Sec. 41. (1) The annual level percentage of payroll contribution rates to finance benefits being provided and to be provided by the retirement system must be determined by actuarial valuation under subsection (2) on the basis of the risk assumptions that the retirement board and the department adopt after consultation with the state treasurer and an actuary. An annual actuarial valuation must be made of the retirement system to determine the actuarial condition of the retirement system and the required contribution to the retirement system. An annual actuarial gain-loss experience study of the retirement system must be made to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) Except as otherwise provided in sections 41a and 41b, the annual contribution rates for benefits are subject to all of the following:

(a) Except as otherwise provided in this subdivision, the contribution rate for benefits must be computed using an individual projected benefit entry age normal cost method of valuation. If the contributions described in section 43e are determined by a final order of a court of competent jurisdiction for which all rights of appeal have been exhausted to be unconstitutional and the contributions are not deposited into the appropriate funding account referenced in section 43e, the contribution rate for health benefits provided under section 91 must be computed using a cash disbursement method.

(b) Subject to subdivision (c), the contribution rate for service likely to be rendered in the current year, the normal cost contribution rate, for reporting units must be determined as follows:

(i) Calculate the aggregate amount of individual projected benefit entry age normal costs.

(ii) Divide the result of the calculation under subparagraph (i) by 1% of the aggregate amount of active members' valuation compensation.

(c) Except for the employee portion of the normal cost contribution rates for members under section 41b(2), beginning with the state fiscal year ending September 30, 2018 and for each subsequent fiscal year, the normal cost contribution rate must not be less than the normal cost contribution rate in the immediately preceding state fiscal year.

(d) Subject to subdivision (e), the contribution rate for unfunded service rendered before the valuation date, the unfunded actuarial accrued liability contribution rate, must be determined as follows:

(i) Calculate the aggregate amount of unfunded actuarial accrued liabilities of reporting units as follows:

(A) Calculate the actuarial present value of benefits for members attributable to reporting units.

(B) Calculate the actuarial present value of future normal cost contributions of reporting units.

(C) Calculate the actuarial present value of assets on the valuation date.

(D) Add the results of sub-subparagraphs (B) and (C).

(E) Subtract from the result of the calculation under sub-subparagraph (A) the result from the calculation under sub-subparagraph (D).

(ii) Subject to subsection (18), divide the result of the calculation under subparagraph (i) by 1% of the actuarial present value over a period not to exceed 50 years of projected valuation compensation.

(e) Except for the employee portion of the unfunded actuarial accrued liability contribution rates for members under section 41b(2), beginning with the state fiscal year ending September 30, 2018 and for each subsequent fiscal year until the state fiscal year ending September 30, 2021, the unfunded actuarial accrued liability contribution rate must not be less than the unfunded actuarial accrued liability contribution rate in the preceding state fiscal year. Except as otherwise provided in this subdivision, beginning with the state fiscal year ending September 30, 2022, and for each subsequent fiscal year until the unfunded actuarial accrued liability is fully paid, the unfunded actuarial accrued liability contribution amount due and payable must not be less than the unfunded actuarial accrued liability contribution amount due and payable in the preceding state fiscal year. For a reporting unit that is a university reporting unit, for the state fiscal years ending September 30, 2023 and September 30, 2024, the unfunded actuarial accrued liability contribution due and payable must be equal to the actuarially determined contribution. For a reporting unit that is a university reporting unit, for the state fiscal years ending September 30, 2023 and September 30, 2024, the contribution must reflect the appropriations made under section 236h of the state school aid act of 1979, 1979 PA 94, MCL 388.1836h, as amended by 2022 PA 144 and 2023 PA 103.

(f) Beginning with the state fiscal year ending September 30, 2013 and for each subsequent fiscal year, the unfunded actuarial accrued liability contribution rate applied to payroll must not exceed 20.96% for a reporting unit that is not a university reporting unit. Any additional unfunded actuarial accrued liability contributions as determined under this section for each fiscal year are to be paid by appropriation from the state school aid fund established by section 11 of article IX of the state constitution of 1963. Except as otherwise provided in this section and sections 41a and 41b, the unfunded actuarial accrued liability contribution rate must be based on and applied to the combined payrolls of the employees who are members or qualified participants, or both.

(g) Beginning with the state fiscal year ending September 30, 2016 and for each subsequent state fiscal year, the unfunded actuarial accrued liability contribution rate applied to the combined payroll, as provided in section 41a, must not exceed 25.73% for a university reporting unit. Any additional unfunded actuarial accrued liability contributions as determined under this section for each fiscal year for university reporting units are to be paid by appropriation under article III of the state school aid act of 1979, 1979 PA 94, MCL 388.1836 to 388.1891.

(3) Before November 1 of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department the aggregate compensation estimated to be paid public school employees for the state fiscal year.

(4) On the basis of the estimate under subsection (3), the annual actuarial valuation, and any adjustment required under subsection (6), the director of the department shall compute the amount due and payable to the retirement system and shall certify this amount to the reporting units.

(5) Except as provided in section 41b, the reporting units shall pay the amount certified under subsection (4) to the director of the department in equal payroll cycle installments for unfunded actuarial accrued liability contributions and payroll cycle installments for normal cost contributions.

(6) Not later than 90 days after the end of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department and each reporting unit the actual aggregate compensation paid to public school employees during the preceding state fiscal year. On receipt of that certification, the director of the department may compute any adjustment required to the amount because of a difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate. The difference, if any, must be paid as provided in subsection (9). This subsection does not apply in a fiscal year in which a deposit is made under subsection (14).

(7) The director of the department may require evidence of correctness and may conduct an audit of the aggregate compensation that the director of the department considers necessary to establish its correctness.

(8) A reporting unit shall forward employee and employer Social Security contributions and reports as required by the federal old-age, survivors, disability, and hospital insurance provisions of title II of the social security act, 42 USC 401 to 434.

(9) For an employer of an employee of a local public school district or an intermediate school district, for differences occurring in fiscal years beginning on or after October 1, 1993, a minimum of 20% of any difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in subsection (6) must be paid by that employer in the next state fiscal year and a minimum of 25% of the remaining difference must be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. For an employer of other public school employees, for differences occurring in fiscal years beginning on or after October 1, 1991, a minimum of 20% of any difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in

subsection (6) must be paid by that employer in the next state fiscal year and a minimum of 25% of the remaining difference must be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. In addition, interest must be included for each year that a portion of the remaining difference is carried forward. The interest rate must equal the actuarially assumed rate of investment return for the state fiscal year in which payment is made. This subsection does not apply in a fiscal year in which a deposit is made under subsection (14).

(10) Beginning on September 30, 2006, all assets held by the retirement system must be reassigned their fair market value, as determined by the state treasurer, as of September 30, 2006, and in calculating any unfunded actuarial accrued liabilities, any market gains or losses incurred before September 30, 2006 may not be considered by the retirement system's actuaries.

(11) Except as otherwise provided in this subsection, beginning on September 30, 2006, the actuary used by the retirement board shall assume a rate of return on investments of 8% per annum, as of September 30, 2006, which rate may only be changed with the approval of the retirement board and the director of the department. Beginning on July 1, 2010, the actuary used by the retirement board shall assume a rate of return on investments of 7% per annum for investments associated with members who first became members after June 30, 2010, and before February 1, 2018, which rate may only be changed with the approval of the retirement board and the director of the department. Beginning on February 1, 2018, the actuary used by the retirement board shall assume a rate of return on investments of 6% per annum for investments associated with members who first became a member on or after February 1, 2018, which rate may only be changed with the approval of the retirement board and the director of the department.

(12) Beginning on September 30, 2006, the value of assets used must be based on a method that spreads over a 5-year period the difference between actual and expected return occurring in each year after September 30, 2006, and the methodology may only be changed with the approval of the retirement board and the director of the department.

(13) Beginning on September 30, 2006, the actuary used by the retirement board shall use a salary increase assumption that projects annual salary increases of 4%. In addition to the 4%, the retirement board shall use an additional percentage based on an age-related scale to reflect merit, longevity, and promotional salary increase. The actuary shall use this assumption until a change in the assumption is approved in writing by the retirement board and the director of the department.

(14) For fiscal years that begin on or after October 1, 2001, if the actuarial valuation prepared under this section demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions exceeds the actuarial present value of benefits, the amount based on the annual level percent of payroll contribution rate under subsections (1) and (2) may be deposited into the health advance funding subaccount created by section 34.

(15) Notwithstanding any other provision of this act, if the retirement board establishes an arrangement and fund as described in section 6 of the public employee retirement benefit protection act, 2002 PA 100, MCL 38.1686, the benefits that are required to be paid from that fund must be paid from a portion of the employer contributions described in this section or other eligible money. The retirement board shall determine the amount of the employer contributions or other eligible money that must be allocated to that fund and deposit that amount in that fund before it deposits any remaining employer contributions or other eligible money in the pension fund.

(16) The retirement board and the department shall conduct and review an experience investigation study and adopt risk assumptions on which actuarial valuations are to be based after consultation with the actuary and the state treasurer. The experience investigation study must be completed and risk assumptions must be periodically reviewed at least once every 5 years.

(17) Every April 1 following the periodic review of risk assumptions under subsection (16), the office of retirement services on behalf of the department and the state treasurer shall collaborate to submit a report to the senate majority leader, the speaker of the house of representatives, the senate and house of representatives appropriations committees, and the senate and house fiscal agencies. A report required under this subsection must be published on the office of retirement services' website and include at least all of the following:

(a) Forecasted rate of return on investments at all of the following probability levels:

- (i) 5%.
- (ii) 25%.
- (iii) 50%.
- (iv) 75%.
- (v) 95%.

(b) The actual rate of return on investments for 10-, 15-, and 20-year intervals.

- (c) Mortality assumptions.
- (d) Retirement age assumptions.
- (e) Payroll growth assumptions.
- (f) Any other assumptions that have a material impact on the financial status of the retirement system.

(18) Except as otherwise provided in this subsection, for members who first became members before February 1, 2018, for the state fiscal year ending September 30, 2024, the pension and retiree health care payroll growth assumption rate for a reporting unit that is not a university reporting unit must be 0.75%. Except as otherwise provided in this subsection, for members who first became members before February 1, 2018, beginning with the state fiscal year ending September 30, 2025, and for each subsequent state fiscal year until the pension and retiree health care payroll growth assumption rate for a reporting unit that is not a university reporting unit is zero, the payroll growth assumption rate for a reporting unit that is not a university reporting unit must be reduced by 50 basis points. Beginning with the state fiscal year ending September 30, 2025 and for each subsequent state fiscal year until the rate described in this subsection is zero, if the pension and retiree health care unfunded actuarial accrued liability contribution amount directly attributable to the 50 basis points reduction under this subsection for the fiscal year is 7% or more of the pension and retiree health care unfunded actuarial accrued liability contribution amount in the preceding state fiscal year, the office of retirement services may reduce the rate described in this subsection by 25 basis points in that current fiscal year instead of the 50 basis point reduction described in this subsection. Beginning with the fiscal year ending September 30, 2022 and for each subsequent state fiscal year until the rate described in this subsection is zero, the office of retirement services and the retirement board may agree to reduce the rate described in this subsection by any number of additional basis points.

(19) As used in this section, "university reporting unit" means a reporting unit that is a university listed in the definition of public school employee under section 6.

