SUMMARY:

Senate Bill 986 would amend the Food Law to exempt from its licensure requirements an individual who operates a location under the requirements of 1978 PA 260, which contains laws and requirements regarding accommodations for blind and visually impaired persons. Among the requirements of that act is that a concession in a state-owned building or on state-owned property must be owned or operated, or both, by a blind or visually impaired person.

MCL 289.4105

FISCAL IMPACT:

The bill could reduce state and local costs through reduced licensing and inspection activity and reduce state and local fee revenue. However, these fiscal impacts would be relatively minor and immaterial.
