

SENATE BILL NO. 1042

October 16, 2024, Introduced by Senators ANTHONY, GEISS, POLEHANKI, CHANG, KLINEFELT and CAVANAGH and referred to the Committee on Health Policy.

A bill to amend 1978 PA 368, entitled
"Public health code,"
by amending sections 13501, 13521, 13522, and 13523 (MCL 333.13501,
333.13521, 333.13522, and 333.13523), sections 13501 and 13523 as
amended by 1994 PA 100, section 13521 as amended by 2018 PA 544,
and section 13522 as amended by 2023 PA 138; and to repeal acts and
parts of acts.

THE PEOPLE OF THE STATE OF MICHIGAN ENACT:

1 Sec. 13501. (1) As used in this part:

1 (a) "General license" means a license, effective pursuant to
2 rules promulgated by the department without the filing of an
3 application, to transfer, acquire, own, possess, or use quantities
4 of, or devices or equipment utilizing, radioactive material.

5 (b) "Ionizing radiation" means gamma rays and x-rays, alpha
6 particles, beta particles, high speed electrons, neutrons, protons,
7 high speed ions, and other high speed nuclear particles.

8 (c) "Mammography" means ~~radiography~~**any of the following:**

9 (i) **Radiography** of the breast for the purpose of enabling a
10 physician to determine the presence, size, location, and extent of
11 cancerous or potentially cancerous tissue in the breast.

12 (ii) **Interventional mammography**.

13 (d) ~~"Mammography authorization"~~ means authorization under
14 section 13523 to use a ~~radiation machine for mammography~~.

15 (e) ~~"Mammography interpreter"~~ means an individual who meets
16 the requirements set forth in section 13523(2)(g) and is
17 responsible for evaluating and interpreting mammographic images.

18 (f) ~~(f)~~ "Person" means a person as **that term is** defined in
19 section 1106 or a governmental entity.

20 (g) ~~(g)~~ "Radiation machine" means a machine, other than those
21 exempted by department rule, that emits ionizing radiation.

22 (h) ~~(g)~~ "Radioactive material" means a solid, liquid, or gas
23 material which~~that~~ emits ionizing radiation spontaneously.

24 (i) ~~(h)~~ "Radiography" means the making of a film or other
25 record of an internal structure of the body by passing x-rays or
26 gamma rays through the body to act on film or other image receptor.

27 (j) ~~(i)~~ "Registration" means registration of a source of
28 ionizing radiation in writing with the department.

29 (k) ~~(j)~~ "Source of ionizing radiation" means a device or

1 material that emits ionizing radiation.

2 (j) ~~(k)~~—"Specific license" means a license issued to use,
3 manufacture, produce, transfer, receive, acquire, own, or possess
4 quantities of, or devices or equipment utilizing, radioactive
5 material.

6 (2) In addition, article 1 contains general definitions and
7 principles of construction applicable to all articles in this code.

8 Sec. 13521. (1) The department shall promulgate rules
9 providing for general **licenses** or specific licenses or
10 registration, or exemption from licensing or registration, for
11 radioactive materials and other sources of ionizing radiation. The
12 rules must provide for ~~the~~ amendment, suspension, or revocation of
13 licenses. In connection with those rules, subject to section 13527,
14 the department may promulgate rules to establish requirements for
15 record keeping, permissible levels of exposure, notification and
16 reports of accidents, protective measures, technical qualifications
17 of personnel, handling, transportation, storage, waste disposal,
18 posting and labeling of hazardous sources and areas, surveys, and
19 monitoring.

20 (2) The rules must not limit the intentional exposure of
21 patients to radiation for the purpose of lawful therapy or research
22 conducted by licensed health professionals.

