A district's, public school academy's, or intermediate district's membership is adjusted as provided under section 25e for pupils who enroll after the pupil membership count day in a strict discipline academy operating under sections 1311b to 1311m of the revised school code, MCL 380.1311b to 380.1311m. The amount of the foundation allowance for a pupil in membership is determined under section 20. In making the calculation of membership, all of the following, as applicable, apply to determining the membership of a district, a public school academy, or an intermediate district:

(c) A special education pupil educated by the intermediate district is counted in membership in the intermediate district.

(d) A pupil placed by a court or state agency in an on-grounds program of a juvenile detention facility, a child caring institution, or a mental health institution, or a pupil funded under section 53a, is counted in membership in the district or intermediate district approved by the department to operate the program.

(f) A pupil enrolled in a career and technical education program supported by a millage levied over an area larger than a single district or in an area vocational-technical education program established under section 690 of the revised school code, MCL 380.690, is counted in membership only in the pupil's district of residence.

(g) A pupil enrolled in a public school academy is counted in membership in the public school academy.

(h) For the purposes of this section and section 6a, for a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, that is in compliance with section 553a of the revised school code, MCL 380.553a, a pupil's participation in the cyber school's educational program is considered regular daily attendance, and for a district or public school academy, a pupil's participation in a virtual course as that term is defined in section 21f is considered regular daily attendance. Beginning July 1, 2021, this subdivision is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021. For the purposes of this subdivision, for a pupil enrolled in a cyber school, all of the following apply with regard to the participation requirement as described in this subdivision:

(i) Except as otherwise provided in this subdivision, the pupil shall participate in each scheduled course on pupil membership count day or supplemental count day, as applicable. If the pupil is absent on pupil membership count day or supplemental count day, as applicable, the pupil must attend and participate in class during the next 10 consecutive school days if the absence was unexcused, or during the next 30 calendar days if the absence was excused.

(ii) For a pupil who is not learning sequentially, 1 or more of the following must be met on pupil membership count day or supplemental count day, as applicable, for each scheduled course to satisfy the participation requirement under this subdivision:

(A) The pupil attended a live lesson from the teacher.

(B) The pupil logged into a lesson or lesson activity and the login can be documented.

(C) The pupil and teacher engaged in a subject-oriented telephone conversation.

(D) There is documentation of an email dialogue between the pupil and teacher.

(E) There is documentation of activity or work between the learning coach and pupil.

(F) An alternate form of attendance as determined and agreed upon by the cyber school and the pupil membership auditor was met.

(iii) For a pupil using sequential learning, the participation requirement under this subdivision is satisfied if either of the following occurs:

(A) Except as otherwise provided in this sub-subparagraph, the pupil and the teacher of record or mentor complete a 2-way interaction for 1 course during the week on which pupil membership count day or supplemental count day, as applicable, occurs, and the 3 consecutive weeks following that week. However, if a school break is scheduled during any of the weeks described in this sub-subparagraph that is 4 or more days in length or instruction has been canceled districtwide during any of the weeks described in this sub-subparagraph for 3 or more school days, the district is not required to ensure that the pupil and the teacher of record or mentor completed a 2-way interaction for that week. As used in this sub-subparagraph:

(I) "2-way interaction" means the communication that occurs between the teacher of record or mentor and pupil, where 1 party initiates communication and a response from the other party follows that communication. Responses as described in this sub-sub-subparagraph must be to the communication initiated by the teacher of record or mentor, and not some other action taken. This interaction may occur through, but is not limited to, means such as email, telephone, instant messaging, or face-to-face conversation. A parent- or legal-guardian-facilitated 2-way interaction is considered a 2-way interaction if the pupil is in any of grades K to 5 and does not yet possess the skills necessary to participate in 2-way interactions unassisted. The interactions described in this sub-sub-subparagraph must relate to a virtual course on the pupil's schedule and pertain to course content or progress.

(II) "Mentor" means a professional employee of the district who monitors the pupil's progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also be the teacher of record if the mentor meets the definition of a teacher of record under this sub-subparagraph and the district is the provider for the course.

(III) "Teacher of record" means a teacher to whom all of the following apply:

(1) The teacher is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies. The teacher of record may coordinate the distribution and assignment of the responsibilities described in this sub-sub-subparagraph with other teachers participating in the instructional process for a course.

(2) The teacher is certified for the grade level or is working under a valid substitute permit, authorization, or approval issued by the department.

(3) The teacher has a personnel identification code provided by the center.

(IV) "Week" means a period that starts on Wednesday and ends the following Tuesday.

(B) The pupil completes a combination of 1 or more of the following activities for each scheduled course on pupil membership count day or supplemental count day, as applicable:

(I) Documented attendance in a virtual course where synchronous, live instruction occurred with the teacher.

(II) Documented completion of a course assignment.

(III) Documented completion of a course lesson or lesson activity.

(IV) Documented pupil access to an ongoing lesson, which does not include a login.

(V) Documented physical attendance on pupil membership count day or supplemental count day, as applicable, in each scheduled course, if the pupil will attend at least 50% of the instructional time for each scheduled course on-site, face-to-face with the teacher of record. As used in this sub-sub-subparagraph, "teacher of record" means that term as defined in subparagraph (iii)(A).

(iv) For purposes of subparagraph (iii), each scheduled course currently being attempted by the pupil, rather than every course on the pupil's schedule for the entire term, is considered a part of each scheduled course for the pupil.

(i) For a new district or public school academy beginning its operation after December 31, 1994, membership for the first 2 full or partial fiscal years of operation is determined as follows:

(i) If operations begin before the pupil membership count day for the fiscal year, membership is the average number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the pupil membership count day for the current school year and on the supplemental count day for the current school year, as determined by the department and calculated by adding the number of pupils registered for attendance on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by a subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(ii) If operations begin after the pupil membership count day for the fiscal year and not later than the supplemental count day for the fiscal year, membership is the final audited count of the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the supplemental count day for the current school year.

(j) If a district is the authorizing body for a public school academy, then, in the first school year in which pupils are counted in membership on the pupil membership count day in the public school academy, the determination of the district's membership excludes from the district's pupil count for the immediately preceding supplemental count day any pupils who are counted in the public school academy on that first pupil membership count day who were also counted in the district on the immediately preceding supplemental count day.

(k) For an extended school year program approved by the superintendent, a pupil enrolled, but not scheduled to be in regular daily attendance, on a pupil membership count day, is counted in membership.

(l) To be counted in membership, a pupil must meet the minimum age requirement to be eligible to attend school under section 1147 of the revised school code, MCL 380.1147, and must be less than 20 years of age on September 1 of the school year except as follows:

(i) A special education pupil who is enrolled and receiving instruction in a special education program or service approved by the department, who does not have a high school diploma, and who is less than 26 years of age as of September 1 of the current school year is counted in membership.

(ii) A pupil who is determined by the department to meet all of the following may be counted in membership:

(A) Is enrolled in a public school academy or an alternative education high school diploma program, that is primarily focused on educating pupils with extreme barriers to education, such as being homeless as that term is defined under 42 USC 11302.

(B) Had dropped out of school.

(C) Is less than 22 years of age as of September 1 of the current school year.

(iii) If a child does not meet the minimum age requirement to be eligible to attend school for that school year under section 1147 of the revised school code, MCL 380.1147, but will be 5 years of age not later than December 1 of that school year, the district may count the child in membership for that school year if the parent or legal guardian has notified the district in writing that the parent or legal guardian intends to enroll the child in kindergarten for that school year.

(m) An individual who has achieved a high school diploma is not counted in membership. An individual who has achieved a high school equivalency certificate is not counted in membership unless the individual is a student with a disability as that term is defined in R 340.1702 of the Michigan Administrative Code. An individual participating in a job training program funded under former section 107a or a jobs program funded under former section 107b, administered by the department of labor and economic opportunity, or participating in any successor of either of those 2 programs, is not counted in membership.

(n) If a pupil counted in membership in a public school academy is also educated by a district or intermediate district as part of a cooperative education program, the pupil is counted in membership only in the public school academy unless a written agreement signed by all parties designates the party or parties in which the pupil is counted in membership, and the instructional time scheduled for the pupil in the district or intermediate district is included in the full-time equated membership determination under subdivision (q) and section 101. However, for pupils receiving instruction in both a public school academy and in a district or intermediate district but not as a part of a cooperative education program, the following apply:

(i) If the public school academy provides instruction for at least 1/2 of the class hours required under section 101, the public school academy receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the public school academy provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the district or intermediate district providing the remainder of the hours of instruction.

(ii) If the public school academy provides instruction for less than 1/2 of the class hours required under section 101, the district or intermediate district providing the remainder of the hours of instruction receives as its prorated share of the full-time equated membership for each of those pupils an amount equal to 1 times the product of the hours of instruction the district or intermediate district provides divided by the number of hours required under section 101 for full-time equivalency, and the remainder of the full-time membership for each of those pupils is allocated to the public school academy.

(o) An individual less than 16 years of age as of September 1 of the current school year who is being educated in an alternative education program is not counted in membership if there are also adult education participants being educated in the same program or classroom.

(p) The department shall give a uniform interpretation of full-time and part-time memberships.

(q) The number of class hours used to calculate full-time equated memberships must be consistent with section 101. In determining full-time equated memberships for pupils who are enrolled in a postsecondary institution or for pupils engaged in an internship or work experience under section 1279h of the revised school

code, MCL 380.1279h, a pupil is not considered to be less than a full-time equated pupil solely because of the effect of the pupil's postsecondary enrollment or engagement in the internship or work experience, including necessary travel time, on the number of class hours provided by the district to the pupil.

(r) Full-time equated memberships for pupils in kindergarten are determined by dividing the number of instructional hours scheduled and provided per year per kindergarten pupil by the same number used for determining full-time equated memberships for pupils in grades 1 to 12. However, to the extent allowable under federal law, for a district or public school academy that provides evidence satisfactory to the department that it used federal title I money in the 2 immediately preceding school fiscal years to fund full-time kindergarten, full-time equated memberships for pupils in kindergarten are determined by dividing the number of class hours scheduled and provided per year per kindergarten pupil by a number equal to 1/2 the number used for determining full-time equated memberships for pupils in grades 1 to 12. The change in the counting of full-time equated memberships for pupils in kindergarten that took effect for 2012-2013 is not a mandate.

(s) For a district or a public school academy that has pupils enrolled in a grade level that was not offered by the district or public school academy in the immediately preceding school year, the number of pupils enrolled in that grade level to be counted in membership is the average of the number of those pupils enrolled and in regular daily attendance on the pupil membership count day and the supplemental count day of the current school year. Membership is calculated by adding the number of pupils registered for attendance in that grade level on the pupil membership count day plus pupils received by transfer and minus pupils lost as defined by rules promulgated by the superintendent, and as corrected by subsequent department audit, plus the final audited count from the supplemental count day for the current school year, and dividing that sum by 2.

(t) A pupil enrolled in a cooperative education program may be counted in membership in the pupil's district of residence with the written approval of all parties to the cooperative agreement.

(u) If, as a result of a disciplinary action, a district determines through the district's alternative or disciplinary education program that the best instructional placement for a pupil is in the pupil's home or otherwise apart from the general school population, if that placement is authorized in writing by the district superintendent and district alternative or disciplinary education supervisor, and if the district provides appropriate instruction as described in this subdivision to the pupil at the pupil's home or otherwise apart from the general school population, the district may count the pupil in membership on a pro rata basis, with the proration based on the number of hours of instruction the district actually provides to the pupil divided by the number of hours required under section 101 for full-time equivalency. For the purposes of this subdivision, a district is considered to be providing appropriate instruction if all of the following are met:

(i) The district provides at least 2 nonconsecutive hours of instruction per week to the pupil at the pupil's home or otherwise apart from the general school population under the supervision of a certificated teacher.

(ii) The district provides instructional materials, resources, and supplies that are comparable to those otherwise provided in the district's alternative education program.

(iii) Course content is comparable to that in the district's alternative education program.

(iv) Credit earned is awarded to the pupil and placed on the pupil's transcript.

(v) If a pupil was enrolled in a public school academy on the pupil membership count day, if the public school academy's contract with its authorizing body is revoked or the public school academy otherwise ceases to operate, and if the pupil enrolls in a district within 45 days after the pupil membership count day, the department shall adjust the district's pupil count for the pupil membership count day to include the pupil in the count.

(w) For a public school academy that has been in operation for at least 2 years and that suspended operations for at least 1 semester and is resuming operations, membership is the sum of the product of .90 times the number of full-time equated pupils in grades K to 12 actually enrolled and in regular daily attendance on the first pupil membership count day or supplemental count day, whichever is first, occurring after operations resume, plus the product of .10 times the final audited count from the most recent pupil membership count day or supplemental count day that occurred before suspending operations, as determined by the superintendent.

(x) If a district's membership for a particular fiscal year, as otherwise calculated under this subsection, would be less than 1,550 pupils, the district has 4.5 or fewer pupils per square mile, as determined by the department, and the district does not receive funding under section 22d(2), the district's membership is considered to be the membership figure calculated under this subdivision. If a district educates and counts in its membership pupils in grades 9 to 12 who reside in a contiguous district that does not operate grades 9 to 12 and if 1 or both of the affected districts request the department to use the determination allowed under this sentence, the department shall include the square mileage of both districts in determining the number of pupils per square mile for each of the districts for the purposes of this subdivision. If a district has established a

community engagement advisory committee in partnership with the department of treasury, is required to submit a deficit elimination plan or an enhanced deficit elimination plan under section 1220 of the revised school code, MCL 380.1220, and is located in a city with a population between 9,000 and 11,000, as determined by the department, that is in a county with a population between 150,000 and 160,000, as determined by the department, the district's membership is considered to be the membership figure calculated under this subdivision. The membership figure calculated under this subdivision is the greater of the following:

(i) The average of the district's membership for the 3-fiscal-year period ending with that fiscal year, calculated by adding the district's actual membership for each of those 3 fiscal years, as otherwise calculated under this subsection, and dividing the sum of those 3 membership figures by 3.

(ii) The district's actual membership for that fiscal year as otherwise calculated under this subsection.

(y) Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are enrolled in a classroom program under R 340.1754 of the Michigan Administrative Code are determined by dividing the number of class hours scheduled and provided per year by 450. Full-time equated memberships for special education pupils who are not enrolled in kindergarten but are receiving early childhood special education services under R 340.1755 or R 340.1862 of the Michigan Administrative Code are determined by dividing the number of hours of service scheduled and provided per year per pupil by 180.

(z) A pupil of a district that begins its school year after Labor Day who is enrolled in an intermediate district program that begins before Labor Day is not considered to be less than a full-time pupil solely due to instructional time scheduled but not attended by the pupil before Labor Day.

(aa) For the first year in which a pupil is counted in membership on the pupil membership count day in a middle college program, the membership is the average of the full-time equated membership on the pupil membership count day and on the supplemental count day for the current school year, as determined by the department. If a pupil described in this subdivision was counted in membership by the operating district on the immediately preceding supplemental count day, the pupil is excluded from the district's immediately preceding supplemental count for the purposes of determining the district's membership.

(bb) A district or public school academy that educates a pupil who attends a United States Olympic Education Center may count the pupil in membership regardless of whether or not the pupil is a resident of this state.

(cc) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148, is counted in the educating district.

(dd) For a pupil enrolled in a dropout recovery program that meets the requirements of section 23a, the pupil is counted as 1/12 of a full-time equated membership for each month that the district operating the program reports that the pupil was enrolled in the program and was in full attendance. However, if the special membership counting provisions under this subdivision and the operation of the other membership counting provisions under this subsection result in a pupil being counted as more than 1.0 FTE in a fiscal year, the payment made for the pupil under sections 22a and 22b must not be based on more than 1.0 FTE for that pupil, and any portion of an FTE for that pupil that exceeds 1.0 is instead paid under section 25g. The district operating the program shall report to the center the number of pupils who were enrolled in the program and were in full attendance for a month not later than 30 days after the end of the month. A district shall not report a pupil as being in full attendance for a month unless both of the following are met:

(i) A personalized learning plan is in place on or before the first school day of the month for the first month the pupil participates in the program.

(ii) Either of the following is met:

(A) The pupil meets the district's definition under section 23a of satisfactory monthly progress for that month or, if the pupil does not meet that definition of satisfactory monthly progress for that month, the pupil did meet that definition of satisfactory monthly progress in the immediately preceding month and appropriate interventions, as defined by the district, are implemented within 10 school days after it is determined that the pupil does not meet that definition of satisfactory monthly progress.

(B) For the first 2 months that the pupil participates in the program, the pupil earns 0.25 credit by the end of the second month. A pupil described in this sub-subparagraph may be retroactively reported as being in full attendance for the first month that the pupil participated in the program.

(ee) A pupil participating in a virtual course under section 21f is counted in membership in the district enrolling the pupil.

(ff) If a public school academy that is not in its first or second year of operation closes at the end of a school year and does not reopen for the next school year, the department shall adjust the membership count of the district or other public school academy in which a former pupil of the closed public school academy enrolls and is in regular daily attendance for the next school year to ensure that the district or other public

school academy receives the same amount of membership aid for the pupil as if the pupil were counted in the district or other public school academy on the supplemental count day of the preceding school year.

(gg) If a special education pupil is expelled under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a, and is not in attendance on the pupil membership count day because of the expulsion, and if the pupil remains enrolled in the district and resumes regular daily attendance during that school year, the district's membership is adjusted to count the pupil in membership as if the pupil had been in attendance on the pupil membership count day.

(hh) A pupil enrolled in a community district is counted in membership in the community district.

(ii) A part-time pupil enrolled in a nonpublic school in grades K to 12 in accordance with section 166b must not be counted as more than 0.75 of a full-time equated membership.

(jj) A district that borders another state or a public school academy that operates at least grades 9 to 12 and is located within 20 miles of a border with another state may count in membership a pupil who is enrolled in a course at a college or university that is located in the bordering state and within 20 miles of the border with this state if all of the following are met:

(i) The pupil would meet the definition of an eligible student under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were an eligible course under that act.

(ii) The course in which the pupil is enrolled would meet the definition of an eligible course under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, if the course were provided by an eligible postsecondary institution under that act.

(iii) The department determines that the college or university is an institution that, in the other state, fulfills a function comparable to a state university or community college, as those terms are defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.513, or is an independent nonprofit degree-granting college or university.

(iv) The district or public school academy pays for a portion of the pupil's tuition at the college or university in an amount equal to the eligible charges that the district or public school academy would pay to an eligible postsecondary institution under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, as if the course were an eligible course under that act.

(v) The district or public school academy awards high school credit to a pupil who successfully completes a course as described in this subdivision.

(kk) A pupil enrolled in a middle college program may be counted for more than a total of 1.0 full-time equated membership for any of the school years in which the pupil is enrolled in the middle college program, but the total full-time equated membership for that pupil for all of the school years in which the pupil is enrolled in high school must not be greater than 5.00 full-time equated membership if the pupil is enrolled in more than the minimum number of instructional days and hours required under section 101 and the pupil is expected to complete the 5-year program with both a high school diploma and at least 60 transferable college credits or is expected to earn an associate's degree in fewer than 5 years. A pupil who graduates with both a high school diploma and at least 60 transferable college credits or an associate degree at least 1 semester early is considered to have completed the middle college program in fewer than 5 years.

(ll) If a district's or public school academy's membership for a particular fiscal year, as otherwise calculated under this subsection, includes pupils counted in membership who are enrolled under section 166b, all of the following apply for the purposes of this subdivision:

(i) If the district's or public school academy's membership for pupils counted under section 166b equals or exceeds 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the growth in the district's or public school academy's membership for pupils counted under section 166b must not exceed 10%.

(ii) If the district's or public school academy's membership for pupils counted under section 166b is less than 5% of the district's or public school academy's membership for pupils not counted in membership under section 166b in the immediately preceding fiscal year, then the district's or public school academy's membership for pupils counted under section 166b must not exceed the greater of the following:

(A) Five percent of the district's or public school academy's membership for pupils not counted in membership under section 166b.

(B) Ten percent more than the district's or public school academy's membership for pupils counted under section 166b in the immediately preceding fiscal year.

(iii) If 1 or more districts consolidate or are parties to an annexation, then the calculations under subparagraphs (i) and (ii) must be applied to the combined total membership for pupils counted in those districts for the fiscal year immediately preceding the consolidation or annexation.

(5) "Public school academy" means that term as defined in section 5 of the revised school code, MCL 380.5.

(6) "Pupil" means an individual in membership in a public school. A district must have the approval of the pupil's district of residence to count the pupil in membership, except approval by the pupil's district of residence is not required for any of the following:

(a) A nonpublic part-time pupil enrolled in grades K to 12 in accordance with section 166b.

(b) A pupil receiving 1/2 or less of the pupil's instruction in a district other than the pupil's district of residence.

(c) A pupil enrolled in a public school academy.

(d) A pupil enrolled in a district other than the pupil's district of residence if the pupil is enrolled in accordance with section 105 or 105c.

(e) A pupil who has made an official written complaint or whose parent or legal guardian has made an official written complaint to law enforcement officials and to school officials of the pupil's district of residence that the pupil has been the victim of a criminal sexual assault or other serious assault, if the official complaint either indicates that the assault occurred at school or that the assault was committed by 1 or more other pupils enrolled in the school the pupil would otherwise attend in the district of residence or by an employee of the district of residence. A person who intentionally makes a false report of a crime to law enforcement officials for the purposes of this subdivision is subject to section 411a of the Michigan penal code, 1931 PA 328, MCL 750.411a, which provides criminal penalties for that conduct. As used in this subdivision:

(i) "At school" means in a classroom, elsewhere on school premises, on a school bus or other school-related vehicle, or at a school-sponsored activity or event whether or not it is held on school premises.

(ii) "Serious assault" means an act that constitutes a felony violation of chapter XI of the Michigan penal code, 1931 PA 328, MCL 750.81 to 750.90h, or that constitutes an assault and infliction of serious or aggravated injury under section 81a of the Michigan penal code, 1931 PA 328, MCL 750.81a.

(f) A pupil whose district of residence changed after the pupil membership count day and before the supplemental count day and who continues to be enrolled on the supplemental count day as a nonresident in the district in which the pupil was enrolled as a resident on the pupil membership count day of the same school year.

(g) A pupil enrolled in an alternative education program operated by a district other than the pupil's district of residence who meets 1 or more of the following:

(i) The pupil has been suspended or expelled from the pupil's district of residence for any reason, including, but not limited to, a suspension or expulsion under section 1310, 1311, or 1311a of the revised school code, MCL 380.1310, 380.1311, and 380.1311a.

(ii) The pupil had previously dropped out of school.

(iii) The pupil is pregnant or is a parent.

(iv) The pupil has been referred to the program by a court.

(h) A pupil enrolled in the Michigan Virtual School, for the pupil's enrollment in the Michigan Virtual School.

(i) A pupil who is the child of a person who works at the district or who is the child of a person who worked at the district as of the time the pupil first enrolled in the district but who no longer works at the district due to a workforce reduction. As used in this subdivision, "child" includes an adopted child, stepchild, or legal ward.

(j) An expelled pupil who has been denied reinstatement by the expelling district and is reinstated by another school board under section 1311 or 1311a of the revised school code, MCL 380.1311 and 380.1311a.

(k) A pupil enrolled in a district other than the pupil's district of residence in a middle college program if the pupil's district of residence and the enrolling district are both constituent districts of the same intermediate district.

(l) A pupil enrolled in a district other than the pupil's district of residence who attends a United States Olympic Education Center.

(m) A pupil enrolled in a district other than the pupil's district of residence under section 1148(2) of the revised school code, MCL 380.1148.

(n) A pupil who enrolls in a district other than the pupil's district of residence as a result of the pupil's school not making adequate yearly progress under the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95.

However, if a district educates pupils who reside in another district and if the primary instructional site for those pupils is established by the educating district after 2009-2010 and is located within the boundaries of that other district, the educating district must have the approval of that other district to count those pupils in membership.

(7) "Pupil membership count day" of a district or intermediate district means:

- (a) Except as provided in subdivision (b) or (c), either of the following:
 - (i) The first Wednesday in October each school year.
 - (ii) For a district or building in which school is not in session on the Wednesday described in subparagraph (i) due to conditions not within the control of school authorities, with the approval of the superintendent, the immediately following day on which school is in session in the district or building.

- (8) "Pupils in grades K to 12 actually enrolled and in regular daily attendance" means, except as otherwise provided in this section, pupils in grades K to 12 in attendance and receiving instruction in all classes for which they are enrolled on the pupil membership count day or the supplemental count day, as applicable. Except as otherwise provided in this section and subsection, a pupil who is absent from any of the classes in which the pupil is enrolled on the pupil membership count day or supplemental count day and who does not attend each of those classes during the 10 consecutive school days immediately following the pupil membership count day or supplemental count day, except for a pupil who has been excused by the district, is not counted as 1.0 full-time equated membership. Except as otherwise provided in this section, a pupil who is excused from attendance on the pupil membership count day or supplemental count day and who fails to attend each of the classes in which the pupil is enrolled within 30 calendar days after the pupil membership count day or supplemental count day is not counted as 1.0 full-time equated membership. Except as otherwise provided in this section, in addition, a pupil who was enrolled and in attendance in a district, intermediate district, or public school academy before the pupil membership count day or supplemental count day of a particular year but was expelled or suspended on the pupil membership count day or supplemental count day is only counted as 1.0 full-time equated membership if the pupil resumed attendance in the district, intermediate district, or public school academy within 45 days after the pupil membership count day or supplemental count day of that particular year. Except as otherwise provided in this section, a pupil not counted as 1.0 full-time equated membership due to an absence from a class is counted as a prorated membership for the classes the pupil attended. For purposes of this subsection:
- (a) "Appropriately placed" means holding a valid Michigan educator credential with the required grade range and discipline or subject area for the assignment, as defined by the superintendent of public instruction.
 - (b) "Class" means either of the following, as applicable:

This subdivision does not apply for the 2020-2021, 2021-2022, 2022-2023, and 2023-2024 school years.
 - (ii) For the 2020-2021, 2021-2022, 2022-2023, and 2023-2024 school years only, a period of time in 1 day when pupils and a certificated teacher, a teacher engaged to teach under section 1233b of the revised school code, MCL 380.1233b, or an individual working under a valid substitute permit, authorization, or approval issued by the department are together and instruction is taking place.

- (16) "Tuition pupil" means a pupil of school age attending school in a district other than the pupil's district

of residence for whom tuition may be charged to the district of residence. Tuition pupil does not include a pupil who is a special education pupil, a pupil described in subsection (6)(d) to (n), or a pupil whose parent or guardian voluntarily enrolls the pupil in a district that is not the pupil's district of residence. A pupil's district of residence shall not require a high school tuition pupil, as provided under section 111, to attend another school district after the pupil has been assigned to a school district.

(17) "State school aid fund" means the state school aid fund established in section 11 of article IX of the state constitution of 1963.

(18) "Taxable value" means, except as otherwise provided in this article, the taxable value of property as determined under section 27a of the general property tax act, 1893 PA 206, MCL 211.27a.

Sec. 11f. (1) From the appropriations under section 11, there is allocated for the purposes of this section an amount not to exceed \$32,000,000.00 for the fiscal year ending September 30, 2008. Payments under this section will cease after September 30, 2008. These allocations are for paying the amounts described in subsection (4) to districts and intermediate districts, other than those receiving a lump sum payment under subsection (2), that were not plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492 and that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district has or may have in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. The waiver resolution shall be in form and substance as required under subsection (7). The state treasurer is authorized to accept such a waiver resolution on behalf of this state. The amounts described in this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(2) In addition to any other money appropriated under this act, there was appropriated from the state school aid fund an amount not to exceed \$1,700,000.00 for the fiscal year ending September 30, 1999. This appropriation was for paying the amounts described in this subsection to districts and intermediate districts that were not plaintiffs in the consolidated cases known as Durant v State of Michigan; that, on or before March 2, 1998, submitted to the state treasurer a board resolution waiving any right or interest the district or intermediate district had or may have had in any claim or litigation based on or arising out of any claim or potential claim through September 30, 1997 that is or was similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan; and for which the total amount listed in section 11h and paid under this section was less than \$75,000.00. For a district or intermediate district qualifying for a payment under this subsection, the entire amount listed for the district or intermediate district in section 11h was paid in a lump sum on November 15, 1998 or on the next business day following that date. The amounts paid under this subsection represent offers of settlement and compromise of any claim or claims that were or could have been asserted by these districts and intermediate districts, as described in this subsection.

(3) This section does not create any obligation or liability of this state to any district or intermediate district that does not submit a waiver resolution described in this section. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, are not intended to admit liability or waive any defense that is or would be available to this state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(4) The amount paid each fiscal year to each district or intermediate district under subsection (1) shall be 1/20 of the total amount listed in section 11h for each listed district or intermediate district that qualifies for a payment under subsection (1). The amounts listed in section 11h and paid in part under this subsection and in a lump sum under subsection (2) are offers of settlement and compromise to each of these districts or intermediate districts to resolve, in their entirety, any claim or claims that these districts or intermediate districts may have asserted for violations of section 29 of article IX of the state constitution of 1963 through September 30, 1997, which claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan. This section, any other provision of this act, and section 353e of the management and budget act, 1984 PA 431, MCL 18.1353e, shall not be construed to constitute an admission of liability to the districts or intermediate districts listed in section 11h or a waiver of

any defense that is or would have been available to the state or its agencies, employees, or agents in any litigation or future litigation with a district or intermediate district.

(5) The entire amount of each payment under subsection (1) each fiscal year shall be paid on November 15 of the applicable fiscal year or on the next business day following that date.

(6) Funds paid to a district or intermediate district under this section shall be used only for textbooks, electronic instructional material, software, technology, infrastructure or infrastructure improvements, school buses, school security, training for technology, an early intervening program described in subsection (8), or to pay debt service on voter-approved bonds issued by the district or intermediate district before the effective date of this section. For intermediate districts only, funds paid under this section may also be used for other nonrecurring instructional expenditures including, but not limited to, nonrecurring instructional expenditures for vocational education, or for debt service for acquisition of technology for academic support services. Funds received by an intermediate district under this section may be used for projects conducted for the benefit of its constituent districts at the discretion of the intermediate board. To the extent payments under this section are used by a district or intermediate district to pay debt service on debt payable from millage revenues, and to the extent permitted by law, the district or intermediate district may make a corresponding reduction in the number of mills levied for that debt service.

(7) The resolution to be adopted and submitted by a district or intermediate district under this section and section 11g shall read as follows:

"Whereas, the board of _____ (name of district or intermediate district) desires to settle and compromise, in their entirety, any claim or claims that the district (or intermediate district) has or had for violations of section 29 of article IX of the state constitution of 1963, which claim or claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

Whereas, the district (or intermediate district) agrees to settle and compromise these claims for the consideration described in sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g, and in the amount specified for the district (or intermediate district) in section 11h of the state school aid act of 1979, 1979 PA 94, MCL 388.1611h.

Whereas, the board of _____ (name of district or intermediate district) is authorized to adopt this resolution.

Now, therefore, be it resolved as follows:

1. The board of _____ (name of district or intermediate district) waives any right or interest it may have in any claim or potential claim through September 30, 1997 relating to the amount of funding the district or intermediate district is, or may have been, entitled to receive under the state school aid act of 1979, 1979 PA 94, MCL 388.1601 to 388.1772, or any other source of state funding, by reason of the application of section 29 of article IX of the state constitution of 1963, which claims or potential claims are or were similar to the claims asserted by the plaintiffs in the consolidated cases known as Durant v State of Michigan, Michigan supreme court docket no. 104458-104492.

2. The board of _____ (name of district or intermediate district) directs its secretary to submit a certified copy of this resolution to the state treasurer no later than 5 p.m. eastern standard time on March 2, 1998, and agrees that it will not take any action to amend or rescind this resolution.

3. The board of _____ (name of district or intermediate district) expressly agrees and understands that, if it takes any action to amend or rescind this resolution, the state, its agencies, employees, and agents shall have available to them any privilege, immunity, and/or defense that would otherwise have been available had the claims or potential claims been actually litigated in any forum.

4. This resolution is contingent on continued payments by the state each fiscal year as determined under sections 11f and 11g of the state school aid act of 1979, 1979 PA 94, MCL 388.1611f and 388.1611g. However, this resolution shall be an irrevocable waiver of any claim to amounts actually received by the school district or intermediate school district under sections 11f and 11g of the state school aid act of 1979."

(8) An early intervening program that uses funds received under this section shall meet either or both of the following:

(a) Shall monitor individual pupil learning for pupils in grades K to 3 and provide specific support or learning strategies to pupils in grades K to 3 as early as possible in order to reduce the need for special education placement. The program shall include literacy and numeracy supports, sensory motor skill development, behavior supports, instructional consultation for teachers, and the development of a parent/school learning plan. Specific support or learning strategies may include support in or out of the general classroom in areas including reading, writing, math, visual memory, motor skill development, behavior, or language development. These would be provided based on an understanding of the individual child's learning needs.

(b) Shall provide early intervening strategies for pupils in grades K to 3 using school-wide systems of academic and behavioral supports and shall be scientifically research-based. The strategies to be provided shall include at least pupil performance indicators based upon response to intervention, instructional consultation for teachers, and ongoing progress monitoring. A school-wide system of academic and behavioral support should be based on a support team available to the classroom teachers. The members of this team could include the principal, special education staff, reading teachers, and other appropriate personnel who would be available to systematically study the needs of the individual child and work with the teacher to match instruction to the needs of the individual child.

388.1615 Apportionment of deficiency; state aid overpayments to districts; deduction or payment due to adjustment as result of audit or information; incorrect payment; adjustments for educator certification violations; audits; funding expenditures caused by write-off of prior year accruals; additional appropriation.

Sec. 15. (1) If a district or intermediate district fails to receive its proper apportionment, the department, upon satisfactory proof that the district or intermediate district was entitled justly, shall apportion the deficiency in the next apportionment. Subject to subsections (2) and (3), if a district or intermediate district has received more than its proper apportionment, the department, upon satisfactory proof, shall deduct the excess in the next apportionment. Notwithstanding any other provision in this article, state aid overpayments to a district, other than overpayments in payments for special education or special education transportation, may be recovered from any payment made under this article other than a special education or special education transportation payment, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211. State aid overpayments made in special education or special education transportation payments may be recovered from subsequent special education or special education transportation payments, from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211.

(2) If the result of an audit conducted by or for the department affects the current fiscal year membership, the department shall adjust affected payments in the current fiscal year. A deduction due to an adjustment made as a result of an audit conducted by or for the department, or as a result of information obtained by the department from the district, an intermediate district, the department of treasury, or the office of auditor general, must be deducted from the district's apportionments when the adjustment is finalized. At the request of the district and upon the district presenting evidence satisfactory to the department of the hardship, the department may grant up to an additional 4 years for the adjustment and may advance payments to the district otherwise authorized under this article if the district would otherwise experience a significant hardship in satisfying its financial obligations. However, a district that presented satisfactory evidence of hardship and was undergoing an extended adjustment during 2018-2019 may continue to use the period of extended adjustment as originally granted by the department.

(3) If, based on an audit by the department or the department's designee or because of new or updated information received by the department, the department determines that the amount paid to a district or intermediate district under this article for the current fiscal year or a prior fiscal year was incorrect, the department shall make the appropriate deduction or payment in the district's or intermediate district's allocation in the next apportionment after the adjustment is finalized. The department shall calculate the deduction or payment according to the law in effect in the fiscal year in which the incorrect amount was paid.

If the district does not receive an allocation for the fiscal year or if the allocation is not sufficient to pay the amount of any deduction, the amount of any deduction otherwise applicable must be satisfied from the proceeds of a loan to the district under the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, or from the proceeds of millage levied or pledged under section 1211 of the revised school code, MCL 380.1211, as determined by the department.

(4) If the department makes an adjustment under this section based in whole or in part on a membership audit finding that a district or intermediate district employed an educator in violation of certification requirements under the revised school code and rules promulgated by the department, the department shall prorate the adjustment according to the period of noncompliance with the certification requirements.

(5) The department may conduct audits, or may direct audits by designee of the department, for the current fiscal year and the immediately preceding fiscal year of all records related to a program for which a district or intermediate district has received funds under this article.

(6) Expenditures made by the department under this article that are caused by the write-off of prior year accruals may be funded by revenue from the write-off of prior year accruals.

(7) In addition to funds appropriated in section 11 for all programs and services, there is appropriated for 2023-2024 for obligations in excess of applicable appropriations an amount equal to the collection of overpayments, but not to exceed amounts available from overpayments.

388.1617a Withholding payment district or intermediate district entitled to receive; extent; plan for financing outstanding obligation defaulted upon by district or intermediate district; use of amounts withheld; agreement assigning or pledging payment; effect of emergency manager or deficit elimination plan; indebtedness of state not created; "trustee of a pooled arrangement" defined; approval or disapproval of trust; allocation contingent upon compliance with section.

