Senator Mallory McMorrow of the 8th District offered the following invocation:

All-powerful God, You are present in the whole universe and in the smallest of Your creatures. You embrace with Your tenderness all that exists. Pour out upon us the power of Your love, that we may protect life and beauty. Fill us with peace, that we may live as brothers and sisters, harming no one.

O God of the poor, help us to rescue the abandoned and forgotten of this earth, so precious in your eyes. Bring healing to our lives, that we may protect the world and not prey on it, that we may sow beauty, not pollution and destruction. Touch the hearts of those who look only for gain at the expense of the poor and the earth. Teach us to discover the worth of each thing, to be filled with awe and contemplation, to recognize that we are profoundly united with every creature as we journey towards Your infinite light.

We thank You for being with us each day. Encourage us, we pray, in our struggle for justice, love and peace. Amen

The President, Lieutenant Governor Gilchrist, led the members of the Senate in recital of the *Pledge of Allegiance*.

Protests

Senators Johnson and Bellino, under their constitutional right of protest (Art. 4, Sec. 18), protested against the passage of Senate Bill No. 339.

Senator Johnson moved that the statement she made during the discussion of the bill be printed as her reasons for voting “no.”

The motion prevailed.

Senator Johnson’s statement, in which Senator Bellino concurred, is as follows:

I support the concept of this legislation; in fact, during my time as Michigan’s Secretary of State I created the system that allows voters to track the status of their absentee ballots online in the Michigan Voter Information Center. I also started a tracking system for Oakland County during my time as the Oakland County Clerk/Register of Deeds. I don’t have a problem with voters providing their e-mail addresses or telephone numbers in order to receive updates in real time if they would like to opt-in to this service.

However, I do feel that we need to protect the privacy of their personal information. I don’t think Michigan voters would want the personal information they share to receive updates about their absentee ballot to be shared or used for other purposes. I appreciate the work of the sponsor and the committee chair in adding some additional language to address this concern, but I don’t feel that the current version before this body goes near far enough. Without any definition of what an official purpose is and without restricting who can

access or use this information, I feel it leaves the door open for uses or disclosures of this personal information that Michigan residents would not want, and that could extend well beyond the scope of what's required in Proposal 2 of 2022.

For this reason I will be voting "no" on this bill today and I would urge my colleagues to do the same.

Senators McBroom, Moss, Runestad and McMorro w asked and were granted unanimous consent to make statements and moved that the statements be printed in the Journal.

The motion prevailed.

Senator McBroom's statement is as follows:

Mr. President, the bill before us seeks to implement Proposal 2's language regarding ballot tracking and I thought we had good hearings on the issue and that colleagues of mine raised some important concerns regarding who had access to people's private information, addresses, and e-mails, which are to be submitted to the clerks in order for them to be able to communicate back to people during the tracking process. There was concern about who would have that information, who would have access to that information, those concerns have continued after the committee vote and so I've been able to work with the chairman and other members to try and reach a way to guarantee that information is protected and utilized only by the appropriate people.

My amendment seeks to do that by referencing those who are authorized by the clerk or the Secretary of State to utilize the qualified voter file which would be our election workers at our clerks' offices, at the bureau, and also people who are developing the software who need access in order to work on the programming but don't have any interaction with voters. This has been a difficult amendment to try and put together. I appreciate the work and would appreciate members' support.

Senator Moss' statement is as follows:

I appreciate the comments of the vice chair of the committee and have a great deal of respect for her history in this space and the things she did for our county and as Secretary of State. I will note that we were very accommodating to her concerns that were incredibly valid that were brought up in committee, and in committee we adopted an amendment she supported to ensure that a voter's personal information that is utilized to inform them of their ballot's status is not subjected to FOIA and the amendment just offered and adopted in a bipartisan vote on the floor just now further protects the sanctity of that voter's personal information by ensuring that only people who have access to the qualified voter file and would have reason to access this information keep it sacred. I believe her concerns were taken care of with the amendment both in committee and on the floor, and I think we have a very good product to ensure this app that is mandated by the adoption of Proposal 2 will help voters and instill the confidence in our voting system that when they request an absentee ballot application, they know where it is; when it comes to them, they know where it is when it's received; and when they request a ballot and that ballot comes to them, they know where it is throughout the system.

