38.11 Employees' savings fund, employer's accumulation fund, annuity reserve fund, pension reserve fund, income fund, expense fund, and health insurance reserve fund; creation; health advance funding subaccount; description of funds as reference to accounting records of retirement system.

Sec. 11. (1) There is created the employees' savings fund, employer's accumulation fund, annuity reserve fund, pension reserve fund, income fund, expense fund, and health insurance reserve fund.

(2) The employees' savings fund is the fund in which shall be accumulated at regular interest the contributions to the retirement system deducted from the compensation of members. The retirement board shall provide for the maintenance of an individual account for each member that shows the amount of the member's contributions together with interest on those contributions. The accumulated contributions of a member returned to the member upon his or her withdrawal from service, or paid to the member's estate or designated beneficiary in the event of the member's death, as provided in this act, shall be paid from the employees' savings fund. Any accumulated contributions not claimed by a member or the member's legal representative as provided in this act within 5 years after the member's separation from state service shall be transferred from the employees' savings fund to the income fund. The accumulated contributions of a member, upon the member's retirement, shall be transferred from the employees' savings fund to the pension reserve fund.

(3) The employer's accumulation fund is the fund in which shall be accumulated the reserves derived from money provided by this state for the payment of all retirement allowances to be payable to retirants and beneficiaries as provided in this act. The amounts paid by this state shall be credited to the employer's accumulation fund. Upon the retirement of a member, or upon the member's death, if a beneficiary is entitled to a retirement allowance payable from funds of the retirement system, the difference between the reserve for the retirement allowance to be paid on account of the member's retirement or death and the member's accumulated contributions standing to his or her credit in the employees' savings fund at the time of his or her retirement or death shall be transferred from the employer's accumulation fund to the pension reserve fund. If, in any year, the pension reserve fund is insufficient to cover the reserves for retirement allowances and other

benefits being paid from the fund, the amount or amounts of the insufficiency or insufficiencies shall be transferred from the employer's accumulation fund to the pension reserve fund.

(4) The annuity reserve fund is the fund from which shall be paid all annuities, or benefits in lieu of annuities, because of which reserves have been transferred from the employees' savings fund to the annuity reserve fund. Upon the adoption of this act, the balance in the annuity reserve fund shall be transferred to the pension reserve fund, and the annuities heretofore payable from the annuity reserve fund shall thereafter become payable from the pension reserve fund.

(5) The pension reserve fund is the fund from which shall be paid all retirement allowances and benefits in lieu of pensions, as provided in this act. For a disability retiree returned to active service with this state, his or her pension reserve, computed as of the date of return, shall be transferred from the pension reserve fund to the employees' savings fund and the employer's accumulation fund in the proportion that this reserve, as of the date of his or her retirement, was transferred to the pension reserve fund from the employees' savings fund and from the employer's accumulation fund. The amounts transferred to the employees' savings fund under this section shall be credited to the member's individual account in the fund.

(6) An income fund is created for the purpose of crediting regular interest on the amounts in the various other funds of the retirement system with the exception of the expense fund, and to provide a contingent fund out of which special requirements of any of the other funds may be covered. Transfers for special requirements shall be made only when the amount in the income fund exceeds the ordinary requirements of the fund as evidenced by a resolution of the retirement board recorded in its minutes. The retirement board shall annually allow regular interest for the preceding year to each of the funds enumerated in subsections (2), (3), (4), (5), and (8), and the amount allowed under this subsection shall be due and payable to each of these funds and shall be annually credited to the funds by the retirement board and paid from the income fund. However, interest on contributions from members within a calendar year shall begin on the first day of the next calendar year, and shall be credited at the end of the calendar year. Except as provided in this subsection, income, interest, and dividends derived from the deposits and investments authorized by this act shall be paid into the income fund. The retirement system shall determine the share of income, interest, and dividends attributable to the balance in the health advance funding subaccount created under subsection (9) and the share of income, interest, and dividends attributable to the health advance funding subaccount balance shall be paid into the health advance funding subaccount. The retirement board is authorized to accept gifts and bequests. Any funds that come into the possession of the retirement system as a gift or bequest, or any funds that may be transferred from the employees' savings fund by reason of lack of claimant, or because of a surplus in any fund created by this act, or any other money the disposition of which is not otherwise provided for in this act shall be credited to the income fund.

(7) The expense fund is the fund from which shall be paid the expenses of the administration of this act, exclusive of amounts payable as retirement allowances and other benefits provided for in this act. The legislature shall appropriate the funds necessary to defray and cover the expenses of administering this act.

(8) The health insurance reserve fund is the fund into which appropriations made by the legislature, subscriber co-payments, and payments by the retirement system under section 68 for health, dental, and vision insurance premiums are paid. Health, dental, and vision insurance premiums payable pursuant to sections 20d and 68 shall be paid from the health insurance reserve fund. The assets and any earnings on the assets contained in the health insurance reserve fund and the health advance funding subaccount described in subsection (9) are not to be treated as pension assets for any purpose.

(9) The health advance funding subaccount is the account to which amounts transferred pursuant to sections 20d, 38(6), and 52 are credited. Any amounts received in the health advance funding subaccount and accumulated earnings on those amounts shall not be expended until the actuarial accrued liability for health benefits under section 20d is at least 100% funded. The department may expend funds or transfer funds to another account to expend for health benefits under section 20d if the actuarial accrued liability for health benefits under section 20d is at least 100% funded. For each fiscal year after the fiscal year in which the actuarial accrued liability for health benefits under section 20d is at least 100% funded by the health advance funding subaccount, amounts received in the health advance funding subaccount and accumulated earnings on those amounts may be expended or credited to fund health benefits under section 20d as provided in section 38(3). For the fiscal year ending on September 30, 2003 only, the general fund portion of all amounts received in the health advance funding subaccount as of October 1, 2002 and accumulated earnings on those amounts shall be transferred to the general fund. Notwithstanding any other provision of this section, the department may transfer amounts from the health advance funding subaccount to the employer's accumulation fund created under this section if the department does both of the following:

(a) At least 45 days before the intended transfer, submits a request to the chairs of the senate and house appropriations committees and, at least 15 days before the intended transfer, obtains the approval of both the

senate and house appropriations committees.

(b) Ensures that the request submitted to the senate and house appropriations committees contains an actuarial valuation prepared pursuant to section 38 that demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions does not exceed the actuarial present value of benefits.

(10) The description of the various funds in this section shall be interpreted to refer to the accounting records of the retirement system and not to the segregation of assets credited to the various funds of the retirement system.

38.12 Annual statement of retirement funds in custody of state treasurer; availability of report and other writings to public; request for statement of credit.

Sec. 12. (1) The state treasurer shall furnish annually to the retirement board a statement of the amount of the funds in the custody of the treasurer belonging to the retirement system.

(2) The report and any writing prepared, owned, used, in the possession of, or retained by the retirement board or state treasurer in the performance of an official function shall be made available to the public in compliance with Act No. 442 of the Public Acts of 1976, being sections 15.231 to 15.246 of the Michigan Compiled Laws.

(3) A member of the retirement system shall be furnished with a statement of the amount of the credit of that person's individual account in the employees' savings fund upon written request. The retirement board shall not be required to answer more than 1 request made by the retirement system member pursuant to this subsection within a 12-month period.

38.13 Membership in retirement system.

Sec. 13. (1) Except as otherwise provided in this act, membership in the retirement system consists of state employees occupying permanent positions in the state civil service. All state employees except those specifically excluded by law and those who are members or eligible to be members of other statutory retirement systems in this state, must become members of the retirement system. The employees may use service previously performed as an employee of this state in meeting the service requirements for the retirement allowances and death benefits provided by the retirement system. However, the prior service must not be used in computing the amount of a retirement allowance to be paid by the retirement system unless the employee pays to the retirement system the amount the employee's contributions would have been had the employee become a member immediately on employment by the state with interest compounded annually at the regular rate from a date 1 year after the date of employment by this state to the date of payment. An individual who draws compensation as a state employee of a political subdivision of this state is eligible for the benefits provided by this act to the extent of the individual's compensation paid by this state. An individual who meets the requirements of section 44a is a member of the retirement system.

(2) Elected or appointed state officials may elect not to become or continue as members of the retirement system by filing written notice with the retirement board. An appointed state official who is a member of a state board, commission, or council and who receives a per diem rate in his or her capacity as a member of the board, commission, or council is excluded from membership in the retirement system for the service rendered in his or her capacity as a member of the board, commission, or council. Service performed by an elected or appointed official during the time the official elects not to participate must not be used in meeting the service requirement or in computing the amount of retirement allowance to be paid by the retirement system. A member who elects not to participate must be refunded all contributions made before the election.