23 ~~(3) The department shall promulgate rules specifying the
24 minimum training and performance standards for an individual using
25 a radiation machine for mammography as set forth in section 13523.~~

26 Sec. 13522. (1) In promulgating rules under this part, the
27 department shall avoid requiring dual licensing, insofar as
28 practical. Rules promulgated by the department may provide for the
29 recognition of other state or federal licenses as the department

1 considers desirable, subject to registration requirements
2 prescribed by the department. A person that, on the effective date
3 of an agreement under 1965 PA 54, MCL 3.801 to 3.802, possesses a
4 license issued by the federal government for a source of ionizing
5 radiation of the type for which ~~the~~this state assumes regulatory
6 responsibility under the agreement, is considered to possess an
7 identical license issued under this part, which license expires
8 either 90 days after receipt of a written notice of termination
9 from the department or on the date of expiration stated in the
10 federal license, whichever occurs first.

11 (2) The department may promulgate rules to establish a
12 schedule of fees to be paid by applicants for licenses for
13 radioactive materials and devices and equipment utilizing the
14 radioactive materials.

15 (3) Except as otherwise provided in this subsection, the
16 department may promulgate rules to establish a schedule of fees to
17 be paid by an applicant for a license for other sources of ionizing
18 radiation and the renewal of the license, and by a person
19 possessing sources of ionizing radiation that are subject to
20 registration. The registration or registration renewal fee for a
21 radiation machine registered under this part is ~~\$104.88-\$108.45~~ for
22 the first veterinary or dental x-ray or electron tube and ~~\$58.19~~
23 **\$60.17** for each additional veterinary or dental x-ray or electron
24 tube annually, or ~~\$174.88-\$180.83~~ annually per nonveterinary or
25 nondental x-ray or electron tube. The department shall not assess a
26 fee for the amendment of a radiation machine registration
27 certificate. In addition, the department shall assess a fee of
28 ~~\$233.23-\$241.26~~ for each follow-up inspection due to noncompliance
29 during the same year. The department may accept a written

1 certification from the licensee or registrant that the items of
2 noncompliance have been corrected instead of performing a follow-up
3 inspection. If the department does not inspect a source of ionizing
4 radiation for a period of 5 consecutive years, the licensee or
5 registrant of the source of ionizing radiation does not have to pay
6 further license or registration fees as to that source of ionizing
7 radiation until the first license or registration renewal date
8 following the time an inspection of the source of ionizing
9 radiation is made.

10 (4) A fee collected under this part must be deposited in the
11 state treasury and credited to the general fund of this state.

12 (5) ~~Except as otherwise provided in subsection (6), the~~ **The**
13 department shall assess the following nonrefundable fees in
14 connection with mammography ~~authorization:inspection:~~

15 (a) Inspection, per radiation

16 machine..... \$ ~~233.23~~**241.26**

17 (b) ~~Reinspection for reinstatement of~~
18 ~~mammography authorization, Follow-up inspection~~
19 ~~due to noncompliance~~, per radiation

20 machine..... \$ ~~233.23~~**241.26**

21 (c) ~~Department evaluation of compliance with~~
22 ~~section 13523(2)(a), per radiation~~

23 machine..... \$ ~~1,567.45~~

24 ~~Each reevaluation of a radiation machine due~~
25 ~~to failure during the previous evaluation,~~
26 ~~relocation of the radiation machine, or similar~~
27 ~~changes that could affect earlier evaluation~~
28 results.....

\$ ~~671.65~~

29 (6) ~~If an applicant for mammography authorization submits an~~

1 evaluation report issued by the American College of Radiology that
2 evidences compliance with section 13523(2)(a), the department shall
3 waive the fee under subsection (5) for department evaluation of
4 compliance with that provision.

5 (6) (7) Except as otherwise provided in subsections subsection
6 (3), and (6), the department shall not waive a fee required under
7 this section.

8 (7) (8) The department shall adjust on an annual basis the
9 fees prescribed by subsections (3) and (5) by an amount determined
10 by the state treasurer to reflect the cumulative annual percentage
11 change in the Detroit Consumer Price Index, not to exceed 5%. As
12 used in this subsection, "Detroit Consumer Price Index" means the
13 most comprehensive index of consumer prices available for the
14 Detroit area from the Bureau of Labor Statistics of the United
15 States Department of Labor.