This helps instill faith that when you request a ballot and you return it, it is received and it is counted and we've come up with a very good piece of legislation to achieve that. I'm looking forward to hearing the remarks of the bill sponsor on this very important piece of Proposal 2 that—as a reminder—was supported by 60 percent of voters in Michigan last fall and excited for the passage of this legislation to implement it.

Senator Runestad's statement is as follows:

My objection to this bill is similar to what Senator Johnson expressed in her comments—that what we're talking about is not just codifying the amendment adopted but some very, very specific language related to being able to track your absentee ballot. That includes e-mails, cell phones, very, very sensitive information, and also very valuable information to the political system.

We have a situation where from just talking with Senator Johnson the Secretary of State basically is going to be the person designating who is going to be official. I was trying to find out, is there a memorandum of understanding preventing those official individuals or entities from sharing that data? I don't have any concern that that is being protected. You're talking about getting people to say, Wow, I'm going to be able to track my absentee ballot, I'm going to give this sensitive personal information, my cell phone, my e-mail, with the understanding that that's not going to be sold off to somebody and I absolutely have no assurance from the way this is written that that will not happen, so I will be a "no" vote.

Senator McMorro w's statement is as follows:

I rise in support of Senate Bill No. 339 and ask that you join me in supporting this important piece of legislation that codifies into statute the will of the voters in 2022. I am incredibly grateful to my colleague

and her work as Secretary of State for establishing our current ballot tracking system—the Michigan Voter Information Center, available at [Michigan.gov/vote](https://michigan.gov/vote)—where voters can already go in, type in their information, and track their ballot.

What voters by a 60-percent margin changed our State Constitution to require is an updated ballot tracking system that allows any resident to opt in voluntarily to receive updates via text or via e-mail on the status of your absentee ballot. This is something that people across the political spectrum support. I'm grateful to my colleagues as well for raising the issues of personal contact information being sensitive data, so we offered a substitute in committee as well as the amendment we just adopted here on the floor to ensure that contact information is exempt from FOIA, to ensure that it's only used for election purposes, and in the language noted by my colleague here and the committee chair, was offered on a bipartisan basis to ensure this information is only used for official purposes. Here in Michigan, I think we can be very proud that election officials from both parties throughout our state's history have recognized and honored the official sanctity of elections, used our data for official purposes, and will continue to do so, as well as all of the election officials across our state.

This is an incredible day and a step forward for voters in the next election and I encourage a "yes" vote.

Resolutions

Senate Resolution No. 15.

A resolution to urge the United States Congress to allocate \$425 million for the Great Lakes Restoration Initiative in the Fiscal Year 2024 budget.

(This resolution was reported by the Committee on Natural Resources and Agriculture without amendment on Thursday, May 25. See Senate Journal No. 51, p. 957)

The question being on the adoption of the resolution,

The resolution was adopted.

Senator Johnson offered the following resolution:

Senate Resolution No. 57.

A resolution to designate May 2023 as Motorcycle Safety Awareness Month.

Whereas, Michigan has 187,402 registered motorcycles and 536,512 individuals who have operator licenses with a motorcycle endorsement; and

Whereas, The safe operation of a motorcycle requires the use of special skills developed through a combination of training and expertise, the use of good judgment, plus a thorough knowledge of traffic laws and licensing requirements; and

Whereas, The use of proper protective riding apparel is an important part of a motorcycle operator's responsibility; and

Whereas, Motorcycle safety awareness advocacy is a cooperative effort to decrease the number of injuries and fatalities associated with motorcycling; and

Whereas, The promotion of motorcycle rider education programs available through the Michigan Department of State, including recommendations that motorcycle operators wear the proper gear, in addition to driving their vehicles defensively and cautiously, is intended to reduce the number of crashes; and

