

# SENATE BILL NO. 341

May 18, 2023, Introduced by Senators BELLINO and SINGH and referred to the Committee on Finance, Insurance, and Consumer Protection.

A bill to require original equipment manufacturers of certain agricultural equipment to make certain parts, tools, and documentation available to certain persons; to provide remedies; and to provide for the powers and duties of certain state governmental officers and entities.

**THE PEOPLE OF THE STATE OF MICHIGAN ENACT:**

1           Sec. 1. This act may be cited as the "agricultural equipment  
2 repair act".

1           Sec. 3. (1) For electronics-enabled agricultural equipment and  
2 parts of electronics-enabled agricultural equipment sold or used in  
3 this state, an original equipment manufacturer shall make  
4 available, for purposes of diagnosis, maintenance, or repair of  
5 that equipment, to any independent repair provider or to the owner  
6 of the electronics-enabled agricultural equipment manufactured by  
7 or on behalf of or sold or otherwise supplied by the original  
8 equipment manufacturer, on fair and reasonable terms,  
9 documentation, parts, and tools, including any updates to  
10 information or embedded software. This subsection does not require  
11 an original equipment manufacturer to make a part available if the  
12 part is no longer available to the original equipment manufacturer.

13           (2) For equipment that contains an electronic security lock or  
14 other security-related function, the original equipment  
15 manufacturer shall make available to the owner and to independent  
16 repair providers, on fair and reasonable terms, any special part,  
17 tool, and documentation needed to disable the lock or function and  
18 to reset it when disabled in the course of diagnosis, maintenance,  
19 or repair of the equipment. The original equipment manufacturer may  
20 make the part, tool, and documentation described in this subsection  
21 available by means of an appropriate secure system.

22           (3) When the original equipment manufacturer has made an  
23 express warranty with respect to electronics-enabled agricultural  
24 equipment and the wholesale price of the equipment is \$100.00 or  
25 more, the manufacturer shall provide the part, tool, and  
26 documentation to enable the equipment to be repaired during the  
27 warranty period at an equitable price and convenience of delivery  
28 and of enabling functionality in consideration of all of the  
29 following:

1 (a) The actual cost to the original equipment manufacturer to  
2 prepare and distribute the part, tool, or documentation, exclusive  
3 of any research and development costs incurred.

4 (b) The ability of owners and independent repair providers to  
5 afford the part, tool, or documentation.

6 (c) The means by which the part, tool, or documentation is  
7 distributed.

8 Sec. 5. The attorney general has the authority to bring a  
9 civil action for damages or equitable relief for a violation of  
10 this act and to otherwise enforce the provisions of this act.

11 Sec. 7. (1) This act does not require an original equipment  
12 manufacturer to divulge a trade secret to an owner or an  
13 independent service provider except as necessary to provide parts,  
14 tools, and documentation on fair and reasonable terms.

15 (2) Except as otherwise provided in this subsection, this act  
16 does not alter the terms or any arrangement described in section  
17 1(a) of the act to provide definitions for this act that is in  
18 force between an authorized repair provider and an original  
19 equipment manufacturer, including, but not limited to, a  
20 performance provision of warranty or recall work by an authorized  
21 repair provider on behalf of an original equipment manufacturer  
22 under that arrangement. A provision of an arrangement described in  
23 section 1(a) of the act to provide definitions for this act that  
24 purports to waive, avoid, restrict, or limit an original equipment  
25 manufacturer's obligations to comply with this act is void and  
26 unenforceable.

27 Sec. 9. This act applies to electronics-enabled agricultural  
28 equipment that is sold or in use on or after the effective date of  
29 this act.

**1** Enacting section 1. This act does not take effect unless  
**2** Senate Bill No. 342 of the 102nd Legislature is enacted into law.