Sec. 17a. (1) The department may withhold all or part of any payment that a district or intermediate district is entitled to receive under this article to the extent the withholdings are a component part of a plan, developed and implemented pursuant to the revised municipal finance act, 2001 PA 34, MCL 141.2101 to 141.2821, the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, section 1356 of the revised school code, MCL 380.1356, or other statutory authority, for financing an outstanding obligation upon which the district or intermediate district defaulted or for other financial obligations of the district or intermediate district. Amounts withheld shall be used to pay, on behalf of the district or intermediate district, unpaid amounts or subsequently due amounts, or both, of principal and interest on the outstanding obligation upon which the district or intermediate district defaulted.

(2) The state treasurer may withhold all or part of any payment that a district or intermediate district is entitled to receive under this article to the extent authorized or required under section 15 of the school bond qualification, approval, and loan act, 2005 PA 92, MCL 388.1935, the emergency municipal loan act, 1980 PA 243, MCL 141.931 to 141.942, the local financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, section 1356 of the revised school code, MCL 380.1356, or other statutory authority.

(3) Under an agreement entered into by a district or intermediate district assigning all or a portion of the payment that it is eligible to receive under this article to the Michigan finance authority or to the trustee of a pooled arrangement or pledging the amount for payment of an obligation it incurred with the Michigan finance authority or with the trustee of a pooled arrangement, the state treasurer shall transmit to the Michigan finance authority or a trustee designated by the Michigan finance authority or to the trustee of a pooled arrangement or other designated depository the amount of the payment that is assigned or pledged under the agreement.

(4) If a district or intermediate district for which an emergency manager is in place under the local

financial stability and choice act, 2012 PA 436, MCL 141.1541 to 141.1575, or that has an approved deficit elimination plan or an approved enhanced deficit elimination plan under the revised school code, enters into or has entered into an agreement described in subsection (3) pursuant to section 1225(2) of the revised school code, MCL 380.1225, whether the obligation was issued before or after the effective date of this subsection, the portion of state school aid paid or to be paid on behalf of the district or intermediate district directly to the Michigan finance authority, or to a trustee designated by the Michigan finance authority, for the sole purpose of paying the principal of and interest on the obligation is subject to a lien and trust that is a statutory lien and trust, paramount and superior to all other liens and interests of any kind, for the sole purpose of paying the principal of and interest on the obligation. The statutory lien and trust applies to the state school aid received or to be received by the Michigan finance authority, or trustee designated by the Michigan finance authority, on behalf of the district or intermediate district, immediately upon the time when the state school aid is allocated to the district or intermediate district, but is subject to any subsequent reduction of the state school aid allocation by operation of law or executive order. The lien and trust imposed by this section with respect to state school aid has a priority as established in the agreement, except that the agreement shall not impair any existing lien and trust previously created pursuant to this section, including any lien and trust applicable to a multi-year repayment agreement under section 1225 of the revised school code, MCL 380.1225. Except as otherwise provided in this subsection, the lien and trust created under this subsection for the benefit of holders of the obligation issued pursuant to this section is valid and binding against a party having a claim of any kind in tort, contract, or otherwise against the district or intermediate district that has issued the obligation secured by a pledge of state school aid pursuant to this section, regardless of whether that party has notice of the pledge. A pledge made pursuant to this section for the benefit of the holders of obligations or others is perfected without delivery, recording, or notice. The state school aid paid or to be paid on behalf of a district or intermediate district to the Michigan finance authority, or trustee designated by the Michigan finance authority, shall be held in trust for the sole benefit of the holders of the obligation issued pursuant to this section or section 1225 of the revised school code, MCL 380.1225, and is exempt from being levied upon, taken, sequestered, or applied toward paying the debts or liabilities of the district or intermediate district other than for payment of the obligation to which the lien applies. However, nothing in this subsection alters the ability of the state treasurer to withhold state school aid from a district or intermediate district as provided by law.

(5) Notwithstanding the payment dates prescribed by this article for distributions under this article, the state treasurer may advance all or part of a payment that is dedicated for distribution or for which the appropriation authorizing the payment has been made if and to the extent, under the terms of an agreement entered into by a district or intermediate district and the Michigan finance authority, the payment that the district or intermediate district is eligible to receive has been assigned to or pledged for payment of an obligation it incurred with the Michigan finance authority.

(6) This section does not require the state to make an appropriation to any school district or intermediate school district and shall not be construed as creating an indebtedness of the state, and any agreement made pursuant to this section shall contain a statement to that effect.

(7) As used in this section, "trustee of a pooled arrangement" means the trustee of a trust approved by the state treasurer and, subject to the conditions and requirements of that approval, established for the purpose of offering for sale, as part of a pooled arrangement, certificates representing undivided interests in notes issued by districts or intermediate districts under section 1225 of the revised school code, MCL 380.1225.

(8) If a trustee applies to the state treasurer for approval of a trust for the purposes of this section, the state treasurer shall approve or disapprove the trust within 10 days after receipt of the application.

(9) An allocation to a district or intermediate district under this article is contingent upon the district's or intermediate district's compliance with this section.

The department may make adjustments in payments made under this section through additional payments when changes in law or errors in computation cause the regularly scheduled payment to be less than the amount to which the district or intermediate district is entitled pursuant to this act.

(3) Except as otherwise provided in this act, grant payments to districts and intermediate districts under this act shall be paid according to the installment schedule under subsection (1).

(4) Upon the written request of a district or intermediate district and the submission of proof satisfactory to the department of a need of a temporary and nonrecurring nature, the superintendent, with the written concurrence of the state treasurer and the state budget director, may authorize an advance release of funds due a district or intermediate district under this act. An advance authorized under this subsection shall not cause funds to be paid to a district or intermediate district more than 30 days earlier than the established payment date for those funds.

(a) The department shall require that each district and intermediate district have an audit of the district's or intermediate district's financial and pupil accounting records conducted at least annually, and at such other times as determined by the department, at the expense of the district or intermediate district, as applicable. The audits must be performed by a certified public accountant or by the intermediate district superintendent, as may be required by the department, or in the case of a district of the first class by a certified public accountant, the intermediate superintendent, or the auditor general of the city. A district or intermediate district shall retain these records for the current fiscal year and from at least the 3 immediately preceding fiscal years.

(b) If a district operates in a single building with fewer than 700 full-time equated pupils, if the district has stable membership, and if the error rate of the immediately preceding 2 pupil accounting field audits of the district is less than 2%, the district may have a pupil accounting field audit conducted biennially but must continue to have desk audits for each pupil count. (8) The department shall review its pupil accounting and pupil auditing manuals at least annually and shall periodically update those manuals to reflect changes in this article. Any changes to the pupil accounting manual that are applicable for the school year that begins after March 31 of a fiscal year must be published by not later than March 31 of that fiscal year. However, if legislation is enacted that necessitates adjustments to the pupil accounting manual after March 31 of a fiscal year, and a district incurs a violation of the amended pupil accounting manual in the subsequent fiscal year, the department must notify the district of that violation and allow the district 30 days to correct the violation before the department is allowed to impose financial penalties under this act related to the violation.

(9) If a district that is a public school academy purchases property using money received under this article, the public school academy shall retain ownership of the property unless the public school academy sells the property at fair market value.

(10) If a district or intermediate district does not comply with subsections (4), (5), (6), (7), and (12), or if the department determines that the financial data required under subsection (5) are not consistent with audited financial statements, the department shall withhold all state school aid due to the district or intermediate district under this article, beginning with the next payment due to the district or intermediate district, until the district or intermediate district complies with subsections (4), (5), (6), (7), and (12). The report must include information concerning the operation of virtual learning for the immediately preceding school fiscal year, including information concerning summer programming. Information must be collected in a form and manner determined by the department and must be collected in the most efficient manner possible to reduce the administrative burden on reporting entities.

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district's foundation allowance as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding fiscal year that was equal to the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the target foundation allowance described in subsection (1) for the current fiscal year.

(b) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(c) For a district that had a foundation allowance in the immediately preceding fiscal year that was less than the target foundation allowance in effect for that fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year

ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(d) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district's foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district's foundation allowance. Except as otherwise provided in this subsection, for a district described in subsection (3)(b) and (c), the state portion of the district's foundation allowance is an amount equal to the target foundation allowance minus the district's foundation allowance supplemental payment per pupil calculated under section 20m and minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the foundation allowance of the pupil's district of residence. For a pupil enrolled under section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section is based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section is based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the target foundation allowance specified in subsection (1), or, for a public school academy that was issued a contract under section 552 of the revised school code, MCL 380.552, to operate as a school of excellence that is a cyber school, \$9,150.00. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection must be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation must not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) For pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation is the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this section to the fourth decimal place and shall round the dollar amount of an increase in the target foundation allowance to the

nearest whole dollar.

(10) For 2022-2023, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated as follows:

(a) Twenty-five percent is calculated under section 51a.

(b) Seventy-five percent is calculated under section 51e.

(11) For 2023-2024, state payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51e.

(12) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year, each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for state school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(13) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(14) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

388.1620.amended Target foundation allowance; calculations; allocations; pupil membership factor, revenue adjustment factor, and index; reduced foundation allowance or per-pupil payment calculation; definitions.

Sec. 20. (1) For 2024-2025, the target foundation allowance is \$9,608.00.

(2) The department shall calculate the amount of each district's foundation allowance as provided in this section, using a target foundation allowance in the amount specified in subsection (1).

(3) Except as otherwise provided in this section, the department shall calculate the amount of a district's foundation allowance as follows, using in all calculations the total amount of the district's foundation allowance as calculated before any proration:

(a) For a district that had a foundation allowance for the immediately preceding fiscal year that was equal to the target foundation allowance for the immediately preceding fiscal year, the district receives a foundation allowance in an amount equal to the target foundation allowance described in subsection (1) for the current fiscal year.

(b) For a district that had a foundation allowance for the immediately preceding fiscal year that was greater than the target foundation allowance for the immediately preceding fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of the district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(c) For a district that had a foundation allowance in the immediately preceding fiscal year that was less than the target foundation allowance in effect for that fiscal year, the district's foundation allowance is an amount equal to the lesser of (the sum of district's foundation allowance for the immediately preceding fiscal year plus any per pupil amount calculated under section 20m(2) in the immediately preceding fiscal year plus the increase in the target foundation allowance for the current fiscal year, as compared to the immediately preceding fiscal year) or (the product of the district's foundation allowance for the immediately preceding fiscal year times the percentage increase in the United States Consumer Price Index in the calendar year ending in the immediately preceding fiscal year as reported by the May revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b).

(d) For a district that has a foundation allowance that is not a whole dollar amount, the department shall round the district's foundation allowance up to the nearest whole dollar.

(4) Except as otherwise provided in this subsection, the state portion of a district's foundation allowance is an amount equal to the district's foundation allowance or the target foundation allowance for the current fiscal year, whichever is less, minus the local portion of the district's foundation allowance. Except as otherwise provided in this subsection, for a district described in subsection (3)(b) and (c), the state portion of the district's foundation allowance is an amount equal to the target foundation allowance minus the district's foundation allowance supplemental payment per pupil calculated under section 20m and minus the local portion of the district's foundation allowance. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes continue to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, the taxable value per membership pupil of property in the receiving district used for the purposes of this subsection does not include the taxable value of property within the geographic area of the dissolved district. For a community district, if school operating taxes continue to be levied by a qualifying school district under section 12b of the revised school code, MCL 380.12b, with the same geographic area as the community district, the taxable value per membership pupil of property in the community district to be used for the purposes of this subsection does not include the taxable value of property within the geographic area of the community district.

(5) The allocation calculated under this section for a pupil is based on the foundation allowance of the pupil's district of residence. For a pupil enrolled under section 105 or 105c in a district other than the pupil's district of residence, the allocation calculated under this section is based on the lesser of the foundation allowance of the pupil's district of residence or the foundation allowance of the educating district. For a pupil in membership in a K-5, K-6, or K-8 district who is enrolled in another district in a grade not offered by the pupil's district of residence, the allocation calculated under this section is based on the foundation allowance of the educating district if the educating district's foundation allowance is greater than the foundation allowance of the pupil's district of residence. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(6) Except as otherwise provided in this subsection, for pupils in membership, other than special education pupils, in a public school academy, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the public school academy equal to the target foundation allowance specified in subsection (1), or, for a public school academy that was issued a contract under section 552 of the revised school code, MCL 380.552, to operate as a school of excellence that is a cyber school, \$9,150.00. Notwithstanding section 101, for a public school academy that begins operations after the pupil membership count day, the amount per membership pupil calculated under this subsection must be adjusted by multiplying that amount per membership pupil by the number of hours of pupil instruction provided by the public school academy after it begins operations, as determined by the department, divided by the minimum number of hours of pupil instruction required under section 101(3). The result of this calculation must not exceed the amount per membership pupil otherwise calculated under this subsection.

(7) For pupils in membership, other than special education pupils, in a community district, the allocation calculated under this section is an amount per membership pupil other than special education pupils in the community district equal to the foundation allowance of the qualifying school district, as described in section 12b of the revised school code, MCL 380.12b, that is located within the same geographic area as the community district.

(8) Subject to subsection (4), for a district that is formed or reconfigured after June 1, 2002 by consolidation of 2 or more districts or by annexation, the resulting district's foundation allowance under this section beginning after the effective date of the consolidation or annexation is the lesser of the sum of the average of the foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district who reside in the geographic area of each of the original or affected districts plus \$100.00 or the highest foundation allowance among the original or affected districts. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district. The calculation under this subsection must take into account a district's per-pupil allocation under section 20m.

(9) The department shall round each fraction used in making calculations under this section to the fourth decimal place and shall round the dollar amount of an increase in the target foundation allowance to the nearest whole dollar.

(10) State payments related to payment of the foundation allowance for a special education pupil are not calculated under this section but are instead calculated under section 51e.

(11) To assist the legislature in determining the target foundation allowance for the subsequent fiscal year,

each revenue estimating conference conducted under section 367b of the management and budget act, 1984 PA 431, MCL 18.1367b, must calculate a pupil membership factor, a revenue adjustment factor, and an index as follows:

(a) The pupil membership factor is computed by dividing the estimated membership in the school year ending in the current fiscal year, excluding intermediate district membership, by the estimated membership for the school year ending in the subsequent fiscal year, excluding intermediate district membership. If a consensus membership factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(b) The revenue adjustment factor is computed by dividing the sum of the estimated total state school aid fund revenue for the subsequent fiscal year plus the estimated total state school aid fund revenue for the current fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund and excluding money transferred into that fund from the countercyclical budget and economic stabilization fund under the management and budget act, 1984 PA 431, MCL 18.1101 to 18.1594, by the sum of the estimated total school aid fund revenue for the current fiscal year plus the estimated total state school aid fund revenue for the immediately preceding fiscal year, adjusted for any change in the rate or base of a tax the proceeds of which are deposited in that fund. If a consensus revenue factor is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(c) The index is calculated by multiplying the pupil membership factor by the revenue adjustment factor. If a consensus index is not determined at the revenue estimating conference, the principals of the revenue estimating conference shall report their estimates to the house and senate subcommittees responsible for state school aid appropriations not later than 7 days after the conclusion of the revenue conference.

(12) Payments to districts and public school academies are not made under this section. Rather, the calculations under this section are used to determine the amount of state payments under section 22b.

(13) If an amendment to section 2 of article VIII of the state constitution of 1963 allowing state aid to some or all nonpublic schools is approved by the voters of this state, each foundation allowance or per-pupil payment calculation under this section may be reduced.

388.1620d.amended Requirements for final determination under MCL 388.1620 and former section 388.1620a.

Sec. 20d. In making the final determination required under former section 20a of a district's combined state and local revenue per membership pupil in 1993-94 and in making calculations under section 20 for 2024-2025, the department and the department of treasury shall comply with all of the following:

388.1620f Allocations; eligibility for funding; amount; proration of payments.

Sec. 20f. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$27,000,000.00 for 2023-2024 only for payments to eligible districts under this section. It is the intent of the legislature that an amount not to exceed \$18,000,000.00 is used in 2023-2024, an amount not to

exceed \$9,000,000.00 is used in 2024-2025, and \$0.00 is used in 2025-2026.

(2) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the district received a payment under this section as it was in effect for 2013-2014. A district was eligible for funding in 2013-2014 if the sum of the following was less than \$5.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2012-2013 to 2013-2014.

(b) The district's equity payment per membership pupil under former section 22c for 2013-2014.

(c) The quotient of the district's allocation under section 147a for 2012-2013 divided by the district's membership pupils for 2012-2013 minus the quotient of the district's allocation under section 147a for 2013-2014 divided by the district's membership pupils for 2013-2014.

(3) The amount allocated to each eligible district under subsection (2) is an amount per membership pupil equal to the amount per membership pupil the district received under this section in 2013-2014. It is the intent of the legislature that a district's allocation under subsection (2) for 2024-2025 is half of the allocation as otherwise calculated.

(4) The funding under this subsection is from the allocation under subsection (1). A district is eligible for funding under this subsection if the sum of the following is less than \$25.00:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(5) It is the intent of the legislature that a district's allocation under subsection (4) for 2024-2025 is half of the allocation as otherwise calculated. The amount allocated to each eligible district under subsection (4) is an amount per membership pupil equal to \$25.00 minus the sum of the following:

(a) The increase in the district's foundation allowance or per-pupil payment as calculated under section 20 from 2014-2015 to 2015-2016.

(b) The decrease in the district's best practices per-pupil funding under former section 22f from 2014-2015 to 2015-2016.

(c) The decrease in the district's pupil performance per-pupil funding under former section 22j from 2014-2015 to 2015-2016.

(d) The quotient of the district's allocation under section 31a for 2015-2016 divided by the district's membership pupils for 2015-2016 minus the quotient of the district's allocation under section 31a for 2014-2015 divided by the district's membership pupils for 2014-2015.

(6) If the allocation under subsection (1) is insufficient to fully fund payments under subsections (3) and (5) as otherwise calculated under this section, the department shall prorate payments under this section on an equal per-pupil basis.

(7) The funds allocated under this section for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue payments to districts eligible for funding under this section. The estimated completion date of the work project described in this subsection is September 30, 2025.

Compiler's note: The repealed sections pertained to foundation allowance supplemental payments and reduction in district's state school aid.

388.1620m Foundation allowance supplemental payments; per-pupil allocation; calculations; "qualifying district" defined.

Sec. 20m. (1) Foundation allowance supplemental payments for the current fiscal year to qualifying districts with an adjustment to their foundation allowance from fiscal year 2020-2021 to the current fiscal year that is less than the adjustment in the target foundation allowance from fiscal year 2020-2021 to the current fiscal year must be calculated under this section.

(2) The per-pupil allocation to each qualifying district under this section is the difference between the dollar amount of the adjustment from fiscal year 2020-2021 to the current fiscal year in the target foundation allowance minus the dollar amount of the adjustment from fiscal year 2020-2021 to the current fiscal year in a qualifying district's foundation allowance.

(3) If a district's local revenue per pupil does not exceed the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section is the product of the per-pupil allocation under subsection (2) multiplied by the district's membership, excluding special education pupils. If a district's local revenue per pupil exceeds its foundation allowance under section 20 but does not exceed the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), the total payment to the district calculated under this section is the product of the difference between the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2) minus the local revenue per pupil multiplied by the district's membership, excluding special education pupils. If a district's local revenue per pupil exceeds the sum of its foundation allowance under section 20 plus the per-pupil allocation under subsection (2), there is no payment calculated under this section for the district.

(4) Payments to districts must not be made under this section. Rather, the calculations under this section are used to determine the amount of state payments that are made under section 22b.

(5) As used in this section, "qualifying district" means a district where the millage limitation in section 1211(3) of the revised school code, MCL 380.1211, is applied due to the increase in the target foundation allowance from the immediately preceding fiscal year to the current fiscal year exceeding the percentage increase in the general price level in the immediately preceding calendar year applied to the district's immediately preceding fiscal year foundation allowance.

(2) A district is not required to pay transportation costs, parking costs, or activity fees on behalf of an eligible student for attendance at an eligible postsecondary institution as described in subsection (1).

(3) A district may pay more money to an eligible postsecondary institution on behalf of an eligible student than required under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and may use local school operating revenue for that purpose. An eligible student is responsible for payment of the remainder of the costs associated with his or her postsecondary enrollment that exceed the amount the district is required to pay under the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or the career and technical preparation act, 2000 PA 258, MCL 388.1901 to 388.1913, and that are not paid by the district. As used in this subsection, "local school operating revenue" means that term as defined in section 22b.

(4) As used in this section, "eligible student" and "eligible postsecondary institution" mean those terms as

defined in section 3 of the postsecondary enrollment options act, 1996 PA 160, MCL 388.511 to 388.524, or in section 3 of the career and technical preparation act, 2000 PA 258, MCL 388.1903, as applicable.

388.1621f Virtual courses; primary district; requirements; denial of enrollment; appeal; rights and access to technology; definitions.

Sec. 21f. (1) A primary district shall enroll an eligible pupil in virtual courses in accordance with the provisions of this section. A primary district shall not offer a virtual course to an eligible pupil unless the virtual course is published in the primary district's catalog of board-approved courses or in the statewide catalog of virtual courses maintained by the Michigan Virtual University pursuant to section 98. The primary district shall also provide on its publicly accessible website a link to the statewide catalog of virtual courses maintained by the Michigan Virtual University. Unless the pupil is at least age 18 or is an emancipated minor, a pupil must not be enrolled in a course that meets virtually for more than 15 days in a school year without the consent of the pupil's parent or legal guardian.

(2) Subject to subsection (3), a primary district shall enroll an eligible pupil in up to 2 virtual courses as requested by the pupil during an academic term, semester, or trimester.

(3) A pupil may be enrolled in more than 2 virtual courses in a specific academic term, semester, or trimester if both of the following conditions are met:

(a) The primary district has determined that it is in the best interest of the pupil.

(b) The pupil agrees with the recommendation of the primary district.

(4) If the number of applicants eligible for acceptance in a virtual course does not exceed the capacity of the provider to provide the virtual course, the provider shall accept for enrollment all of the applicants eligible for acceptance. If the number of applicants exceeds the provider's capacity to provide the virtual course, the provider shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders. A primary district that is also a provider shall determine whether or not it has the capacity to accept applications for enrollment from nonresident applicants in virtual courses and may use that limit as the reason for refusal to enroll a nonresident applicant.

(5) A primary district may not establish additional requirements beyond those specified in this subsection that would prohibit a pupil from taking a virtual course. A pupil's primary district may deny the pupil enrollment in a virtual course if any of the following apply, as determined by the district:

(a) The pupil is enrolled in any of grades K to 5.

(b) The pupil has previously gained the credits that would be provided from the completion of the virtual course.

(c) The virtual course is not capable of generating academic credit.

(d) The virtual course is inconsistent with the remaining graduation requirements or career interests of the pupil.

(e) The pupil has not completed the prerequisite coursework for the requested virtual course or has not demonstrated proficiency in the prerequisite course content.

(f) The pupil has failed a previous virtual course in the same subject during the 2 most recent academic years.

(g) The virtual course is of insufficient quality or rigor. A primary district that denies a pupil enrollment request for this reason shall enroll the pupil in a virtual course in the same or a similar subject that the primary district determines is of acceptable rigor and quality.

(h) The cost of the virtual course exceeds the amount identified in subsection (10), unless the pupil or the pupil's parent or legal guardian agrees to pay the cost that exceeds this amount.

(i) The request for a virtual course enrollment did not occur within the same timelines established by the primary district for enrollment and schedule changes for regular courses.

(j) The request for a virtual course enrollment was not made in the academic term, semester, trimester, or summer preceding the enrollment. This subdivision does not apply to a request made by a pupil who is newly enrolled in the primary district.

(6) If a pupil is denied enrollment in a virtual course by the pupil's primary district, the primary district shall provide written notification to the pupil of the denial, the reason or reasons for the denial under subsection (5), and a description of the appeal process. The pupil may appeal the denial by submitting a letter to the superintendent of the intermediate district in which the pupil's primary district is located. The letter of appeal must include the reason provided by the primary district for not enrolling the pupil and the reason why the pupil is claiming that the enrollment should be approved. The intermediate district superintendent or designee shall respond to the appeal within 5 days after it is received. If the intermediate district superintendent or designee determines that the denial of enrollment does not meet 1 or more of the reasons specified in subsection (5), the primary district shall enroll the pupil in the virtual course.

(7) To provide a virtual course to an eligible pupil under this section, a provider must do all of the following:

(a) Ensure that the virtual course has been published in the pupil's primary district's catalog of board-approved courses or published in the statewide catalog of virtual courses maintained by the Michigan Virtual University.

(b) Assign to each pupil a teacher of record and provide the primary district with the personnel identification code assigned by the center for the teacher of record. If the provider is a community college, the virtual course must be taught by an instructor employed by or contracted through the providing community college.

(c) Offer the virtual course on an open entry and exit method, or aligned to a semester, trimester, or accelerated academic term format.

(d) If the virtual course is offered to eligible pupils in more than 1 district, the following additional requirements must also be met:

(i) Provide the Michigan Virtual University with a course syllabus that meets the definition under subsection (14)(g) in a form and manner prescribed by the Michigan Virtual University for inclusion in a statewide catalog of virtual courses.

(ii) Not later than October 1 of each fiscal year, provide the Michigan Virtual University with an aggregated count of enrollments for each virtual course the provider delivered to pupils under this section during the immediately preceding school year, and the number of enrollments in which the pupil earned 60% or more of the total course points for each virtual course.

(8) To provide a virtual course under this section, a community college shall ensure that each virtual course it provides under this section generates postsecondary credit.

(9) For any virtual course a pupil enrolls in under this section, the pupil's primary district must assign to the pupil a mentor and shall supply the provider with the mentor's contact information.

(10) For a pupil enrolled in 1 or more virtual courses, the primary district shall use foundation allowance or per-pupil funds calculated under section 20 to pay for the expenses associated with the virtual course or courses. A primary district is not required to pay toward the cost of a virtual course an amount that exceeds 6.67% of the target foundation allowance for the current fiscal year as calculated under section 20.

(11) A virtual learning pupil has the same rights and access to technology in the pupil's primary district's school facilities as all other pupils enrolled in the pupil's primary district. The department shall establish standards for hardware, software, and internet access for pupils who are enrolled in more than 2 virtual courses under this section in an academic term, semester, or trimester taken at a location other than a school facility.

(12) If a pupil successfully completes a virtual course, as determined by the pupil's primary district, the pupil's primary district shall grant appropriate academic credit for completion of the course and shall count that credit toward completion of graduation and subject area requirements. A pupil's school record and transcript must identify the virtual course title as it appears in the virtual course syllabus.

(13) The enrollment of a pupil in 1 or more virtual courses must not result in a pupil being counted as more than 1.0 full-time equivalent pupils under this article. The minimum requirements to count the pupil in membership are those established by the pupil accounting manual as it was in effect for the 2015-2016 school year or as subsequently amended by the department if the department notifies the legislature about the proposed amendment at least 60 days before the amendment becomes effective.

(14) Subject to the requirements in this subsection, a district may provide instruction under this section for not more than 15 days in a school year. If a district plans to provide instruction under this section to pupils for not more than 15 days during a school year, the district's plan must be approved by the board of the district and the district must provide notice of the plan to impacted pupils and their parents or legal guardians before enactment of the plan. Days of instruction under this subsection may only be used for the following purposes, as defined by the department:

- (a) Emergency closures.
- (b) Student testing days.
- (c) Professional development purposes, not to exceed a total of 30 hours during a school year.

(15) As used in this section:

(a) "Instructor" means an individual who is employed by or contracted through a community college.

(b) "Mentor" means a professional employee of the primary district who monitors the pupil's progress, ensures the pupil has access to needed technology, is available for assistance, and ensures access to the teacher of record. A mentor may also serve as the teacher of record if the primary district is the provider for the virtual course and the mentor meets the requirements under subdivision (e).

(c) "Primary district" means the district that enrolls the pupil and reports the pupil for pupil membership purposes.

(d) "Provider" means the district, intermediate district, community college, or other third-party vendor that the primary district pays to provide the virtual course or the Michigan Virtual University if it is providing the virtual course.

(e) "Teacher of record" means a teacher who meets all of the following:

(i) Is appropriately placed under a valid Michigan teaching certificate or a teaching permit, authorization, or approval issued by the department. As used in this subparagraph, "appropriately placed" means holding a valid Michigan educator credential with the required grade range and discipline or subject area for the assignment, as defined by the superintendent of public instruction.

(ii) Is responsible for providing instruction, determining instructional methods for each pupil, diagnosing learning needs, assessing pupil learning, prescribing intervention strategies and modifying lessons, reporting outcomes, and evaluating the effects of instruction and support strategies.

(iii) Has a personnel identification code provided by the center.

(iv) If the provider is a community college, is an instructor employed by or contracted through the providing community college.

(f) "Virtual course" means a course of study that is capable of generating a credit or a grade and that is provided in an interactive learning environment where any portion of the curriculum is delivered using the internet and in which pupils may be separated from their instructor or teacher of record by time or location, or both.

(g) "Virtual course syllabus" means a document that includes all of the following:

(i) An alignment document detailing how the course meets applicable state standards or, if the state does not have state standards, nationally recognized standards.

(ii) The virtual course content outline.

(iii) The virtual course required assessments.

(iv) The virtual course prerequisites.

(v) Expectations for actual instructor or teacher of record contact time with the virtual learning pupil and other communications between a pupil and the instructor or teacher of record.

(vi) Academic support available to the virtual learning pupil.

(vii) The virtual course learning outcomes and objectives.

(viii) The name of the institution or organization providing the virtual content.

(ix) The name of the institution or organization providing the instructor or teacher of record.

(x) The course titles assigned by the provider and the course titles and course codes from the National Center for Education Statistics (NCES) school codes for the exchange of data (SCED).

(xi) The number of eligible pupils that will be accepted by the provider in the virtual course. A primary district that is also the provider may limit the enrollment to those pupils enrolled in the primary district.

(xii) The results of the virtual course quality review using the guidelines and model review process published by the Michigan Virtual University.

(h) "Virtual learning pupil" means a pupil enrolled in 1 or more virtual courses.

388.1622a Allocation for school operating purposes; proposal A payments to districts and qualifying public school academies; calculations; definitions.

Sec. 22a. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$4,144,000,000.00 for 2023-2024 and there is allocated an amount not to exceed \$3,993,000,000.00 for 2024-2025 for payments to districts and qualifying public school academies to guarantee each district and qualifying public school academy an amount equal to its 1994-95 total state and local per-pupil revenue for school operating purposes under section 11 of article IX of the state constitution of 1963. Pursuant to section 11 of article IX of the state constitution of 1963, this guarantee does not apply to a district in a year in which the district levies a millage rate for school district operating purposes less than it levied in 1994. However, subsection (2) applies to calculating the payments under this section. Funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22b and 51c to fully fund those allocations for the same fiscal year.

(2) To ensure that a district receives an amount equal to the district's 1994-95 total state and local per-pupil revenue for school operating purposes, there is allocated to each district a state portion of the district's 1994-95 foundation allowance in an amount calculated as follows:

(a) Except as otherwise provided in this subsection, the state portion of a district's 1994-95 foundation allowance is an amount equal to the district's 1994-95 foundation allowance or \$6,500.00, whichever is less, minus the difference between the sum of the product of the taxable value per membership pupil of all property in the district that is nonexempt property times the district's certified mills and, for a district with certified mills exceeding 12, the product of the taxable value per membership pupil of property in the district that is commercial personal property times the certified mills minus 12 mills and the quotient of the ad valorem property tax revenue of the district captured under tax increment financing acts divided by the district's membership. For a district that has a millage reduction required under section 31 of article IX of the state constitution of 1963, the department shall calculate the state portion of the district's foundation allowance as if that reduction did not occur. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, taxable value per membership pupil of all property in the receiving district that is nonexempt property and taxable value per membership pupil of property in the receiving district that is commercial personal property do not include property within the geographic area of the dissolved district; ad valorem property tax revenue of the receiving district captured under tax increment financing acts does not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts; and certified mills do not include the certified mills of the dissolved district. For a community district, the department shall reduce the allocation as otherwise calculated under this section by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and the amount of this reduction is offset by the increase in funding under section 22b(2).

(b) For a district that had a 1994-95 foundation allowance greater than \$6,500.00, the state payment under this subsection is the sum of the amount calculated under subdivision (a) plus the amount calculated under this subdivision. The amount calculated under this subdivision must be equal to the difference between the district's 1994-95 foundation allowance minus \$6,500.00 and the current year hold harmless school operating taxes per pupil. If the result of the calculation under subdivision (a) is negative, the negative amount is an offset against any state payment calculated under this subdivision. If the result of a calculation under this subdivision is negative, there is not a state payment or a deduction under this subdivision. The taxable values per membership pupil used in the calculations under this subdivision are as adjusted by ad valorem property tax revenue captured under tax increment financing acts divided by the district's membership. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in

whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, ad valorem property tax revenue captured under tax increment financing acts do not include ad valorem property tax revenue captured within the geographic boundaries of the dissolved district under tax increment financing acts.

(3) For pupils in membership in a qualifying public school academy, there is allocated under this section to the authorizing body that is the fiscal agent for the qualifying public school academy for forwarding to the qualifying public school academy an amount equal to the 1994-95 per-pupil payment to the qualifying public school academy under section 20.

(4) A district or qualifying public school academy may use funds allocated under this section in conjunction with any federal funds for which the district or qualifying public school academy otherwise would be eligible.

(5) Except as otherwise provided in this subsection, for a district that is formed or reconfigured after June 1, 2000 by consolidation of 2 or more districts or by annexation, the resulting district's 1994-95 foundation allowance under this section beginning after the effective date of the consolidation or annexation is the average of the 1994-95 foundation allowances of each of the original or affected districts, calculated as provided in this section, weighted as to the percentage of pupils in total membership in the resulting district in the fiscal year in which the consolidation takes place who reside in the geographic area of each of the original districts. If an affected district's 1994-95 foundation allowance is less than the 1994-95 basic foundation allowance, the amount of that district's 1994-95 foundation allowance is considered for the purpose of calculations under this subsection to be equal to the amount of the 1994-95 basic foundation allowance. This subsection does not apply to a receiving district unless there is a subsequent consolidation or annexation that affects the district.

(6) Payments under this section are subject to section 25g.

Sec. 22b. (1) Except as otherwise provided in this section, for discretionary nonmandated payments to districts under this section, there is allocated for 2023-2024 an amount not to exceed \$6,219,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$72,000,000.00 from the community district education trust fund appropriation in section 11, and there is allocated for 2024-2025 an amount not to exceed \$6,213,000,000.00 from the state school aid fund and general fund appropriations in section 11 and an amount not to exceed \$41,000,000.00 from the community district education trust fund appropriation in section 11. For 2023-2024, \$33,700,000.00 must be deposited from the general fund into the state school aid fund to reimburse the state school aid fund for community district education trust fund costs in excess of \$72,000,000.00, as required under section 12 of the Michigan trust fund act, 2000 PA 489, MCL 12.262. For 2024-2025, the amount necessary, estimated at \$70,200,000.00 must be deposited from the general fund into the state school aid fund to reimburse the state school aid fund for community district education trust fund costs in excess of \$41,000,000.00, as required under section 12 of the Michigan trust fund act, 2000 PA 489, MCL 12.262. If the amount allocated under this subsection from the community district education trust fund appropriation under section 11 is insufficient to pay for an increase under this section, any amount exceeding that allocation may be paid from other allocations under this subsection. Except for money allocated under this section from the community district education trust fund appropriation in section 11, funds allocated under this section that are not expended in the fiscal year for which they were allocated, as determined by the department, may be used to supplement the allocations under sections 22a and 51c to fully fund those allocations for the same fiscal year.

(2) Subject to subsection (3) and section 296, the allocation to a district under this section is an amount

equal to the sum of the amounts calculated under sections 20, 20m, 51a(2), 51a(3), 51a(11), and 51e, minus the sum of the allocations to the district under sections 22a and 51c. For a community district, the allocation as otherwise calculated under this section is increased by an amount equal to the amount of local school operating tax revenue that would otherwise be due to the community district if not for the operation of section 386 of the revised school code, MCL 380.386, and this increase must be paid from the community district education trust fund allocation in subsection (1) to offset the absence of local school operating revenue in a community district in the funding of the state portion of the foundation allowance under section 20(4).

(3) To receive an allocation under subsection (1), each district must do all of the following:

(a) Comply with section 1280b of the revised school code, MCL 380.1280b.

(b) Comply with sections 1278a and 1278b of the revised school code, MCL 380.1278a and 380.1278b.

(c) Furnish data and other information required by state and federal law to the center and the department in the form and manner specified by the center or the department, as applicable.

(d) Comply with section 1230g of the revised school code, MCL 380.1230g.