16 Sec. 13523. (1) Beginning August 16, 1989, a person shall
17 not use a radiation machine to perform mammography unless the
18 radiation machine is registered with the department under
19 department rules for registration of radiation machines and is
20 specifically authorized under this section for use for mammography.

21 (2) The department shall authorize a radiation machine for use
22 for mammography if the radiation machine, the personnel operating
23 the radiation machine, and the facility in which the radiation
24 machine is used meet all of the following standards requirements
25 established by the department by rule for radiation machines.

26 (a) The radiation machine and the facility in which the
27 radiation machine is used meet the criteria for the American
28 college of radiology mammography accreditation program dated
29 August, 1993 and published by the American college of radiology in

1 the documents entitled "overview, mammography accreditation
2 program, and ACR standards for the performance of screening
3 mammography", which documents and criteria are incorporated by
4 reference, excluding the physician interpreter and the
5 accreditation fee schedule. The department shall make copies of
6 those criteria available to the public and may by rule adopt
7 modified criteria. The department may accept an evaluation report
8 issued by the American college of radiology as evidence that a
9 radiation machine, the personnel operating the radiation machine,
10 and the facility in which the radiation machine is used meet those
11 criteria. If at any time the department determines that it will not
12 accept any evaluation reports issued by the American college of
13 radiology as evidence that a radiation machine, the personnel
14 operating the radiation machine, and the facility in which the
15 radiation machine is used meet those criteria, the department shall
16 promptly notify each person who has registered a radiation machine
17 used exclusively to perform mammography under this part and the
18 rules promulgated under this part.

19 (b) The radiation machine, the film or other image receptor
20 used in the radiation machine, and the facility in which the
21 radiation machine is used meet the requirements set forth in
22 department rules for radiation machines.

23 (c) The radiation machine is specifically designed to perform
24 mammography.

25 (d) The facility in which the radiation machine is used does
26 all of the following:

27 (i) At least annually has a qualified radiation physicist
28 provide on site consultation to the facility, including, but not
29 limited to, a complete evaluation of the entire mammography system

1 to ensure compliance with this part and the rules promulgated under
2 this part.

3 (ii) Maintains for at least 7 years records of the consultation
4 required in subparagraph (i) and the findings of the consultation.

5 (iii) Designates a physician or osteopathic physician licensed
6 under article 15 to provide medical direction for the delivery of
7 mammography services and to be responsible for the clinical aspects
8 of the x-ray examinations and other procedures related to
9 mammography. The physician designated under this subparagraph is
10 responsible for conducting an on-site visit to each mammography
11 station within the facility at least monthly for the purpose of
12 providing professional feedback regarding clinical image quality
13 and quality assurance procedures, for review of quality control
14 documentation, and for ensuring that safe operating procedures are
15 used in the delivery of mammographic services. If the physician
16 designated under this subparagraph practices primarily outside of
17 the facility, the physician shall keep a log of each on-site visit
18 signed by the physician. The chief administrative officer of the
19 facility or his or her designee may request to view the log at any
20 time. The physician designated under this subparagraph shall meet
21 the requirements of subdivision (g) (i) and (ii) or, until January 1,
22 1996, the requirements of subdivision (g) (ii) and (iii).

23 (e) The radiation machine is used according to department
24 rules on patient radiation exposure and radiation dose levels.

25 (f) Each individual who operates the radiation machine can
26 demonstrate to the department that he or she is specifically
27 trained in mammography or an individual who is a physician or an
28 osteopathic physician, and beginning 60 days after the rules
29 required under section 13521(3) are promulgated, each individual

1 who operates the radiation machine can demonstrate to the
2 department that he or she meets the standards required by those
3 rules or an individual who is a physician or an osteopathic
4 physician.