38.1341.amended Determining annual level percentage of payroll contribution rates; factors; unfunded actuarial accrued liability contribution rate; computation and certification of sum due and payable; payment; certification of actual aggregate compensation; adjustment; evidence of correctness; audit; duties of reporting unit; submission of difference occurring in certain fiscal years; interest rate; reassignment of assets; rate of investment return; basis of asset valuation; use of salary increase assumption; deposit to health advance funding subaccount; allocations from employer contributions; experience investigation study; risk assumptions; report; pension and retiree health care payroll growth assumption rate; "university reporting unit" defined.

Sec. 41. (1) The annual level percentage of payroll contribution rates to finance benefits being provided and to be provided by the retirement system must be determined by actuarial valuation under subsection (2) on the basis of the risk assumptions that the retirement board and the department adopt after consultation with

the state treasurer and an actuary. An annual actuarial valuation must be made of the retirement system to determine the actuarial condition of the retirement system and the required contribution to the retirement system. An annual actuarial gain-loss experience study of the retirement system must be made to determine the financial effect of variations of actual retirement system experience from projected experience.

(2) Except as otherwise provided in sections 41a and 41b, the annual contribution rates for benefits are subject to all of the following:

(a) Except as otherwise provided in this subdivision, the contribution rate for benefits must be computed using an individual projected benefit entry age normal cost method of valuation. If the contributions described in section 43e are determined by a final order of a court of competent jurisdiction for which all rights of appeal have been exhausted to be unconstitutional and the contributions are not deposited into the appropriate funding account referenced in section 43e, the contribution rate for health benefits provided under section 91 must be computed using a cash disbursement method.

(b) Subject to subdivision (c), the contribution rate for service likely to be rendered in the current year, the normal cost contribution rate, for reporting units must be determined as follows:

(i) Calculate the aggregate amount of individual projected benefit entry age normal costs.

(ii) Divide the result of the calculation under subparagraph (i) by 1% of the aggregate amount of active members' valuation compensation.

(c) Except for the employee portion of the normal cost contribution rates for members under section 41b(2), and except as otherwise provided in this subdivision, beginning with the state fiscal year ending September 30, 2018 and for each subsequent fiscal year, the normal cost contribution rate must not be less than the normal cost contribution rate in the immediately preceding state fiscal year. Beginning in the state fiscal year ending September 30, 2026, and for each subsequent state fiscal year, this subdivision does not apply to the normal cost contribution rate for retiree health benefits provided under section 91.

(d) Subject to subdivision (e), the contribution rate for unfunded service rendered before the valuation date, the unfunded actuarial accrued liability contribution rate, must be determined as follows:

(i) Calculate the aggregate amount of unfunded actuarial accrued liabilities of reporting units as follows:

(A) Calculate the actuarial present value of benefits for members attributable to reporting units.

(B) Calculate the actuarial present value of future normal cost contributions of reporting units.

(C) Calculate the actuarial present value of assets on the valuation date.

(D) Add the results of sub-subparagraphs (B) and (C).

(E) Subtract from the result of the calculation under sub-subparagraph (A) the result from the calculation under sub-subparagraph (D).

(ii) Subject to subsection (18), divide the result of the calculation under subparagraph (i) by 1% of the actuarial present value over a period not to exceed 50 years of projected valuation compensation.

(e) Except for the employee portion of the unfunded actuarial accrued liability contribution rates for members under section 41b(2), beginning with the state fiscal year ending September 30, 2018 and for each subsequent fiscal year until the state fiscal year ending September 30, 2021, the unfunded actuarial accrued liability contribution rate must not be less than the unfunded actuarial accrued liability contribution rate in the preceding state fiscal year. Except as otherwise provided in this subdivision, beginning with the state fiscal year ending September 30, 2022, and for each subsequent fiscal year until the unfunded actuarial accrued liability is fully paid, the unfunded actuarial accrued liability contribution amount due and payable must not be less than the unfunded actuarial accrued liability contribution amount due and payable in the preceding state fiscal year. For the state fiscal year ending September 30, 2025, the unfunded actuarial accrued liability contribution due and payable must be equal to the actuarially determined contribution. For a reporting unit that is a university reporting unit, for the state fiscal years ending September 30, 2023 and September 30, 2024, the unfunded actuarial accrued liability contribution due and payable must be equal to the actuarially determined contribution. For a reporting unit that is a university reporting unit, for the state fiscal years ending September 30, 2023 and September 30, 2024, the contribution must reflect the appropriations made under section 236h of the state school aid act of 1979, 1979 PA 94, MCL 388.1836h, as amended by 2022 PA 144 and 2023 PA 103.

(f) Except as otherwise provided in this subsection, beginning with the state fiscal year ending September 30, 2013 and for each subsequent fiscal year, the unfunded actuarial accrued liability contribution rate applied to payroll must not exceed 20.96% for a reporting unit that is not a university reporting unit. Beginning with the state fiscal year ending September 30, 2026 and for each subsequent fiscal year, the unfunded actuarial accrued liability contribution rate applied to payroll must not exceed 15.21% for a reporting unit that is not a university reporting unit. Any additional unfunded actuarial accrued liability contributions as determined under this section for each fiscal year are to be paid by appropriation from the state school aid fund established by section 11 of article IX of the state constitution of 1963. Except as otherwise provided in this

section and sections 41a and 41b, the unfunded actuarial accrued liability contribution rate must be based on and applied to the combined payrolls of the employees who are members or qualified participants, or both.

(g) Beginning with the state fiscal year ending September 30, 2016 and for each subsequent state fiscal year, the unfunded actuarial accrued liability contribution rate applied to the combined payroll, as provided in section 41a, must not exceed 25.73% for a university reporting unit. Any additional unfunded actuarial accrued liability contributions as determined under this section for each fiscal year for university reporting units are to be paid by appropriation under article III of the state school aid act of 1979, 1979 PA 94, MCL 388.1836 to 388.1891.

(3) Before November 1 of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department the aggregate compensation estimated to be paid public school employees for the state fiscal year.

(4) On the basis of the estimate under subsection (3), the annual actuarial valuation, and any adjustment required under subsection (6), the director of the department shall compute the amount due and payable to the retirement system and shall certify this amount to the reporting units.

(5) Except as provided in section 41b, the reporting units shall pay the amount certified under subsection (4) to the director of the department in equal payroll cycle installments for unfunded actuarial accrued liability contributions and payroll cycle installments for normal cost contributions.

(6) Not later than 90 days after the end of each state fiscal year, the executive secretary of the retirement board shall certify to the director of the department and each reporting unit the actual aggregate compensation paid to public school employees during the preceding state fiscal year. On receipt of that certification, the director of the department may compute any adjustment required to the amount because of a difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate. The difference, if any, must be paid as provided in subsection (9). This subsection does not apply in a fiscal year in which a deposit is made under subsection (14).

(7) The director of the department may require evidence of correctness and may conduct an audit of the aggregate compensation that the director of the department considers necessary to establish its correctness.

(8) A reporting unit shall forward employee and employer Social Security contributions and reports as required by the federal old-age, survivors, disability, and hospital insurance provisions of title II of the social security act, 42 USC 401 to 434.

(9) For an employer of an employee of a local public school district or an intermediate school district, for differences occurring in fiscal years beginning on or after October 1, 1993, a minimum of 20% of any difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in subsection (6) must be paid by that employer in the next state fiscal year and a minimum of 25% of the remaining difference must be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. For an employer of other public school employees, for differences occurring in fiscal years beginning on or after October 1, 1991, a minimum of 20% of any difference between the estimated and the actual aggregate compensation and the estimated and the actual actuarial employer contribution rate described in subsection (6) must be paid by that employer in the next state fiscal year and a minimum of 25% of the remaining difference must be paid by that employer in each of the following 4 state fiscal years, or until 100% of the remaining difference is submitted, whichever first occurs. In addition, interest must be included for each year that a portion of the remaining difference is carried forward. The interest rate must equal the actuarially assumed rate of investment return for the state fiscal year in which payment is made. This subsection does not apply in a fiscal year in which a deposit is made under subsection (14).

(10) Beginning on September 30, 2006, all assets held by the retirement system must be reassigned their fair market value, as determined by the state treasurer, as of September 30, 2006, and in calculating any unfunded actuarial accrued liabilities, any market gains or losses incurred before September 30, 2006 may not be considered by the retirement system's actuaries.

(11) Except as otherwise provided in this subsection, beginning on September 30, 2006, the actuary used by the retirement board shall assume a rate of return on investments of 8% per annum, as of September 30, 2006, which rate may only be changed with the approval of the retirement board and the director of the department. Beginning on July 1, 2010, the actuary used by the retirement board shall assume a rate of return on investments of 7% per annum for investments associated with members who first became members after June 30, 2010, and before February 1, 2018, which rate may only be changed with the approval of the retirement board and the director of the department. Beginning on February 1, 2018, the actuary used by the retirement board shall assume a rate of return on investments of 6% per annum for investments associated with members who first became a member on or after February 1, 2018, which rate may only be changed with the approval of the retirement board and the director of the department.

(12) Beginning on September 30, 2006, the value of assets used must be based on a method that spreads over a 5-year period the difference between actual and expected return occurring in each year after September 30, 2006, and the methodology may only be changed with the approval of the retirement board and the director of the department.

(13) Beginning on September 30, 2006, the actuary used by the retirement board shall use a salary increase assumption that projects annual salary increases of 4%. In addition to the 4%, the retirement board shall use an additional percentage based on an age-related scale to reflect merit, longevity, and promotional salary increase. The actuary shall use this assumption until a change in the assumption is approved in writing by the retirement board and the director of the department.

(14) For fiscal years that begin on or after October 1, 2001, if the actuarial valuation prepared under this section demonstrates that as of the beginning of a fiscal year, and after all credits and transfers required by this act for the previous fiscal year have been made, the sum of the actuarial value of assets and the actuarial present value of future normal cost contributions exceeds the actuarial present value of benefits, the amount based on the annual level percent of payroll contribution rate under subsections (1) and (2) may be deposited into the health advance funding subaccount created by section 34.

(15) Notwithstanding any other provision of this act, if the retirement board establishes an arrangement and fund as described in section 6 of the public employee retirement benefit protection act, 2002 PA 100, MCL 38.1686, the benefits that are required to be paid from that fund must be paid from a portion of the employer contributions described in this section or other eligible money. The retirement board shall determine the amount of the employer contributions or other eligible money that must be allocated to that fund and deposit that amount in that fund before it deposits any remaining employer contributions or other eligible money in the pension fund.

(16) The retirement board and the department shall conduct and review an experience investigation study and adopt risk assumptions on which actuarial valuations are to be based after consultation with the actuary and the state treasurer. The experience investigation study must be completed and risk assumptions must be periodically reviewed at least once every 5 years.

(17) Every April 1 following the periodic review of risk assumptions under subsection (16), the office of retirement services on behalf of the department and the state treasurer shall collaborate to submit a report to the senate majority leader, the speaker of the house of representatives, the senate and house of representatives appropriations committees, and the senate and house fiscal agencies. A report required under this subsection must be published on the office of retirement services' website and include at least all of the following:

(a) Forecasted rate of return on investments at all of the following probability levels:

(i) 5%.

(ii) 25%.

(iii) 50%.

(iv) 75%.

(v) 95%.

(b) The actual rate of return on investments for 10-, 15-, and 20-year intervals.

(c) Mortality assumptions.

(d) Retirement age assumptions.

(e) Payroll growth assumptions.

(f) Any other assumptions that have a material impact on the financial status of the retirement system.