(e) Comply with section 21f.

(f) For a district that has entered into a partnership agreement with the department, comply with section 22p.

(4) Districts are encouraged to use funds allocated under this section for the purchase and support of payroll, human resources, and other business function software that is compatible with that of the intermediate district in which the district is located and with other districts located within that intermediate district.

(5) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state related to commercial or industrial property tax appeals, including, but not limited to, appeals of classification, that impact revenues dedicated to the state school aid fund.

(6) From the allocation in subsection (1), the department shall pay up to \$1,000,000.00 in litigation costs incurred by this state associated with lawsuits filed by 1 or more districts or intermediate districts against this state. If the allocation under this section is insufficient to fully fund all payments required under this section, the payments under this subsection must be made in full before any proration of remaining payments under this section.

(7) It is the intent of the legislature that all constitutional obligations of this state have been fully funded under sections 22a, 31d, 51a, 51c, 51e, and 152a. If a claim is made by an entity receiving funds under this article that challenges the legislative determination of the adequacy of this funding or alleges that there exists an unfunded constitutional requirement, the state budget director may escrow or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the claim before making any payments to districts under subsection (2). If funds are escrowed, the escrowed funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of litigation. The work project is completed upon resolution of the litigation.

(8) If the local claims review board or a court of competent jurisdiction makes a final determination that this state is in violation of section 29 of article IX of the state constitution of 1963 regarding state payments to districts, the state budget director shall use work project funds under subsection (7) or allocate from the discretionary funds for nonmandated payments under this section the amount as may be necessary to satisfy the amount owed to districts before making any payments to districts under subsection (2).

(9) If a claim is made in court that challenges the legislative determination of the adequacy of funding for this state's constitutional obligations or alleges that there exists an unfunded constitutional requirement, any interested party may seek an expedited review of the claim by the local claims review board. If the claim exceeds \$10,000,000.00, this state may remove the action to the court of appeals, and the court of appeals has and shall exercise jurisdiction over the claim.

(10) If payments resulting from a final determination by the local claims review board or a court of competent jurisdiction that there has been a violation of section 29 of article IX of the state constitution of 1963 exceed the amount allocated for discretionary nonmandated payments under this section, the legislature shall provide for adequate funding for this state's constitutional obligations at its next legislative session.

(11) If a lawsuit challenging payments made to districts related to costs reimbursed by federal title XIX Medicaid funds is filed against this state, then, for the purpose of addressing potential liability under such a lawsuit, the state budget director may place funds allocated under this section in escrow or allocate money from the funds otherwise allocated under this section, up to a maximum of 50% of the amount allocated in subsection (1). If funds are placed in escrow under this subsection, those funds are a work project appropriation and the funds are carried forward into the following fiscal year. The purpose of the work project is to provide for any payments that may be awarded to districts as a result of the litigation. The work project is completed upon resolution of the litigation. In addition, this state reserves the right to terminate future federal

title XIX Medicaid reimbursement payments to districts if the amount or allocation of reimbursed funds is challenged in the lawsuit. As used in this subsection, "title XIX" means title XIX of the social security act, 42 USC 1396 to 1396w-6.

(12) As used in this section:

(a) "Dissolved district" means that term as defined in section 20.

(b) "Local school operating revenue" means school operating taxes levied under section 1211 of the revised school code, MCL 380.1211. For a receiving district, if school operating taxes are to be levied on behalf of a dissolved district that has been attached in whole or in part to the receiving district to satisfy debt obligations of the dissolved district under section 12 of the revised school code, MCL 380.12, local school operating revenue does not include school operating taxes levied within the geographic area of the dissolved district.

(c) "Receiving district" and "school operating taxes" mean those terms as defined in section 20.

The amount of the payment under this section to a district or intermediate district is calculated as prescribed under subsection (2).

(2) The department shall allocate the total amount allocated under this section by paying to the educating district or intermediate district an amount equal to the lesser of the district's or intermediate district's added cost or the department's approved per-pupil allocation for the district or intermediate district. Added cost is computed by deducting all other revenue received under this article for pupils described in this section from total costs, as approved by the department, in whole or in part, for educating those pupils in the on-grounds education program or in a program approved by the department that is located on property adjacent to a juvenile detention facility or child caring institution. Costs reimbursed by federal funds are not included.

(b) "Department's approved per-pupil allocation" for a district or intermediate district is determined by dividing the total amount allocated under this section for a fiscal year by the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the district or intermediate district.

(3) A district or intermediate district educating pupils described in this section at a residential child caring institution may operate, and receive funding under this section for, a department-approved on-grounds

"(3) Special education pupils funded under section 53 shall not be counted under this section."

In his veto message relative to Enrolled House Bill 4572, which became Act 118 of 1991, the governor stated that "the tradition of not re-enacting annually the unchanged appropriation sections of the school aid act is constitutionally flawed. It assumes the invalid creation of a continuing appropriation. Therefore, the following sections of the school aid act and their associated allocations must be considered inoperative: 24, 55, 74, 75, 105a, 111, and 116. These sections will be treated as excluded from the current bill... "

In subsection (2), as amended by Act 297 of 2000, the last sentence "In addition, a district or intermediate district that received funds under this subsection for 1998-99 for an on-grounds educational program that is longer than 181 days but not longer than 233 days shall

continue to receive funds under this section for subsequent fiscal years for that program” was vetoed by the governor July 26, 2000.

In the first and second sentences of subsection (1), as amended by Act 121 of 2001, the phrases “and for 2002-2003” and “and \$8,900,000.00 for 2002-2003” were vetoed by the governor September 28, 2001.

Enacting section 3 of Act 521 of 2002 provides:

Sec. 25e. (1) The pupil membership transfer application and pupil transfer process administered by the center under this section is used for processing pupil transfers.

(2) If a pupil counted in membership for the pupil membership count day transfers from a district or intermediate district to enroll in another district or intermediate district after the pupil membership count day and before the supplemental count day and, due to the pupil's enrollment and attendance status as of the pupil membership count day, the pupil was not counted in membership in the educating district or intermediate district, the educating district or intermediate district may report the enrollment and attendance information to the center through the pupil transfer process within 30 days after the transfer or within 30 days after the pupil membership count certification date, whichever is later. Pupil transfers may be submitted no earlier than the first day after the certification deadline for the pupil membership count day and before the supplemental count day. (a) Notify the district in which the pupil was previously enrolled.

(b) Notify both the pupil auditing staff of the intermediate district in which the educating district is located and the pupil auditing staff of the intermediate district in which the district that previously enrolled the pupil is located. The pupil auditing staff shall investigate a representative sample based on required audit sample sizes in the pupil auditing manual and may deny the pupil membership transfer.

(c) Aggregate the districtwide changes and notify the department for use in adjusting the state aid payment system.

(3) The department shall do all of the following:

(a) Adjust the membership calculation for each district or intermediate district in which the pupil was previously counted in membership or that previously received an adjustment in its membership calculation under this section due to a change in the pupil's enrollment and attendance so that the district's or intermediate district's membership is prorated to allow the district or intermediate district to receive for each school day, as determined by the financial calendar furnished by the center, in which the pupil was enrolled and in attendance in the district or intermediate district an amount equal to 1/105 of a full-time equated membership claimed in the fall pupil membership count. The department shall pay the district or intermediate district a prorated foundation allowance in an amount equal to the product of the adjustment under this subdivision for the district or intermediate district multiplied by the foundation allowance or per-pupil payment as calculated under section 20 for the district or intermediate district. The foundation allowance or per-pupil payment is

adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(b) Adjust the membership calculation for the educating district or intermediate district in which the pupil is enrolled and is in attendance so that the district's or intermediate district's membership is increased to allow the district or intermediate district to receive an amount equal to the difference between the full-time equated membership claimed in the fall pupil membership count and the sum of the adjustments calculated under subdivision (a) for each district or intermediate district in which the pupil was previously enrolled and in attendance. The department shall pay the educating district or intermediate district a prorated foundation allowance in an amount equal to the product of the adjustment under this subdivision for the educating district or intermediate district multiplied by the per-pupil payment as calculated under section 20 for the educating district or intermediate district. The foundation allowance or per-pupil payment is adjusted by the pupil's full-time equated status as affected by the membership definition under section 6(4).

(4) The changes in calculation of state school aid required under subsection (3) take effect as of the date that the pupil becomes enrolled and in attendance in the educating district or intermediate district, and the department shall base all subsequent payments under this article for the fiscal year to the affected districts or intermediate districts on this recalculation of state school aid.

(5) If a pupil enrolls in an educating district or intermediate district as described in subsection (2), the district or intermediate district in which the pupil is counted in membership or another educating district or intermediate district that received an adjustment in its membership calculation under subsection (3), if any, and the educating district or intermediate district shall provide to the center and the department all information they require to comply with this section.

(6) The portion of the full-time equated pupil membership for which a pupil is enrolled in 1 or more online courses under section 21f that is representative of the amount that the primary district paid in course costs to the course provider is not counted or transferred under the pupil transfer process under this section.

(7) The center annually shall provide a report to the senate and house appropriations subcommittees on state school aid, and to the senate and house fiscal agencies, detailing the number of pupils transferring in from outside the public school system of this state and the number of pupils transferring out of the public school system in this state between the pupil membership count day and supplemental count day as described in this subsection.

Sec. 25f. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$1,600,000.00 for 2023-2024 for payments to strict discipline academies and qualified districts, as provided under this section.

(2) In order to receive funding under this section, a strict discipline academy or qualified district must first comply with section 25e and use the pupil transfer process under that section for changes in enrollment as prescribed under that section.

(3) The total amount allocated to a strict discipline academy or qualified district under this section must first be distributed as the lesser of the strict discipline academy's or qualified district's added cost or the department's approved per-pupil allocation for the strict discipline academy or qualified district. Subject to subsection (7), any funds remaining after the first distribution must be distributed by prorating on an equal per-pupil membership basis, not to exceed a strict discipline academy's or qualified district's added cost. However, the sum of the amounts received by a strict discipline academy or qualified district under this section and under section 24 must not exceed the product of the strict discipline academy's or qualified district's per-pupil allocation calculated under section 20 multiplied by the strict discipline academy's or

qualified district's full-time equated membership. The department shall allocate funds to strict discipline academies and qualified districts under this section on a monthly basis.

Added cost must be computed by deducting all other revenue received under this article for pupils described in this subdivision from total costs, as approved by the department, in whole or in part, for educating those pupils in a strict discipline academy or qualified district. The department shall include all costs, including, but not limited to, educational costs, insurance, management fees, technology costs, legal fees, auditing fees, interest, pupil accounting costs, and any other administrative costs necessary to operate the program or to comply with statutory requirements. Costs reimbursed by federal funds are not included.

(b) "Department's approved per-pupil allocation" means, for a strict discipline academy or qualified district, an amount equal to the quotient of the total amount allocated under this section for a fiscal year and the full-time equated membership total for all pupils approved by the department to be funded under this section for that fiscal year for the strict discipline academy or qualified district.

(c) "Qualified district" means a public school academy that is not a strict discipline academy that enrolls individuals who are in the custody of a county juvenile agency to which both of the following are applicable:

Sec. 31a. (1) There is allocated for 2023-2024 an amount not to exceed \$1,035,150,000.00 from the state school aid fund money appropriated in section 11 and an amount not to exceed \$1,500,000.00 from the general fund money appropriated in section 11, and there is allocated for 2024-2025 an amount not to exceed \$1,078,074,000.00 from the state school aid fund money appropriated in section 11 and an amount not to exceed \$1,500,000.00 from the general fund money appropriated in section 11 for payments to eligible districts and eligible public school academies for the purposes of ensuring that pupils are proficient in English language arts by the end of grade 3, that pupils are proficient in mathematics by the end of grade 8, that pupils are attending school regularly, that high school graduates are career and college ready, and for the purposes under subsections (7), (8), (23), and (24).

(2) For a district or public school academy to be eligible to receive funding under this section, other than funding under subsection (7), (8), (23), or (24), the district or public school academy, for grades K to 12, must comply with the requirements under section 1280f of the revised school code, MCL 380.1280f, and must use resources to address early literacy and numeracy, and for at least grades K to 12 or, if the district or public school academy does not operate all of grades K to 12, for all of the grades it operates, must implement a multi-tiered system of supports that is an evidence-based framework that uses data driven problem solving to integrate academic and behavioral instruction and that uses intervention delivered to all pupils in varying intensities based on pupil needs. The multi-tiered system of supports described in this subsection must provide at least all of the following essential components:

- (a) Team-based leadership.
- (b) A tiered delivery system.
- (c) Selection and implementation of instruction, interventions, and supports.
- (d) A comprehensive screening and assessment system.
- (e) Continuous data-based decision making.

(3) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$952,000,000.00, and there is allocated for 2024-2025 an amount not to exceed \$1,034,924,000.00 to continue a weighted foundation per pupil payment for districts and public school academies enrolling economically disadvantaged pupils. The department shall pay under this subsection to each eligible district or eligible public school academy an amount per pupil equal to a percentage calculated under subsection (4) multiplied by the target foundation allowance for the following, as applicable:

(a) Except as otherwise provided under subdivision (b), (c), or (d) the greater of the following:

(i) The number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year.

(ii) If the district or public school academy is in the community eligibility program, the number of pupils determined to be eligible based on the product of the identified student percentage multiplied by the total number of pupils in the district or public school academy, as reported to the center in the form and manner

prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the immediately preceding fiscal year. These calculations must be made at the building level. This subparagraph only applies to an eligible district or eligible public school academy for the fiscal year immediately following the first fiscal year in which it is in the community eligibility program. As used in this subparagraph, "identified student percentage" means the quotient of the number of pupils in an eligible district or eligible public school academy who are determined to be economically disadvantaged, as reported to the center in a form and manner prescribed by the center, not later than the fifth Wednesday after the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program, divided by the total number of pupils counted in an eligible district or eligible public school academy on the pupil membership count day in the fiscal year preceding the first fiscal year in which the eligible district or eligible public school academy is in the community eligibility program.

(b) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the immediately preceding school year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the pupil membership count day of the current fiscal year.

(c) If the district or public school academy began operations as a district or public school academy after the pupil membership count day of the current fiscal year, the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the current fiscal year.

(d) If, for a particular fiscal year, the number of membership pupils in a district or public school academy who are determined under subdivision (a) to be economically disadvantaged or to be eligible based on the identified student percentage varies by more than 20 percentage points from the number of those pupils in the district or public school academy as calculated under subdivision (a) for the immediately preceding fiscal year caused by an egregious reporting error by the district or public school academy, the department may choose to have the calculations under subdivision (a) instead be made using the number of membership pupils in the district or public school academy who are determined to be economically disadvantaged, as reported to the center in the form and manner prescribed by the center not later than the fifth Wednesday after the supplemental count day of the immediately preceding fiscal year.

(4) Each district or public school academy must be assigned an opportunity index score each fiscal year, the value of which is the quotient of the number of economically disadvantaged pupils as determined under subsection (3) for the district or public school academy and the total number of pupils in the district or public school academy in the immediately preceding fiscal year, multiplied by 100 and rounded up to the nearest whole number. Each district or public school academy must be assigned an opportunity index band as follows:

(a) A district or public school academy with an opportunity index score greater than or equal to 0 but less than 20 must be assigned to band 1 and shall receive reimbursement under subsection (3) at a rate of at least 35.0% and less than 36.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 1, multiplied by the band adjustment factor applicable to this subdivision, plus 35.0%.

(b) A district or public school academy with an opportunity index score greater than or equal to 20 but less than 44 must be assigned to band 2 and shall receive reimbursement under subsection (3) at a rate of at least 36.0% and less than 37.5%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 20, multiplied by the band adjustment factor applicable to this subdivision, plus 36.0%.

(c) A district or public school academy with an opportunity index score greater than or equal to 44 but less than 59 must be assigned to band 3 and shall receive reimbursement under subsection (3) at a rate of at least 37.5% and less than 39.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 44, multiplied by the band adjustment factor applicable to this subdivision, plus 37.5%.

(d) A district or public school academy with an opportunity index score greater than or equal to 59 but less than 73 must be assigned to band 4 and shall receive reimbursement under subsection (3) at a rate of at least 39.0% and less than 42.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 59, multiplied by the band adjustment factor applicable to this subdivision, plus 39.0%.

(e) A district or public school academy with an opportunity index score greater than or equal to 73 but less

than 85 must be assigned to band 5 and shall receive reimbursement under subsection (3) at a rate of at least 42.0% and less than 47.0%. The reimbursement rate under this subdivision must be an amount equal to the district's opportunity index score minus 73, multiplied by the band adjustment factor applicable to this subdivision, plus 42.0%.

(f) A district or public school academy with an opportunity index score greater than or equal to 85 must be assigned to band 6 and shall receive reimbursement under subsection (3) at a rate of 47.0%.

(g) As used in this subsection, "band adjustment factor" means an amount equal to the difference between the lowest and highest reimbursement bounds for each band, divided by the number of possible opportunity index scores in that band.

(5) Except as otherwise provided in this section, a district or public school academy receiving funding under this section shall use that money only to provide instructional programs and direct noninstructional services, including, but not limited to, medical, mental health, or counseling services, for at-risk pupils; for school health clinics; and for the purposes of subsection (6), (7), (8), (23), or (24). In addition, a district that is a school district of the first class or a district or public school academy in which at least 50% of the pupils in membership were determined to be economically disadvantaged in the immediately preceding state fiscal year, as determined and reported as described in subsection (3), may use the funds it receives under this section for school security or school parent liaison personnel. The uses of the funds described in the immediately preceding sentence must align to the needs assessment and the multi-tiered system of supports model and, for funds spent on parent liaison personnel, must connect parents to the school community. A district or public school academy shall not use any of the money received under this section for administrative costs. The instruction or direct noninstructional services provided under this section may be conducted before or after regular school hours or by adding extra school days to the school year.

(6) A district or public school academy that receives funds under this section and that operates a school breakfast program under section 1272a of the revised school code, MCL 380.1272a, shall use from the funds received under this section an amount, not to exceed \$10.00 per pupil for whom the district or public school academy receives funds under this section, necessary to pay for costs associated with the operation of the school breakfast program.

(7) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$33,000,000.00, and there is allocated for 2024-2025 an amount not to exceed \$33,000,000.00 to support primary health care services provided to children and adolescents up to age 21. These funds must be expended in a form and manner determined jointly by the department and the department of health and human services. When making funding decisions for new adolescent health centers under this subsection, the department and department of health and human services shall prioritize support for primary health care services in unserved and underserved counties as determined by the department of health and human services. For 2023-2024, an amount not to exceed 4% of the funds allocated for 2023-2024 under this subsection, and for 2024-2025, an amount equal to 4% of the funds allocated for 2024-2025 under this subsection must be made available for technical support and coordination services from a nonprofit organization exclusively dedicated to serving adolescent health centers in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts. As a requirement of being awarded the funds under this subsection as prescribed under this subsection, a nonprofit organization described in this subsection shall make readily available technical support and coordination services to all child and adolescent health centers in this state. Funds appropriated under this subsection for 2023-2024 only are a work project appropriation and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue to improve child and adolescent health center program sites and improve delivery of patient care. The estimated completion date of the work project is September 30, 2025.

(8) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$5,150,000.00 and for 2024-2025 an amount not to exceed \$10,150,000.00 for the state portion of the hearing and vision screenings as described in part 93 of the public health code, 1978 PA 368, MCL 333.9301 to 333.9329, and, from the general fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$1,500,000.00 and for 2024-2025 an amount not to exceed \$1,500,000.00 for the state portion of the dental screenings as described in part 93 of the public health code, 1978 PA 368, MCL 333.9301 to 333.9329. A local public health department shall pay at least 50% of the total cost of the screenings. The frequency of the vision screenings must be as required under R 325.13091 to R 325.13096 of the Michigan Administrative Code and the frequency of the hearing screenings must be as required under R 325.3271 to R 325.3276 of the Michigan Administrative Code. Funds must be awarded in a form and manner approved jointly by the department and the department of health and human services. Notwithstanding section 17b, the department shall make payments to eligible entities under this subsection on

a schedule determined by the department.

(9) Each district or public school academy receiving funds under this section shall submit to the department by July 15 of each fiscal year a report, in the form and manner prescribed by the department, that includes a brief description of each program conducted or services performed by the district or public school academy using funds under this section, the amount of funds under this section allocated to each of those programs or services, the total number of at-risk pupils served by each of those programs or services, and the data necessary for the department and the department of health and human services to verify matching funds for the temporary assistance for needy families program. In prescribing the form and manner of the report, the department shall ensure that districts are allowed to expend funds received under this section on any activities that are permissible under this section. If a district or public school academy does not comply with this subsection, the department shall withhold an amount equal to the August payment due under this section until the district or public school academy complies with this subsection. If the district or public school academy does not comply with this subsection by the end of the fiscal year, the withheld funds are forfeited to the school aid fund.

(10) To receive funds under this section, a district or public school academy must allow access for the department or the department's designee to audit all records related to the program for which it receives those funds. The district or public school academy shall reimburse the state for all disallowances found in the audit.

(11) Subject to subsections (6), (7), (8), (23), and (24), for schools in which more than 40% of pupils are identified as at-risk, a district or public school academy may use the funds it receives under this section to implement tier 1, evidence-based practices in schoolwide reforms that are guided by the district's comprehensive needs assessment and are included in the district improvement plan. Schoolwide reforms must include parent and community supports, activities, and services, that may include the pathways to potential program created by the department of health and human services or the communities in schools program. As used in this subsection, "tier 1, evidence-based practices" means research based instruction and classroom interventions that are available to all learners and effectively meet the needs of most pupils.

(12) A district or public school academy that receives funds under this section may use those funds to provide research based professional development and to implement a coaching model that supports the multi-tiered system of supports framework. Professional development may be provided to district and school leadership and teachers and must be aligned to professional learning standards; integrated into district, school building, and classroom practices; and solely related to the following:

(a) Implementing the multi-tiered system of supports required in subsection (2) with fidelity and utilizing the data from that system to inform curriculum and instruction.

(b) Implementing section 1280f of the revised school code, MCL 380.1280f, as required under subsection (2), with fidelity.

(13) A district or public school academy that receives funds under subsection (3) may use funds received under subsection (3) for support staff providing services to at-risk pupils.

(14) Beginning in 2024-2025, a district or public school academy may use up to 60% of the funds it receives under this section for the following purposes:

(a) Up to 30% to reduce the teacher to pupil ratio in grades K to 3 in schools for which the percentage of pupils in membership who were determined to be economically disadvantaged in the immediately preceding fiscal year is equal to or greater than the minimum percentage for a district or public school academy to be assigned to opportunity index band 5.

(b) Up to 30% to support retention and recruitment efforts that help reduce staff turnover and vacancies of instructional and support staff if the district or public school academy is assigned to opportunity index band 5 or 6.

(15) Funds used as described in subsection (14) must align with the needs assessment and the multi-tiered system of supports model. A district or public school academy shall not use any of the money described in subsection (14) for administrative costs or to supplant existing funding, including, but not limited to, maintaining existing salaries or costs. A district or public school academy shall report its intent to use funds described in subsection (14) to the department by not later than November 1 of the current fiscal year.

(16) A district or public school academy determined to be eligible to use a portion of funds received under subsection (3) for the purposes described in subsection (14) retains the ability to use funding for the purposes described in subsection (14) for the fiscal year in which eligibility was determined plus 2 additional fiscal years beyond that fiscal year.

(17) By August 1 of each fiscal year, the department must provide a report to districts and public school academies that lists the eligible schools under subsection (14)(a) for the upcoming fiscal year.

(18) A district or public school academy that receives funds under this section may use up to 10% of the funds received under this section to provide evidence-based instruction for pre-kindergarten instructional and

noninstructional services to children who meet at least 1 of the criteria in subsection (25)(a)(i) to (x).

(19) Except as otherwise provided in this subsection, if necessary, the department shall prorate payments under this section, except payments under subsection (7), (8), (23), or (24), by reducing the amount of the allocation as otherwise calculated under this section by an equal percentage per district. Subject to the availability of funds, if proration is necessary under this subsection, the department must ensure that no district receives an amount less than 11.5% of the target foundation for each economically disadvantaged pupil enrolled in the district.

(20) If a district is dissolved pursuant to section 12 of the revised school code, MCL 380.12, the intermediate district to which the dissolved district was constituent shall determine the estimated number of pupils that are economically disadvantaged and that are enrolled in each of the other districts within the intermediate district and provide that estimate to the department for the purposes of distributing funds under this section within 60 days after the district is declared dissolved.

(21) A district or public school academy that receives funds under this section may use funds received under this section to provide an anti-bullying or crisis intervention program.

(22) The department shall collaborate with the department of health and human services to prioritize assigning Pathways to Potential success coaches to elementary schools that have a high percentage of pupils in grades K to 3 who are not proficient in English language arts, based upon state assessments for pupils in those grades.

(23) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 only an amount not to exceed \$35,000,000.00 to support primary health care services provided to children and adolescents up to age 21 and for the provision of space upgrades in child and adolescent health center programs. All of the following apply to this allocation:

(a) The funds must be used for only the following purposes:

(i) Modernizing antiquated medical equipment.

(ii) Improving security and patient safety measures.

(iii) Investing in new patient-centered technologies.

(iv) Renovating physical spaces to improve patient privacy and the care setting.

(b) The funds must be expended in a form and manner determined jointly by the department and the department of health and human services.

(c) To be eligible to receive funding under this subsection, a child and adolescent health center program that serves students in the current fiscal year must submit an application in a form and manner determined by the department and the department of health and human services.

(d) An amount equal to 4% of the funds allocated for 2023-2024 under this subsection must be made available for technical support and coordination services from a nonprofit organization exclusively dedicated to serving adolescent health centers in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts. As a requirement of being awarded the funds under this subsection as prescribed under this subsection, a nonprofit organization described in this subsection shall make readily available technical support and coordination services to all child and adolescent health centers in this state.

(e) Funds appropriated under this subsection are a work project appropriation and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue to improve child and adolescent health center program sites and improve delivery of patient care. The estimated completion date of the work project is September 30, 2025.

(24) From the state school aid fund money appropriated under section 11, there is allocated for 2023-2024 only an amount not to exceed \$10,000,000.00 for an electronic patient data and health care analytic system to be made available to each child and adolescent health center program. The department of health and human services shall collaborate on system implementation with a nonprofit organization exclusively dedicated to serving child and adolescent health center programs in this state and that has a membership that includes federally qualified health centers, local public health departments, hospital systems, and public school districts, including, but not limited to, technology assessment, design, coordination, and system implementation with child and adolescent health center programs. Funds appropriated under this subsection are a work project appropriation and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue to implement an electronic patient data and health care analytic system. The estimated completion date of the work project is September 30, 2028.

(8) The department shall give preference to districts or other non-school sponsors that propose educational activities that meet 1 or more of the following: promote healthy food activities; have clear educational objectives; involve parents or the community; connect to a school's or child care center's farm-to-school or farm-to-early-child-care procurement activities; and market and promote the program, leading to increased pupil knowledge and consumption of Michigan-grown products. (2) Funding under this section retained by the department for administration must not exceed 5%. Funding under this section retained by project partners for data collection, outreach, and training must not exceed 2% for each partner.

(3) The department shall develop and implement a competitive grant program for districts and other non-school sponsors to assist in paying for the costs incurred by the district or other non-school sponsor to purchase or increase purchases of whole or minimally processed fruits, vegetables, and legumes grown in this state. The maximum amount that may be drawn down on a grant to a district or other non-school sponsor is based on the number of meals served by the district during the previous school year under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j, or meals served by the other non-school sponsor in the previous school year. The department shall collaborate with the Michigan department of agriculture and rural development to provide training to newly participating schools and other non-school sponsors and electronic information on Michigan agriculture.

(4) The goals of the program under this section include improving daily nutrition and eating habits for children through the school and child care settings while investing in Michigan's agricultural and related food business economy.

(5) A district or other non-school sponsor that receives a grant under this section shall use those funds for the costs incurred by the district or the sponsor to do both of the following:

(a) Purchase whole or minimally processed fruits, vegetables, and legumes that meet both of the following:

(i) For each fiscal year, were purchased for use in meals and supportive activities as part of the United States Department of Agriculture child nutrition programs provided between October 1 through September 30 of that fiscal year.

(6) For Michigan-grown fruits, vegetables, and legumes that satisfy the requirements of subsection (5), the department shall make matching reimbursements in an amount not to exceed 10 cents for every school meal that is served as part of the United States Department of Agriculture's child nutrition programs.

(7) In awarding grants under this section, the department shall work in consultation with Michigan-based farm to school resource organizations, to develop scoring criteria that assess an applicant's ability to procure Michigan-grown products, prepare and menu Michigan-grown products, promote and market Michigan-grown products, and submit letters of intent from districts or other non-school sponsors on plans for educational activities that promote the goals of the program.

(8) The department shall give preference to districts or other non-school sponsors that propose educational activities that meet 1 or more of the following: promote healthy food activities; have clear educational objectives; involve parents or the community; connect to a school's or child care center's farm-to-school or farm-to-early-child-care procurement activities; and market and promote the program, leading to increased pupil knowledge and consumption of Michigan-grown products. The department shall give stronger weighting and consideration to applications with robust marketing and promotional activities.

(9) In awarding grants, the department shall also consider all of the following:

(a) The percentage of children who qualify for free or reduced price school meals under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769j.

(b) The variety of school or child care center sizes and geographic locations within the identified prosperity

(c) Existing or planned collaboration between child care sponsors, between districts, or with agricultural businesses and essential local food infrastructure, such as farms, farm cooperatives, processors, distributors, and local food hubs.

(10) As a condition of receiving a grant under this section, a district or other non-school sponsor shall provide or direct its vendors to provide to the department copies of monthly receipts that show the quantity of different Michigan-grown fruits, vegetables, and legumes purchased, the amount of money spent on each of these products, the name and Michigan location of the farm that grew the products, and the methods or plans to market and promote the program. The district or other non-school sponsor also shall provide to the department monthly United States Department of Agriculture child nutrition reimbursable meal numbers and must retain monthly menus noting when and how Michigan-grown products were used in meals. The district or other non-school sponsor and school or non-school sponsor food service director or directors also shall agree to respond to brief online surveys and to provide a report that shows the percentage relationship of Michigan spending compared to total food spending. By not later than 60 days after the end of the period in which funds under this section were received, and in which federal child nutrition programs require submission of claims, each district or each non-school sponsor shall submit a report to the department on outcomes and related measurements for economic development and children's nutrition and readiness to learn. The report must include at least both of the following:

(a) The extent to which farmers and related businesses, including distributors and processors, saw an increase in market opportunities and income generation through sales of Michigan or local products to districts and other non-school sponsors. All of the following apply for purposes of this subdivision:

(i) The data used to determine the amount of this increase are the total dollar amount of Michigan or local fruits, vegetables, and legumes purchased by schools and other non-school sponsors, along with the number of different types of products purchased; school and non-school sponsor food purchasing trends identified along with products that are of new and growing interest among food service directors; the number of businesses impacted; and the percentage of total food budget spent on Michigan-grown fruits, vegetables, and legumes.

(ii) The district or other non-school sponsor shall use purchasing data collected for the program and surveys of school and non-school sponsor food service directors on the impact and success of the program as the source for the data described in subparagraph (i).

(b) The ability to which pupils can access a variety of healthy Michigan-grown foods through schools and other non-school sponsor centers and increase their consumption of those foods. All of the following apply for purposes of this subdivision:

(i) The data used to determine whether this subdivision is met are the number of pupils exposed to Michigan-grown fruits, vegetables, and legumes at schools and non-school sponsor centers; the variety of products served; new items taste-tested or placed on menus; and the increase in pupil willingness to try new local healthy foods.

(ii) The district or other non-school sponsor shall use purchasing data collected for the project, meal count and enrollment numbers, school menu calendars, and surveys of school and non-school sponsor food service directors as the source for the data described in subparagraph (i).

(11) The department shall compile the reports provided by districts and other non-school sponsors under subsection (10) into 1 legislative report. The department shall provide this report not later than April 1 of each fiscal year following the fiscal year for which funding is allocated under this section to the house and senate subcommittees responsible for school aid, the house and senate fiscal agencies, and the state budget director.

(12) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

388.1631n Licensed behavioral health providers for general education pupils; advisory council; application; services by child and adolescent health centers; services to nonpublic students; measurements of outcomes and performance.

Sec. 31n. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2023-2024 for the purposes of this section an amount not to exceed \$106,545,000.00 and from the general fund money appropriated in section 11, there is allocated for 2023-2024 for the purposes of this section an amount not to exceed \$1,300,000.00. The department and the department of health and human services shall continue a program to distribute this funding to add licensed behavioral health providers for general education pupils, and recipients of the funds under subsection (6) shall continue to seek federal Medicaid match funding for all eligible mental health and support services.

(2) The department and the department of health and human services shall maintain an advisory council for programs funded under this section and any other funding under this act to improve or maintain the mental health of students, except for programs funded under section 31a(7) and (8). The advisory council shall define goals for implementation of programs, and shall provide feedback on that implementation. At a minimum, the advisory council shall consist of representatives of state associations representing school health, school mental health, school counseling, education, health care, and other organizations, representatives from the department and the department of health and human services, and a representative from the school safety and mental health commission. The department and department of health and human services, working with the advisory council, shall determine an approach to increase capacity for mental health and support services in schools for general education pupils, and shall determine where that increase in capacity qualifies for federal Medicaid match funding.

(3) The advisory council shall develop a fiduciary agent checklist for intermediate districts to facilitate development of a plan to submit to the department and to the department of health and human services. The department and department of health and human services shall determine the requirements and format for intermediate districts to submit a plan for possible funding under subsection (6). The department shall make applications for funding for this program available to districts and intermediate districts not later than December 1 of each fiscal year for which funds are allocated under this section and shall award the funding not later than February 1 of each fiscal year for which funds are allocated under this section.

(4) The department of health and human services shall amend the state Medicaid plan to obtain appropriate Medicaid waivers as necessary for the purpose of generating additional Medicaid match funding for school mental health and support services for general education pupils, and this expansion is called Caring for Students (C4S).

(5) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$14,300,000.00 to be distributed to the network of child and adolescent health centers to place a licensed master's level behavioral health provider in schools that do not currently have services available to general education students. Child and adolescent health centers that are part of the network described in this subsection shall provide a commitment to maintain services and implement all available federal Medicaid match methodologies. The department of health and human services shall use all existing or additional federal Medicaid match opportunities to maximize funding allocated under this subsection. The department shall provide funds under this subsection to child and adolescent health centers that are part of the network described in this subsection in the same proportion that funding under section 31a(7) is provided to child and adolescent health centers that are part of the network described in this subsection and that are located and operating in those districts. A payment from funding allocated under this subsection must not be paid to an entity that is not part of the network described in this subsection.

(6) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$87,245,000.00 to be distributed to intermediate districts for the provision of mental health and support services to general education students. Recipients of funds under this subsection shall continue to seek federal Medicaid match funding for all eligible mental health and support services. If a district or intermediate district is not able to procure the services of a licensed master's level behavioral health provider, the district or intermediate district shall notify the department and the department of health and human services and, if the department and department of health and human services verify that the district or intermediate district attempted to procure services from a master's level behavioral health provider and was not able to do so, then the district or intermediate district may instead procure services from a provider with less than a master's degree in behavioral health. To be able to use the exemption in the immediately preceding sentence, the district or intermediate district must submit evidence satisfactory to the department and department of health and human services demonstrating that the district or intermediate district took measures to procure the services of a licensed master's level behavioral health provider but was unable to do so, and the department and department of health and human services must be able to verify this evidence. From the first \$56,173,600.00 of the funds allocated under this subsection, the department shall distribute up to \$1,003,100.00 for 2023-2024 to each intermediate district that submits a plan approved by the department and the department of health and human services by February 1 of each fiscal year for which funds are allocated under this section. The department shall distribute the remaining \$31,071,400.00 of the funds allocated under this subsection for 2023-2024 to intermediate districts on an equal per-pupil basis based on the combined total number of pupils in membership in the intermediate district and its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705. The department and department of health and human services shall work cooperatively in providing oversight and assistance to intermediate districts and shall monitor the program upon implementation. An intermediate district shall use funds awarded under this subsection to provide funding to

its constituent districts, including public school academies that are considered to be constituent districts under section 705(7) of the revised school code, MCL 380.705, for the provision of mental health and support services to general education students. In addition to the criteria identified under subsection (9), an intermediate district shall consider geography, cost, or other challenges when awarding funding to its constituent districts. Districts receiving funding under this subsection are encouraged to provide suicide prevention and awareness education and counseling.

