at least the 3 immediately preceding fiscal years.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. However, if legislation is enacted that necessitates adjustments to the pupil accounting manual after March 31 of a fiscal year, and a district incurs a violation of the amended pupil accounting manual in the subsequent fiscal year, the department must notify the district of that violation and allow the district 30 days to correct the violation before the department is allowed to impose financial penalties under this act related to the violation.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), (7), and (12), or if the department determines that the financial data required under subsection (5) are not consistent with audited financial statements, the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), (7), and (12). Sec. 20. (1) All of the following apply:

(a) For 2021-2022, the target foundation allowance is \$8,700.00.

(b) For 2021-2022, the minimum foundation allowance is \$8,700.00.

(c) For 2022-2023, the target foundation allowance is \$9,150.00.

(2) The department shall calculate the amount of each district’s foundation allowance as provided in this section, using a target foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district’s foundation allowance as follows, using in all calculations the total amount of the district’s foundation allowance as calculated before any proration:

(a) For 2021-2022, for a district that had a foundation allowance for the immediately preceding fiscal year that was at least equal to the minimum foundation allowance for the immediately preceding fiscal year, but less than the target foundation allowance for the immediately preceding fiscal year, the district’s foundation allowance is \$8,700.00. Except as otherwise provided in this subdivision, except for 2021-2022, for a district that had a foundation allowance for the immediately preceding fiscal year that was equal to the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the target foundation allowance described in subsection (1) for the current fiscal year.

(b) For a district that in the immediately preceding fiscal year had a foundation allowance in an amount equal to the amount of the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance for 2021-2022 in an amount equal to the target foundation allowance for 2021-2022. This subdivision does not apply after the 2021-2022 fiscal year.

(c) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district’s foundation allowance is an amount equal to the sum of the district’s foundation allowance for the immediately preceding fiscal year plus the lesser of the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year, or the product of the district’s foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b. This subdivision does not apply after the 2021-2022 fiscal year.

(d) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district’s foundation allowance is an amount equal to the lesser of (the sum of the district’s foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district’s foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b). This subdivision does not apply for the 2021-2022 fiscal year.

(e) For a district that has a foundation allowance that is less than the target foundation allowance in the current fiscal year but had a foundation allowance in fiscal year 2020-2021 that was greater than the target foundation allowance in effect for that fiscal year, the district’s foundation allowance is an amount equal to the

lesser of (the sum of the district's foundation allowance for fiscal year 2020-2021 plus the increase in the target foundation allowance for the current fiscal year, as compared to fiscal year 2020-2021) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b). This subdivision does not apply for the 2021-2022 fiscal year.

(f) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district's foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district's foundation allowance. Except as otherwise provided in this subsection, for a district described in subsection (3)(d) and (e), beginning in 2021-2022, the state portion of the district's foundation allowance is an amount equal to the target foundation allowance minus the district's foundation allowance supplemental payment per pupil calculated under section 20m and minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the foundation allowance of the pupil's district of residence. For a pupil enrolled under section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section is based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section is based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to, for 2021-2022, the minimum foundation allowance specified in subsection (1)(b) and, for 2022-2023, the target foundation allowance specified in subsection (1)(c). Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection must be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation must not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) For pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation is the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this section to the fourth decimal place and shall round the dollar amount of an increase in the target foundation allowance to the nearest whole dollar.

(10) Except as otherwise provided in this subsection, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51a and section 51e. All of the following apply with regard to state payments related to payment of the foundation allowance for a special education pupil:

(a) For 2022-2023, state payments described in this subsection are not calculated under this section but are instead calculated as follows:

(i) Twenty-five percent is calculated under section 51a.

(ii) Seventy-five percent is calculated under section 51e.

(b) It is the intent of the legislature that, in future fiscal years, 100% of state payments described in this subsection will be calculated under this section.

(11) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for state school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

(14) As used in this section:

(a) "Certified mills" means the lesser of 18 mills or the number of mills of school operating taxes levied by the district in 1993-94.

(b) "Current fiscal year" means the fiscal year for which a particular calculation is made.

(d) "Immediately preceding fiscal year" means the fiscal year immediately preceding the current fiscal year.

(e) "Local portion of the district's foundation allowance" means an amount that is equal to the difference between (the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills) and (the quotient of the product of the captured assessed valuation under

tax increment financing acts times the district's certified mills divided by the district's membership excluding special education pupils).

(f) "Membership" means the definition of that term under section 6 as in effect for the particular fiscal year for which a particular calculation is made.

(g) "Nonexempt property" means property that is not a principal residence, qualified agricultural property, qualified forest property, supportive housing property, industrial personal property, commercial personal property, or property occupied by a public school academy.

(h) "Principal residence", "qualified agricultural property", "qualified forest property", "supportive housing property", "industrial personal property", and "commercial personal property" mean those terms as defined in section 1211 of the revised school code, MCL 380.1211.

(i) "Receiving district" means a district to which all or part of the territory of a dissolved district is attached under section 12 of the revised school code, MCL 380.12.

(j) "School operating purposes" means the purposes included in the operation costs of the district as prescribed in sections 7 and 18 and purposes authorized under section 1211 of the revised school code, MCL 380.1211.

(k) "School operating taxes" means local ad valorem property taxes levied under section 1211 of the revised school code, MCL 380.1211, and retained for school operating purposes.

(l) "Tax increment financing acts" means parts 2, 3, 4, and 6 of the recodified tax increment financing act, 2018 PA 57, MCL 125.4201 to 125.4420 and 125.4602 to 125.4629, or the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670.

(m) "Taxable value per membership pupil" means taxable value, as certified by the county treasurer and reported to the department, for the calendar year ending in the current state fiscal year divided by the district's membership excluding special education pupils for the school year ending in the current state fiscal year.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2022-2023, the department and the department of treasury shall comply with all of the following:

(a) For a district that had combined state and local revenue per membership pupil in the 1994-95 fiscal year of \$6,500.00 or more and served as a fiscal agent for a state board designated area vocational education center in the 1993-94 school year, total state school aid received by or paid on behalf of the district under this act in 1993-94 excludes payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services to the area vocational education center. Not later than June 30, 1996, the department shall make an adjustment under this subdivision to the district's combined state and local revenue per membership pupil in the 1994-95 fiscal year and the department of treasury shall make a final certification of the number of mills that may be levied by the district under section 1211 of the revised school code, MCL 380.1211, as a result of the adjustment under this subdivision.

(b) If a district had an adjustment made to its 1993-94 total state school aid that excluded payments made under former section 146 and under section 147 on behalf of the district's employees who provided direct services for intermediate district center programs operated by the district under former section 51 and sections 51a to 56, if nonresident pupils attending the center programs were included in the district's membership for purposes of calculating the combined state and local revenue per membership pupil for 1993-94, and if there is a signed agreement by all constituent districts of the intermediate district agreeing to an adjustment under this subdivision, the department shall calculate the foundation allowances for 1995-96 and 1996-97 of all districts that had pupils attending the intermediate district center program operated by the district that had the adjustment as if their combined state and local revenue per membership pupil for 1993-94 included resident pupils attending the center program and excluded nonresident pupils attending the center program.

Sec. 20f. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$18,000,000.00 for 2022-2023 for payments to eligible districts under this section.

(2) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the district received a payment under this section as it was in effect for 2013-2014. A district was eligible for funding in 2013-2014 if the sum of the following was less than \$5.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district's equity payment per membership pupil under former section 22c for 2013-2014.

(c) The quotient of the district's allocation under section 147a for 2012-2013 divided by the district's membership pupils for 2012-2013 minus the quotient of the district's allocation under section 147a for 2013-2014 divided by the district's membership pupils for 2013-2014.

(3) The amount allocated to each eligible district under subsection (2) is an amount per membership pupil equal to the amount per membership pupil the district received under this section in 2013-2014.

(4) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the sum of the following is less than \$25.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(5) The amount allocated to each eligible district under subsection (4) is an amount per membership pupil equal to \$25.00 minus the sum of the following:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(6) If the allocation under subsection (1) is insufficient to fully fund payments under subsections (3) and (5) as otherwise calculated under this section, the department shall prorate payments under this section on an equal per-pupil basis.

Sec. 20m. (1) Foundation allowance supplemental payments for the current fiscal year to qualifying districts with an adjustment to their foundation allowance from fiscal year 2020-2021 to the current fiscal year that is less than the adjustment in the target foundation allowance from fiscal year 2020-2021 to the current fiscal year must be calculated under this section.

(2) The per-pupil allocation to each qualifying district under this section is the difference between the dollar amount of the adjustment from fiscal year 2020-2021 to the current fiscal year in the target foundation allowance minus the dollar amount of the adjustment from fiscal year 2020-2021 to the current fiscal year in a qualifying district's foundation allowance.

(3) If a district's local revenue per pupil does not exceed the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section is the product of the per-pupil allocation under subsection (2) multiplied by the district's membership, excluding special education pupils. If a district's local revenue per pupil exceeds its foundation allowance under section 20 but does not exceed the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section is the product of the difference between the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2) minus the local revenue per pupil multiplied by the district's membership, excluding special education pupils. If a district's local revenue per pupil exceeds the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), there is no payment calculated under this section for the district.

(4) Payments to districts must not be made under this section. Rather, the calculations under this section are used to determine the amount of state payments that are made under section 22b.

(5) As used in this section, "qualifying district" means a district where the millage limitation in section 1211(3) of the revised school code, MCL 380.1211, is applied due to the increase in the target foundation allowance from the immediately preceding fiscal year to the current fiscal year exceeding the percentage increase in the general price level in the immediately preceding calendar year applied to the district's immediately preceding fiscal year foundation allowance.

Sec. 21b. (1) Subject to subsections (2) and (3), a district shall use funds received under section 22a or 22b to support the attendance of a district pupil who is an eligible student at an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or under the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, by paying eligible charges on behalf of the district pupil as required under those acts.

(2) A district is not required to pay transportation costs, parking costs, or activity fees on behalf of an eligible student for attendance at an eligible postsecondary institution as described in subsection (1).

(3) A district may pay more money to an eligible postsecondary institution on behalf of an eligible student than required under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and may use local school operating revenue for that purpose. An eligible student is responsible for payment of the remainder of the costs associated with his or her postsecondary enrollment that exceed the amount the district is required to pay under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and that are not paid by the district. As used in this subsection, "local school operating revenue" means that term as defined in section 22b.

(4) As used in this section, "eligible student" and "eligible postsecondary institution" mean those terms as defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or in section 3 of the career and technical preparation act, 2000 PA 258, MCL 388.1903, as applicable.

Sec. 21f. (1) A primary district shall enroll an eligible pupil in virtual courses in accordance with the provisions of this section. A primary district shall not offer a virtual course to an eligible pupil unless the virtual course is published in the primary district's catalog of board-approved courses or in the statewide catalog of virtual courses maintained by the Michigan Virtual University pursuant to section 98. The primary district shall also provide on its publicly accessible website a link to the statewide catalog of virtual courses maintained by the Michigan Virtual University. Unless the pupil is at least age 18 or is an emancipated minor, a pupil must not be enrolled in a virtual course without the consent of the pupil's parent or legal guardian.

(2) Subject to subsection (3), a primary district shall enroll an eligible pupil in up to 2 virtual courses as requested by the pupil during an academic term, semester, or trimester.

(3) A pupil may be enrolled in more than 2 virtual courses in a specific academic term, semester, or trimester if both of the following conditions are met:

(a) The primary district has determined that it is in the best interest of the pupil.

(b) The pupil agrees with the recommendation of the primary district.

(4) If the number of applicants eligible for acceptance in a virtual course does not exceed the capacity of the provider to provide the virtual course, the provider shall accept for enrollment all of the applicants eligible for acceptance. If the number of applicants exceeds the provider's capacity to provide the virtual course, the provider shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders. A primary district that is also a provider shall determine whether or not it has the capacity to accept applications for enrollment from nonresident applicants in virtual courses and may use that limit as the reason for refusal to enroll a nonresident applicant.

(5) A primary district may not establish additional requirements beyond those specified in this subsection that would prohibit a pupil from taking a virtual course. A pupil's primary district may deny the pupil enrollment in a virtual course if any of the following apply, as determined by the district:

(a) The pupil is enrolled in any of grades K to 5.

(b) The pupil has previously gained the credits that would be provided from the completion of the virtual course.

(c) The virtual course is not capable of generating academic credit.

(d) The virtual course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(e) The pupil has not completed the prerequisite coursework for the requested virtual course or has not demonstrated proficiency in the prerequisite course content.

(f) The pupil has failed a previous virtual course in the same subject during the 2 most recent academic years.

(g) The virtual course is of insufficient quality or rigor. A primary district that denies a pupil enrollment request for this reason shall enroll the pupil in a virtual course in the same or a similar subject that the primary district determines is of acceptable rigor and quality.

(h) The cost of the virtual course exceeds the amount identified in subsection (10), unless the pupil or the pupil's parent or legal guardian agrees to pay the cost that exceeds this amount.

(i) The request for a virtual course enrollment did not occur within the same timelines established by the primary district for enrollment and schedule changes for regular courses.

(j) The request for a virtual course enrollment was not made in the academic term, semester, trimester, or summer preceding the enrollment. This subdivision does not apply to a request made by a pupil who is newly enrolled in the primary district.

(6) If a pupil is denied enrollment in a virtual course by the pupil's primary district, the primary district shall provide written notification to the pupil of the denial, the reason or reasons for the denial under subsection (5), and a description of the appeal process. The pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's primary district is located. The letter of appeal must include the reason provided by the primary district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the primary district shall enroll the pupil in the virtual course.

(7) To provide a virtual course to an eligible pupil under this section, a provider must do all of the following:

(a) Ensure that the virtual course has been published in the pupil's primary district's catalog of board-approved courses or published in the statewide catalog of virtual courses maintained by the Michigan Virtual University.

(b) Assign to each pupil a teacher of record and provide the primary district with the personnel identification code assigned by the center for the teacher of record. If the provider is a community college, the virtual course must be taught by an instructor employed by or contracted through the providing community college.

(c) Offer the virtual course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(d) If the virtual course is offered to eligible pupils in more than 1 district, the following additional requirements must also be met:

(i) Provide the Michigan Virtual University with a course syllabus that meets the definition under subsection (14)(g) in a form and manner prescribed by the Michigan Virtual University for inclusion in a statewide catalog of virtual courses.

(ii) Not later than October 1 of each fiscal year, provide the Michigan Virtual University with an aggregated count of enrollments for each virtual course the provider delivered to pupils under this section during the immediately preceding school year, and the number of enrollments in which the pupil earned 60% or more of the total course points for each virtual course.

(8) To provide a virtual course under this section, a community college shall ensure that each virtual course it provides under this section generates postsecondary credit.

(9) For any virtual course a pupil enrolls in under this section, the pupil's primary district must assign to the pupil a mentor and shall supply the provider with the mentor's contact information.

(10) For a pupil enrolled in 1 or more virtual courses, the primary district shall use foundation allowance or per-pupil funds calculated under section 20 to pay for the expenses associated with the virtual course or courses. A primary district is not required to pay toward the cost of a virtual course an amount that exceeds 6.67% of the target foundation allowance for the current fiscal year as calculated under section 20.

(11) A virtual learning pupil has the same rights and access to technology in his or her primary district's school facilities as all other pupils enrolled in the pupil's primary district. The department shall establish standards for hardware, software, and internet access for pupils who are enrolled in more than 2 virtual courses under this section in an academic term, semester, or trimester taken at a location other than a school facility.

(12) If a pupil successfully completes a virtual course, as determined by the pupil's primary district, the pupil's primary district shall grant appropriate academic credit for completion of the course and shall count that credit toward completion of graduation and subject area requirements. A pupil's school record and transcript must identify the virtual course title as it appears in the virtual course syllabus.