(18) Except as otherwise provided in this subsection, for members who first became members before February 1, 2018, for the state fiscal year ending September 30, 2024, the pension and retiree health care payroll growth assumption rate for a reporting unit that is not a university reporting unit must be 0.75%. Except as otherwise provided in this subsection, for members who first became members before February 1, 2018, beginning with the state fiscal year ending September 30, 2025, and for each subsequent state fiscal year until the pension and retiree health care payroll growth assumption rate for a reporting unit that is not a university reporting unit is zero, the payroll growth assumption rate for a reporting unit that is not a university reporting unit must be reduced by 50 basis points. Beginning with the state fiscal year ending September 30, 2025 and for each subsequent state fiscal year until the rate described in this subsection is zero, if the pension and retiree health care unfunded actuarial accrued liability contribution amount directly attributable to the 50 basis points reduction under this subsection for the fiscal year is 7% or more of the pension and retiree health care unfunded actuarial accrued liability contribution amount in the preceding state fiscal year, the office of retirement services may reduce the rate described in this subsection by 25 basis points in that current fiscal year instead of the 50 basis point reduction described in this subsection. Beginning with the fiscal year ending September 30, 2022 and for each subsequent state fiscal year until the rate described in this subsection is zero, the office of retirement services and the retirement board may agree to reduce the rate described in this

subsection by any number of additional basis points.

(19) As used in this section, "university reporting unit" means a reporting unit that is a university listed in the definition of public school employee under section 6.

38.1341a Separate contribution rate; unfunded accrued liability; "university reporting unit" defined.

Sec. 41a. (1) For fiscal years that begin after March 27, 1996, the retirement system shall determine a separate contribution rate for a university reporting unit. Subject to this subsection, the retirement system shall determine the separate contribution rate in the manner prescribed in section 41, except that the unfunded actuarial accrued liability must be amortized over 40 years beginning October 1, 1996 and ending on September 30, 2036, with the payment schedule for universities being based on and applied to the combined payrolls of the universities' employees who are members and who were hired before January 1, 1996 and the universities' employees who would have been members after December 31, 1995, but for the enactment of 1995 PA 272. Beginning with the state fiscal year ending September 30, 2016 and for each subsequent fiscal year, the combined payrolls used for the payment schedule for the university reporting units must include each university reporting unit's combined payroll, as projected by the actuary based on the actuarial valuation for each following fiscal year, except that the combined payroll for each university reporting unit must not be less than the combined payroll projected for each subsequent fiscal year for each university reporting unit by the actuary based on the September 30, 2012 actuarial valuation. The amount of the unfunded accrued liability on which the separate contribution rate is determined must be that amount which a university reporting unit is legally responsible for and is calculated by actuarial analysis. Any reduction in the unfunded liability of the system under governmental action affecting the entire system will be allocated to all reporting units including universities as determined by the system's actuary. For the state fiscal year ending September 30, 2007, the contribution for unfunded actuarial accrued liability must be equal to 4.5% of the unfunded actuarial accrued liability.

(2) As used in this section, "university reporting unit" means a reporting unit that is a university listed in the definition of public school employee under section 6.

Sec. 41b. (1) Beginning July 1, 2010, the retirement system may determine a separate employer contribution rate for members who first became members on or after July 1, 2010 and before February 1, 2018. Except as provided in this section, the retirement system shall determine the separate employer contribution rate in the manner prescribed in section 41.

(2) Beginning February 1, 2018, the retirement system shall determine a separate contribution rate for members who first became members on or after February 1, 2018. Except as provided in this section, the retirement system shall determine the separate contribution rate in the manner prescribed in section 41, except that any increase or decrease in the unfunded actuarial accrued liabilities associated with members who first became members on or after February 1, 2018 must be amortized on a 10-year level-dollar schedule with a new contribution rate calculated for each year.

(3) All normal cost and any unfunded actuarial accrued liability contributions as determined under subsection (2) must be paid on a cost-sharing basis of 50% by the employer and 50% by the employee. Except as provided in this section, contributions shall be made in the manner prescribed in section 42. An employee contribution for unfunded actuarial accrued liability must not be assessed to an employee based on any portion of an unfunded liability caused by the failure of an employer to make a required contribution. Following the determination of the cost-sharing basis under this subsection, section 41(2)(c) and (e) applies.

(4) The contributions of a member for unfunded actuarial accrued liability must be treated as picked-up contributions under the internal revenue code, deducted by the employer, and remitted as employer contributions to the general fund of the retirement system and must only be used to finance unfunded actuarial accrued liabilities of the retirement system.

(5) To the extent and upon approval by the Internal Revenue Service, the retirement system for the Tier 1 plan and the plan administrator for the Tier 2 plan may also determine the extent to which some or all of the individuals performing services for an entity not participating in the retirement system that receives any funding from the state school aid fund established in section 11 of article IX of the state constitution of 1963 may participate in the Tier 1 and Tier 2 plans.

38.1342 Reporting unit contribution; exclusive obligation; contributions picked up by employer; deduction of Social Security contributions; agreement of member; forwarding retirement contributions; report; failure to submit report or contributions; late fee; intentional error or omission; withholding payment of state funds for noncompliance; exception for community or junior college student employee; "intentional" defined.

Sec. 42. (1) Beginning with the state fiscal year ending September 30, 1995 and subject to section 41b, a reporting unit shall contribute the entire amount determined under section 41 to the reserve for employer contributions and to the reserve for health benefits. The reporting unit contribution under this subsection is the exclusive obligation of the reporting unit payable out of general budget resources of the reporting unit, including funds available under local millage and other local resources and from the state school aid allocation to the reporting unit, and is not a separate obligation by specific reimbursement or otherwise of this state.

(2) As authorized by resolution or other enabling act of its governing body, the employer shall pick up all contributions of a member made under section 43a for all compensation paid after December 31, 1986 and reported to the retirement system. Although considered contributions of a member for certain purposes under this act, all contributions picked up must be treated as paid by the employer in lieu of contributions by the employee. Contributions picked up as provided in this subsection must be paid from the same source of funds that is used for paying compensation to the member. The employer may pick up these contributions by either a reduction to the member's cash salary, an offset against a future salary increase, or a combination of a reduction in salary and offset against a future salary increase. This subsection does not apply, and the

employer shall not deduct, offset, or remit contributions, until the department receives notification from the United States Internal Revenue Service that contributions picked up will not be included as gross income of the member until they are distributed or made available to the member, retirant, retirement allowance beneficiary, or refund beneficiary.

(3) The employer shall deduct from a member's compensation the contributions for Social Security provided in 1951 PA 205, MCL 38.851 to 38.871. Contributions must be made while the member remains a public school employee. Each reporting unit official shall deduct the Social Security contributions from the compensation of each member for each payroll period after the date the employee becomes a member. Social Security contributions must be made notwithstanding that the minimum compensation provided by law is changed. Each member is considered to have agreed to the contributions prescribed in this subsection.

(4) Each reporting unit official shall forward member contributions to the retirement system on a schedule and in a manner determined by the retirement system.

(5) Each reporting unit official shall forward the entire employer contribution required by this act to the retirement system on a schedule and in a manner determined by the retirement system.

(6) Each reporting unit official shall submit to the retirement system a report that includes the information for retirement purposes, including, but not limited to, persons employed, retirants performing services at a reporting unit who are employed by an entity other than the reporting unit or who are independent contractors, wages or amounts paid, hours, and contributions required under this act. The report must include the information on a pay period basis and must be submitted to the retirement system on a schedule and in a manner determined by the retirement system. The superintendent for a reporting unit or the chief administrator for a reporting unit that does not have a superintendent shall complete an annual certification that gives authorization for the employees of the reporting unit to report the information to the retirement system.

(7) If a reporting unit fails to submit a report or contributions, or both, according to the schedule established by the retirement board, the reporting unit shall pay a late fee. If the remittance of contributions is late, the late fee must include interest for each day that the remittance of contributions is late. The retirement board periodically may establish the late fee, which must not be less than \$25.00, and interest charges, which must not be less than 6% per annum.

(8) Subject to subsection (9), if a reporting unit fails to correct errors on a report before the errors are discovered by the retirement system or if the errors are intentional, the reporting unit shall pay the late fee and interest charges as described in subsection (7) for each day that the report is in error, unless reasonable cause is shown to the satisfaction of the retirement system.

(9) If the retirement board determines that a reporting unit has committed an intentional error or omission that includes a failure to submit contributions required by this act, the total assessment of daily late fees and daily interest charges under subsection (8) must not exceed the reporting unit's delinquent contribution balance associated with the error or omission, or the reporting unit's employer contribution balance for the previous school fiscal year, whichever is less. Subject to subsection (11), if the retirement board determines that a reporting unit has committed an intentional error or omission that does not include a failure to submit contributions required by this act, the total assessment of daily late fees and daily interest charges under subsection (8) must not exceed 100% of the reporting unit's employer contributions for the previous school fiscal year.

(10) On written notice from the retirement board, the superintendent of public instruction and the state treasurer shall withhold payment of state funds, in part or in whole, payable from the state school aid appropriation or higher education appropriations to a reporting unit that fails to comply with this section.

(11) Errors or omissions relating to the reporting of service rendered by an individual employed by a tax supported community or junior college while enrolled as a part-time student in that same tax supported community or junior college for a school fiscal year before the 2018-2019 school fiscal year are not subject to the assessment of daily late fees and daily interest penalties under subsection (8) but are subject to the payment of regular late fees and regular interest under subsection (7).

(12) As used in this section, an "intentional" error or omission includes, but is not limited to, the following:

(a) A knowing and willful representation that service was performed if the service was not performed.

(b) A knowing and willful submission of a report that contains material misrepresentations or falsifications, or the knowing and willful failure to submit a required report.

(c) Any other knowing and willful act or omission of a false, fraudulent, or misleading nature undertaken to gain compliance or the appearance of compliance with this act.

A retirant who has forfeited the retirement system subsidy for health care benefits under this subsection and who wants to retain health care benefits shall pay the retirant's and retirement system's costs for the health care benefits. The retirement allowance and retirement system subsidy for health care benefits must resume without recalculation on the first of the month following the month in which the retirant has terminated reporting unit employment.

(2) The retirement system may offset retirement benefits payable under this act against amounts owed to the retirement system by a retirant or retirement allowance beneficiary.

(3) Subsection (1) does not apply to a retirant who is employed at a reporting unit if both of the following apply:

(a) The retirant retired after a bona fide termination of employment.

(b) The retirant is employed at any reporting unit on July 25, 2022.

(4) Subsection (1) does not apply to a retirant who is employed by a university that is considered a reporting unit for the limited purpose described in section 7(3).

(a) The retirant retired after a bona fide termination of employment.

(b) The retirant has been retired for at least 9 consecutive months before becoming employed under this subsection.

(6) Until 5 years after the effective date of the amendatory act that added this sentence, subsection (1) does not apply to a retirant who, at the time of the retirant's retirement, was employed in a position other than a superintendent and who is employed at a reporting unit if both of the following apply:

(b) Either of the following applies:

(9) For purposes of subsections (3), (4), (5), (6), and (7), the retirement system shall determine, in accordance with federal law that governs qualified retirement plans, whether a retirant retired after a bona fide termination of employment. If the retirement system determines that a retirant did not retire after a bona fide

termination of employment, the retirement system may adjust the retirant retirement allowance effective date following a bona fide termination.

(10) A reporting unit shall report the employment of a retirant as described in subsection (3) or (4), as applicable, to the retirement system in a manner determined by the retirement system. The reporting unit shall include in the report the name of the retirant, the capacity in which the retirant is employed, and the compensation paid to the retirant. (11) As used in this section:

(a) Pay to the retirement system an amount equal to the amount the member would have contributed under the schedule governing member contributions in effect at the time of that service had the service been performed under this act or former 1945 PA 136, together with regular interest from the end of the school fiscal year in which service was performed to the semiannual anniversary of the date following the payment.