5 (g) The x-ray images of each mammographic examination
6 performed with the radiation machine are interpreted by a
7 mammography interpreter who is a physician or osteopathic physician
8 licensed under article 15 and who meets the requirements of
9 subparagraphs (i), (ii), (iii), (iv), and (v):

10 (i) Except as otherwise provided in this subparagraph, is
11 certified in radiology or diagnostic radiology by the American
12 board of radiology or the American osteopathic board of radiology,
13 has been eligible for certification in radiology or diagnostic
14 radiology for not more than 2 years, or is certified or determined
15 to be qualified in radiology or diagnostic radiology by another
16 professional organization approved by the radiation advisory board
17 appointed under section 13531. Until the expiration of 2 years
18 after the effective date of the amendatory act that added this
19 subdivision, a physician or osteopathic physician licensed under
20 article 15 who has been eligible for certification in radiology or
21 diagnostic radiology for more than 2 years shall be considered to
22 meet the requirement of this subparagraph.

23 (ii) Shall successfully complete or teach not less than 15
24 hours of continuing medical education every 3 years after the
25 effective date of the amendatory act that added this subdivision in
26 the technical aspects or clinical aspects, or both, of mammography
27 in courses or programs approved by the individual's respective
28 specialty organization and licensing board and has documentation of
29 successful completion or teaching that is satisfactory to the

1 department.

2 (iii) Shall have successfully completed not less than 2 months
3 of formal training in reading mammograms with instruction in
4 medical radiation physics, radiation effects, and radiation
5 protection and has documentation of successful completion of the
6 training that is satisfactory to the department. For purposes of
7 this subparagraph, the department may accept time spent in a
8 residency program that includes specific training in mammography if
9 the individual has documentation of the residency program that is
10 satisfactory to the department.

11 (iv) Interprets not less than 520 mammographic examinations
12 each year.

13 (v) Maintains annual records concerning outcome data for
14 correlation of positive mammograms to biopsies done, and the number
15 of cancers detected.

16 (3) The department may issue a nonrenewable temporary
17 authorization for a radiation machine for use for mammography if
18 additional time is needed to allow submission of evidence
19 satisfactory to the department that the radiation machine, the
20 personnel operating the radiation machine, and the facility in
21 which the radiation machine is used meet the standards set forth in
22 subsection (2) for approval for mammography. A temporary
23 authorization granted under this subsection after February 16, 1991
24 is effective for no more than 12 months. The department may
25 withdraw a temporary authorization before its expiration if the
26 radiation machine, the personnel operating the radiation machine,
27 or the facility in which the radiation machine is used does not
28 meet 1 or more of the standards set forth in subsection (2).

29 (4) To obtain authorization from the department to use a

1 radiation machine for mammography, the person who owns or leases
2 the radiation machine or an authorized agent of the person shall
3 apply to the department for mammography authorization on an
4 application form provided by the department and shall provide all
5 of the information required by the department as specified on the
6 application form. A person who owns or leases more than 1 radiation
7 machine used for mammography shall obtain authorization for each
8 radiation machine. The department shall process and respond to an
9 application within 30 days after the date of receipt of the
10 application. Upon determining to grant mammography authorization
11 for a radiation machine, the department shall issue a certificate
12 of registration specifying mammography authorization for each
13 authorized radiation machine. A mammography authorization is
14 effective for 3 years contingent upon the radiation machine, the
15 personnel operating the radiation machine, and the facility in
16 which the radiation machine is operated for which the mammography
17 authorization is issued meeting 1 of the following requirements:

- 18 (a) Maintaining continued accreditation by the American
19 college of radiology.
- 20 (b) Having an active accreditation application in process with
21 the American college of radiology.
- 22 (c) Maintaining approval or being in the process of obtaining
23 approval under a department evaluation process equivalent to that
24 described in subdivisions (a) and (b).
- 25 (5) No later than 60 days after initial mammography
26 authorization of a radiation machine under this section, the
27 department shall inspect the radiation machine. After that initial
28 inspection, the department shall annually inspect the radiation
29 machine and may inspect the radiation machine more frequently. The

1 department shall make reasonable efforts to coordinate the
2 inspections under this section with the department's other
3 inspections of the facility in which the radiation machine is
4 located.