(3) Membership in the retirement system does not include any of the following:

(a) A person who is a contributing member in the public school employees' retirement system provided for in the public school employees retirement act of 1979, 1980 PA 300, MCL 38.1301 to 38.1437.

(b) A person who is a contributing member in the Michigan judges retirement system provided for in the judges retirement act of 1992, 1992 PA 234, MCL 38.2101 to 38.2670.

(c) A person who comes within the Michigan state police retirement system provided for in the state police retirement act of 1986, 1986 PA 182, MCL 38.1601 to 38.1675.

(d) An individual who is first employed and entered upon the payroll on or after March 31, 1997 for employment for which the individual would have been eligible for membership under this section before March 31, 1997. An individual described in this subdivision is eligible to be a qualified participant in Tier 2 subject to sections 50 to 69.

(e) Except as provided in section 19g, an individual who elects to terminate membership under section 50 and who, but for that election, would otherwise be eligible for membership in Tier 1 under this section.

(f) A retirant who again becomes employed by the state and is entered upon the payroll on or after December 1, 2002, for employment for which the retirant would have been eligible for membership under this section before December 1, 2002. A retirant described in this subdivision is a qualified participant in Tier 2 subject to sections 50 to 69.

(4) An individual who is hired in state classified or unclassified service after June 30, 1974, who is first employed and entered upon the payroll before March 31, 1997, and who possesses a Michigan teaching certificate is a member of this retirement system. After June 30, 1974, but before March 31, 1997, an individual who returns to state employment in the classified or unclassified service who previously was a contributing member of the Michigan public school employees' retirement system shall have the individual's accumulated contributions and service transferred to this retirement system, or having withdrawn the contributions, may pay into the retirement system the amount withdrawn together with regular interest and have credit restored as provided for in section 16. On and after March 31, 1997, an individual described in this subsection who returns to state service shall make an irrevocable election to remain in Tier 1 or to become a qualified participant of Tier 2 in the manner prescribed in section 50.

(5) An individual, not regularly employed by this state, who is employed through participation in 1 or more of the following programs, shall not be a member of the retirement system and must not receive service credit for the employment:

(a) A program authorized, undertaken, and financed pursuant to the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839.

(b) A summer youth employment program established under the Michigan youth corps act, 1983 PA 69, MCL 409.221 to 409.229.

(c) A program established pursuant to the job training partnership act, Public Law 97-300, 96 Stat. 1322.

(d) A program established pursuant to the Michigan opportunity and skills training program, first established under sections 12 to 23 of 1983 PA 259.

(e) A program established pursuant to the Michigan community service corps program, first established under sections 25 to 35 of 1983 PA 259.

(6) An individual, not regularly employed by this state, who is employed to administer a program described in subsection (5) is not a member of the retirement system and must not receive service credit for the employment.

(7) If an individual described in subsection (5)(a) later becomes a member of this retirement system within 12 months after the date of termination as a participant in a transitional public employment program, service credit shall be given for employment that is excluded in subsection (5) for purposes of determining a retirement allowance on the payment by the individual's employer under subsection (5) from funds provided under the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839, as funds permit, to the retirement system of the contributions, plus regular interest, the employer would have paid had the employment been rendered in a position covered by this act. During the individual's employment in the transitional public employment program, the individual's employer shall place in reserve a reasonable but not necessarily an actuarially determined amount equal to the contributions that the employer would have paid to the retirement system for those employees in the transitional public employment program as if they were members under this act, but only for that number of employees that the employer determined would move from the transitional public employment program into positions covered by this act. If the funds provided under the comprehensive employment and training act of 1973, former Public Law 93-203, 87 Stat. 839, are insufficient, the remainder of the employer contributions must be paid by the individual's current employer.

(8) For purposes of section 19g, a former member is considered a member and is considered to have satisfied the requirements of section 19g(1)(c) and (2)(c) if the former member was employed by the department formerly known as the department of mental health on January 1, 1996 and went on layoff status before January 1, 1997.

If the person or persons do not survive the retirant, then the difference, if any, shall be paid to the retirant's legal representative or estate. Benefits shall not be paid under this subsection on account of the death of the retirant if he or she elected an option provided for in section 31(1).

If a former employee of the state accident fund who had 5 or more years of service as an employee of the state accident fund returns to employment with the state before receiving a retirement allowance under this act, the employee shall be required to accumulate 10 or more years of credited service before receiving a retirement allowance under this act. As used in this subsection, "deinstitutionalization" means planned reduction of state center or hospital beds through placement of individuals from the hospital or facility, or through limiting admissions to centers and hospitals, or both. If a member withdraws all or part of the member's accumulated contributions, the member ceases to be a member. Upon retirement, the member may elect an option provided in section 31(1). If the member elects an option provided for in section 31(4), but dies before the effective date of retirement, the option elected by the member shall be carried out, and a beneficiary of the member is entitled to all advantages due under the option.

(6) A retirant or the beneficiary of a retirant who retired before July 1, 1974 shall have his or her retirement allowance recalculated based on the retirant's number of years and fraction of a year of credited service multiplied by 1.5% of his or her final average compensation. The retirant or beneficiary is eligible to receive the recalculated retirement allowance beginning October 1, 1987, but is not eligible to receive the adjusted amount attributable to any month beginning before October 1, 1987. The recalculated retirement allowance provided by this subsection shall be paid by January 1, 1988 and shall be the basis on which future adjustments to the allowance, including the supplement provided by section 20h, are calculated. The retirement allowance of a retirant who dies before January 1, 1988, and who did not nominate a retirement allowance beneficiary pursuant to section 31, shall not be recalculated pursuant to this subsection.

a retirement allowance ceases.

38.20g Determining rate of investment return on retirement system assets and present value of retirement allowances; calculation and reduction of distribution income; crediting distribution units to retirant or retirement allowance beneficiary; calculation and payment of distribution amount; effect of death; increase in retirement allowance; computation of cumulative increase amount; supplemental payment.

Sec. 20g. (1) After the end of each state fiscal year, the department of management and budget shall determine the rate of investment return earned on retirement system assets during the fiscal year, based upon methods established by the retirement board.

(2) At the end of each state fiscal year, the retirement system's actuary shall determine the present value of retirement allowances to be paid after the end of the fiscal year to retirants and retirement allowance beneficiaries in receipt of retirement allowances at the end of the fiscal period. The assumed interest rate used in the determination shall be 8% per year, compounded annually.

(3) The distribution income at the end of each state fiscal year shall be equal to the product of the present value of retirement allowances determined in subsection (2) at the end of the previous fiscal year times the positive excess, if any, of the rate of investment return determined in subsection (1) exceeding 8%. The distribution income calculated pursuant to this subsection at the end of the fiscal years 1984-85 and 1985-86 shall be reduced by the costs of postretirement adjustments paid during the fiscal year pursuant to sections 20b, 20c, 20e, and 20f.

(4) After the end of each state fiscal year, each retirant and retirement allowance beneficiary in receipt of a retirement allowance at the end of the fiscal year, and whose effective date of retirement allowance preceded the beginning of that fiscal year, shall be credited with 1 distribution unit for each full year between the effective date of retirement and the end of the fiscal year and 1 distribution unit for each full year of service

credit in force on the effective date of retirement. Distribution units shall not accumulate from 1 year to the next year.

(5) The distribution amount for an individual retirant or retirement allowance beneficiary shall be equal to the product of the distribution income determined in subsection (3) times the individual's number of distribution units determined in subsection (4) divided by the total number of distribution units for all eligible retirants and retirement allowance beneficiaries in receipt of retirement allowances at the end of the fiscal year. The distribution amount for an individual retirant or retirement allowance beneficiary of a retirant whose retirement allowance effective date is on or after October 1, 1987 is zero.

(6) The distribution amount for each retirant or retirement allowance beneficiary shall be payable in the form of a supplemental payment prior to the seventh month after the end of the state fiscal year. Except as provided in subsection (9), a distribution amount shall not be payable after March 31, 1988. If a retirant dies before receipt of the distribution amount, the payment shall be made to the retirant's retirement allowance beneficiary, if any. If both the retirant and the retirement allowance beneficiary die before receipt of the distribution amount, no payment shall be made.