(7) If funding awarded to an intermediate district remains after funds are provided by the intermediate district to its constituent districts, the intermediate district shall notify the department and department of health and human services and submit evidence satisfactory to the department and department of health and human services demonstrating how it would like to use funds for purposes other than hiring licensed behavioral health providers for general education pupils. With permission from the department and department of health and human services, the intermediate district may hire or contract for experts to provide mental health and support services to general education students residing within the boundaries of the intermediate district, including, but not limited to, expanding, hiring, or contracting for staff and experts to provide those services directly or to increase access to those services through coordination with outside mental health agencies; the intermediate district may also contract with 1 or more other intermediate districts for coordination and the facilitation of activities related to providing mental health and support services to general education students residing within the boundaries of the intermediate district; the intermediate district may also use the funds under this section to create or strengthen school-based behavioral health assessment teams that focus on providing age-appropriate interventions, identifying behaviors that suggest a pupil may be struggling with mental health challenges, providing treatment and support of the pupil, and using disciplinary interventions and the criminal justice system as methods of last resort; and the intermediate district may also use the funds under this section to provide evidence-based trainings that support student mental health.

(8) If funding awarded to an intermediate district under this section remains unspent, or if the intermediate district submits an application requesting a lower allocation than the maximum amount permitted, the department, in conjunction with the intermediate district, may reallocate the funds to another intermediate district or other intermediate districts capable of expending the funds before the funding deadline in accordance with this section as if those funds were originally allocated to the intermediate district or intermediate districts to which the funds are being reallocated.

(9) A district requesting funds under this section from the intermediate district in which it is located shall submit an application for funding for the provision of mental health and support services to general education pupils. A district receiving funding from the application process described in this subsection shall provide services to nonpublic students upon request. An intermediate district shall not discriminate against an application submitted by a public school academy simply on the basis of the applicant being a public school academy. The department shall approve grant applications based on the following criteria:

(a) The district's commitment to maintain mental health and support services delivered by licensed providers into future fiscal years.

(b) The district's commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. A district must provide a local match of at least 20% of the funding allocated to the district under section 31n.

(c) The district's commitment to adhere to any local funding requirements determined by the department and the department of health and human services.

(d) The extent of the district's existing partnerships with community health care providers or the ability of the district to establish such partnerships.

(e) The district's documentation of need, including gaps in current mental health and support services for the general education population.

(f) The district's submission of a formal plan of action identifying the number of schools and students to be served.

(g) Whether the district will participate in ongoing trainings.

(h) Whether the district will submit an annual report to the state.

(i) Whether the district demonstrates a willingness to work with the state to establish program and service delivery benchmarks.

(j) Whether the district has developed a school safety plan or is in the process of developing a school safety plan.

(k) Any other requirements determined by the department or the department of health and human services.

(10) Funding under this section, including any federal Medicaid funds that are generated, must not be used to supplant existing services.

(11) Both of the following are allocated to the department of health and human services from the general fund money allocated under subsection (1):

(a) For 2023-2024, an amount not to exceed \$1,000,000.00 for the purpose of upgrading technology and systems infrastructure and other administrative requirements to support the programs funded under this section.

(b) For 2023-2024, an amount not to exceed \$300,000.00 for the purpose of administering the programs under this section and working on generating additional Medicaid funds as a result of programs funded under this section.

(12) From the state school aid fund money allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$5,000,000.00 to intermediate districts on an equal per intermediate district basis for the purpose of administering programs funded under this section. Recipients of the funds under this subsection shall continue to seek federal Medicaid match funding for all eligible mental health and support services and participate in all learning collaboratives about C4S required by the department and department of health and human services.

(13) The department and the department of health and human services shall work with the advisory council to develop proposed measurements of outcomes and performance. Those measurements must include, at a minimum, the number of pupils served, the number of schools served, and where those pupils and schools were located. The department and the department of health and human services shall compile data necessary to measure outcomes and performance, and districts and intermediate districts receiving funding under this section shall provide data requested by the department and department of health and human services for the measurement of outcomes and performance. The department and department of health and human services shall provide an annual report not later than December 1 of each year to the house and senate appropriations subcommittees on school aid and health and human services, to the house and senate fiscal agencies, and to the state budget director. At a minimum, the report must include measurements of outcomes and performance, proposals to increase efficacy and usefulness, proposals to increase performance, and proposals to expand coverage.

(14) A district or intermediate district that receives funding directly or indirectly under this section may carry over any unexpended funds received under this section for up to 2 fiscal years beyond the fiscal year in which the funds were received.

(b) The district's commitment to work with its intermediate district to use funding it receives under this section that is spent by the district for general education pupils toward participation in federal Medicaid match methodologies. A district must provide a local match of at least 20% of the funding allocated to the district under section 31n.

(c) The district's commitment to adhere to any local funding requirements determined by the department and the department of health and human services.

(k) Any other requirements determined by the department or the department of health and human services.

(10) Funding under this section, including any federal Medicaid funds that are generated, must not be used to supplant existing services.

(11) Both of the following are allocated to the department of health and human services from the general fund money allocated under subsection (1):

In addition, from the federal funding appropriated in section 11, there is allocated for 2022-2023 an amount not to exceed \$83,000,000.00 from the federal funding awarded to this state from the coronavirus state fiscal recovery fund under the American rescue plan act of 2021, title IX, subtitle M of Public Law 117-2, to eligible intermediate districts and consortia of intermediate districts for great start readiness programs. An intermediate district or consortium shall use funds allocated under this section for great start readiness programs to provide part-day, school-day, GSRP extended programs, or GSRP/Head Start blended comprehensive free compensatory classroom programs designed to improve the readiness and subsequent achievement of educationally disadvantaged children who meet the participant eligibility and prioritization guidelines as defined by the department. For a child to be eligible to participate in a program under this section, the child must be at least 4, but less than 5, years of age as of September 1 of the school year in which the program is offered and must meet those eligibility and prioritization guidelines. (a) Ensure compliance with all program components described in subsection (4).

(b) Except as otherwise provided in this subdivision, ensure that at least 85% of the children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, the intermediate district may then enroll children who live with families with a household income that is equal to or less than, for 2022-2023, 300%, and, for 2023-2024, 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(c) Ensure that the applicant only uses qualified personnel for this program, as follows:

(i) Teachers possessing proper training. A lead teacher must have a valid Michigan teaching certificate with an early childhood or lower elementary endorsement or a bachelor's or higher degree in child development or early childhood education with specialization in preschool teaching. However, except as otherwise provided in this subparagraph, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers or paraprofessionals with at least 5 years of experience as a paraprofessional in a great start readiness program, Head Start, or licensed child care center classroom who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department, and the department approves, a plan for each teacher to come into compliance with the standards in this subparagraph. Beginning in 2023-2024, individuals may qualify with at least 3 years of experience and significant training in early childhood education or child development, based on the recommendation of the intermediate district after a classroom observation. A teacher's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood education, including an associate degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development or, beginning in 2023-2024, enrolls in a child development associate credential with at least 6 months of verified experience in early education and care, if the applicant provides to the department, and the department approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses, 60 clock hours, or an equivalent of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget must indicate the extent to which these funds will supplement other federal, state, local, or private funds. An applicant shall not use funds received under this section to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(6) For a grant recipient that enrolls pupils in a school-day program or GSRP extended program funded under this section, each child enrolled in the school-day program or GSRP extended program is counted as described in section 39 for purposes of determining the amount of the grant award.

(7) For a grant recipient that enrolls pupils in a GSRP/Head Start blended program, the grant recipient shall

ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law. A grant recipient may request a waiver from the department to align GSRP policies and regulations with Head Start national standards for quality, including ratios, and the department may approve the waiver. Not later than March 1 of each year, the department will report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and type of each waiver requested and approved.

(8) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (5).

(9) An intermediate district or consortium of intermediate districts may retain for administrative services provided by the intermediate district or consortium of intermediate districts an amount not to exceed 4% of the grant amount. Expenses incurred by subrecipients engaged by the intermediate district or consortium of intermediate districts for directly running portions of the program are considered program costs or a contracted program fee for service. Subrecipients operating with a federally approved indirect rate for other early childhood programs may include indirect costs, not to exceed the federal 10% de minimis.

(10) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program, if the intermediate district or consortium of intermediate districts also participates in related statewide marketing and outreach efforts.

(11) Each grant recipient shall enroll children identified under subsection (5)(b) according to how far the child's household income is below, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, and then enrolling children in the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines, the grant recipient may then enroll children who live with families with a household income that is equal to or less than, for 2022-2023, 300%, and, for 2023-2024, 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subsection, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program operated by or contracted with another intermediate district or consortium of intermediate districts and shall enter into a written agreement regarding payment, in a manner prescribed by the department.

(13) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a blended Head Start, GSRP extended program, and great start readiness school-day program. Children served in a program funded only through Head Start are not counted toward this 30% allocation. The intermediate district or consortium shall report to the department, in a manner prescribed by the department, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the grant recipient shall notify the department and, if the department verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, then the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium

shall submit evidence satisfactory to the department, and the department must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each nonparticipating licensed child care center located in the service area of the intermediate district or consortium regarding the center's eligibility to participate, in a manner prescribed by the department.

(b) The intermediate district or consortium provided to each nonparticipating licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least, for 2022-2023, 3 stars, and, for 2023-2024, enhancing quality level.

(14) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total allocation, as required under subsection (13), the department shall reduce the allocation to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total allocation awarded to community-based providers and 30% of its total allocation.

(15) In order to assist intermediate districts and consortia in complying with the requirement to contract with community-based providers for at least 30% of their total allocation, the department shall do all of the following:

(a) Ensure that a great start resource center or the department provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, Head Start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system must ensure that regulators process all prospective providers at the same pace on a first-come, first-served basis and must not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) Not later than March 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (13) and report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(e) Allow intermediate districts and consortia and eligible community-based providers to utilize materials and supplies purchased for great start readiness programs within their facilities for other early care and education activities, in the following order of priority:

(i) Early care and education activities under a federal award.

(ii) Early care and education activities under other state awards.

(iii) Early care and education activities under local or regional awards.

(16) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the information necessary to derive the number of children participating in the program who meet the program eligibility criteria under subsection (5)(b), the number of eligible children not participating in the program and on a waitlist, and the total number of children participating in the program by various demographic groups and eligibility factors necessary to analyze equitable and priority access to services for the purposes of subsection (3).

(17) As used in this section:

(a) "GSRP/Head Start blended program" means a part-day program funded under this section and a Head Start program, which are combined for a school-day program.

(b) "GSRP extended program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 5 days per week, 36 weeks per year.

(c) "Federal poverty guidelines" means the guidelines published annually in the Federal Register by the United States Department of Health and Human Services under its authority to revise the poverty line under

42 USC 9902.

(d) "Part-day program" means a program that operates at least 4 days per week, 30 weeks per year, for at least 3 hours of teacher-child contact time per day but for fewer hours of teacher-child contact time per day than a school-day program.

(e) "School-day program" means a program that operates for at least the same length of day as a district's first grade program for a minimum of 4 days per week, 30 weeks per year. A classroom that offers a school-day program must enroll all children for the school day to be considered a school-day program.

(18) An intermediate district or consortium of intermediate districts receiving funds under this section shall establish and charge tuition according to a sliding scale of tuition rates based upon household income for children participating in an eligible great start readiness program who live with families with a household income that is more than, for 2022-2023, 250%, and, for 2023-2024, 300% of the federal poverty guidelines to be used by all of its providers, as approved by the department.

(19) From the amount allocated in subsection (2), there is allocated for 2022-2023 and 2023-2024 an amount not to exceed \$10,000,000.00 and, from the great start readiness program reserve fund appropriated in section 11, there is allocated for 2023-2024 an amount not to exceed \$18,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive reimbursement under this subsection, not later than November 1 of each year, a program funded under this section that provides transportation shall submit to the intermediate district that is the fiscal agent for the program a projected transportation budget. The amount of the reimbursement for transportation under this subsection is no more than the projected transportation budget or, for 2022-2023, \$300.00, and, for 2023-2024, \$500.00 multiplied by the number of children funded for the program under this section. If the amount allocated under this subsection is insufficient to fully reimburse the transportation costs for all programs that provide transportation and submit the required information, the department shall prorate the reimbursement in an equal amount per child funded. The department shall make payments to the intermediate district that is the fiscal agent for each program, and the intermediate district shall then reimburse the program provider for transportation costs as prescribed under this subsection.

(20) Subject to, and from the funds allocated under, subsection (19), the department shall reimburse a program for transportation costs related to parent- or guardian-accompanied transportation provided by transportation service companies, buses, or other public transportation services. To be eligible for reimbursement under this subsection, a program must submit to the intermediate district or consortia of intermediate districts all of the following:

(a) The names of families provided with transportation support along with a documented reason for the need for transportation support and the type of transportation provided.

(b) Financial documentation of actual transportation costs incurred by the program, including, but not limited to, receipts and mileage reports, as determined by the department.

(c) Any other documentation or information determined necessary by the department.

(21) The department shall implement a process to review and approve age-appropriate comprehensive classroom level quality assessments for GSRP grantees that support the early childhood standards of quality for prekindergarten children adopted by the state board. The department shall make available to intermediate districts at least 2 classroom level quality assessments that were approved in 2018.

(22) An intermediate district that is a GSRP grantee may approve the use of a supplemental curriculum that aligns with and enhances the age-appropriate educational curriculum in the classroom. If the department objects to the use of a supplemental curriculum approved by an intermediate district, the superintendent shall establish a review committee independent of the department. The review committee shall meet within 60 days of the department registering its objection in writing and provide a final determination on the validity of the objection within 60 days of the review committee's first meeting.

(23) The department shall implement a process to evaluate and approve age-appropriate educational curricula that are in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board.

(24) From the funds allocated under subsection (1), there is allocated for 2022-2023 an amount not to exceed \$2,000,000.00 and there is allocated for 2023-2024 an amount not to exceed \$2,000,000.00 for payments to intermediate districts or consortia of intermediate districts for professional development and training materials for educators in programs implementing new curricula or child assessment tools approved for use in the great start readiness program.

(25) A great start readiness program or a GSRP/Head Start blended program funded under this section is permitted to utilize AmeriCorps Pre-K Reading Corps members in classrooms implementing research-based early literacy intervention strategies.

(26) In addition to the allocation under subsection (1), from the state school aid fund money appropriated

under section 11, there is allocated an amount not to exceed \$35,000,000.00 for 2022-2023 only for classroom start up grants to intermediate districts and consortia of intermediate districts for new or expanding great start readiness classrooms. All of the following apply to funding allocated under this subsection:

(a) To receive funding under this subsection, intermediate districts and consortia of intermediate districts must apply for the funding in a form and manner prescribed by the department.

(b) The department shall pay an amount not to exceed \$25,000.00 for each new or expanded classroom. If funding is not sufficient to fully fund all eligible applicants, the department must prorate the per-classroom amount on an equal basis. If the allocation is not fully paid in the current fiscal year, the department may award any remaining funding during fiscal year 2023-2024 for each new or expanded classroom at an equal amount per classroom, based on remaining available funds, not to exceed \$25,000.00 per classroom.

(c) Funds received under this subsection by intermediate districts and consortia of intermediate districts must be paid in full to the entity operating the classroom and may be used for any of the following purposes:

(i) Costs associated with attracting, recruiting, retaining, and licensing required classroom education personnel to staff new or expanded classrooms.

(ii) Supporting facility improvements or purchasing facility space necessary to provide a safe, high-quality learning environment for children in each new or expanded classroom.

(iii) Outreach material necessary for public awareness that the great start readiness program has openings in the area and for costs associated with enrolling eligible children in new or expanded classrooms.

(iv) Supporting costs in each new or expanded classroom associated with improving a provider's great start to quality rating.

(d) The funds allocated under this subsection for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 do not lapse to the state school aid fund and are carried forward into 2023-2024. The purpose of the work project is to continue support for new or expanded great start readiness classrooms. The estimated completion date of the work project is September 30, 2024.

(27) In addition to the funds allocated in subsection (1), there is allocated from the state school aid fund money appropriated under section 11 for 2022-2023 only an amount not to exceed \$5,000,000.00 for a consortium of intermediate districts to partner with the department and community-based organizations to implement a multiyear statewide campaign to raise awareness about the availability of services through the great start readiness program and to develop systems to identify and reach out to eligible families. All of the following apply to funding under this subsection:

(a) Funding under this subsection must be used for the following purposes:

(i) Implementing a statewide outreach campaign to make families aware of the availability of the great start readiness program.

(ii) Organizing community events and outreach activities to inform parents about the availability of the great start readiness program, the positive impacts of early childhood education, and additional early childhood programs available to families.

(iii) Developing and implementing a statewide website that allows providers to advertise available great start readiness slots and allows families to connect with providers to fill open slots. The website must include information about additional early childhood programs for families, including, but not limited to, the child development and care program and Head Start.

(b) The funds allocated under this subsection for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 are carried forward into 2023-2024. The purpose of the work project is to raise awareness of and participation in great start readiness programming. The estimated completion date of the work project is September 30, 2027.

(c) Notwithstanding section 17b, the department shall make payments under this subsection on a schedule determined by the department.

(1) From the state school aid fund money appropriated in section 11, there is allocated to eligible intermediate districts and consortia of intermediate districts for great start readiness programs an amount not to exceed \$609,720,000.00 for 2024-2025. It is the intent of the legislature that this section will support universal great start readiness programs in a future fiscal year. An intermediate district or consortium shall use funds allocated under this section for great start readiness programs to provide part-day programs, school-day programs, GSRP extended programs, GSRP/Head Start school-day blended programs, or GSRP/Head Start extended blended programs that are comprehensive, free, compensatory classroom programs designed to improve the readiness and subsequent achievement of children who meet the participant eligibility and prioritization guidelines as defined by the department of lifelong education, advancement, and potential. For a child to be eligible to participate in a program under this section, the child must be at least 4, but less than 5,

years of age as of September 1 of the school year in which the program is offered and must meet those eligibility and prioritization guidelines. After eligible children who will be 4 years of age as of September 1 are enrolled, a child who is not 4 years of age as of September 1, but who will be 4 years of age by not later than December 1, is eligible to participate if both of the following are met:

(a) The child's parent or legal guardian seeks a waiver from the September 1 eligibility date by submitting a request for enrollment in a program to the responsible intermediate district.

(b) The child meets eligibility and prioritization guidelines.

(2) From the state school aid fund money allocated under subsection (1), an amount not to exceed \$607,720,000.00 for 2024-2025 is allocated to intermediate districts or consortia of intermediate districts based on the formula in section 39. An intermediate district or consortium of intermediate districts receiving funding under this section shall act as the fiduciary for the great start readiness programs. An intermediate district or consortium of intermediate districts receiving funding under this section may collaborate with local governments to identify children eligible for programs funded under this section and may contract with local governments to provide services. To be eligible to receive funds allocated under this subsection from an intermediate district or consortium of intermediate districts, a district, a consortium of districts, a local government, or a public or private for-profit or nonprofit legal entity or agency must comply with this section and section 39. If, due to the number of GSRP extended program or GSRP/Head Start extended blended program slots awarded, the amount allocated in this subsection is insufficient to award at least the same number of part-day program and school-day program slots as awarded in the immediately preceding fiscal year, there is appropriated from the great start readiness program reserve fund the amount necessary to fully award the same number of part-day program and full-day program slots as awarded in the immediately preceding fiscal year.

(3) In addition to the allocation under subsection (1), from the general fund money appropriated under section 11, there is allocated an amount not to exceed \$600,000.00 for 2024-2025 for a competitive grant to continue a longitudinal evaluation of children who have participated in great start readiness programs. It is the intent of the legislature that the allocation under this subsection will be \$350,000.00 for 2025-2026.

(4) Except as otherwise provided in subsection (5), to be eligible for funding under this section, a program must prepare children for success in school through comprehensive part-day programs, school-day programs, GSRP extended programs, GSRP/Head Start school-day blended programs, or GSRP/Head Start extended blended programs that contain all of the following program components, as determined by the department of lifelong education, advancement, and potential:

(a) Participation in a collaborative recruitment and enrollment process to ensure that each child is enrolled in the program most appropriate to the child's needs and to maximize the use of federal, state, and local funds.

(b) An age-appropriate educational curriculum that is in compliance with the early childhood standards of quality for prekindergarten children adopted by the state board, including, at least, the Connect4Learning curriculum.

(c) Nutritional services for all program participants supported by federal, state, and local resources as applicable.

(d) Physical and dental health and developmental screening services for all program participants.

(e) Referral services for families of program participants to community social service agencies, including mental health services, as appropriate.

(f) Active and continuous involvement of the parents or guardians of the program participants.

(g) A plan to conduct and report annual great start readiness program evaluations and continuous improvement plans using criteria approved by the department of lifelong education, advancement, and potential.

(h) Participation in a school readiness advisory committee convened as a workgroup of the great start collaborative that provides for the involvement of classroom teachers, parents or guardians of program participants, and community, volunteer, and social service agencies and organizations, as appropriate. The advisory committee shall annually review and make recommendations regarding the program components listed in this subsection. The advisory committee also shall make recommendations to the great start collaborative regarding other community services designed to improve all children's school readiness.

(i) The ongoing articulation of the kindergarten and first grade programs offered by the program provider.

(j) Participation in this state's great start to quality process with a rating of at least enhancing quality level.

(5) To help expand access to great start readiness programs, the department of lifelong education, advancement, and potential may waive the requirements under subsection (4) and a program may be eligible for funding under this section for new or expanding programs if the program demonstrates to the satisfaction of the department of lifelong education, advancement, and potential that the program meets all of the following:

- (a) Is a licensed child care center or is a licensed program.
 - (b) Provides the minimum instructional time as required by the department of lifelong education, advancement, and potential.
 - (c) Participates in this state's quality rating system at a level determined by the department of lifelong education, advancement, and potential.
 - (d) Implements a professional educator preparation plan, as defined by the department of lifelong education, advancement, and potential, for educators not meeting teacher credentialing standards described in subsection (8).
 - (e) Uses a developmentally appropriate curriculum, as determined by the department of lifelong education, advancement, and potential.
 - (f) Conducts a developmental screening and referral process, as determined by the department of lifelong education, advancement, and potential.
 - (g) Commits to participating in program financial review and monitoring, as determined by the department of lifelong education, advancement, and potential.
 - (h) Provides a plan to implement an approved great start readiness program curriculum and meet additional great start readiness program standards, as determined by the department of lifelong education, advancement, and potential.
- (6) A waiver under subsection (5) may be granted for up to 3 years for requirements related to program credentialing and may be granted for up to 2 years for all other requirements, as determined by the department of lifelong education, advancement, and potential.
- (7) The department of lifelong education, advancement, and potential shall provide a report to the house and senate appropriations subcommittees on school aid, the state budget director, and the house and senate fiscal agencies that summarizes the number and types of exemptions granted under subsection (5) and progress made by programs granted waivers under subsection (5) by September 30 of each fiscal year. It is the intent of the legislature to review the waiver allowability under subsection (5) before the fiscal year ending September 30, 2027.
- (8) An application for funding under this section must provide for the following, in a form and manner determined by the department of lifelong education, advancement, and potential:
- (a) Ensure either of the following:
 - (i) That the applicant complies with all program components described in subsection (4).
 - (ii) That the applicant meets the requirements of a waiver under subsection (5).
 - (b) Except as otherwise provided in this subdivision, ensure that children participating in an eligible great start readiness program for whom the intermediate district is receiving funds under this section are children who live with families with a household income that is equal to or less than 400% of the federal poverty guidelines. If the intermediate district determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 400% of the federal poverty guidelines, the intermediate district may then enroll children who live with families with a household income that is greater than 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subdivision, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than 400% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile. The department of lifelong education, advancement, and potential shall publish the household income thresholds under this subdivision in a clear manner on its website and the great start to quality website.
 - (c) Ensure that the applicant only uses qualified personnel for this program, as follows:
 - (i) Teachers possessing proper training. A lead teacher must have a valid Michigan teaching certificate with an early childhood or lower elementary endorsement or a bachelor's or higher degree in child development or early childhood education with specialization in preschool teaching. However, except as otherwise provided in this subparagraph, if an applicant demonstrates to the department of lifelong education, advancement, and potential that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, teachers or paraprofessionals with at least 5 years of experience as a paraprofessional in a great start readiness program, Head Start, or licensed child care center classroom who have significant but incomplete training in early childhood education or child development may be used if the applicant provides to the department of lifelong education, advancement, and potential, and the department of lifelong education, advancement, and potential approves, a plan for each teacher to come into compliance with the standards in this subparagraph. Individuals may qualify with at least 3 years of experience and significant training in early

childhood education or child development, based on the recommendation of the intermediate district after a classroom observation. A teacher's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses per calendar year.

(ii) Paraprofessionals possessing proper training in early childhood education, including an associate degree in early childhood education or child development or the equivalent, or a child development associate (CDA) credential. However, if an applicant demonstrates to the department of lifelong education, advancement, and potential that it is unable to fully comply with this subparagraph after making reasonable efforts to comply, the applicant may use paraprofessionals who have completed at least 1 course that earns college credit in early childhood education or child development or enroll in a child development associate credential with at least 6 months of verified experience in early education and care, if the applicant provides to the department of lifelong education, advancement, and potential, and the department of lifelong education, advancement, and potential approves, a plan for each paraprofessional to come into compliance with the standards in this subparagraph. A paraprofessional's compliance plan must be completed within 3 years of the date of employment. Progress toward completion of the compliance plan consists of at least 2 courses, 60 clock hours, or an equivalent of training per calendar year.

(d) Include a program budget that contains only those costs that are not reimbursed or reimbursable by federal funding, that are clearly and directly attributable to the great start readiness program, and that would not be incurred if the program were not being offered. Eligible costs include transportation costs. The program budget must indicate the extent to which these funds will supplement other federal, state, local, or private funds. An applicant shall not use funds received under this section to supplant any federal funds received by the applicant to serve children eligible for a federally funded preschool program that has the capacity to serve those children.

(9) For a grant recipient that enrolls pupils in a school-day program or GSRP extended program funded under this section, each child enrolled in the school-day program or GSRP extended program is counted as described in section 39 for purposes of determining the amount of the grant award.

(10) For a grant recipient that enrolls pupils in a GSRP/Head Start school-day blended program or GSRP/Head Start extended blended program, the grant recipient shall ensure that all Head Start and GSRP policies and regulations are applied to the blended slots, with adherence to the highest standard from either program, to the extent allowable under federal law. A grant recipient may request a waiver from the department of lifelong education, advancement, and potential to align GSRP policies and regulations with Head Start national standards for quality, including ratios, and the department of lifelong education, advancement, and potential may approve the waiver. Not later than March 1 of each year, the department of lifelong education, advancement, and potential will report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and type of each waiver requested and approved.

(11) To help expand access to great start readiness programs, the department may allow great start readiness programs to implement Head Start national performance standards for quality as an alternative to great start readiness program policies and regulations if the great start readiness program demonstrates to the satisfaction of the department that the great start readiness program is meeting the requirements of the Head Start national performance standards.

(12) An intermediate district or consortium of intermediate districts receiving a grant under this section shall designate an early childhood coordinator, and may provide services directly or may contract with 1 or more districts or public or private for-profit or nonprofit providers that meet all requirements of subsections (4) and (8).

(13) An intermediate district or consortium of intermediate districts may retain for administrative services provided by the intermediate district or consortium of intermediate districts an amount not to exceed 4% of the grant amount. Expenses incurred by subrecipients engaged by the intermediate district or consortium of intermediate districts for directly running portions of the program are considered program costs or a contracted program fee for service. Subrecipients operating with a federally approved indirect rate for other early childhood programs may include indirect costs, not to exceed the federal 10% de minimis.

(14) An intermediate district or consortium of intermediate districts may expend not more than 2% of the total grant amount for outreach, recruiting, and public awareness of the program, if the intermediate district or consortium of intermediate districts also participates in related statewide marketing and outreach efforts.

(15) Each grant recipient shall enroll children identified under subsection (8)(b) according to how far the child's household income is below 400% of the federal poverty guidelines by ranking each applicant child's household income from lowest to highest and dividing the applicant children into quintiles based on how far the child's household income is below 400% of the federal poverty guidelines, and then enrolling children in

the quintile with the lowest household income before enrolling children in the quintile with the next lowest household income until slots are completely filled. If the grant recipient determines that all eligible children are being served and that there are no children on the waiting list who live with families with a household income that is equal to or less than 400% of the federal poverty guidelines, the grant recipient may then enroll children who live with families with a household income that is greater than 400% of the federal poverty guidelines. The enrollment process must consider income and risk factors, such that children determined with higher need are enrolled before children with lesser need. For purposes of this subsection, all age-eligible children served in foster care or who are experiencing homelessness or who have individualized education programs recommending placement in an inclusive preschool setting are considered to live with families with household income equal to or less than 400% of the federal poverty guidelines regardless of actual family income and are prioritized for enrollment within the lowest quintile.

(16) An intermediate district or consortium of intermediate districts receiving a grant under this section shall allow parents of eligible children who are residents of the intermediate district or within the consortium to choose a program operated by or contracted with another intermediate district or consortium of intermediate districts and shall enter into a written agreement regarding payment, in a manner prescribed by the department of lifelong education, advancement, and potential.

(17) An intermediate district or consortium of intermediate districts receiving a grant under this section shall conduct a local process to contract with interested and eligible public and private for-profit and nonprofit community-based providers that meet all requirements of subsection (4) for at least 30% of its total allocation. For the purposes of this 30% allocation, an intermediate district or consortium of intermediate districts may count children served by a Head Start grantee or delegate in a GSRP/Head Start school-day blended program, GSRP/Head Start extended blended program, GSRP extended program, and great start readiness school-day program. Children served in a program funded only through Head Start are not counted toward this 30% allocation. An intermediate district or consortium shall report to the department of lifelong education, advancement, and potential, in a manner prescribed by the department of lifelong education, advancement, and potential, a detailed list of community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district, and the number and proportion of its total allocation allocated to each provider as subrecipient. If the intermediate district or consortium is not able to contract for at least 30% of its total allocation, the intermediate district or consortium shall notify the department of lifelong education, advancement, and potential and, if the department of lifelong education, advancement, and potential verifies that the intermediate district or consortium attempted to contract for at least 30% of its total allocation and was not able to do so, the intermediate district or consortium may retain and use all of its allocation as provided under this section. To be able to use this exemption, the intermediate district or consortium shall demonstrate to the department of lifelong education, advancement, and potential that the intermediate district or consortium increased the percentage of its total allocation for which it contracts with a community-based provider and the intermediate district or consortium shall submit evidence satisfactory to the department of lifelong education, advancement, and potential, and the department of lifelong education, advancement, and potential must be able to verify this evidence, demonstrating that the intermediate district or consortium took measures to contract for at least 30% of its total allocation as required under this subsection, including, but not limited to, at least all of the following measures:

(a) The intermediate district or consortium notified each nonparticipating licensed child care center located in the service area of the intermediate district or consortium regarding the center's eligibility to participate, in a manner prescribed by the department of lifelong education, advancement, and potential.

(b) The intermediate district or consortium provided to each nonparticipating licensed child care center located in the service area of the intermediate district or consortium information regarding great start readiness program requirements and a description of the application and selection process for community-based providers.

(c) The intermediate district or consortium provided to the public and to participating families a list of community-based great start readiness program subrecipients with a great start to quality rating of at least enhancing quality level.

(18) If an intermediate district or consortium of intermediate districts receiving a grant under this section fails to submit satisfactory evidence to demonstrate its effort to contract for at least 30% of its total allocation, as required under subsection (17), the department of lifelong education, advancement, and potential shall reduce the allocation to the intermediate district or consortium by a percentage equal to the difference between the percentage of an intermediate district's or consortium's total allocation awarded to community-based providers and 30% of its total allocation.

(19) To assist intermediate districts and consortia in complying with the requirement to contract with

community-based providers, for at least 30% of their total allocation, the department of lifelong education, advancement, and potential shall do all of the following:

(a) Ensure that a great start resource center or the department of lifelong education, advancement, and potential provides each intermediate district or consortium receiving a grant under this section with the contact information for each licensed child care center located in the service area of the intermediate district or consortium by March 1 of each year.

(b) Provide, or ensure that an organization with which the department of lifelong education, advancement, and potential contracts provides, a community-based provider with a validated great start to quality rating within 90 days of the provider's having submitted a request and self-assessment.

(c) Ensure that all intermediate district, district, community college or university, Head Start grantee or delegate, private for-profit, and private nonprofit providers are subject to a single great start to quality rating system. The rating system must ensure that regulators process all prospective providers at the same pace on a first-come, first-served basis and must not allow 1 type of provider to receive a great start to quality rating ahead of any other type of provider.

(d) By not later than March 1 of each year, compile the results of the information reported by each intermediate district or consortium under subsection (17) and report to the legislature and post on a publicly available website a list by intermediate district or consortium with the number and percentage of each intermediate district's or consortium's total allocation allocated to community-based providers by provider type, including private for-profit, private nonprofit, community college or university, Head Start grantee or delegate, and district or intermediate district.

(e) Allow intermediate districts and consortia and eligible community-based providers to utilize materials and supplies purchased for great start readiness programs within their facilities for other early care and education activities, in the following order of priority:

(i) Early care and education activities under a federal award.

(ii) Early care and education activities under other state awards.

(iii) Early care and education activities under local or regional awards.

(20) A recipient of funds under this section shall report to the center in a form and manner prescribed by the center the information necessary to derive the number of children participating in the program who meet the program eligibility criteria under subsection (8)(b), the number of eligible children not participating in the program and on a waitlist, and the total number of children participating in the program by various demographic groups and eligibility factors necessary to analyze equitable and priority access to services for the purposes of subsection (3).

(22) From the amount allocated in subsection (2), there is allocated for 2024-2025 an amount not to exceed \$10,000,000.00 and, from the great start readiness program reserve fund appropriated in section 11, there is allocated for 2024-2025 an amount not to exceed \$18,000,000.00 for reimbursement of transportation costs for children attending great start readiness programs funded under this section. To receive reimbursement under this subsection, by not later than November 1 of each year, a program funded under this section that provides transportation shall submit to the intermediate district that is the fiscal agent for the program a projected transportation budget. The amount of the reimbursement for transportation under this subsection is no more than the projected transportation budget or \$500.00 multiplied by the number of children funded for the program under this section. If the amount allocated under this subsection is insufficient to fully reimburse the transportation costs for all programs that provide transportation and submit the required information, the

department of lifelong education, advancement, and potential shall prorate the reimbursement in an equal amount per child funded. The department of lifelong education, advancement, and potential shall make payments to the intermediate district that is the fiscal agent for each program, and the intermediate district shall then reimburse the program provider for transportation costs as prescribed under this subsection.

(23) Subject to, and from the funds allocated under, subsection (22), the department of lifelong education, advancement, and potential shall reimburse a program for transportation costs related to parent- or guardian-accompanied transportation provided by transportation service companies, buses, or other public transportation services. (c) Any other documentation or information determined necessary by the department of lifelong education, advancement, and potential.

(24) The department of lifelong education, advancement, and potential shall implement a process to review and approve age-appropriate comprehensive classroom level quality assessments for GSRP grantees that support the early childhood standards of quality for prekindergarten children adopted by the state board. The department of lifelong education, advancement, and potential shall make available to intermediate districts at least 2 classroom level quality assessments that were approved in 2018.

(25) An intermediate district that is a GSRP grantee may approve the use of a supplemental curriculum that aligns with and enhances the age-appropriate educational curriculum in the classroom. If the department of lifelong education, advancement, and potential objects to the use of a supplemental curriculum approved by an intermediate district, the director of the department of lifelong education, advancement, and potential shall establish a review committee independent of the department of lifelong education, advancement, and potential. The review committee shall meet within 60 days of the department of lifelong education, advancement, and potential registering its objection in writing and provide a final determination on the validity of the objection within 60 days of the review committee's first meeting.

(1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$19,400,000.00 to intermediate districts for 2023-2024 for the purpose of providing early childhood funding to intermediate districts to support the goals and outcomes under subsections (2) and (4), and to provide supports for early childhood programs for children from birth through age 8. The funding provided to each intermediate district under this section is determined by the distribution formula established by the department's office of great start to provide equitable funding statewide. In order to receive funding under this section, each intermediate district must provide an application to the office of great start not later than September 15 of the immediately preceding fiscal year indicating the strategies planned to be provided.

(2) Each intermediate district or consortium of intermediate districts that receives funding under this section shall convene a local great start collaborative and a family coalition that includes an active partnership with at least 1 community-based organization. The goal of each great start collaborative and family coalition is to ensure the coordination and expansion of local early childhood systems and programs that allow every child in the community to achieve the following outcomes:

- (a) Children born healthy.
- (b) Children healthy, thriving, and developmentally on track from birth to grade 3.
- (c) Children developmentally ready to succeed in school at the time of school entry.
- (d) Children prepared to succeed in fourth grade and beyond by reading proficiently by the end of third grade.