(13) The enrollment of a pupil in 1 or more virtual courses must not result in a pupil being counted as more than 1.0 full-time equivalent pupils under this article. The minimum requirements to count the pupil in membership are those established by the pupil accounting manual as it was in effect for the 2015-2016 school year or as subsequently amended by the department if the department notifies the legislature about the proposed amendment at least 60 days before the amendment becomes effective.

(14) As used in this section:

(a) “Instructor” means an individual who is employed by or contracted through a community college.

(b) “Mentor” means a professional employee of the primary district who monitors the pupil’s progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also serve as the teacher of record if the primary district is the provider for the virtual course and the mentor meets the requirements under subdivision (e).

(c) “Primary district” means the district that enrolls the pupil and reports the pupil for pupil membership purposes.

(d) “Provider” means the district, intermediate district, community college, or other third-party vendor that the primary district pays to provide the virtual course or the Michigan Virtual University if it is providing the virtual course.

(e) “Teacher of record” means a teacher who meets all of the following:

(i) Holds a valid Michigan teaching certificate or a teaching permit recognized by the department.

(ii) If applicable, is endorsed in the subject area and grade of the virtual course.

(iii) Is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies.

(iv) Has a personnel identification code provided by the center.

(v) If the provider is a community college, is an instructor employed by or contracted through the providing community college.

(f) “Virtual course” means a course of study that is capable of generating a credit or a grade and that is provided in an interactive learning environment where the majority of the curriculum is delivered using the internet and in which pupils may be separated from their instructor or teacher of record by time or location, or both.

(g) “Virtual course syllabus” means a document that includes all of the following:

(i) An alignment document detailing how the course meets applicable state standards or, if the state does not have state standards, nationally recognized standards.

(ii) The virtual course content outline.

(iii) The virtual course required assessments.

(iv) The virtual course prerequisites.

(v) Expectations for actual instructor or teacher of record contact time with the virtual learning pupil and other communications between a pupil and the instructor or teacher of record.

(vi) Academic support available to the virtual learning pupil.

(vii) The virtual course learning outcomes and objectives.

(viii) The name of the institution or organization providing the virtual content.

(ix) The name of the institution or organization providing the instructor or teacher of record.

(x) The course titles assigned by the provider and the course titles and course codes from the National Center for Education Statistics (NCES) school codes for the exchange of data (SCED).

(xi) The number of eligible pupils that will be accepted by the provider in the virtual course. A primary district that is also the provider may limit the enrollment to those pupils enrolled in the primary district.

(xii) The results of the virtual course quality review using the guidelines and model review process published by the Michigan Virtual University.

(h) “Virtual learning pupil” means a pupil enrolled in 1 or more virtual courses.

Sec. 21h. (1) From the state school aid fund money appropriated in section 11, there is allocated \$6,137,400.00 for 2022-2023 for assisting districts assigned by the superintendent to participate in a partnership and districts that have established a community engagement advisory committee in partnership with the department of treasury, are required to submit a deficit elimination plan or an enhanced deficit elimination plan under section 1220 of the revised school code, MCL 380.1220, and are located in a city with a population between 9,000 and 11,000, as determined by the department, that is in a county with a population between 150,000 and 160,000, as determined by the department, to improve student achievement and district financial stability. The superintendent shall collaborate with the state treasurer to identify any conditions that may be contributing to low academic performance within a district being considered for assignment to a partnership. The purpose of the partnership is to identify district needs, develop intervention plans, and partner with public, private, and nonprofit organizations to coordinate resources and improve student achievement. Assignment of a district to a partnership is made by the superintendent in consultation with the state treasurer.

(2) A district described in subsection (1) is eligible for funding under this section if the district includes at least 1 school that has been identified as low performing under the approved federal accountability system or the state accountability system. A district described in this subsection must do all of the following to be eligible for funding under this section:

(a) For a partnership district under this section, within 90 days of assignment to the partnership described in this section, and for a district described in subsection (1) that is not a partnership district under this section, by October 15 of each year, complete a comprehensive needs assessment or evaluation in collaboration with an intermediate district, community members, education organizations, and postsecondary institutions, as applicable, that is approved by the superintendent. The comprehensive needs assessment or evaluation must include at least all of the following:

(i) A review of the district's implementation and utilization of a multi-tiered system of supports to ensure that it is used to appropriately inform instruction.

(ii) A review of the district and school building leadership and educator capacity to substantially improve student outcomes.

(iii) A review of classroom, instructional, and operational practices and curriculum to ensure alignment with research-based instructional practices and state curriculum standards.

(b) Develop an academic and financial operating or intervention plan that has been approved by the superintendent and that addresses the needs identified in the comprehensive needs assessment or evaluation completed under subdivision (a). The intervention plan must include at least all of the following:

(i) Specific actions that will be taken by the district and each of its partners to improve student achievement.

(ii) Specific measurable benchmarks that will be met within 18 months to improve student achievement and identification of expected student achievement outcomes to be attained within 3 years after assignment to the partnership.

(c) Craft academic goals that put pupils on track to meet or exceed grade level proficiency.

(3) Upon approval of the academic and financial operating or intervention plan developed under subsection (2), the department, in collaboration with the department of treasury, shall assign a team of individuals with expertise in comprehensive school and district reform to partner with the district, the intermediate district, community organizations, education organizations, and postsecondary institutions identified in the academic and financial operating or intervention plan to review the district's use of existing financial resources to ensure that those resources are being used as efficiently and effectively as possible to improve student academic achievement and to ensure district financial stability. The superintendent of public instruction may waive burdensome administrative rules for a partnership district for the duration of the partnership agreement and for a district described in subsection (1) that is not a partnership district under this section and that receives funding under this section in the current fiscal year.

(4) Funds allocated under this section, excluding funds allocated under subsection (5), may be used to pay for district expenditures approved by the superintendent to improve student achievement. Funds may be used for professional development for teachers or district or school leadership, increased instructional time, teacher mentors, or other expenditures that directly impact student achievement and cannot be paid from existing district financial resources. An eligible district must not receive funds under this section for more than 3 years. Notwithstanding section 17b, the department shall make payments to districts under this section on a schedule determined by the department.

(5) From the funds allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$137,400.00 for the purchase of a data analytics tool to be used by districts described in subsection (1). The superintendent of public instruction shall require districts described in subsection (1) to purchase a data analytics tool funded under this subsection as part of the agreements described in this section.

(6) The department, in consultation with the department of treasury, shall annually report to the legislature on the activities funded under this section and how those activities impacted student achievement in districts that received funds under this section. To the extent possible, participating districts receiving funding under this section shall participate in the report.

Sec. 22a. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$4,492,000,000.00 for 2021-2022 and there is allocated an amount not to exceed \$4,376,000,000.00 for 2022-2023 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per-pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district

levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c to fully fund those allocations for the same fiscal year. For each fund transfer as described in the immediately preceding sentence that occurs, the state budget director shall send notification of the transfer to the house and senate appropriations subcommittees on state school aid and the house and senate fiscal agencies by not later than 14 calendar days after the transfer occurs.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per-pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the department shall reduce the allocation as otherwise calculated under this section by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction is offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection is the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision must be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount is an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there is not a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) For pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per-pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation is the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected

district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance is considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

(7) As used in this section:

(a) "1994-95 foundation allowance" means a district's 1994-95 foundation allowance calculated and certified by the department of treasury or the superintendent under former section 20a as enacted in 1993 PA 336 and as amended by 1994 PA 283.

For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, school operating taxes do not include school operating taxes levied within the geographic area of the dissolved district.

For a receiving district, if school operating taxes are to be levied

on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, mills do not include mills within the geographic area of the dissolved district.

Sec. 22b. (1) For discretionary nonmandated payments to districts under this section, there is allocated for 2021-2022 an amount not to exceed \$5,094,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11, and there is allocated for 2022-2023 an amount not to exceed \$5,686,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11. Of the funds allocated under this section for 2021-2022, \$14,500,000.00 represents the amount of the general fund revenue deposited into the state school aid fund to reimburse the state school aid fund for community district education trust fund costs in excess of \$72,000,000.00. Of the funds allocated under this section for 2022-2023, \$19,500,000.00 represents the amount of the general fund revenue deposited into the state school aid fund to reimburse the state school aid fund for community district education trust fund costs in excess of \$72,000,000.00. If the amount allocated under this subsection from the community district education trust fund appropriation under section 11 is insufficient to pay for an increase under this section, any amount exceeding that allocation may be paid from other allocations under this subsection. Except for money allocated under this section from the community district education trust fund appropriation in section 11, funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c to fully fund those allocations for the same fiscal year. For each fund transfer as described in the immediately preceding sentence that occurs, the state budget director shall send notification of the transfer to the house and senate appropriations subcommittees on state school aid and the house and senate fiscal agencies by not later than 14 calendar days after the transfer occurs.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section is an amount equal to the sum of the amounts calculated under sections 20, 20m, 51a(2), 51a(3), and 51a(11), minus the sum of the allocations to the district under sections 22a and 51c. For a community district, the allocation as otherwise calculated under this section is increased by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and this increase must be paid from the community district education trust fund allocation in subsection (1) in order to offset the absence of local school operating revenue in a community district in the funding of the state portion of the foundation allowance under section 20(4).

(3) In order to receive an allocation under subsection (1), each district must do all of the following:

- (a) Comply with section 1280b of the revised school code, MCL 380.1280b.

- (e) Comply with section 21f.
- (f) For a district that has entered into a partnership agreement with the department, comply with section 22p.

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection must be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, 51e, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project is completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (7) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals has and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX Medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project is completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal title XIX Medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396w-5.

(12) As used in this section:

(a) "Dissolved district" means that term as defined in section 20.

(b) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, local school operating revenue does not include school operating taxes levied within the geographic area of the dissolved district.

(c) "Receiving district" and "school operating taxes" mean those terms as defined in section 20.

Sec. 22c. From the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$3,000,000.00 for payments to eligible districts as provided under this section. The payment for an eligible district under this section must be in an amount per membership pupil equal to \$171.00. As used in this section:

(a) "Eligible district" means a district that received payments under this section in the immediately preceding fiscal year and for which the local school operating revenue per membership pupil in the current school fiscal year exceeds the district's foundation allowance as calculated under section 20 for the current fiscal year.

(b) "Local school operating revenue" means that term as defined in section 22b.

(c) "Local school operating revenue per membership pupil" means a district's local school operating revenue divided by the district's membership excluding special education pupils.

- (c) Each school building operated by the district meets at least 1 of the following:
 - (i) Is located in the Upper Peninsula at least 30 miles from any other public school building.
 - (ii) Is located on an island that is not accessible by bridge.

(3) The amount of the additional funding to each eligible district under subsection (2) is determined under a spending plan developed as provided in this subsection and approved by the superintendent of public instruction. The spending plan must be developed cooperatively by the intermediate superintendents of each intermediate district in which an eligible district is located. The intermediate superintendents shall review the financial situation of each eligible district, determine the minimum essential financial needs of each eligible district, and develop and agree on a spending plan that distributes the available funding under subsection (2) to the eligible districts based on those financial needs. The intermediate superintendents shall submit the spending plan to the superintendent of public instruction for approval. Upon approval by the superintendent of public instruction, the amounts specified for each eligible district under the spending plan are allocated under subsection (2) and must be paid to the eligible districts in the same manner as payments under section 22b.

(4) Subject to subsection (7), from the allocation in subsection (1), there is allocated for 2022-2023 an amount not to exceed \$6,357,000.00 for payments under this subsection to districts that have fewer than 10.0 pupils per square mile as determined by the department.

(5) The funds allocated under subsection (4) are allocated as follows:

(b) The balance of the funding under subsection (4) is allocated as follows:

(i) For districts with at least 8.0 but fewer than 9.0 pupils per square mile, as determined by the department, the allocation is an amount per pupil equal to 75% of the per-pupil amount allocated to districts under subdivision (a).

(ii) For districts with at least 9.0 but fewer than 10.0 pupils per square mile, as determined by the department, the allocation is an amount per pupil equal to 50% of the per-pupil amount allocated to districts under subdivision (a).

(c) If the total funding allocated under subdivision (b) is not sufficient to fully fund payments as calculated under that subdivision, the department shall prorate payments to districts under subdivision (b) on an equal per-pupil basis.

(6) From the allocation in subsection (1), there is allocated an amount not to exceed \$862,700.00 for payments under this subsection to districts that have greater than 250 square miles and that do not receive funding under subsection (2) or (4). The funds allocated under this subsection must be allocated on an equal per-pupil basis.

(7) A district receiving funds allocated under subsection (2) is not eligible for funding allocated under subsection (4).

Sec. 22m. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$2,200,000.00 for supporting the integration of local data systems into the Michigan data hub network based on common standards and applications that are in compliance with section 19(6).

(2) An entity that is the fiscal agent for no more than 5 consortia of intermediate districts that previously received funding from the technology readiness infrastructure grant under former section 22i for the purpose of establishing regional data hubs that are part of the Michigan data hub network is eligible for funding under this section.

(3) The center shall work with an advisory committee composed of representatives from intermediate districts within each of the data hub regions to coordinate the activities of the Michigan data hub network.

(4) The center, in collaboration with the Michigan data hub network, shall determine the amount of funds distributed under this section to each participating regional data hub within the network, based upon a competitive grant process. The center shall ensure that the entities receiving funding under this section represent geographically diverse areas in this state.

(5) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the center.

(6) To receive funding under this section, a regional data hub must have a governance model that ensures local control of data, data security, and student privacy issues. The integration of data within each of the regional data hubs must provide for the actionable use of data by districts and intermediate districts through common reports and dashboards and for efficiently providing information to meet state and federal reporting purposes.

(7) Participation in a data hub region in the Michigan data hub network under this section is voluntary and is not required.

(8) Entities receiving funding under this section shall use the funds for all of the following:

(a) Creating an infrastructure that effectively manages the movement of data between data systems used by intermediate districts, districts, and other educational organizations in Michigan based on common data standards to improve student achievement.

The center shall submit the report to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies.

Sec. 22p. (1) Subject to subsection (2), in order to receive funding under section 22b, a district or public school academy that is assigned by the superintendent of public instruction as a partnership district must have a signed 3-year partnership agreement with the department that includes all of the following:

(a) Measurable academic outcomes that the district or public school academy will achieve for each school operated by the district or public school academy that is subject to the partnership agreement after 18 months and after 36 months from the date the agreement was originally signed. Measurable academic outcomes under this subdivision must include all of the following:

(i) Outcomes that put pupils on track to meet or exceed grade level proficiency and that are based on district or public school academy needs identified as required under section 21h.

(ii) Either of the following, as applicable:

(A) At least 1 proficiency or growth outcome based on state assessments described in section 104b or 104c.

(B) At least 1 proficiency or growth outcome based on a benchmark assessment described in section 104h or 104i, as applicable.

(b) Accountability measures to be imposed if the district or public school academy does not achieve the measurable academic outcomes described in subdivision (a) for each school operated by the district or public school academy that is subject to the partnership agreement. For a district assigned as a partnership district as described in this subsection, accountability measures under this subdivision must include the reconstitution of the school. For a public school academy assigned as a partnership district as described in this subsection, accountability measures under this subdivision may include the reconstitution of the school.

(c) For a public school academy assigned as a partnership district as described in this subsection, a requirement that, if reconstitution is imposed on a school that is operated by the public school academy and that is subject to the partnership agreement, the school must be reconstituted as described in section 507, 528, or 561, as applicable, of the revised school code, MCL 380.507, 380.528, and 380.561.

(d) For a district assigned as a partnership district as described in this subsection, a provision that, if reconstitution is imposed on a school that is operated by the district and that is subject to the partnership agreement, reconstitution may require closure of the school building, but, if the school building remains open, reconstitution must include, but is not limited to, all of the following:

(i) The district shall make significant changes to the instructional and noninstructional programming of the school based on the needs identified through a comprehensive review of data in compliance with section 21h.