(7) Each retirement allowance shall be increased each October 1 beginning with the later of October 1, 1988 or the first October 1 which is at least 12 months after the retirement allowance effective date. The amount of the annual increase shall be equal to 3% of the retirement allowance that would be payable as of the date of the increase without application of this subsection, except that if the member made the election permitted under section 20(2), the increase shall be based on the amount of retirement allowance that would have been paid without application of section 20(2). The annual increase shall not exceed \$300.00.

(8) After the end of each state fiscal year, the cumulative increase amount shall be computed for each retirant or retirement allowance beneficiary. The cumulative increase amount shall be equal to the difference between the total retirement allowance paid during the state fiscal year and the retirement allowance that would have been payable without application of subsection (7) and section 20h. The cumulative increase amount for any retirant or retirement allowance beneficiary whose retirement allowance effective date is on or after October 1, 1987 is zero.

(9) In March of each year, beginning in March, 1989, each retirant or retirement allowance beneficiary shall be paid, in a single supplemental payment, the excess, if any, of the distribution amount over the cumulative increase amount for the previous state fiscal year. If a retirant dies before receipt of a supplemental payment, the supplemental payment shall be made to the retirant's retirement allowance beneficiary, if any. If both the retirant and the retirement allowance beneficiary die before receipt of a supplemental payment, no payment shall be made.

38.22 Retirement for disability at age 60; service retirement allowance; crediting 10 years of service.

Sec. 22. Upon retirement for disability, as provided in section 21, a member who has attained age 60 shall receive a service retirement allowance as provided for in section 20. Notwithstanding that he or she may not have 10 years of credited service, he or she shall be credited with 10 years of service.

History: 1943, Act 240, Eff. July 30, 1943;—Am. 1944, 1st Ex. Sess., Act 25, Imd. Eff. Feb. 29, 1944;—CL 1948, 38.22;—Am. 1955, Act 237, Imd. Eff. June 21, 1955;—Am. 1987, Act 57, Imd. Eff. June 23, 1987.

38.23 Retirement for disability before attaining age 60; benefits.

Sec. 23. (1) Upon retirement for disability as provided in section 21, a member who is less than 60 years old shall receive a disability retirement allowance calculated under section 20(1). A disability retirement allowance payable under this subsection is payable beginning on the first day of the month following the date the member becomes totally incapacitated for state employment. A disability retirement allowance payable under this subsection shall not be paid before the first day of the month after the later of the following:

(a) Twelve months before the date the application for a disability retirement allowance was filed with the retirement system under section 21.

(b) The date the disability retiree's name last appeared on the state payroll with pay.

(2) Upon attaining age 60 years, a disability retiree under subsection (1) shall receive a retirement allowance calculated under section 20. For the purpose of calculating that retiree's retirement allowance, the retiree shall be given membership service credit for the period during which the retiree was receiving the disability retirement allowance provided for in subsection (1). If the computation results in a retirement allowance less than the disability retirement allowance provided in subsection (1), the retiree shall receive a retirement allowance equal to the disability retirement allowance provided in subsection (1). Upon attaining age 60, the retiree may elect an option provided for in section 31(1).

(3) During the period a disability retiree is receiving a disability retirement allowance under subsection (1), the retiree's contributions to the employees' savings fund shall be suspended and the balance in the fund, that is credited to the retiree as of the date the disability retirement allowance begins, shall remain in the savings fund and shall be accumulated at regular interest. Upon attaining age 60 years, the disability retiree's accumulated contributions shall be transferred from the employees' savings fund to the pension reserve fund. If the disability retiree should die before attaining age 60 years, the accumulated contributions standing to the disability retiree's credit in the employees' savings fund shall be paid to the person or persons the disability retiree nominated by written designation executed and filed with the retirement system, or if there is not a designated person or persons surviving, then to the disability retiree's legal representative or estate.

(4) The disability retirement allowance payable to a disability retiree under this section shall not be less than \$6,000.00 per year. A disability retirement allowance first payable to a disability retiree under this section shall not be more than an amount that when added to the worker's compensation benefits payable to the disability retiree exceeds the disability retiree's final compensation.

(5) If the disability retiree who retired under section 21 dies before reaching age 60, the retirement allowance payable to the beneficiary designated by the disability retiree shall be calculated as provided in section 20(1). For the purpose of calculating the retirement allowance payable to the beneficiary designated by the disability retiree, the deceased retiree shall be given membership service credit for the period during which the retiree was receiving the disability retirement allowance provided for in subsection (1).

(6) The receipt of a disability retirement allowance under this section is subject to sections 33 and 34.

(a) The member, the member's personal representative or guardian, the member's department head, or the state personnel director files an application on behalf of the member with the retirement board no later than 1 year after termination of the member's state employment.

(b) A medical advisor conducts a medical examination of the member and certifies in writing that the member is mentally or physically totally incapacitated for further performance of duty, that the incapacitation is likely to be permanent, and that the member should be retired.

(c) The member has been a state employee for at least 10 years.

Sec. 25. Upon retirement for disability, as provided in section 24, a member shall receive a retirement allowance computed in accordance with section 20(1). Compiler's note: The repealed section provided for non-duty disability retirement allowance to public employees before age 60.

38.27 Death resulting from personal injury or disease arising out of and in course of state employment; survivor benefits.

Sec. 27. (1) Except as provided in subsections (3), (4), and (5), if a member dies as a result of a personal injury or disease arising out of and in the course of his or her employment with the state and the personal injury or disease resulting in death is found by the retirement board to have been the sole and exclusive result of employment with the state, the surviving spouse shall receive a retirement allowance calculated as if the deceased member had retired effective the day before the date of death, elected option A under section 31(1), and nominated his or her spouse as retirement allowance beneficiary. The retirement allowance shall be calculated under section 20(1) based upon the amount of the deceased member's credited service. If the deceased member does not have the minimum number of years of credited service needed to vest in the retirement system, the amount of service necessary to reach that amount of credited service shall be granted.

(2) The retirement allowance payable to a surviving spouse under this section shall not be less than \$6,000.00 per year. The retirement allowance first payable to a surviving spouse under subsection (1) shall not be more than an amount that, when added to the statutory worker's disability compensation benefits payable to the surviving spouse of the deceased member, equals the deceased member's final compensation.

(3) If the requirements of subsection (1) are met but the deceased member is survived by a spouse and a child or children under 21 years of age, then the retirement allowance calculated under subsections (1) and (2) shall be payable as follows:

(a) One-half to the surviving spouse.

(b) One-half to the surviving child or children under 21 years of age, in equal shares. The retirement allowance payable to a surviving child under this subsection shall terminate upon that child's marriage, death, or becoming 21 years of age, whichever occurs first. That child's share of the terminated retirement allowance shall be redistributed among the remaining children under 21 years of age, if any. When there are no surviving children entitled to a share of the retirement allowance under this subsection, the children's share shall revert to the surviving spouse.

(4) If the requirements of subsection (1) are met and the deceased member is not survived by a spouse but is survived by a child or children under 21 years of age, then the retirement allowance calculated under subsections (1) and (2) shall be paid to the surviving child or children in equal shares. The retirement allowance payable to a surviving child under this subsection shall terminate upon that child's marriage, death, or becoming 21 years of age, whichever occurs first. That child's share of the terminated retirement allowance shall be redistributed among the remaining children under 21 years of age, if any.

(5) If the other requirements of subsection (1) are met and neither a surviving spouse nor an eligible child surviving the deceased member or duty disability retirant exists, a monthly allowance shall be paid to 1 surviving dependent parent whom the retirement board finds to be totally and permanently disabled and to have been dependent upon the deceased member or retirant for at least 50% of the parent's financial support. Subject to section 20j, the allowance shall be computed in the same manner as if the deceased member or retirant had retired for reasons of age and service effective the day preceding the member's or retirant's death, elected the option provided in section 31(1)(a), and nominated the surviving parent as retirement allowance beneficiary. The surviving parent's beneficiary retirement allowance shall terminate upon marriage or death.

(2) Except as otherwise provided in this section, a retirement allowance shall not be less than \$6,000.00 per year.

38.28 Withdrawal of member before retirement; refund of contributions; restoration on re-employment; court administrator.