(b) Have 5 years of reporting unit service credit under this act or former 1945 PA 136, following the out of system public education service.

38.1371 Sabbatical leave; employee organization professional services leave or released time; member ineligible to initiate service credit purchase.

Sec. 71. (1) Until September 29, 2017 at 5 p.m. Eastern Daylight Saving Time, the retirement board shall grant service credit for the time a member is on a sabbatical leave authorized by a reporting unit, if the member returns to regular employment with the same reporting unit and acquires 1 year or more of subsequent service credit with that same reporting unit and if the member acquired 5 or more years of credited service with the reporting unit immediately before the sabbatical leave.

(2) If the sabbatical leave described in subsection (1) is granted before July 1, 1981, the reporting unit, if the reporting unit had a noncontributory plan at the time the sabbatical leave is granted, or the member, if the reporting unit has a contributory plan at the time the sabbatical leave is granted, shall pay to the system for each year of sabbatical leave credit an amount equal to 5% of the member's compensation earned in the school fiscal year immediately before the school fiscal year in which the sabbatical leave is granted, together with regular interest from the end of the school fiscal year in which the sabbatical leave was or is granted to the earlier of the following dates following the date of payment, the first day of the school fiscal year beginning after the date of payment or the first day of the seventh month of the school fiscal year in which the payment is made. If the reporting unit makes the payment required by this subsection, the reporting unit also shall pay the required interest. If the member makes the payment required by this subsection, the member also shall pay the required interest.

(3) If the sabbatical leave described in subsection (1) is granted after June 30, 1981, the member shall pay an amount equal to 5% of the member's full-time or equated full-time compensation earned in the school fiscal year immediately before the school fiscal year in which payment is made for each year of service credit the member elects to purchase. In computing payment under this subsection, the compensation amount used, except as otherwise provided in this subsection, must not be less than the highest school fiscal year compensation the member earned from the reporting unit that granted the sabbatical leave. If the compensation amount used for computing payment under this subsection exceeds the member's final average compensation determined at the time of retirement, the payment required under this subsection must be recomputed using the member's final average compensation and a refund must be made based on the recomputation.

(4) If, before October 31, 1980, either the reporting unit or the member has contributed 5% of the member's compensation for the school fiscal year in which the sabbatical leave was granted in order to purchase service credit for that sabbatical leave, a further payment for the purchase of service credit for that sabbatical leave shall not be required. If a member has paid the amount required under subsection (2) for the purchase of service credit for sabbatical leave, but later receives a refund of that amount, the member, not the reporting unit, shall repay the amount with regular interest as required by subsection (2) if the member elects to purchase service credit for the sabbatical leave.

(5) Effective October 1, 1981, the retirement board shall grant service credit for the time a member is on either an employee organization professional services leave or employee organization professional services released time authorized by a reporting unit if all of the following conditions are satisfied, as applicable:

(a) For a member who is on either a professional services leave or professional services released time that first began before October 1, 1996, which leave or released time is renewed annually by the reporting unit, the member is included on the reporting unit's reports required by section 42(6) and compensation, service, contribution, and other requirements are reported on the same basis as for those members of the reporting unit who were not granted an employee organization professional services leave or employee organization professional services released time.

(b) For a member who is on either a professional services leave or professional services released time, which leave or released time does not meet the requirements of subdivision (a), the member is included on the reporting unit's reports in the manner required by subdivision (a), except that compensation is reported at the rate of compensation paid to the member by the reporting unit immediately preceding the date the member commenced the professional services leave or professional services released time along with the normal and customary compensation increases that would have been paid to the member by the reporting unit had the

member remained in the same position held at the reporting unit immediately preceding the date the member commenced the leave or released time. However, if the member was not working a full 12-month period for the reporting unit immediately preceding the date the member commenced the professional services leave or professional services released time and is working a full 12-month period for the public school employee organization, the rate of compensation paid to the member by the reporting unit immediately preceding the date the member commenced the leave or released time may be increased proportionately to reflect the additional time worked for the public school employee organization. That adjusted compensation, along with the normal and customary compensation increases otherwise allowed in this subdivision, must then be reported as required in this subdivision.

(c) For a member who is on either a professional services leave or professional services released time that first began before October 1, 1996, which leave or released time is renewed annually by the reporting unit, the reporting unit remits the amount required by section 42 and the percentage of aggregate annual compensation provided from the state school aid fund for current service, if any, the percentage determined for unfunded accrued service as required by section 41, and the employer's share of social security contributions if the reporting unit is responsible for remitting the employee's share of social security contributions.

(d) For a member who is on either a professional services leave or professional services released time, which professional services leave or professional services released time does not meet the requirements of subdivision (c), the reporting unit remits the amounts required by subdivision (c) based on the rate of compensation paid to the member by the reporting unit immediately preceding the date the member commenced the professional services leave or professional services released time along with the normal and customary compensation increases that would have been paid to the member by the reporting unit had the member remained in the same position held at the reporting unit immediately preceding the date the member commenced the leave or released time. However, if the member was not working a full 12-month period for the reporting unit immediately preceding the date the member commenced the professional services leave or professional services released time and is working a full 12-month period for the public school employee organization, the rate of compensation paid to the member by the reporting unit immediately preceding the date the member commenced the leave or released time may be increased proportionately to reflect the additional time worked for the public school employee organization. That adjusted compensation, along with the normal and customary compensation increases otherwise allowed in this subdivision, must then be reported as required in this subdivision.

(6) The reporting unit must be reimbursed those sums paid to the retirement board under subsection (5) by the member or the public school employee organization on a current basis. A member who has credited service as an employee of a school district of the first class, as described in part 6 of the revised school code, 1976 PA 451, MCL 380.401 to 380.485, for a leave of absence effective before October 1, 1981, shall continue to receive credit based on the law of this state in effect at the time the leave of absence was initially effective.

(7) After September 29, 2017 at 5 p.m. Eastern Daylight Saving Time, a member is not eligible to initiate a service credit purchase under subsections (1) and (3).

(3) If a member who made payment under this section dies and a retirement allowance beneficiary has not been designated, or if the member leaves reporting unit service before his or her retirement becomes effective,

(5) A member requesting purchase of service credit under this section shall submit an application as prescribed by the retirement system in which the member shall certify the time period claimed for parental leave and the purpose of the parental leave. If the request for purchase of service credit under this section is a result of leave taken to care for the member's child by birth or adoption, the member also shall submit a certified copy of a birth certificate or adoption document from the appropriate court of jurisdiction.

(6) Parental leave is creditable under this act until the child, by birth or adoption, attains age 18 or is married, whichever occurs first.

38.1381b Retirement; eligibility requirements; computation; extension; "incentivized retirement application period" defined; amortization of additional costs.

Sec. 81b. (1) Notwithstanding section 81, a member may retire with a retirement allowance computed according to this section if all of the following apply:

(a) The member files a written application with the retirement board within the incentivized retirement application period stating a retirement allowance effective date that is on or after July 1, 2010 but not later than September 1, 2010. A member may withdraw a written application submitted by a member on or before June 11, 2010. A written application submitted by a member and not withdrawn on or before June 11, 2010 is irrevocable.

(b) On the last day of the month immediately preceding the retirement allowance effective date stated in the application, the member's combined age and length of credited service is equal to or greater than 80 years or the member is eligible to retire under section 81 with a retirement allowance that is not subject to reduction under section 84(2).

(c) The member was employed as a public school employee for the 6-month period ending May 1, 2010. A member who has worked in the 6-month period ending May 1, 2010 and is on layoff or on an approved leave of absence status from reporting unit employment is considered to have met the employment requirement of this subdivision.

(2) Upon his or her retirement as provided in this section, a member who retires with a retirement effective date on or before September 1, 2010 shall receive a retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1.6% of the member's final average compensation if the final average compensation is \$90,000.00 or less and the member is eligible to retire under section 81 with a retirement allowance that is not subject to reduction under section 84(2). If the member is eligible to retire under section 81 with a retirement allowance that is not subject to reduction under section 84(2) and has a final average compensation that is greater than \$90,000.00, the retirement allowance shall be equal to the member's number of years and fraction of a year of credited service multiplied by 1.6% of his or her final average compensation up to a final average compensation of \$90,000.00 and the remaining portion of the retirement allowance shall be equal to the member's number of years and fraction of a year of credited service multiplied by 1.5% of the portion of final average compensation over \$90,000.00. For members eligible under this section because the member's combined age and length of credited service is equal to or greater than 80 years, upon his or her retirement as provided in this section, a member who retires with a retirement effective date on or before September 1, 2010 shall receive a retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1.55% of the member's final average compensation if the final average compensation is \$90,000.00 or less. For members eligible to retire under this section because the member's combined age and length of credited service is equal to or greater than 80 years whose final average compensation is greater than \$90,000.00, the retirement allowance shall be calculated so that the member receives a portion of his or her retirement allowance equal to the member's number of years and fraction of a year of credited service multiplied by 1.55% of his or her final average compensation up to a final average compensation of \$90,000.00 and the remaining portion of the retirement allowance shall be calculated as equal to the member's number of years and fraction of a year of credited service multiplied by 1.5% of the portion of final average compensation over \$90,000.00.

(3) Except as otherwise provided in this subsection, the superintendent for a reporting unit or the chief administrator for a reporting unit that does not have a superintendent may extend the effective date of retirement under subsection (1) of a member employed by that reporting unit to a date not later than September 1, 2011. Each reporting unit having a member who elects to retire under this section may extend the retirement effective date of 1 member under this section. Up to an additional 2,500 extensions shall be allotted to reporting units using a pro-rata methodology determined by the retirement system. The retirement system shall notify reporting units of any additional extension allotments by May 22, 2010. To make an extension under this subsection, the superintendent or chief administrator shall submit to the retirement system notification of members whose retirement dates the superintendent or chief administrator will extend along with the written concurrence of the member on or before June 15, 2010. The superintendent or chief administrator shall not request, and the retirement system shall not implement, the extension of a member that

exceeds the number of extensions allotted to his or her reporting unit.

(4) For purposes of this section, "incentivized retirement application period" means the period beginning on May 19, 2010 and ending on June 11, 2010.

(5) Any additional costs to the retirement system as a result of the retirement allowance calculations under this section shall be amortized over a 10-year period.

(4) Notwithstanding any other provision of this act, a member who first becomes a member on or after July 1, 2010 shall not purchase or transfer service credit under article 4 and shall not have any purchased or transferred service credit included in the calculation of a retirement allowance on retirement.

(5) Beginning October 1, 2019 and for each fiscal year in which an experience investigation study is completed under section 41(16), if the most recent experience investigation study of mortality of the retirement system using a 65-year-old based on a 50-50 male-female blend shows an increase of 1 or more years from the previous experience investigation study of mortality, the retirement board, in consultation with the actuary and the department, shall increase the regular retirement age by at least 1 year up to the total increase in whole-year increments unless the most recent actuarial funded ratio for the benefits funded under section 41b(3) is greater than 100% after accounting for an increase in mortality as reflected in the experience investigation study. Any adjustment to the regular retirement age by the retirement board must take place within 12 months after the retirement board's adoption of the most recent experience investigation study on an effective date as determined by the retirement board. Any required increase to the regular retirement age under this subsection must take into account the cumulative increase in mortality relative to the experience investigation study covering the period 2012 through 2017, less any actual increase already taken into account in a previous increase to the regular retirement age. An adjustment to the regular retirement age under this subsection does not apply to a member who, on the effective date of the increase, is within 5 years of the then current regular retirement age. The retirement board may additionally exclude members who, on the effective date of the increase, are within between 5 and 8 years of the then current regular retirement age.