(ii) The district shall review whether the current principal of the school should remain as principal or be replaced.

(iii) The reconstitution plan for the school must require the adoption of goals similar to the goals included in the partnership agreement, with a limit of 3 years to achieve the goals. If the goals are not achieved within 3 years, the superintendent of public instruction shall impose a second reconstitution plan.

(2) If a district or public school academy is assigned as a partnership district as described in subsection (1) during the current fiscal year, it shall ensure that it has a signed partnership agreement as described in subsection (1) in place by not later than 90 days after the date that it is assigned as a partnership district. The amount of the payment under this section to a district or intermediate district is calculated as prescribed under subsection (2).

(2) The department shall allocate the total amount allocated under this section by paying to the educating district or intermediate district an amount equal to the lesser of the district’s or intermediate district’s added cost or the department’s approved per-pupil allocation for the district or intermediate district. Sec. 30c. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 only an amount not to exceed \$15,000,000.00 to districts for implementation of the troops-to-teachers initiative as described in this section.

(2) Except as otherwise provided in this subsection, to receive funding under this section, a district must apply for the funding in a form and manner prescribed by the department. In its application described in this subsection, a district must include all of the following:

(a) A pledge that it will pay each qualified troops-to-teachers member described in subsection (3)(b) the salary required under subsection (3)(b).

(b) A pledge that it will pay each qualified troops-to-teachers member it hires as described in subsection (3)(e) the salary required under subsection (3)(e).

(c) A spending plan for its use of funding received under this section that must include plans to phase down the usage of funding under this section for the implementation of the troops-to-teachers initiative described in this section in a manner ensuring that the district will fully fund the initiative without funding under this section by September 30, 2027.

(d) A pledge that the district will continue to pay qualified troops-to-teachers members described in subsection (3)(b) and (e) a salary, as described in subsection (3)(b) or (e), as applicable, after September 30, 2027.

(i) All of the following apply to phase 1 mentorship training described in this subdivision:

(A) It must be for a duration of 1 semester.

(B) It must include a process through which a qualified troops-to-teachers member serves as a student teacher at a school operated by the district while shadowing a mentor teacher during the duration of the training. To the extent possible, a qualified troops-to-teachers member who has interest in teaching in a certain subject or grade level must be paired under this sub-subparagraph with a mentor teacher who teaches in the applicable subject or grade level.

(C) After the qualified troops-to-teachers member has completed 1 semester of student teaching as described in sub-subparagraph (B), the mentor teacher he or she was paired with as described in sub-subparagraph (B) shall either approve or disapprove his or her completion of phase 1 mentorship training and recommend or not recommend his or her deployment into teaching in classrooms and certification. A qualified troops-to-teachers member is not considered to have completed phase 1 mentorship training under this subparagraph unless his or her mentor teacher has approved the completion as described in this sub-subparagraph.

(ii) All of the following apply to phase 2 mentorship training described in this subdivision:

(A) It must be open to only qualified troops-to-teachers members who have completed 1 semester of student teaching as described in subparagraph (i)(B), but who were disapproved for completion of phase 1 mentorship training under subparagraph (i)(C).

(B) It must be for a duration of 1 semester.

(C) It must include a process through which a qualified troops-to-teachers member serves as a student teacher at a school operated by the district while shadowing a mentor teacher during the duration of the training. To the extent possible, a qualified troops-to-teachers member who has interest in teaching in a certain subject or grade level must be paired under this sub-subparagraph with a mentor teacher who teaches in the applicable subject or grade level.

(D) After the qualified troops-to-teachers member has completed 1 semester of student teaching as described in sub-subparagraph (C), the mentor teacher he or she was paired with as described in sub-subparagraph (C) shall either approve or disapprove his or her completion of phase 2 mentorship training and recommend or not recommend his or her deployment into teaching in classrooms and certification. (b) The payment of a salary for each qualified troops-to-teachers member for his or her completion of 1 semester of student teaching as part of part 1 or 2 mentorship training described in this subsection, whether or not he or she is approved for completion of phase 1 or 2 mentorship training as described in this subsection, in an amount that equals the starting teacher salary in the district. This subdivision does not limit, if in compliance with other laws, the district from providing additional compensation to a qualified troops-to-teachers member described in this subdivision.

(c) The payment of costs and fees associated with completion of each subject area examination for each subject area in which a qualified troops-to-teachers member applies to be certified for a qualified troops-to-teachers member who has completed phase 1 or 2 mentorship training as described in this subsection.

(d) The hiring of support staff to implement the troops-to-teachers initiative described in this section.

(e) The hiring, as teachers, of qualified troops-to-teachers members who completed the phase 1 or 2 mentorship training as described in this subsection and obtained teacher certification and the payment to those qualified troops-to-teachers members of a salary that equals, at a minimum, either of the following, as applicable:

(i) For the qualified troops-to-teachers member's first year of employment as a teacher, either of the following, as applicable:

(A) If the highest yearly salary the qualified troops-to-teachers member received in the military is higher than the starting teacher salary in the district, the sum of a starting teacher salary in the district and 50% of the difference between the highest yearly salary the qualified troops-to-teachers member received in the military and the starting teacher salary in the district. However, the amount described in this sub-subparagraph must not exceed the highest teacher salary in the district. For a qualified troops-to-teachers member described in this

sub-subparagraph, only 50% of the difference between the highest yearly salary the qualified troops-to-teachers member received in the military and the starting teacher salary described in this sub-subparagraph may be paid for from money received under this section and the other portion of the salary described in this sub-subparagraph must be paid by the district from funds other than funds received under this section.

(B) If the highest yearly salary the qualified troops-to-teachers member received in the military is lower than the starting teacher salary in the district, the starting teacher salary in the district. The entirety of a salary described in this sub-subparagraph must be paid by the district from funds other than funds received under this section.

(ii) For the qualified troops-to-teachers member's employment as a teacher following the member's first year of employment, the criteria and requirements under subparagraphs (i) and (ii) apply, but the salary must account for any teacher salary increases in the district and the district must incorporate its plan to phase down the usage of funding under this section as submitted in its application under subsection (2), ensuring that 100% of a member's salary is paid from funding other than funding received under this section by September 30, 2027.

(f) Any other fees or costs associated with the implementation of the troops-to-teachers initiative described in this section, as determined by the department.

(4) The department must provide an annual report to the house and senate appropriations subcommittees on school aid, the house and senate fiscal agencies, and the state budget director on the troops-to-teachers initiative under this section, including the number of qualified troops-to-teachers members who were hired as certificated teachers in each district that received funding under this section.

(5) Funds allocated under this section for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 are carried forward into 2023-2024. The purpose of the work project is to continue the troops-to-teachers initiative as described in this section. The estimated completion date of the work project is September 30, 2027.

(6) As used in this section:

(a) "Mentor teacher" means a certificated teacher who has served as a certificated teacher for 5 or more school years.

(b) "Qualified troops-to-teachers member" means an individual to whom both of the following apply:

(i) The individual is a veteran. As used in this subparagraph, "veteran" means that term as defined in section 1 of 1965 PA 160, MCL 35.61.

(ii) The individual has been awarded a bachelor's degree from a public or private university.

Sec. 31a. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2021-2022 an amount not to exceed \$537,650,000.00, and from the general fund money appropriated in section 11 there is allocated for 2021-2022 an amount not to exceed \$1,500,000.00, and, from the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$785,650,000.00, and from the general fund money appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$1,500,000.00 for payments to eligible districts and eligible public school academies for the purposes of ensuring that pupils are proficient in English language arts by the end of grade 3, that pupils are proficient in mathematics by the end of grade 8, that pupils are attending school regularly, that high school graduates are career and college ready, and for the purposes under subsections (7) and (8).

(2) For 2021-2022 only, for a district that has combined state and local revenue per membership pupil under sections 20 and 20m that is greater than the target foundation allowance under section 20 for the current fiscal year and that, for the immediately preceding fiscal year, had combined state and local revenue per membership pupil under section 20 and 20m that was greater than the target foundation allowance under section 20 that was in effect for that fiscal year, the allocation under subsection (4) is an amount equal to 35% of the allocation for which it would otherwise be eligible under subsection (4) before any proration under subsection (15). It is the intent of the legislature that, if revenues are sufficient and if districts with combined state and local revenue per membership pupil under sections 20 and 20m that is below the target foundation allowance are receiving nonprorated payments under subsection (4), the percentage in the immediately preceding sentence must be increased annually until it reaches 100%. If a district has combined state and local revenue per membership pupil under sections 20 and 20m that is greater than the target foundation allowance under section 20 for the current fiscal year, but for the 2018-2019 fiscal year had combined state and local revenue per membership pupil under section 20 that was less than the basic foundation allowance under section 20 that was in effect for the 2018-2019 fiscal year, the district shall receive an amount per pupil equal to 11.5% of the target foundation allowance, as applied under subsection (4), and before any proration under subsection (15). This subsection does not apply beginning in 2022-2023.

(3) For a district or public school academy to be eligible to receive funding under this section, other than funding under subsection (7) or (8), the district or public school academy, for grades K to 12, must comply with the requirements under section 1280f of the revised school code, MCL 380.1280f, and shall use resources to address early literacy and numeracy, and for at least grades K to 12 or, if the district or public school academy does not operate all of grades K to 12, for all of the grades it operates, must implement a multi-tiered system of supports that is an evidence based framework that uses data driven problem solving to integrate academic and behavioral instruction and that uses intervention delivered to all pupils in varying intensities based on pupil needs. The multi-tiered system of supports described in this subsection must provide at least all of the following essential components:

- (a) Team-based leadership.
- (b) A tiered delivery system.
- (c) Selection and implementation of instruction, interventions, and supports.
- (d) A comprehensive screening and assessment system.
- (e) Continuous data-based decision making.

(4) From the state school aid fund money allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$512,500,000.00 and, for 2022-2023, an amount not to exceed \$747,500,000.00 to continue a weighted foundation per pupil payment for districts and public school academies enrolling economically disadvantaged pupils. The department shall pay under this subsection to each eligible district or eligible public school academy an amount per pupil equal to 11.5% of the target foundation allowance for the following, as applicable:

(a) Except as otherwise provided under subdivision (b), (c), or (d) the greater of the following:

(i) The number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year.

(ii) If the district or public school academy is in the community eligibility program, the number of pupils determined to be eligible based on the product of the identified student percentage multiplied by the total number of pupils in the district or public school academy, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year. These calculations must be made at the building level. This subparagraph only applies to an eligible district or eligible public school academy for the fiscal year immediately following the first fiscal year in which it is in the community eligibility program. As used in this subparagraph, "identified student percentage" means the quotient of the number of pupils in an eligible district or eligible public school academy who are determined to be economically disadvantaged, as reported to the center in a form and manner prescribed by the center, not later than the fifth Wednesday after the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program, divided by the total number of pupils counted in an eligible district or eligible public school academy on the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program.

(b) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the immediately preceding school year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the current fiscal year.

(c) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the current fiscal year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the current fiscal year.

(d) If, for a particular fiscal year, the number of membership pupils in a district or public school academy who are determined under subdivision (a) to be economically disadvantaged or to be eligible based on the identified student percentage varies by more than 20 percentage points from the number of those pupils in the district or public school academy as calculated under subdivision (a) for the immediately preceding fiscal year caused by an egregious reporting error by the district or public school academy, the department may choose to have the calculations under subdivision (a) instead be made using the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the immediately preceding fiscal year.

(5) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (6), (7), or (8). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership were determined to be economically disadvantaged in the immediately preceding state fiscal year, as determined and reported as described in subsection (4), may use the funds it receives under this section for school security or school parent liaison personnel. The uses of the funds described in the immediately preceding sentence must align to the needs assessment and the multi-tiered system of supports model and, for funds spent on parent liaison personnel, must connect parents to the school community. A district or public school academy shall not use any of the money received under this section for administrative costs. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year.

(6) A district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(7) From the state school aid fund money allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$8,000,000.00 and there is allocated for 2022-2023 an amount not to exceed \$33,000,000.00 to support primary health care services provided to children and adolescents up to age 21. These funds must be expended in a form and manner determined jointly by the department and the department of health and human services. When making funding decisions for new adolescent health centers under this subsection, the department and department of health and human services shall prioritize support for primary health care services in unserved counties as of the effective date of the amendatory act that added this sentence. An amount not to exceed 4% of the funds allocated for 2022-2023 under this subsection must be made available for technical support and coordination services from a nonprofit organization exclusively dedicated to serving adolescent health centers in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts. As a requirement of being awarded the funds under this subsection as prescribed under this subsection, a nonprofit organization described in this subsection shall make readily available technical support and coordination services to all child and adolescent health centers in this state.

(8) From the state school aid fund money allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$5,150,000.00 and there is allocated for 2022-2023 an amount not to exceed \$5,150,000.00 for the state portion of the hearing and vision screenings as described in part 93 of the public health code, 1978 PA 368, MCL 333.9301 to 333.9329, and, from the general fund money allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$1,500,000.00 and there is allocated for 2022-2023 an amount not to exceed \$1,500,000.00 for the state portion of the dental screenings as described in part 93 of the public health code, 1978 PA 368, MCL 333.9301 to 333.9329. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the vision screenings must be as required under R 325.13091 to R 325.13096 of the Michigan Administrative Code and the frequency of the hearing screenings must be as required under R 325.3271 to R 325.3276 of the Michigan Administrative Code. Funds must be awarded in a form and manner approved jointly by the department and the department of health and human services. Notwithstanding section 17b, the department shall make payments to eligible entities under this subsection on a schedule determined by the department.

(9) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, in the form and manner prescribed by the department, that includes a brief description of each program conducted or services performed by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs or services, the total number of at risk pupils served by each of those programs or services, and the data necessary for the department and the department of health and human services to verify matching funds for the temporary assistance for needy families program. In prescribing the form and manner of the report, the department shall ensure that districts are allowed to expend funds received under this section on any activities that are permissible under this section. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the fiscal year, the withheld funds are forfeited to the school aid fund.

(10) In order to receive funds under this section, a district or public school academy must allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(11) Subject to subsections (6), (7), and (8), for schools in which more than 40% of pupils are identified as at-risk, a district or public school academy may use the funds it receives under this section to implement tier 1, evidence-based practices in schoolwide reforms that are guided by the district's comprehensive needs assessment and are included in the district improvement plan. Schoolwide reforms must include parent and community supports, activities, and services, that may include the pathways to potential program created by the department of health and human services or the communities in schools program. As used in this subsection, "tier 1, evidence-based practices" means research based instruction and classroom interventions that are available to all learners and effectively meet the needs of most pupils.

(12) A district or public school academy that receives funds under this section may use those funds to provide research based professional development and to implement a coaching model that supports the multi-tiered system of supports framework. Professional development may be provided to district and school leadership and teachers and must be aligned to professional learning standards; integrated into district, school building, and classroom practices; and solely related to the following:

(a) Implementing the multi-tiered system of supports required in subsection (3) with fidelity and utilizing the data from that system to inform curriculum and instruction.

(b) Implementing section 1280f of the revised school code, MCL 380.1280f, as required under subsection (3), with fidelity.

(13) For 2021-2022, a district or public school academy that receives funds under subsection (4) or (17) may use funds received under subsection (4) or (17) for support staff providing services to at-risk pupils. For 2022-2023, a district or public school academy that receives funds under subsection (4) may use funds received under subsection (4) for support staff providing services to at-risk pupils.

(14) A district or public school academy that receives funds under this section may use up to 10% of the funds received under this section to provide evidence-based instruction for pre-kindergarten instructional and noninstructional services to children who meet at least 1 of the criteria in subsection (20)(a)(i) to (x).

(15) If necessary, the department shall prorate payments under this section, except payments under subsection (7), (8), or, for 2021-2022, (17), by reducing the amount of the allocation as otherwise calculated under this section by an equal percentage per district.