(3) Each local great start collaborative and family coalition shall convene workgroups to make recommendations about community services designed to achieve the outcomes described in subsection (2) and to ensure that its local great start system includes the following supports for children from birth through age 8:

- (a) Physical and social-emotional health.
- (b) Family supports, including, but not limited to, the provision of basic needs and economic self-sufficiency.
- (c) Parent leadership and family engagement.
- (d) Early education, including the child's development of skills linked to success in foundational literacy, and care.
- (e) Community infrastructure.

(4) From the funds allocated in subsection (1), at least \$3,500,000.00 must be used for the purpose of providing home visits to at-risk children and their families. The home visits must be conducted as part of a locally coordinated, family-centered, evidence-based, data-driven home visit strategic plan that is approved by the department. The goals of the home visits funded under this subsection are to improve school readiness using evidence-based methods, including a focus on developmentally appropriate outcomes for early literacy, to improve positive parenting practices, and to improve family economic self-sufficiency while reducing the impact of high-risk factors through community resources and referrals. The department shall coordinate the goals of the home visit strategic plans approved under this subsection with other state agency home visit programs in a way that strengthens Michigan's home visiting infrastructure and maximizes federal funds available for the purposes of at-risk family home visits. The coordination among departments and agencies is intended to avoid duplication of state services and spending, and should emphasize efficient service delivery of home visiting programs.

(5) Not later than December 1 of each year, each intermediate district shall provide a report to the department detailing the strategies actually implemented during the immediately preceding school year and the families and children actually served. At a minimum, the report must include an evaluation of the services provided with additional funding under subsection (4) for home visits, using the goals identified in subsection (4) as the basis for the evaluation, including the degree to which school readiness was improved, the degree to

which positive parenting practices were improved, the degree to which there was improved family economic self-sufficiency, and the degree to which community resources and referrals were utilized. The department shall compile and summarize these reports and submit its summary to the house and senate appropriations subcommittees on school aid and to the house and senate fiscal agencies not later than February 15 of each year.

(6) In addition to the funds allocated in subsection (1), from the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$4,000,000.00 for 2023-2024 only for the purpose of improving access to books and other literacy materials for children from birth to age 5. The formula described in subsection (1) must be used to allocate funds to intermediate districts under this subsection. An intermediate district may use the funding to support programs, including, but not limited to, the Dolly Parton Imagination Library, Reach Out and Read Michigan, or any other program that provides books and literacy materials to children from birth to age 5. If funding under this subsection is not sufficient to enroll all interested families in the service, each intermediate district must prioritize enrollment to those families with the highest levels of economic need. If an intermediate district will not fully utilize funding under this subsection, those funds must be returned to the department for redistribution for the purposes under this subsection.

(7) An intermediate district or consortium of intermediate districts that receives funding under this section may carry over any unexpended funds received under this section into the next fiscal year and may expend those unused funds through June 30 of the next fiscal year. However, an intermediate district or consortium of intermediate districts that receives funding for the purposes described in subsection (2) in the current fiscal year shall not carry over into the next fiscal year any amount exceeding 15% of the amount awarded to the intermediate district or consortium in the current fiscal year. A recipient of a grant shall return any unexpended grant funds to the department in the manner prescribed by the department not later than September 30 of the next fiscal year after the fiscal year in which the funds are received.

Excluding staff or contracted employees funded under subsection (8), the superintendent shall designate staff or contracted employees funded under this section as critical shortage. Programs funded under this section are intended to ensure that this state will be a top 10 state in grade 4 reading proficiency by 2025 according to the National Assessment of Educational Progress (NAEP). By December 31 of each fiscal year in which funding is allocated under this section, the superintendent of public instruction shall do both of the following:

(d) Comprehension - making meaning of text.

(4) From the allocation under subsection (1), there is allocated an amount not to exceed \$42,000,000.00 for 2023-2024 for the purpose of providing early literacy coaches at intermediate districts to assist teachers in developing and implementing instructional strategies for pupils in grades pre-K to 3 so that pupils are reading at grade level by the end of grade 3. All of the following apply to funding under this subsection:

(iii) The use of data from diagnostic tools to determine the necessary additional supports and interventions needed by individual pupils in grades pre-K to 3 in order to be reading at grade level.

(b) From the allocation under this subsection, the department shall award grants to intermediate districts for the support of early literacy coaches. The department shall provide this funding in the following manner:

Sec. 35m. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2024-2025 only an amount not to exceed \$87,000,000.00 for the purposes described in this section, including payments to improve educational outcomes in literacy.

(2) The department shall create the committee for literacy achievement that includes representatives of higher education and early childhood literacy educators who have expertise in literacy instruction and research. The department shall appoint the members of the committee for literacy achievement. The department shall develop a process to identify and assemble experts for the committee. The primary focus of the committee is to recommend tools and strategies with the goal of increasing student academic outcomes in the area of literacy. The committee is encouraged to collaborate with the Michigan Education Research Institute or other entities with similar expertise on the subject of literacy. The department shall determine the size, timeline, and benchmarks of the committee. The committee shall do all of the following:

(a) Critically evaluate early literacy series and materials. The committee shall evaluate with research-based outcomes, using the committee's expertise in the field of literacy. The committee shall assign grade tiers to the series based on the series' likelihood to increase student literacy outcomes. Priority must be given to series that already have a demonstrated history of increasing student outcomes.

(b) Critically evaluate literacy professional development. The committee shall evaluate with research-based outcomes, using the committee's expertise in the field of literacy. The committee shall assign grade tiers to the professional development based on the professional development's likelihood to increase student literacy outcomes. Priority must be given to professional development that already has a demonstrated history of increasing student outcomes.

(c) Critically evaluate other applicable literacy tools or services the committee determines to have a high likelihood or demonstrated history of increasing student literacy outcomes.

(d) Create and maintain a rankings list of all early literacy series and other items the committee has evaluated. The committee shall denote on the list whether major changes have been made to an early literacy series or other item on the list since the early literacy series or other item was evaluated by the committee and if the early literacy series or other item has not been evaluated since the last ranking.

(3) An individual on the committee shall recuse themselves from evaluating early literacy series and other items that the individual has helped create, that the individual would benefit from financially, or for which the individual has any other conflict of interest.

(4) From the funds allocated in subsection (1), the department shall make payments to districts and intermediate districts in an amount and on a schedule determined by the department. The department shall use the rankings list described in subsection (2) as the basis for how funding is allocated in subsection (1) to districts and intermediate districts. Districts and intermediate districts using higher-ranked literacy tools that are proven to increase student outcomes shall receive more funding than districts and intermediate districts utilizing lower-ranked literacy tools in both the base award and the per-pupil awards described in this subsection. The department may determine that some districts and intermediate districts will not receive funding under this section based on the effectiveness of the early literacy series or other items being utilized by the district or intermediate district. The department shall award funding under this section using the following methodology:

(a) A base award equal to the amount necessary for the district or intermediate district to implement the chosen early literacy series or other item. The department may place a cap on the total award per district, intermediate district, or early literacy series or other item and may choose not to award funding if the early literacy series or other item is determined to be ineffective or is determined to be less effective than other choices.

(b) A per-pupil award based on the number of pupils in membership at the district and intermediate district.

The per-pupil amount must be larger for districts and intermediate districts using higher-ranked early literacy series or other items as determined under subsection (2). The department may choose not to award funding if the early literacy series or other item is determined to be ineffective or is determined to be less effective than other choices.

(5) From the funding allocated in subsection (1), the department may pay an annual stipend of up to \$8,000.00 for each member of the committee for literacy achievement who is employed by or at a public institution of higher education, a district, or an intermediate district. A stipend must be commensurate with the committee member's contribution to the committee during the fiscal year. Funding must be paid to the public institution of higher education, the district, or the intermediate district where the committee member is employed, and the public institution of higher education, the district, or the intermediate district must then use funding received to award the stipend directly to the individual committee member. A committee member who is not employed by or at a public institution of higher education, a district, or an intermediate district is not eligible to receive a stipend under this subsection.

(6) To be eligible for funding under this section, a district or intermediate district must apply in a form and manner determined by the department. As a condition of receiving the funding, the district or intermediate district must agree to provide to the department information on the early literacy series and other items used for the previous and current school years and to provide this information twice a year, on or before March 31 and August 1.

(7) Except as otherwise provided in this section and notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(8) Funds allocated under this section for 2024-2025 are a work project appropriation, and any unexpended funds for 2024-2025 are carried forward into 2025-2026. The purpose of the work project is to improve literacy instructional practices. The estimated completion date of the work project is September 30, 2028.

388.1635n.added READ innovation competition; report.

Sec. 35n. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2024-2025 only an amount not to exceed \$10,000,000.00 to the READ innovation competition. The READ innovation competition shall provide startup money to eligible districts to develop and deploy innovative literacy initiatives that make a positive impact on student literacy rates and shall provide incentive money to districts determined to have demonstrated the greatest impact. Funds allocated under this section are intended to foster district-led innovations in literacy instruction grounded in the science of reading, provide the state with insights into successful practices that could be scaled statewide, and improve student outcomes in literacy.

(2) The department, in collaboration with the literacy commission, shall establish the structure of the READ innovation competition, including the length of the competition, eligible categories in which districts may compete, the methods and timelines by which districts must collect and report data, the number of rounds of competition, the number of districts eligible to advance to subsequent rounds, and the amount of incentive payments provided per round per district.

(3) To be eligible to receive funding under this section, a district or intermediate district must apply in a form and manner determined by the department. The application must include, at a minimum, all of the following:

(a) The competition category in which the district will compete.

(b) A description of the innovative literacy initiative the district intends to deploy during the competition, including its goals, strategies, target student population, impacted student count, and intended outcomes.

(c) A description of how the district will measure student literacy outcomes during the time frame of the competition in a reliable, periodic, and standardized way, including methods by which student progress in the applicant district can be benchmarked against student progress in other districts.

(d) An agreement to provide data necessary for the department to evaluate student growth.

(e) The amount of funding required by the district to implement the innovative literacy initiative.

(4) Applications received by the department under this section must be evaluated by the literacy commission. A member of the literacy commission shall abstain from evaluating an application and making funding decisions under this section for any district in which the member has a conflict of interest. The evaluation must be based on, at a minimum, all of the following:

(a) The quality of innovation being proposed, the alignment with the selected competition category, and the likelihood that it will result in the outcomes included in the district's application.

(b) The percentage of students districtwide that will be impacted by the proposed program during the time frame of the competition.

(c) The level to which student literacy growth in the applicant district can be benchmarked against student literacy growth in other districts.

(d) The likelihood that the proposed initiative, if successful, could be expanded statewide.

(5) The department shall award startup funding to a selection of the highest scoring applicants for each competition category, based on the evaluation of applicants by the literacy commission. The department may determine a maximum number of eligible districts per competition category. A district is only eligible to compete in 1 competition category. The department may determine a maximum amount of startup money that may be received by any district. Recipients of funding under this subsection must use that funding to implement the recipient's proposed innovative literacy initiatives.

(6) On a periodic basis determined by the department, for each eligible competition category in which a district may compete, the eligible districts must measure and report to the department, in a form and manner determined by the department, growth in student literacy scores amongst students targeted by the innovative literacy initiative. The districts demonstrating the highest levels of student literacy growth advance to the next round of the competition and are eligible for additional incentive money to further implement their innovative literacy initiatives. The department must repeat the process described in this subsection until a selection of 3 finalist districts for each competition category are determined.

(7) The finalist districts for each competition category shall prepare a presentation for the literacy commission with a summary of the district's innovative literacy initiative, including evidence of student growth, specific implementation strategies that led to success, a description of implementation obstacles and the methods used by the district to overcome these obstacles, and ways the program could be scaled for statewide implementation. Based on this summary and the overall demonstrated success of the program, the literacy commission shall select 1 winning district from each competition category. The winning district from each competition category is awarded, by the department, \$500,000.00 to continue to support literacy initiatives and other academic needs of the district.

(8) At the conclusion of the READ innovation competition, the literacy commission shall provide a report to the governor, the house and senate school aid subcommittees, the house and senate fiscal agencies, and the state budget director on the winning literacy initiatives that could be scaled statewide to improve student literacy.

(9) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(10) Notwithstanding section 18a, funds allocated under this section may be available for expenditure until September 30, 2028. A recipient of funding under this section must return any unexpended funds to the department in the manner prescribed by the department by not later than October 30, 2028.

(11) The funds allocated under this section for 2024-2025 are a work project appropriation, and any unexpended funds for 2024-2025 are carried forward into 2025-2026. The purpose of the work project is to continue to implement the READ innovation competition and provide payments to districts implementing innovative literacy initiatives. The estimated completion date of the work project is September 30, 2027.

(12) As used in this section:

(a) "Literacy commission" means a commission or committee selected or assembled by the department for the purposes of administering this section.

(b) "READ innovation competition" means the reading excellence and advancing district innovation competition.

Sec. 39. (1) An eligible applicant receiving funds under section 32d shall submit an application, in a form and manner prescribed by the department, by a date specified by the department in the immediately preceding fiscal year. An eligible applicant is not required to amend the applicant's current accounting cycle or adopt this state's fiscal year accounting cycle in accounting for financial transactions under this section. The application must include all of the following:

(a) The estimated total number of children in the community who meet the criteria of section 32d and the total number of age-eligible children in the community, as provided to the applicant by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. The department shall ensure that it provides updated American Community Survey population data at least once every 3 years.

(b) The estimated number of children in the community who meet the criteria of section 32d and are being served exclusively by Head Start programs operating in the community.

(c) The number of children whom the applicant has the capacity to serve who meet the criteria of section 32d including a verification of physical facility and staff resources capacity.

(2) After notification of funding allocations, an applicant receiving funds under section 32d shall also submit an implementation plan for approval, in a form and manner prescribed by the department, by a date specified by the department, that details how the applicant complies with the program components established by the department under section 32d.

(3) The initial allocation to each eligible applicant under section 32d is the lesser of the following:

(a) The sum of the number of children served in a school-day program in the preceding school year multiplied by \$9,608.00, the number of children served in a GSRP extended program in the preceding school year multiplied by \$11,530.00, and the number of children served in a GSRP/Head Start blended program or a part-day program in the preceding school year multiplied by \$4,804.00.

(b) The sum of the number of children the applicant has the capacity to serve in the current school year in a school-day program multiplied by \$9,608.00, the number of children served in a GSRP extended program the applicant has the capacity to serve in the current school year multiplied by \$11,530.00, and the number of children served in a GSRP/Head Start blended program or a part-day program the applicant has the capacity to serve in the current school year multiplied by \$4,804.00.

(4) If funds remain after the allocations under subsection (3), the department shall distribute the remaining funds to each intermediate district or consortium of intermediate districts that serves less than the state percentage benchmark determined under subsection (5). The department shall distribute these remaining funds to each eligible applicant based upon each applicant's proportionate share of the remaining unserved children necessary to meet the statewide percentage benchmark in intermediate districts or consortia of intermediate districts serving less than the statewide percentage benchmark. When all applicants have been given the opportunity to reach the statewide percentage benchmark, the statewide percentage benchmark may be reset, as determined by the department, until greater equity of opportunity to serve eligible children across all intermediate school districts has been achieved.

(5) For the purposes of subsection (4), the department shall calculate a percentage of children served by each intermediate district or consortium of intermediate districts by adding the number of children served in the immediately preceding year by that intermediate district or consortium with the number of eligible children under section 32d served exclusively by Head Start, as reported in a form and manner prescribed by the department, within the intermediate district or consortia service area and dividing that total by the total number of children within the intermediate district or consortium of intermediate districts who meet the criteria of section 32d as determined by the department utilizing the most recent population data available from the American Community Survey conducted by the United States Census Bureau. The department shall compare the resulting percentage of eligible children served to a statewide percentage benchmark to determine if the intermediate district or consortium is eligible for additional funds under subsection (4). The statewide percentage benchmark is 100%.

(6) If, taking into account the total amount to be allocated to the applicant as calculated under this section, an applicant determines that it is able to include additional eligible children in the great start readiness program without additional funds under section 32d, the applicant may include additional eligible children but

does not receive additional funding under section 32d for those children.

(7) The department shall review the program components under section 32d and under this section at least biennially. The department also shall convene a committee of internal and external stakeholders at least once every 5 years to ensure that the funding structure under this section reflects current system needs under section 32d.

(8) As used in this section, "GSRP/Head Start blended program", "GSRP extended program", "part-day program", and "school-day program" mean those terms as defined in section 32d.

388.1651a Allocations for reimbursement to districts and intermediate districts for special education programs, services, and personnel; net tuition payments for Michigan Schools for the Deaf and Blind; programs for pupils eligible for special education programs and services; shortfall; adjustments; total approved costs; refund; foundation allowance; order of expenditures; responsibility for added costs of special education programs and services for pupil enrolled in public school academy; receipt of federal allocation by cyber school; report of certain information.

Sec. 51a. (1) From the state school aid fund money in section 11, there is allocated an amount not to exceed \$1,822,546,100.00 for 2023-2024 and there is allocated an amount not to exceed \$2,064,096,100.00 for 2024-2025 from state sources and all available federal funding under sections 1411 to 1419 of part B of the individuals with disabilities education act, 20 USC 1411 to 1419, estimated at \$390,000,000.00 for 2023-2024 and \$450,000,000.00 for 2024-2025, plus any carryover federal funds from previous year appropriations. In addition, from the state school aid fund money in section 11, there is allocated an amount not to exceed \$76,150,000.00 for 2023-2024 only to supplement the allocations in this section. The allocations under this subsection are for the purpose of reimbursing districts and intermediate districts for special education programs, services, and special education personnel as prescribed in article 3 of the revised school code, MCL 380.1701 to 380.1761; net tuition payments made by intermediate districts to the Michigan Schools for the Deaf and Blind; and special education programs and services for pupils who are eligible for special education programs and services according to statute or rule. For meeting the costs of special education programs and services not reimbursed under this article, a district or intermediate district may use money in general funds or special education funds, not otherwise restricted, or contributions from districts to intermediate districts, tuition payments, gifts and contributions from individuals or other entities, or federal funds that may be available for this purpose, as determined by the intermediate district plan prepared under article 3 of the revised school code, MCL 380.1701 to 380.1761. Notwithstanding section 17b, the department shall make payments of federal funds to districts, intermediate districts, and other eligible entities under this section on a schedule determined by the department.

(2) From the funds allocated under subsection (1), there is allocated the amount necessary, estimated at \$404,200,000.00 for 2023-2024 and estimated at \$456,800,000.00 for 2024-2025, for payments toward reimbursing districts and intermediate districts for 28.6138% of total approved costs of special education, excluding costs reimbursed under section 53a, and 70.4165% of total approved costs of special education transportation.

(3) If the department determines that the amount allocated for a fiscal year to a district or intermediate district under subsection (2) is insufficient to fulfill the specified percentages in subsection (2), the department shall pay the shortfall to the district or intermediate district during the fiscal year beginning on the October 1 following the determination. If the department determines that the amount allocated for a fiscal year to a

district or intermediate district under subsection (2) exceeds the sum of the amount necessary to fulfill the specified percentages in subsection (2), the department shall deduct the amount of the excess from the district's or intermediate district's payments under this article for the fiscal year beginning on the October 1 following the determination.

(4) State funds are allocated on a total approved cost basis. Federal funds are allocated under applicable federal requirements.

(5) From the amount allocated in subsection (1), there is allocated an amount not to exceed \$3,200,000.00 for 2023-2024 and there is allocated an amount not to exceed \$3,200,000.00 for 2024-2025 to reimburse 100% of the net increase in necessary costs incurred by a district or intermediate district in implementing the revisions in the administrative rules for special education that became effective on July 1, 1987. As used in this subsection, "net increase in necessary costs" means the necessary additional costs incurred solely because of new or revised requirements in the administrative rules minus cost savings permitted in implementing the revised rules. The department shall determine net increase in necessary costs in a manner specified by the department.

(6) For purposes of this section and sections 51b to 58, all of the following apply:

(a) "Total approved costs of special education" are determined in a manner specified by the department and may include indirect costs, but must not exceed 115% of approved direct costs for section 52 and section 53a programs. The total approved costs include salary and other compensation for all approved special education personnel for the program, including payments for Social Security and Medicare and public school employee retirement system contributions. The total approved costs do not include salaries or other compensation paid to administrative personnel who are not special education personnel as that term is defined in section 6 of the revised school code, MCL 380.6. Costs reimbursed by federal funds, other than those federal funds included in the allocation made under this article, are not included. Special education approved personnel not utilized full time in the evaluation of students or in the delivery of special education programs, ancillary, and other related services are reimbursed under this section only for that portion of time actually spent providing these programs and services, with the exception of special education programs and services provided to youth placed in child caring institutions or juvenile detention programs approved by the department to provide an on-grounds education program.

(b) Reimbursement for ancillary and other related services, as that term is defined by R 340.1701c of the Michigan Administrative Code, is not provided when those services are covered by and available through private group health insurance carriers or federal reimbursed program sources unless the department and district or intermediate district agree otherwise and that agreement is approved by the state budget director. Expenses, other than the incidental expense of filing, must not be borne by the parent. In addition, the filing of claims must not delay the education of a pupil. A district or intermediate district is responsible for payment of a deductible amount and for an advance payment required until the time a claim is paid.

(c) If an intermediate district purchases a special education pupil transportation service from a constituent district that was previously purchased from a private entity; if the purchase from the constituent district is at a lower cost, adjusted for changes in fuel costs; and if the cost shift from the intermediate district to the constituent does not result in any net change in the revenue the constituent district receives from payments under sections 22b and 51c, then upon application by the intermediate district, the department shall direct the intermediate district to continue to report the cost associated with the specific identified special education pupil transportation service and shall adjust the costs reported by the constituent district to remove the cost associated with that specific service.

(7) A pupil who is enrolled in a full-time special education program conducted or administered by an intermediate district or a pupil who is enrolled in the Michigan Schools for the Deaf and Blind is not included in the membership count of a district, but is counted in membership in the intermediate district of residence.

(8) Special education personnel transferred from 1 district to another to implement the revised school code are entitled to the rights, benefits, and tenure to which the individual would otherwise be entitled had that individual been employed by the receiving district originally.

(9) If a district or intermediate district uses money received under this section for a purpose other than the purpose or purposes for which the money is allocated, the department may require the district or intermediate district to refund the amount of money received. The department shall deposit money that is refunded in the state treasury to the credit of the state school aid fund.

(10) From the funds allocated in subsection (1), there is allocated the amount necessary, estimated at \$1,700,000.00 for 2023-2024 and estimated at \$1,700,000.00 for 2024-2025, to pay the foundation allowances for pupils described in this subsection. The department shall calculate the allocation to a district under this subsection by multiplying the number of pupils described in this subsection who are counted in membership in the district times the sum of the foundation allowance under section 20 of the pupil's district of

residence, plus the amount of the district's per-pupil allocation under section 20m, not to exceed the target foundation allowance for the current fiscal year, or, for a pupil described in this subsection who is counted in membership in a district that is a public school academy, times an amount equal to the amount per membership pupil under section 20(6). The department shall calculate the allocation to an intermediate district under this subsection in the same manner as for a district, using the foundation allowance under section 20 of the pupil's district of residence not to exceed the target foundation allowance for the current fiscal year and that district's per-pupil allocation under section 20m. This subsection applies to all of the following pupils:

(a) Pupils described in section 53a.

(b) Pupils counted in membership in an intermediate district who are not special education pupils and are served by the intermediate district in a juvenile detention or child caring facility.

(c) Pupils with an emotional impairment counted in membership by an intermediate district and provided educational services by the department of health and human services.

(11) If it is determined that funds allocated under subsection (2) or (10) or under section 51c will not be expended, funds up to the amount necessary and available may be used to supplement the allocations under subsection (2) or (10) or under section 51c to fully fund those allocations. After payments under subsections (2) and (10) and section 51c, the department shall expend the remaining funds from the allocation in subsection (1) in the following order:

(a) One hundred percent of the reimbursement required under section 53a.

(b) One hundred percent of the reimbursement required under subsection (5).

(c) One hundred percent of the payment required under section 54.

(d) One hundred percent of the payments under section 56.

(12) The allocations under subsections (2) and (10) are allocations to intermediate districts only and are not allocations to districts, but instead are calculations used only to determine the state payments under section 22b.

(13) If a public school academy that is not a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, enrolls under this section a pupil who resides outside of the intermediate district in which the public school academy is located and who is eligible for special education programs and services according to statute or rule, or who is a child with a disability, as that term is defined under the individuals with disabilities education act, Public Law 108-446, the intermediate district in which the public school academy is located and the public school academy shall enter into a written agreement with the intermediate district in which the pupil resides for the purpose of providing the pupil with a free appropriate public education, and the written agreement must include at least an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. If the public school academy that enrolls the pupil does not enter into an agreement under this subsection, the public school academy shall not charge the pupil's resident intermediate district or the intermediate district in which the public school academy is located the added costs of special education programs and services for the pupil, and the public school academy is not eligible for any payouts based on the funding formula outlined in the resident or nonresident intermediate district's plan. If a pupil is not enrolled in a public school academy under this subsection, the provision of special education programs and services and the payment of the added costs of special education programs and services for a pupil described in this subsection are the responsibility of the district and intermediate district in which the pupil resides.

(14) For the purpose of receiving its federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, directly receives the federal allocation under part B of the individuals with disabilities education act, Public Law 108-446, from the intermediate district in which the cyber school is located, as the subrecipient. If the intermediate district does not distribute the funds described in this subsection to the cyber school by the part B application due date of July 1, the department may distribute the funds described in this subsection directly to the cyber school according to the formula prescribed in 34 CFR 300.705 and 34 CFR 300.816. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(15) For a public school academy that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a, that enrolls a pupil under this section, the intermediate district in which the cyber school is located shall ensure that the cyber school complies with sections 1701a, 1703, 1704, 1751, 1752, 1756, and 1757 of the revised school code, MCL 380.1701a, 380.1703, 380.1704, 380.1751, 380.1752, 380.1756, and 380.1757; applicable rules; and the individuals with disabilities education act, Public Law 108-446. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding

sentence apply retroactively and is effective July 1, 2021.

(16) For the purposes of this section, the department or the center shall only require a district or intermediate district to report information that is not already available from the financial information database maintained by the center.

388.1656 Definitions; reimbursement to intermediate districts levying millage for special education; limitation; distribution plan; computation; payments.

Sec. 56. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership of the intermediate district and the districts constituent to the intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, membership of the district is not included in the membership of the intermediate district.

(b) "Millage levied" means the millage levied for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741, including a levy for debt service obligations.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district, except that if a district has elected not to come under part 30 of the revised school code, MCL 380.1711 to 380.1741, taxable value of the district is not included in the taxable value of the intermediate district.

(2) From the allocation under section 51a(1), there is allocated an amount not to exceed \$40,008,100.00 for 2023-2024 and \$40,008,100.00 for 2024-2025 to reimburse intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. As a condition of receiving funds under this section, an intermediate district distributing any portion of special education millage funds to its constituent districts must submit for departmental approval and implement a distribution plan.

(3) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2022-2023 is made in 2023-2024 at an amount per 2022-2023 membership pupil computed by subtracting from \$241,300.00 the 2022-2023 taxable value behind each membership pupil and multiplying the resulting difference by the 2022-2023 millage levied, and then subtracting from that amount the 2022-2023 local community stabilization share revenue for special education purposes and 2022-2023 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 62, reimbursements paid under section 26d must be multiplied by the ratio of special education millage levied, as defined in this section, and the sum of special education millage levied and vocational-technical education millage levied, as defined in section 62. Reimbursement in 2023-2024 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(4) Except as otherwise provided in this subsection, reimbursement for those millages levied in 2023-2024 is made in 2024-2025 at an amount per 2023-2024 membership pupil computed by subtracting from \$260,200.00 the 2023-2024 taxable value behind each membership pupil and multiplying the resulting difference by the 2023-2024 millage levied, and then subtracting from that amount the 2023-2024 local community stabilization share revenue for special education purposes and 2023-2024 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act,

1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 62, reimbursements paid under section 26d must be multiplied by the ratio of special education millage levied, as defined in this section, and the sum of special education millage levied and vocational-technical education millage levied, as defined in section 62. Reimbursement in 2024-2025 for an intermediate district whose 2017-2018 allocation was affected by the operation of subsection (5) is an amount equal to 102.5% of the 2017-2018 allocation to that intermediate district.

(5) The department shall ensure that the amount paid to a single intermediate district under subsection (2) does not exceed 62.9% of the total amount allocated under subsection (2).

(6) The department shall ensure that the amount paid to a single intermediate district under subsection (2) is not less than 75% of the amount allocated to the intermediate district under subsection (2) for the immediately preceding fiscal year.

(7) From the allocation under section 51a(1), there is allocated an amount not to exceed \$34,200,000.00 for 2023-2024 and 2024-2025 to provide payments to intermediate districts levying millages for special education under part 30 of the revised school code, MCL 380.1711 to 380.1741. The purpose, use, and expenditure of the payments under this subsection are limited as if the funds were generated by these millages and governed by the intermediate district plan adopted under article 3 of the revised school code, MCL 380.1701 to 380.1761. The department shall provide a payment under this subsection to each intermediate district described in this subsection as follows:

(a) For 2023-2024 and 2024-2025, except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$251.00 and that is levying at least 46.2% but less than 60.0% of its maximum millage rate allowed under section 1724a of the revised school code, MCL 380.1724a, an amount computed by subtracting from \$251.00 the 3-year average special education millage revenue per pupil in the immediately preceding fiscal year and, only if the millage levied by the intermediate district is less than 1, multiplying that amount by the number of mills levied divided by 1, and then multiplying that amount by the 3-year average membership in the immediately preceding fiscal year, and then subtracting from that amount the amount allocated under subsection (2) for the current fiscal year. If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(b) For 2023-2024 and 2024-2025, except as otherwise provided in this subsection, for an intermediate district with a 3-year average special education millage revenue per pupil in the immediately preceding fiscal year that is less than \$296.00 and that is levying at least 60.0% of its maximum millage rate allowed under section 1724a of the revised school code, MCL 380.1724a, an amount computed by subtracting from \$296.00 the 3-year average special education millage revenue per pupil in the immediately preceding fiscal year, and, only if the millage levied by the intermediate district is less than 1, multiplying that amount by the number of mills levied divided by 1, and then multiplying that amount by the 3-year average membership in the immediately preceding fiscal year, and then subtracting from that amount the amount allocated under subsection (2) for the current fiscal year. If the calculation under this subdivision results in an amount below zero, there is no payment under this subdivision.

(8) After making allocations to eligible intermediate districts under subsections (3), (4), and (7), if funds remain unallocated from the allocations under subsections (2) and (7), the department must allocate remaining funds to intermediate districts proportional to the amounts allocated to intermediate districts under subsections (3) and (4).

(9) As used in subsection (7):

(a) "3-year average membership" means the 3-year average pupil membership for each of the 3 most recent fiscal years.

(b) "3-year average special education millage revenue per pupil" means the 3-year average taxable value per mill levied behind each membership pupil for each of the 3 most recent fiscal years multiplied by the millage levied in the most recent fiscal year.

Standard occupational codes within high-ranking clusters also may be further ranked by median wage and annual job openings. The career and educational advisory council located in the workforce development board service delivery area shall review the rankings and modify them if necessary to accurately reflect employer demand for talent in the workforce development board service delivery area. 388.1661c Allocation to eligible career education planning districts (CEPDs); equipment upgrades for CTE programs; growth, development, and retention of skilled workforce; report; definitions.

Sec. 61c. (1) From the state school aid fund money appropriated in section 11, there is allocated for 2023-2024 only an amount not to exceed \$15,000,000.00 to eligible career education planning districts (CEPDs) for the purposes described in this section.

(2) To be eligible to receive funding in the first round of grants under this section, at least 50% of the area served by a CEPD must be located in an intermediate district that did not levy a vocational education millage in 2023. Each eligible CEPD must apply in a form and manner prescribed by the department. An application must include the funding amount requested by the CEPD. Funding to an eligible CEPD must be equal to the quotient of the allocation under subsection (1) and the number of eligible CEPDs applying for funding in the first round of grants, or the individual CEPD's requested funding amount, whichever is less.

(3) If funding remains after the first round of grants under subsection (2), the department may administer a second round of grants under this section. To be eligible to receive funding in the second round of grants, a CEPD must not have been eligible for funding in the first round of grants. Each eligible CEPD must apply in a form and manner prescribed by the department. An application must include the funding amount requested by the CEPD. Funding to each eligible CEPD must be equal to the quotient of the funds remaining after the first round of grants and the number of CEPDs applying for funding in the second round of grants.

(4) At least 50% of the funding allocated to each eligible CEPD must be used to update equipment in current state-approved CTE programs that have been identified in the highest 5 career cluster rankings in any of the prosperity regions in the most recent CEPD regional strategic plans approved by the department; for training on new equipment; for professional development relating to computer science or coding or new equipment purchases; for the replacement of old or outdated equipment or new equipment in existing state-approved CTE programs that align with new technology used in industries; or for new and emerging certified state-approved CTE programs to allow CEPD administrators to provide programming in communities that will enhance economic development. The funding for equipment should be used to support and enhance community areas that have sustained job growth, and act as a commitment to build a more qualified and skilled workforce. In addition, each CEPD is encouraged to explore the option of leasing equipment from local private industry to encourage the use of the most advanced equipment.

(5) The allocation of funds under this section at the local level must be determined by CEPD administrators using data from the state, region, and local sources to make well-informed decisions on program equipment improvements. Grants awarded by CEPD administrators for capital infrastructure costs related to the purchase of new equipment must be used to ensure that state-approved CTE programs can deliver educational programs in high-wage, high-skill, and high-demand occupations. Each CEPD shall continue to ensure that program advisory boards make recommendations on needed improvements for equipment that support job growth and job skill development and retention for both the present and the future.

(6) Not later than December 15 of each fiscal year, each CEPD receiving funding shall annually report to the department, the senate and house appropriations subcommittees on school aid, the senate and house fiscal agencies, and the legislature on equipment purchased under subsection (1). In addition, the report must identify growth data on program involvement, retention, and development of student skills.

(7) As used in this section:

(a) "CEPD" means a career education planning district described in this section.

(b) "CTE" means career and technical education.

388.1662 Definitions; vocational-technical education program; reimbursement for millages; limitation; payments.

Sec. 62. (1) For the purposes of this section:

(a) "Membership" means for a particular fiscal year the total membership of the intermediate district and the districts constituent to the intermediate district or the total membership of the area vocational-technical program, except that if a district has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, the membership of that district are not included in the membership of the intermediate district. However, the membership of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, is included in the membership of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(b) "Millage levied" means the millage levied for area vocational-technical education under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, including a levy for debt service obligations incurred as the result of borrowing for capital outlay projects and in meeting capital projects fund requirements of area vocational-technical education.

(c) "Taxable value" means the total taxable value of the districts constituent to an intermediate district or area vocational-technical education program, except that if a district has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, the taxable value of that district is not included in the taxable value of the intermediate district. However, the taxable value of a district that has elected not to come under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690, is included in the taxable value of the intermediate district if the district meets both of the following:

(i) The district operates the area vocational-technical education program pursuant to a contract with the intermediate district.

(ii) The district contributes an annual amount to the operation of the program that is commensurate with the revenue that would have been raised for operation of the program if millage were levied in the district for the program under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690.

(2) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$9,190,000.00 each fiscal year for 2023-2024 and 2024-2025 to reimburse intermediate districts and area vocational-technical education programs established under section 690(3) of the revised school code, MCL 380.690, levying millages for area vocational-technical education under sections 681 to 690 of the revised school code, MCL 380.681 to 380.690. The purpose, use, and expenditure of the reimbursement are limited as if the funds were generated by those millages.

(3) Reimbursement for those millages levied in 2022-2023 is made in 2023-2024 at an amount per 2022-2023 membership pupil computed by subtracting from \$251,400.00 the 2022-2023 taxable value behind each membership pupil and multiplying the resulting difference by the 2022-2023 millage levied, and then subtracting from that amount the 2022-2023 local community stabilization share revenue for area vocational technical education and 2022-2023 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 56, reimbursements paid under section 26d must be multiplied by the ratio of vocational-technical education millage levied, as defined in this section, and the sum of vocational-technical education millage levied and special education millage levied, as defined in section 56.

(4) Reimbursement for those millages levied in 2023-2024 is made in 2024-2025 at an amount per 2023-2024 membership pupil computed by subtracting from \$269,800.00 the 2023-2024 taxable value behind each membership pupil and multiplying the resulting difference by the 2023-2024 millage levied, and then

subtracting from that amount the 2023-2024 local community stabilization share revenue for area vocational technical education and 2023-2024 tax increment revenues captured by a brownfield redevelopment authority created under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670, behind each membership pupil for reimbursement of personal property exemption loss under the local community stabilization authority act, 2014 PA 86, MCL 123.1341 to 123.1362, and reimbursements paid under section 26d for tax increment revenues captured by a brownfield redevelopment authority under the brownfield redevelopment financing act, 1996 PA 381, MCL 125.2651 to 125.2670. For the purposes of the calculation described in the previous sentence only, for an intermediate district receiving funds under this section and section 56, reimbursements paid under section 26d must be multiplied by the ratio of vocational-technical education millage levied, as defined in this section, and the sum of vocational-technical education millage levied and special education millage levied, as defined in section 56.