Sec. 28. Should a member cease to be an employee before attaining age 60 years, or after attaining such age but before becoming eligible for a retirement allowance, for any reason except his retirement or death, or should a member be granted military leave as prescribed by the rules of the civil service commission, he shall be paid his accumulated contributions standing to his credit in the employees' savings fund, as he shall demand in writing upon forms furnished by the retirement board, subject to section 30. Any person who has withdrawn his accumulated contributions, as provided for in this section, and who again becomes a member, may restore to the employees' savings fund the amount previously withdrawn by him, together with regular interest from the date of withdrawal to the date of repayment. If the constitutional court administrator becomes a member of the judges' retirement system established by Act No. 198 of the Public Acts of 1951, as amended, being sections 38.801 to 38.830 of the Compiled Laws of 1948, he shall thereupon cease to be a member of this retirement system, regardless of his age, and his accumulated contributions standing to his credit in the employees' savings fund shall be returned to him.

Sec. 29. Should a member die before his service retirement becomes effective, the accumulated contributions standing to his credit in the employees' savings fund, at the time of his death, shall be paid, except as otherwise provided in this act, to such person or persons as he shall have nominated by written designation duly executed and filed with the retirement board, or if there be no such designated person or persons, then to his legal representative.

38.30 Withholding refund of contributions.

Sec. 30. Board may withhold refunds of contributions. The retirement board may, in its discretion, withhold payment of all or part of a member's contributions for not more than 6 months after a member has ceased to be an employe.

History: 1943, Act 240, Eff. July 30, 1943;—Am. 1944, 1st Ex. Sess., Act 25, Imd. Eff. Feb. 29, 1944;—CL 1948, 38.30.

38.31 Election of regular retirement allowance or reduced retirement allowance; payment options; designation of beneficiary; effect of beneficiary's death or divorce; request by nonduty disability retiree to change elections; death of member before effective date of retirement.

Sec. 31. (1) Except as provided in subsection (6), before the effective date of retirement, but not after the effective date of retirement, a member or deferred member who is eligible for retirement, as provided in this act, shall elect to receive his or her benefit in a retirement allowance payable throughout life, which shall be called a regular retirement allowance, or to receive the actuarial equivalent at that time of his or her regular retirement allowance in a reduced retirement allowance payable throughout the lives of the retiree and a retirement allowance beneficiary, pursuant to 1 of the following payment options:

(a) Option A. Upon the retiree's death, his or her reduced retirement allowance shall be continued throughout the life of and paid to the retirement allowance beneficiary whom the member nominated by written designation executed and filed with the retirement board before the effective date of his or her

retirement.

(b) Option B. Upon the retirant's death, 1/2 of his or her reduced retirement allowance shall be continued throughout the life of and paid to the retirement allowance beneficiary whom the member nominated by written designation executed and filed with the retirement board before the effective date of his or her retirement.

(c) Option C. On and after January 1, 2000, upon the retirant's death, 3/4 of his or her reduced retirement allowance shall be continued throughout the life of and paid to the retirement allowance beneficiary whom the member nominated by written designation executed and filed with the retirement board before the effective date of his or her retirement.

(2) Except as provided in subsections (3) and (8), the election of a payment option under subsection (1) shall not be changed on or after the effective date of the retirement allowance. A retirement allowance beneficiary designated under this section shall not be changed on or after the effective date of the retirement allowance, and shall be either a spouse, brother, sister, parent, child, including an adopted child, or grandchild of the person making the designation. Payment to a retirement allowance beneficiary shall begin on the first day of the month following the death of the retirant or member.

(3) If the retirement allowance beneficiary named under a payment option under subsection (1) predeceases the retirant, the retirant's benefit shall revert to the regular retirement allowance, effective with the first day of the month following the retirement allowance beneficiary's death. For a retirant whose effective date of retirement was on or before June 28, 1976, this subsection shall apply, but the regular retirement allowance is not payable for any month beginning before the later of the retirement allowance beneficiary's death or January 1, 1986. A retirant who on January 1, 1986 is receiving a reduced retirement allowance because the retirant designated a retirement allowance beneficiary and the retirement allowance beneficiary predeceased the retirant is eligible to receive the regular retirement allowance beginning January 1, 1986, but the regular retirement allowance is not payable for any month beginning before January 1, 1986.

(4) A member who continues in the employ of this state on and after the date he or she acquires 10 years of service credit or becomes eligible for deferred retirement as provided by section 20(4) or (5), whichever occurs first, may by written declaration executed and filed with the retirement board elect option A, provided for in subsection (1)(a), and nominate a retirement allowance beneficiary in the same manner as if the member were then retiring from service, notwithstanding that the member may not have attained 60 years of age. If the beneficiary's death or divorce from the member occurs before the effective date of the member's retirement, the member's election of option A and nomination of retirement allowance beneficiary shall be automatically revoked and the member may again elect option A and nominate a retirement allowance beneficiary at any time before the effective date of retirement. If a member who has made an election and nominated a retirement allowance beneficiary as provided in this subsection dies before the effective date of his or her retirement, then the retirement allowance beneficiary shall immediately receive the retirement allowance that he or she would have been entitled to receive under option A if the member had been regularly retired on the date of the member's death. Except as otherwise provided by subsection (5), if a member who has made an election under this subsection subsequently retires under this act, his or her election of option A shall take effect at the time of retirement. Subject to the requirements of subsection (5), the member, before the effective date of retirement, but not after the effective date of retirement, may revoke his or her previous election of option A and elect to receive his or her retirement allowance as a regular retirement allowance or under option B or C as provided for in subsection (1). A retirement allowance shall not be paid under this subsection on account of the death of a member if any benefits are paid under section 27 on account of his or her death. If a deferred member who has an option A election in effect dies before the effective date of his or her retirement, the retirement allowance payable under option A shall be paid to the retirement allowance beneficiary at the time the deceased deferred member otherwise would have been eligible to begin receiving benefits.

(5) If a member, deferred member, retiring member, or retiring deferred member is married at the effective date of the retirement allowance, an election under this section, other than an election of a payment option under subsection (1) naming the spouse as retirement allowance beneficiary, shall not be effective unless the election is signed by the spouse. However, this requirement may be waived by the retirement board if the signature of a spouse cannot be obtained because of extenuating circumstances. As used in this subsection, "spouse" means the person to whom the member, deferred member, retiring member, or retiring deferred member is married at the effective date of the retirement allowance.

(6) Until July 1, 1991, upon request in a form as determined by the retirement board, a nonduty disability retirant who retired under section 24 may change his or her election to receive a disability retirement allowance computed as a regular retirement allowance and elect to receive the actuarial equivalent at the time of the election pursuant to this subsection of his or her disability retirement allowance in a reduced retirement

allowance payable to the retirant and the retirant's spouse pursuant to the provisions of a payment option as provided in subsection (1), if the disability retirement allowance effective date was before November 12, 1985 and the retirant had 25 or more years of credited service on the disability retirement allowance effective date. The nonduty disability retirant shall begin to receive the reduced retirement allowance under this subsection effective the first day of the month following the month in which the retirant makes the election pursuant to this subsection. As used in this subsection, "spouse" means the person to whom the nonduty disability retirant was married on the effective date of his or her disability retirement allowance and on the date the retirant makes the election pursuant to this subsection.

(7) If a member who continues in the employ of this state on and after the date he or she acquires 10 years of service credit, or on and after the date he or she becomes eligible for deferred retirement as provided by section 20(4) or (5), whichever occurs first, and who does not have an election of option A in force as provided in subsection (4), dies before the effective date of retirement and leaves a surviving spouse, the spouse shall receive a retirement allowance computed in the same manner as if the member had retired effective the day before the date of his or her death, elected option A, and nominated the spouse as retirement allowance beneficiary. When the retirement allowance beneficiary dies, his or her retirement allowance shall terminate. If the aggregate amount of retirement allowance payments received by the beneficiary is less than the accumulated contributions credited to the member's account in the employees' savings fund at the time of the member's death, the difference between the accumulated contributions and the aggregate amount of retirement allowance payments received by the beneficiary shall be transferred from the employer's accumulation fund or pension reserve fund to the employees' savings fund and paid pursuant to section 29. A retirement allowance shall not be paid under this subsection on account of the death of a member if benefits are paid under section 27 on account of his or her death. If the other requirements of this subsection are met but a surviving spouse does not exist, each of the deceased member's surviving children less than 18 years of age shall receive an allowance of an equal share of the retirement allowance that would have been paid to the spouse if living at the time of the deceased member's death. Payments under this subsection shall cease upon the surviving child's marriage, adoption, or becoming 18 years of age, which occurs first.