(16) If a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved district was constituent shall determine the estimated number of pupils that are economically disadvantaged and that are enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the district is declared dissolved.

(17) From the state school aid fund money allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$12,000,000.00 for payments to districts and public school academies that otherwise received an allocation under this subsection for 2020-2021 and whose allocation under this section for 2020-2021, excluding any payments under subsection (7) or (8), would have been more than the district's or public school academy's allocation under this section for 2021-2022 as calculated under subsection (4) only and as adjusted under subsection (15). The allocation for each district or public school academy under this subsection is an amount equal to its allocation under this section for 2020-2021 minus its allocation as otherwise calculated under subsection (4) for 2021-2022 as adjusted by subsection (15), using in those calculations the 2017-2018 number of pupils determined to be economically disadvantaged. However, if the allocation as otherwise calculated under this subsection would have been less than \$0.00, the allocation under this subsection is \$0.00. If necessary, and before any proration required under section 296, the department shall prorate payments under this subsection by reducing the amount of the allocation as otherwise calculated under this subsection by an equal percentage per district or public school academy. Any unexpended funds under this subsection are to be distributed through payments made under subsection (4) as provided under subsection (4), but those funds must not be factored into calculating payments under this subsection. This subsection does not apply beginning in 2022-2023.

(18) A district or public school academy that receives funds under this section may use funds received under this section to provide an anti-bullying or crisis intervention program.

(19) The department shall collaborate with the department of health and human services to prioritize assigning Pathways to Potential success coaches to elementary schools that have a high percentage of pupils in grades K to 3 who are not proficient in English language arts, based upon state assessments for pupils in those grades.

(20) As used in this section:

(a) “At-risk pupil” means a pupil in grades pre-K to 12 for whom the district has documentation that the pupil meets any of the following criteria:

(i) The pupil is economically disadvantaged.

(ii) The pupil is an English language learner.

(b) “Combined state and local revenue” means the aggregate of the district’s state school aid received by or paid on behalf of the district under section 20 and the district’s local school operating revenue.

(c) “Combined state and local revenue per membership pupil” means the district’s combined state and local revenue divided by the district’s membership excluding special education pupils.

(d) “Economically disadvantaged” means a pupil who has been determined eligible for free or reduced-price meals as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j; who is in a household receiving supplemental nutrition assistance program or temporary assistance for needy families assistance; or who is homeless, migrant, or in foster care, as reported to the center.

(e) “English language learner” means limited English proficient pupils who speak a language other than English as their primary language and have difficulty speaking, reading, writing, or understanding English as reported to the center.

(f) “Local school operating revenue” means that term as defined in section 22b.

Sec. 31d. The department shall collaborate with the Michigan department of agriculture and rural development to provide training to newly participating schools and other non-school sponsors and electronic information on Michigan agriculture.

(8) The department shall give preference to districts or other non-school sponsors that propose educational activities that meet 1 or more of the following: promote healthy food activities; have clear educational objectives; involve parents or the community; connect to a school's or child care center's farm-to-school or farm-to-early-child-care procurement activities; and market and promote the program, leading to increased pupil knowledge and consumption of Michigan-grown products. The department shall give stronger weighting and consideration to applications with robust marketing and promotional activities.

(9) In awarding grants, the department shall also consider all of the following:

(a) The percentage of children who qualify for free or reduced price school meals under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j.

(b) The variety of school or child care center sizes and geographic locations within the identified prosperity regions.

The district or other non-school sponsor and school or non-school sponsor food service director or directors also shall agree to respond to brief online surveys and to provide a report that shows the percentage relationship of Michigan spending compared to total food spending. Not later than 60 days after the end of the period in which funds under this section were received, and in which federal child nutrition programs require submission of claims, each district or each non-school sponsor shall submit a report to the department on outcomes and related measurements for economic development and children's nutrition and readiness to learn. The report must include at least both of the following:

(a) The extent to which farmers and related businesses, including distributors and processors, saw an increase in market opportunities and income generation through sales of Michigan or local products to districts and other non-school sponsors. All of the following apply for purposes of this subdivision:

(i) The data used to determine the amount of this increase are the total dollar amount of Michigan or local fruits, vegetables, and legumes purchased by schools and other non-school sponsors, along with the number of different types of products purchased; school and non-school sponsor food purchasing trends identified along with products that are of new and growing interest among food service directors; the number of businesses impacted; and the percentage of total food budget spent on Michigan-grown fruits, vegetables, and legumes.

(ii) The district or other non-school sponsor shall use purchasing data collected for the program and surveys of school and non-school sponsor food service directors on the impact and success of the program as the source for the data described in subparagraph (i).

(i) The data used to determine whether this subdivision is met are the number of pupils exposed to Michigan-grown fruits, vegetables, and legumes at schools and non-school sponsor centers; the variety of products served; new items taste-tested or placed on menus; and the increase in pupil willingness to try new local healthy foods.

(ii) The district or other non-school sponsor shall use purchasing data collected for the project, meal count and enrollment numbers, school menu calendars, and surveys of school and non-school sponsor food service directors as the source for the data described in subparagraph (i).

(11) The department shall compile the reports provided by districts and other non-school sponsors under subsection (10) into 1 legislative report. The department shall provide this report not later than April 1 of each fiscal year following the fiscal year for which funding is allocated under this section to the house and senate subcommittees responsible for school aid, the house and senate fiscal agencies, and the state budget director.

(12) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

Sec. 31n. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 for the purposes of this section an amount not to exceed \$77,600,000.00 and from the general fund money

appropriated in section 11, there is allocated for 2022-2023 for the purposes of this section an amount not to exceed \$1,300,000.00. The department and the department of health and human services shall continue a program to distribute this funding to add licensed behavioral health providers for general education pupils, and shall continue to seek federal Medicaid match funding for all eligible mental health and support services.

(2) The department and the department of health and human services shall maintain an advisory council for programs funded under this section. The advisory council shall define goals for implementation of programs funded under this section, and shall provide feedback on that implementation. At a minimum, the advisory council shall consist of representatives of state associations representing school health, school mental health, school counseling, education, health care, and other organizations, representatives from the department and the department of health and human services, and a representative from the school safety task force created under Executive Order No. 2018-5. The department and department of health and human services, working with the advisory council, shall determine an approach to increase capacity for mental health and support services in schools for general education pupils, and shall determine where that increase in capacity qualifies for federal Medicaid match funding.

(3) The advisory council shall develop a fiduciary agent checklist for intermediate districts to facilitate development of a plan to submit to the department and to the department of health and human services. The department and department of health and human services shall determine the requirements and format for intermediate districts to submit a plan for possible funding under subsection (6). The department shall make applications for funding for this program available to districts and intermediate districts not later than December 1 of each fiscal year for which funds are allocated under this section and shall award the funding not later than February 1 of each fiscal year for which funds are allocated under this section.

(4) The department of health and human services shall seek to amend the state Medicaid plan or obtain appropriate Medicaid waivers as necessary for the purpose of generating additional Medicaid match funding for school mental health and support services for general education pupils. The intent is that a successful state plan amendment or other Medicaid match mechanisms will result in additional federal Medicaid match funding for both the new funding allocated under this section and for any expenses already incurred by districts and intermediate districts for mental health and support services for general education pupils.

(5) From the state school aid fund money allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$14,300,000.00 to be distributed to the network of child and adolescent health centers to place a licensed master's level behavioral health provider in schools that do not currently have services available to general education students. Child and adolescent health centers that are part of the network described in this subsection shall provide a commitment to maintain services and implement all available federal Medicaid match methodologies. The department of health and human services shall use all existing or additional federal Medicaid match opportunities to maximize funding allocated under this subsection. The department shall provide funds under this subsection to child and adolescent health centers that are part of the network described in this subsection in the same proportion that funding under section 31a(7) is provided to child and adolescent health centers that are part of the network described in this subsection and that are located and operating in those districts. A payment from funding allocated under this subsection must not be paid to an entity that is not part of the network described in this subsection.

(6) From the state school aid fund money allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$62,800,000.00 to be distributed to intermediate districts for the provision of mental health and support services to general education students. If a district or intermediate district is not able to procure the services of a licensed master's level behavioral health provider, the district or intermediate district shall notify the department and the department of health and human services and, if the department and department of health and human services verify that the district or intermediate district attempted to procure services from a master's level behavioral health provider and was not able to do so, then the district or intermediate district may instead procure services from a provider with less than a master's degree in behavioral health. To be able to use the exemption in the immediately preceding sentence, the district or intermediate district must submit evidence satisfactory to the department and department of health and human services demonstrating that the district or intermediate district took measures to procure the services of a licensed master's level behavioral health provider but was unable to do so, and the department and department of health and human services must be able to verify this evidence. From the first \$53,496,800.00 of the funds allocated under this subsection, the department shall distribute \$955,300.00 for 2022-2023 to each intermediate district that submits a plan approved by the department and the department of health and human services. The department shall distribute the remaining \$9,303,200.00 of the funds allocated under this subsection for 2022-2023 to intermediate districts on an equal per-pupil basis based on the combined total number of pupils in membership in the intermediate district and its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705. The department and department of health and human

services shall work cooperatively in providing oversight and assistance to intermediate districts during the plan submission process and shall monitor the program upon implementation. An intermediate district shall use funds awarded under this subsection to provide funding to its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705, for the provision of mental health and support services to general education students. In addition to the criteria identified under subsection (7), an intermediate district shall consider geography, cost, or other challenges when awarding funding to its constituent districts. Districts receiving funding under this subsection are encouraged to provide suicide prevention and awareness education and counseling. If funding awarded to an intermediate district remains after funds are provided by the intermediate district to its constituent districts, the intermediate district may hire or contract for experts to provide mental health and support services to general education students residing within the boundaries of the intermediate district, including, but not limited to, expanding, hiring, or contracting for staff and experts to provide those services directly or to increase access to those services through coordination with outside mental health agencies; the intermediate district may also contract with 1 or more other intermediate districts for coordination and the facilitation of activities related to providing mental health and support services to general education students residing within the boundaries of the intermediate district; and the intermediate district is encouraged to provide suicide prevention and awareness education and counseling.

(7) A district requesting funds under this section from the intermediate district in which it is located shall submit an application for funding for the provision of mental health and support services to general education pupils. A district receiving funding from the application process described in this subsection shall provide services to nonpublic students upon request. An intermediate district shall not discriminate against an application submitted by a public school academy simply on the basis of the applicant being a public school academy. The department shall approve grant applications based on the following criteria:

(a) The district's commitment to maintain mental health and support services delivered by licensed providers into future fiscal years.

(b) The district's commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. A district must provide a local match of at least 20% of the funding allocated to the district under section 31n.

(c) The district's commitment to adhere to any local funding requirements determined by the department and the department of health and human services.

(d) The extent of the district's existing partnerships with community health care providers or the ability of the district to establish such partnerships.

(e) The district's documentation of need, including gaps in current mental health and support services for the general education population.

(f) The district's submission of a formal plan of action identifying the number of schools and students to be served.

(g) Whether the district will participate in ongoing trainings.

(h) Whether the district will submit an annual report to the state.

(i) Whether the district demonstrates a willingness to work with the state to establish program and service delivery benchmarks.

(j) Whether the district has developed a school safety plan or is in the process of developing a school safety plan.

(k) Any other requirements determined by the department or the department of health and human services.

(8) Funding under this section, including any federal Medicaid funds that are generated, must not be used to supplant existing services.

(9) Both of the following are allocated to the department of health and human services from the general fund money allocated under subsection (1):

(a) For 2022-2023, an amount not to exceed \$1,000,000.00 for the purpose of upgrading technology and systems infrastructure and other administrative requirements to support the programs funded under this section.

(b) For 2022-2023, an amount not to exceed \$300,000.00 for the purpose of administering the programs under this section and working on generating additional Medicaid funds as a result of programs funded under this section.

(10) From the state school aid fund money allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$500,000.00 to intermediate districts on an equal per intermediate district basis for the purpose of administering programs funded under this section.

(11) The department and the department of health and human services shall work with the advisory council to develop proposed measurements of outcomes and performance. Those measurements must include, at a minimum, the number of pupils served, the number of schools served, and where those pupils and schools were located. The department and the department of health and human services shall compile data necessary to measure outcomes and performance, and districts and intermediate districts receiving funding under this section shall provide data requested by the department and department of health and human services for the measurement of outcomes and performance. The department and department of health and human services shall provide an annual report not later than December 1 of each year to the house and senate appropriations subcommittees on school aid and health and human services, to the house and senate fiscal agencies, and to the state budget director. At a minimum, the report must include measurements of outcomes and performance, proposals to increase efficacy and usefulness, proposals to increase performance, and proposals to expand coverage.

(12) A district or intermediate district that receives funding directly or indirectly under this section may carry over any unexpended funds received under this section for up to 2 fiscal years beyond the fiscal year in which the funds were received.

Sec. 31o. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2021-2022 an amount not to exceed \$240,000,000.00 for payments to eligible districts and intermediate districts for the purpose of increasing the number of school psychologists, school social workers, school counselors, and school nurses serving students in this state.

(2) Except as otherwise provided in this subsection, to receive funding under this section, a district or intermediate district must apply for the funding in a form and manner prescribed by the department. In its application for funding under this section, a district or intermediate district must pledge and provide assurances to the department that it will fully annually fund all staff that are supported with funding under this section in an ongoing manner after the district or intermediate district receives its final payment under this section.

(3) The department shall award funding to districts and intermediate districts with the greatest need for additional school psychologists, school social workers, school counselors, or school nurses. To determine the districts and intermediate districts with the greatest needs under this subsection, the department shall consider the physical and mental health services available at the district or intermediate district and how close an applicant district or intermediate district is to meeting the following recommended staff-to-student ratios:

(d) 1 school nurse for every 750 full-time equated pupils counted in the district or directly served by the intermediate district.

(4) To be eligible for funding under this section, a district or intermediate district must hire additional school psychologists, school social workers, school counselors, or school nurses by March 1, 2024 and must maintain support for the new staff in an ongoing manner. As determined by the department, staff hired and supported by funding under this section must meet all applicable state and federal laws, rules, and license requirements to be considered a school psychologist, school social worker, school counselor, or school nurse.

(5) Subject to subsections (6) and (7), payments to eligible districts and intermediate districts must be made as follows:

(a) For staff hired before March 1, 2022, the department shall provide payments to eligible districts and intermediate districts equal to 100% of the annualized cost of newly hired school psychologists, school social workers, school counselors, or school nurses. The amount paid to the eligible district and intermediate district must be the lesser of the actual annualized cost of the employee, as determined by the department, or the median wage for an equivalent employee working in a school setting, as determined by the department, using wage data from the United States Bureau of Labor Statistics that is specific to this state.

(6) If a district or intermediate district does not retain staff hired with funds under subsection (5)(a), the district is not eligible to receive funding for that staff member under subsection (5)(b) or (c).

(7) If, after awarding funding under subsection (3) and calculating payment amounts under subsection (5), the department determines that the amount allocated in subsection (1) is insufficient to fully fund payments under this section, the department shall prorate payments to eligible districts and intermediate districts on an equal percentage basis.

(8) The funds allocated under this section for 2021-2022 are a work project appropriation, and any unexpended funds for 2021-2022 are carried forward into 2022-2023. The purpose of the work project is to increase the number of school psychologists, school social workers, school counselors, and school nurses in school buildings. The estimated completion date of the work project is September 30, 2024.

(4) Except as otherwise provided in this section, to receive funding under this section, districts must apply for funding under this section in a form and manner prescribed by the department. In its application described in this subsection, a district or intermediate district, as applicable, shall document how it or, if an intermediate district is applying, its constituent district, will use community input to guide the expenditure of the funds it or the constituent district will receive under this section and it shall pledge to host, or shall pledge on behalf of its constituent district that the constituent district will host, at least 1 community conversation about student mental health and school safety. (b) Include stables, indoor and outdoor riding arenas for year-round horseback riding programs, educational space to support youth development models, and paddocks for the horses that will live on site.