(6) As used in this section, "regular retirement age" means the following:

(a) For a member who first becomes a member on or after July 1, 2010 and before February 1, 2018, 60 years of age and is not subject to increase as provided under subsection (5).

(b) Subject to subsection (5), for a member who first becomes a member on or after February 1, 2018, 60 years of age.

accepting elections; election period; member not making election considered as member of Tier 1; collection of employer and employee contributions; qualified participant considered as participant in Tier 2; definitions.

Sec. 81d. (1) Except as provided in subsection (8), the retirement system shall permit each qualified participant who first becomes a qualified participant and first works for a reporting unit after September 3, 2012 to make an election to not become a member of Tier 1 and become only a qualified participant in Tier 2.

(2) The retirement system shall determine a method of accepting elections under subsection (1) and reporting units shall secure those elections during the period beginning on the date of the individual's employment and ending on the expiration of 75 days from the individual's first payroll date. An election under subsection (1) is irrevocable. The retirement system shall provide a form on which each qualified participant who first becomes a qualified participant and first works for a reporting unit after January 31, 2018 and before July 1, 2024 may make an election under subsection (1). The form described in this subsection must be accompanied by a description of the benefit options. The form must include an acknowledgment that the qualified participant has received the description of the benefit options.

(3) A qualified participant who first becomes a qualified participant and first works for a reporting unit after September 3, 2012 and before February 1, 2018 who does not make an election under subsection (1) for any reason on or before the close of the election period is considered to have made an election to become a member of Tier 1 and is subject to all of the following as of the date of his or her employment:

(a) The qualified participant is eligible to accrue any service credit or qualify for any retirement allowance under Tier 1 under the terms as provided in section 81c.

(b) The qualified participant is also a qualified participant under Tier 2.

(4) A qualified participant who first becomes a qualified participant and first works for a reporting unit after January 31, 2018 and before July 1, 2024 who does not make an election for any reason on or before the close of the election period is considered to have made an election to become only a qualified participant in Tier 2.

(5) An individual who makes the election under subsection (1) on or before the close of the election period or is a qualified participant described in subsection (4) is considered to have made an election to not become a member of Tier 1 and is subject to all of the following as of the date of his or her employment:

(a) The individual is not eligible to accrue any service credit or qualify for any retirement allowance under Tier 1 under the terms as provided in section 81c.

(b) The individual is only a qualified participant under Tier 2.

(6) A qualified participant who first becomes a qualified participant and first works for a reporting unit after June 30, 2024 who does not make an election under subsection (1) for any reason on or before the close of the election period is considered to have made an election to become a member of Tier 1 and is subject to all of the following as of the date of the qualified participant's employment:

(a) The qualified participant is eligible to accrue any service credit or qualify for any retirement allowance under Tier 1 under the terms as provided in section 81c.

(b) The qualified participant is also a qualified participant under Tier 2.

(7) The retirement system shall collect from an individual described in subsection (1) all amounts required under sections 43a and 131(2) and shall collect all required employer contributions required under Tier 1 from the individual's date of employment. If an individual makes a valid election under subsection (1) to not become a member of Tier 1 or is a qualified participant under subsection (4), the retirement system shall determine and implement a method to reconcile employer and employee contributions to be deposited to Tier 2, and any such employee contributions will be considered to be elective contributions under section 131.

(8) A qualified participant who first becomes a qualified participant and first works for a reporting unit following the effective date of the qualifying event is only a Tier 2 qualified participant and is considered to have made an election to become only a qualified participant in Tier 2. As used in this subsection:

(a) "Effective date of the qualifying event" means 12 months after the date that the retirement board receives the valuation report showing that the qualifying event has occurred.

(b) "Qualifying event" means the date on which the actuarial funded ratio for the plan for which the separate contribution rate is calculated under section 41b(2) falls below 85% for 2 consecutive years, based on the actuarial funded ratio using 5-year smoothing of investment returns. For purposes of valuation under this subdivision, the qualifying event does not occur if either of the following applies:

(i) The actuarial funded ratio falls below 85% but would not have fallen below 85% but for the failure of the employer or this state to make a required contribution as calculated under section 41b.

(ii) This state makes an appropriation to the plan described under this subdivision that increases the valuation as described under this subsection to 85% or higher.

Upon or after 60 years of age, entitlement of the member's deferred vested service retirement allowance shall begin the first day of the calendar month next following the deferred member's written application filed with the retirement board on forms furnished by the board. The deferred member's entitlement to a deferred vested service retirement allowance based on prior service or contributory membership service, or both, shall be forfeited if the deferred member withdraws from the retirement system the member's accumulated contributions unless the service is reinstated as provided in section 66. (2) A full month's retirement allowance shall be payable for the month in which a retirant or retirement allowance beneficiary ceases to be eligible for continuation of benefits. 38.1384 Retirement allowance; benefits; applicability of reduction; recalculation of retirement allowance; adjusted retirement allowance; election to return retirement allowance payments.

Sec. 84. (1) Subject to section 84b and except as provided in subsection (2), upon the member's retirement from service as provided in section 81, a member shall receive a retirement allowance that equals the product of the member's total years, and fraction of a year, of credited service multiplied by 1.5% of the member's final average compensation. A member shall not be allowed to use more than 15 years of out of system public education service, or more out of system public education service than service performed under this act or former 1945 PA 136 unless, before July 1, 1974, the member applied for out of system public education service credit based upon payment of contributions for the service as required under section 69, or former acts, in which case the total out of system public education service credited, not to exceed 15 years, shall be

used to compute the member's retirement allowance if the minimum service requirements performed under this act or former acts or as a state employee under the state employees' retirement act, 1943 PA 240, MCL 38.1 to 38.69, are met. Credit for state of Michigan service shall be on the same basis for eligibility for retirement provided in this act as if the service were performed under this act, former 1945 PA 136, former 1941 PA 56, or former 1937 PA 184.

(2) If a member having less than 30 years credited service retires before the member's sixtieth birthday as provided in section 81, the member's retirement allowance provided in subsection (1) shall be reduced 1/2 of 1% for each month, and fraction of a month, within the period from the effective date of the member's retirement to the date of the member's sixtieth birthday, and shall continue at that same percentage after becoming 60 years of age.

(3) The reduction of 1/2 of 1% for each month and fraction of a month from the member's retirement allowance effective date to the date of the member's sixtieth birthday provided for in former 1945 PA 136, applicable to a member who retired before July 1, 1974 and before attainment of age 60, shall not apply to a member who retired before that date, at age 55 or more, having 30 or more years of credited service. The retirement allowance shall be recalculated disregarding the reduction and the person receiving the retirement allowance shall be eligible to receive an adjusted retirement allowance based on the recalculation beginning January 1, 1986, but shall not be eligible to receive the adjusted amount attributable to any month beginning before January 1, 1986.

(4) The reduction provided for in subsection (2) shall not apply to a member who retires under either section 86 or 87, or to a retirement allowance beneficiary who is granted an allowance under section 43c(c), 89, or 90.

(5) The retirement allowance of a person who satisfies the requirements of this subsection shall be recalculated based on 1.5% of final average compensation times years of credited service. The person receiving the retirement allowance shall be eligible to receive an adjusted retirement allowance based on the recalculation beginning January 1, 1986, but shall not be eligible to receive the adjusted amount attributable to any month beginning before January 1, 1986. A retirement allowance shall be recalculated under this subsection if 1 of the following applies:

(a) The retirement allowance was payable to a retirant or retirement allowance beneficiary under chapter II of former 1945 PA 136 and the retirement allowance effective date was on or after July 1, 1956 but before July 1, 1974.

(b) The retirement allowance was payable to a plan II retirant or retirement allowance beneficiary under chapter I of former 1945 PA 136 and the retirement allowance effective date was before July 1, 1974.

(6) A member retiring pursuant to section 81 who acquires at least 5 years of combined credited service under this act or under former 1945 PA 136, and who is already in receipt of a retirement allowance under chapter II of former 1945 PA 136, may elect to return to the retirement system any retirement allowance payments received, and receive a single retirement allowance computed on the combined years of service credited under this act and any former act.

38.1385 Payment options; election; change of option or beneficiary; payment to beneficiary; reversion of benefit to straight retirement allowance; term of payment; beneficiary predeceasing retirant who returns to service; effect of election of retirant's divorce from spouse designated as beneficiary; payment of difference between accumulated contributions and aggregate amount of retirement allowance payments; change of beneficiary; optional form of benefit payment; limitation; termination.

Sec. 85. (1) A retiring member or retiring deferred member who meets the requirements of section 81 or 81a or a member whom the retirement board finds to be totally and permanently disabled and eligible to receive a retirement allowance under section 86 or 87 shall elect to receive his or her retirement allowance under 1 of the payment options provided in this subsection. The election shall be in writing and filed with the retirement board at least 15 days before the effective date of the retirement allowance except as provided for a disability retirant under section 86 or 87. The amount of retirement allowance under subdivision (b), (c), or (d) shall be the actuarial equivalent of the amount of retirement allowance under subdivision (a). The options are as follows:

(a) A retirant shall be paid a straight retirement allowance for life computed pursuant to section 84. An additional retirement allowance payment shall not be made upon the retirant's death.

(b) A retirant shall be paid a reduced retirement allowance for life with the provision that upon the retirant's death, payment of the reduced retirement allowance is continued throughout the lifetime of the retirement allowance beneficiary whom the member or deferred member designates in a writing filed with the retirement board at the time of election of this option. A member or deferred member may elect this option and designate a retirement allowance beneficiary under the conditions set forth in section 82(2) or 89(3).

(c) A retirant shall be paid a reduced retirement allowance for life with the provision that upon the retirant's death, payment of 1/2 of the reduced retirement allowance is continued throughout the lifetime of the retirement allowance beneficiary whom the member designated in a writing filed with the retirement board at the time of election of the option.

(d) On and after January 1, 2000, a retirant shall be paid a reduced retirement allowance for life with the provision that upon the retirant's death, payment of 75% of the reduced retirement allowance is continued throughout the lifetime of the retirement allowance beneficiary whom the member designated in a writing filed with the retirement board at the time of election of the option.

(2) In addition to the election under subsection (1), a retirant, other than a disability retirant who is 60 years of age or less, may elect to coordinate his or her retirement allowance with an estimated primary social security benefit. The retirant shall be paid an increased retirement allowance until 62 years of age and a reduced retirement allowance after 62 years of age. The increased retirement allowance paid until 62 years of age shall approximate the sum of the reduced retirement allowance payable after 62 years of age and the retirant's estimated social security primary insurance amount. The estimated social security primary insurance amount shall be determined by the retirement system. The election under this subsection shall be made at the same time and in the same manner as required under subsection (1).

(3) Except as otherwise provided in this section, the election of a payment option in subsections (1) and (2) shall not be changed on or after the effective date of the retirement allowance. Except as provided in this section, the retirement allowance beneficiary selected under subsection (1)(b), (c), or (d) shall not be changed on or after the effective date of the retirement allowance and shall be either a spouse, brother, sister, parent, or child, including an adopted child, of the member, deferred member, retiring member, or retiring deferred member entitled to make the election under this act. Another retirement allowance beneficiary shall not be selected. If a member, deferred member, retiring member, or retiring deferred member is married at the

retirement allowance effective date, an election under subsection (1), other than an election under subsection (1)(b), (c), or (d) naming the spouse as retirement allowance beneficiary, shall not be effective unless the election is signed by the spouse, except that this requirement may be waived by the board if the signature of a spouse cannot be obtained because of extenuating circumstances. For purposes of this subsection, "spouse" means the person to whom the member, deferred member, retiring member, or retiring deferred member is married at the retirement allowance effective date. Payment to a retirement allowance beneficiary shall start the first day of the month following the retirant's death.