(8) If a retirant receiving a reduced retirement allowance under a payment option under subsection (1) is divorced from the spouse who had been designated as the retirant's retirement allowance beneficiary under the option, the election of the payment option shall be considered void by the retirement system if the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, described in the public employee retirement benefit protection act and dated after June 27, 1991 provides that the election of the payment option under subsection (1) is to be considered void by the retirement system and the retirant provides a certified copy of the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, to the retirement system. If the election of a payment option under subsection (1) is considered void by the retirement system under this subsection, the retirant's retirement allowance shall revert to a regular retirement allowance, including postretirement adjustments, if any, subject to an award or order of the court as described in the public employee retirement benefit protection act. The retirement allowance shall revert to a regular retirement allowance under this subsection effective the first of the month after the date the retirement system receives a certified copy of the judgment of divorce or award or order of the court. This subsection does not supersede a judgment of divorce or award or order of the court in effect on June 27, 1991. This subsection does not require the retirement system to distribute or pay retirement assets on behalf of a retirant in an amount that exceeds the actuarially determined amount that would otherwise become payable if a judgment of divorce had not been rendered.

38.32 Remarriage of surviving spouse.

Sec. 32. The remarriage of a surviving spouse shall not render the surviving spouse ineligible to receive a retirement allowance described in section 27 or 31(c). A surviving spouse whose retirement allowance described in section 27 or 31(c) was terminated due to the surviving spouse's remarriage shall be eligible to receive that allowance beginning on the first day of the month following the month in which written application for reinstatement is filed with the board, but shall not be eligible to receive the allowance attributable to any month beginning before the month of reinstatement under this section.

38.33 Disability retirant under age 60; medical examination required; reduction of retirement allowance on account of gainful employment.

Sec. 33. (a) The retirement board may, and upon the application of anyone retired pursuant to section 21, 24, or 67a shall, require anyone retired under section 21, 24, or 67a who has not attained age 60 years to undergo a medical examination. The retirement board shall not require a person retired under section 21, 24, or 67a to undergo more than 1 medical examination in any calendar year. The examination is to be made by or under the direction of the medical advisor at the retirant's place of residence or other place mutually agreed upon. Should anyone retired under section 21, 24, or 67a who has not attained age 60 years refuse to submit to the medical examination, his or her disability retirement allowance or supplemental benefit provided for in section 67a may be discontinued until his or her withdrawal of the refusal. If the refusal continues for 1 year, all rights in and to his or her disability retirement allowance or supplemental benefit provided for in section 67a may be revoked by the retirement board. If upon the medical examination of a person retired under section 21, 24, or 67a, the medical advisor reports and his or her report is concurred in by the retirement board, that the person retired under section 21, 24, or 67a is physically capable of resuming employment, he or she shall be restored to active service with the state and his or her disability retirement allowance or supplemental benefit provided for in section 67a shall cease.

(b) If the secretary reports and certifies to the retirement board that a person retired under section 21, 24, or 67a is engaged in a gainful occupation paying more than the difference between his or her disability retirement allowance and his or her final compensation, and if the retirement board concurs in the report, then his or her retirement allowance shall be reduced to an amount which together with the amount earned by him or her shall equal his or her final compensation. Should the earnings of the person retired under section 21, 24, or 67a be later changed, the amount of his or her retirement allowance shall be further modified in like manner.

38.36, 38.37 Repealed. 1974, Act 216, Imd. Eff. July 19, 1974.

Compiler's note: The repealed sections pertained to payroll deduction of contributions to employees' savings fund.

38.38 Annual level percent of payroll contribution rate; determination; basis; report; computation; amortization of unfunded actuarial accrued liability; annual appropriation to retirement system; transfer of funds; certification; difference between actual state contributions and product of contribution rates times aggregate compensations paid; submitting difference between estimated and actual aggregate compensation and estimated and actual contribution rate to legislature for appropriation; interest; deposit to health advance funding subaccount.

Sec. 38. (1) The annual level percent of payroll contribution rate to finance the benefits provided under this act shall be determined by actuarial valuation pursuant to subsections (2) and (3), upon the basis of the risk assumptions adopted by the retirement board with approval of the department of technology, management, and budget, and in consultation with the investment counsel and the actuary. An annual actuarial valuation shall be made of the retirement system in order to determine the actuarial condition of the retirement system and the required contribution to the retirement system. The actuary shall report to the legislature by April 15 of each year on the actuarial condition of the retirement system as of the end of the previous fiscal year and on the projections of state contributions for the next fiscal year. The actuary shall certify in the report that the techniques and methodologies used are generally accepted within the actuarial profession and that the assumptions and cost estimates used fall within the range of reasonable and prudent assumptions and cost

estimates. An annual actuarial gain-loss experience study of the retirement system shall be made in order to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) The contribution rate for monthly benefits payable in the event of the death of a member before retirement or the disability of a member shall be computed using an individual projected benefit entry age normal cost method of valuation.

(3) Except as otherwise provided in this subsection, the contribution rate for benefits shall be computed using an individual projected benefit entry age normal cost method of valuation. For the 1995-96 state fiscal year and for each subsequent fiscal year in which the actuarial accrued liability for health benefits is less than 100% funded, the contribution rate for benefits provided under section 20d shall be computed using a cash disbursement method with the payment schedule for the employer being based upon and applied to the combined payrolls of the employees who are members and qualified participants. Beginning in the fiscal year after the fiscal year in which the actuarial accrued liability for health benefits under section 20d is at least 100% funded by the health advance funding subaccount created under section 11(9), and continuing for each subsequent fiscal year, the contribution rate for health benefits provided under section 20d shall be computed using an individual projected benefit entry age normal cost method of valuation. The contribution rate for service that may be rendered in the current year, the normal cost contribution rate, shall be equal to the aggregate amount of individual entry age normal costs divided by 1% of the aggregate amount of active members' valuation compensation. The unfunded actuarial accrued liability shall be equal to the actuarial present value of benefits reduced by the actuarial present value of future normal cost contributions and the actuarial value of assets on the valuation date. Except as otherwise provided in this subsection, the unfunded actuarial accrued liability shall be amortized in accordance with generally accepted governmental accounting standards over a period equal to or less than 40 years, with the payment schedule for the employer being based upon and applied to the combined payrolls of the employees who are members and qualified participants.

(4) The legislature annually shall appropriate to the retirement system the amount determined pursuant to subsections (2) and (3). The state treasurer shall transfer monthly to the retirement system an amount equal to the product of the contribution rates determined in subsections (2) and (3) times the aggregate amount of active member or qualified participant compensation, as appropriate, paid during that month. Not later than 60 days after the termination of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department of technology, management, and budget the actual aggregate compensations paid to active members and qualified participants during the preceding state fiscal year. Upon receipt of that certification, the director of the department of technology, management, and budget shall compute the difference, if any, between actual state contributions received during the preceding state fiscal year and the product of the contribution rates determined in subsections (2) and (3) times the aggregate compensations paid to active members or qualified participants, as appropriate, during the preceding state fiscal year. Except as otherwise provided in subsection (5), the difference, if any, shall be submitted in the executive budget to the legislature for appropriation in the next succeeding state fiscal year. This subsection does not apply for those fiscal years in which a deposit occurs pursuant to subsection (6).

(5) For differences occurring in fiscal years beginning on or after October 1, 1991, a minimum of 20% of the difference between the estimated and the actual aggregate compensation and the estimated and the actual contribution rate described in subsection (4), if any, may be submitted in the executive budget to the legislature for appropriation in the next succeeding state fiscal year and a minimum of 25% of the remaining difference shall be submitted in the executive budget to the legislature for appropriation in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. In addition, interest shall be included for each year that a portion of the remaining difference is carried forward. The interest rate shall equal the actuarially assumed rate of investment return for the state fiscal year in which payment is made. This subsection does not apply for those fiscal years in which a deposit occurs pursuant to subsection (6).

(6) For each fiscal year that begins on or after October 1, 2001, if the actuarial valuation prepared pursuant to this section for each fiscal year demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions exceeds the actuarial present value of benefits, the annual level percent of payroll contribution rate as determined pursuant to subsections (1), (2), and (3) may be deposited into the health advance funding subaccount created under section 11(9).

(7) Notwithstanding any other provision of this act, if the retirement board establishes an arrangement and fund as described in section 6 of the public employee retirement benefit protection act, 2002 PA 100, MCL 38.1686, the benefits that are required to be paid from that fund shall be paid from a portion of the employer contributions described in this section or other eligible funds. The retirement board shall determine the

amount of the employer contributions or other eligible funds that shall be allocated to that fund and deposit that amount in that fund before it deposits any remaining employer contributions or other eligible funds in the pension fund.