(2) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

Sec. 32d. (1) From the state school aid fund money appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed \$369,120,000.00 for 2022-2023. In addition, from the federal funding appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$83,000,000.00 from the federal funding awarded to this state from the coronavirus state fiscal recovery fund under the American rescue plan act of 2021, title IX, subtitle M of Public Law 117-2, to eligible intermediate districts and consortia of intermediate districts for great start readiness programs. An intermediate district or consortium shall use funds allocated under this section for great start readiness programs to provide part-day, school-day, or GSRP/Head Start blended comprehensive free compensatory classroom programs designed to improve the readiness and subsequent achievement of educationally disadvantaged children who meet the participant eligibility and prioritization guidelines as defined by the department. For a child to be eligible to participate in a program under this section, the child must be at least 4, but less than 5, years of age as of September 1 of the school year in which the program is offered and must

meet those eligibility and prioritization guidelines. A child who is not 4 years of age as of September 1, but who will be 4 years of age not later than December 1, is eligible to participate if the child's parent or legal guardian seeks a waiver from the September 1 eligibility date by submitting a request for enrollment in a program to the responsible intermediate district, if the program has capacity on or after September 1 of the school year, and if the child meets eligibility and prioritization guidelines.

(2) From the state school aid fund money allocated under subsection (1), an amount not to exceed \$367,120,000.00 and from the federal funds allocated under subsection (1), an amount not to exceed \$83,000,000.00 is allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. An intermediate district or consortium of intermediate districts receiving funding under this section may collaborate with local governments to identify children eligible for programs funded under this section and may contract with local governments to provide services. In order to be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, a local government, or a public or private for-profit or nonprofit legal entity or agency must comply with this section and section 39. The funds allocated under this subsection for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 are carried forward into 2023-2024. The purpose of the work project is to continue to improve access to preschool programming for economically disadvantaged children. The estimated completion date of the work project described in the immediately preceding sentence is September 30, 2024.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed \$350,000.00 for 2022-2023 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs.

(4) To be eligible for funding under this section, a program must prepare children for success in school through comprehensive part-day, school-day, or GSRP/Head Start blended programs that contain all of the following program components, as determined by the department:

(a) Participation in a collaborative recruitment and enrollment process to assure that each child is enrolled in the program most appropriate to his or her needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board, including, at least, the Connect4Learning curriculum.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

(d) Physical and dental health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, including mental health services, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department.

(h) Participation in a school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee annually shall review and make recommendations regarding the program components listed in this subsection. The advisory committee also shall make recommendations to the great start collaborative regarding other community services designed to improve all children's school readiness.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(j) Participation in this state's great start to quality process with a rating of at least 3 stars.

(5) An application for funding under this section must provide for the following, in a form and manner determined by the department:

(a) Ensure compliance with all program components described in subsection (4).

(b) Except as otherwise provided in this subdivision, ensure that at least 85% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than 250% of the federal poverty guidelines. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 250% of the federal poverty guidelines, the intermediate district may then enroll children who live with families with a household income that is equal to or less than 300% of the federal poverty guidelines. The

enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than 250% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. A lead teacher must have a valid Michigan teaching certificate with an early childhood or lower elementary endorsement or a bachelor's or higher degree in child development or early childhood education with specialization in preschool teaching. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers or paraprofessionals with at least 5 years of experience as a paraprofessional in a great start readiness program classroom who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. A teacher's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood education, including an associate degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses or 60 clock hours of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget must indicate the extent to which these funds will supplement other federal, state, local, or private funds. An applicant shall not use funds received under this section to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program funded under this section, each child enrolled in the school-day program is counted as described in section 39 for purposes of determining the amount of the grant award.

(7) For a grant recipient that enrolls pupils in a GSRP/Head Start blended program, the grant recipient shall ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (5).

(9) An intermediate district or consortium of intermediate districts may retain for administrative services provided by the intermediate district or consortium of intermediate districts an amount not to exceed 4% of the grant amount. Expenses incurred by subrecipients engaged by the intermediate district or consortium of intermediate districts for directly running portions of the program are considered program costs or a contracted program fee for service. Subrecipients operating with a federally approved indirect rate for other early childhood programs may include indirect costs, not to exceed the federal 10% de minimis.

(10) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program.

(11) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below 250% of the federal poverty guidelines by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below 250% of the federal poverty guidelines, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 250% of the federal poverty guidelines, the grant recipient may then enroll children who live with families

with a household income that is equal to or less than 300% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subsection, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than 250% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program operated by or contracted with another intermediate district or consortium of intermediate districts and shall enter into a written agreement regarding payment, in a manner prescribed by the department.

(13) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a blended Head Start and great start readiness school-day program. Children served in a program funded only through Head Start are not counted toward this 30% allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each nonparticipating licensed child care center located in the service area of the intermediate district or consortium regarding the center's eligibility to participate, in a manner prescribed by the department.

(b) The intermediate district or consortium provided to each nonparticipating licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least 3 stars.

(14) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total allocation, as required under subsection (13), the department shall reduce the allocation to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total allocation awarded to community-based providers and 30% of its total allocation.

(15) In order to assist intermediate districts and consortia in complying with the requirement to contract with community-based providers for at least 30% of their total allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, Head Start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system must ensure that regulators process all prospective providers at the same pace on a first-come, first-served basis and must not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) Not later than March 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (13) and report to the legislature a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(16) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the information necessary to derive the number of children participating in the program who meet the program eligibility criteria under subsection (5)(b), the number of eligible children not participating in the program and on a waitlist, and the total number of children participating in the program by various demographic groups and eligibility factors necessary to analyze equitable and priority access to services for the purposes of subsection (3).

(17) As used in this section:

(a) "GSRP/Head Start blended program" means a part-day program funded under this section and a Head Start program, which are combined for a school-day program.

(b) "Federal poverty guidelines" means the guidelines published annually in the Federal Register by the United States Department of Health and Human Services under its authority to revise the poverty line under 42 USC 9902.

(c) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(d) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish and charge tuition according to a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than 250% of the federal poverty guidelines to be used by all of its providers, as approved by the department.

(19) From the amount allocated in subsection (2), there is allocated for 2022-2023 an amount not to exceed \$10,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive reimbursement under this subsection, not later than November 1 of each year, a program funded under this section that provides transportation shall submit to the intermediate district that is the fiscal agent for the program a projected transportation budget. The amount of the reimbursement for transportation under this subsection is no more than the projected transportation budget or \$300.00 multiplied by the number of children funded for the program under this section. If the amount allocated under this subsection is insufficient to fully reimburse the transportation costs for all programs that provide transportation and submit the required information, the department shall prorate the reimbursement in an equal amount per child funded. The department shall make payments to the intermediate district that is the fiscal agent for each program, and the intermediate district shall then reimburse the program provider for transportation costs as prescribed under this subsection.

(20) Subject to, and from the funds allocated under, subsection (19), the department shall reimburse a program for transportation costs related to parent- or guardian-accompanied transportation provided by transportation service companies, buses, or other public transportation services. To be eligible for reimbursement under this subsection, a program must submit to the intermediate district or consortia of intermediate districts all of the following:

(a) The names of families provided with transportation support along with a documented reason for the need for transportation support and the type of transportation provided.

(b) Financial documentation of actual transportation costs incurred by the program, including, but not limited to, receipts and mileage reports, as determined by the department.

(c) Any other documentation or information determined necessary by the department.

(21) The department shall implement a process to review and approve age-appropriate comprehensive classroom level quality assessments for GSRP grantees that support the early childhood standards of quality for prekindergarten children adopted by the state board. The department shall make available to intermediate districts at least 2 classroom level quality assessments that were approved in 2018.

(22) An intermediate district that is a GSRP grantee may approve the use of a supplemental curriculum that aligns with and enhances the age-appropriate educational curriculum in the classroom. If the department objects to the use of a supplemental curriculum approved by an intermediate district, the superintendent shall establish

a review committee independent of the department. The review committee shall meet within 60 days of the department registering its objection in writing and provide a final determination on the validity of the objection within 60 days of the review committee's first meeting.

(23) The department shall implement a process to evaluate and approve age-appropriate educational curricula that are in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(24) From the funds allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$2,000,000.00 for payments to intermediate districts or consortia of intermediate districts for professional development and training materials for educators in programs implementing new curricula or child assessment tools approved for use in the great start readiness program.

(25) A great start readiness program or a GSRP/Head Start blended program funded under this section is permitted to utilize AmeriCorps Pre-K Reading Corps members in classrooms implementing research-based early literacy intervention strategies.

Sec. 32n. (1) From the federal funding appropriated under section 11, there is allocated for 2022-2023 only an amount not to exceed \$25,000,000.00 from the federal funding awarded to this state from the coronavirus state fiscal recovery fund under the American rescue plan act of 2021, title IX, subtitle M of Public Law 117-2, for the purposes of this section. The department shall develop a competitive grant program to distribute this funding to eligible entities, as described in subsection (2), as prescribed under this section.

(2) The department shall establish competitive grant criteria for the grant program described in subsection (1) for eligible applicants to expand access to quality, affordable programming before and after the school day or during the summer for young people. To be eligible for a grant under this section, the applicant must meet, at a minimum, all of the following criteria:

(a) Serve children in any of grades K to 12.

(b) Be a community-based organization that is exempt from federal income tax under section 501(c)(3) of the internal revenue code, 26 USC 501, an institution of higher education, a community or adult education program, a public library, a local government, or an intermediate district.

(c) Provide before-school, after-school, before-and-after-school, or summer school programming to children described in subdivision (a). These programs must be used to support expanded learning opportunities, including, but not limited to, mentoring, leadership, community engagement, agriculture, art, music, literacy, science, technology, engineering, mathematics, health, and recreation programming.

(d) Address measurable goals, including, but not limited to, improved school attendance, academic outcomes, positive behaviors, and skill acquisition, and include activities linked to research or quality practices.

(3) The department shall establish a competitive grant process for awarding funding under this section. The process must be posted publicly at least 30 days prior to the grant application period. The department shall develop the form and manner for applying for the grants. The application must include a request for information on the applicant's outreach to children, youth, and families who are eligible for free or reduced-price meals under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j. The application must be open for not less than 30 calendar days. At least 30 days before the application is opened, the department must publish on its public website the criteria that will be used in evaluating the application that must include, but are not limited to, priorities under subsection (5).

(4) Subject to subsection (8), in determining award amounts under this subsection, the department shall, to the extent practicable, ensure that eligible entities in all geographic regions of this state are represented in the distribution of grant funding under this section.

(5) Subject to subsection (8), the department shall prioritize the distribution of grant funding under this section based on, at a minimum, the following:

(a) An applicant's demonstrated need.

(b) The percentage of low-income families in the geographic area being served. Prioritization must be determined by the average percentage of pupils in the district who are eligible for free and reduced-priced meals as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j, where eligible entities will provide before-and-after-school or summer school programs.

(c) Whether the application provides services for the full school year.

(d) The applicant's track record for providing quality, affordable before-and-after-school or summer school services.

(e) Whether an applicant serving children in any of grades K through 8 is licensed or is in the process of becoming licensed or has implemented the Michigan State Board of Education Michigan Out-of-School Time Standards of Quality. This does not preclude a nonlicensed entity from applying for funding under this section and being funded under this section.

(6) Subject to subsection (7), an eligible entity that receives grant funding under this section shall use the funding only to provide before-school, after-school, before-and-after-school, or summer school programming to children described in subsection (2)(a). The programming offered under this subsection must meet all of the following:

(a) Be provided to children in a manner in which the children are physically present at a building or location designated by the eligible entity.

(b) Provide educational programming in core subject areas, including, but not limited to, mathematics, reading, and science.

(c) Provide data to evaluate the program in a form and manner as prescribed by the department.

(7) Subject to subsections (2), (4), and (5), up to 2% of funding allocated under this section must be allocated to a nonprofit entity with experience serving youth-serving organizations to provide start-up grants and capacity building, professional development, and technical assistance for implementation of high-quality, evidence-based out-of-school time learning opportunities.

(8) The department shall award no less than 60% of the funding under this section to community-based organizations.

(9) Notwithstanding section 17b, the department shall make payments under this section in full upon grant award. Grantees that do not comply with reporting requirements, fail to provide the services proposed in their grant application, or close during the grant period may be required to repay the funding they received under this section to the department.

The department shall distribute these remaining funds to each eligible applicant based upon each applicant's proportionate share of the remaining unserved children necessary to meet the statewide percentage benchmark in intermediate districts or consortia of intermediate districts serving less than the statewide percentage benchmark. When all applicants have been given the opportunity to reach the statewide percentage benchmark, the statewide percentage benchmark may be reset, as determined by the department, until greater equity of opportunity to serve eligible children across all intermediate school districts has been achieved.

(5) For the purposes of subsection (4), the department shall calculate a percentage of children served by each intermediate district or consortium of intermediate districts by adding the number of children served in the immediately preceding year by that intermediate district or consortium with the number of eligible children under section 32d served exclusively by head start, as reported in a form and manner prescribed by the department, within the intermediate district or consortia service area and dividing that total by the total number of children within the intermediate district or consortium of intermediate districts who meet the criteria of section 32d as determined by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. The department shall compare the resulting percentage of eligible children served to a statewide percentage benchmark to determine if the intermediate district or consortium is eligible for additional funds under subsection (4). The statewide percentage benchmark is 100%.

(6) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but does not receive additional funding under section 32d for those children.

(7) The department shall review the program components under section 32d and under this section at least biennially. The department also shall convene a committee of internal and external stakeholders at least once every 5 years to ensure that the funding structure under this section reflects current system needs under section 32d.

(8) As used in this section, "GSRP/Head Start blended program", "part-day program", and "school-day program" mean those terms as defined in section 32d.

Sec. 41. (1) For a district to be eligible to receive funding under this section, the district must administer to English language learners the English language proficiency assessment known as the "WIDA ACCESS for English language learners" or the "WIDA Alternate ACCESS". From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$26,511,000.00 for 2022-2023 for payments to eligible districts for services for English language learners who have been administered the WIDA ACCESS for English language learners.

(2) The department shall distribute funding allocated under subsection (1) to eligible districts based on the number of full-time equivalent English language learners as follows:

(a) \$984.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 1.0 and 1.9, or less, as applicable to each assessment.

(b) \$679.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 2.0 and 2.9, or less, as applicable to each assessment.

(c) \$111.00 per full-time equivalent English language learner who has been assessed under the WIDA ACCESS for English language learners or the WIDA Alternate ACCESS with a WIDA ACCESS or WIDA Alternate ACCESS composite score between 3.0 and 3.9, or less, as applicable to each assessment.

(3) If funds allocated under subsection (1) are insufficient to fully fund the payments as prescribed under subsection (2), the department shall prorate payments on an equal percentage basis, with the same percentage proration applied to all funding categories.

(4) Each district receiving funds under subsection (1) shall submit to the department by July 15 of each fiscal year a report, not to exceed 10 pages, on the usage by the district of funds under subsection (1) in a form and manner determined by the department, including a brief description of each program conducted or services performed by the district using funds under subsection (1) and the amount of funds under subsection (1) allocated to each of those programs or services. If a district does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district complies with this subsection. If the district does not comply with this subsection by the end of the fiscal year, the withheld funds are forfeited to the state school aid fund.

(5) In order to receive funds under subsection (1), a district must allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district shall reimburse this state for all disallowances found in the audit.

(6) Beginning July 1, 2020, and every 3 years thereafter, the department shall review the per-pupil distribution under subsection (2), to ensure that funding levels are appropriate and make recommendations for adjustments to the members of the senate and house subcommittees on K-12 school aid appropriations.

