

## HOUSE RESOLUTION NO.23

Reps. Beson and Meerman offered the following resolution:

1       A resolution to urge the Governor and the Michigan Department  
2 of Health and Human Services to lift the suspension on high school  
3 sports and allow play to resume immediately.

4       Whereas, The COVID-19 Pandemic has upended nearly every aspect  
5 of the public and private lives of people in Michigan and across  
6 the world. The disruption of school closures in particular has had  
7 a devastating impact on students as they grapple with academic  
8 challenges and suffer from a lack of social and emotional benefits  
9 that traditional in-person schooling provides; and

10       Whereas, In response to the Pandemic, the Governor and the  
11 Michigan Department of Health and Human Services (MDHHS) have  
12 ordered various suspensions of both contact and non-contact high  
13 school sports for different lengths of time. Most recently, MDHHS

1 announced that winter sports, including competitive cheer,  
2 wrestling, and boys and girls basketball, will be suspended until  
3 February 21st - a full month after the previous suspension was set  
4 to expire; and

5       Whereas, While the order is intended to be in the best  
6 interests of the students, these types of prohibitions ignore other  
7 very serious harms that students are facing from the continued  
8 suspension of high school sports. As a result of school closures,  
9 students are suffering from crippling isolation which is severely  
10 harming their mental health. According to a national survey of more  
11 than 3,000 high school and college students regarding coronavirus,  
12 87 percent reported stress and anxiety, while 57 percent reported  
13 that their mental health had worsened. In addition, experts are  
14 concerned about potential increases in youth suicide and argue that  
15 it is critically important for teenagers to have regular contact  
16 with their peers. Allowing students to participate in high school  
17 sports would help reduce social isolation and could significantly  
18 improve their mental health; and

19       Whereas, There is little data available that demonstrates why  
20 the continued suspension of high school sports is necessary.  
21 According to the Executive Director of the Michigan High School  
22 Athletic Association, the negative rate for over 30,000 rapid  
23 COVID-19 tests conducted over the last three months with fall  
24 sports was 99.8 percent. Furthermore, without school sports,  
25 students will seek outside activities through club sports, which  
26 could potentially lead to a larger spread of the virus as students  
27 travel to various locations. In addition, other neighboring states  
28 have allowed their students to participate in winter sports for  
29 several weeks without any significant Covid-19 outbreaks; now,

1 therefore, be it

2       Resolved by the House of Representatives, That we urge the  
3 Governor and the Michigan Department of Health and Human Services  
4 to lift the suspension on high school sports and allow play to  
5 resume immediately; and be it further

6       Resolved, That copies of this resolution be transmitted to the  
7 Governor of Michigan and the Director of the Michigan Department of  
8 Health and Human Services.