Subject to section 20j, beginning on the retirement allowance effective date, he or she shall receive a retirement allowance equal to 60% of the member's annual compensation for the member's most highly compensated 24 consecutive months of service as a conservation officer. The formula for calculating a member's retirement allowance under this subsection shall never exceed the formula for calculating a retirement allowance under section 24 of the state police retirement act of 1986, 1986 PA 182, MCL 38.1624.

(4) A member who is a conservation officer may retire under this section if all of the following requirements are met:

(b) The member is 50 years of age or older.

(c) The member has 10 years of credited service as a conservation officer and the last 2 years of credited service are as a conservation officer.

However, a retirement allowance payable under this subsection shall not exceed 60% of the member's annual compensation for the member's most highly compensated 24 consecutive months of service as a conservation officer.

(6) Before the effective date of the retirement allowance, a member who is a conservation officer and who retires under this section shall elect to receive his or her retirement allowance under a form of payment as provided in section 31(1).

The retirant's increased retirement allowance payable to age 65 shall approximately equal the sum of his or her reduced retirement allowance payable after age 65 and his or her estimated social security primary insurance amount.

(8) If a member who retires under this section dies before receiving payment of his or her retirement allowance in an aggregate amount equal to the accumulated contributions standing to the retirant's account in the employees' savings fund at the time of his or her retirement, the difference between his or her accumulated contributions and the amount of the retirement allowance received by him or her shall be paid to the person or persons that the retirant has nominated by written designation duly executed and filed with the retirement board, or, if there is no such designated person or persons surviving, then to the retirant's legal representative or estate.

"Enacting section 1. If the office of retirement services in the department of technology, management, and budget receives notification from the United States internal revenue service that any section or any portion of a section of this amendatory act will cause the retirement system to be disqualified for tax purposes under the internal revenue code, then the portion that will cause the disqualification does not apply."

38.49 Administration of retirement system as qualified pension plan under internal revenue code; requirements and benefit limitations; qualified military service.

Sec. 49. (1) This section is enacted under section 401(a) of the internal revenue code, 26 USC 401, which imposes certain administrative requirements and benefit limitations for qualified governmental plans. This state intends that the retirement system be a qualified pension plan created in trust under section 401 of the internal revenue code, 26 USC 401, and that the trust be an organization exempt from taxation under section 501 of the internal revenue code, 26 USC 501. The department shall administer the retirement system to fulfill this intent.

(2) The retirement system shall be administered in compliance with section 415 of the internal revenue code, 26 USC 415, and regulations under that section that are applicable to governmental plans and, beginning January 1, 2010, applicable provisions of the final regulations issued by the Internal Revenue Service on April 5, 2007. Employer-financed benefits provided by the retirement system under this act must not exceed the applicable limitations set forth in section 415 of the internal revenue code, 26 USC 415, as adjusted by the commissioner of internal revenue under section 415(d) of the internal revenue code, 26 USC 415, to reflect cost-of-living increases, and the retirement system shall adjust the benefits, including benefits payable to retirants and retirement allowance beneficiaries, subject to the limitation each calendar year to conform with the adjusted limitation. For purposes of section 415(b) of the internal revenue code, 26 USC 415, the applicable limitation applies to aggregated benefits received from all qualified pension plans for which the office of retirement services coordinates administration of that limitation. If there is a conflict between this section and another section of this act, this section prevails.

(3) The assets of the retirement system must be held in trust and invested for the sole purpose of meeting the legitimate obligations of the retirement system and must not be used for any other purpose. The assets must not be used for or diverted to a purpose other than for the exclusive benefit of the members, vested former members, retirants, and retirement allowance beneficiaries before satisfaction of all retirement system

liabilities.

(4) The retirement system shall return post-tax member contributions made by a member and received by the retirement system to a member on retirement, under Internal Revenue Service regulations and approved Internal Revenue Service exclusion ratio tables.

(5) The required beginning date for retirement allowances and other distributions must not be later than April 1 of the calendar year following the calendar year in which the employee attains age 70-1/2 or April 1 of the calendar year following the calendar year in which the employee retires. The required minimum distribution requirements imposed by section 401(a)(9) of the internal revenue code, 26 USC 401, apply to this act and must be administered in accordance with a reasonable and good faith interpretation of the required minimum distribution requirements for all years to which the required minimum distribution requirements apply to the retirement system.

(6) If the retirement system is terminated, the interest of the members, vested former members, retirants, and retirement allowance beneficiaries in the retirement system is nonforfeitable to the extent funded as described in section 411(d)(3) of the internal revenue code, 26 USC 411, and related Internal Revenue Service regulations applicable to governmental plans.

(7) Notwithstanding any other provision of this act to the contrary that would limit a distributee's election under this act, a distributee may elect, at the time and in the manner prescribed by the retirement board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. This subsection applies to distributions made after December 31, 1992. Beginning October 1, 2010, a nonspouse beneficiary may elect to have any portion of an amount payable under this act that is an eligible rollover distribution treated as a direct rollover that will be paid in a direct trustee-to-trustee transfer to an individual retirement account or individual retirement annuity described in section 408(a) or (b) of the internal revenue code, 26 USC 408, that is established for the purpose of receiving a distribution on behalf of the beneficiary and that will be treated as an inherited individual retirement account or individual retirement annuity under section 402(c)(11) of the internal revenue code, 26 USC 402.

(8) For purposes of determining actuarial equivalent retirement allowances under sections 31(1) and 20(2), the actuarially assumed interest rate must be determined by the director of the department of technology, management, and budget and the retirement board in consultation with the actuary using the mortality tables adopted by the department of technology, management, and budget and the retirement board.

(9) Notwithstanding any other provision of this act to the contrary, the compensation of a member of the retirement system must be taken into account for any year under the retirement system only to the extent that it does not exceed the compensation limit established in section 401(a)(17) of the internal revenue code, 26 USC 401, as adjusted by the commissioner of internal revenue. This subsection applies to an individual who first becomes a member of the retirement system after September 30, 1996.

(10) Notwithstanding any other provision of this act to the contrary, contributions, benefits, and service credit with respect to qualified military service must be provided under the retirement system in accordance with section 414(u) of the internal revenue code, 26 USC 414. This subsection applies to all qualified military service after December 11, 1994. Beginning on January 1, 2007, in accordance with section 401(a)(37) of the internal revenue code, 26 USC 401, if a member dies while performing qualified military service for purposes of determining death benefits payable under this act, the member is treated as having resumed and then terminated employment because of death.

(1) Except as otherwise provided in subsection (2), the retirement system shall provide an opportunity for each member who is a member on March 30, 1997, to elect in writing to terminate membership in Tier 1 and elect to become a qualified participant in Tier 2. An election made by a member

under this subsection is irrevocable. The retirement system shall accept written elections under this subsection from members during the period beginning on January 2, 1998 and ending on April 30, 1998. A member who does not make a written election or who does not file the election during the period specified in this subsection continues to be a member of Tier 1. A member who makes and files a written election under this subsection elects to do all of the following:

(a) Cease to be a member of Tier 1 effective 12 midnight May 31, 1998.

(c) Except as otherwise provided in this subdivision, waive all of his or her rights to a pension, an annuity, a retirement allowance, an insurance benefit, or any other benefit under this act effective 12 midnight May 31, 1998. This subdivision does not affect a person's right to health benefits provided under this act pursuant to section 68.

(2) This subsection applies to an individual who was a vested member of Tier 1 on March 30, 1997 and who terminates the employment upon which that membership is based on or after March 31, 1997 but on or before May 31, 1998. Before the termination of his or her employment, an individual described in this subsection may elect in writing to terminate membership in Tier 1 and become a qualified participant in Tier 2. An election made by a member under this subsection is irrevocable. The retirement system shall accept written elections under this subsection from a member during the period beginning on March 31, 1997 and ending on May 31, 1998. A member described in this subsection who does not make a written election or who does not file the election before the termination of his or her employment continues to be a member or defined member of Tier 1. A member who makes and files a written election under this subsection to terminate membership in Tier 1 elects to do all of the following:

(a) Cease to be a member of Tier 1 and become a qualified participant in Tier 2 effective 12 midnight on the day immediately preceding the date of the termination of employment.

(b) Become a former qualified participant in Tier 2 effective 12:01 a.m. on the day immediately following the date described in subdivision (a).

(c) Except as otherwise provided in this subdivision, waive all of his or her rights to a pension, an annuity, a retirement allowance, an insurance benefit, or any other benefit under Tier 1 effective 12 midnight on the date described in subdivision (a). This subdivision does not affect an individual's right to health benefits provided under this act pursuant to section 68.