Sec. 41b. From the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 only an amount not to exceed \$1,250,000.00 for KEYS Grace Academy to, in partnership with Kalasho Education and Youth Services, provide English-as-a-second-language services, provide early childhood learning, improve progress toward high school graduation attainment, and provide K to 12 education-support services to legal immigrants, including, but not limited to, those individuals who recently arrived to the United States from Afghanistan with an application before the United States Department of Homeland Security for temporary protected status or federal humanitarian parole.

Sec. 51a. (1) From the state school aid fund money in section 11, there is allocated an amount not to exceed \$1,089,096,100.00 for 2021-2022 and there is allocated an amount not to exceed \$1,460,503,100.00 for 2022-2023 from state sources and all available federal funding under sections 1411 to 1419 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$380,000,000.00 for 2021-2022 and \$390,000,000.00 for 2022-2023, plus any carryover federal funds from previous year appropriations. The allocations under this

subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared under article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$311,800,000.00 for 2021-2022 and estimated at \$323,300,000.00 for 2022-2023, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Allocations under this subsection are made as follows:

(a) For 2021-2022, the department shall calculate the initial amount allocated to a district under this subsection toward fulfilling the specified percentages by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times the foundation allowance under section 20 of the pupil's district of residence, plus the amount of the district's per-pupil allocation under section 20m, not to exceed the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages is an amount per special education membership pupil, excluding pupils described in subsection (11), and is calculated in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the target foundation allowance for the current fiscal year, and that district's per-pupil allocation under section 20m.

(b) For 2022-2023, the department shall calculate the initial amount allocated to a district under this subsection toward fulfilling the specified percentages by multiplying the district's special education pupil membership, excluding pupils described in subsection (11), times 25% of the foundation allowance under section 20 of the pupil's district of residence, plus 25% of the amount of the district's per-pupil allocation under section 20m, not to exceed 25% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 25% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subdivision toward fulfilling the specified percentages is an amount per special education membership pupil, excluding pupils described in subsection (11), and is calculated in the same manner as for a district, using 25% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 25% of the target foundation allowance for the current fiscal year, and that district's per-pupil allocation under section 20m.

(c) After the allocations under subdivision (a) or (b), as applicable, the department shall pay a district or intermediate district for which the payments calculated under subdivision (a) do not fulfill the specified percentages the amount necessary to achieve the specified percentages for the district or intermediate district.

(3) From the funds allocated under subsection (1), there is allocated for 2021-2022 an amount not to exceed \$1,000,000.00 and there is allocated for 2022-2023 an amount not to exceed \$1,000,000.00 to make payments to districts and intermediate districts under this subsection. If the amount, for 2021-2022, allocated to a district or intermediate district for the fiscal year under subsection (2)(c) or, for 2022-2023, the amount, equal to the amount necessary to fulfill the specified percentages minus (the sum of the amounts calculated under subsection (2)(a) plus the amount received under section 51e), is less than the sum of the amounts allocated to the district or intermediate district for 1996-97 under sections 52 and 58, there is allocated to the district or intermediate district for the fiscal year an amount equal to that difference, adjusted by applying the same proration factor that was used in the distribution of funds under section 52 in 1996-97 as adjusted to the district's or intermediate district's necessary costs of special education used in calculations for the fiscal year. This adjustment is to reflect reductions in special education program operations or services between 1996-97 and subsequent fiscal years. The department shall make adjustments for reductions in special education program operations or services in a manner determined by the department and shall include adjustments for program or service shifts.

(4) If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) is not sufficient to fulfill the specified percentages in

subsection (2), then the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. If the department determines that the sum of the amounts allocated for a fiscal year to a district or intermediate district under subsection (2)(a) and (b) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), then the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination and shall adjust payments under subsection (3) as necessary. However, for 2021-2022 only, if the amount allocated under subsection (2)(a) in itself exceeds the amount necessary to fulfill the specified percentages in subsection (2), there is no deduction under this subsection.

(5) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements.

(6) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$2,200,000.00 for 2021-2022 and there is allocated an amount not to exceed \$2,200,000.00 for 2022-2023 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(7) For purposes of this section and sections 51b to 58, all of the following apply:

(a) "Total approved costs of special education" are determined in a manner specified by the department and may include indirect costs, but must not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for Social Security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as that term is defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services are reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) A district or intermediate district that employed special education support services staff to provide special education support services in 2003-2004 or in a subsequent fiscal year and that in a fiscal year after 2003-2004 receives the same type of support services from another district or intermediate district shall report the cost of those support services for special education reimbursement purposes under this article. This subdivision does not prohibit the transfer of special education classroom teachers and special education classroom aides if the pupils counted in membership associated with those special education classroom teachers and special education classroom aides are transferred and counted in membership in the other district or intermediate district in conjunction with the transfer of those teachers and aides.

(c) If the department determines before bookclosing for a fiscal year that the amounts allocated for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 will exceed expenditures for that fiscal year under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56, then for a district or intermediate district whose reimbursement for that fiscal year would otherwise be affected by subdivision (b), subdivision (b) does not apply to the calculation of the reimbursement for that district or intermediate district and the department shall calculate reimbursement for that district or intermediate district in the same manner as it was for 2003-2004. If the amount of the excess allocations under subsections (2), (3), (6), and (11) and sections 53a, 54, and 56 is not sufficient to fully fund the calculation of reimbursement to those districts and intermediate districts under this subdivision, then the department shall prorate calculations and resulting reimbursement under this subdivision on an equal percentage basis. The amount of reimbursement under this subdivision for a fiscal year must not exceed \$2,000,000.00 for any district or intermediate district.

(d) Reimbursement for ancillary and other related services, as that term is defined by R 340.1701c of the Michigan Administrative Code, is not provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, must not be borne by the parent. In addition, the filing of claims must not delay the education of a pupil. A district or intermediate district is responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(e) If an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent district does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(8) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan Schools for the Deaf and Blind is not included in the membership count of a district, but is counted in membership in the intermediate district of residence.

(9) Special education personnel transferred from 1 district to another to implement the revised school code are entitled to the rights, benefits, and tenure to which the individual would otherwise be entitled had that individual been employed by the receiving district originally.

(10) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. The department shall deposit money that is refunded in the state treasury to the credit of the state school aid fund.

(11) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$1,500,000.00 for 2021-2022 and estimated at \$1,500,000.00 for 2022-2023, to pay the foundation allowances for pupils described in this subsection. The department shall calculate the allocation to a district under this subsection by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of residence, plus the amount of the district's per-pupil allocation under section 20m, not to exceed the target foundation allowance for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6). The department shall calculate the allocation to an intermediate district under this subsection in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence not to exceed the target foundation allowance for the current fiscal year and that district's per-pupil allocation under section 20m. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(12) If it is determined that funds allocated under subsection (2) or (11) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (11) or under section 51c in order to fully fund those allocations. After payments under subsections (2) and (11) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) One hundred percent of the reimbursement required under section 53a.

(b) One hundred percent of the reimbursement required under subsection (6).

(c) One hundred percent of the payment required under section 54.

(d) One hundred percent of the payment required under subsection (3).

(e) One hundred percent of the payments under section 56.

(13) The allocations under subsections (2), (3), and (11) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(14) If a public school academy that is not a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with a disability, as that term is defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special

education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil's resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district's plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(15) For the purpose of receiving its federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, directly receives the federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, from the intermediate district in which the cyber school is located, as the subrecipient. If the intermediate district does not distribute the funds described in this subsection to the cyber school by the part B application due date of July 1, the department may distribute the funds described in this subsection directly to the cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(16) For a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate district in which the cyber school is located shall ensure that the cyber school complies with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL 380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable rules; and the individuals with disabilities education act, Public Law 108-446. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(17) For the purposes of this section, the department or the center shall only require a district or intermediate district to report information that is not already available from the financial information database maintained by the center.

Sec. 51c. As required by the court in the consolidated cases known as *Durant v State of Michigan*, 456 Mich 175 (1997), from the allocation under section 51a(1), there is allocated for 2021-2022 and for 2022-2023, the amount necessary, estimated at \$686,200,000.00 for 2021-2022 and \$709,900,000.00 for 2022-2023, for payments to reimburse districts for 28.6138% of total approved costs of special education excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation. Funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 22b to fully fund those allocations for the same fiscal year. For each fund transfer as described in the immediately preceding sentence that occurs, the state budget director shall send notification of the transfer to the house and senate appropriations subcommittees on state school aid and the house and senate fiscal agencies by not later than 14 calendar days after the transfer occurs.

Sec. 51d. (1) From the federal funds appropriated in section 11, there is allocated for 2022-2023 all available federal funding, estimated at \$71,000,000.00, for special education programs and services that are funded by federal grants. The department shall distribute all federal funds allocated under this section in accordance with federal law. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the federal funds allocated under subsection (1), the following amounts are allocated:

(a) For 2022-2023, an amount estimated at \$14,000,000.00 for handicapped infants and toddlers, funded from DED-OSERS, handicapped infants and toddlers funds.

(b) For 2022-2023, an amount estimated at \$14,000,000.00 for preschool grants under Public Law 94-142, funded from DED-OSERS, handicapped preschool incentive funds.

(c) For 2022-2023, an amount estimated at \$43,000,000.00 for special education programs funded by DED-OSERS, handicapped program, individuals with disabilities act funds.

(3) As used in this section, "DED-OSERS" means the United States Department of Education Office of Special Education and Rehabilitative Services.

Sec. 51e. (1) From the allocation under section 51a(1), there is allocated for 2022-2023 the amount necessary, estimated at \$336,207,000.00 for 2022-2023 for payments to districts and intermediate districts for 75% of foundation allowance costs associated with special education pupils.

(2) The department shall calculate the amount allocated to a district under this section by multiplying the district's special education pupil membership, excluding pupils described in section 51a(11), times 75% of the foundation allowance under section 20 of the pupil's district of residence, plus 75% of the amount of the district's per-pupil allocation under section 20m, not to exceed 75% of the target foundation allowance for the current fiscal year, or, for a special education pupil in membership in a district that is a public school academy, times an amount equal to 75% of the amount per membership pupil calculated under section 20(6). For an intermediate district, the amount allocated under this subsection is an amount per special education membership pupil, excluding pupils described in section 51a(11), and is calculated in the same manner as for a district, using 75% of the foundation allowance under section 20 of the pupil's district of residence, not to exceed 75% of the target foundation allowance for the current fiscal year, and 75% of that district's per-pupil allocation under section 20m.

(3) In addition to the amount calculated in subsection (2), there is allocated the difference between the amount received under section 51f in the 2021-2022 fiscal year and the amount calculated under subsection (2). If the calculated amount under subsection (2) exceeds the amount received by the district or intermediate district under section 51f for the 2021-2022 fiscal year, there is no payment calculated under this subsection.

Sec. 51g. From the general fund money appropriated in section 11, \$3,000,000.00 is allocated for 2022-2023 to an association for administrators of special education services to develop content for use by special education students, teachers, and others. Any content that is developed as described in this section must be accessible throughout this state. Funds received by an association under this section may be used to support the development of assessment tools to measure the needs of students with special education needs in remote learning environments and the effectiveness of various educational methods and tools, in collaboration with the department. Funds under this section may also be utilized to identify any available federal funds for research related to special education in remote learning.

Sec. 53a. (1) For districts, reimbursement for pupils described in subsection (2) is 100% of the total approved costs of operating special education programs and services approved by the department and included in the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761, minus the district's foundation allowance calculated under section 20 and minus the district's per-pupil allocation under section 20m. For intermediate districts, the department shall calculate reimbursement for pupils described in subsection (2) in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence, not to exceed the target foundation allowance under section 20 for the current fiscal year plus the amount of the district's per-pupil allocation under section 20m.

(2) Reimbursement under subsection (1) is for the following special education pupils:

(a) Pupils assigned to a district or intermediate district through the community placement program of the courts or a state agency, if the pupil was a resident of another intermediate district at the time the pupil came under the jurisdiction of the court or a state agency.

(b) Pupils who are residents of institutions operated by the department of health and human services.

(c) Pupils who are former residents of department of community health institutions for the developmentally disabled who are placed in community settings other than the pupil's home.

(d) Pupils enrolled in a department-approved on-grounds educational program longer than 180 days, but not longer than 233 days, at a residential child care institution, if the child care institution offered in 1991-92 an on-grounds educational program longer than 180 days but not longer than 233 days.

(e) Pupils placed in a district by a parent for the purpose of seeking a suitable home, if the parent does not reside in the same intermediate district as the district in which the pupil is placed.

(3) Only those costs that are clearly and directly attributable to educational programs for pupils described in subsection (2), and that would not have been incurred if the pupils were not being educated in a district or intermediate district, are reimbursable under this section.

(4) The costs of transportation are funded under this section and are not reimbursed under section 58.

(5) The department shall not allocate more than \$10,500,000.00 of the allocation for 2022-2023 in section 51a(1) under this section.

Sec. 54. Each intermediate district receives an amount per pupil for each pupil in attendance at the Michigan Schools for the Deaf and Blind. The amount is proportionate to the total instructional cost at each school. The department shall not allocate more than \$1,688,000.00 of the allocation for 2022-2023 in section 51a(1) under this section.

Sec. 54b. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed \$1,600,000.00 for 2022-2023 to continue the implementation of the recommendations of the special education reform task force published in January 2016.

(2) The department shall use funds allocated under this section for the purpose of piloting statewide implementation of the MiMTSS Center, a nationally recognized program that includes positive behavioral intervention and supports and provides a statewide structure to support local initiatives for an integrated behavior and reading program. With the assistance of the intermediate districts involved in the MiMTSS Center, the department shall identify a number of intermediate districts to participate in the pilot that is sufficient to ensure that the MiMTSS Center can be implemented statewide with fidelity and sustainability. In addition, the department shall identify an intermediate district to act as a fiscal agent for these funds.

(3) As used in this section, "MiMTSS Center" means the Michigan Multi-Tiered System of Supports Center.

Sec. 54d. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$21,250,000.00 for 2022-2023 to intermediate districts for the purpose of providing state early on services programs for children from birth to 3 years of age with a developmental delay or a disability, or both, and their families, as described in the early on Michigan state plan, as approved by the department.

(2) To be eligible to receive grant funding under this section, each intermediate district must apply in a form and manner determined by the department.

(3) The grant funding allocated under this section must be used to increase early on services and resources available to children that demonstrate developmental delays to help prepare them for success as they enter school. State early on services include evaluating and providing early intervention services for eligible infants and toddlers and their families to address developmental delays, including those affecting physical, cognitive, communication, adaptive, social, or emotional development. Grant funds must not be used to supplant existing services that are currently being provided.

(4) The department shall distribute the funds allocated under subsection (1) to intermediate districts according to the department's early on funding formula utilized to distribute the federal award to Michigan under part C of the individuals with disabilities education act, Public Law 108-446. Funds received under this section must not supplant existing funds or resources allocated for early on early intervention services. An intermediate district receiving funds under this section shall maximize the capture of Medicaid funds to support early on early intervention services to the extent possible.

(5) Each intermediate district that receives funds under this section shall report data and other information to the department in a form, manner, and frequency prescribed by the department to allow for monitoring and evaluation of the program and to ensure that the children described in subsection (1) received appropriate levels and types of services delivered by qualified personnel, based on the individual needs of the children and their families.

(6) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(7) Grant funds awarded and allocated to an intermediate district under this section must be expended by the grant recipient before June 30 of the fiscal year immediately following the fiscal year in which the funds were received.

Sec. 55. (1) From the general fund money appropriated in section 11, there is allocated an amount not to exceed \$300,000.00 for 2022-2023 only to the Conductive Learning Center operating in cooperation with Aquinas College. This funding must be used to support the operational costs of the conductive education model taught at the Conductive Learning Center to maximize the independence and mobility of children and adults with neuromotor disabilities. The conductive education model funded under this section must be based on the concept of neuroplasticity and the ability of people to learn and improve when they are motivated, regardless of the severity of their disability.