Whereas, The emergence of spring is synonymous with the return of motorcycle enthusiasts to our state's roadways. Throughout Michigan, motorcyclists have been on the cutting edge of supporting the wise and sensible use of this enjoyable mode of travel; and

Whereas, Indeed, the disproportionate number of motorcycle fatalities make it vitally important to encourage motorcyclists to understand and practice the highest degree of safety. It is also important to remind other drivers that highway safety is beneficial to all parties traveling on public roadways; and

Whereas, Motorcycle Safety Awareness Month encourages motorcycle operators to wear proper protective riding attire, maintain their motorcycles using safety and maintenance checks found in the owner's manual, abide by the laws of the road, and implement operating techniques providing an additional standard of safety; and

Whereas, Car and truck drivers are informed of the fact that motorcyclists are resuming their travels on our public roadways and each is advised to be exceptionally vigilant and watchful when approaching or passing a motorcycle on the highway; now, therefore be it

Resolved by the Senate, That the members of this legislative body designate May 2023 as Motorcycle Safety Awareness. We encourage all of Michigan's citizens to participate in the aims and goals of this effort.

Pending the order that, under rule 3.204, the resolution be referred to the Committee on Government Operations,

Senator Singh moved that the rule be suspended.

The motion prevailed, a majority of the members serving voting therefor.

The resolution was adopted.

Senators Geiss and Santana were named co-sponsors of the resolution.

Senator Johnson asked and was granted unanimous consent to make a statement and moved that the statement be printed in the Journal.

The motion prevailed.

Senator Johnson's statement is as follows:

I rise to ask my colleagues to support this Senate resolution commemorating Motorcycle Safety Month in Michigan. Michigan has over 187,000 registered motorcycles, and more than 536,000 people who have an operator license with a motorcycle endorsement on it.

As a motorcycle rider myself, I understand why. There's nothing quite like the feel of the open road ahead of you, and the wind on your face. It's one of the most exhilarating ways to experience our Pure Michigan summers. But, as hundreds of thousands of motorcycle riders return to our roads this summer, safety should be at the top of everyone's mind.

Unfortunately, motorcycle riding does come with risks that result in a disproportionate share of injuries and fatalities on our roadways. However, there are many steps motorcycle riders and other motorists can take to reduce those risks and increase safety. Wearing proper gear, performing recommended safety and maintenance checks, abiding by the laws of the road, and learning and implementing proper operating techniques can all help motorcycle riders prevent accidents and injuries. At the same time, other motorists should always be alert for motorcycles, especially as we enter this very warm summer travel season. And, remember, "Look Twice. Save a Life."

We have a number of members from ABATE of Michigan with us here in Lansing today for their Capitol Day, and I've appreciated all their support as Secretary of State. Mr. President, would you have them rise? ABATE stands for "American Bikers Aiming Toward Education" and they're a nonprofit in our state that works to preserve the rights of motorcyclists and promotes safe operating practices for all Michigan motorcyclists.

I would appreciate my colleagues' support on this important resolution, and again urge everyone on our roadways this summer to "Look Twice. Save a Life."

By unanimous consent the Senate proceeded to the order of

Statements

Senators Runestad and McBroom asked and were granted unanimous consent to make statements and moved that the statements be printed in the Journal.

The motion prevailed.

Senator Runestad's statement is as follows:

As we are all very well aware, Michigan is the least-transparent state in the nation. Transparency and sunshine are the antiseptic to corruption. Since we are the least-transparent state, I think it's safe to say we are likely the most-corrupt state in the nation, as Craig Mauger's article I read this morning about the cannabis scandal and lack of FOIA opportunities demonstrates. The long-suffering people here in this state have been clamoring for years, demanding to open the dark recesses of our state for public viewing.