(5) The department shall ensure that the amount paid to a single intermediate district under this section does not exceed 38.4% of the total amount allocated under subsection (2).

(6) The department shall ensure that the amount paid to a single intermediate district under this section is not less than 75% of the amount allocated to the intermediate district under this section for the immediately preceding fiscal year.

Funds under this section must be administered through the department, to be distributed to districts and intermediate districts using guidelines from the department of environment, Great Lakes, and energy's clean fleet initiative that supports the conversion of vehicular fleets to low- or no- greenhouse gas emissions operations as determined by the department of environment, Great Lakes, and energy. Alternative fuel vehicles, including, but not limited to, vehicles that operate using electricity, propane, and natural gas, are eligible expenses under this section.

(2) Qualified recipients must apply for funding in a form and manner determined by the department. (6) Funds under this section must not be used for the purchase of foreign goods or services, or both, if competitively priced and of comparable quality American goods or services, or both, are available.

(7) Notwithstanding section 17b, the department shall make payments under this section on a schedule determined by the department.

(8) The funds allocated under this section for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to provide support for qualified recipients to transition to environmentally friendly transportation vehicles. The

(c) By not later than 60 days after applications are closed as described in subdivision (b), make all determinations concerning funding under this section.

(d) By not later than July 1 of the current fiscal year, publish a document listing the requirements for becoming an approved program or vendor under subdivision (a).

(3) Except as otherwise provided under this subsection, if funding under this section is insufficient to fulfill all funding requests by qualified applicants under this section, the department shall prorate the total funding allocated under this section equally among all qualified applicants. However, for funding under this section toward grants under subsection (5)(b), in its proration under this subsection, the department shall ensure that each district is paid in an amount equal to the percentage the department would have paid the district in grant funding under subsection (5)(b), but for proration under this subsection, with no district receiving a grant under subsection (5)(b) in an amount that is greater than the district's total accrued costs under subsection (5)(b).

(4) A district, nonpublic school, or intermediate district applying for a grant under this section must submit an application in a form and manner prescribed by the department. To be eligible for a grant, a district, nonpublic school, or intermediate district must demonstrate in its application that the district, nonpublic school, or intermediate district has established a partnership for the purposes of the robotics program with at least 1 sponsor, business entity, higher education institution, or technical school, shall submit a spending plan, and shall provide a local in-kind or cash match from other private or local funds of at least 25% of the cost of the robotics program award.

388.1699h.amended FIRST Robotics program; eligibility..

Sec. 99h. (1) From the state school aid fund money appropriated in section 11, there is allocated an amount not to exceed \$4,723,200.00 for 2024-2025 for competitive grants to districts and intermediate districts, and from the general fund money appropriated in section 11, there is allocated \$600,000.00 for 2024-2025 for competitive grants to nonpublic schools, that provide pupils in grades pre-K to 12 with expanded opportunities to improve mathematics, science, computer science, and technology skills by participating in robotics competition programs hosted by program providers including, but not limited to, FIRST (for inspiration and recognition of science and technology) Robotics, including FIRST Lego League - Discover, Explore, and Challenge, FIRST Tech challenge, and FIRST Robotics competition, LTU Robofest, MATE (Marine Advanced Technical Education), REC (Robotics Education Competition) Foundation, Square One Education Network, VEX, and other providers approved by the department. All approved providers shall make all programs available to students in this state regardless of geographical location. Programs funded under this section are intended to increase the number of pupils demonstrating proficiency in science and mathematics on the state assessments and to increase the number of pupils who are college- and career-ready upon high school graduation. Notwithstanding section 17b, the department shall make grant payments to districts, nonpublic schools, and intermediate districts under this section on a schedule determined by the department. The department shall set maximum grant awards for each different level of programming and competition in a manner that both maximizes the number of teams that will be able to receive funds and expands the geographical distribution of teams. Districts and intermediate districts that receive funds under this section must provide relevant student participation information, as determined by the department, to program and competition providers described in this section. For a district or intermediate district to count a program competition provider for purposes of payments under this section, the program and competition providers must agree to aggregate data received by districts and intermediate districts and provide this information to the department in a form and manner determined by the department.

(2) The department shall do all of the following for purposes of this section:

(a) Both of the following by not later than 60 days after the state school aid appropriations bill for the current fiscal year is enacted into law or October 1 of the current fiscal year, whichever is later:

(i) Open applications for funding under this section to all districts, nonpublic schools, and intermediate districts.

(ii) Publish a list of approved programs and vendors for purposes of this section in a manner that is accessible to all applicants. To obtain approval under this subparagraph, a program or vendor must submit to the department registration information, including any fees; pledge that it will post this information on its website; and, by not later than January 1 of the current fiscal year, submit this information to the department for publication on the department's website.

(b) By not later than 60 days after applications are opened as described in subdivision (a), close applications under this section.

(c) By not later than 60 days after applications are closed as described in subdivision (b), make all determinations concerning funding under this section.

(d) By not later than July 1 of the current fiscal year, publish a document listing the requirements for becoming an approved program or vendor under subdivision (a).

(3) Except as otherwise provided under this subsection, if funding under this section is insufficient to fulfill all funding requests by qualified applicants under this section, the department shall prorate the total funding allocated under this section equally among all qualified applicants. However, for funding under this section toward grants under subsection (5)(b), in its proration under this subsection, the department shall ensure that each district is paid in an amount equal to the percentage the department would have paid the district in grant funding under subsection (5)(b), but for proration under this subsection, with no district receiving a grant under subsection (5)(b) in an amount that is greater than the district's total accrued costs under subsection

(5)(b).

(4) A district, nonpublic school, or intermediate district applying for a grant under this section must submit an application in a form and manner prescribed by the department. To be eligible for a grant, a district, nonpublic school, or intermediate district must demonstrate in its application that the district, nonpublic school, or intermediate district has established a partnership for the purposes of the robotics program with at least 1 sponsor, business entity, higher education institution, technical school, or individual, must submit a budget, and must provide a local in-kind or cash match from other private or local funds of at least 25% of the cost of the robotics program award.

(5) The department shall distribute the grant funding under this section for the following purposes:

(a) Grants to districts, nonpublic schools, or intermediate districts to pay for stipends not to exceed \$1,500.00 per building for coaching.

(b) Grants to districts, nonpublic schools, or intermediate districts for event registrations, materials, travel costs, and other expenses associated with the preparation for and attendance at robotics events and competitions.

(c) Grants to districts, nonpublic schools, or intermediate districts for awards to teams that advance to the next levels of competition as determined by the department. The department shall determine an equal amount per team for those teams that advance.

(6) A nonpublic school that receives a grant under this section may use the funds for either robotics or Science Olympiad programs.

(7) To be eligible to receive funds under this section, a nonpublic school must be a nonpublic school registered with the department and must meet all applicable state reporting requirements for nonpublic schools.

(8) To be eligible to receive a grant under this section, a district, nonpublic school, or intermediate district must do all of the following:

(a) If the district, nonpublic school, or intermediate district is requesting funding for more than 1 team for a building, meet the minimum requirements for team size as determined by the approved program provider.

(b) Participate in at least the minimum number of competitions as determined by the approved program provider.

(c) Participate in at least 1 in-person competition.

(9) For purposes of this section, an approved program or vendor under this section that provides a program under this section shall not work with the department to set prices or policies for the program.

(10) As used in this section, "current fiscal year" means the fiscal year for which an allocation is made under this section.

History: Add. 2023, Act 103, Eff. Oct. 1, 2023.

388.1701 Eligibility to receive state aid; submission of number of pupils enrolled and in

regular daily attendance; certification of data; noncompliance; withholding state aid; pupil instruction; minimum number of hours or days; requirements; guidelines; waiver; counting number of hours of qualifying teacher professional development; subsections (3) and (8) inapplicable to cyber school or dropout recovery program; "eligible pupil" defined; review of waiver standards.

Sec. 101. (1) To be eligible to receive state aid under this article, not later than the fifth Wednesday after the pupil membership count day and not later than the fifth Wednesday after the supplemental count day, each district superintendent shall submit and certify to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance, including identification of tuition-paying pupils, in the district as of the pupil membership count day and as of the supplemental count day, as applicable, for the current school year. In addition, a district maintaining school during the entire year shall submit and certify to the center and the intermediate superintendent, in the form and manner prescribed by the center, the number of pupils enrolled and in regular daily attendance in the district for the current school year pursuant to rules promulgated by the superintendent. Not later than the sixth Wednesday after the pupil membership count day and not later than the sixth Wednesday after the supplemental count day, the district shall resolve any pupil membership conflicts with another district, correct any data issues, and recertify the data in a form and manner prescribed by the center and file the certified data with the intermediate superintendent. If a district fails to submit and certify the attendance data, as required under this subsection, the center shall notify the department and the department shall withhold state aid due to be distributed under this article from the defaulting district immediately, beginning with the next payment after the failure and continuing with each payment until the district complies with this subsection. If a district does not comply with this subsection by the end of the fiscal year, the district forfeits the amount withheld. A person who willfully falsifies a figure or statement in the certified and sworn copy of enrollment is subject to penalty as prescribed by section 161.

(2) To be eligible to receive state aid under this article, not later than the twenty-fourth Wednesday after the pupil membership count day and not later than the twenty-fourth Wednesday after the supplemental count day, an intermediate district shall submit to the center, in a form and manner prescribed by the center, the audited enrollment and attendance data as described in subsection (1) for the pupils of its constituent districts and of the intermediate district. If an intermediate district fails to submit the audited data as required under this subsection, the department shall withhold state aid due to be distributed under this article from the defaulting intermediate district immediately, beginning with the next payment after the failure and continuing with each payment until the intermediate district complies with this subsection. If an intermediate district does not comply with this subsection by the end of the fiscal year, the intermediate district forfeits the amount withheld.

(3) Except as otherwise provided in subsections (11) and (12) all of the following apply to the provision of pupil instruction:

(a) Except as otherwise provided in this section, each district shall provide at least 1,098 hours and 180 days of pupil instruction. If a collective bargaining agreement that provides a complete school calendar was in effect for employees of a district as of June 24, 2014, and if that school calendar is not in compliance with this subdivision, then this subdivision does not apply to that district until after the expiration of that collective bargaining agreement. A district may apply for a waiver under subsection (9) from the requirements of this subdivision.

(b) Except as otherwise provided in this article, a district failing to comply with the required minimum hours and days of pupil instruction under this subsection forfeits from its total state aid allocation an amount determined by applying a ratio of the number of hours or days the district was in noncompliance in relation to the required minimum number of hours and days under this subsection. Not later than the first business day in August, the board of each district shall either certify to the department that the district was in full compliance with this section regarding the number of hours and days of pupil instruction in the previous school year, or report to the department, in a form and manner prescribed by the center, each instance of noncompliance. If the district did not provide at least the required minimum number of hours and days of pupil instruction under this subsection, the department shall make the deduction of state aid in the following fiscal year from the first payment of state school aid. A district is not subject to forfeiture of funds under this subsection for a fiscal year in which a forfeiture was already imposed under subsection (6).

(c) Hours or days lost because of strikes or teachers' conferences are not counted as hours or days of pupil instruction.

(d) Except as otherwise provided in subdivisions (e) and (f), if a district does not have at least 75% of the district's membership in attendance on any day of pupil instruction, the department shall pay the district state

aid in that proportion of 1/180 that the actual percent of attendance bears to 75%.

(e) If a district adds 1 or more days of pupil instruction to the end of its instructional calendar for a school year to comply with subdivision (a) because the district otherwise would fail to provide the required minimum number of days of pupil instruction even after the operation of subsection (4) due to conditions not within the control of school authorities, then subdivision (d) does not apply for any day of pupil instruction that is added to the end of the instructional calendar. Instead, for any of those days, if the district does not have at least 60% of the district's membership in attendance on that day, the department shall pay the district state aid in that proportion of 1/180 that the actual percentage of attendance bears to 60%. For any day of pupil instruction added to the instructional calendar as described in this subdivision, the district shall report to the department the percentage of the district's membership that is in attendance, in the form and manner prescribed by the department.

(f) At the request of a district that operates a department-approved alternative education program and that does not provide instruction for pupils in all of grades K to 12, the superintendent shall grant a waiver from the requirements of subdivision (d). The waiver must provide that an eligible district is subject to the proration provisions of subdivision (d) only if the district does not have at least 50% of the district's membership in attendance on any day of pupil instruction. In order to be eligible for this waiver, a district must maintain records to substantiate its compliance with the following requirements:

(i) The district offers the minimum hours of pupil instruction as required under this section.

(ii) For each enrolled pupil, the district uses appropriate academic assessments to develop an individual education plan that leads to a high school diploma.

(iii) The district tests each pupil to determine academic progress at regular intervals and records the results of those tests in that pupil's individual education plan.

(g) All of the following apply to a waiver granted under subdivision (f):

(i) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(ii) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil participates in the educational program for at least 1,098 hours during a school year, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(iii) A waiver that is not a waiver described in subparagraph (i) or (ii) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(h) The superintendent shall promulgate rules for the implementation of this subsection.

(4) All of the following apply to the counting of days and hours of pupil instruction under this section:

(a) Except as otherwise provided in this subsection, the first 6 days or the equivalent number of hours for which pupil instruction is not provided because of conditions not within the control of school authorities, such as severe storms, fires, epidemics, utility power unavailability, water or sewer failure, or health conditions as defined by the city, county, or state health authorities, are counted as hours and days of pupil instruction.

(b) With the approval of the superintendent of public instruction, the department shall count as hours and days of pupil instruction for a fiscal year not more than 3 additional days or the equivalent number of additional hours for which pupil instruction is not provided in a district due to unusual and extenuating occurrences resulting from conditions not within the control of school authorities such as those conditions described in this subsection.

(c) A district that counts hours or days of professional development for teachers as hours or days of pupil instruction, as provided under subsection (10), is eligible to have additional hours or days counted as hours and days of pupil instruction as provided under subdivision (b) to the same extent as a district that does not count hours or days of professional development for teachers as hours or days of pupil instruction.

(d) In deciding whether or not to approve the counting of additional hours or days of pupil instruction under subdivision (b) for a district, the superintendent of public instruction shall not take into account whether or not the district counts hours or days of professional development for teachers as hours or days of pupil instruction, as provided under subsection (10).

(e) Subsequent hours or days beyond those described in subdivisions (a) and (b) are not counted as hours or days of pupil instruction.

(5) A district does not forfeit part of its state aid appropriation because it adopts or has in existence an alternative scheduling program for pupils in kindergarten if the program provides at least the number of hours required under subsection (3) for a full-time equated membership for a pupil in kindergarten as provided under section 6(4).

(6) In addition to any other penalty or forfeiture under this section, if at any time the department

determines that 1 or more of the following have occurred in a district, the district forfeits in the current fiscal year beginning in the next payment to be calculated by the department a proportion of the funds due to the district under this article that is equal to the proportion below the required minimum number of hours and days of pupil instruction under subsection (3), as specified in the following:

(a) The district fails to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(b) The board of the district takes formal action not to operate its schools for at least the required minimum number of hours and days of pupil instruction under subsection (3) in a school year, including hours and days counted under subsection (4).

(7) In providing the minimum number of hours and days of pupil instruction required under subsection (3), a district shall use the following guidelines, and a district shall maintain records to substantiate its compliance with the following guidelines:

(a) Except as otherwise provided in this subsection, a pupil must be scheduled for at least the required minimum number of hours of instruction, excluding study halls, or at least the sum of 90 hours plus the required minimum number of hours of instruction, including up to 2 study halls.

(b) The time a pupil is assigned to any tutorial activity in a block schedule may be considered instructional time, unless that time is determined in an audit to be a study hall period.

(c) Except as otherwise provided in this subdivision, a pupil in grades 9 to 12 for whom a reduced schedule is determined to be in the individual pupil's best educational interest must be scheduled for a number of hours equal to at least 80% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil. A pupil in grades 9 to 12 who is scheduled in a 4-block schedule may receive a reduced schedule under this subsection if the pupil is scheduled for a number of hours equal to at least 75% of the required minimum number of hours of pupil instruction to be considered a full-time equivalent pupil.

(d) If a pupil in grades 9 to 12 who is enrolled in a cooperative education program or a special education pupil cannot receive the required minimum number of hours of pupil instruction solely because of travel time between instructional sites during the school day, that travel time, up to a maximum of 3 hours per school week, is considered to be pupil instruction time for the purpose of determining whether the pupil is receiving the required minimum number of hours of pupil instruction. However, if a district demonstrates to the satisfaction of the department that the travel time limitation under this subdivision would create undue costs or hardship to the district, the department may consider more travel time to be pupil instruction time for this purpose.

(e) In grades 7 through 12, instructional time that is part of a Junior Reserve Officer Training Corps (JROTC) program is considered to be pupil instruction time regardless of whether the instructor is a certificated teacher if all of the following are met:

(i) The instructor has met all of the requirements established by the United States Department of Defense and the applicable branch of the armed services for serving as an instructor in the Junior Reserve Officer Training Corps program.

(ii) The board of the district or intermediate district employing or assigning the instructor complies with the requirements of sections 1230 and 1230a of the revised school code, MCL 380.1230 and 380.1230a, with respect to the instructor to the same extent as if employing the instructor as a regular classroom teacher.

(8) Except as otherwise provided in subsections (11) and (12), the department shall apply the guidelines under subsection (7) in calculating the full-time equivalency of pupils.

(9) Upon application by the district for a particular fiscal year, the superintendent shall waive for a district the minimum number of hours and days of pupil instruction requirement of subsection (3) for a department-approved alternative education program or another innovative program approved by the department, including a 4-day school week. If a district applies for and receives a waiver under this subsection and complies with the terms of the waiver, the district is not subject to forfeiture under this section for the specific program covered by the waiver. If the district does not comply with the terms of the waiver, the amount of the forfeiture is calculated based upon a comparison of the number of hours and days of pupil instruction actually provided to the minimum number of hours and days of pupil instruction required under subsection (3). A district shall report pupils enrolled in a department-approved alternative education program under this subsection to the center in a form and manner determined by the center. All of the following apply to a waiver granted under this subsection:

(a) If the waiver is for a blended model of delivery, a waiver that is granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(b) If the waiver is for a 100% online model of delivery and the educational program for which the waiver is granted makes educational services available to pupils for a minimum of at least 1,098 hours during a school year and ensures that each pupil is on track for course completion at proficiency level, a waiver that is

granted for the 2011-2012 fiscal year or a subsequent fiscal year remains in effect unless it is revoked by the superintendent.

(c) A waiver that is not a waiver described in subdivision (a) or (b) is valid for 3 fiscal years, unless it is revoked by the superintendent, and must be renewed at the end of the 3-year period to remain in effect.

(10) A district may count up to 38 hours of professional development for teachers as hours of pupil instruction. All of the following apply to the counting of professional development as pupil instruction under this subsection:

(a) If the professional development exceeds 5 hours in a single day, that day may be counted as a day of pupil instruction.

(b) At least 8 hours of the professional development counted as hours of pupil instruction under this subsection must be recommended by a districtwide professional development advisory committee appointed by the district board. The advisory committee must be composed of teachers employed by the district who represent a variety of grades and subject matter specializations, including special education; nonteaching staff; parents; and administrators. The majority membership of the committee must be composed of teaching staff.

(c) Professional development provided online is allowable and encouraged, as long as the instruction has been approved by the district. The department shall issue a list of approved online professional development providers that must include the Michigan Virtual School.

(d) Professional development may only be counted as hours of pupil instruction under this subsection for the pupils of those teachers scheduled to participate in the professional development.

(e) The professional development must meet all of the following to be counted as pupil instruction under this subsection:

(i) Be aligned to the school or district improvement plan for the school or district in which the professional development is being provided.

(ii) Be linked to 1 or more criteria in the evaluation tool developed or adopted by the district or intermediate district under section 1249 of the revised school code, MCL 380.1249.

(iii) Has been approved by the department as counting for state continuing education clock hours. The number of hours of professional development counted as hours of pupil instruction under this subsection may not exceed the number of state continuing education clock hours for which the professional development was approved.

(iv) Not more than a combined total of 10 hours of the professional development takes place before the first scheduled day of school for the school year ending in the fiscal year and after the last scheduled day of school for that school year.

(v) Not more than 10 hours of the professional development takes place in a single month.

(vi) At least 75% of teachers scheduled to participate in the professional development are in attendance.

(11) Subsections (3) and (8) do not apply to a school of excellence that is a cyber school, as that term is defined in section 551 of the revised school code, MCL 380.551, and is in compliance with section 553a of the revised school code, MCL 380.553a. Beginning July 1, 2021, this subsection is subject to section 8c. It is the intent of the legislature that the immediately preceding sentence apply retroactively and is effective July 1, 2021.

(12) Subsections (3) and (8) do not apply to eligible pupils enrolled in a dropout recovery program that meets the requirements of section 23a. As used in this subsection, "eligible pupil" means that term as defined in section 23a.

(13) At least every 2 years the superintendent shall review the waiver standards set forth in the pupil accounting and auditing manuals to ensure that the waiver standards and waiver process continue to be appropriate and responsive to changing trends in online learning. The superintendent shall solicit and consider input from stakeholders as part of this review.

Sec. 104b. (1) In order to receive state aid under this article, a district shall comply with this section and shall administer the Michigan merit examination to pupils in grade 11, and to pupils in grade 12 who did not take the complete Michigan merit examination in grade 11, as provided in this section. The Michigan merit examination consists of a college entrance test, work skills test, and the summative assessment known as the Michigan student test of educational progress (M-STEP).

(2) For the purposes of this section, the department of technology, management, and budget shall contract with 1 or more providers to develop, supply, and score the Michigan merit examination. The Michigan merit examination shall consist of all of the following:

(a) Assessment instruments that measure English language arts, mathematics, reading, and science, and are used by the majority of colleges and universities in this state for entrance purposes. This may include 1 or more writing components. In selecting assessment instruments to fulfill the requirements of this subdivision, the department may consider the degree to which those assessment instruments are aligned to this state's content standards.

(b) One or more tests from 1 or more test developers that assess a pupil's ability to apply at least reading and mathematics skills in a manner that is intended to allow employers to use the results in making employment decisions. The department of technology, management, and budget and the superintendent shall ensure that any test or tests selected under this subdivision have all the components necessary to allow a pupil to be eligible to receive the results of a nationally recognized evaluation of workforce readiness if the pupil's test performance is adequate.

(c) A social studies component.

(d) Any other component that is necessary to obtain the approval of the United States Department of Education to use the Michigan merit examination for the purposes of the no child left behind act of 2001, Public Law 107-110, or the every student succeeds act, Public Law 114-95.

(3) In addition to all other requirements of this section, all of the following apply to the Michigan merit examination:

(a) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring the Michigan merit examination supplies an individual report for each pupil that will identify for the pupil's parents and teachers whether the pupil met expectations or failed to meet expectations for each standard, to allow the pupil's parents and teachers to assess and remedy problems before the pupil moves to the next grade.

(b) The department of technology, management, and budget and the superintendent shall ensure that any contractor used for scoring, developing, or processing the Michigan merit examination meets quality management standards commonly used in the assessment industry, including at least meeting level 2 of the capability maturity model developed by the Software Engineering Institute of Carnegie Mellon University for the first year the Michigan merit examination is offered to all grade 11 pupils and at least meeting level 3 of the capability maturity model for subsequent years.

(c) The department of technology, management, and budget and the superintendent shall ensure that any contract for scoring, administering, or developing the Michigan merit examination includes specific deadlines for all steps of the assessment process, including, but not limited to, deadlines for the correct testing materials to be supplied to schools and for the correct results to be returned to schools, and includes penalties for noncompliance with these deadlines.

(d) The superintendent shall ensure that the Michigan merit examination meets all of the following:

(i) Is designed to test pupils on this state's content standards in all subjects tested.

(ii) Complies with requirements of the no child left behind act of 2001, Public Law 107-110 or the every student succeeds act, Public Law 114-95.

(iii) Is consistent with the code of fair testing practices in education prepared by the Joint Committee on Testing Practices of the American Psychological Association.

(iv) Is factually accurate. If the superintendent determines that a question is not factually accurate and should be excluded from scoring, the state board and the superintendent shall ensure that the question is excluded from scoring.

(4) A district shall include on each pupil's high school transcript all of the following:

(a) For each high school graduate who has completed the Michigan merit examination under this section, the pupil's scaled score on each subject area component of the Michigan merit examination.

(b) The number of school days the pupil was in attendance at school each school year during high school and the total number of school days in session for each of those school years.

(5) The superintendent shall work with the provider or providers of the Michigan merit examination to produce Michigan merit examination subject area scores for each pupil participating in the Michigan merit examination. To the extent that the department determines that additional test items beyond those included in the college entrance component of the Michigan merit examination are required in a particular subject area, the department shall ensure that all test items in that subject area are scaled and merged for the purposes of producing a Michigan merit examination subject area score. The superintendent shall design and distribute to districts, intermediate districts, and nonpublic schools a simple and concise document that describes the scoring for each subject area and indicates the scaled score ranges for each subject area.

(6) The Michigan merit examination shall be administered in each district during the last 12 weeks of the district's school year. The superintendent shall ensure that the Michigan merit examination is scored and the scores are returned to pupils, their parents or legal guardians, and districts not later than the beginning of the pupil's first semester of grade 12. The returned scores shall indicate at least the pupil's scaled score for each subject area component and the range of scaled scores for each subject area. In reporting the scores to pupils, parents, and schools, the superintendent shall provide standards-specific, meaningful, and timely feedback on the pupil's performance on the Michigan merit examination.

(7) A district shall administer the complete Michigan merit examination to a pupil only once and shall not administer the complete Michigan merit examination to the same pupil more than once. If a pupil does not take the complete Michigan merit examination in grade 11, the district shall administer the complete Michigan merit examination to the pupil in grade 12. If a pupil chooses to retake the college entrance examination component of the Michigan merit examination, as described in subsection (2)(a), the pupil may do so through the provider of the college entrance examination component and the cost of the retake is the responsibility of the pupil unless all of the following are met:

(a) The pupil has taken the complete Michigan merit examination.

(b) The pupil meets the income eligibility criteria for free breakfast, lunch, or milk, as determined under the Richard B. Russell national school lunch act, 42 USC 1751 to 1769i.

(c) The pupil has applied to the provider of the college entrance examination component for a scholarship or fee waiver to cover the cost of the retake and that application has been denied.

(d) After taking the complete Michigan merit examination, the pupil has not already received a free retake of the college entrance examination component paid for either by this state or through a scholarship or fee waiver by the provider.

(8) The superintendent shall ensure that the length of the Michigan merit examination and the combined total time necessary to administer all of the components of the Michigan merit examination are the shortest possible that will still maintain the degree of reliability and validity of the Michigan merit examination results determined necessary by the superintendent. The superintendent shall ensure that the maximum total combined length of time that schools are required to set aside for pupils to answer all test questions on the Michigan merit examination does not exceed 8 hours if the superintendent determines that sufficient alignment to applicable Michigan merit curriculum content standards can be achieved within that time limit.

(9) A district shall provide accommodations to a pupil with disabilities for the Michigan merit examination, as provided under section 504 of title V of the rehabilitation act of 1973, 29 USC 794; subtitle A of title II of the Americans with disabilities act of 1990, 42 USC 12131 to 12134; the individuals with disabilities education act amendments of 1997, Public Law 105-17; and the implementing regulations for those statutes. The provider or providers of the Michigan merit examination and the superintendent shall mutually agree upon the accommodations to be provided under this subsection.

(10) To the greatest extent possible, the Michigan merit examination shall be based on this state's content standards, as appropriate. Annually, after each administration of the Michigan merit examination, the department shall provide a report of the points per standard so that teachers will know what content will be

covered within the Michigan merit examination. The department may augment the college entrance and work skills components of the Michigan merit examination to develop the assessment, depending on the alignment of those components to this state's content standards. If these components do not align to these standards, the department shall produce additional components as required by law, while minimizing the amount of time needed for assessments.

(11) A child who is a student in a nonpublic school or home school may take the Michigan merit examination under this section. To take the Michigan merit examination, a child who is a student in a home school shall contact the district in which the child resides, and that district shall administer the Michigan merit examination, or the child may take the Michigan merit examination at a nonpublic school if allowed by the nonpublic school. Upon request from a nonpublic school, the superintendent shall direct the provider or providers to supply the Michigan merit examination to the nonpublic school and the nonpublic school may administer the Michigan merit examination. If a district administers the Michigan merit examination under this subsection to a child who is not enrolled in the district, the scores for that child are not considered for any purpose to be scores of a pupil of the district.

(12) In contracting under subsection (2), the department of technology, management, and budget shall consider a contractor that provides electronically-scored essays with the ability to score constructed response feedback in multiple languages and provide ongoing instruction and feedback.

(13) The purpose of the Michigan merit examination is to assess pupil performance in mathematics, science, social studies, and English language arts for the purpose of improving academic achievement and establishing a statewide standard of competency. The assessment under this section provides a common measure of data that will contribute to the improvement of Michigan schools' curriculum and instruction by encouraging alignment with Michigan's curriculum framework standards and promotes pupil participation in higher level mathematics, science, social studies, and English language arts courses. These standards are based upon the expectations of what pupils should learn through high school and are aligned with national standards.

(14) For a pupil enrolled in a middle college program, other than a middle college operated as a shared educational entity or a specialized shared educational entity, if the pupil receives at least 50% of his or her instruction at the high school while in grade 11, the Michigan merit examination shall be administered to the pupil at the high school at which the pupil receives high school instruction, and the department shall include the pupil's scores on the Michigan merit examination in the scores for that high school for all purposes for which a school's or district's results are reported. The department shall allow the middle college program to use a 5-year graduation rate for determining adequate yearly progress. As used in this subsection, "middle college" means a program consisting of a series of courses and other requirements and conditions, including an early college or other program created under a memorandum of understanding, that allows a pupil to graduate from high school with both a high school diploma and a certificate or degree from a community college or state public university.

(15) As used in this section:

(a) "English language arts" means reading and writing.

(b) "Social studies" means United States history, world history, world geography, economics, and American government.

(16) For each report made by the department that includes the statewide assessment results for a school building, the department shall include the scores for the statewide assessment and the graduation rate for consortium pupils with the scores for the school building in the participating district in which the consortium pupil is enrolled or would otherwise attend. The statewide assessment for a consortium pupil may be administered either at the consortium location or at the school building in the participating district in which the consortium pupil is enrolled or would otherwise attend. For the purposes of this subsection, a consortium pupil is a pupil who is enrolled or participating in a participating district in a school or program operated as a consortium or under a cooperative arrangement formed by 2 or more districts or intermediate districts, including, but not limited to, a consortium or cooperative arrangement operated as a program, a shared educational entity, a specialized educational entity, or a special education center program.

388.1704c State assessments as condition for receipt of state aid; M-STEP assessments in English language arts and mathematics; summative assessment system; benchmark assessments; interim assessments; "English language arts" defined.

Sec. 104c. (1) In order to receive state aid under this article, a district shall administer the state assessments described in this section.

(2) For the purposes of this section, the department shall develop and administer the Michigan student test of educational progress (M-STEP) assessments in English language arts and mathematics. These assessments shall be aligned to state standards.

(3) For the purposes of this section, the department shall implement a summative assessment system that is proven to be valid and reliable for administration to pupils as provided under this subsection. The summative assessment system must meet all of the following requirements:

(a) The summative assessment system must measure student proficiency on the current state standards, must measure student growth for consecutive grade levels in which students are assessed in the same subject area in both grade levels, and must be capable of measuring individual student performance.

(b) The summative assessments for English language arts and mathematics must be administered to all public school pupils in grades 3 to 11, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(c) The summative assessments for science must be administered to all public school pupils in at least grades 5 and 8, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(d) The summative assessments for social studies must be administered to all public school pupils in at least grades 5 and 8, including those pupils as required by the federal individuals with disabilities education act, Public Law 108-446, and by title I of the federal every student succeeds act (ESSA), Public Law 114-95.

(e) The content of the summative assessments must be aligned to state standards.

(f) The pool of questions for the summative assessments must be subject to a transparent review process for quality, bias, and sensitive issues involving educator review and comment. The department shall post samples from tests or retired tests featuring questions from this pool for review by the public.

(g) The summative assessment system must ensure that students, parents, and teachers are provided with reports that convey individual student proficiency and growth on the assessment and that convey individual student domain-level performance in each subject area, including representative questions, and individual student performance in meeting state standards.

(h) The summative assessment system must be capable of providing, and the department shall ensure that students, parents, teachers, administrators, and community members are provided with, reports that convey aggregate student proficiency and growth data by teacher, grade, school, and district.

(i) The summative assessment system must ensure the capability of reporting the available data to support educator evaluations.

(j) The summative assessment system must ensure that the reports provided to districts containing individual student data are available within 60 days after completion of the assessments.

(k) The summative assessment system must ensure that access to individually identifiable student data meets all of the following:

(i) Is in compliance with 20 USC 1232g, commonly referred to as the family educational rights and privacy act of 1974.

(ii) Except as may be provided for in an agreement with a vendor to provide assessment services, as necessary to support educator evaluations pursuant to subdivision (i), or for research or program evaluation purposes, is available only to the student; to the student's parent or legal guardian; and to a school administrator or teacher, to the extent that he or she has a legitimate educational interest.

(l) The summative assessment system must ensure that the assessments are pilot tested before statewide implementation.

(m) The summative assessment system must ensure that assessments are designed so that the maximum total combined length of time that schools are required to set aside for a pupil to answer all test questions on all assessments that are part of the system for the pupil's grade level does not exceed that maximum total combined length of time for the previous statewide assessment system or 9 hours, whichever is less. This subdivision does not limit the amount of time a district may allow a pupil to complete a test.

(n) The total cost of executing the summative assessment system statewide each year, including, but not limited to, the cost of contracts for administration, scoring, and reporting, must not exceed an amount equal to 2 times the cost of executing the previous statewide assessment after adjustment for inflation.

(o) The summative assessment system must not require more than 3 hours in duration, on average, for an individual pupil to complete the combined administration of the math and English language arts portions of the assessment for any 1 grade level.

(p) The summative assessments for English language arts and mathematics for pupils in grades 8 to 10 must be aligned to the college entrance test portion of the Michigan merit examination required under section 104b.

(4) The department shall offer benchmark assessments in the fall and spring of each school year to measure English language arts and mathematics in each of grades K to 2. Full implementation must occur not later than the 2019-2020 school year. These assessments are necessary to determine a pupil's proficiency level before grade 3.

(5) This section does not prohibit districts from adopting interim assessments.

(6) As used in this section, "English language arts" means that term as defined in section 104b.

388.1705 Counting nonresident pupils in membership; application for enrollment; procedures.

Sec. 105. (1) In order to avoid a penalty under this section, and in order to count a nonresident pupil residing within the same intermediate district in membership without the approval of the pupil's district of residence, a district must comply with this section.

(2) Except as otherwise provided in this section, a district shall determine whether or not it will accept applications for enrollment by nonresident applicants residing within the same intermediate district for the next school year. If the district determines to accept applications for enrollment of a number of nonresidents, beyond those entitled to preference under this section, the district shall use the following procedures for accepting applications from and enrolling nonresidents:

(a) The district shall publish the grades, schools, and special programs, if any, for which enrollment may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) If the district has a limited number of positions available for nonresidents residing within the same intermediate district in a grade, school, or program, all of the following apply to accepting applications for and enrollment of nonresidents in that grade, school, or program:

(i) The district shall do all of the following not later than the second Friday in August:

(A) Provide notice to the general public that applications will be taken for a period of at least 15 calendar days but not more than 30 calendar days from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program. The notice must identify the dates of the application period and the place and manner for submitting applications.

(B) During the application period under sub-subparagraph (A), accept applications from nonresidents residing within the same intermediate district for enrollment in that grade, school, or program.

(C) Within 15 calendar days after the end of the application period under sub-subparagraph (A), using the procedures and preferences required under this section, determine which nonresident applicants will be allowed to enroll in that grade, school, or program, using the random draw system required under subsection (13) as necessary, and notify the parent or legal guardian of each nonresident applicant of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment must contain notification of the date by which the applicant must enroll in the district.

and procedures for enrollment. The date for enrollment must be no later than the end of the first week of school.

(ii) Beginning on the third Monday in August and not later than the end of the first week of school, if any positions become available in a grade, school, or program due to accepted applicants failing to enroll or to more positions being added, the district may enroll nonresident applicants from the waiting list maintained under subsection (13), offering enrollment in the order that applicants appear on the waiting list. If there are still positions available after enrolling all applicants from the waiting list who desire to enroll, the district may not fill those positions until the second semester or trimester enrollment under subsection (3), as provided under that subsection, or until the next school year.

