Rep. Aiyash offered the following concurrent resolution:

A concurrent resolution to call on the state of Michigan to act quickly to replace lead service lines that have contaminated drinking water sources in the city of Hamtramck.

Whereas, A reliable system that delivers safe, quality drinking water is crucial to a community’s vitality and its residents’ health and well-being; and

Whereas, Exposure to lead can cause serious harm to the health of children and adults. Children are especially vulnerable to lead poisoning and can experience damage to the brain and nervous system, slowed growth and development, and other significant harm to their health, including long-term impacts; and

Whereas, The U.S. Environmental Protection Agency's 90th percentile value lead action level in drinking water is 15 parts per billion (ppb); and
Whereas, An October 15, 2021, letter from the Department of Environment, Great Lakes, and Energy to Hamtramck about lead and copper monitoring indicates that the community water supply's 90\textsuperscript{th} percentile value exceeded the 15 ppb lead action level during testing from June 1 to September 30, 2021. The 90\textsuperscript{th} percentile value for lead was 17 ppb, with sample results reaching as high as 36 ppb. Among the sources of the lead contamination, the letter notes that the city's service lines may contain lead; now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That we call on the state of Michigan to act quickly to replace lead service lines that have contaminated drinking water sources in the city of Hamtramck; and be it further

Resolved, That copies of this resolution be transmitted to the Governor and the Director of the Department of Environment, Great Lakes, and Energy.