(2) Notwithstanding section 17b, the department shall distribute the funding allocated under this section to the Conductive Learning Center not later than December 1, of each fiscal year for which funding is allocated under this section.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership of the intermediate district and the districts constituent to the intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, membership of the district is not included in the membership of the intermediate district.

(b) "Millage levied" means the millage levied for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, taxable value of the district is not included in the taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed \$40,008,100.00 for 2021-2022 and an amount not to exceed \$40,008,100.00 for 2022-2023 to reimburse intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts must submit for departmental approval and implement a distribution plan.

(3) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2020-2021 is made in 2021-2022 at an amount per 2020-2021 membership pupil computed by subtracting from \$218,200.00 the 2020-2021 taxable value behind each membership pupil and multiplying the resulting difference by the 2020-2021 millage levied, and then subtracting from that amount the 2020-2021 local community stabilization share revenue for special education purposes behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362. Reimbursement in 2021-2022 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(4) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2021-2022 is made in 2022-2023 at an amount per 2021-2022 membership pupil computed by subtracting from \$229,600.00 the 2021-2022 taxable value behind each membership pupil and multiplying the resulting difference by the 2021-2022 millage levied, and then subtracting from that amount the 2021-2022 local community stabilization share revenue for special education purposes and 2021-2022 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. Reimbursement in 2022-2023 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(5) The department shall ensure that the amount paid to a single intermediate district under subsection (2) does not exceed 62.9% of the total amount allocated under subsection (2).

(6) The department shall ensure that the amount paid to a single intermediate district under subsection (2) is not less than 75% of the amount allocated to the intermediate district under subsection (2) for the immediately preceding fiscal year.

(7) From the allocation under section 51a(1), there is allocated an amount not to exceed \$34,200,000.00 for 2021-2022 and an amount not to exceed \$34,200,000.00 for 2022-2023, to provide payments to intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the payments under this subsection are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. The department shall provide a payment under this subsection to each intermediate district described in this subsection as follows:

(a) Except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$251.00 and that is levying at least 46.2% but less than 60.0% of its maximum millage rate allowed under section 1724a of the revised school code, MCL 380.1724a, an amount computed by subtracting from \$251.00 the 3-year average special education millage revenue per pupil in the immediately preceding fiscal year and, only if the millage levied by the intermediate district is less than 1, multiplying that amount by the number of mills levied divided by 1, and then multiplying that amount by the 3-year average membership in the immediately preceding fiscal year, and then subtracting from that amount the amount allocated under subsection (2) for the current fiscal year. If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(b) Except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$296.00 and that is levying at least 60.0% of its maximum millage rate allowed under section 1724a of the revised school code,

If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(8) As used in subsection (7):

(a) “3-year average membership” means the 3-year average pupil membership for each of the 3 most recent fiscal years.

(b) “3-year average special education millage revenue per pupil” means the 3-year average taxable value per mill levied behind each membership pupil for each of the 3 most recent fiscal years multiplied by the millage levied in the most recent fiscal year.

Sec. 61a. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$47,611,300.00 for 2022-2023 only to reimburse on an added cost basis districts, except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year and that has a foundation allowance as calculated under section 20 greater than the target foundation allowance under that section, and secondary area vocational-technical education centers for secondary-level career and technical education programs according to rules approved by the superintendent. It is the intent of the legislature that, for 2023-2024, the allocation from the state school aid fund money appropriated in section 11 for purposes described in this subsection will be \$37,611,300.00. Applications for participation in the programs must be submitted in the form prescribed by the department. The department shall determine the added cost for each career and technical education program area. The department shall prioritize the allocation of added cost funds based on the capital and program expenditures needed to operate the career and technical education programs provided; the number of pupils enrolled; the advancement of pupils through the instructional program; the existence of an articulation agreement with at least 1 postsecondary institution that provides pupils with opportunities to earn postsecondary credit during the pupil’s participation in the career and technical education program and transfers those credits to the postsecondary institution upon completion of the career and technical education program; and the program rank in student placement, job openings, and wages, and shall ensure that the allocation does not exceed 75% of the added cost of any program. Notwithstanding any rule or department determination to the contrary, when determining a district’s allocation or the formula for making allocations under this section, the department shall include the participation of pupils in grade 9 in all of those determinations and in all portions of the formula. With the approval of the department, the board of a district maintaining a secondary career and technical education program may offer the program for the period from the close of the school year until September 1. The program shall use existing facilities and must be operated as prescribed by rules promulgated by the superintendent.

(2) Except for a district that served as the fiscal agent for a vocational education consortium in the 1993-94 school year, the department shall reimburse districts and intermediate districts for local career and technical education administration, shared time career and technical education administration, and career education planning district career and technical education administration. The superintendent shall adopt guidelines for the definition of what constitutes administration and shall make reimbursement pursuant to those guidelines. The department shall not distribute more than \$800,000.00 of the allocation in subsection (1) under this subsection.

(3) A career and technical education program funded under this section may provide an opportunity for participants who are eligible to be funded under section 107 to enroll in the career and technical education program funded under this section if the participation does not occur during regular school hours.

Sec. 61b. (1) From the state school aid fund money appropriated under section 11, there is allocated for 2022-2023 an amount not to exceed \$8,000,000.00 for CTE early middle college and CTE dual enrollment programs authorized under this section and for planning grants for the development or expansion of CTE early middle college programs. The department will align career education planning districts, workforce development board service delivery areas, and intermediate districts for the purpose of creating 1 regional strategic plan for each workforce development board service delivery area.

(c) Implement a regional process to rank career clusters in the workforce development board service delivery area as described under subsection (4). Regional processes must be approved by the department before the ranking of career clusters.

Standard occupational codes within high-ranking clusters also may be further ranked by median wage and annual job openings. The career and educational advisory council located in the workforce development board service delivery area shall review the rankings and modify them if necessary to accurately reflect employer demand for talent in the workforce development board service delivery area. A career and educational advisory council shall document that it has conducted this review and certify that it is accurate. These career cluster rankings must be determined and updated once every 4 years.

To be eligible to receive funding under this section, at least 50% of the area served by a CEPD must be located in an intermediate district that did not levy a vocational education millage in 2022.

(2) To receive funding under subsection (1), each eligible CEPD must apply in a form and manner prescribed by the department. Funding to each eligible CEPD must be equal to the quotient of the allocation under subsection (1) and the sum of the number of career education planning districts applying for funding under subsection (1) that are located in an intermediate district that did not levy a vocational education millage in 2022.

(3) At least 50% of the funding allocated to each eligible CEPD must be used to update equipment in current CTE programs that have been identified in the highest 5 career cluster rankings in the most recent CEPD regional strategic plans jointly approved by the Michigan talent investment agency in the department of labor and economic opportunity and the department, for training on new equipment, for professional development relating to computer science or coding, or for new and emerging certified CTE programs to allow CEPD administrators to provide programming in communities that will enhance economic development. In addition, each CEPD is encouraged to explore the option of leasing equipment from local private industry to encourage the use of the most advanced equipment.

(4) The allocation of funds at the local level must be determined by CEPD administrators using data from the state, region, and local sources to make well-informed decisions on program equipment improvements. Grants awarded by CEPD administrators for capital infrastructure must be used to ensure that CTE programs can deliver educational programs in high-wage, high-skill, and high-demand occupations. supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year shall submit and certify to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the sixth Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall resolve any pupil membership conflicts with another district, correct any data issues, and recertify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and the department shall withhold state aid due to be distributed under this article from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12) all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and 180 days of pupil instruction. If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of June 24, 2014, and if that school calendar is not in compliance with this subdivision, then this subdivision does not apply to that district until after the expiration of that collective bargaining agreement. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection forfeits from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than the first business day in August, the board of each district shall either certify to the department that the district was in full compliance with this section regarding the number of hours and days of pupil instruction in the previous school year, or report to the department, in a form and manner prescribed by the center, each instance of noncompliance. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the department shall make the deduction of state aid in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences are not counted as hours or days of pupil instruction.

(d) Except as otherwise provided in subdivisions (e) and (f), if a district does not have at least 75% of the district's membership in attendance on any day of pupil instruction, the department shall pay the district state aid in that proportion of 1/180 that the actual percent of attendance bears to 75%.

(e) If a district adds 1 or more days of pupil instruction to the end of its instructional calendar for a school year to comply with subdivision (a) because the district otherwise would fail to provide the required minimum number of days of pupil instruction even after the operation of subsection (4) due to conditions not within the control of school authorities, then subdivision (d) does not apply for any day of pupil instruction that is added to the end of the instructional calendar. Instead, for any of those days, if the district does not have at least 60% of the district's membership in attendance on that day, the department shall pay the district state aid in that proportion of 1/180 that the actual percentage of attendance bears to 60%. For any day of pupil instruction added to the instructional calendar as described in this subdivision, the district shall report to the department the percentage of the district's membership that is in attendance, in the form and manner prescribed by the department.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent shall grant a waiver from the requirements of subdivision (d). The waiver must provide that an eligible district is subject to the proration provisions of subdivision (d) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, are counted as hours and days of pupil instruction. With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 3 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection. Subsequent such hours or days are not counted as hours or days of pupil instruction.

(5) A district does not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department determines that 1 or more of the following have occurred in a district, the district forfeits in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, is considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a Junior Reserve Officer Training Corps (JROTC) program is considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States Department of Defense and the applicable branch of the armed services for serving as an instructor in the Junior Reserve Officer Training Corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent shall waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture is calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). A district shall report pupils enrolled in a department-approved alternative education program under this subsection to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil is on track for course completion at proficiency level, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(10) A district may count up to 38 hours of professional development for teachers as hours of pupil instruction. All of the following apply to the counting of professional development as pupil instruction under this subsection:

(a) If the professional development exceeds 5 hours in a single day, that day may be counted as a day of pupil instruction.

(b) At least 8 hours of the professional development counted as hours of pupil instruction under this subsection must be recommended by a districtwide professional development advisory committee appointed by the district board. The advisory committee must be composed of teachers employed by the district who represent a variety of grades and subject matter specializations, including special education; nonteaching staff; parents; and administrators. The majority membership of the committee must be composed of teaching staff.

(c) Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers that must include the Michigan Virtual School.

(d) Professional development may only be counted as hours of pupil instruction under this subsection for the pupils of those teachers scheduled to participate in the professional development.

(e) The professional development must meet all of the following to be counted as pupil instruction under this subsection:

(i) Be aligned to the school or district improvement plan for the school or district in which the professional development is being provided.

(ii) Be linked to 1 or more criteria in the evaluation tool developed or adopted by the district or intermediate district under section 1249 of the revised school code, MCL 380.1249.

(iii) Has been approved by the department as counting for state continuing education clock hours. The number of hours of professional development counted as hours of pupil instruction under this subsection may not exceed the number of state continuing education clock hours for which the professional development was approved.

(iv) Not more than a combined total of 10 hours of the professional development takes place before the first scheduled day of school for the school year ending in the fiscal year and after the last scheduled day of school for that school year.

(v) Not more than 10 hours of the professional development takes place in a single month.

(vi) At least 75% of teachers scheduled to participate in the professional development are in attendance.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, “eligible pupil” means that term as defined in section 23a.

(13) At least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

Sec. 104. (1) In order to receive state aid under this article, a district shall comply with sections 1249, 1278a, 1278b, 1279g, and 1280b of the revised school code, MCL 380.1249, 380.1278a, 380.1278b, 380.1279g, and 380.1280b, and 1970 PA 38, MCL 388.1081 to 388.1086. (2) The results of each test administered as part of the Michigan student test of educational progress (M-STEP), including tests administered to high school students, must include an item analysis that lists all items that are counted for individual pupil scores and the percentage of pupils choosing each possible response. The department shall work with the center to identify the number of students enrolled at the time assessments are given by each district. In calculating the percentage of pupils assessed for a district’s scorecard, the department shall use only the number of pupils enrolled in the district at the time the district administers the assessments and shall exclude pupils who enroll in the district after the district administers the assessments.

(3) The department shall distribute federal funds allocated under this section in accordance with federal law and with flexibility provisions outlined in Public Law 107-116, and in the education flexibility partnership act of 1999, Public Law 106-25.

(5) Notwithstanding section 17b, the department shall make payments on behalf of districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(6) From the allocation in subsection (1), there is allocated an amount not to exceed \$500,000.00 for 2022-2023 for the operation of an online reporting tool to provide student-level assessment data in a secure environment to educators, parents, and pupils immediately after assessments are scored. The department and the center shall ensure that any data collected by the online reporting tool do not provide individually identifiable student data to the federal government.

(7) As used in this section:

- (a) “DED” means the United States Department of Education.
- (b) “DED-OESE” means the DED Office of Elementary and Secondary Education.
- (c) “DED-OSERS” means the DED Office of Special Education and Rehabilitative Services.

The department shall ensure that a program funded under this subsection satisfies all of the following:

- (a) Is available to districts in the 2022-2023 school year.
 - (b) Focuses on ensuring pupils have the necessary skills required for state online assessments by assessing pupil digital literacy skill levels and providing teachers with a digital curriculum targeted at areas of determined weakness.

(b) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to develop a regional strategy

that aligns adult education programs and services into an efficient and effective delivery system for adult education learners, with special consideration for providing contextualized learning and career pathways and addressing barriers to education and employment.

(c) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to create a local process and criteria that will identify eligible adult education providers to receive funds allocated under this section based on location, demand for services, past performance, quality indicators as identified by the department, and cost to provide instructional services. The fiscal agent shall determine all local processes, criteria, and provider determinations. However, the local processes, criteria, and provider services must be approved by the department before funds may be distributed to the fiscal agent.

(d) Provide oversight to its adult education providers throughout the program year to ensure compliance with the requirements of this section.

(e) Report adult education program and participant data and information as prescribed by the department.

A funding recipient may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant must not exceed the actual operating cost per participant minus any funds received under this section per participant. In addition to the funding allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$500,000.00 to reimburse funding recipients for administrative and instructional expenses associated with commingling programming under this section and section 61a. The department shall make payments under this subsection to each funding recipient in the same proportion as funding calculated and allocated under subsection (4).

(15) From the amount appropriated in subsection (1), an amount not to exceed \$4,000,000.00 is allocated for 2022-2023 for grants to adult education or state-approved career technical center programs that connect adult education participants with employers as provided under this subsection. Up to 15% of adult education participants served under subsection (15) may already have a high school diploma or a high school equivalency certificate at the time of enrollment in an eligible career and technical skills program under subsection (15) and receive remediation services. If the retirement system makes a determination as described in the immediately preceding sentence, it shall issue its estimations publicly and describe the need for the adjustment described in the immediately preceding sentence.

(d) Each participating entity receiving funds under this section shall forward an amount equal to the amount allocated under subdivision (c) to the retirement system in a form, manner, and time frame determined by the retirement system.

(f) Not later than December 20 of each fiscal year for which funding is allocated under this section, the department shall publish and post on its website an estimated MPSERS rate cap per pupil for each district.

(g) The office of retirement services shall first apply funds allocated under this section to pension contributions and, if any funds remain after that payment, shall apply those remaining funds to other postemployment benefit contributions.

(2) In addition to the funds allocated under subsection (1), from the state school aid fund money appropriated in section 11, there is allocated for 2022-2023 only \$1,000,000,000.00 for payments to districts and intermediate districts that are participating entities of the Michigan public school employees' retirement system. Payments to community colleges that qualify for local strategic value funding must be distributed with the November installment payment described in section 206.

(3) For purposes of subsection (2), the following categories of best practices reflect functional activities of community colleges that have strategic value to the local communities and regional economies:

- (a) For Category A, economic development and business or industry partnerships, the following:

 - (iv) The community college provides, supports, or participates in programming to promote successful transitions to college for new or reentering adult students, such as adult basic education, a high school equivalency test preparation program and testing, or recruiting, advising, or orientation activities specific to adults. As used in this subparagraph, "high school equivalency test preparation program" means that term as defined in section 4.
 - (v) The community college has active partnerships with regional 4-year colleges and universities to promote successful transfer, such as articulation, 2+2, or reverse transfer agreements or operation of a university center.