However, session after session, swinging from Republican to Democrat and back again, nothing ever seems to change. The most recent example is the highly-extravagant trip taken by our Attorney General with her wife and another couple—a big campaign donor who owns a vast law firm operation in Michigan. Our Attorney General has been loudly opining, lamenting, and bemoaning her perceived low pay she receives as Attorney General. Yet, at the same time apparently has this vast disposable income that would require somewhere in the range of about \$25,000 for a four day tropical getaway with her wife and law firm pals. A wildly unaffordable extravagance for most citizens in the state of Michigan. The Attorney General said she paid her own way for this trip but has produced no evidence.

The bigger concern—as I see it—for the general public is what potential state business was discussed before, during and after the trip regarding the call for the investigation into the Nassar compensation plan by the Neumann Law Firm relating to our tax-funded Michigan State University that Dana Nessel was copied on? Was there discussion on the vacation regarding the formal request for all Nassar records from

MSU by the Attorney General after she returned from the trip? The problem is we simply don't know. We do know that Attorney General Nessel did take the lavish island vacation at Turks and Caicos with her prominent campaign donor who owns a law firm in the state of Michigan. Everything else is shrouded in secrecy from the voters who would like to assess for themselves whether the connections and expenditures were appropriate.

The Attorney General's trip to the tropical island is only one of the many examples of influential and powerful lavishing of state elected officials with goodies, potentially in exchange for anything and everything the power brokers may need. For instance, we have two organizations—FairVote and the Institute for Research on Presidential Elections—paying all-expense seminars to exotic, warm-weather locations including Scottsdale, Arizona; South Florida; Puerto Rico; Las Vegas; St. Croix in the Virgin Islands, and other fabulous donations. These trips are sponsored by National Popular Vote, which is pushing legislation being voted on in committee this very week, but uses these arms-length organizations to pay the freight so that no records are disclosed.

Without a doubt, Michigan simply must implement some ethical guidelines. We need some transparency—some set of rules to renew Michiganders trust in their government. So today, I have introduced a bill that requires individuals and organizations—exempting close family members—to disclose reporting of meals, gifts, perks over \$50, and all trips and vacations paid over \$500 by a person or entity who may desire to influence an receiving official. The legislation will help put an end to the political shenanigans we have seen doled out by the rich and powerful interest peddlers. I am sure the voters of the state of Michigan would be shocked to know this is not already law.

Our constituents—the people of the state of Michigan—must be able to discern the true potential scope that may present a conflict of interest by our elected officials. Our current disclosure rules are simply inconsistent with the ethical standards that Michigan's public service should follow to restore trust to the Michigan voter. So colleagues, I ask you to join me in supporting my legislation.

Senator McBroom's statement is as follows:

Mr. President, to you and to my colleagues, today is a very special day at the Capitol for a few folks like myself and Senator Daley because we are celebrating milk. We are celebrating dairy farmers and their contribution. Dairy farmers are the ultimate foundation and bedrock of economics because we are the ultimate price takers. We don't even know what they are giving us for our milk until about a month after it's already gone. We have the most perishable product of all different agricultural products, meaning we have no ability to store it and to try and leverage marketplaces. Yet dairy—for thousands of years—has been a staple in human diets; a valuable source of nutrients, protein, vitamins, calcium, and also a delicious part of many of our meals. Today, out on the Capitol lawn, there will be many different dairy products that I encourage members—and yourself, Mr. President—to stop by and sample, and meet some of the dairy farmers who will be here.

Michigan is in the top 10 for dairy production in our nation, and yet dairy farms across Michigan have continued to diminish and falter in recent years—where we used to have more than 10,000 farms, we now number 1,000 or less. In the Upper Peninsula, less than 60 of us remain. Meanwhile, dairy farms—despite what you might believe about their size and scope—are over 95 percent owned by families, usually individual families or multi-generation families such as mine, and the average dairy farm size in Michigan is still under 120 cows.

Dairy farmers take particular pride, not just in their ability to raise animals and food and provide healthy nutrition for the public, but in raising their families in a way that instills a hard work ethic and a responsible perspective on respecting life and land. So I encourage members to celebrate dairy with me today and visit the displays out on the lawn.