(4) Except as otherwise provided in subsection (8), if the retirement allowance beneficiary selected under subsection (1)(b), (c), or (d) predeceases the retirant, the retirant's benefit shall revert to a straight retirement allowance including post-retirement adjustments, if any, shall be effective the first of the month following the death, and shall be paid during the remainder of the retirant's life. This subsection applies to a retirant whose effective date of retirement is after June 28, 1976, but the straight retirement allowance shall not be payable for any month beginning before the later of the retirement allowance beneficiary's death or October 31, 1980. This subsection also applies to a retirant whose effective date of retirement was on or before June 28, 1976, but the straight retirement allowance shall not be payable for any month beginning before the later of the retirement allowance beneficiary's death or January 1, 1986. A retirant who on January 1, 1986 is receiving a reduced retirement allowance because the retirant designated a retirement allowance beneficiary and the retirement allowance beneficiary predeceased the retirant is eligible to receive the straight retirement allowance beginning January 1, 1986, but the straight retirement allowance shall not be payable for any month beginning before January 1, 1986.

(5) A retirant who returns to service pursuant to section 61 and whose retirement allowance beneficiary selected under subsection (1)(b), (c), or (d) predeceases the member before he or she again becomes a retirant may again choose a retirement allowance beneficiary pursuant to subsection (1)(b), (c), or (d).

(6) If a retirant receiving a reduced retirement allowance under subsection (1)(b), (c), or (d) is divorced from the spouse who had been designated as the retirant's retirement allowance beneficiary under subsection (1)(b), (c), or (d), the election of a reduced retirement allowance payment option shall be considered void by the retirement system if the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, described in the public employee retirement benefit protection act, 2002 PA 100, MCL 38.1681 to 38.1689, and dated after June 27, 1991 provides that the election of a reduced retirement allowance payment option under subsection (1)(b), (c), or (d) is to be considered void by the retirement system and the retirant provides a certified copy of the judgment of divorce or award or order of the court, or an amended judgment of divorce or award or order of the court, to the retirement system. If the election of a reduced retirement allowance payment option under subsection (1)(b), (c), or (d) is considered void by the retirement system under this subsection, the retirant's retirement allowance shall revert to a straight retirement allowance, including postretirement adjustments, if any, subject to an award or order of the court as described in the public employee retirement benefit protection act, 2002 PA 100, MCL 38.1681 to 38.1689. The retirement allowance shall revert to a straight retirement allowance under this subsection effective the first of the month after the date the retirement system receives a certified copy of the judgment of divorce or award or order of the court. This subsection does not supersede a judgment of divorce or award or order of the court in effect on June 27, 1991. This subsection does not require the retirement system to distribute or pay retirement assets on behalf of a retirant in an amount that exceeds the actuarially determined amount that would otherwise become payable if a judgment of divorce had not been rendered.

(7) If the retirement allowance payments terminate before an aggregate amount equal to the retirant's accumulated contributions has been paid, the difference between the retirant's accumulated contributions and the aggregate amount of retirement allowance payments made shall be paid to the person designated in a writing filed with the retirement board on a form provided by the retirement board. If the designated person does not survive the retirant or retirement allowance beneficiary, the difference shall be paid to the deceased recipient's estate or to the legal representative of the deceased recipient.

(8) A retirant who selected a retirement allowance beneficiary under subsection (1)(b), (c), or (d) may change his or her retirement allowance beneficiary if all of the following apply:

(a) The first retirement allowance beneficiary is a spouse.

(b) The first retirement allowance beneficiary predeceases the retirant after the retirement allowance effective date.

(c) The retirant marries another spouse after the retirement allowance effective date.

(a) The retirant marries after his or her retirement allowance effective date.

(10) The retirement allowance of the retirant who makes an election under subsection (8) or (9) shall not be greater than the actuarial equivalent of the retirement allowance as determined by the retirement board that the retirant would otherwise be entitled to under subsection (1)(a) and shall become effective the first day of the month following the filing of the written request with the retirement system.

(11) If the retirant dies no later than 12 months after the effective date of his or her election under subsection (8) or (9), the retirement allowance for the surviving spouse established under subsection (8) or (9) shall terminate 12 months after the death of the retirant.

(a) The member has not met age and service requirements of section 81(1)(a) or (b) or, if the member first became a member on or after July 1, 2010, the member has not met age and service requirements of section 81c(1).

The years of service credit used in computing the retiree's duty disability retirement allowance shall not be less than 10 years. If the member has less than 5 consecutive years of credited service, the average of the member's annual compensation shall be used.

(3) Upon recovery and return to reporting unit service or upon termination of the statutory period for the payment of a disability retiree's worker's disability compensation, if any, arising on account of the retiree's reporting unit service, the retiree shall be given service credit for the period and the retiree's disability retirement allowance shall be adjusted to include the additional credit.

38.1388 Duty or nonduty disability retiree; medical examination; affidavit; deception; discontinuance or revocation of nonduty disability retirement allowance; return to membership; restoration of credited service; restoration of duty disability retiree to active service; cessation of allowance or rights to allowance; lump sum payment; payment on retiree's sixtieth birthday; reduction of retirement allowance; computation of allowable earnings; applicability of subsection (4).

Sec. 88. (1) The retirement board may require a duty or nonduty disability retiree to submit to a medical examination by a practicing physician or a medical officer designated by the retirement board as necessary for proof of eligibility for continuance of the disability allowance. The retirement board may require each disability retiree who is 59 years of age or less to submit a sworn affidavit during January of each year, in the form and manner prescribed by the retirement board, attesting that the retiree believes himself or herself to be totally and permanently disabled for the same reason for which the disability allowance was granted, and disclosing any significant change in physical or mental condition that occurred during the preceding 12-month period because of medical treatment. A retiree who submits information with intent to deceive may have the disability retirement allowance revoked by the retirement board.

(2) The retirement board may discontinue a nonduty disability retirement allowance if medical examination reports indicate that the retiree no longer is disabled. If a nonduty disability retiree refuses to submit to an examination, the retiree's disability retirement allowance may be discontinued until withdrawal of the refusal. If a refusal continues for 12 months, the retiree's rights to a nonduty disability retirement allowance shall be revoked by the retirement board. However, upon the retiree's sixtieth birthday the retiree shall be paid a retirement allowance based on the final average compensation, service, and benefit formula as of the effective date of the retiree's nonduty disability retirement allowance if the retiree's contributions are left on deposit. If the nonduty disability retiree returns to membership service after termination of a disability allowance, the retiree shall again become a member of the retirement system. The retiree's credited service in effect at the time of disability retirement shall be restored.

(3) If, upon examination of a duty disability retiree, the medical report indicates that the retiree no longer is disabled and is capable of resuming public school employment, the retiree shall be restored to active

service with the reporting unit from which the person terminated employment and the duty disability retirement allowance shall cease. Payment of the duty disability retirement allowance shall continue until the retirant is actually returned to reporting unit service in a position for which the retirant is qualified by reason of training, or experience, or both. The retirant again shall become a member of the retirement system and the retirant's credited service in effect at the time of duty disability retirement shall be restored. If the retirant refuses to either submit to a medical examination or to return to reporting unit service and if either refusal continues for 12 months, the retirant's rights to a duty disability retirement shall cease. A lump sum payment shall be made of the difference between the retirant's accumulated contributions at time of retirement and the aggregate amount of the retirant's disability retirement allowance payments, unless the retirant has acquired 10 or more years of credited service before the time of his or her duty disability allowance. In that event, upon the retirant's sixtieth birthday, the retirant shall be paid a retirement allowance based upon the final average compensation, service, and benefit formula as of the effective date of the duty disability retirement allowance, if the retirant's contributions as a member are left on deposit.

(4) If a disability retirant becomes engaged in gainful employment, and if the total of the retirant's income from the employment and retirement allowance exceeds the retirant's final average compensation, the retirement allowance shall be reduced to an amount which when added to the amount earned by the retirant equals the retirant's final average compensation. For purposes of computing allowable earnings under this subsection, the final average compensation shall be increased by 2% for each 12 months elapsed after the date the retirement allowance commenced. This subsection shall not apply on or after the date the duty or nonduty disability retirant otherwise would have been eligible for an age and service retirement allowance if the retirant had not become disabled, but the retirant shall be subject to section 61.

38.1389 Surviving spouse; computation, payment, and termination of retirement allowance; remarriage of surviving spouse; allowance for surviving child less than 18; election of retirement allowance beneficiary; grounds for voiding election; death of member; presumption of dependency; termination of allowance; payment to refund beneficiary; member contributing to member investment plan.

Sec. 89. (1) If a member who continues as a public school employee on or after either the date the member has 15 years of credited service in effect, or the date of the member's sixtieth birthday if the member has 10 years of credited service in effect, dies before the effective date of his or her retirement and leaves a surviving spouse to whom the deceased member was married at time of death, the surviving spouse shall receive a retirement allowance computed in the same manner as if the deceased member had retired effective the day preceding the date of the deceased member's death, elected the option set forth in subsection (3), and nominated the surviving spouse as retirement allowance beneficiary. The surviving spouse's retirement allowance shall terminate upon the surviving spouse's death. A surviving spouse who on June 27, 1984, is receiving a retirement allowance under this section or the predecessor to this section under former Act No. 136 of the Public Acts of 1945 shall be eligible to continue receiving that retirement allowance regardless of the surviving spouse's remarriage. A surviving spouse whose retirement allowance under this section or the predecessor to this section under former Act No. 136 of the Public Acts of 1945 was terminated due to the surviving spouse's remarriage shall be eligible to receive that allowance beginning on the first day of the month following the month in which written application for reinstatement is filed with the board, but shall not be eligible to receive the allowance attributable to any month beginning before the month of reinstatement under this section. A surviving spouse of a person who was a deferred member on October 31, 1980, who becomes eligible to receive a retirement allowance under this section or the predecessor to this section under former Act No. 136 of the Public Acts of 1945, shall be eligible to receive that retirement allowance and that allowance shall not be subject to termination because of the surviving spouse's remarriage.

(2) If the other requirements of subsection (1) are met but a surviving spouse does not exist, each of the deceased member's surviving children less than 18 years of age shall receive an allowance of an equal share of the retirement allowance which would have been paid to the spouse if living at the time of the deceased member's death. Payments under this subsection shall cease upon the surviving child's marriage, adoption, or becoming 18 years of age, whichever occurs first.

(3) A member who continues as a public school employee on or after either the date the member has 15 years of credited service in effect, or the date of the member's sixtieth birthday if the member has 10 years of credited service in effect, may elect the option provided in section 85(1)(b) and nominate a retirement allowance beneficiary as provided in section 85(3). The election shall be in writing and filed with the

retirement board in a manner and form prescribed by the retirement board. The election shall be void upon the member's retirement, termination of employment except as provided in section 82(2), divorce, the retirement allowance beneficiary's death, or upon the retirement allowance beneficiary no longer being dependent upon the member before the member's death. If a member who has an option election under section 85(1)(b) in effect dies before the effective date of his or her retirement, the member's retirement allowance beneficiary, so long as the beneficiary continues to be so dependent, shall receive the same retirement allowance as the retirement allowance beneficiary would have been entitled to receive under the option provided in section 85(1)(b) if the member had been regularly retired pursuant to section 81 or 82 the day preceding the date of the member's death, even though the member may not have acquired entitlement to service retirement. The surviving spouse of the deceased member shall be presumed to be 50% dependent on the deceased member for his or her own financial support. The surviving spouse's retirement allowance shall terminate upon the surviving spouse's death.