The state budget director shall determine if a community college has not satisfied this requirement. The state budget director may withhold payments for performance funding until a community college is in compliance with this subsection.
- (5) Payments under section 201 for performance funding for fiscal year 2022-2023 must be made only to a public community college that certifies to the state budget director by the last business day of August that its board will not adopt an increase in tuition and fee rates for in-district students for the 2022-2023 academic year that is greater than 5.0% or \$226.00, whichever is greater. As used in this subsection:
 - (a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all in-district students at least once during their enrollment at a community college. A community college increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by in-district students in the 2022-2023 academic year to exceed the limit established in this section.

(7) Notwithstanding any other provision of this act, the legislature may at any time adjust appropriations for a community college that adopts an increase in tuition and fee rates for in-district students that exceeds the rate cap established in subsection (5).

(8) A task force must be formed by September 15, 2022 to review, evaluate, discuss, and make recommendations regarding community college operations funding, with a focus on addressing disparities and ensuring that funding levels are equitable across tuition, state support, and local tax revenue. All of the following apply to this task force:

(ii) The state budget director or designee.

(b) The task force may engage legislative staff, the house and senate fiscal agencies, the state budget office, the department of treasury, former state officials, and other stakeholders with relevant technical expertise to support its work.

(c) The task force shall review whether the current performance metrics used for the performance funding formula are the most appropriate and reliable performance indicators available and determine the most efficient methodology for connecting state funding to those indicators. The task force shall also review, examine, and suggest methodology concerning equitable and appropriate funding levels to community colleges.

(d) The task force shall publish a report containing its findings and recommendations by December 15, 2022.

A university that receives money under this subsection shall use that money solely for the purpose of payments toward the pension and other postemployment benefit unfunded actuarial accrued liabilities associated with members and pension recipients of those participating public universities. As used in this section, "participating public universities" means public universities that are reporting units of the Michigan public school employees' retirement system under the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1437, and that pay contributions to the Michigan public school employees' retirement system for the state fiscal year.

(2) The amount allocated in subsection (1) must be allocated to each participating public university based on each participating public university's percentage of the total combined payrolls of the universities' employees who are members of the retirement system and who were hired before January 1, 1996 and the universities' employees who would have been members of the retirement system on or after January 1, 1996, but for the enactment of 1995 PA 272 for all public universities that are participating public universities for the immediately preceding state fiscal year.

(3) Participating public universities receiving funds under this section shall forward an amount equal to the amount allocated under subsection (1) to the retirement system in a form, manner, and time frame determined by the retirement system.

(4) Amounts allocated in subsection (1) must be paid to participating public universities in 1 lump-sum installment no later than September 30, 2022.

Sec. 236j. (1) The postsecondary scholarship fund is created in the department of treasury for the purpose of providing scholarship awards to eligible students who attend eligible postsecondary educational institutions in this state, as provided in subsection (5).

(2) The state treasurer may receive money or other assets from any source for deposit into the postsecondary scholarship fund. The state treasurer shall direct the investment of the postsecondary scholarship fund. The state treasurer shall credit to the postsecondary scholarship fund interest and earnings from postsecondary scholarship fund investments.

(4) The department of treasury shall be the administrator of the postsecondary scholarship fund for auditing purposes.

(5) The expenditure of money from the postsecondary scholarship fund is subject to all of the following:

(a) Money must be expended from the postsecondary scholarship fund only for the purpose of providing scholarship awards to eligible students who attend eligible postsecondary educational institutions in this state.

(b) Criteria for student and institutional eligibility under subdivision (a), along with all other program requirements, must be established pursuant to a postsecondary scholarship program enacted into the law of this state that is effective by not later than September 30, 2023.

(c) If a postsecondary scholarship program is not enacted into law with an effective date as described in subdivision (b), money in the postsecondary scholarship fund must remain in the postsecondary scholarship fund and not lapse to the general fund.

(6) For the fiscal year ending September 30, 2023, \$250,000,000.00 is deposited into the postsecondary scholarship fund from the state general fund/general purpose money.

Sec. 236k. (1) The amounts appropriated in section 236 for per-student floor funding are distributed to those public universities whose annual state appropriations per fiscal year equated student is less than \$4,500.00 and are to be allocated each year over 3 years until a funding floor of \$4,500.00 is met.

(2) The per-student floor funding allocation for fiscal year 2022-2023 is an amount equal to (the difference between \$4,500.00 and the amount calculated by dividing the annual state appropriations for fiscal year 2020-2021 by total fiscal year equated students for all public universities for fiscal year 2020-2021) divided by 3. The amount paid to an eligible public university is the amount calculated in the immediately preceding sentence multiplied by that university's fiscal year equated students for fiscal year 2020-2021. If a calculation under this section results in an amount less than \$0.00, the payment under this section is equal to \$0.00. It is intended that each university will reach a minimum funding level of at least \$4,500.00 over 3 years.

(3) As used in this section:

(a) "Annual state appropriations" means the total of those amounts allocated in section 236(2) with the exception of MSU AgBioResearch and MSU Extension for the fiscal year ending September 30, 2021.

(b) "Fiscal year equated students" means that term as used in the higher education institutional data inventory for the fiscal year ending September 30, 2021.

Sec. 237b. As used in this article:

(a) "Center" means the center for educational performance and information created in section 94a.

(b) “College level equivalent credit examination” means an examination that is administered by an independent testing service and that is used by colleges and universities generally to award postsecondary credit for achievement of a particular score, and includes, but is not limited to, advanced placement examinations, the DANTES Subject Standardized Test (DSST), and college-level examination program (CLEP) examinations.

Except for Wayne State University, each institution shall accrue its July and August 2022 payments to its institutional fiscal year ending June 30, 2023.

(2) All public universities shall submit higher education institutional data inventory (HEIDI) data and associated financial aid program information requested by and in a manner prescribed by the state budget director. For public universities with fiscal years ending June 30, these data must be submitted to the state budget director by October 15 of each fiscal year. Public universities with a fiscal year ending September 30, 2022 shall submit preliminary HEIDI data by November 15, 2022 and final data by December 15, 2022. If a public university fails to submit HEIDI data and associated financial aid program information in accordance with this reporting schedule, the state treasurer may withhold the monthly installments under subsection (1) to the public university until those data are submitted.

Sec. 245a. (1) A public university shall develop, maintain, and update a “campus safety information and resources” link, prominently displayed on the homepage of its website, to a section of its website containing all of the information required under subsection (2).

Information must include all material prepared pursuant to the public information reporting requirements under the crime awareness and campus security act of 1990, title II of the student right-to-know and campus security act, Public Law 101-542, 104 Stat 2381.
- (3) A public university shall certify to the state budget director by October 1, 2022 that it is in compliance with this section. The state budget director may withhold a public university’s monthly installments described in section 241 until the public university complies with this section.

Sec. 251. (1) Payments of the amounts included in section 236 for the state competitive scholarship program must be distributed pursuant to 1964 PA 208, MCL 390.971 to 390.981.

(2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an actual state competitive scholarship award per student, which must be \$1,500.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish an award amount equal to \$1,500.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$1,500.00 award amount.

(3) The department of treasury shall implement a proportional competitive scholarship award level for recipients enrolled less than full-time in a given semester or term.

(4) If a student who receives an award under this section has his or her tuition and fees paid under the Michigan educational trust program, pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442, and still has financial need, the funds awarded under this section may be used for educational expenses other than tuition and fees.

(5) If the department of treasury increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the award must be proportional for all eligible students receiving awards.

(6) Veterans Administration benefits must not be considered in determining eligibility for the award of scholarships under 1964 PA 208, MCL 390.971 to 390.981.

Sec. 252. (1) The amounts appropriated in section 236 for the state tuition grant program must be distributed pursuant to 1966 PA 313, MCL 390.991 to 390.997a.

(2) Tuition grant awards must be made to all eligible Michigan residents enrolled in undergraduate degree programs who are qualified and who apply by March 1 of each year for the next academic year.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsections (6) and (7), the department of treasury shall determine an actual tuition grant award per student, which must be \$3,000.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$3,000.00 award amount. If the department determines that sufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the award amount established and the projected amount of any projected year-end appropriation balance based on that award amount. By February 18 of each fiscal year, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions must be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students must be notified of the adjustment by March 4 of each year.

(4) The department of treasury shall continue a proportional tuition grant award level for recipients enrolled less than full-time in a given semester or term.

(5) If the department of treasury increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the grant must be proportional for all eligible students receiving awards for that fiscal year.

(6) The department of treasury shall not award more than \$5,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the grant must be proportional for all eligible students enrolled in that college or university, as determined by the department. The limit described in this subsection does not apply to any other student financial aid program or in combination with any other student financial aid program.

(7) The department of treasury shall not award tuition grants to otherwise eligible students enrolled in an independent college or university that does not report, in a form and manner directed by and satisfactory to the department of treasury, by October 31 of each year, all of the following:

(a) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and successfully completed a program or graduated.

(c) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and successfully completed a program or graduated.

(8) By February 1 of each year, each independent college and university participating in the tuition grant program shall report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director on its efforts to develop and implement sexual assault response training for the institution's title IX coordinator, campus law enforcement personnel, campus public safety personnel, and any other campus personnel charged with responding to on-campus incidents, including information on sexual assault response training materials and the status of implementing sexual assault response training for institutional personnel.

Certification of eligibility may begin in the sixth grade.

(10) The department shall ensure that the tuition incentive program is well publicized and that eligible Medicaid clients are provided information on the program. The department shall provide the necessary funding and staff to fully operate the program.

(11) The department shall collaborate with the center to use the P-20 longitudinal data system to report the following information for each qualified postsecondary institution:

(a) The number of phase I students in the most recently completed academic year who in any academic year received a tuition incentive program award and who successfully completed a degree or certificate program. Cohort graduation rates for phase I students must be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary institutions.

(b) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and who successfully completed a degree or certificate program. Cohort graduation rates for students who received Pell grants must be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary institutions.

(12) If a qualified postsecondary institution does not report the data necessary to complete the reporting in subsection (11) to the P-20 longitudinal data system by October 15 for the prior academic year, the department shall not award phase I tuition incentive program funding to otherwise eligible students enrolled in that institution until the data are submitted.

Sec. 263. (1) Included in the appropriation in section 236 for fiscal year 2022-2023 for MSU AgBioResearch is \$2,982,900.00 and included in the appropriation in section 236 for MSU Extension is \$2,645,200.00 for Project GREEN. Project GREEN is intended to address critical regulatory, food safety, economic, and environmental problems faced by this state's plant-based agriculture, forestry, and processing industries. "GREEN" is an acronym for Generating Research and Extension to Meet Environmental and Economic Needs.

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university, as described in the higher education

institutional data inventory (HEIDI) user manual. A university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2022-2023 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates paid by a majority of students in each undergraduate class, based on an unweighted average of the rates authorized by the university board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year, as described in the higher education institutional data inventory (HEIDI) user manual.

(2) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 236 for operations increase and per-student floor funding has satisfied the tuition restraint requirements of this section. The state budget director has the sole authority to determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection must also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(3) Universities that exceed the tuition and fee rate cap described in subsection (1) will not receive a planning or construction authorization for a state-funded capital outlay project in fiscal year 2023-2024 or 2024-2025.

(4) Notwithstanding any other provision of this act, the legislature may at any time adjust appropriations for a university that adopts an increase in tuition and fee rates for resident undergraduate students that exceeds the rate cap established in subsection (1).

Sec. 265a. (1) Appropriations to public universities in section 236 for fiscal years 2019-2020, 2020-2021, and 2021-2022 for performance funding must be paid only to a public university that complies with section 265 and certifies to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies by October 1, 2019 that it complies with all of the following requirements:

(a) The university participates in reverse transfer agreements described in section 286 with at least 3 Michigan community colleges.

(b) The university does not and will not apply any of the following criteria when determining whether credits earned outside the university by a student count toward a degree or certificate program offered by the university:

(i) Whether the credits were earned in a dual enrollment program that counted the credits toward high school graduation requirements.

(ii) Whether the credits were earned in a course that was delivered in a high school classroom, community college classroom or campus, or another location.

(iii) Whether the credits were earned in a course that was delivered online, in person, or hybrid.

(iv) Whether other students enrolled in the course in which the credits were earned were enrolled in high school or counted the course toward high school graduation requirements.

(c) The university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

(2) Any performance funding amounts under section 236 that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) are unappropriated and reappropriated for performance funding to those public universities that meet the requirements under subsection (1), distributed in proportion to their performance funding appropriation amounts under section 236.

(3) The state budget director shall report to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies by October 15, 2019, regarding any performance funding amounts that are not paid to a public university because it did not comply with 1 or more requirements under subsection (1) and any reappropriation of funds under subsection (2).

(4) Performance funding amounts described in section 236 are distributed based on the following formula:

(a) Proportional to each university's share of total operations funding appropriated in fiscal year 2010-2011, 50%.

(b) Based on weighted undergraduate completions in critical skills areas, 11.1%.

(c) Based on research and development expenditures, for universities classified in Carnegie classifications as doctoral universities: moderate research activity, doctoral universities: higher research activity, or doctoral universities: highest research activity only, 5.6%.

(d) Based on 6-year graduation rate, total degree completions, and institutional support as a percentage of core expenditures, and the percentage of students receiving Pell grants, scored against national Carnegie classification peers and weighted by total undergraduate fiscal year equated students, 33.3%.

(5) For purposes of determining the score of a university under subsection (4)(d), each university is assigned 1 of the following scores:

(a) A university classified as in the top 20%, a score of 3.

(b) A university classified as above national median, a score of 2.

(d) A university that is not included in subdivision (a), (b), or (c), a score of 0.

(6) As used in this section, "Carnegie classification" means the basic classification of the university according to the most recent version of the Carnegie classification of institutions of higher education, published by the Carnegie Foundation for the Advancement of Teaching.

(7) It is the intent of the legislature to allocate more funding based on an updated set of performance metrics in future years. Updated metrics will be based on the outcome of joint hearings between the house and senate appropriations subcommittees on higher education and community colleges intended to be held in the fall of 2019.

Sec. 265b. (1) Appropriations to public universities in section 236 for the fiscal year ending September 30, 2023 for operations funding must be reduced by 10% pursuant to the procedures described in subdivision (a) for a public university that fails to submit certification to the state budget director, the house and senate appropriations subcommittees on higher education, and the house and senate fiscal agencies by October 1, 2022 that the university complies with sections 274c and 274d and that it complies with all of the requirements described in subdivisions (b) to (i), as follows:

(a) If a university fails to submit certification, the state budget director shall withhold 10% of that university's annual operations funding until the university submits certification. If a university fails to submit certification by the end of the fiscal year, the 10% of its annual operations funding that is withheld must lapse to the general fund.

(b) For title IX investigations of alleged sexual misconduct, the university prohibits the use of medical experts that have an actual or apparent conflict of interest.

(c) For title IX investigations of alleged sexual misconduct, the university prohibits the issuance of divergent reports to complainants, respondents, and administration and instead requires that identical reports be issued to them.

(d) Consistent with the university's obligations under 20 USC 1092(f), the university notifies each individual who reports having experienced sexual assault by a student, faculty member, or staff member of the university that the individual has the option to report the matter to law enforcement, to the university, to both, or to neither, as the individual may choose.

(e) The university provides both of the following:

A third-party title IX investigation under this subdivision does not prohibit the university from simultaneously conducting its own title IX investigation through its own title IX coordinator.

(2) Each public university that receives an appropriation in section 236 shall also certify that its president or chancellor and a member of its governing board has reviewed all title IX reports involving the alleged sexual misconduct of an employee of the university, and shall send the certification to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director by October 1, 2022.