(3) If an individual who was a deferred member on March 30, 1997 or an individual who was a former nonvested member on March 30, 1997 is reemployed before January 1, 2012 and by virtue of that employment is again eligible for membership in Tier 1, the individual shall elect in writing to remain a member of Tier 1 or to terminate membership in Tier 1 and become a qualified participant in Tier 2. An election made by a deferred member or a former nonvested member under this subsection is irrevocable. The retirement system shall accept written elections under this subsection from a deferred member or a former nonvested member during the period beginning on the date of the individual's reemployment and ending upon the expiration of 60 days after the date of that reemployment but no later than February 29, 2012. A deferred member or former nonvested member who makes and files a written election to remain a member of Tier 1 retains all rights and is subject to all conditions as a member of Tier 1 under this act. A deferred member or former nonvested member who does not make a written election or who does not file the election during the period specified in this subsection continues to be a member of Tier 1. A deferred member or former nonvested member who makes and files a written election to terminate membership in Tier 1 elects to do all of the following:

(a) Cease to be a member of Tier 1 effective 12 midnight on the last day of the payroll period that includes the date of the election.

(c) Except as otherwise provided in this subdivision, waive all of his or her rights to a pension, an annuity, a retirement allowance, an insurance benefit, or any other benefit under Tier 1 effective 12 midnight on the last day of the payroll period that includes the date of the election. This subdivision does not affect an individual's right to health benefits provided under this act pursuant to section 68.

(4) After consultation with the retirement system's actuary and the retirement board, the department of technology, management, and budget shall determine the method by which a member, deferred member, or former nonvested member shall make a written election under this section. If the member, deferred member, or former nonvested member is married at the time of the election, the election is not effective unless the election is signed by the individual's spouse. However, the retirement board may waive this requirement if the spouse's signature cannot be obtained because of extenuating circumstances.

(5) An election under this section is subject to the eligible domestic relations order act, 1991 PA 46, MCL

38.1701 to 38.1711.

(6) If an individual who was a deferred member of the public school employees retirement system on March 30, 1997 is first employed and entered upon the payroll of his or her employer on or after March 31, 1997 and before January 1, 2012, the retirement system shall provide an opportunity for that individual to elect in writing to become a member of Tier 1 or to become a qualified participant of Tier 2. The retirement system and the individual shall follow the provisions and procedures provided in this section and by the state treasurer as if the individual were a deferred member of this retirement system on March 30, 1997.

(7) If the department of technology, management, and budget receives notification from the United States internal revenue service that this section or any portion of this section will cause the retirement system to be disqualified for tax purposes under the internal revenue code, then the portion that will cause the disqualification does not apply.

(8) This section does not apply to a deferred member or former nonvested member under subsection (3) or a deferred member of the public school employees retirement system under subsection (6) on or after January 1, 2012.

Except as provided in subsection (7), for the purposes of this subsection, the present value of the member's accumulated benefit obligation is based upon the member's estimated credited service and estimated final average compensation as of 12 midnight on May 31, 1998. The actuarial present value shall be computed as of 12 midnight May 31, 1998 and shall be based on the following:

(2) For each member who elects to terminate membership in the retirement system under section 50(1), the retirement system shall recompute the amount transferred under subsection (1) not later than November 30, 1998 based upon the member's actual credited service and actual final average compensation as of 12 midnight May 31, 1998. If the recomputed amount differs from the amount transferred under subsection (1) by \$10.00 or more, not later than December 15, 1998, the retirement system shall do all of the following:

(b) Direct the state treasurer to transfer from the qualified participant's account in Tier 2 to the employer's accumulation fund the excess, if any, of the previously transferred amount over the recomputed amount, together with interest, from the date of the transfer made under subsection (1), based upon 8% effective annual interest, compounded annually.

The retirement system shall calculate the amount to be transferred, which shall be equal to the sum of the following:

(a) The member's accumulated contributions, if any, from the employees' savings fund as of 12 midnight on the day immediately preceding the date of the termination of employment.

The actuarial present value shall be computed as of 12 midnight on that date and shall be based on the following:

(i) Eight percent effective annual interest, compounded annually.

(ii) A 50% male and 50% female gender neutral blend of the mortality tables used to project retiree longevity in the most recent annual actuarial valuation report.

(iii) A benefit commencement age, based upon the member's estimated credited service as of 12 midnight on the day immediately preceding the date of the termination of employment. The benefit commencement age shall be the younger of the following, but shall not be younger than the member's age as of 12 midnight on the day immediately preceding the date of the termination of employment:

(A) Age 60.

If the recomputed amount differs from the amount transferred under subsection (3) by \$10.00 or more, the retirement system shall do all of the following:

(a) Direct the state treasurer to transfer from the employer's accumulation fund to the former qualified participant's account in Tier 2 the excess, if any, of the recomputed amount over the previously transferred amount together with interest from 12 midnight on the day immediately preceding the date of the termination of employment to the date of the transfer under this subsection, based upon 8% effective annual interest, compounded annually.

(2) If the retirement board grants the application of the qualified participant under subsection (1), the qualified participant shall be granted a supplemental benefit equivalent to the amount provided in section 23 as if the former qualified participant had retired under section 21, which supplemental benefit shall be offset by the value of the distribution of his or her accumulated balance as determined by the retirement system upon becoming a former qualified participant pursuant to section 67.

(3) If a qualified participant dies as a result of a personal injury or disease arising out of and in the course of his or her employment with this state, or if a former qualified participant who retired under subsection (1) who dies before becoming age 60 and within 3 years after the former qualified participant's disability retirement from the same causes from which he or she separated, and such death or illness or injuries resulting in death are found by the retirement board to have been the sole and exclusive result of employment with this state, a supplemental benefit shall be granted equivalent to the amount provided for in section 27 had the former qualified participant been considered retired under section 27, which supplemental benefit shall be offset by the value of the distribution of his or her accumulated balance upon becoming a former qualified participant pursuant to section 67.

(4) A qualified participant, former qualified participant, or beneficiary of a deceased participant, which participant is eligible for a duty disability retirement allowance pursuant to subsection (1), (2), or (3), is eligible for health insurance coverage under section 20d in all respects and under the same terms as would be a retirant and his or her beneficiaries under Tier 1.

(c) The qualified participant has been a state employee for at least 10 years.

(6) If the retirement board grants the application of the qualified participant under subsection (5), the qualified participant shall be granted a supplemental benefit equivalent to the amount provided for in section 25 as if the qualified participant had retired under section 24. The supplemental benefit shall be offset by the value of the distribution of his or her accumulated balance as determined by the retirement system upon becoming a former qualified participant pursuant to section 67.

(7) Except as otherwise provided in this section, if a qualified participant who has been a state employee for the number of years necessary to vest under Tier 1 dies as a result of causes occurring not in the performance of duty to this state, a supplemental benefit shall be granted equivalent to the amount provided for in section 25 had the former qualified participant been considered retired under section 24, which supplemental benefit shall be offset by the value of the distribution of his or her accumulated balance as determined by the retirement system upon becoming a former qualified participant pursuant to section 67.

(8) A qualified participant, former qualified participant, or beneficiary of a deceased participant, which

History: Add. 2002, Act 99, Imd. Eff. Mar. 27, 2002.

38.68b Participant employed on or after January 1, 2012 or making election under subsection (5) or (6); health insurance coverage; contribution to tax-deferred account; opt-out; calculation of amount under subsection (7) and adjustment under subsection (8); implementation of subsections (5) to (11); method; report.

Sec. 68b. (1) A qualified participant or former qualified participant who was first employed and entered upon the payroll of his or her employer on or after January 1, 2012 or who made an election under subsection (5) or (6) shall not receive any health insurance coverage premium from this state under section 68. In lieu of any health insurance coverage premium that might have been paid by this state under section 68, a qualified

participant's employer shall make a matching contribution up to 2% of the qualified participant's compensation to an appropriate tax-deferred account for each qualified participant who was first employed and entered upon the payroll of his or her employer on or after January 1, 2012 or who made an election under subsection (5) or (6). A matching contribution under this subsection shall not be used as the basis for a loan from an employee's Tier 2 or tax-deferred account.

(2) A qualified participant who was first employed and entered upon the payroll of his or her employer on or after January 1, 2012 or who made an election under subsection (5) or (6) may make a contribution up to 2% of the qualified participant's compensation to an appropriate tax-deferred account.

