House Bill 5606 as introduced
Sponsor: Rep. Graham Filler
Committee: Energy, Communications, and Technology
Complete to 12-3-24

Analysis available at
<http://www.legislature.mi.gov>

SUMMARY:

House Bill 5606 would amend 1939 PA 3, the enabling act for the Michigan Public Service Commission, to define the term *advanced nuclear reactor technologies* for purposes of the act.

Under the bill, when the term *advanced nuclear reactor technologies* is used in 1939 PA 3, it would mean material improvements to a utilization facility, as defined in 42 USC 2014 and 10 CFR 50.2,¹ that has significant improvements, including additional inherent safety features, compared to reactors operating before January 1, 2016, in the United States. Advanced nuclear reactor technologies would include both of the following:

- Advanced nuclear reactors, as that term is defined in 42 USC 16271.²
- Existing electricity generating facilities benefiting from research, development, demonstration, and commercialization programs, as described in 42 USC 16272,³ in Michigan powered by nuclear energy that have completed a life cycle management program.

The term is not now used in the act.

The bill cannot take effect unless House Bills 5608 and 5609 are also enacted.

MCL 460.10h

FISCAL IMPACT:

House Bill 5606 would not be anticipated to have a fiscal impact on any units of state or local government.