(c) For a grade, school, or program that has an unlimited number of positions available for nonresidents residing within the same intermediate district, all of the following apply to enrollment of nonresidents in that grade, school, or program:

(i) The district may accept applications for enrollment in that grade, school, or program, and may enroll nonresidents residing within the same intermediate district in that grade, school, or program until the end of the first week of school. The district shall provide notice to the general public of the place and manner for submitting applications and, if the district has a limited application period, the notice must include the dates of the application period. The application period shall be at least a 15-calendar-day period.

(ii) Not later than the end of the first week of school, the district shall notify the parent or legal guardian of each nonresident applicant who is accepted for enrollment that the applicant has been accepted for enrollment in the grade, school, or program and of the procedures for enrollment. The date for enrollment must be no later than the end of the first week of school.

(3) If a district determines during the first semester or trimester of a school year that it has positions available for enrollment of a number of nonresidents residing within the same intermediate district, beyond those entitled to preference under this section, for the second semester or trimester of the school year, the district may accept applications from and enroll nonresidents residing within the same intermediate district for the second semester or trimester using the following procedures:

(a) Not later than 2 weeks before the end of the first semester or trimester, the district shall publish the grades, schools, and special programs, if any, for which enrollment for the second semester or trimester may be available to, and for which applications will be accepted from, nonresident applicants residing within the same intermediate district.

(b) During the last 2 weeks of the first semester or trimester, the district shall accept applications from nonresidents residing within the same intermediate district for enrollment for the second semester or trimester in the available grades, schools, and programs.

(c) By the beginning of the second semester or trimester, using the procedures and preferences required under this section, the district shall determine which nonresident applicants will be allowed to enroll in the district for the second semester or trimester and notify the parent or legal guardian of each nonresident applicant residing within the same intermediate district of whether or not the applicant may enroll in the district. The notification to parents or legal guardians of nonresident applicants accepted for enrollment must contain notification of the date by which the applicant must enroll in the district and procedures for enrollment. The date for enrollment must be no later than the end of the first week of school.

(4) If deadlines similar to those described in subsection (2) or (3) have been established in an intermediate district, and if those deadlines are not later than the deadlines under subsection (2) or (3), the districts within the intermediate district may use those deadlines.

(5) A district offering to enroll nonresident applicants residing within the same intermediate district may limit the number of nonresident pupils it accepts in a grade, school, or program, at its discretion, and may use that limit as the reason for refusal to enroll an applicant.

(6) A nonresident applicant residing within the same intermediate district must not be granted or refused enrollment based on intellectual, academic, artistic, or other ability, talent, or accomplishment, or lack thereof, or based on a mental or physical disability, except that a district may refuse to admit a nonresident applicant if the applicant does not meet the same criteria, other than residence, that an applicant who is a resident of the district must meet to be accepted for enrollment in a grade or a specialized, magnet, or intra-district choice school or program to which the applicant applies.

(7) A nonresident applicant residing within the same intermediate district must not be granted or refused enrollment based on age, except that a district may refuse to admit a nonresident applicant applying for a program that is not appropriate for the age of the applicant.

(8) A nonresident applicant residing within the same intermediate district must not be granted or refused enrollment based upon religion, race, color, national origin, sex, height, weight, marital status, or athletic ability, or, generally, in violation of any state or federal law prohibiting discrimination.

(9) Subject to subsection (10), a district may refuse to enroll a nonresident applicant if any of the following are met:

(a) The applicant is, or has been within the preceding 2 years, suspended from another school.

(b) The applicant, at any time before enrolling under this section, has been expelled from another school.

(c) The applicant, at any time before enrolling under this section, has been convicted of a felony.

(10) If a district has counted a pupil in membership on either the pupil membership count day or the supplemental count day, the district shall not refuse to enroll or refuse to continue to enroll that pupil for a reason specified in subsection (9). This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(11) A district shall continue to allow a pupil who was enrolled in and attended the district under this section in the school year or semester or trimester immediately preceding the school year or semester or trimester in question to enroll in the district until the pupil graduates from high school. This subsection does not prohibit a district from expelling a pupil described in this subsection for disciplinary reasons.

(12) A district shall give preference for enrollment under this section over all other nonresident applicants residing within the same intermediate district to other school-age children who reside in the same household as a pupil described in subsection (11).

(13) If the number of qualified nonresident applicants eligible for acceptance in a school, grade, or program does not exceed the positions available for nonresident pupils in the school, grade, or program, the school district shall accept for enrollment all of the qualified nonresident applicants eligible for acceptance. If the number of qualified nonresident applicants residing within the same intermediate district eligible for acceptance exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(14) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant, the district of residence shall provide that information on a timely basis.

(15) If a district is subject to a court-ordered desegregation plan, and if the court issues an order prohibiting pupils residing in that district from enrolling in another district or prohibiting pupils residing in another district from enrolling in that district, this section is subject to the court order.

(16) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(17) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents under this section.

(18) A district that, under this section, enrolls a nonresident pupil who is eligible for special education programs and services according to statute or rule, or who is a child with a disability, as that term is defined under the individuals with disabilities education act, Public Law 108-446, is considered to be the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. Consistent with state and federal law, that district is responsible for developing and implementing an individualized education program annually for a nonresident pupil described in this subsection.

(19) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(20) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

If the number of qualified nonresident applicants residing in a district located in a contiguous intermediate district eligible for acceptance under this section exceeds the positions available in a grade, school, or program in a district for nonresident pupils, the district shall use a random draw system, subject to the need to abide by state and federal antidiscrimination laws and court orders and subject to preferences allowed by this section. The district shall develop and maintain a waiting list based on the order in which nonresident applicants were drawn under this random draw system.

(14) If a district, or the nonresident applicant, requests the district in which a nonresident applicant resides to supply information needed by the district for evaluating the applicant's application for enrollment or for enrolling the applicant under this section, the district of residence shall provide that information on a timely basis.

(16) This section does not require a district to provide transportation for a nonresident pupil enrolled in the district under this section or for a resident pupil enrolled in another district under this section. However, at the time a nonresident pupil enrolls in the district, a district shall provide to the pupil's parent or legal guardian information on available transportation to and from the school in which the pupil enrolls.

(17) A district may participate in a cooperative education program with 1 or more other districts or intermediate districts whether or not the district enrolls any nonresidents pursuant to this section.

(18) In order for a district or intermediate district to enroll under this section a nonresident pupil who resides in a district located in a contiguous intermediate district and who is eligible for special education programs and services according to statute or rule, or who is a child with disabilities, as defined under the individuals with disabilities education act, Public Law 108-446, the enrolling district shall have a written agreement with the resident district of the pupil for the purpose of providing the pupil with a free appropriate public education. The written agreement must include, but is not limited to, an agreement on the responsibility for the payment of the added costs of special education programs and services for the pupil. The written agreement must address how the agreement must be amended in the event of significant changes in the costs or level of special education programs or services required by the pupil.

(19) If a district does not comply with this section, the district forfeits 5% of the total state school aid allocation to the district under this act.

(20) Upon application by a district, the superintendent may grant a waiver for the district from a specific requirement under this section for not more than 1 year.

(21) This section is repealed if the final decision of a court of competent jurisdiction holds that any portion of this section is unconstitutional, ineffective, invalid, or in violation of federal law.

(1) From the state school aid fund appropriation in section 11, there is allocated an amount not to exceed \$40,000,000.00 for 2023-2024 for adult education programs authorized under this section. Except as otherwise provided under subsections (14) and (15), funds allocated under this section are restricted for adult education programs as authorized under this section only. A recipient of funds under this section shall not use those funds for any other purpose.

(2) To be eligible for funding under this section, an eligible adult education provider shall employ certificated teachers and qualified administrative staff and shall offer continuing education opportunities for teachers to allow them to maintain certification.

(3) To be eligible to be a participant funded under this section, an individual must be enrolled in an adult basic education program, an adult secondary education program, an adult English as a second language program, a high school equivalency test preparation program, or a high school completion program, that meets the requirements of this section, and for which instruction is provided, and the individual must be at least 18 years of age by July 1 of the program year and the individual's graduating class must have graduated.

(4) By April 1 of each fiscal year for which funding is allocated under this section, the intermediate districts within a prosperity region or subregion shall determine which intermediate district will serve as the prosperity region's or subregion's fiscal agent for the next fiscal year and shall notify the department in a form and manner determined by the department. The department shall approve or disapprove of the prosperity region's or subregion's selected fiscal agent. From the funds allocated under subsection (1), an amount as determined under this subsection is allocated to each intermediate district serving as a fiscal agent for adult education programs in each of the prosperity regions or subregions identified by the department. An intermediate district shall not use more than 5% of the funds allocated under this subsection for administration costs for serving as the fiscal agent. The allocation provided to each intermediate district serving as a fiscal agent must be calculated as follows:

(a) Sixty percent of this portion of the funding must be distributed based upon the proportion of the state population of individuals between the ages of 18 and 24 that are not high school graduates that resides in each of the prosperity regions or subregions located within the intermediate district, as reported by the most recent 5-year estimates from the American Community Survey (ACS) from the United States Census Bureau.

(c) Five percent of this portion of the funding must be distributed based upon the proportion of the state population of individuals age 18 or older who lack basic English language proficiency that resides in each of the prosperity regions or subregions located within the intermediate district, as reported by the most recent 5-year estimates from the ACS from the United States Census Bureau.

(5) To be an eligible fiscal agent, an intermediate district must agree to do the following in a form and manner determined by the department:

(a) Distribute funds to adult education programs in a prosperity region or subregion as described in this section.

(b) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to develop a regional strategy that aligns adult education programs and services into an efficient and effective delivery

system for adult education learners, with special consideration for providing contextualized learning and career pathways and addressing barriers to education and employment.

(c) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to create a local process and criteria that will identify eligible adult education providers to receive funds allocated under this section based on location, demand for services, past performance, quality indicators as identified by the department, and cost to provide instructional services. The fiscal agent shall determine all local processes, criteria, and provider determinations. However, the local processes, criteria, and provider services must be approved by the department before funds may be distributed to the fiscal agent.

(d) Provide oversight to its adult education providers throughout the program year to ensure compliance with the requirements of this section.

(e) Report adult education program and participant data and information as prescribed by the department.

(6) An adult basic education program, an adult secondary education program, or an adult English as a second language program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who are determined by a department-approved assessment, in a form and manner prescribed by the department, to be below twelfth grade level in reading or mathematics, or both, or to lack basic English proficiency.

(b) The program tests individuals for eligibility under subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A participant in an adult basic education program is eligible for reimbursement until 1 of the following occurs:

(i) The participant's reading and mathematics proficiency are assessed at or above the ninth grade level.

(ii) The participant fails to show progress on 2 successive assessments after having at least 450 hours of instruction.

(e) A funding recipient enrolling a participant in an English as a second language program is eligible for funding according to subsection (9) until the participant meets 1 of the following:

(i) The participant is assessed as having attained basic English proficiency as determined by a department-approved assessment.

(ii) The participant fails to show progress on 2 successive department-approved assessments after having completed at least 450 hours of instruction. The department shall provide information to a funding recipient regarding appropriate assessment instruments for this program.

(7) A high school equivalency test preparation program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma or a high school equivalency certificate.

(b) The program administers a pre-test approved by the department before enrolling an individual to determine the individual's literacy levels, administers a high school equivalency practice test to determine the individual's potential for success on the high school equivalency test, and administers a post-test upon completion of the program in compliance with the state-approved assessment policy.

(9) The department shall make payments to a funding recipient under this section in accordance with all of the following:

(a) Statewide allocation criteria, including 3-year average enrollments, census data, and local needs.

(b) Participant completion of the adult basic education objectives by achieving an educational gain as determined by the national reporting system levels; for achieving basic English proficiency, as determined by the department; for achieving a high school equivalency certificate or passage of 1 or more individual high school equivalency tests; for attainment of a high school diploma or passage of a course required for a participant to attain a high school diploma; for enrollment in a postsecondary institution; or for entry into or retention of employment, as applicable.

(c) Participant completion of core indicators as identified in the workforce innovation and opportunity act, Public Law 113-128.

(10) An individual who is not eligible to be a participant funded under this section may receive adult education services upon the payment of tuition. In addition, an individual who is not eligible to be served in a program under this section due to the program limitations specified in subsection (6), (7), or (8) may continue to receive adult education services in that program upon the payment of tuition. The local or intermediate district conducting the program shall determine the tuition amount.

(11) An individual who is an inmate in a state correctional facility is not counted as a participant under this section.

(12) A funding recipient shall not commingle money received under this section or from another source for adult education purposes with any other funds and shall establish a separate ledger account for funds received under this section. This subsection does not prohibit a district from using general funds of the district to support an adult education or community education program.

(13) A funding recipient receiving funds under this section may establish a sliding scale of tuition rates based upon a participant's family income. A funding recipient may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant must not exceed the actual operating cost per participant minus any funds received under this section per participant. A funding recipient may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States Department of Health and Human Services.

(14) In order to receive funds under this section, a funding recipient shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department. In addition, a funding recipient shall agree to pay to a career and technical education program under section 61a the amount of funding received under this section in the proportion of career and technical education coursework used to satisfy adult basic education programming, as billed to the funding recipient by programs operating under section 61a. In addition to the funding allocated under subsection (1), there is allocated for 2023-2024 an amount not to exceed \$500,000.00 to reimburse funding recipients for administrative and instructional expenses associated with commingling programming under this section and section 61a. The department shall make payments under this subsection to each funding recipient in the same proportion as funding calculated and allocated under subsection (4).

(15) From the amount appropriated in subsection (1), an amount not to exceed \$4,000,000.00 is allocated for 2023-2024 for grants to adult education or state-approved career technical center programs that connect adult education participants with employers as provided under this subsection. (a) Connect adult education participants directly with employers by linking adult education, career and technical skills, and workforce development.

(b) Require adult education staff to work with Michigan Works! agency to identify a cohort of participants who are most prepared to successfully enter the workforce. Except as otherwise provided under this subdivision, participants identified under this subsection must be dually enrolled in adult education programming and in at least 1 state-approved technical course at the area career and technical center. A

program that links participants identified under this subsection with adult education programming and commercial driver license courses does not need to enroll the participants in at least 1 state-approved technical course at the area career and technical center to be considered an eligible program under this subsection.

(c) Employ an individual staffed as an adult education navigator who will serve as a caseworker for each participant identified under subdivision (b). The navigator shall work with adult education staff and potential employers to design an educational program best suited to the personal and employment needs of the participant and shall work with human service agencies or other entities to address any barrier in the way of participant access.

(16) Each program funded under subsection (15) will receive funding for 3 years. After 3 years of operations and funding, a program must reapply for funding.

(17) Not later than December 1 of each year, a program funded under subsection (15) shall provide a report to the senate and house appropriations subcommittees on school aid, to the senate and house fiscal agencies, and to the state budget director identifying the number of participants, graduation rates, and a measure of transition to employment.

(18) Except as otherwise provided in this subsection, participants under subsection (15) must be concurrently enrolled and actively working toward obtaining a high school diploma or a high school equivalency certificate. Concurrent enrollment is not required under this subsection for a participant that was enrolled in adult education during the same program year and obtained a high school diploma or a high school equivalency certificate prior to enrollment in an eligible career and technical skills program under subsection (15). Up to 15% of adult education participants served under subsection (15) may already have a high school diploma or a high school equivalency certificate at the time of enrollment in an eligible career and technical skills program under subsection (15) and receive remediation services. It is intended that the cap described in the immediately preceding sentence is continually lowered on an annual basis until it eventually is 0%.

(19) The department shall approve at least 2 high school equivalency tests and determine whether a high school equivalency certificate meets the requisite standards for high school equivalency in this state.

Sec. 107. (1) From the state school aid fund appropriation in section 11, there is allocated an amount not to exceed \$40,500,000.00 for 2024-2025 for adult education programs authorized under this section. Except as otherwise provided under subsections (14) and (15), funds allocated under this section are restricted for adult education programs as authorized under this section only. A recipient of funds under this section shall not use those funds for any other purpose.

(2) To be eligible for funding under this section, an eligible adult education provider shall employ certificated teachers and qualified administrative staff and shall offer continuing education opportunities for teachers to allow them to maintain certification.

(3) To be eligible to be a participant funded under this section, an individual must be enrolled in an adult

basic education program, an adult secondary education program, an adult English as a second language program, a high school equivalency test preparation program, or a high school completion program, that meets the requirements of this section, and for which instruction is provided, and the individual must be at least 18 years of age by July 1 of the program year and the individual's graduating class must have graduated.

(4) By April 1 of each fiscal year for which funding is allocated under this section, the intermediate districts within a prosperity region or subregion shall determine which intermediate district will serve as the prosperity region's or subregion's fiscal agent for the next fiscal year and shall notify the department in a form and manner determined by the department. The department shall approve or disapprove of the prosperity region's or subregion's selected fiscal agent. From the funds allocated under subsection (1), an amount as determined under this subsection is allocated to each intermediate district serving as a fiscal agent for adult education programs in each of the prosperity regions or subregions identified by the department. An intermediate district shall not use more than 5% of the funds allocated under this subsection for administration costs for serving as the fiscal agent. The allocation provided to each intermediate district serving as a fiscal agent must be calculated as follows:

(a) Sixty percent of this portion of the funding must be distributed based upon the proportion of the state population of individuals between the ages of 18 and 24 that are not high school graduates that resides in each of the prosperity regions or subregions located within the intermediate district, as reported by the most recent 5-year estimates from the American Community Survey (ACS) from the United States Census Bureau.

(b) Thirty-five percent of this portion of the funding must be distributed based upon the proportion of the state population of individuals age 25 or older who are not high school graduates that resides in each of the prosperity regions or subregions located within the intermediate district, as reported by the most recent 5-year estimates from the ACS from the United States Census Bureau.

(c) Five percent of this portion of the funding must be distributed based upon the proportion of the state population of individuals age 18 or older who lack basic English language proficiency that resides in each of the prosperity regions or subregions located within the intermediate district, as reported by the most recent 5-year estimates from the ACS from the United States Census Bureau.

(5) To be an eligible fiscal agent, an intermediate district must agree to do the following in a form and manner determined by the department:

(a) Distribute funds to adult education programs in a prosperity region or subregion as described in this section.

(b) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to develop a regional strategy that aligns adult education programs and services into an efficient and effective delivery system for adult education learners, with special consideration for providing contextualized learning and career pathways and addressing barriers to education and employment.

(c) Collaborate with the career and educational advisory council, which is an advisory council of the workforce development boards located in the prosperity region or subregion, or its successor, to create a local process and criteria that will identify eligible adult education providers to receive funds allocated under this section based on location, demand for services, past performance, quality indicators as identified by the department, and cost to provide instructional services. The fiscal agent shall determine all local processes, criteria, and provider determinations. However, the local processes, criteria, and provider services must be approved by the department before funds may be distributed to the fiscal agent.

(d) Provide oversight to its adult education providers throughout the program year to ensure compliance with the requirements of this section.

(e) Report adult education program and participant data and information as prescribed by the department.

(6) An adult basic education program, an adult secondary education program, or an adult English as a second language program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who are determined by a department-approved assessment, in a form and manner prescribed by the department, to be below twelfth grade level in reading or mathematics, or both, or to lack basic English proficiency.

(b) The program tests individuals for eligibility under subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A participant in an adult basic education program is eligible for reimbursement until 1 of the following occurs:

(i) The participant's reading and mathematics proficiency are assessed at or above the ninth grade level.

(ii) The participant fails to show progress on 2 successive assessments after having completed at least 450 hours of instruction.

(ii) The participant fails to show progress on 2 successive assessments after having at least 450 hours of instruction.

(e) A funding recipient enrolling a participant in an English as a second language program is eligible for funding according to subsection (9) until the participant meets 1 of the following:

(i) The participant is assessed as having attained basic English proficiency as determined by a department-approved assessment.

(ii) The participant fails to show progress on 2 successive department-approved assessments after having completed at least 450 hours of instruction. The department shall provide information to a funding recipient regarding appropriate assessment instruments for this program.

(7) A high school equivalency test preparation program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma or a high school equivalency certificate.

(b) The program administers a pre-test approved by the department before enrolling an individual to determine the individual's literacy levels, administers a high school equivalency practice test to determine the individual's potential for success on the high school equivalency test, and administers a post-test upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient receives funding according to subsection (9) for a participant, and a participant may be enrolled in the program until 1 of the following occurs:

(i) The participant achieves a high school equivalency certificate.

(ii) The participant fails to show progress on 2 successive department-approved assessments used to determine readiness to take a high school equivalency test after having completed at least 450 hours of instruction.

(8) A high school completion program operated on a year-round or school year basis may be funded under this section, subject to all of the following:

(a) The program enrolls adults who do not have a high school diploma.

(b) The program tests participants described in subdivision (a) before enrollment and upon completion of the program in compliance with the state-approved assessment policy.

(c) A funding recipient receives funding according to subsection (9) for a participant in a course offered under this subsection until 1 of the following occurs:

(i) The participant passes the course and earns a high school diploma.

(ii) The participant fails to earn credit in 2 successive semesters or terms in which the participant is enrolled after having completed at least 900 hours of instruction.

(9) The department shall make payments to a funding recipient under this section in accordance with all of the following:

(a) Statewide allocation criteria, including 3-year average enrollments, census data, and local needs.

(b) Participant completion of the adult basic education objectives by achieving an educational gain as determined by the national reporting system levels; for achieving basic English proficiency, as determined by the department; for achieving a high school equivalency certificate or passage of 1 or more individual high school equivalency tests; for attainment of a high school diploma or passage of a course required for a participant to attain a high school diploma; for enrollment in a postsecondary institution; or for entry into or retention of employment, as applicable.

(c) Participant completion of core indicators as identified in the workforce innovation and opportunity act, Public Law 113-128.

(d) Allowable expenditures.

(10) An individual who is not eligible to be a participant funded under this section may receive adult education services upon the payment of tuition. In addition, an individual who is not eligible to be served in a program under this section due to the program limitations specified in subsection (6), (7), or (8) may continue to receive adult education services in that program upon the payment of tuition. The local or intermediate district conducting the program shall determine the tuition amount.

(11) An individual who is an inmate in a state correctional facility is not counted as a participant under this section.

(12) A funding recipient shall not commingle money received under this section or from another source for adult education purposes with any other funds and shall establish a separate ledger account for funds received under this section. This subsection does not prohibit a district from using general funds of the district to

support an adult education or community education program.

(13) A funding recipient receiving funds under this section may establish a sliding scale of tuition rates based upon a participant's family income. A funding recipient may charge a participant tuition to receive adult education services under this section from that sliding scale of tuition rates on a uniform basis. The amount of tuition charged per participant must not exceed the actual operating cost per participant minus any funds received under this section per participant. A funding recipient may not charge a participant tuition under this section if the participant's income is at or below 200% of the federal poverty guidelines published by the United States Department of Health and Human Services.

(14) To receive funds under this section, a funding recipient shall furnish to the department, in a form and manner determined by the department, all information needed to administer this program and meet federal reporting requirements; shall allow the department or the department's designee to review all records related to the program for which it receives funds; and shall reimburse the state for all disallowances found in the review, as determined by the department. In addition, a funding recipient shall agree to pay to a career and technical education program under section 61a the amount of funding received under this section in the proportion of career and technical education coursework used to satisfy adult basic education programming, as billed to the funding recipient by programs operating under section 61a.

(15) From the amount appropriated in subsection (1), an amount not to exceed \$4,000,000.00 is allocated for 2024-2025 to approved adult education programs that connect adult education participants with employers as provided under this subsection. The department shall determine regional planning allocations under this subsection to each intermediate district serving as a fiscal agent for adult education programs in each of the prosperity regions or subregions identified by the department in the same proportion as funding calculated and allocated under subsection (4). Funds not fully utilized within a region may be transferred to other regions as appropriate. To be eligible for funding under this subsection, a program must provide a collaboration linking adult education programs within the county, state-approved career and technical education programs, and local employers. To receive funding under this subsection, an eligible program must satisfy all of the following:

(a) Connect adult education participants directly with employers by linking adult education, career and technical skills, and workforce development.

(b) Require adult education staff to work with Michigan Works! agency to identify a cohort of participants who are most prepared to successfully enter the workforce. Except as otherwise provided under this subdivision, participants identified under this subsection must be dually enrolled in adult education programming and in at least 1 state-approved technical course through a career and technical education program. A program that links participants identified under this subsection with adult education programming and commercial driver license courses does not need to enroll the participants in at least 1 state-approved technical course through a career and technical education program to be considered an eligible program under this subsection.

(c) Employ an individual staffed as an adult education navigator who will serve as a caseworker for each participant identified under subdivision (b). The navigator shall work with adult education staff and potential employers to design an educational program best suited to the personal and employment needs of the participant and shall work with human service agencies or other entities to address any barrier in the way of participant access.

(16) By not later than December 1 of each year, a program funded under subsection (15) shall provide a report to the senate and house appropriations subcommittees on school aid, to the senate and house fiscal agencies, and to the state budget director identifying the number of participants, graduation rates, and a measure of transition to employment.

(17) Except as otherwise provided in this subsection, participants under subsection (15) must be concurrently enrolled and actively working toward obtaining a high school diploma or a high school equivalency certificate. Concurrent enrollment is not required under this subsection for a participant that was enrolled in adult education during the same program year and obtained a high school diploma or a high school equivalency certificate before enrollment in an eligible career and technical skills program under subsection (15). Up to 10% of adult education participants served under subsection (15) may already have a high school diploma or a high school equivalency certificate at the time of enrollment in an eligible career and technical skills program under subsection (15) and receive remediation services. It is intended that the cap described in the immediately preceding sentence is continually lowered on an annual basis until it eventually is 0%.

(18) The department shall approve at least 2 high school equivalency tests and determine whether a high school equivalency certificate meets the requisite standards for high school equivalency in this state.

388.1752b Allocation for actual costs incurred by nonpublic schools for compliance with health, safety, and welfare requirements; reimbursement; "actual cost" defined; work project; carrying forward unexpended funds.

Sec. 152b. (1) From the general fund money appropriated under section 11, there is allocated an amount not to exceed \$1,000,000.00 for 2023-2024 to reimburse actual costs incurred by nonpublic schools in complying with a health, safety, or welfare requirement mandated by a law or administrative rule of this state.

(2) By January 1 of each applicable fiscal year, the department shall publish a form for reporting actual costs incurred by a nonpublic school in complying with a health, safety, or welfare requirement mandated under state law containing each health, safety, or welfare requirement mandated by a law or administrative rule of this state applicable to a nonpublic school and with a reference to each relevant provision of law or

administrative rule for the requirement. The form must be posted on the department's website in electronic form.

(3) By June 30 of each applicable fiscal year, a nonpublic school seeking reimbursement for actual costs incurred in complying with a health, safety, or welfare requirement under a law or administrative rule of this state during each applicable school year must submit a completed form described in subsection (2) to the department. This section does not require a nonpublic school to submit a form described in subsection (2). A nonpublic school is not eligible for reimbursement under this section if the nonpublic school does not submit the form described in subsection (2) in a timely manner.

(4) By August 15 of each applicable fiscal year, the department shall distribute funds to each nonpublic school that submits a completed form described under subsection (2) in a timely manner. The superintendent shall determine the amount of funds to be paid to each nonpublic school in an amount that does not exceed the nonpublic school's actual costs in complying with a health, safety, or welfare requirement under a law or administrative rule of this state. The superintendent shall calculate a nonpublic school's actual cost in accordance with this section.

(5) If the funds allocated under this section are insufficient to fully fund payments as otherwise calculated under this section, the department shall distribute funds under this section on a prorated or other equitable basis as determined by the superintendent.

(6) The department may review the records of a nonpublic school submitting a form described in subsection (2) only for the limited purpose of verifying the nonpublic school's compliance with this section. If a nonpublic school does not allow the department to review records under this subsection, the nonpublic school is not eligible for reimbursement under this section.

(7) The funds appropriated under this section are for purposes that are incidental to teaching and the provision of educational services to nonpublic school students; that are noninstructional in nature; that do not constitute a primary function or element necessary for a nonpublic school's existence, operation, and survival; that do not involve or result in excessive religious entanglement; and that are intended for the public purpose of ensuring the health, safety, and welfare of the children in nonpublic schools and to reimburse nonpublic schools for costs described in this section.

(8) Funds allocated under this section are not intended to aid or maintain any nonpublic school, support the attendance of any student at a nonpublic school, employ any person at a nonpublic school, support the attendance of any student at any location where instruction is offered to a nonpublic school student, or support the employment of any person at any location where instruction is offered to a nonpublic school student.

(9) For purposes of this section, "actual cost" means the hourly wage for the employee or employees performing a task or tasks required to comply with a health, safety, or welfare requirement under a law or administrative rule of this state identified by the department under subsection (2) and is to be calculated in accordance with the form published by the department under subsection (2), which must include a detailed itemization of costs. The nonpublic school shall not charge more than the hourly wage of its lowest-paid employee capable of performing a specific task regardless of whether that individual is available and regardless of who actually performs a specific task. Labor costs under this subsection must be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. When calculating costs under subsection (4), fee components must be itemized in a manner that expresses both the hourly wage and the number of hours charged. The nonpublic school may not charge any applicable labor charge amount to cover or partially cover the cost of health or fringe benefits. A nonpublic school shall not charge any overtime wages in the calculation of labor costs.

(10) Training fees, inspection fees, and criminal background check fees are considered actual costs in complying with a health, safety, or welfare requirement under a law or administrative rule of this state.

(11) The funds allocated under this section for 2022-2023 are a work project appropriation, and any unexpended funds for 2022-2023 are carried forward into 2023-2024. The purpose of the work project is to continue to reimburse nonpublic schools for actual costs incurred in complying with a health, safety, or welfare requirement mandated by a law or administrative rule of this state. The estimated completion date of the work project is September 30, 2024.

(12) The funds allocated under this section for 2023-2024 are a work project appropriation, and any unexpended funds for 2023-2024 are carried forward into 2024-2025. The purpose of the work project is to continue to reimburse nonpublic schools for actual costs incurred in complying with a health, safety, or welfare requirement mandated by a law or administrative rule of this state. The estimated completion date of the work project is September 30, 2025.

***** 388.1752b.amended THIS AMENDED SECTION IS EFFECTIVE OCTOBER 1, 2024 *****

388.1752b.amended Allocation for actual costs incurred by nonpublic schools for compliance with health, safety, and welfare requirements; reimbursement; "actual cost" defined; work project; carrying forward unexpended funds.

Sec. 152b. (1) From the general fund money appropriated under section 11, there is allocated an amount not to exceed \$1,000,000.00 for 2024-2025 to reimburse actual costs incurred by nonpublic schools in complying with a health, safety, or welfare requirement mandated by a law or administrative rule of this state.

(2) By January 1 of each applicable fiscal year, the department shall publish a form for reporting actual costs incurred by a nonpublic school in complying with a health, safety, or welfare requirement mandated under state law containing each health, safety, or welfare requirement mandated by a law or administrative rule of this state applicable to a nonpublic school and with a reference to each relevant provision of law or administrative rule for the requirement. The form must be posted on the department's website in electronic form.

(3) By June 30 of each applicable fiscal year, a nonpublic school seeking reimbursement for actual costs incurred in complying with a health, safety, or welfare requirement under a law or administrative rule of this state during each applicable school year must submit a completed form described in subsection (2) to the department. This section does not require a nonpublic school to submit a form described in subsection (2). A nonpublic school is not eligible for reimbursement under this section if the nonpublic school does not submit the form described in subsection (2) in a timely manner.

(4) By August 15 of each applicable fiscal year, the department shall distribute funds to each nonpublic school that submits a completed form described under subsection (2) in a timely manner. The superintendent shall determine the amount of funds to be paid to each nonpublic school in an amount that does not exceed the nonpublic school's actual costs in complying with a health, safety, or welfare requirement under a law or administrative rule of this state. The superintendent shall calculate a nonpublic school's actual cost in accordance with this section.

(5) If the funds allocated under this section are insufficient to fully fund payments as otherwise calculated under this section, the department shall distribute funds under this section on a prorated or other equitable basis as determined by the superintendent.

(6) The department may review the records of a nonpublic school submitting a form described in subsection (2) only for the limited purpose of verifying the nonpublic school's compliance with this section. If a nonpublic school does not allow the department to review records under this subsection, the nonpublic school is not eligible for reimbursement under this section.

(7) The funds appropriated under this section are for purposes that are incidental to teaching and the provision of educational services to nonpublic school students; that are noninstructional in nature; that do not constitute a primary function or element necessary for a nonpublic school's existence, operation, and survival; that do not involve or result in excessive religious entanglement; and that are intended for the public purpose of ensuring the health, safety, and welfare of the children in nonpublic schools and to reimburse nonpublic schools for costs described in this section.

(8) Funds allocated under this section are not intended to aid or maintain any nonpublic school, support the attendance of any student at a nonpublic school, employ any person at a nonpublic school, support the attendance of any student at any location where instruction is offered to a nonpublic school student, or support the employment of any person at any location where instruction is offered to a nonpublic school student.

(9) For purposes of this section, "actual cost" means the hourly wage for the employee or employees performing a task or tasks required to comply with a health, safety, or welfare requirement under a law or administrative rule of this state identified by the department under subsection (2) and is to be calculated in accordance with the form published by the department under subsection (2), which must include a detailed itemization of costs. The nonpublic school shall not charge more than the hourly wage of its lowest-paid employee capable of performing a specific task regardless of whether that individual is available and regardless of who actually performs a specific task. Labor costs under this subsection must be estimated and charged in increments of 15 minutes or more, with all partial time increments rounded down. When calculating costs under subsection (4), fee components must be itemized in a manner that expresses both the hourly wage and the number of hours charged. The nonpublic school may not charge any applicable labor

charge amount to cover or partially cover the cost of health or fringe benefits. A nonpublic school shall not charge any overtime wages in the calculation of labor costs.

(10) Training fees, inspection fees, and criminal background check fees are considered actual costs in complying with a health, safety, or welfare requirement under a law or administrative rule of this state.

(11) The funds allocated under this section for 2024-2025 are a work project appropriation, and any unexpended funds for 2024-2025 are carried forward into 2025-2026. The purpose of the work project is to continue to reimburse nonpublic schools for actual costs incurred in complying with a health, safety, or welfare requirement mandated by a law or administrative rule of this state. The estimated completion date of the work project is September 30, 2026.

(12) The department shall reimburse nonpublic schools for actual costs incurred in complying with health, safety, or welfare requirements under a law or administrative rule of this state from 2017-2018 through 2022-2023 using work project funds or, if those funds are insufficient to fund reimbursements under this subsection, from the allocation under subsection (1).

388.1766b Minor enrolled in nonpublic school or home school; enrollment in district, public school academy, or intermediate district in certain curricular offering; state school aid; requirements; "eligible other district" defined; nonessential course; minor as part-time pupil; reply by district.

Sec. 166b. (1) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades kindergarten to 12 in a nonpublic school or who is being home-schooled from also enrolling the minor in a district, public school academy, or intermediate district in any curricular offering that is provided by the district, public school academy, or intermediate district at a public school site and is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. However, state school aid shall be provided under this act for a minor enrolled as described in this subsection only for a curricular offering that is restricted to nonessential elective courses and is available to full-time pupils in the minor's grade level or age group. For the purposes of this subsection, a curricular offering includes optional experiences associated with the curricular offering.

(2) This act does not prohibit a parent or legal guardian of a minor who is enrolled in any of grades kindergarten to 12 in a nonpublic school or who resides within a district and is being home-schooled from also enrolling the minor in the district in any nonessential elective curricular offering being provided by the district at a nonpublic school site or that is provided by the district, a public school academy, or an intermediate district at a public school site, and that is available to pupils in the minor's grade level or age group, subject to compliance with the same requirements that apply to a full-time pupil's participation in the offering. For the purposes of this subsection, a curricular offering includes optional experiences associated with the curricular offering. State school aid shall be provided under this act for a minor enrolled as described in this subsection only if all of the following apply:

(a) Either of the following:

(i) The nonpublic school site is located, or the nonpublic students are educated, within the geographic boundaries of the district.

(ii) If the nonpublic school has submitted a written request to the district in which the nonpublic school is located for the district to provide certain instruction under this subsection for a school year and the district does not agree to provide some or all of that instruction by May 1 immediately preceding that school year or, if the request is submitted after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request, the instruction is instead provided by an eligible other district. This subparagraph does not require a nonpublic school to submit more than 1 request to the district in which the nonpublic school is located for that district to provide instruction under this subsection, and does not require a nonpublic school to submit an additional request to the district in which the nonpublic school is located for that district to provide additional instruction under this subsection beyond the instruction requested in the original request, before having the instruction provided by an eligible other district. A public school academy that is located in the district in which the nonpublic school is located or in an eligible other district also may provide instruction under this subparagraph under the same conditions as an eligible other district. As used in this subparagraph, "eligible other district" means a district that is located in the same intermediate district as the district in which the nonpublic school is located or is located in an intermediate district that is contiguous to that intermediate district.