(3) Except as otherwise provided in this subsection, a qualified participant is vested in contributions made to his or her tax-deferred account under subsections (1) and (2) according to the vesting provisions under section 64(1). A qualified participant who is eligible for health insurance coverage under section 67a(4) or (8) is not vested in any employer contributions under subsection (1) and forfeits the contributions and earnings on the contributions.

(4) The contributions described in this section shall begin with the first payday after the qualified participant is employed or on or after April 1, 2012 for a qualified participant who makes an election under subsection (5) or (6) and end upon his or her termination of employment.

(5) Except as otherwise provided in this subsection, beginning January 3, 2012 and ending at 5 p.m. eastern standard time on March 2, 2012, the retirement system shall permit each qualified participant who is a qualified participant on December 31, 2011 to make an election to opt out of the health insurance coverage premium that would have been paid by this state under section 68 and opt in to the tax-deferred account provisions of this section effective April 1, 2012. A qualified participant who is a qualified participant on December 31, 2011 and who does not make the election under this subsection continues to be eligible for the health insurance coverage premium paid by this state under section 68 and is not eligible for the tax-deferred account provisions of this section. A qualified participant who is a qualified participant on December 31, 2011 and who makes the election under this subsection shall cease accruing years of service credit for purposes of calculating a portion of the health insurance coverage premium that would have been paid by this state under section 68 as if that section continued to apply and for the portion of the amount to be calculated under subsection (7) for crediting to a tax-deferred account. This subsection does not apply to any of the following:

(a) A former member who made an election to become a qualified participant under section 50.

(b) A member who did not make the election under section 50a.

(c) A member who made the election under section 50a(1) and the designation under section 50a(2), who has attained 30 years of credited service, and who remains employed by this state.

(d) A former qualified participant who was a former qualified participant on December 31, 2011.

(6) Except as otherwise provided in this subsection, a former qualified participant who has 10 or more years of service on or before December 31, 2011 and who is reemployed by this state on or after January 1, 2012 and before January 1, 2014 may make an election under this subsection and receive an amount, if any, as determined under this section. Beginning on the date of the former qualified participant's reemployment and ending 60 days after the former qualified participant's first pay date, the retirement system shall permit the former qualified participant to make an election to opt out of the health insurance coverage premium that would have been paid by this state under section 68 and opt in to the tax-deferred account provisions of this section effective on or after the former qualified participant's date of reemployment. If the former qualified participant does not make the election under this subsection, he or she continues to be eligible for the health insurance coverage premium paid by this state under section 68 and is not eligible for the tax-deferred account provisions of this section. A former qualified participant who makes the election under this subsection ceases to accrue years of service credit for purposes of calculating a portion of the health insurance coverage premium that would have been paid by this state under section 68 as if that section continued to apply and for purposes of calculating the portion of the amount to be credited to a tax-deferred account under subsection (7). This subsection does not apply to any of the following:

(a) A former member who made an election to become a qualified participant under section 50.

(b) A member who did not make the election under section 50a.

(c) A member who made the election under section 50a(1) and the designation under section 50a(2), who has attained 30 years of credited service, and who remains employed by this state.

(7) Except as otherwise provided in this section, in lieu of any health insurance coverage premium that might have been paid by this state under section 68, the retirement system shall calculate an amount to be credited at termination to an appropriate tax-deferred account for each qualified participant who makes an election under subsection (5) or (6). The amount described in this subsection shall be an amount calculated to approximate the actuarial present value as of 12 midnight March 31, 2012 of the projected retirant health

benefits based on the current benefit structure under section 68 and the qualified participant's years of service as of March 31, 2012. The amount calculated under this subsection shall be equal to the product of all of the following as determined by the retirement system in consultation with the actuary for the system:

(a) An average monthly premium of \$1,000.00, payable for the life of the qualified participant, which approximates the overall average value of all types of premium coverages for single and multiple lives during both pre-medicare and post-medicare periods.

(b) A frozen benefit accrual percent that is the product of 3% and the qualified participant's years of service as of March 31, 2012, up to 30 years.

(c) A deferred life annuity factor equal to the actuarial present value as of March 31, 2012 of \$1.00 per month payable for the life of the qualified participant, based on the following actuarial assumptions:

(i) An interest discount rate of 4% annually for all future years, which approximates the use of an assumed rate of investment return or interest discount rate of 8%, combined with an assumption that the average premium is projected to increase 4% annually for all future years.

(ii) Mortality rates based on a 50% male - 50% female blend of the 1994 group annuity mortality table set forward 1 year for both males and females.

(iii) Commencement of the \$1.00 per month deferred life annuity based on an assumption that the qualified participant will terminate employment upon reaching age 60 and that the qualified participant would have received health insurance coverage immediately upon termination of employment.

(8) The amount calculated under subsection (7) shall be adjusted annually from March 31, 2012 to the date of the qualified participant's actual termination of employment. Except as otherwise provided in this subsection, the retirement system shall establish the amount of the annual adjustment to be equal to the change in the medical care component of the United States consumer price index for the most recent 12-month period for which data are available from the bureau of labor statistics of the United States department of labor. The adjustment under this subsection shall not be less than 0% and shall not be more than 4%.

(9) The amount calculated under subsection (7) and adjusted under subsection (8) shall be credited at the qualified participant's first termination of employment following December 31, 2011, to the qualified participant's tax-deferred account according to the following schedule:

(a) One hundred percent of the calculated amount to a qualified participant who is at least 60 years of age with at least 10 years of service or is at least 55 years of age with at least 30 years of service.

(b) Fifty percent of the calculated amount to a qualified participant who has at least 10 years of service and who does not meet the age and service qualifications of subdivision (a).

(10) An individual who is a former qualified participant on December 31, 2011, who has 10 or more years of service on or before December 31, 2011, and who is reemployed by this state on or after January 1, 2014 shall be treated in the same manner as a qualified participant under this section who made the election under subsection (5) and shall receive an amount, if any, as determined under this section. This subsection does not apply to any of the following:

(a) A former member who made the election to become a qualified participant under section 50.

(b) A member who did not make the election under section 50a.

(c) A member who made the election under section 50a(1) and the designation under section 50a(2), who has attained 30 years of credited service, and who remains employed by this state.

(11) In lieu of any other health insurance coverage that might have been paid by this state, a credit to a health reimbursement account within the trust created under the public employee retirement health care funding act, 2010 PA 77, MCL 38.2731 to 38.2747, shall be made by this state in the amounts and to the qualified participants or former qualified participants as follows:

(a) Two thousand dollars to a qualified participant who was first employed and entered upon the payroll of his or her employer on or after January 1, 2012, who is 60 years of age or older, and who has at least 10 years of service at his or her first termination of employment.

(b) One thousand dollars to a qualified participant who was first employed and entered upon the payroll of his or her employer on or after January 1, 2012, who is less than 60 years of age, and who has at least 10 years of service at his or her first termination of employment.

(c) Two thousand dollars to a former qualified participant who has less than 10 years of service as of December 31, 2011, who is reemployed by this state on or after January 1, 2012, who is 60 years of age or older, and who has at least 10 years of service at his or her first termination of employment following December 31, 2011. This subdivision does not apply to an individual described in subsection (10)(a), (b), or (c).

(d) One thousand dollars to a former qualified participant who has less than 10 years of service as of December 31, 2011, who is reemployed by this state on or after January 1, 2012, who is less than 60 years of

age, and who has at least 10 years of service at his or her first termination of employment following December 31, 2011. This subdivision does not apply to an individual described in subsection (10)(a), (b), or (c).

(e) Two thousand dollars shall be the minimum amount credited to a qualified participant who made an election under subsection (5) and who does not otherwise qualify for an amount or qualifies for a lesser amount under this subsection at his or her first termination of employment after December 31, 2011.

(12) The retirement system shall determine a method to implement subsections (5) to (11), including a method for crediting the amounts in subsection (9) to comply with any contribution limits imposed by the internal revenue code, including, but not limited to, crediting of payments before termination of employment.

(13) Subsections (5) to (11) do not apply to a qualified participant who is eligible for health insurance coverage under section 67a(4) or (8).

(14) On or before January 1, 2017, the retirement system shall provide a report to the chair of the house and senate appropriations committees that provides the projected impact of subsection (11) as it applies to qualified participants entered upon the payroll of this state on or after January 1, 2017 with regard to the annual required contribution as used by the governmental accounting standards board and for purposes of the annual financial statements prepared under section 12(1).