(4) If at the time a retirement allowance beneficiary's retirement allowance granted by this section is terminated, the aggregate amount of retirement allowance payments received by the retirement allowance beneficiary are less than the accumulated contributions credited to the deceased member's account in the reserve for employee contributions at the time of the deceased member's death, the difference between the deceased member's accumulated contributions and the aggregate amount of retirement allowance payments received by the retirement allowance beneficiary shall be paid to the deceased member's refund beneficiary.

(5) For a member who contributes to the member investment plan, the credited service eligibility requirement applicable to the survivor benefits provided in this section are subject to section 43c.

38.1390 Surviving spouse of deceased member receiving worker's disability compensation; computation, payment, and termination retirement allowance; remarriage of surviving spouse; allowance for surviving children less than 18; computation, payment, and termination of allowance for surviving child less than 18 or for surviving dependent parent; computation and effective date of retirement allowance beneficiary's duty death retirement allowance; use of average annual compensation; election to accept refund; payment to legal representative of deceased member's or retirant's estate.

Sec. 90. (1) If a member dies as a result of injury or illness arising out of and in the course of the member's reporting unit service for which worker's disability compensation is paid, or a duty disability retirant who is in receipt of weekly worker's disability compensation on account of the retirant's reporting unit service dies from the same causes for which the person retired within 36 months after the retirant's retirement, and in either case the death or the illness or injury resulting in death is found by the retirement board to have resulted, without the member's or retirant's willful negligence, from the performance of the member's or retirant's reporting unit service, the surviving spouse of the deceased member or retirant shall receive a retirement allowance computed in the same manner as if the member or retirant had retired for reasons of age and service effective the day preceding the date of the member's or retirant's death, elected the option provided in section 85(1)(b), and nominated the surviving spouse as retirement allowance beneficiary. The surviving spouse's retirement allowance shall terminate upon death. A surviving spouse who on June 27, 1984, is receiving a retirement allowance under this section or the predecessor to this section under former Act No. 136 of the Public Acts of 1945 shall be eligible to continue receiving that retirement allowance regardless of the surviving spouse's remarriage. A surviving spouse whose retirement allowance under this section or the predecessor to this section under former Act No. 136 of the Public Acts of 1945 was terminated due to the surviving spouse's remarriage shall be eligible to receive that allowance beginning on the first day of the month following the month in which written application for reinstatement is filed with the board, but shall not be eligible to receive the allowance attributable to any month beginning before the month of reinstatement under this section.

(2) If the other requirements of subsection (1) are met but a surviving spouse does not exist, each child of the deceased member or duty disability retirant who is less than 18 years of age shall receive an allowance of an equal share of the retirement allowance which would have been paid to the spouse if living at the time of the member's or retirant's death. Payments under this subsection shall cease upon marriage, adoption, or becoming 18 years of age, whichever occurs first.

(3) If the other requirements of subsection (1) are met and neither a surviving spouse nor an eligible child surviving the deceased member or duty disability retirant exists, a monthly allowance shall be paid to 1 surviving dependent parent whom the retirement board finds to be totally and permanently disabled and to

have been dependent upon the deceased member or retirant for at least 50% of the parent's financial support. The allowance shall be computed in the same manner as if the deceased member or retirant had retired for reasons of age and service effective the day preceding the member's or retirant's death, elected the option provided in section 85(1)(b), and nominated the surviving parent as retirement allowance beneficiary. The surviving parent's beneficiary retirement allowance shall terminate upon marriage or death.

(4) The retirement allowance beneficiary's duty death retirement allowance shall be computed pursuant to section 84, except that the reduction for early retirement shall not apply. The effective date of the retirement allowance beneficiary's duty death retirement allowance shall be the first of the month following the month in which the member or retirant died. The years of service credit used in computing the retirement allowance beneficiary's duty death retirement allowance shall not be less than 10 years. If the deceased member or duty disability retirant has less than 5 consecutive years of credited service, the average of the decedent's annual compensation shall be used.

(5) Instead of the duty death benefits provided in this section to an eligible retirement allowance beneficiary, the retirement allowance beneficiary, before receipt of his or her first payment, may elect to accept a refund of the deceased member or duty disability retirant's accumulated contributions.

(6) If, at the time a retirement allowance beneficiary's duty death retirement allowance granted by this section is terminated, the aggregate amount of retirement allowance payments received by the retirement allowance beneficiary is less than the accumulated contributions credited to the deceased member's or duty disability retirant's account in the reserve for employee contributions and the reserve for member investment plan at the time of the member's or retirant's death, the difference between the accumulated contributions and the aggregate amount of retirement allowance payments received by the retirement allowance beneficiary shall be paid to the legal representative of the deceased member's or retirant's estate.

A member who first becomes a member on or after July 1, 2008 shall not be eligible for health benefits under this subsection until at least the time of application under subsection (8). The retirement system shall apply a method that enables it to make the determination under this subsection.

(11) Except for a member who retires under section 86 or 87 or a member who meets the requirements under subsection (7) or (8), the retirement system shall not pay the benefits provided in subsection (1) or (4) unless the member was employed and has received a minimum total of 1/2 of a year of service credit granted pursuant to section 68 during the 2 school fiscal years immediately preceding the member's retirement allowance effective date or the member has received a minimum of 1/10 of a year of service credit granted pursuant to section 68 during each of the 5 school fiscal years immediately preceding the member's retirement allowance effective date. This subsection does not apply to a member who is unable to meet the service credit requirements of this subsection because of 1 or more periods of unpaid leaves of absence approved by the reporting unit during the period of leave of absence, as a result of a mental or physical disability supported by the member's doctor during the period of leave of absence.

(12) Any retirant or retirement allowance beneficiary excluded from payments under this section may participate in the hospital, medical-surgical, and sick care benefits plan, the dental plan, or vision plan, or any combination of the plans described in this section in the manner prescribed by the retirement system at his or her own cost.

(a) If the person covered under the hospital, medical-surgical, and sick care benefits plan is also eligible for medicare or medicaid, or both, then the benefits under medicare or medicaid, or both, shall be determined before the benefits of the hospital, medical-surgical, and sick care benefits plan provided pursuant to this section.

(b) If the person covered under any of the plans provided by this section is also covered under another plan that contains a coordination of benefits provision, the benefits shall be coordinated as provided by the coordination of benefits act, 1984 PA 64, MCL 550.251 to 550.255.

(c) If the person covered under any of the plans provided by this section is also covered under another plan that does not contain a coordination of benefits provision, the benefits under the other plan shall be determined before the benefits of the plan provided pursuant to this section.

(14) Beginning January 1, 2009, upon the death of the retirant, a retirement allowance beneficiary who became a retirement allowance beneficiary under section 85(8) or (9) is not a health insurance dependent and is not entitled to health benefits under this section except as provided in this subsection. 38.1391a Retiree health care insurance coverage for employees hired after September 4, 2012; matching contribution in lieu of health insurance coverage benefits; vesting provisions; election to opt out of health insurance coverage premiums; effect of not making election under subsection (5); break in service or reemployment; implementation and applicability of subsections (5) to (10); report; definitions.

Sec. 91a. (1) An individual who first became a member or qualified participant on or after September 4, 2012 or who made the election under subsection (5) shall not receive any health insurance coverage premium from the retirement system for any benefits under section 91 or as a result of benefits provided under section 86, 87, or 89. In lieu of any of these benefits that might have been paid by the retirement system, a member's

or qualified participant's employer shall make a matching contribution up to 2% of the member's or qualified participant's compensation to Tier 2 for each member who first became a member or qualified participant on or after September 4, 2012 or who made the election under subsection (5). A matching contribution under this subsection shall not be used as the basis for a loan from an employee's Tier 2 account. If the department or retirement system offers a health expenditure account or similar account for the purpose of managing a member's health care funds under this section, as permitted by state or federal law, the department or retirement system shall issue a request for proposals before implementation of that health expenditure account or similar account.

(2) An individual who first became a member or qualified participant on or after September 4, 2012 or who made the election under subsection (5) may make a contribution up to 2% of the member's or qualified participant's compensation to a Tier 2 account. A member or qualified participant described in this subsection may make additional contributions to his or her Tier 2 account as permitted by the department and the internal revenue code.

(3) Except as otherwise provided in this subsection, a member or qualified participant is vested in contributions made to his or her Tier 2 account under subsections (1) and (2) according to the vesting provisions under section 132. A member who is eligible for the payment of health insurance coverage premiums by the retirement system as a result of benefits provided under section 90 is not vested in any employer contributions under subsection (1) and forfeits the employer contributions and earnings on those contributions.

(4) The contributions described in this section shall begin with the first payroll date after the member or qualified participant is employed or on or after the transition date for a member who makes the election under subsection (5) and end upon his or her termination of employment.

(5) Except as otherwise provided in this section, beginning September 4, 2012 and ending at 5 p.m. eastern standard time on January 9, 2013, the retirement system shall permit each qualified member to make an election to opt out of health insurance coverage premiums that would have been paid by the retirement system under section 91 and opt into the Tier 2 account provisions of this section effective on the transition date. A qualified member who makes the election under this subsection shall cease accruing years of service credit for purposes of calculating a portion of the health insurance coverage premiums that would have been paid by the retirement system under section 91 as if that section continued to apply.

(6) A qualified member who does not make the election under subsection (5) continues to be eligible for the payment of health insurance coverage premiums by the retirement system under section 91 and is not eligible for the Tier 2 account provisions of this section. An individual who is not a qualified member, who is a former member on September 3, 2012, and who is reemployed by an employer on or after September 4, 2012 shall be treated in the same manner as a member described in this subsection who did not make the election under subsection (5).

(7) The retirement system shall calculate an amount to be credited to a Tier 2 account for each member who makes the election under subsection (5). The amount described in this subsection shall be an amount equal to the contributions made by the member under section 43e. A member who makes the election under subsection (5) shall cease making contributions under section 43e as determined by the retirement system, but no later than the first payroll date after the transition date. The amount calculated under this subsection shall be deposited as an employer contribution into the member's Tier 2 account as determined by the retirement system, but no later than the first payroll date after March 1, 2013. A member is immediately 100% vested in amounts deposited to his or her Tier 2 account under this subsection.

(8) A member or former member who does not make the election under subsection (5), who is 60 years of age or older, who does not qualify for the payment of health insurance coverage premiums by the retirement system under section 91, and who files an application with the retirement system on or after termination of employment shall receive a separate retirement allowance as calculated under this subsection. Except as otherwise provided under this subsection, the separate retirement allowance under this subsection shall be paid for 60 months and shall be equal to 1/60 of the amount equal to the contributions made by the member under section 43e. The retirement system may pay out de minimus amounts as a lump sum as determined by the retirement system and as permitted by the internal revenue code. A member receiving a separate retirement allowance under this subsection shall not subsequently receive the payment of health insurance coverage premiums by the retirement system under section 91. A member who dies before qualifying for the payment of health insurance coverage premiums by the retirement system under section 91 shall have a separate retirement allowance as provided in this subsection paid to the member's beneficiary upon application to the retirement system. A member who qualifies for the payment of health insurance coverage premiums by the retirement system under section 91 but who dies before the payment of health insurance coverage premiums by the retirement system in an amount equal to or greater than the amounts contributed

under section 43e shall have a separate retirement allowance as provided in this subsection paid to the member's beneficiary following the cessation of health insurance coverage premiums paid by the retirement system in an amount equal to the difference between the health insurance coverage premiums paid by the retirement system under section 91 and contributions made by the member under section 43e. The amount of the separate retirement allowance as determined under this subsection shall be increased in a manner as determined by the retirement system by a percentage equal to 1.5% multiplied by the total number of years that member made contributions under section 43e.