5 (6) After each satisfactory inspection by the department, the
6 department shall issue a certificate of radiation machine
7 inspection or a similar document identifying the facility and
8 radiation machine inspected and providing a record of the date the
9 radiation machine was inspected. The facility shall post the
10 certificate or other document near the inspected radiation machine.

11 (7) The department may withdraw the mammography authorization
12 for a radiation machine if it does not meet 1 or more of the
13 standards set forth in subsection (2).

14 (8) The department shall provide an opportunity for a hearing
15 in connection with a denial or withdrawal of mammography
16 authorization.

17 (9) Upon a finding that a deficiency in a radiation machine
18 used for mammography or a violation of this part or the rules
19 promulgated under this part seriously affects the health, safety,
20 and welfare of individuals upon whom the radiation machine is used
21 for mammography, the department may issue an emergency order
22 summarily withdrawing the mammography authorization of the
23 radiation machine. The department shall incorporate its findings in
24 the order and shall provide an opportunity for a hearing within 5
25 working days after issuance of the order. The order is effective
26 during the proceedings.

27 (10) If the department withdraws the mammography authorization
28 of a radiation machine, the radiation machine shall not be used for
29 mammography. An application for reinstatement of a mammography

1 authorization shall be filed and processed in the same manner as an
2 application for mammography authorization under subsection (4),
3 except that the department shall not issue a reinstated certificate
4 of mammography registration until the department receives the
5 reinspection fee required under section 13522(5), inspects the
6 radiation machine, and determines that it meets the standards set
7 forth in subsection (2). The department shall conduct an inspection
8 required under this subsection no later than 60 days after
9 receiving a proper application for reinstatement of a mammography
10 authorization.

11 (2) To ensure compliance with the requirements described in
12 this section, the department shall inspect a radiation machine at
13 intervals that the department considers necessary or appropriate,
14 including initiating a follow-up inspection of a radiation machine
15 due to noncompliance.

16 (3) (11) In addition to the penalties provided in section
17 13535 and the reinspection-fee required under section 13522(5) **for**
18 **a follow-up inspection due to noncompliance**, if a person violates
19 subsection (1), the department may impose an administrative fine
20 against the owner of the radiation machine or, if a lessee of the
21 radiation machine has effective control of the radiation machine,
22 the lessee, of not more than \$500.00 for each calendar week in
23 which a mammography is performed in violation of subsection (1). If
24 a person continues to violate subsection (1) for a period of 2
25 weeks after a fine is imposed under this subsection, the department
26 shall post a conspicuous notice on the ~~unauthorized~~-radiation
27 machine and at the entry to the facility where the radiation
28 machine is located warning the public that the facility is
29 performing mammography using a radiation machine that is a

1 substantial hazard to the public health.

2 (4) (12) The department ~~may shall~~ promulgate rules necessary
3 to implement this section. ~~after consultation with the radiation~~
~~advisory board established under section 13531. In promulgating~~
~~rules to implement this section, the department shall comply with~~
6 ~~both of the following:~~

7 (a) The department shall incorporate by reference what the
8 department determines to be the applicable standards for
9 mammography, including, but not limited to, standards under the
10 mammography quality standards act of 1992, Public Law 102-539, and
11 any regulations promulgated under that act, that exist on the
12 effective date of the amendatory act that added this sentence. If a
13 standard described in this subdivision is revised after the
14 effective date of the amendatory act that added this sentence, the
15 department shall take notice of the revision and the department
16 shall promulgate rules to incorporate the revision by reference.

17 (b) The rules must specify the minimum training and
18 performance standards for an individual using a radiation machine
19 for mammography.

20 (13) As used in this section:

21 (a) "Radiation machine" means a machine, other than those
22 exempted by department rule, that emits ionizing radiation.

23 (b) "Mammography system" means the radiation machine used for
24 mammography; automatic exposure control devices; films, screens,
25 and cassettes; image processor; darkroom; and viewboxes.

26 Enacting section 1. Sections 13524 and 13531 of the public
27 health code, 1978 PA 368, MCL 333.13524 and 333.13531, are
28 repealed.