(b) The nonpublic school is registered with the department as a nonpublic school and meets all state reporting requirements for nonpublic schools.

(c) The instruction is provided directly by a certified teacher of the district, public school academy, or intermediate district.

(d) The curricular offering is also available to full-time pupils in the minor's grade level or age group in the district or public school academy at a public school site.

(e) The curricular offering is restricted to nonessential elective courses for pupils in grades kindergarten to 12.

(f) The district ensures that all individuals that have contact with pupils as part of a course provided to pupils enrolled in the district under section 166b and counted in membership under section 6 have not been convicted of sexual misconduct.

(g) The district ensures that an individual who provides direct or indirect curricular offerings to pupils as part of an optional or required course provided to pupils enrolled in the district under section 166b and counted in membership under section 6, or who has unsupervised contact with pupils as part of such a course, is subject to the requirements under sections 1230, 1230a, 1230b, 1230c, 1230d, 1230e, and 1230g of the revised school code, MCL 380.1230, 380.1230a, 380.1230b, 380.1230c, 380.1230d, 380.1230e, and 380.1230g, as if the individual is offered full-time or part-time employment in the district, is an employee of the district, or is assigned to regularly and continuously work under contract in any of its schools, as applicable.

(h) The district ensures that each optional experience associated with a course provided to pupils enrolled in the district under section 166b and counted in membership under section 6 is offered on a schedule that ensures that the experience is available to the majority of full-time pupils in membership in the district in the same grade level or age group as pupils participating in the course and enrolled in the district under section 166b.

(i) The district provides the department information necessary to quantify all of the following, in a form and manner prescribed by the department in conjunction with the center:

(i) A complete listing of all courses provided to pupils counted in membership in the district.

(ii) Course enrollments by each participant using local coding and the school codes for the exchange of data (SCED).

(iii) Identification of each course teacher or mentor.

(3) A nonessential course in grades 1 to 8 is a course other than a mathematics, science, social studies, and English language arts course required by the district for grade progression. Nonessential courses in grades 9 to 12 are those other than algebra 1, algebra 2, English 9-12, geometry, biology, chemistry, physics, economics, geography, American history, world history, the Constitution, government, and civics, or courses that fulfill the same credit requirement as these courses. Nonessential elective courses include courses offered by the local district for high school credit that are also capable of generating postsecondary credit, including, at least, advanced placement and international baccalaureate courses. College level courses taken by high school students for college credit are nonessential courses. Remedial courses for any grade in the above-listed essential courses are considered essential. Kindergarten is considered nonessential.

(4) Subject to section 6(4)(ii), a minor enrolled as described in this section is a part-time pupil for purposes of state school aid under this act.

(5) A district that receives a written request to provide instruction under subsection (2) shall reply to the request in writing by May 1 immediately preceding the applicable school year or, if the request is made after March 1 immediately preceding that school year, within 60 days after the nonpublic school submits the request. The written reply shall specify whether the district agrees to provide or does not agree to provide the instruction for each portion of instruction included in the request.

388.1817b Community college annual tuition and fees report; increase restraint.

Sec. 217b. (1) Each community college that receives an appropriation in section 201 shall report to the center by the last business day of August of each year the tuition and mandatory fees paid by a full-time in-district student and a full-time out-of-district student as established by the community college governing board for the current academic year. This report should also include the annual cost of tuition and fees based on a full-time course load of 30 credits. This report must also specify the amount that tuition and fees have increased for the community college from the prior academic year. Each community college shall also report any revisions to the reported current academic year tuition and mandatory fees adopted by the community college governing board to the center within 15 days of being adopted. The center shall provide this information and any revisions to the house and senate fiscal agencies and the state budget director.

(2) Each community college that receives an appropriation in section 201 shall certify to the state budget director by the last business day of August that its board will not adopt an increase in tuition and fee rates for in-district students for the 2023-2024 academic year that is greater than 4.5% or \$205.00, whichever is greater. As used in this subsection:

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all in-district students at least once during their enrollment at a community college. A community college increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by in-district students in the 2023-2024 academic year to exceed the limit established in this section.

(b) "Tuition and fee rate" means the average of full-time rates paid by a majority of students in each class, based on an unweighted average of the rates authorized by the community college board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated in-district enrollment during the academic year.

(3) Community colleges that exceed the tuition and fee rate cap described in subsection (2) are not eligible to receive payments under section 201 for performance funding for fiscal year 2023-2024.

(4) Notwithstanding any other provision of this act, the legislature may at any time adjust appropriations for a community college that adopts an increase in tuition and fee rates for in-district students that exceeds the rate cap established in subsection (2).

For the academic year 2024-2025, the tuition restraint level is equal to the greater of 4.5% or \$217.00. For the academic year 2025-2026, the tuition restraint level is equal to the greater of 4.5% or \$227.00. It is intended that in the next fiscal year, the tuition restraint rate will be adjusted only for the subsequent academic year. As used in this subsection:

- (2) No later than October 15 each year, each public university that receives an appropriation in section 236 shall certify all of the following:

(1) No later than the last business day of August each year, each public university that receives an appropriation in section 236 shall submit the amount of tuition and fees actually charged to a full-time resident undergraduate student for academic year 2023-2024 as part of the public university's higher education institutional data inventory (HEIDI) data. A public university shall report any revisions for any semester of the reported academic year to HEIDI within 15 days of being adopted.

(2) Payments under section 236 for operations increase and per-student floor funding must be made only to a public university that certifies to the state budget director by the last business day of August each year that its board did not adopt an increase in tuition and fee rates for resident undergraduate students after September 1, 2022 for the 2022-2023 academic year and that its board will not adopt an increase in tuition and fee rates for resident undergraduate students for the 2023-2024 academic year that is greater than 4.5% or \$676.00, whichever is greater. As used in this subsection:

(a) "Fee" means any board-authorized fee that will be paid by more than 1/2 of all resident undergraduate students at least once during their enrollment at a public university, as described in the higher education institutional data inventory (HEIDI) user manual. A public university increasing a fee that applies to a specific subset of students or courses shall provide sufficient information to prove that the increase applied to that subset will not cause the increase in the average amount of board-authorized total tuition and fees paid by resident undergraduate students in the 2023-2024 academic year to exceed the limit established in this subsection.

(b) "Tuition and fee rate" means the average of full-time rates paid by a majority of students in each undergraduate class, based on an unweighted average of the rates authorized by the public university board and actually charged to students, deducting any uniformly rebated or refunded amounts, for the 2 semesters with the highest levels of full-time equated resident undergraduate enrollment during the academic year, as described in the higher education institutional data inventory (HEIDI) user manual.

(3) Each public university must certify to the state budget director by the last business day of August each year that it complies with all of the following requirements:

(b) The public university does not and will not apply any of the following criteria when determining whether credits earned outside the public university by a student count toward a degree or certificate program offered by the public university:

(i) Whether the credits were earned in a dual enrollment program that counted the credits toward high school graduation requirements.

(ii) Whether the credits were earned in a course that was delivered in a high school classroom, community college classroom or campus, or another location.

(iii) Whether the credits were earned in a course that was delivered online, in person, or hybrid.

(iv) Whether other students enrolled in the course in which the credits were earned were enrolled in high school or counted the course toward high school graduation requirements.

(c) The public university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

(4) The state budget director shall implement uniform reporting requirements to ensure that a public university receiving a payment under section 236 for operations increase or per-student floor funding has satisfied the tuition restraint requirements of this section. The state budget director has the sole authority to

determine if a public university has met the requirements of this section. Information reported by a public university to the state budget director under this subsection must also be reported to the house and senate appropriations subcommittees on higher education and the house and senate fiscal agencies.

(c) The public university actively participates in and submits timely updates to the Michigan Transfer Network created as part of the Michigan Association of Collegiate Registrars and Admissions Officers transfer agreement.

History: Add. 2024, Act 120, Eff. Oct. 1, 2024.

388.1848 Michigan achievement scholarships; definitions; eligibility; reporting obligations.

Sec. 248. (1) The funds appropriated in section 236 for Michigan achievement scholarships must be distributed as provided in this section and section 248a, pursuant to the administrative procedures for Michigan achievement scholarships of the department.

(2) As used in this section:

(a) "Department" means the department of treasury.

(b) "Eligible institution" means a public university that receives an appropriation in section 236, a community college that receives an appropriation in section 201, a federally recognized tribal college in this state, or an independent nonprofit college or university in this state as described in section 1 of 1966 PA 313, MCL 390.991.

(c) "Gift aid" includes federal Pell grants under 20 USC 1070a, tuition incentive program benefits under section 256, state tuition grants under section 252, awards received for minimum payments awarded in subsection (4), higher education expenses paid under the Michigan promise zone authority act, 2008 PA 549, MCL 390.1661 to 390.1679, and all other federal, state, local, or institutional aid in the form of grants, scholarships, or discounts applied toward tuition and mandatory fees. Gift aid does not include student loans, work-study awards, qualified withdrawals made from education savings accounts to pay higher education expenses pursuant to the Michigan education savings program act, 2000 PA 161, MCL 390.1471 to 390.1486, or higher education expenses paid under the Michigan education trust program pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442.

(d) "High school equivalency certificate" means that term as defined in section 4.

(3) An individual must meet all of the following criteria and financial thresholds each year to be eligible for a Michigan achievement scholarship awarded under this section:

(a) Be a resident of this state for at least the immediately preceding year.

(b) Have graduated from high school in this state with a diploma or certificate of completion or achieved a high school equivalency certificate in 2023 or after.

(c) Be a full-time undergraduate student at an eligible institution, as defined by that eligible institution, and be a first-time enrollee in an eligible institution during the 2023-2024 academic year, or a subsequent academic year, within 15 months after high school graduation or attainment of a high school equivalency certificate or have received a Michigan achievement scholarship in a previous academic year. For the purposes of this subdivision, participation in a dual enrollment, early college, or other similar program while attending high school does not disqualify a student from being considered a first-time enrollee.

(d) Maintain satisfactory academic progress, as defined by the eligible institution in which the student is enrolled.

(e) Not be incarcerated in a corrections institution.

(f) Not be in default on a federal student loan.

(g) For awards made during academic year 2023-2024, complete the Free Application for Federal Student Aid and have an expected family contribution of \$25,000.00 or less. For awards made during academic year 2024-2025 or a subsequent academic year, except as otherwise provided in this subdivision and subdivision (h), complete the Free Application for Federal Student Aid and have a student aid index number of 1 of the following, as applicable:

(i) For a student indicating on the student's Free Application for Federal Student Aid that the student is the only member of the student's household or the student's parents' household attending a postsecondary institution during that academic year, \$30,000.00 or less.

(ii) For a student indicating on the student's Free Application for Federal Student Aid that the student is not the only member of the student's household or the student's parents' household attending a postsecondary institution during that academic year, the greater of the number described in subparagraph (i) or a number determined by the department of treasury. For the purposes of this subparagraph, the department of treasury, in collaboration with the state budget office and the house and senate fiscal agencies, may calculate a student aid index number or may issue administrative guidance for the student aid index eligibility of students with more than 1 member of the student's household or the student's parents' household attending a postsecondary institution during that academic year. It is the intent of the legislature that the utilization of a student aid index instead of expected family contribution does not adversely impact the eligibility of students with multiple members of the student's household or the student's parents' household in college.

(h) For the purpose of determining eligibility under subdivision (g), an individual is considered to have met the requirements of subdivision (g) if the individual received the Michigan achievement scholarship in

academic year 2023-2024, was determined to have an expected family contribution of \$25,000.00 or less in academic year 2023-2024, and has completed the Free Application for Federal Student Aid for the subsequent award cycles.

(i) The legislature finds and declares that the student aid index thresholds in subdivision (g) are temporary and intended to apply only for academic year 2024-2025. It is the intent of the legislature that the legislature and executive branch work collaboratively to use Michigan achievement scholarship uptake and other relevant data to establish a more permanent measure of financial need for the Michigan achievement scholarship for subsequent academic years.

(j) Apply for all available gift aid for each academic year in which the individual applies for a Michigan achievement scholarship.

(4) Michigan achievement scholarships are subject to all of the following:

(a) Subject to section 248a(3)(f)(i), an eligible student may receive an award under this section or section 248a for a maximum of 5 academic years, not more than 3 of which may be for attending eligible institutions that are community colleges or federally recognized tribal colleges unless the student is enrolled in a baccalaureate degree program described in section 121 of the community college act of 1966, 1966 PA 331, MCL 389.121. A student may not receive an award under this subsection and section 248a(3)(f)(i) during the same academic year.

(b) The amount awarded to an eligible student at an eligible institution that is a community college or federally recognized tribal college must equal the sum of following:

(i) A minimum payment of \$1,750.00, which is comprised of a base payment of \$1,000.00 plus an additional payment of \$750.00.

(ii) The lesser of \$1,000.00 or the student's last-dollar payment amount.

(c) The amount awarded to an eligible student at an eligible institution that is a public university or enrolled in a baccalaureate degree program described in section 121 of the community college act of 1966, 1966 PA 331, MCL 389.121, must equal the sum of following:

(i) A minimum payment of \$2,500.00, which is comprised of a base payment of \$1,000.00 plus an additional payment of \$1,500.00.

(ii) The lesser of \$3,000.00 or the student's last-dollar payment amount.

(d) The amount awarded to an eligible student at an eligible institution that is an independent nonprofit college or university must equal the sum of the following:

(i) A minimum payment of \$1,000.00.

(ii) The lesser of \$3,000.00 or the student's last-dollar payment amount.

(e) Money awarded under this subsection for a Michigan achievement scholarship must be paid to the eligible institution for credit to the student's account.

(f) As used in this subsection:

(i) "Last-dollar payment amount" means an amount equal to the tuition, mandatory fees, and contact hours for each student's actual program of study, minus all gift aid received by the student.

(ii) "Minimum payment" means a payment eligible for any cost within the student's individual cost of attendance. The minimum payment must be awarded as a separate payment not included in the student's need-based financial aid. The minimum payment must not be reduced.

(5) The department shall work closely with participating institutions to provide the highest level of participation and ensure that all requirements of the program are met.

(6) From the funds appropriated in section 236(7) for the Michigan achievement scholarships, the department may not use more than \$10,000,000.00 for the purposes of outreach programs to raise awareness of the Michigan achievement scholarship described in this section and section 248a and shall ensure that Michigan achievement scholarships are well publicized and that high school students are provided information on the program. The department may receive and expend funds received from outside sources for scholarships, marketing, or other purposes related to the Michigan achievement scholarship. The department shall provide the necessary funding and staff to fully operate the program.

(7) The department shall convene a workgroup during the fiscal year ending September 30, 2024 to consider and advise the department on implementing policies for administering the Michigan achievement scholarship. The workgroup shall include participation from the Michigan Association of State Universities and its institutional members, the Michigan College Access Network, the Michigan Community College Association and its institutional members, the Michigan Independent Colleges and Universities and its institutional members, and any other interested stakeholders and offices as determined by the department. The workgroup shall make recommendations on packaging order, packaging structure, definitions of terms not otherwise defined in statute, and other administrative regulatory requirements as necessary to implement the Michigan achievement scholarship.

(8) The following reporting obligations apply to the Michigan achievement scholarship program:

(a) By May 1 and December 1 of each year, the department shall provide a written report, organized by eligible institution, to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director that includes the following information for the previous academic year:

- (i) The number of students who qualified for a Michigan achievement scholarship.
- (ii) The number of students who received a Michigan achievement scholarship.
- (iii) The average number of credits earned by students who received a Michigan achievement scholarship.
- (iv) The number of Michigan achievement scholarships that were canceled due to failure to maintain satisfactory academic progress under subsection (3)(d).

(v) The number of Michigan achievement scholarships that were canceled due to a student ceasing attendance at an eligible institution. The number must not include any known transfers to another eligible institution.

(vi) The number of Michigan achievement scholarships that were canceled due to a student's failure to maintain full-time status.

(vii) The average Michigan achievement scholarship award per student, delineated by sector, including community colleges, tribal colleges, public universities, independent colleges and universities, and training institutions. As used in this subparagraph, "training institutions" means training institutions accepted to participate in the Michigan achievement scholarship program under section 248a.

(b) Each eligible institution whose students receive awards under this section shall cooperate with the department in a timely manner to facilitate the creation of the report under subdivision (a).

(9) Beginning April 1, 2024, by April 1 of each year, each eligible institution shall submit a report to the department, the state budget office, and the house and senate fiscal agencies providing information as to the total institutional grant aid per full-year equated undergraduate student for the current institution fiscal year and for the immediately preceding 3 institution fiscal years. If the institution does not maintain total institutional grant aid per full-year equated undergraduate student at the average amount provided over the immediately preceding 3 institution fiscal years, the institution must include in the report a description of changes to institutional finances or the student population that prevented the institution from maintaining support for institutional aid. An institution's report of total institutional grant aid per full-year equated undergraduate student pursuant to this subdivision must be consistent with data most recently reported to the Integrated Postsecondary Education Data System.

(10) For each fiscal year, an eligible institution becomes ineligible for funding under this section if, in the immediately preceding fiscal year, the institution exceeds 1 of the following tuition restraint requirements, as applicable:

(a) For an eligible institution that is a community college, the tuition restraint described in section 217b.

(b) For an eligible institution that is a public university or independent nonprofit college or university, the tuition restraint described in section 241c.

(11) It is the intent of the legislature that an eligible institution will not make reductive changes to scholarship or financial aid programs offered by that eligible institution that have the goal or net effect of shifting the cost burden of those programs to the program described in this section.

(i) A minimum payment of \$2,500.00.

(ii) The lesser of \$3,000.00 or the student's last-dollar payment amount.

(d) The amount awarded to an eligible student at an eligible institution that is an independent nonprofit college or university must equal the sum of the following:

(i) A minimum payment of \$2,500.00.

(ii) The lesser of \$3,000.00 or the student's last-dollar payment amount.

(e) Money awarded under this subsection for a Michigan achievement scholarship must be paid to the eligible institution for credit to the student's account.

(5) Subject to section 248a(3)(f)(i), an eligible student may receive a Michigan achievement scholarship award under this section or section 248a for a maximum of 5 academic years, not more than 3 of which may be for attending eligible institutions that are community colleges or federally recognized tribal colleges unless the student is enrolled in a baccalaureate degree program described in section 121 of the community college act of 1966, 1966 PA 331, MCL 389.121. A student may not receive an award under this section and section 248a(3)(f)(i) during the same academic year.

(6) The department shall work closely with participating institutions to provide the highest level of participation and ensure that all requirements of the program are met.

(7) From the funds appropriated in section 236(7) for the Michigan achievement scholarships, the department may not use more than \$10,000,000.00 for the purposes of outreach programs to raise awareness of the Michigan achievement scholarship described in this section and section 248a and shall ensure that Michigan achievement scholarships are well publicized and that high school students are provided information on the program. The department may receive and expend funds received from outside sources for scholarships, marketing, or other purposes related to the Michigan achievement scholarship. The department shall provide the necessary funding and staff to fully operate the program.

(8) The department shall convene a workgroup to consider and advise the department on implementing policies for administering the Michigan achievement scholarship. The workgroup shall include participation from the Michigan Association of State Universities and its institutional members, the Michigan College Access Network, the Michigan Community College Association and its institutional members, the Michigan Independent Colleges and Universities and its institutional members, and any other interested stakeholders and offices as determined by the department. The workgroup shall make recommendations on packaging

order, packaging structure, definitions of terms not otherwise defined in statute, and other administrative regulatory requirements as necessary to implement the Michigan achievement scholarship.

(9) The following reporting obligations apply to the Michigan achievement scholarship program:

(a) By February 15 of each year, the department shall provide a written report, organized by eligible institution, to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director that includes the following information for the previous academic year:

(i) The number of students who qualified for a Michigan achievement scholarship.

(ii) The number of students who received a Michigan achievement scholarship.

(iii) The average number of credits earned by students who received a Michigan achievement scholarship.

(iv) The number of Michigan achievement scholarships that were canceled due to failure to maintain satisfactory academic progress as described in subsection (3)(d).

(v) The number of Michigan achievement scholarships that were canceled due to a student ceasing attendance at an eligible institution. The number must not include any known transfers to another eligible institution.

(vi) The number of Michigan achievement scholarships that were canceled due to a student's failure to maintain full-time status.

(vii) The average Michigan achievement scholarship award per student, delineated by sector, including community colleges, tribal colleges, public universities, independent colleges and universities, and training institutions. As used in this subparagraph, "training institutions" means training institutions accepted to participate in the Michigan achievement scholarship program under section 248a.

(b) Each eligible institution whose students receive awards under this section shall cooperate with the department in a timely manner to facilitate the creation of the report under subdivision (a).

(10) By April 1 of each year, each eligible institution shall submit a report to the department, the state budget office, and the house and senate fiscal agencies providing information as to the average amount of institutional grant aid awarded to full-time first-time undergraduate students for the immediately preceding 2 institution fiscal years. If the average amount of institutional grant aid awarded to full-time first-time undergraduate students in fiscal year 2023-2024 is less than the average amount of institutional grant aid awarded to full-time first-time undergraduate students in fiscal year 2022-2023, the institution must include in the report a description of any changes to the institutional financial aid during the 2 immediately preceding fiscal years. An institution's report of the average amount of institutional grant aid awarded to full-time first-time undergraduate students pursuant to this subsection must be consistent with data most recently reported to the Integrated Postsecondary Education Data System.

(11) For each fiscal year, an eligible institution must maintain and report its compliance with the following tuition restraint requirements, as applicable:

(a) For an eligible institution that is a community college, the tuition restraint described in section 217b.

(b) For an eligible institution that is a public university or independent nonprofit college or university, the tuition restraint described in section 241c.

(12) The state budget director shall implement reporting requirements to ensure that an eligible institution has satisfied the tuition restraint requirements of this section. The state budget director has the sole authority to determine if an eligible institution has met the requirements of this section.

(13) If an eligible institution exceeds the applicable tuition restraint level for 2 consecutive years, the state budget director may consider the institution ineligible for funding under this section in the subsequent academic year.

(14) If an institution is considered ineligible for funding under this section, the state budget director must reevaluate the status of the ineligible institution after 1 academic year.

(15) It is the intent of the legislature that an eligible institution will not make reductive changes to scholarship or financial aid programs offered by that eligible institution that have the goal or net effect of shifting the cost burden of those programs to the program described in this section.

388.1851 State competitive scholarship program.

Sec. 251. (1) Payments of the amounts included in section 236 for the state competitive scholarship program must be distributed pursuant to 1964 PA 208, MCL 390.971 to 390.981.

(2) Pursuant to section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall determine an

actual state competitive scholarship award per student, which must be \$1,500.00, that ensures that the aggregate payments for the state competitive scholarship program do not exceed the appropriation contained in section 236 for the state competitive scholarship program. If the department determines that insufficient funds are available to establish an award amount equal to \$1,500.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$1,500.00 award amount. For the purpose of determining a student's financial need under section 6 of 1964 PA 208, MCL 390.976, the department of treasury shall presume that a student who receives a Michigan achievement scholarship under section 248(4)(b) or (c) has no need for a state competitive scholarship under this section. It is the intent of the legislature that 1964 PA 208, MCL 390.971 to 390.981, will be amended to end competitive scholarship eligibility of students enrolling in college for the first time after the fiscal year ending on September 30, 2023, as those students may be eligible for the Michigan achievement scholarship.

(3) The department of treasury shall implement a proportional competitive scholarship award level for recipients enrolled less than full-time in a given semester or term.

(4) If a student who receives an award under this section has the student's tuition, contact hours, and fees paid under the Michigan educational trust program, pursuant to the Michigan education trust act, 1986 PA 316, MCL 390.1421 to 390.1442, and still has financial need, the funds awarded under this section may be used for educational expenses other than tuition and fees.

(5) If the department of treasury increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the award must be proportional for all eligible students receiving awards.

(6) Veterans Administration benefits must not be considered in determining eligibility for the award of scholarships under 1964 PA 208, MCL 390.971 to 390.981.

(2) Tuition grant awards must be made to all eligible Michigan residents enrolled in undergraduate degree programs who are qualified.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsections (6) and (7), the department of treasury shall determine an actual tuition grant award per student, which must be \$3,000.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$3,000.00 award amount. If the department determines that sufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the award amount established and the projected amount of any projected year-end appropriation balance based on that award amount. By February 18 of each fiscal year, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions must be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students must be notified of the adjustment by March 4 of each year.

(4) The department of treasury shall continue a proportional tuition grant award level for recipients enrolled less than full-time in a given semester or term.

Any decrease in the grant must be proportional for all eligible students enrolled in that college or university, as determined by the department.

(7) The department of treasury shall not award tuition grants to otherwise eligible students enrolled in an independent college or university that does not report, in a form and manner directed by and satisfactory to the department of treasury, by October 31 of each year, all of the following:

(a) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and successfully completed a program or graduated.

(b) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and took a remedial education class.

(c) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and successfully completed a program or graduated.

(8) By February 1 of each year, each independent college and university participating in the tuition grant program shall report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director on its efforts to develop and implement sexual assault response training for the institution's title IX coordinator, campus law enforcement personnel, campus public safety personnel, and any other campus personnel charged with responding to on-campus incidents, including information on sexual assault response training materials and the status of implementing sexual assault response training for institutional personnel.

Sec. 252. (1) The amounts appropriated in section 236 for the state tuition grant program must be distributed pursuant to 1966 PA 313, MCL 390.991 to 390.997a.

(2) Tuition grant awards must be made to all eligible Michigan residents enrolled in undergraduate degree programs who are qualified.

(3) Pursuant to section 5 of 1966 PA 313, MCL 390.995, and subject to subsections (6) and (7), the department of lifelong education, advancement, and potential shall determine an actual tuition grant award per student, which must be \$3,000.00, that ensures that the aggregate payments for the tuition grant program do not exceed the appropriation contained in section 236 for the state tuition grant program. If the department determines that insufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the estimated amount of additional funds necessary to establish a \$3,000.00 award amount. If the department determines that sufficient funds are available to establish an award amount equal to \$3,000.00, the department shall immediately report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director regarding the award amount established and the projected amount of any projected year-end appropriation balance based on that award amount. By February 18 of each fiscal year, the department shall analyze the status of award commitments, shall make any necessary adjustments, and shall confirm that those award commitments will not exceed the appropriation contained in section 236 for the tuition grant program. The determination and actions must be reported to the state budget director and the house and senate fiscal agencies no later than the final day of February of each year. If award adjustments are necessary, the students must be notified of the adjustment by March 4 of each year. Subject to subsection (9), for the purposes of determining a student's financial need under 1966 PA 313, MCL 390.991 to 390.997a, the department of lifelong education, advancement, and potential shall presume that a student who is eligible for the Michigan tuition grant for the first time during academic year 2024-2025 or any subsequent year, has no need for a state tuition grant under this section. It is the intent of the legislature that 1966 PA 313, MCL 390.991 to 390.997a, will be amended to end tuition grant eligibility of students enrolling in college for the first time after the fiscal year ending on September 30, 2024, as those students may be eligible for the Michigan achievement scholarship.

(4) The department of lifelong education, advancement, and potential shall continue a proportional tuition grant award level for recipients enrolled less than full-time in a given semester or term.

(5) If the department of lifelong education, advancement, and potential increases the award per eligible student from that provided in the previous fiscal year, it must not have the effect of reducing the number of eligible students receiving awards in relation to the total number of eligible applicants. Any increase in the grant must be proportional for all eligible students receiving awards for that fiscal year.

(6) The department of lifelong education, advancement, and potential shall not award more than \$5,000,000.00 in tuition grants to eligible students enrolled in the same independent nonprofit college or university in this state. Any decrease in the grant must be proportional for all eligible students enrolled in that college or university, as determined by the department.

(7) The department of lifelong education, advancement, and potential shall not award tuition grants to otherwise eligible students enrolled in an independent college or university that does not report, in a form and manner directed by and satisfactory to the department of lifelong education, advancement, and potential, by October 31 of each year, all of the following:

(a) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and successfully completed a program or graduated.

(b) The number of students in the most recently completed academic year who in any academic year received a state tuition grant at the reporting institution and took a remedial education class.

(c) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and successfully completed a program or graduated.

(8) By February 1 of each year, each independent college and university participating in the tuition grant program shall report to the house and senate appropriations subcommittees on higher education, the house and senate fiscal agencies, and the state budget director on its efforts to develop and implement sexual assault response training for the institution's title IX coordinator, campus law enforcement personnel, campus public

safety personnel, and any other campus personnel charged with responding to on-campus incidents, including information on sexual assault response training materials and the status of implementing sexual assault response training for institutional personnel.

(9) A student who received a scholarship under this section prior to the academic year 2024-2025 may continue to receive a tuition grant award under this section provided that the student meets all other criteria required for the receipt of a tuition grant award.

(c) "Department" means the department of treasury.

(d) "High school equivalency certificate" means that term as defined in section 4.

(ii) Be a United States citizen and a resident of this state according to institutional criteria.

(iii) Be at least a half-time student, earning less than 80 semester or 120 term credits at a participating educational institution within 4 years of high school graduation or achievement of a high school equivalency certificate. (i) Complete at least 56 transferable semester or 84 transferable term credits.

(ii) Obtain an associate degree or certificate at a participating institution.

(c) To be eligible for phase I or phase II, an individual must be financially eligible as determined by the department. The department shall accept certification of Medicaid eligibility only from the department of health and human services for the purposes of verifying if a person is Medicaid eligible for 24 months within any 36 months prior to completion of high school or achievement of a high school equivalency certificate. Certification of eligibility may begin in the sixth grade.

(4) For phase I, the department shall provide payment on behalf of a person eligible under subsection (3). The department shall only accept standard per-credit hour tuition billings and shall reject billings that are excessive or outside the guidelines for the type of educational institution.

(5) For phase I, all of the following apply:

(b) For persons enrolled at a Michigan community college, the department shall pay the current in-district tuition and mandatory fees. For persons residing in an area that is not included in any community college district, the out-of-district tuition rate may be authorized.

(c) For persons enrolled at a Michigan public university, the department shall pay lower division resident tuition and mandatory fees for the current year.

(d) For persons enrolled at a Michigan independent, nonprofit degree-granting college or university, a Michigan federal tribally controlled community college, or Focus: HOPE, the department shall pay mandatory fees for the current year and a per-credit payment that does not exceed the average community college in-district per-credit tuition rate as reported by the last business day of August for the immediately preceding academic year.

(9) Except as otherwise provided in sections 13(c) and 17 of the Michigan reconnect grant recipient act, 2020 PA 68, MCL 390.1713 and 390.1717, each institution shall ensure that all known available restricted grants for tuition and fees are used before billing the tuition incentive program for any portion of a student's tuition and fees.

(10) The department shall ensure that the tuition incentive program is well publicized and that eligible Medicaid clients are provided information on the program. The department shall provide the necessary funding and staff to fully operate the program.

(a) The number of phase I students in the most recently completed academic year who in any academic year received a tuition incentive program award and who successfully completed a degree or certificate program. Cohort graduation rates for phase I students must be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary institutions.

(b) The number of students in the most recently completed academic year who in any academic year received a Pell grant at the reporting institution and who successfully completed a degree or certificate program. Cohort graduation rates for students who received Pell grants must be calculated using the established success rate methodology developed by the center in collaboration with the postsecondary

institutions.

(12) If a qualified postsecondary institution does not report the data necessary to complete the reporting in subsection (11) to the P-20 longitudinal data system by October 15 for the prior academic year, the department shall not award phase I tuition incentive program funding to otherwise eligible students enrolled in that institution until the data are submitted.

Sec. 296. (1) If the maximum amount appropriated under this act from the state school aid fund for a fiscal year exceeds the amount necessary to fully fund allocations under this act from the state school aid fund, that excess amount must not be expended in that state fiscal year and does not lapse to the general fund, but instead is deposited into the school aid stabilization fund created in section 11a.

(2) If the total maximum amount appropriated under all articles of this act from the state school aid fund and the school aid stabilization fund exceeds the amount available for expenditure from the state school aid fund for that fiscal year, payments under sections 11j, 11m, 22a, 26a, 26b, 26c, 31d, 31f, 51a(2), 51a(11), 51c, 53a, 56, 147c, 147e(2)(a), and 152a must be made in full. In addition, for districts beginning operations after 1994-95 that qualify for payments under section 22b, payments under section 22b must be made so that the qualifying districts receive the lesser of an amount equal to the 1994-95 foundation allowance of the district in which the district beginning operations after 1994-95 is located or \$5,500.00. The amount of the payment to be made under section 22b for these qualifying districts must be as calculated under section 22a, with the balance of the payment under section 22b being subject to the proration otherwise provided under this subsection and subsection (3). If proration is necessary, state payments under each of the other sections of article I from all state funding sources, and state appropriations to community colleges and public universities under articles II and III from the state school aid fund, must be prorated in the manner prescribed in subsection (3) as necessary to reflect the amount available for expenditure from the state school aid fund for the affected fiscal year. However, if the department of treasury determines that proration will be required under this subsection, or if the department of treasury determines that further proration is required under this subsection after an initial proration has already been made for a fiscal year, the department of treasury shall notify the state budget director, and the state budget director shall notify the legislature at least 30 calendar days or 6 legislative session days, whichever is more, before the department reduces any payments under this act because of the proration. During the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, the department shall not reduce any payments under this act because of proration under this subsection. The legislature may prevent proration from occurring by, within the 30-calendar-day or 6-legislative-session-day period after that notification by the state budget director, enacting legislation appropriating additional funds from the general fund, countercyclical budget and economic stabilization fund, state school aid fund balance, or another source to fund the amount of the projected shortfall.

(3) If proration is necessary under subsection (2), the department shall calculate the proration in district and intermediate district payments under article I that is required under subsection (2), and the department of treasury shall calculate the proration in community college and public university payments under articles II and III that is required under subsection (2), as follows:

(a) The department and the department of treasury shall calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(iv) Community colleges and public universities that receive funding from the state school aid fund.

(b) Subject to subsection (4), the department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(i) for districts by reducing payments to districts. This reduction must be made by calculating an equal dollar amount per pupil as necessary to recover this percentage of the proration amount and reducing each district's total state school aid from state sources, other than payments under sections 11j, 11m, 22a, 26a, 26b, 26c, 31d, 31f, 51a(2), 51a(11), 51c, 53a, 147c, 147e(2)(a), and 152a, by that amount.

(c) Subject to subsection (4), the department shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(ii) for intermediate districts by reducing payments to intermediate districts. This reduction must be made by reducing the payments to each intermediate district, other than payments under sections 26a, 26b, 26c, 51a(2), 51a(11), 53a, 56, 147c, 147e(2)(a), and 152a, on an equal percentage basis.

(d) Subject to subsection (4), the department shall recover a percentage of the proration amount required

under subsection (2) that is equal to the percentage calculated under subdivision (a)(iii) for entities receiving funding from the state school aid fund under article I other than districts and intermediate districts by reducing payments to these entities. This reduction must be made by reducing the payments to each of these entities, other than payments under sections 11j, 11m, 26a, 26b, and 26c on an equal percentage basis.

(e) The department of treasury shall recover a percentage of the proration amount required under subsection (2) that is equal to the percentage calculated under subdivision (a)(iv) for community colleges and public universities that receive funding from the state school aid fund by reducing that portion of the payments under articles II and III to these community colleges and public universities, other than payments under sections 201(5) and 236(4), that is from the state school aid fund on an equal percentage basis.

(4) If a deposit from the school aid countercyclical budget and foundation stabilization fund is made into the state school aid fund for the purposes of eliminating or reducing proration, as provided in section 11z, the amount deposited into the state school aid fund must be used to reduce or eliminate the amount recovered from districts under subsection (3)(b), intermediate districts under subsection (3)(c), and entities receiving funding from the state school aid fund under article I other than districts and intermediate districts under subsection (3)(d). For the purposes of calculations under this subsection, the department shall do all of the following:

(a) Calculate the percentage of total state school aid fund money that is appropriated and allocated under this act for the affected fiscal year for each of the following:

(i) Districts.

(ii) Intermediate districts.

(iii) Entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(b) Multiply the resulting percentages calculated under subdivision (a) by the amount deposited from the school aid countercyclical budget and foundation stabilization fund into the state school aid fund to determine how much proration has been reduced or eliminated for districts, intermediate districts, and entities receiving funding from the state school aid fund under article I other than districts or intermediate districts.

(c) Credit the resulting amounts calculated under subdivision (b) toward the total dollar amount necessary for recovery described in subsections (3)(b), (3)(c), and (3)(d), as applicable.