(9) A member or former member who has a break in service and is reemployed retains the same election that the member made under this section before the break in service. If the member made the election under subsection (5), the member shall continue to receive the Tier 2 account contributions as provided in subsections (1) and (2). If the member did not make the election under subsection (5), the member shall continue to make the contributions as provided under section 43e and is subject to subsection (8), if applicable.

(10) In lieu of any other health insurance coverage premium that might have been paid by the retirement system under section 91, a credit to a health reimbursement account within the trust created under the public employee retirement health care funding act, 2010 PA 77, MCL 38.2731 to 38.2747, shall be made by the retirement system in the amounts and to the members or qualified participants as follows:

(a) Two thousand dollars to an individual who first became a member or qualified participant on or after September 4, 2012, who is 60 years of age or older, and who has at least 10 years of service at his or her first termination of employment.

(b) One thousand dollars to an individual who first became a member or qualified participant on or after September 4, 2012, who is less than 60 years of age, and who has at least 10 years of service at his or her first termination of employment.

(11) The retirement system shall determine a method to implement subsections (5) to (10), including a method for crediting the amounts in those subsections to comply with any restrictions imposed by the internal revenue code. Notwithstanding any provision of this act to the contrary, the Tier 2 plan provisions of this section shall be implemented by the department as soon as feasible but not later than January 1, 2013.

(12) Subsections (5) to (10) do not apply to a member who is eligible for the payment of health insurance coverage premiums by the retirement system as a result of benefits provided under section 90.

(13) On or before July 1, 2017, the retirement system shall provide a report to the chairs of the house and senate appropriations committees that provides the projected impact of subsection (10) as it applies to members first employed and entered upon the payroll of reporting units on or after July 1, 2017 with regard to the annual required contribution as used by the governmental accounting standards board and for purposes of the annual financial statements prepared under section 28(1).

(14) As used in this section:

(a) "Compensation" means that term as defined in section 122(2).

(b) "Qualified member" means a member who meets all of the following requirements:

(i) He or she first became a member before September 4, 2012.

(ii) He or she has earned service credit in the 12 months ending September 3, 2012 or was on an approved professional services or military leave of absence on September 3, 2012.

38.1404a Determining rate of investment return on retirement system assets and present value of retirement allowances; calculation and reduction of distribution income; crediting distribution units to retirant or retirement allowance beneficiary; calculation and payment of distribution amount; increase in retirement allowance; computation of cumulative increase amount; supplemental payment; increase in retirement allowance effective before October 1, 1981; increase in retirement allowance effective on or before January 1, 1987.

Sec. 104a. (1) After the end of each state fiscal year, the department shall determine the rate of investment return earned on retirement system assets during the fiscal year, based upon methods established by the retirement board.

(2) At the end of each state fiscal year, the retirement system's actuary shall determine the present value of retirement allowances to be paid after the end of the fiscal year to retirants and retirement allowance beneficiaries in receipt of retirement allowances at the end of the fiscal period. The assumed interest rate used in the determination shall be 8% per year, compounded annually.

(3) The distribution income at the end of each state fiscal year shall be equal to the product of the present value of retirement allowances determined in subsection (2) at the end of the previous fiscal year times the positive excess, if any, of the rate of investment return determined in subsection (1) exceeding 8%. The distribution income calculated pursuant to this subsection at the end of the fiscal years 1984-85 and 1985-86 shall be reduced by the cost of prior postretirement adjustments paid from the appropriated credit for excess interest earnings on retired life assets during the fiscal year pursuant to sections 101, 102, 103, and 104.

(4) After the end of each state fiscal year, each retirant and retirement allowance beneficiary in receipt of a retirement allowance at the end of the fiscal year, and whose effective date of retirement allowance preceded the beginning of that fiscal year, shall be credited with 1 distribution unit for each full year between the effective date of retirement and the end of the fiscal year and 1 distribution unit for each full year of service credit in force on the effective date of retirement. Distribution units shall not accumulate from 1 year to the

next year.

(5) The distribution amount for an individual retirant or retirement allowance beneficiary shall be equal to the product of the distribution income determined in subsection (3) times the individual's number of distribution units determined in subsection (4) divided by the total number of distribution units for all eligible retirants and retirement allowance beneficiaries in receipt of retirement allowances at the end of the fiscal year. The distribution amount for an individual retirant or retirement allowance beneficiary of a retirant or member who contributed to the member investment plan is zero.

(6) Each retirement allowance that was effective on or before January 1, 1987 shall be increased effective on the later of January 1, 1986 or the retirement allowance effective date. The amount of the increase shall be 8% of the retirement allowance that would be payable as of the date of the increase without application of this subsection, except that if the retirement allowance is being paid under section 85(2), the increase shall be based on the retirement allowance that would have been paid under the payment option selected by the member under section 85(1).

(7) Until and including October 1, 1989, each retirement allowance that was effective on or before January 1, 1987 shall be increased each October 1 beginning with the later of October 1, 1986 or the first October 1 following the retirement allowance effective date. The amount of the annual increase shall be equal to 40.5% of the increase computed in subsection (6).

(8) After the end of each state fiscal year, the cumulative increase amount shall be computed for each retirant or retirement allowance beneficiary affected by subsections (6), (7), and (11). The cumulative increase amount shall be equal to the difference between the total retirement allowance paid during the state fiscal year and the retirement allowance that would have been payable without application of subsections (6), (7), and (11). The cumulative increase amount for any retirant or retirement allowance beneficiary whose effective date of retirement is after January 1, 1987 is zero.

(9) In March of each year, beginning in March, 1986, each retirant or retirement allowance beneficiary shall be paid, in a single supplemental payment, the excess, if any, of the distribution amount over the cumulative increase amount for the previous state fiscal year. If a retirant dies before receipt of a supplemental payment, the supplemental payment shall be made to the retirant's retirement allowance beneficiary, if any. If both the retirant and the retirement allowance beneficiary die before receipt of a supplemental payment, no payment shall be made.

(10) Each retirement allowance that was effective before October 1, 1981 shall be increased effective January 1, 1990. The amount of the increase shall be a percentage of the retirement allowance that is payable as of January 1, 1990 without application of this subsection, except that if the retirement allowance is being paid under section 85(2), the increase shall be based on the retirement allowance that would have been paid under the payment option selected under section 85(1). The percentage is as follows:

<u>Effective date of retirement</u>	<u>Percentage</u>
October 1, 1980 to September 30, 1981	1%

38.1408 Administration of retirement system as qualified pension plan created in trust under internal revenue code; requirements and benefit limitations; qualified military service.

Sec. 108. (1) This section is enacted pursuant to federal law that imposes certain administrative requirements and benefit limitations for qualified governmental plans. This state intends that the retirement system be a qualified pension plan created in trust under section 401 of the internal revenue code, 26 USC 401, and that the trust be an exempt organization under section 501 of the internal revenue code, 26 USC 501. The department shall administer the retirement system to fulfill this intent.

(2) The retirement system shall be administered in compliance with the provisions of section 415 of the internal revenue code, 26 USC 415, and regulations under that section that are applicable to governmental plans and beginning January 1, 2010, applicable provisions of the final regulations issued by the internal revenue service on April 5, 2007. Employer-financed benefits provided by the retirement system under this act shall not exceed the applicable limitations set forth in section 415 of the internal revenue code, 26 USC 415, as adjusted by the commissioner of internal revenue under section 415(d) of the internal revenue code, 26 USC 415, to reflect cost-of-living increases, and the retirement system shall adjust the benefits, including benefits payable to retirants and retirement allowance beneficiaries, subject to the limitation each calendar year to conform with the adjusted limitation. For purposes of section 415(b) of the internal revenue code, 26 USC 415, the applicable limitation shall apply to aggregated benefits received from all qualified pension

plans for which the office of retirement services coordinates administration of that limitation. If there is a conflict between this section and another section of this act, this section prevails.

(3) The assets of the retirement system shall be held in trust and invested for the sole purpose of meeting the legitimate obligations of the retirement system and shall not be used for any other purpose. The assets shall not be used for or diverted to a purpose other than for the exclusive benefit of the members, deferred members, retirants, and retirement allowance beneficiaries.

(4) The retirement system shall return post-tax member contributions made by a member and received by the retirement system to a member on retirement, pursuant to internal revenue service regulations and approved internal revenue service exclusion ratio tables.

(5) The required beginning date for retirement allowances and other distributions shall not be later than April 1 of the calendar year following the calendar year in which the employee attains age 70-1/2 or April 1 of the calendar year following the calendar year in which the employee retires. The required minimum distribution requirements imposed by section 401(a)(9) of the internal revenue code, 26 USC 401, shall apply to this act and be administered in accordance with a reasonable and good faith interpretation of the required minimum distribution requirements for all years to which the required minimum distribution requirements apply to the act.

(6) If the retirement system is terminated, the interest of the members, deferred members, retirants, and retirement allowance beneficiaries in the retirement system is nonforfeitable to the extent funded as described in section 411(d)(3) of the internal revenue code, 26 USC 411, and the related internal revenue service regulations applicable to governmental plans.

(7) Notwithstanding any other provision of this act to the contrary that would limit a distributee's election under this act, a distributee may elect, at the time and in the manner prescribed by the retirement board, to have any portion of an eligible rollover distribution paid directly to an eligible retirement plan specified by the distributee in a direct rollover. This subsection applies to distributions made on or after January 1, 1993. Beginning October 1, 2010, a nonspouse beneficiary may elect to have any portion of an amount payable under this act that is an eligible rollover distribution treated as a direct rollover that will be paid in a direct trustee-to-trustee transfer to an individual retirement account or individual retirement annuity described in section 408(a) or (b) of the internal revenue code, 26 USC 408, that is established for the purpose of receiving a distribution on behalf of the beneficiary and that will be treated as an inherited individual retirement account or individual retirement annuity pursuant to section 402(c)(11) of the internal revenue code, 26 USC 402.

(8) For purposes of determining actuarial equivalent retirement allowances under sections 45 and 85(1)(b), (1)(c), (1)(d), and (2), the actuarially assumed interest rate shall be determined by the director of the department and the retirement board in consultation with the actuary with utilization of the mortality tables adopted by the department and the retirement board.

(9) Notwithstanding any other provision of this act, the compensation of a member of the retirement system shall be taken into account for any year under the retirement system only to the extent that it does not exceed the compensation limit established in section 401(a)(17) of the internal revenue code, 26 USC 401, as adjusted by the commissioner of internal revenue. This subsection applies to any person who first becomes a member of the retirement system on or after October 1, 1996.

(10) Notwithstanding any other provision of this act, contributions, benefits, and service credit with respect to qualified military service will be provided under the retirement system in accordance with section 414(u) of the internal revenue code, 26 USC 414. This subsection applies to all qualified military service on or after December 12, 1994. Effective January 1, 2007, in accordance with section 401(a)(37) of the internal revenue code, 26 USC 401, if a member dies while performing qualified military service, for purposes of determining any death benefits payable under this act, the member shall be treated as having resumed and then terminated employment on account of death.
